**RE: FairPoint Communications Missouri, Inc. d/b/a FairPoint Communications
Revision to PSC Missouri Tariff No. 2 (Facilities for Intrastate Access)**

Dear Mr. Woodruff:

Enclosed for filing please find the above referenced tariff revisions submitted on behalf of FairPoint Communications Missouri, Inc. d/b/a FairPoint Communications. This filing restructures and re-prices intrastate switched access services in compliance with Phase III of the ICC reform requirements mandated by Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161 (released Nov 18, 2011). The Company respectfully requests an effective date of July 1, 2014.

The following tariff pages are included with this filing:

2 nd Revised Sheet 53	Revises ASR Modification Service Date Change to rates listed in NECA FCC Tariff No. 5;
2 nd Revised Sheet 127.1	Adds reference to NECA FCC Tariff No. 5;
2 nd Revised Sheet 150	Revises Switched Access Ordering Charges to rates listed in NECA FCC Tariff No. 5;
2 nd Revised Sheet 151	Revises Switched Transport Tandem-Switched Transport Facility and Tandem-Switched Transport Termination terminating rates to rates listed in NECA FCC Tariff No. 5;
1 st Revised Sheet 151.1	Revises Switched Transport – Tandem Switching terminating rate to rates listed in NECA FCC Tariff No. 5;
2 nd Revised Sheet 152	Revises End Office Switching per access minute rates to rates listed in NECA FCC Tariff No. 5;
2 nd Revised Sheet 153	Revises Information Surcharge terminating per access minute rates to rates listed in NECA FCC Tariff No. 5;

Any questions you may have regarding this filing should be directed to my attention at 407-740-3031 or via email to stomas@tminc.com. Thank you for your assistance in this matter.

Sincerely,

/s/Sharon Thomas

Enclosures

FACILITIES FOR INTRASTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)

3.2 Access Service Request (Cont'd)

3.2.2 ASR Modifications

The customer may request a modification of its ASR prior to the service date. The Telephone Company will make every effort to accommodate a requested modification when it is able to do so with the normal work force assigned to complete such an ASR within normal business hours. If the modification cannot be made with the normal work force during normal business hours, the Telephone Company will notify the customer. If the customer still desires the ASR modification, the Telephone Company will schedule a new service date. All charges for ASR modifications will apply on a per occurrence basis where a new ASR may be required the appropriate charges in other sections of this tariff will be applicable.

Any increase in the number of Switched Access lines for FGA; trunks or BHMCs for FGB, FGC, FGD, and SAC Access Service and Special Access circuits will require the issuance of a new ASR for the incremental capacity.

(A) Service Date Change Charge

ASR service dates may be changed, however a Service Date Change Charge will apply for each service date change after the scheduled issue date of the original ASR.

For Switched Access, the new service date may not exceed the original service date by more than 30 calendar days. If the requested service date is more than 30 calendar days after the original service date, the ASR will be canceled by the Telephone Company and cancellation charges in 3.2.6 will apply. The ASR will be reissued with the new service date.

For Special Access, except as specified below, the new service date may not exceed the original service date by more than 30 calendar days. If the requested service date is more than 30 calendar days after the original service date, the ASR will be canceled by the Telephone Company. Cancellation charges in 3.2.6 will apply and the ASR will be reissued with the new service date unless the customer indicates that billing for the service is to commence as in 3.2.6(A).

With the agreement of the Telephone Company, a new service date may be established that is prior to the original service date and the provisions in (E) will apply in addition to the Service Date Change Charge. The applicable charge is:

	<u>Rate</u>	
(USOC)	(SUM)	
	*	(C)

*The rates, charges and conditions for the provision of intrastate terminating Carrier Access Service are as specified in the NECA Tariff FCC No. 5 as it now exists, and as it may be revised, added to, or supplemented.

FACILITIES FOR INTRASTATE ACCESS

4. SWITCHED ACCESS (Cont'd)

4.3 Obligations of the Customer (Cont'd)

4.3.4 Identification and Rating of VoIP-PSTN Traffic

- A. Scope - VoIP-PSTN Traffic is the traffic exchanged in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. Traffic originates and/or terminates in IP format if it originates from and/or terminates to an end user customer of a service that requires Internet protocol compatible customer premises equipment.

This section governs the identification of VoIP-PSTN Traffic that is subject to the access compensation rules adopted by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90 et. al., FCC No. 11-161 (November 18, 2011) and in its Second Order on Reconsideration, FCC No. 12-47 (April 25, 2012). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the Customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Orders.

- B. Rating of VoIP-PSTN Traffic

The Company will bill Relevant VoIP-PSTN traffic identified in accordance with this tariff Section as follows:

- Between December 29, 2011 and July 12, 2012, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at interstate access rates, as set forth below in Section 4.3.4.B.
- Beginning July 13, 2012 through June 30, 2014, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at intrastate access rates, as set forth elsewhere in Section 4.
- Beginning July 1, 2014 the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at interstate access rates, as set forth below in Section 4.3.4.B.
- Beginning December 29, 2011, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates from the Customer's end users and terminates on the Company's network (terminating traffic) will be billed at interstate access rates, as set forth below in Section 4.3.4.B.

For ease of reference, the URL below provides access to NECA Tariff No. 5 which contains the company's interstate access rates.
