Applying to MISSOURI SERVICE AREA

RIDER B PURCHASED GAS ADJUSTMENT TRANSITION MECHANISM

* The Company shall have a state-wide single Purchased Gas Adjustment (PGA) rate for all districts, beginning November 1, 2007. A PGA Transition Mechanism is being applied to balance historical price differentials in gas commodity costs between the systems in order to transition into a single PGA. The PGA Transition Mechanism is applied to bills for sales customers served by Panhandle Eastern Pipeline (PEPL), Texas Eastern Transmission Corporation (TETCO), and Natural Gas Pipeline of America (NGPL) pipelines as a charge or credit. PEPL customers will each receive a \$0.50 per month credit on their bill. TETCO customers will each pay a \$2.55 per month charge on their bill. NGPL customers will each pay a \$0.00 per month charge on their bill. The PGA Transition Mechanism will continue until the Company receives approval by the Commission to change or terminate the PGA Transition Mechanism.

The PGA Transition Mechanism will be effective on and after November 1, 2007 in conjunction with the single PGA.

* Indicates Addition.

I. Definitions

A. Company

Union Electric Company acting through its duly authorized officers, agents or employees within the scope of their respective duties and authorities.

**BY let R.S. #39
Public Service Commission
MISSOURI**

MISSOURI

Public Service Commission

B. Commission

The Public Service Commission of the State of Missouri or successor of such Commission having jurisdiction of the subject matter hereof.

C. Customer

Any person, developer, firm, association, or corporation or other entity that applies for, or purchases gas service from Company, or for whom the Company is transporting gas, under these Rules and Regulations.

D. Customer Demand

The maximum total volume of gas, or gas load, that can be used by customer in all of customer's gas burning equipment and appliances, expressed in cubic feet per unit of time.

E. Distribution Mains

A pipe carrying gas which supplies the service pipe of an individual customer.

F. Service Pipe

A pipe connected to a distribution main to deliver gas from the main to customer's premises.

DEC 2 1958

G. Point of Delivery

MISSOURI
Public Service Commission

The outlet side of the Company's meter or the point of connection between any additional Company piping and that of customer, whichever is applicable.

H. Customer Classifications for Gas Service

Gas service provided to the following customer classifications shall consist of Company's extension of gas supply facilities to the premises of such customers, whether or not customer makes use of gas purchased from Company or gas procured from other sources and transported by Company.

1. Residential Customer

The user of gas service for general residential purposes in a single family dwelling or building, or in a separately metered individual apartment unit of a multiple occupancy dwelling.

2. General Service Customer

The user of gas service in a single metered residential multiple occupancy dwelling, a combined residential and non-residential activity or for any other non-residential purpose.

3. Interruptible Customer

The non-residential user of gas whose service is subject to curtailment or interruption at the sole discretion of the Company.

III. General Provisions

DEC 2 1988

A. Application for Service

MISSOURI
Public Service Commission

Any customer requesting gas service within Company's authorized service area will provide Company with appropriate information regarding the quantity and characteristics of the anticipated gas consumption and location of the premises to be served. Appropriate personal customer identification may be required at the request of the Company. When interruptible or transportation service is requested, a written agreement between customer and Company shall specify the gas service to be provided, the rate schedule applicable for such service and the minimum term during which service will be supplied by Company and consumed and paid for by customer. All gas service will be supplied subject to the provisions of the Company's tariffs applicable to the service requested and these Rules & Regulations, provided customer agrees to the use of the service supplied by Company for the minimum term specified in the tariff applicable to customer's gas service. Customers desiring gas service for periods less than the term specified in the applicable tariff may contract for such service under Company's applicable rate provided customer pays to Company in advance, the total cost of new or existing facilities, the total estimated cost of installation, connection, disconnection and removal of all facilities necessary for such service, less the estimated salvage value of any recoverable facilities.

The Company shall not be required to commence supplying service to a customer, or if commenced the Company may terminate such service, if at the time of application such customer or any member of his household (who have both received benefit from the previous service) is indebted to the Company for the same class of service previously supplied at such premises or any other premises until payment of, or satisfactory payment arrangements for, such indebtedness shall have been made.

B. Form of Service Provided

Company will normally supply only one class of service to an individual premise under a single customer application for service. Where more than one class of service is required by customer or the Company's tariffs, each class of service shall be metered and billed separately.

III. General Provisions (Cont'd.)

** service previously supplied at such premises or any other premises until payment of, or satisfactory payment arrangements for, such indebtedness shall have been made.

* Application for firm system gas service to new General Service sales customers will be granted, except that for a customer with an annual load exceeding 40,000 Ccf if the Company reasonably believes sufficient gas supplies, storage availability and/or pipeline capacity does not exist, then it may apply to the Commission for a hearing to determine the appropriate action. Such application must be made within 10 days of the written request for service by the customer or potential customer and shall include direct notification of the Commissioners and to the Commission Staff.

** B. Form of Service Provided

Company will normally supply only one class of service to an individual premise under a single customer application for service. Where more than one class of service is required by customer or the Company's tariffs, each class of service shall be metered and billed separately.

Public Service Commission

The obligations of Company to supply the service requested by customer are contingent upon the following conditions:

1. The availability of necessary labor, materials and equipment for supplying the requested service.
2. The availability of pipeline capacity necessary to supply the service requested.
3. Governmental and regulatory authorization to supply the service requested.

Company will make all reasonable efforts to provide the service requested, but will not be liable for service interruptions, deficiencies or imperfections.

Company will not be required to extend its mains into areas a) not covered by legal franchise; or b) requiring private rights-of-way to be secured; or c) where final grade has not been physically or officially established.

UNION ELECTRIC COMPANY GAS SERVICE RECEIVED

Applying to MISSOURI SERVICE AREA JAN 09 1998

**MISSOURI
Public Service Commission**

IV. Extension of Distribution Mains

Subject to Rule and Regulation III. F hereof, gas service will be supplied to customers within Company's authorized service area, by extension, modification or enlargement of the Company's gas distribution system in accordance with the following provisions:

* A. Length of Extension

The length of the extension will be the distance along the installation route specified by Company. Such distance shall be measured from the nearest existing main having sufficient capacity to serve the customer to the point necessary to accommodate the connection to the service pipe to customer's premises. Within residential subdivisions and commercial or industrial tracts, the extension shall also include the additional length of the main to the property boundary between the customer being served and the next immediately adjacent premises. Company shall have the right to defer deployment of its construction resources for the installation of extensions in residential subdivisions and commercial or industrial tracts until the length of the extension is at least 500 feet or stretches to the end of the street or plat being developed.

B. Cost of Extension

The total installed cost of line extensions, modifications and enlargements of the Company's distribution system will include the cost of all labor and materials, permits, cleared right-of-way and all other incidental costs, including indirect costs. The indirect costs will include, where applicable, the cost of engineering, supervision, inspection, insurance, payments for injury and damage awards, taxes, AFUDC (Allowance For Funds Used During Construction), legal and administrative and general expenses associated with the extension of the Company's distribution system. Charges to customers for extension costs will include additions for indirect costs based upon the indirect costs experienced by the Company, as a percentage of direct costs, during the preceding calendar year. The Company's main and service extension allowances and charges are based on normal, pre-development and unobstructed conditions. Cost estimates relative to guaranteed revenue or customer contributions are based on the conditions prevailing at the time the estimate is made and stated anticipated subsurface conditions (rock and underground conflicts). Additional costs due to changes in surface conditions or unanticipated subsurface conditions will be charged to the customer. A copy of the Company's estimated extension charges, including such indirect costs, shall be furnished to the customer upon request prior to construction.

UNION ELECTRIC COMPANY GAS SERVICE RECEIVED

Applying to MISSOURI SERVICE AREA

JAN 09 1998

IV. Extension of Distribution Mains (Cont'd.)

MISSOURI
Public Service Commission

* C. Extensions Not Exceeding 100 Feet Per Customer

Company will provide an extension of its distribution mains of up to 100 feet per individual and up to 100 feet per residential subdivision or commercial-industrial tract customer, without requirement of a customer contribution or guarantee, subject to the provisions of this paragraph. In determining the actual main extension footage per customer, the extension length specified in paragraph A. of this Section IV. shall be divided by the number of residential and/or commercial-industrial tract customers which, in the Company's sole judgment, will be connected and utilizing gas as their main source of space and/or process heating within one year after completion of the main extension. All other customers, not meeting the above requirements, shall be provided gas service in accordance with the provisions of paragraphs D.-G. of this Section IV.

D. Extensions Exceeding 100 Feet Per Customer

Company will provide an extension of its distribution mains in excess of 100 feet per customer to individual customers and for each gas connection within residential subdivisions and commercial or industrial tracts as follows:

- * 1. Residential subdivisions - Customer/developer will pay to Company a non-refundable contribution for all main extension footage requested in excess of 100 feet times the number of customers, as referenced in paragraph C. above, to which gas will be connected. The non-refundable contribution will be required from customer/developer prior to the commencement of construction by Company and will be determined in accordance with the following expression:

$$\frac{\text{(Total Main Extension Cost)}}{\text{x}} = \frac{\text{(Total Main Ft.)} - \text{(No. of Customers X 100 Ft.)}}{\text{Total Main Footage}}$$

- 2. All other extensions - For all extensions other than to residential subdivisions, Company's main extension allowance will be equal to the total net revenue anticipated to be realized from customer and commodity charges (excluding PGA and billing tax revenues) by Company, for additional gas service provided from the main extension, during the first three years following the commencement of such service. Where the anticipated three year net revenue to be received is less than the estimated main extension cost, customer/developer or other responsible party will be required to enter into a guarantee agreement with Company, prior to the commencement of construction by Company. Said guarantee will be applicable to the total cost of the extension requested in order to insure that the Company's extension is based upon sound economic principles.

C. Extensions Not Exceeding 100 Feet Per Customer Service Commission

Company will normally provide an extension of its distribution mains of up to 100 feet per customer to individual customers and 100 feet per customer, for gas connections within residential subdivisions and commercial/industrial tracts, without requirement of a customer contribution or guarantee. However, for extensions to the latter multiple customer tracts which in Company's judgement may not be fully developed and occupied by potential gas consuming customers within one year after the requested extension is completed, an advance refundable deposit equal to the total main extension costs will be required from customer/developers prior to the commencement of construction by Company.

D. Extensions Exceeding 100 Feet Per Customer

Company will provide an extension of its distribution mains in excess of 100 feet per customer to individual customers and for each gas connection within residential subdivisions and commercial/industrial tracts as follows:

CANCELLED

1. Residential subdivisions - Customer/developer will pay to Company a non-refundable contribution for all main extension footage requested in excess of 100 feet times the number of customers to which gas will be connected. The non-refundable contribution will be required from customer/developer prior to the commencement of construction by Company and will be determined in accordance with the following expression:

* In addition to the above requirements, for any category of customer, where extensions are requested to multiple customer tracts, which in Company's judgment may not be fully developed and occupied by potential gas consuming customers, as referenced in paragraph C. above, within one year after the extension is completed, an advance refundable deposit as described below will be required from customer/developer or other responsible party prior to the commencement of construction by Company.

* E. Advance Refundable Deposits

Advance refundable deposits will be required from customer/developer or other responsible party for main extensions to multiple customer tracts which, in Company's sole judgment, will not be occupied by gas customers, as referenced in paragraph C. above, within one year after the extension is completed by Company. The deposit will be paid to Company prior to the commencement of construction of the main extension by Company. The amount of said deposit will be based upon the lesser of a) the total cost of the extension, if less than 100 feet per customer, or b) the cost of 100 feet of main extension per customer, determined in accordance with the following expressions:

$$\text{Total Main Extension Cost} \times \frac{\text{No. of Customers} \times 100 \text{ feet}}{\text{Total Main Footage}}$$

The advance refundable deposit provided to Company under either (a) or (b) above will be refunded to customer/developer or other responsible party on a pro rata basis, without interest, for each customer connected within the tract of land for which the refundable deposit was made. Such refunds will be made at annual intervals from the date the deposit was received by the Company, with any amounts remaining unrefunded after five years being credited to the Company's appropriate plant account.

F. Guarantee Agreement

MISSOURI
Public Service Commission

For all main extensions other than to residential subdivisions, a guarantee agreement will be required for any extension which exceeds 100 feet per customer in length and the cost of which exceeds the net customer and commodity charge revenue anticipated to be received by the Company for the additional gas service provided during the first three years following completion of the extension. The net customer and commodity charge revenue applicable to such extension costs shall be exclusive of both purchased gas adjustment (PGA) revenue and any revenue taxes applicable to customer's total bill for service. Said guarantee will be applicable to the total cost of the main extension, with the required guarantee agreement being entered into by the customer and the Company prior to the commencement of construction of the extension by Company. The guarantee agreement will provide for the following:

1. The monthly guarantee payment to be made by customer will be a minimum of one thirty-sixth (1/36) of the total cost of the extension being guaranteed. Such guarantee payment will be in addition to PGA revenue and any revenue taxes applicable to customer's total bill for service.
2. Deficiency revenue is defined as that portion of any monthly guarantee payment which exceeds the net customer and commodity charge revenue for customer's gas service, exclusive of PGA and revenue taxes.
3. A guarantee will terminate within the 36-month guarantee period whenever the total net customer and commodity charge revenue realized from the gas service provided to the premises served by the extension, exclusive of PGA and revenue taxes, equals or exceeds the total cost of the extension.
4. Whenever the total net customer and commodity charge revenue for gas service to the premises served by the extension, exclusive of PGA and revenue taxes equals or exceeds the total cost of the extension at any time

applicable statute of limitations for the prosecution of such claim after determining the probable period during which such condition existed from all related and available information; and

*2. Non-Residential - For all non-residential billing errors, the Company will determine from all related and available information the probable period during which the error condition existed and shall make billing adjustments for the estimated period involved as follows:

- a. No billing adjustment will be made where the dollar amount of the adjustment is less than \$15.00. No interest shall be paid or collected on any billing adjustment provided for herein.
- b. Where upon test an average meter error is found to be greater than 2 percent, a billing adjustment will be made to compensate customer where the meter reads fast, and to compensate Company where the meter reads slow. However, any such billing adjustment will be applicable only for the probable period during which the meter error existed and shall be limited to the twenty-four (24) billing periods preceding the one in which the error was determined plus the elapsed period in the current billing period during which the test was made. No adjustment will be made for meters found to have an average meter error of 2 percent or less.
- c. Where a non-registering meter is found, Company will determine from all related and available facts the probable period during which such inaccuracy existed and render adjusted bills for the period involved, provided, however, that such period shall not exceed the preceding six (6) billing periods plus the elapsed time in the current billing period during which such inaccuracy was determined.

nor twelve (12) billing periods for public non-residential customers, plus the elapsed time in the current billing period during which such condition was determined.

I. Incorrect or Improper Meter Registration

Bills rendered which are based on incorrect registrations due to improper meter connections, the application of an improper meter constant, or similar reasons shall be subject to adjustment for the entire period as revealed by Company records during which such particular condition existed.

J. Adjustment For Leaks in Company Facilities

Whenever a gas meter is registering gas because of a leak in the meter, or in the union connection on the outlet side of the meter, or the connection between Company and customer piping, whichever is applicable, an estimate based upon the period of inaccuracy referred to above will be made of the registration which has been produced by the leakage and a corresponding credit will be allowed to customer. No credits shall be made because of the leakage or waste of gas from customer's piping and appliances beyond the applicable union or piping connection points described above.

K. Minimum Billing Adjustment

No billing adjustment will be made where the amount of the adjustment is less than \$1.00.

L. Meter Relocations at Customer Request

At customer's request, Company will relocate its metering equipment provided customer arranges for and makes all piping and other modifications, on the customer side of the proposed meter location, necessary to accommodate the requested change and pays to Company the cost of making the meter relocation.

UNION ELECTRIC COMPANY GAS SERVICE

Applying to MISSOURI SERVICE AREA

VIII. Billing Practices

*A. Monthly Billing Periods

Company will render bills over twelve (12) monthly billing periods in a year, with each bill based upon the service used between regularly scheduled meter readings. While Company's work schedules provide for the orderly reading of all meters over intervals of approximately 30 days, holidays, weekends, inclement weather and other operating constraints may cause the billing interval to vary during various portions of the year. Likewise, a customer exercising Section VIII.I. Preferred Delinquent Date Selection may result in either a longer or shorter period between meter readings for the first bill after the election. (This section reflects a variance from Rules 4 CSR 240-13.015(1)(C) and 4 CSR 240-13.020(6) granted by Commission in Case GE-2019-0386.)

B. Inaccessible Meters

Where a meter is inaccessible to the meter reader during scheduled working hours on repeated occasions, such that a customer must arrange for meter reading by appointment to avoid discontinuance of service, the customer may at his own expense have Company relocate the meter to an accessible location, if feasible.

C. Estimated Bills for Full Billing Periods

Monthly bills may be rendered to the Company's natural gas customers based upon estimated gas usage (which may include the use of readings furnished by the customer), where conditions reasonably beyond the control of the Company prevented it from obtaining actual meter readings. These conditions include extreme weather, operating and other emergencies, labor agreements, work stoppages, and the Company's inability to gain access to the meter. The Company will provide a copy of customer's estimate, upon request. All estimates are subject to the provisions of Section VII.G. Billing Adjustments, of these Rules and Regulations, and will be determined as follows:

a. Single-Month Estimated Bills

A single billing month's estimated natural gas usage will be determined on the basis of the customer's prior month's usage, adjusted by a factor reflecting the difference in weather between the prior and current monthly billing periods. This

C. Estimated Bills for Full Billing Periods

Bills may be rendered to residential customers based on estimated readings (which may include readings furnished by the customer) when conditions beyond the control of the Company, such as weather, emergencies, work stoppages, and inability to gain access to the meter, prevent obtaining an actual meter reading.

The usage for such bills will be estimated as follows:

a. Gas Heating Accounts

Usage for the account is estimated on the basis of prior month's use multiplied by a gas space heating factor which is developed from a mechanized analysis of accounts in the geographic area being billed which have current and prior month Company meter readings.

similarly situated customers are those customers within the same rate class, located within the same weather reporting area (e.g., Columbia or Cape Girardeau, MO airport recording stations) and that have meter reading dates approximately the same as the customer whose bill is being estimated.

***b. Multiple-Month Estimated Bills**

When it is necessary to estimate any customer's natural gas usage for periods of two or more billing months, such estimated usage will be developed by an analysis of the gas usage at the customer's premises from prior periods, the number of days in the prior and current billing periods, and the current and historic weather data from the National Weather Service climatology reporting site within which the customer's premises is located. The analysis will include a determination of the customer's non-heating (Base) usage and heating sensitive (Seasonal) usage, based upon the following concepts:

CCF = A unit of gas measurement equal to one hundred cubic feet

HDD = $65 - [(Daily\ High\ Temperature - Daily\ Low\ Temperature) / 2]$

Note: Daily HDD values cannot be less than zero.

Estimated Non-Heating (Base) Usage CCF:

$(Prior\ Year\ June-September\ Usage / Prior\ Year\ June-September\ Days) * Days\ in\ Current\ Month$

Note: June-September Estimated Usage shall be limited to the lower of customer's Base Usage or Customer's actual usage during the same billing period in the prior year.

Estimated Heating Sensitive (Seasonal) Usage CCF:

$(Usage\ in\ Prior\ Year\ Month - Base\ Usage) * Current\ Year\ Month\ HDD / Prior\ Year\ Month\ HDD$

Note: Estimated Seasonal Usage will be zero for any month with a HDD total below 100.

Total Estimated Usage CCF = Base Usage CCF + Seasonal Usage CCF

VIII. Billing Practices (Cont'd.)

1. Upon enrollment in the Budget Billing Plan by customer, the average monthly bill amount will initially be equal to one-twelfth of the estimated annual cost of service to the customer.
2. Company will re-evaluate the estimated annual cost of service to an actual use basis at least once every twelve months. Customer will elect the annually recurring re-evaluation month to be either a) any month earlier than the twelfth month following enrollment, or b) the twelfth billing period following enrollment.
3. Customer will elect for any under or over collection balance that has accumulated through the annually recurring re-evaluation month to be either a) rolled over and spread equally across all monthly bills in the next Budget Billing Plan year, or b) fully included on the re-evaluation month's bill.
4. Customer elections made under 2. or 3. above may not be changed within twelve months. Customers that were enrolled in the Budget Billing Plan prior to March 18, 2012 will continue under option (b) for 2. and 3. but may make an election of option (a) at any time.
5. Company will adjust the average monthly billing during the fourth and eighth months preceding the annually recurring re-evaluation month under this Plan, if the recalculated Budget Billing Plan amount indicates an increase of \$3.00 or more. Company will not adjust the average billing in two consecutive months.

VIII. Billing Practices (Cont'd.)

DEC 2 1988

1. Bills will be rendered during each of the Budget Bill Months in which the Budget Billing Plan applies to customer in amounts equal to one-twelfth of the estimated annual cost of service to the customer.
2. Bills rendered during the twelfth month after monthly billing under this Plan, and bills each successive twelfth month thereafter will be based on actual usage during such billing period plus or minus any adjustment necessary to correct to an actual use bases the bills rendered during the preceding Plan Months.
3. Company will adjust the average billing during the fourth and eighth months of each twelve month period of billing under this Plan, if the recalculated Budget Bill Plan amount indicates an increase of \$3.00 or more.
4. Company may terminate this Budget Billing Plan as to any customer who shall fail to make payment hereunder when due, and, upon such termination and thereafter, such customer shall be billed in accordance with the term's of Company's standard monthly billing practice. Any billing adjustments required at the date of such termination shall be included in the next bill rendered to the customer.
5. Customer may, at any time, elect to terminate the application of this Budget Billing Plan to himself by (1) requesting, in writing, such termination, and (2) paying any amounts, including billing adjustments, which may be necessary in order to settle his account hereunder.
6. Final bills, whenever rendered, will include such amounts as may be necessary to settle the account based on actual usage as of the date of final meter reading.

VIII. *Billing Practices (Cont'd.)

5. Company may terminate this Budget Billing Plan to any customer who shall fail to make payment hereunder by the delinquent date, and, upon such termination and thereafter, such customer shall be billed in accordance with the terms of Company's standard monthly billing practice. Any billing adjustments required at the date of such termination shall be included in the next bill rendered to customer.
6. Customer may, at any time, elect to terminate the application of this Budget Billing Plan by requesting such termination and thereafter paying when due any amounts, including billing adjustments, which may be necessary in order to settle the account hereunder.
7. Final bills, whenever rendered, will include such amounts as may be necessary to settle the account based on actual usage as of the date of final meter reading unless, beginning with the August 2015 billing cycle, the balance is transferred to customer's new account.

F. Late Payment Charge

Any portion of any bill, other than deposit arrears, remaining unpaid after the delinquent date indicated thereon will have a late payment charge of 1.5 percent of the gross unpaid amount added thereto, the sum of which will be shown as "arrears" on the next bill. Any portion of such "arrears" remaining unpaid after the delinquent date on any subsequent bill will also have a late payment charge of 1.5 percent added thereto. When a customer's payment is received by mail not more than two business days after the delinquent date it shall be deemed a timely payment. If the bill does not show a designated "delinquent date," for purposes of this paragraph the "due date" shall be deemed to be the delinquent date. The specific late payment charge and delinquent dates referred to above will be subject to variation for State of Missouri and U.S. Government accounts, where required by law or other regulation. Failure to pay any late payment charge shall be grounds for disconnection of service in accordance with these Rules and Regulations.

*The late payment charge will not be applied to amounts being collected through any and all deferred payment arrangements and settlement agreements between a residential customer and the Company where the residential customer continues to meet its obligations under the deferred payment agreement. Any missed payment pursuant to these arrangements and agreements will be subject to the late payment charge only on the amount of the missed payment.

G. Abnormal Operations

Where a customer's usage is abnormally affected during temporary periods of construction, alteration, preliminary or experimental operations, fire, or acts of God, Company may, upon prior agreement with customer, adjust or modify its billing or other charges otherwise applicable during the current or succeeding months in consideration of the particular circumstances in each such case.

VIII. Billing Practices (Cont'd.)

* I. Preferred Delinquent Date Selection

Customers receiving service under the Residential Service Rate or the General Service Rate may select the date their bill will become delinquent provided their service is equipped with an advanced meter reading device. If the customer's preferred date is not available, they will be given the option of selecting a different delinquent date or retaining their existing delinquent date.

Customer's selected delinquent date will become effective no later than the second bill issued after customer's selection and cannot be implemented for bills already issued.

The first bill issued following implementation of a delinquent date selected by customer may result in a bill period that is either longer or shorter than normal and may also be prorated.

Customer may not make a delinquent date selection more frequently than once every 12 months except by Company approval.

(This section reflects a variance from Rules 4 CSR 240-13.015(1)(C) and 4 CSR 240-13.020(6) granted by Commission in Case GE-2019-0386.)

IX. Resale of Service

Except as specifically provided for in customer's contract for service or in rate schedules, customer shall not resell the service purchased from Company to any other customer, company or person, and customer shall not deliver the service purchased from Company to any connection wherein said service is to be used off of customer's premises or by persons over whom that customer has no control.

* Indicates Change.

*A. Residential Customers

1. Deposit requirements for initial service - Company may, as a condition to furnishing service initially, require any applicant for residential service to make a cash deposit or furnish a written guarantee of a responsible party, due to any of the following:
 - a. The applicant has an unpaid bill which accrued within the last five (5) years and at the time of the request for service remains unpaid and not in dispute; or
 - b. The applicant has in an unauthorized manner, within the past five (5) years prior to applying for service, interfered with or diverted the service of a utility in the provision of the same type of service; or
 - c. The applicant has not had service with the Company within the past five (5) years and has an Equifax Advanced Energy Risk Score (EAER Score) of 699 or lower. Those customers without an EAER Score will not be assessed a deposit under this subsection, or
 - d. The customer fails to provide proof of identity upon request. Proof of identity is to include official picture identification or other verifiable documentation of identity, and correct social security number.
2. Deposit requirements for continued service - Company may, as a condition of continued service, require any residential customer to make a cash deposit or furnish a written guarantee of a responsible party, due to any of the following:
 - a. The service of the customer has been disconnected for nonpayment of a delinquent account not in dispute;
 - b. The customer has in an unauthorized manner interfered with or diverted the service of Company situated on or about or delivered to the customer's premises;

*c. The customer has failed to pay an undisputed bill on or before the delinquency date for five billing periods out of twelve consecutive billing periods; provided, however, that deposit requirements during the months of November, December, and January for reasons other than unauthorized use or diversion of service, may, if the customer is unable to pay the entire deposit, be paid by installments over a six month period, unless the Company can show a likelihood that the customer does not intend to pay for continued service. The Company shall not assess new deposits nor bill previously assessed deposits to customers who enter into and make timely payments in accordance with the Missouri Public Service Commission's "Cold Weather" rule.

B. Non-residential Customers

Company may at any time, as a condition to furnishing or continuing service, require any customer or applicant for non-residential service to make a cash deposit or, at Company's option, furnish a personal guarantee of a responsible party with established credit satisfactory to Company.

*C. General Provisions

1. Deposit limits - A deposit for initial service will not exceed the charges applicable to usage during one-sixth (1/6) of the estimated annual bill for monthly billed customers for utility charges at the requested service location, and when a deposit is required as a condition for continued service, the deposit will not exceed two times the highest bill for utility charges actually incurred or estimated to be incurred by that residential or non-residential customer during the preceding twelve months at the service location. All deposit levels referred to herein will be established based upon usage levels and associated billings applicable to periods representative of actual meter readings and undisputed billing amounts.

X. Deposit Practices (Cont'd.)

- *2. Deposit refunds - The credit of the residential customer will be established and the deposit and accrued interest, if any, will be refunded, or the guarantor released, upon satisfactory payment before the delinquency date of all undisputed charges for service for a period of twelve successive months, or customer has closed his account. The credit of the non-residential customer will be reviewed after three years and the deposit returned if in the opinion of the Company, the customer has established satisfactory credit. The Company may withhold refund of the deposit or release of the guarantor pending the resolution of a matter in dispute involving disconnection for nonpayment or unauthorized interference by the customer. The Company may apply all deposits subject to refund and accrued interest, if any, against undisputed utility charges provided the amount of the refund is identified and disclosed on the bill.
- *3. Interest paid on deposits - Interest at the rate of 9 percent per annum, compounded annually, will be payable upon the return of a residential deposit or credited annually, whichever comes first. Simple interest at the rate of 9 percent per annum will be payable upon the return of a non-residential deposit held by the Company for six months or longer. Interest shall not accrue on a cash deposit after the date the deposit is applied to the customer's account, or Company has made a reasonable effort to return the deposit to customer by mailing the deposit to customer's last known address.
- *4. Final billed accounts - Upon discontinuance or termination, other than for a change of service address, the deposit, with accrued interest, will be credited to the final bill and the balance, if any, will be returned within twenty-one (21) days of the rendition of the final bill.

2. Deposit refunds - The credit of the residential customer will be established and the deposit and accrued interest, if any, will be refunded, or the guarantor released, upon satisfactory payment before the delinquency date of all proper charges for service for a period of twelve successive months, or customer has closed his account. The credit of the non-residential customer will be reviewed after three years and the deposit returned if in the opinion of the Company, the customer has established satisfactory credit. The Company may withhold refund of the deposit or release of the guarantor pending the resolution of a matter in dispute involving disconnection for nonpayment or unauthorized interference by the customer. The Company may apply all deposits subject to refund and accrued interest, if any, against undisputed utility charges provided the amount of the refund is identified and disclosed on the bill.

3. Interest paid on deposits - Interest at the rate of 9 percent per annum, compounded annually, will be payable upon the return of a residential deposit. Simple interest at the rate of 9 percent per annum will be payable upon the return of a non-residential deposit held by the Company for six months or longer. Interest shall not accrue on a cash deposit after the date the deposit is applied to the customer's account, or Company has made a reasonable effort to return the deposit to customer by mailing the deposit to customer's last known address.

4. Final billed accounts - Upon termination of service, the deposit, with accrued interest, will be credited to the final bill and the balance, if any, will be returned promptly to the customer.

XI. Disconnection and Reconnection of Service

MO. PUBLIC SERVICE COMM.

A. Reasons For Disconnection of Service

Company shall have the right to disconnect service supplied to a gas customer for any of the following violations of its rules or practices:

- *1. Nonpayment of an undisputed delinquent account.
- 2. Failure to make and maintain a deposit or acceptable guarantee in accordance with the rules and regulations of Company and those of the Commission.
- 3. Failure to comply with the terms and conditions of a settlement agreement with the Company regarding a dispute or payment of service charges.
- *4. Refusal after reasonable notice to permit inspection, maintenance, replacement, or meter reading of utility equipment. If the Company has reasonable belief that health or safety is at risk, notice at the time inspection is attempted is reasonable.
- 5. Misrepresentation of identity for the purpose of obtaining service.
- 6. Unauthorized interference, diversion or use of the service situated or delivered on or about the customer's premises.
- 7. Violation of any rule and regulation of the Company on file with and approved by the Commission or of any such regulatory authority which adversely affects the safety of the customer or other persons or the integrity of the Company's delivery system.
- **8. As provided by state or federal law.

B. Notice of Intent to Disconnect Service

- 1. Individual customer premises - Notice of intention to disconnect service will state the reason for which service will be disconnected and will specify a date after which such disconnection may be effected. Said notice will be sent to the customer by first class mail not less than
