***RE: The Empire District Electric Company***

Dear Mr. Harden:

In accordance with 4 CSR 240-20.090(4), The Empire District Electric Company ("Empire" or "Company") hereby submits to the Missouri Public Service Commission ("Commission"), for filing in electronic form, proposed rate schedules to adjust charges related to the Company's approved Fuel & Purchased Power Adjustment Clause ("FAC"). The proposed rate schedules bear an issue date of October 1, 2013, and an effective date of December 1, 2013, and include the following heading:

Section	Sheet No.	Schedule	Designated	Canceling	Issued.
4	17e	Fuel Adjustment Clause (FAC)	3 <sup>rd</sup> Revised	2 <sup>nd</sup> Revised	Oct 1, 2013

During the most recent Accumulation Period (March 1, 2013, through August 31, 2013), Empire's Missouri jurisdictional energy costs eligible for the FAC were higher than the base amount established in rates by approximately \$277 thousand. The reasons for these higher costs are explained in the direct testimony and supporting schedules of Todd W. Tarter, Empire's Manager of Strategic Planning, which is being filed in support of the proposed rate schedules. Therefore, in accordance with the terms of Empire's approved FAC, the proposed rate schedules are designed to recover from the Missouri retail customers 95 percent of that cost increase, or approximately \$263 thousand.

In a separate filing, Empire also is seeking to true-up amounts recovered through its approved FAC for the Recovery Period ending May 31, 2013. As explained in that filing, Empire

under-collected eligible fuel and purchased power costs during that Recovery Period. Consequently, when a net under-collected amount of approximately \$227 thousand, including interest, is added to the increased costs related to the Accumulation Period ending August 31, 2013, the proposed FAC-related rate schedules are designed to recover a total of approximately \$490 thousand from the Company's Missouri retail customers.

Also provided in electronic form are schedules containing all of the information required by 4 CSR 240-3.161(7) and all workpapers that support the proposed rate schedules.

Copies of Empire's proposed FAC-related rate schedules and all supporting materials described in this letter will be served electronically, this date, on the Commission's General Counsel, the Office of the Public Counsel, and on each party to the Company's last general rate case.

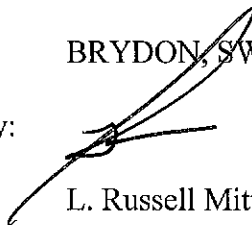

Please bring this filing to the attention of the appropriate Commission personnel and see to it that a copy of all correspondence, notices, orders, and other communications that relate to Empire's filing are furnished to Todd W. Tarter, Manager of Strategic Planning, The Empire District Electric Company, 602 South Joplin Avenue, Joplin, Missouri 64802, [ttarter@empiredistrict.com](mailto:ttarter@empiredistrict.com) and to L. Russell Mitten, Brydon, Swearingen & England P.C., 312 East Capitol Avenue, P.O. Box 456, Jefferson City, Missouri 65102-0456.

Thank you for your assistance.

Sincerely,

BRYDON, SWEARENGEN & ENGLAND PC
