1.4 TWO-POINT SERVICE - (Continued)

1.4.9 Discounted Rates Applicable to Messages Placed by Hearing and/or Speech Disabled Residence Customers. **MISSOURI Public Service Commission**

Disabled persons who have been certified to the Company or its authorized agent as having a hearing or speech impairment which necessitates that they communicate via a telecommunications device (e.g., text telephone or similar keyboard communications equipment) will receive, upon written application to the Company or its authorized agent, a reduction on intrastate, dial station messages placed from the premises of the certified residence account where the telecommunication device is located.

On directly dialed messages placed by certified speech and/or hearing handicapped customers from their residence, a 35 percent reduction in charges for the messages will apply.

Certification of the hearing and/or speech disability requires the completion of an application form certified by a physician, otolaryngologist, audiologist, licensed speech-language pathologist or an authorized agency representing hearing and speech disabled individuals.

1.4.10 Telecommunications Relay Service (TRS) Calls.

A Telecommunications Relay Service call is rated and billed as a call from the originating telephone number (calling station) to the terminating telephone number (called station). Direct dialed, calling card and operator assisted calls may be placed through TRS. Discounts applicable to relay calls appear in Section 1.4.9, preceding. User billed calls to enhanced and non-enhanced services are prohibited, (e.g., coin sent-paid, 900 or 976 numbers).
