MCI WORLDCOM ON-NET LOCAL EXCHANGE SERVICE

REC'D OCT 21 1998

21.5 Local ISDN Primary Rate Interface (Local ISDN PRI): Local ISDN-PRI is an alternative arrangement for individual local exchange services such as Local Trunk Basic and Local Trunk DID. Local ISDN-PRI is provisioned at the 1.544 Mbps rate via the Primary Rate Interface standard of the Integrated Services Digital Network (ISDN). Local ISDN-PRI provides the Customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.

(AT)

21.5.1 Local ISDN-PRI Service Arrangement - One or more Service Configurations can be combined to create a Local ISDN-PRI Service Arrangement. Customers may have multiple Local ISDN-PRI Service Arrangements per location, however for each Service Arrangement one Service Configuration 1 must be included. The controlling D channel will always reside on Service Configuration 1.

The D channel is a 64 Kbps channel that carries signaling and control for the B channels. The capabilities of the D channel are contained within the customer's Service Configuration.

The ISDN Digital Facility is ordered separately and not included as part of the Service Configuration.

21.5.1.1 Service Configuration 1 - The first Service Configuration for any Local ISDN-PRI Service Arrangement must be a Service Configuration 1. Service Configuration 1 provides twenty-three (23) 64 Kbps B channels and one (1) primary 64 Kbps D signaling channel. The primary D channel is an-out-of band signaling channel used to control and route all of the B channel traffic within the Local ISDN-PRI Service Arrangement.

21.5.1.2 Service Configuration 2 - This configuration is only available in conjunction with Service Configuration 1. It provides an additional twenty-four (24) 64 Kbps B channels which are controlled by the D channel on Service Configuration 1. Multiple Service Configuration 2s may be associated with a Service Configuration 1 subject to switching equipment limitations.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separately DID telephone numbers, as found in Section 21.2.2.1 preceding.

21.5.1.3 Service Configuration 3 - This configuration is also only available to subscribers who have a Service Configuration 1. It provides a backup 64 Kbps D channel and twenty-three (23) additional 64 Kbps B channels. The backup D channel will control and route all of the B channel traffic of a single PRI Service Arrangement in the event the D channel on the primary configuration (Service Configuration 1) fails. A maximum of one Service Configuration 3 may be included with each Local ISDN-PRI Service Arrangement. Service Configuration 3 is available subject to switching equipment capabilities.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separate DID telephone numbers, as found in Section 21.2.2.1 preceding.

The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by the dominant exchange service provider in the Customer's exchange area, of the Station number which is designated as the Customer's main billing number. Directory listings of additional Company Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for a monthly recurring charge per listing.

- A) The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clarity of the listing or the identification of the Customer is not impaired thereby. Where more than one line is required to properly list the Customer, no additional charge is made.
- B) The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
- C) Each listing must be designated government or business to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

22.2 Responsibility of the Carrier Customer (Cont.)

22.2.8 Prior to submitting an order for WLS, the Carrier must have obtained written documentation from the customer, explicitly authorizing the Carrier to provide local exchange telecommunications services. This proof of authorization must be retained by the Carrier and shall be made available upon request within two (2) business days from the day the request was made. The required form and content of customer authorization may be amended from time to time to meet the changing needs of the Company and the regulatory requirements imposed upon all carriers by the Commission. In the event that the Carrier cannot provide the proof of authorization within two business days, the Carrier must within two business days thereafter:

- (1) notify the Company to change the End User back to the local exchange carrier providing service to the end user before the change to the Carrier was made;
- (2) provide any End User information and billing records the Carrier has obtained relating to the end user to the prior Carrier;
- (3) notify the End User and the Company that the change has been made; and
- (4) pay the Company \$50.00 per line to compensate the Company for switching the End User back to the original carrier.

22.2.9 The Company will accept and process Carrier's requests to a Primary Interexchange Carrier (PIC) selection on behalf of End Users being provided local exchange service by the Carrier through the purchase of WLS. All such end user requests will be sole responsibility of the Carrier, including but not limited to: all communications with third parties, Commission inquiries and complaints, and resolution of all disputes concerning PIC selections. Accordingly, Carrier shall save the Company harmless against all claims and expenses (including attorneys' fees and costs) which may arise from or in connection with this section.

22.2.10 The Carrier shall be responsible for modifying and connecting any of its systems with Company provided interfaces. The Carrier will be required to take service in sufficient quantity or of appropriate class or grade of service so as to prevent the unreasonable interference with the service of other Carriers or of other of the Company's Customers.

22.2.11 When the Company receives an order from a Carrier ("Ordering Carrier") for services under this Part for a Carrier's Customer ("End User"), and the Company is currently providing services under this Part to another Carrier for the same end user ("Carrier Customer of Record"), the Company shall notify its Carrier Customer of Record of such order coincident with processing the order. It shall then be the responsibility of the Carrier Customer of Record and the Ordering Carrier to resolve any issues related to the End User. Carrier Customer of Record and/or Ordering Carrier agree to hold harmless and indemnify Company against any and all liability and claims, including reasonable attorneys' fees, that may result from the Company acting under this paragraph. The Carrier is required to adhere to the Company's Local Number Portability procedures which places the responsibility on the Carrier for all communication with End Users, Interexchange Carriers, and other local service providers.

The Carrier is solely responsible for the payment of charges for all services furnished in this Part including, but not limited to, calls originated or accepted at its End Users' service locations.

22.3 Availability

REC'D SEP 30 1999

The offering of Wholesale Local Service is subject to the continuing availability of the necessary facilities and equipment on an economic basis. Service is available where technically feasible from appropriately equipped central offices. The use of such services is subject to the technical parameters of the services provided.

22.4 Limitations

22.4.1 Use of WLS by a Carrier does not entitle the Carrier to access revenues associated with origination and termination of interexchange services over the local services provided.

22.4.2 The Carrier may not, without the Company's written authorization, offer WLS under any of the brand names of the Company or any of its affiliates, nor may any Carrier state or imply that there is any joint business association or any similar arrangement with the Company in the provision of telecommunications services to the Carrier's customers.

22.4.3 WLS may not be utilized as a substitute for carrier access services. The Company reserves the right to commission an audit to ensure that this condition is met.

22.4.4 The Company will not be responsible for the manner in which the use of service, or the associated charges, are allocated to others by a Carrier who resells service. All applicable rates and charges for such service will be billed to and be the responsibility of the Carrier.

22.4.5 The Carrier shall be responsible for providing to its customers and to the Company a telephone number or numbers that the Carrier's customers can use to contact the Carrier in the event of service or repair requests. In the event that the Carrier's customers contact the Company with regard to such requests, the Company shall inform the Carrier's customers that they should call their Carrier and may provide Carrier's contact number to the Carrier's customers.

22.4.6 In order to correctly update and maintain the Emergency Telephone Number Service ("E911 Service") database utilized by Brooks, Carrier is responsible for providing accurate and complete information regarding Carrier's Customers in a format prescribed by Brooks. Carrier agrees to forever indemnify and hold Brooks, its affiliated companies and any third-party provider or operator of facilities employed in the provisioning of WLS harmless from and against any and all claims, demands, suits, actions, losses, damages, assessments or payments which those parties may assert arising out of or relating to any incorrect, inaccurate or incomplete information in the E911 Service database. Carrier is solely responsible for collecting all surcharges, taxes, fees or similar liabilities associated with E911 Service. Carrier is also responsible for providing the interface, (to include a 24 hours a day, 7 days a week contact), between its End Users and both the Company and/or the Public Safety Answering Point for resolution of errors in connection with the Master Street Address Guide (MSAG), or other E911 related problems.

22.5 Branding

The Carrier may brand its local exchange services with its own brand name, provided that such name is consistent with Carrier's authorization by the Commission, and not confusingly similar to the name of another provider.

22.7 Additional Billing and Payment Regulations (Cont.)

22.7.4 If the Carrier fails to pay any undisputed charges within the period prescribed above, disconnection can occur after the conclusion of the Disconnection Notice Period. The Company shall have no liability to the Carrier or the Carrier's customers in the event of such disconnection. Upon receipt of notice that Company intends to disconnect all or any portion of Carrier's WLS, Carrier shall, at its sole expense, individually notify its End Users, prior to the effective date of disconnection, that the End User's Local Service may be disconnected due to Carrier's failure to pay Company charges that are due, and that such End User must select a new local exchange service provider. In the event Carrier fails to provide such notification or Carrier's End Users fail to select a new local exchange service provider by the effective date of disconnection, Company may, at the End User's request, provide such End Users with local service pursuant to the terms and conditions set forth in Company's applicable retail local tariff (including without limitation, Company's then-current recurring and usage sensitive rates for such local service).

22.7.5 A minimum one month billing period will be assessed to each service order request along with any other applicable charges.

22.7.6 Carrier may cancel WLS if Carrier provides written notification thereof to the Company not less than thirty (30) days prior to the effective date of cancellation.

22.7.7 If Carrier cancels WLS before the end of the Term Commitment Period, (or in the event Brooks terminates WLS due to Carrier's failure to meet its prescribed obligations) Carrier shall pay to the Company all charges for WLS provided through the effective date of such cancellation plus a cancellation charge (the "Cancellation Charge"). The Cancellation Charge will be calculated as follows:

- (1) If Carrier has a Monthly Revenue Commitment (as described in the Program Enrollment Terms), then the Cancellation Charge shall be equal to one hundred percent (100%) of Carrier's commitment(s), that would have become due for the remaining months of the Service Term (as described in the Program Enrollment Terms).
- (2) If Carrier does not have a Monthly Revenue Commitment, then the Cancellation Charge will equal the average monthly billing for WLS, to include exchange access lines, local usage, intraLATA toll, and optional features, multiplied by the remaining months of the Service Term (as described in the Program Enrollment Terms).

22.7.8 Carrier must maintain Carrier's Minimum Revenue Commitment (as described in the Program Enrollment Terms) each month during the Commitment Period.

22.7.9 If Carrier does not maintain the Minimum Revenue Commitment (as described in the Program Enrollment Terms), then Carrier shall pay to the Company all charges for WLS provided during that month plus a deficiency charge ("Deficiency Charge"). The Deficiency Charge will be the difference between Carrier's Minimum Revenue Commitment and Carrier's actual Monthly Revenue (as described in the applicable Rate and Discount Schedule). The Deficiency Charge will be due at the same time payment is due for WLS provided to Carrier.

If Carrier does not maintain at least sixty percent (60%) of Carrier's average monthly billing in any month during the Commitment Period then Carrier will pay to Company a "Deficiency Charge" equal to the difference between sixty percent (60%) of Carrier's average monthly billing for WLS, (to include exchange access lines, local usage, intraLATA toll, and optional features) and Carrier's actual Monthly Billing.
