of Missouri and Cancellation of its Tariff.)

ORDER CANCELING CERTIFICATE AND TARIFF

GTE Telecommunications Services Incorporated (GTE TSI), filed an Application for Cancellation of Certificate and Tariff on May 4, 1999, asking the Commission to cancel its interexchange certificate and tariff, issued by the Commission on September 27, 1995, in Case No. TA-95-285. GTE TSI stated it had no customers or facilities in Missouri, that surrender of its certificate was not detrimental to the public interest, and that it wished to have its certificate canceled.

On May 20, 1999, the Commission directed the Staff of the Missouri Public Service Commission (Staff) to investigate the circumstances pertaining to GTE TSI's application and to make a recommendation to the Commission. Staff filed its Memorandum on June 18, 1999, regarding the proposed cancellation of GTE TSI's certificate and related tariff. Staff stated it had reviewed GTE TSI's application and had no objection to the Commission issuing an order canceling the certificate and related tariff.

Section 392.410, RSMo Supp. 1998, gives the Commission authority to cancel a telecommunications company's certificate of service authority. The Commission has reviewed GTE TSI's application, Staff's memorandum, and the official file and finds that the interexchange certificate and tariff granted to GTE TSI in Case No. TA-95-285 shall be canceled.

IT IS THEREFORE ORDERED:

1. That the interexchange certificate and tariff granted to GTE Telecommunications Services Incorporated in Case No. TA-95-285 are canceled.
2. That this order shall become effective on July 2, 1999.
3. That this case may be closed on June July 5, 1999.

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check sheet for the page currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

 2.1
 2.1.1
 2.1.1.A
 2.1.1.A.1
 2.1.1.A.1.(a)
 2.1.1.A.1.(a).I
 2.1.1.A.1.(a).I.(i)
 2.1.1.A.1.(a).I.(i).(1)

- D. **Check Sheets** - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

No liability shall commence prior to activation of Service. In no event shall such liability exceed an amount equivalent to the proportionate charge to Customer for the period during which the aforementioned faults in transmission occur.

2.3.2 Carrier shall not be liable for, and Customer indemnifies and holds Carrier harmless from, any and all losses, claims, demands, suits or other actions, or any liability whatsoever, whether suffered, made, instituted or asserted by Customer or by any other party, for any personal injury to, or death of, any person or persons, for any loss, damage, defacement or destruction of the premises of Customer or any others, or for libel, slander, invasion of privacy, or infringement of copyrights or patents, or for any other causes, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use including, but not limited to, use in an explosive atmosphere of its Service or facilities, of the services, channels or equipment of others, provided that such occurrence is not the result of Carrier's negligence.
