OPERATOR SERVICES

I. BUSY VERIFICATION SERVICE

A. GENERAL

1. Busy Verification Service is furnished to customers upon request to provide Line Status or Busy Interrupt for a requested line or trunk.
2. This service is provided where facilities exist for Line Status of Busy Interrupt through a Telephone Company operator.
3. The provision of Line Status involves an operator determining the condition of a line or trunk that a customer requests to be checked. The status of this line or trunk is verified to the customer for a charge as listed below.
4. The provision of Busy Interrupt involves an operator interrupting a line or trunk that a customer requests to be checked. Information concerning the Busy Interrupt to this line or trunk is passed to the customer for a charge as listed below.
5. No request will be processed on a collect or reversal of charge basis.

B. CHARGES

The charges listed below are in addition to the rates and charges associated with local or Long Distance Message Telecommunications Service.

1.	Per Request	Charge	
	(a) Line Status	<b>\$2.50</b>	(1)
	(b) Busy Interrupt	<b>\$2.50</b>	(1)

No charge will apply if the line situation indicates a trouble condition. No charge applies when the request is identified as an emergency request by the customer and originates from or to emergency agencies, such as 911 service, police, fire, rescue, or ambulance.

OPERATOR SERVICES

II. DIRECTORY ASSISTANCE (D.A.) SERVICE (Cont'd)

B. ALLOWANCES (Cont'd)

5. No credit will be given for any unused portion of the customer's allowance.
6. Charges for Directory Assistance Service are not applicable to calls placed from Payphone Line Service telephone service or from customers whose physical, visual, mental or reading handicaps prevent them from using the telephone directory. The method of exempting those handicapped customers shall be via completion of an exemption form supplied by the Telephone Company and the Telephone Company's acceptance of that form.
7. Charges for Directory Assistance service are not applicable to calls placed from a hospital which has as its principal undertaking the inpatient medical or surgical care of the sick or disabled persons.

C. RATES

1. For customer direct dialed calls to a directory assistance attendant in excess of the monthly allowance, a charge of **\$.63 (Non-Competitive Exchanges) and \$.63 (Competitive Exchanges)** per call is applicable. (1)(CT)  
(CT)
2. For all customer requests for Directory Assistance which are placed to a directory assistance attendant via an operator, a charge of **\$.63 (Non-Competitive Exchanges) and \$.63 (Competitive Exchanges)** per call is applicable. (1)(CT)  
(CT)
3. Directory Assistance service charges billed to a third number; a special billing number; or a Telephone Company calling card, will be billed at the **\$.63 (Non-Competitive Exchanges) and \$.63 (Competitive Exchanges)** rate. (1)(CT)

OPERATOR SERVICES

III. NATIONAL DIRECTORY ASSISTANCE SERVICE

A. GENERAL

1. National Directory Assistance Service is provided to customers of the Telephone Company for the purpose of requesting telephone numbers of individuals or businesses who are located outside the customer's local Directory Assistance service area, as defined in Section 40 II.A.1. of this tariff.
2. National Directory Assistance Service is available only in exchanges for which the Telephone Company provides local operator services.

B. REGULATIONS

1. There are no call allowances or exemptions for National Directory Assistance Service.
2. A maximum of two requested telephone numbers is allowed per call.
3. The rate in C.2. following applies to each call to National Directory Assistance, even if one of the numbers requested is in the local Directory Assistance service area.
4. In locations where the customer has the capability to direct dial National Directory Assistance but places the call to the National Directory Assistance Service attendant via an operator, the operator handled service charges listed in Section 40 V.B. apply in addition to the rate in C.2. following.
5. This service may be alternately billed, i.e., billed to a third number; a special billing number; or a Telephone Company calling card.

C. CHARGES

1. Charges apply to each call placed to National Directory Assistance Service.
2. Charge per call **\$2.99** (1)  
plus operator handled service  
charges, if applicable

III. DIRECTORY ASSISTANCE CALL COMPLETION

JAN 15 1997

A. GENERAL

1. Local Directory Assistance Call Completion (DACC) service provides customers who dial Directory Assistance the option of having the requested telephone number automatically dialed and the call completed by the automated Directory Assistance System.

When the customer receives the requested directory number from the automated Directory Assistance System, the customer hears the DACC announcement prompt offering to automatically dial the requested telephone number. DACC is activated by the customer when the customer depresses a specific digit on a touch-tone telephone during the DACC announcement prompt.

2. DACC will be furnished only where facilities permit and where the service used by the customer can support all billing requirements for the service.
3. Only the second provided Directory Assistance telephone number may be dialed and completed by DACC if two Directory Assistance requests are made during the same call.

B. RATES AND CHARGES

1. Alternate billing arrangements such as collect, third number, or calling card calls are not available for DACC.
2. DACC charges are not applicable to handicapped customers who are exempt from Directory Assistance charges.
3. The DACC service charge applies for all completed calls in addition to the appropriate Directory Assistance charge and other applicable charges. If a call is not completed (i.e. busy or no answer), the DACC service charge does not apply.

IV. DIRECTORY ASSISTANCE CALL COMPLETION

A. GENERAL

1. Local Directory Assistance Call Completion (DACC) service provides customers who dial Directory Assistance the option of having the requested telephone number automatically dialed and the call completed by the automated Directory Assistance System.

When the customer receives the requested directory number from the automated Directory Assistance System, the customer hears the DACC announcement prompt offering to automatically dial the requested telephone number. DACC is activated by the customer when the customer depresses a specific digit on a touch-tone telephone during the DACC announcement prompt.

2. DACC will be furnished only where facilities permit and where the service used by the customer can support all billing requirements for the service.
3. Only the second provided Directory Assistance telephone number may be dialed and completed by DACC if two Directory Assistance requests are made during the same call.

B. RATES AND CHARGES

1. Alternate billing arrangements such as collect, third number, or calling card calls are not available for DACC.
2. DACC charges are not applicable to handicapped customers who are exempt from Directory Assistance charges.
3. The DACC service charge applies for all completed calls in addition to the appropriate Directory Assistance charge and other applicable charges. If a call is not completed (i.e. busy or no answer), the DACC service charge does not apply.

	<u>RATE</u>

OPERATOR SERVICES

V. LOCAL OPERATOR ASSISTANCE

A. GENERAL

1. Local Telecommunications Service is that of furnishing telephone communications within local service areas.
2. Local operator assistance is furnished to customers upon request in order to complete local calls.
3. Three classes of Local Service are offered: Dial Station-to-Station Service; i.e., Local Measured and Flat Rate, Operator Station-to-Station Service, and Person-to-Person Service. These definitions are found in the Long Distance Message Telecommunications Service tariff and these definitions apply to local calls as well.
4. Dial Station-to-Station class of service applies to operator Station-to-Station calls placed sent paid from residence service lines or trunks which are certified by a qualified authority as services of persons who are disabled and unable to dial telephone numbers. All Station-to-Station calling card calls charged to the certified line are subject to the charges in B.1. following.
5. Certification is provided upon the customer's written application to the Telephone Company for each residence line to be included. Certification becomes effective with the bill following approval of the application. Requests to change to or from certification are not subject to charge. Customers may verbally identify themselves as being unable to dial a call because of their disability. Only the Dial Station-to-Station charges will apply to these sent-paid calls.
6. Customers who identify themselves as being disabled and unable to dial the call will not be required to pay the operator-assisted charge for sent-paid Station-to-Station calls from Payphone Line Service telephones. (CT)
7. When an operator is used to complete a local call, the charges appearing in B.1., 2. and 3., following apply.

I. METROPOLITAN OPTIONAL SERVICE PLAN - LAKE LOTAWANA, MISSOURI

**MISSOURI  
Public Service Commission**

A. General

1. This plan is an optional interexchange service offered to Lake Lotawana, Missouri, exchange service customers of the Company providing an alternate rate treatment for calls to selected exchanges listed in the exchange list in C.3. following. Calls exceeding the individual Message Unit Plan contract will be billed at the intrastate Long Distance Message Telecommunications Tariff rates.
2. For application of Service Charges, see the Service Connection Charges Section of this tariff.

B. Message Unit Plan Rates (Business and Residence)

Monthly Rates

1. Plan 1 - 150 Units (ASBSTLP L1)	\$ 9.45
2. Plan 2 - 300 Units (ASBSTLP L2)	18.90
3. Plan 3 - 450 Units (ASBSTLP L3)	28.35

C. Application

1. Unit charges are calculated in this matter: Minutes of Use multiplied by the distance factor of the called exchange. Units are discounted 25 percent for calls placed 5 p.m. to 8 a.m. Monday through Thursday, and from Friday at 5 p.m. to Monday at 8 a.m. and holidays as specified in the Intrastate Long Distance Message Telecommunications tariff.

2. Distance Factors

- Zone 1 : 1
- Zone 2 : 2
- Zone 3 : 3

CUSTOM CALLING SERVICES

I. GENERAL REGULATIONS

Custom Calling Services are optional telephone service arrangements which provide one or more of the following features:

A. **Enhanced** Call Waiting (T)

Alerts a customer who is using his telephone, by means of an audible tone, that another call is trying to reach him. **Where facilities permit, this feature includes** Call Waiting Control **which** allows customers to turn off the call waiting tone before or during a call (but before the call waiting tone has been heard), so that his call will not be interrupted by the call waiting tone. The call waiting tone capability will automatically be restored when the call is terminated. (M) (T) (T)

B. Three-Way Calling

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing three-way conversation. To activate the service, the customer must place the first party on hold (hookflash), dial the second party's number, and once connected, hookflash to re-join the initial party. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

Three-Way Calling is available at a flat monthly rate or on a usage sensitive basis. To use the service on a usage sensitive basis, the customer must press an activation code prior to dialing the second party's number. The customer will incur an activation charge for each completed call. The provisioning of this service on a usage sensitive basis is subject to technical limitations and is provided where facilities are available. Customers may request removal of this feature at no additional charge.

I. GENERAL REGULATIONS

Custom Calling Services are optional telephone services or enhancements which provide one or more of the following features.

MISSOURI  
Public Service Commission

A. Call Waiting (RT)

Alerts a customer who is using his telephone, by means of an audible tone, that another call is trying to reach him. Call Waiting Control is an enhancement to Call Waiting and allows customers to turn off the Call Waiting tone before or during a call (but before the Call Waiting tone has been heard), so that his call will not be interrupted by the Call Waiting tone. The Call Waiting tone capability will automatically be restored when the call is terminated. (CT)

B. Call Forwarding (RT)

Permits a customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The Call Forwarding customer is responsible for the payment of charges for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

C. Three-Way Calling (RT)

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing three-way conversation. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

Speed Calling (RT)

Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. The 8-code capacity or the 30-code capacity may be provided. The combination of code capacities is not available on multi-line hunting lines.

I. GENERAL REGULATIONS

**MISSOURI**  
**Public Service Commission**

Custom Calling Services are optional telephone service arrangements which provide one or more of the following features:

A. Call Waiting (FCW1FLC)

Alerts a customer who is using his telephone, by means of an audible tone, that another call is trying to reach him. Cancel Call Waiting is an enhancement to Call Waiting and allows customers to turn off the Call Waiting tone before or during a call (but before the Call Waiting tone has been heard), so that his call will not be interrupted by the Call Waiting tone. The Call Waiting tone capability will automatically be restored when the call is terminated.

B. Call Forwarding (FCF1FLC)

Permits a customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The Call Forwarding customer is responsible for the payment of charges for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

C. Three-Way Calling (F3W1FLC)

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing three-way conversation. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

D. Speed Calling (FSB1FLC or FS31FLC)

Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. The 8-code capacity or the 30-code capacity may be provided. The combination of the capacities is not available on multi-line hunting lines.

CUSTOM CALLING SERVICES

I. GENERAL REGULATIONS (Continued)

- C. Call Forward Features permit the forwarding of incoming calls under a variety of conditions to another telephone number either by dialing an activation code or via pre-programming by the Company. Calls may be forwarded to any number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. The customer subscribing to this service is responsible for applicable usage charges. Only one call forwarding arrangement, consisting of a single calling path, will be provided per exchange service line for which the customer subscribes to this feature, unless the customer is also subscribed to the Call Forward Additional Paths feature, in which instance one call path per Call Forward Additional Path feature subscribed to will be provided. **When the Customer's designated forward-to number is not in the Customer's local or expanded local calling area, the use of multiple paths for the completion of simultaneous toll calls may be subject to restrictions or prohibitions imposed by the Customer's Presubscribed Interexchange Carrier.**

(N)  
|  
(N)

Call Forward Features shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of usage charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred. If the Company determines that Call Forward Features are being used in manner not consistent with the intent of the service or in any other way violates the restrictions of the service, the Subscriber will be determined ineligible for the service and the service will be removed from the Customer's account.

1. Call Forwarding

This feature permits the manual forwarding of incoming calls to another telephone number. When activated, all calls will forward; calls cannot be answered from a line with Call Forwarding activated. Call Forwarding overrides Call Forward No Answer and Call Forward Busy, but those features resume functionality when Call Forwarding is deactivated.

Call Forwarding (FCF1FLC) – Provides a customer the capability to control activation/deactivation and the forward-to-number of the service by using dialing tones.

2. Call Forward No Answer

This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone remains unanswered for a predetermined number of rings, usually four or five.

- a. Call Forward No Answer – Fixed (FCD1FLC) – This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.
- b. Call Forward No Answer – Customer Programmable (FCD1FLC PRG) – Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dial tones.

I. GENERAL REGULATIONS (Continued)

D. (Continued)

4. Call Forward Additional Paths (FCF1FLC PTH)

- c. The number of paths may not exceed the terminating capability of the forward-to telephone number. In no case, shall the number of additional paths exceed 99.
- d. Customers with a single (non-rotary) exchange line/trunk or a rotary (hunting) arrangement of 10 or less lines/trunks may purchase up to 10 additional paths.
- e. For customers with a rotary hunting arrangement of more than 10 lines/trunks, the number of additional paths cannot exceed the number of lines/trunks in the forwarding arrangement.
- f. The applicable Service Connection Charges will be charged when the number of paths is changed or when the forward-to telephone number is changed.

CUSTOM CALLING SERVICES

I. GENERAL REGULATIONS (Cont'd)

D. Speed Dial <sup>(1)</sup> (T) (C)

Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. The 8-code capacity (**Speed Dial 8**) or the 30-code capacity (**Speed Dial 30**) may be provided. The combination of code capacities is not available on multi-line hunting lines. (T) (T)

E. Directory Number Transfer <sup>(2)</sup> (C)

Permits a customer to transfer all calls to a fixed single telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit, (Analog office only).

F. Hot Line/Warm Line <sup>(2)</sup> (C)

Automatically routes the customer's telephone to a predetermined trunk or telephone number when the handset is removed. The Hot Line is switched immediately and the Warm Line is switched after a brief timing period and prior to dialing.

G. Intercom Service <sup>(2)</sup> (C)

Allows customers with an individual residence or business line to use their line to provide an intercom system between their telephones. This is accomplished by the customer dialing his own number, receiving a recording and hanging up. All telephones at that number will then ring and when one of the other telephones goes off-hook, the ringing will stop and the initiator of the call can go off-hook and engage in conversation.

<sup>(1)</sup> **Speed Dial 30 is limited to existing customers at existing locations as of June 20, 2008.** (N)

Service Commission**

I. GENERAL REGULATIONS (Cont'd)

**RECD JAN 26 2000**

M. Call Forward of Call Waiting

Allows Call Waiting calls to be forwarded automatically if they are not answered within a certain time frame. When the subscriber chooses not to connect to the incoming call the Call Forward of Call Waiting features will assume control of the call and route the call to a predetermined number. Call Forward of Call Waiting is only available to customers who purchase Call Waiting and Call Forward-No Answer.

Customer Calling Services with the exception of Intercom Service will be provided in connection with individual and multi-line residence and business lines. Intercom Service will only be offered on individual lines. Party line or trunk facilities customers and Payphone Line Services are excluded from Custom Calling Services. (CT)

The service will be furnished only at locations where adequate and suitable facilities are available.

Other facilities, miscellaneous and supplemental equipment requested by customers and not detrimental to this service or other services of the Telephone Company will be furnished in accordance with regulations and at rates specified in the applicable sections of this tariff.

Custom Calling Service are available in central offices equipped to provide the service.

To ensure customer satisfaction with usage sensitive features, the Company will provide the following credit(s) upon the customer's requests: (1) a one time credit for all usage sensitive charges in a single billing period; (2) a second credit for the difference between the individual service's flat monthly rate and the actual usage sensitive charges for that single billing period. Original Page 4.1

MISCELLANEOUS EQUIPMENT AND SERVICE

I. GENERAL REGULATIONS (Cont'd)

O. Three-Way Calling with Transfer

1. Allows a user to hold an in-progress call and complete a second call while maintaining privacy from the first call, or to add on the previously held call for a three-way conference. Incoming calls may be transferred to another access arrangement on an inter- or intra-switch basis, except as specified in Section 43.I.O.

The subscriber can transfer the caller to the secondary destination in one of three ways:

- a. Blind Transfer - By placing the original caller on hold, dialing the secondary destination, and upon hearing the ring, hang up, resulting in the original caller being connected to the secondary destination.
  - b. Announced Transfer - By placing the original caller on hold, dialing the Secondary destination, and upon the party at the secondary destination answering the phone, the subscriber announces the transfer of the call (on hold at the time) and hangs up (on hook), resulting in the original caller being connected to the secondary destination.
  - c. Three-Way Conferencing with Option to Transfer - By placing the original caller on hold, dialing the secondary destination, and upon the party at the secondary destination answering the phone, taking the original caller off-hold; resulting in a three way connection. The subscriber can then hang up; resulting in the original caller continuing to be connected to the caller at the secondary destination.
2. The subscriber of Three-Way Calling with Transfer can receive or originate the initial call. Three-Way Call with Transfer allows the subscriber to originate both legs of a three way connection and subsequently disconnect, enabling the other parties to remain connected.
  3. Where the subscriber originates both legs of a three-way call, those legs will remain bridged together when the subscriber goes on hook when at least one of the legs is a call for which both the originating and terminating points are served by the same switch. Where the subscriber originates two inter-switch legs of a three-way call, both legs remain bridged when the subscriber goes on hook where the serving switch is not a 5ESS switch. For such calls in a 5ESS switch, both inter-switch legs are disconnected when the subscriber goes on hook.
  4. This feature shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message charges, toll or otherwise, that would regularly be applicable between the stations bridged together by the subscriber.

EXPRESSTOUCH

I. GENERAL DESCRIPTION

ExpressTouch is the Company's registered trade mark for a set of advanced call management features. These features are also commonly known as Custom Local Area Signaling Services (CLASS) and will only be offered on one-party service and will not be activated **on certain** FX lines, Payphone Line Services, ISDN-BRI and ISDN-PRI. ExpressTouch features may be offered in conjunction with Centrex services and consist of one or more of the following features:

(D)

A. Return Call

Return Call permits the subscriber to place a call to the telephone number associated with the most recent incoming call whether or not the call was answered or the telephone number is known by the subscriber. If the called line is available, the call is immediately completed. If the called line is not available, a queuing process, which may last up to thirty minutes, takes place. When both lines are available, the calling subscriber is notified via a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed.

Return Call is available on a flat monthly rate or on a usage sensitive basis. Under the usage sensitive option, whether the customer chooses to advance the call or abandon the call, the usage activation charge applies, unless the originating line information is not available. The provision of this service on a usage sensitive basis is subject to technical limitations and is provided where facilities are available. Customer may request removal of this feature at no additional charge.

Return Call cannot return a call to the telephone number of the last incoming call if the telephone number was originally blocked by the calling party.

B. Caller ID - Number Only <sup>(1)</sup>

Caller ID - Number Only allows the subscriber, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. During the time that the incoming call is placed, the calling number is forwarded from the central office to a compatible customer provided Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

<sup>(1)</sup> Limited to existing customers at existing locations as of June 20, 2008.

I. GENERAL DESCRIPTION

ExpressTouch® is the Company's registered trade mark for a set of advanced call management features. These features are also commonly known as Custom Local Area Signaling Services (CLASS) and will only be offered on one-party service and will not be activated on multi-party lines, certain FX lines, COCOT, Public and Semi-Public Coin Telephone Services. ExpressTouch® features may be offered in conjunction with Centrex services and consist of one or more of the following features:

A. Return Call

Return Call permits the subscriber to place a call to the telephone number associated with the most recent incoming call whether or not the call was answered or the telephone number is known by the subscriber. If the called line is available, the call is immediately completed. If the called line is not available, a queuing process, which may last up to thirty minutes, takes place. When both lines are available, the calling subscriber is notified via a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed.

Return Call is available on a flat monthly rate or on a usage sensitive basis. Under the usage sensitive option, whether the customer chooses to advance the call or abandon the call, the usage activation charge applies, unless the originating line information is not available. The provision of this service on a usage sensitive basis is subject to technical limitations and is provided where facilities are available. Customer may request removal of this feature at no additional charge.

Return Call cannot return a call to the telephone number of the last incoming call if the telephone number was originally blocked by the calling party.

B. Caller ID

Caller ID allows the subscriber, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. During the time that the incoming call is placed, the calling number is forwarded from the central office to a compatible customer provided Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

I. GENERAL DESCRIPTION

JUN 27 1996

ExpressTouch® is the Company's registered trade mark for Missouri of advanced call management features. These features are also commonly known as Custom Local Area Signaling Services (CLASS) and will only be offered on one-party service and will not be activated on multi-party lines, certain FX lines, COCOT, Public and Semi-Public Coin Telephone Services. ExpressTouch® features may be offered in conjunction with Centrex services and consist of one or more of the following features:

A. Return Call (CT)

Return Call permits the subscriber to place a call to the telephone number associated with the most recent incoming call whether or not the call was answered or the telephone number is known by the subscriber. If the called line is available, the call is immediately completed. If the called line is not available, a queuing process, which may last up to thirty minutes, takes place. When both lines are available, the calling subscriber is notified via a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed. (CT)

B. Caller ID

Caller ID allows the subscriber, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. During the time that the incoming call is placed, the calling number is forwarded from the central office to a compatible customer provided Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

The calling telephone number is not available from calls made from most cellular phones or units and currently from interexchange carrier and other local exchange carrier calls. The calling number is also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is not part of the ExpressTouch® network, is a multi-party line, or is blocked, the number will not be displayed.

Subscription to Caller ID on Centrex access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line basis.

EXPRESSTOUCH

I. GENERAL DESCRIPTION (Cont'd)

B. Caller ID - Number Only <sup>(1)</sup> (Cont'd)

The calling telephone number is not available from calls made from most cellular phones or units and currently from some interexchange carriers and other local exchange carrier calls. The calling number is also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is not part of the ExpressTouch **network or** is blocked, the number will not be displayed.

(D)

Caller ID - Number Only customers who do not wish to receive calls with blocked numbers can activate Anonymous Call Rejection by pressing \*77 (1177 on rotary phones). The code to deactivate is \*87 (1187 on rotary phones). While the feature is activated, incoming calls with blocked numbers are routed to an announcement in the central office. Anonymous Call Rejection is automatically available, in the deactivate state, to residence subscribers of Caller ID - Number Only and to business subscribers where technically feasible.

Subscription to Caller ID - Number Only on Centrex access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line basis.

Telephone numbers transmitted via Caller ID - Number Only may not be sold or given to another party without the caller's consent. Caller ID - Number Only information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. Caller ID - Number Only customers failing to comply with any of these conditions will have their service terminated.

<sup>(1)</sup> Limited to existing customers at existing locations as of June 20, 2008.

Caller ID customers intending to comply with any of these conditions will have their service terminated.

CANCELLED

C. Caller ID Blocking

DEC 16 1996  
BY R.S. # 8  
Public Service Commission  
MISSOURI

Caller ID blocking allows the subscriber to elect the delivery of the subscriber's directory number on a per call basis (per call block) or per line basis (per line block).

Per call block will block the delivery of the subscriber's number for one call only and may be activated by dialing an activation code (\*67 from a Touch-Tone telephone or 1167 from a rotary telephone) immediately prior to placing a call. The activation code will initiate per call blocking, which is available at no charge.

If the calling party activates blocking, the directory number will not be transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of the telephone number.

B. Caller ID (Cont'd)

Telephone numbers transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. Caller ID customers failing to comply with any of these conditions will have their service terminated.

C. Caller ID Blocking

Caller ID blocking allows the subscriber to prevent the delivery of the subscriber's directory number on a per call basis (per call block) or per line basis (per line block).

Per call block will block the delivery of the subscriber's number for one call only and may be activated by dialing an activation code (\*67 from a Touch-Tone telephone or 1167 from a rotary telephone) immediately prior to placing a call. The activation code will initiate per call blocking, which is available at no charge.

If the calling party activates blocking, the directory number will not be transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of the telephone number.

Per line block will automatically block delivery of the subscriber's telephone number on all calls. Line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with the Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability.

The blocking of the directory number will not be provided on calls originating from Public, Semi-Public and Customer-Owned Pay Telephone Services.

I. GENERAL DESCRIPTION (Cont'd)

C. Caller ID with Name

Caller ID with Name functions in the same manner as Caller ID - Number Only but also includes the delivery of a calling party's name. The name and number are displayed on compatible customer provided auxiliary equipment.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, at its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors, omissions, or mistakes. The Company's sole and only obligation shall be to correct errors in names when notified in writing of such errors.

The calling telephone name and number is not available from calls made from most cellular phones or units and currently from some interexchange carriers and other local exchange carrier calls. The calling name and number are also not available when incoming calls have been handled by an operator or charged to credit cards. Name and number delivery for calls originated from a PBX will display the main PBX name and number only. If the caller's name and number are not part of the ExpressTouch **network** or is blocked, the name and number will not be displayed. (D)

Caller ID with Name customers who do not wish to receive calls with blocked numbers can activate Anonymous Call Rejection by pressing \*77 (1177 on rotary phones). The code to deactivate is \*87 (1187 on rotary phones). While the feature is activated, incoming calls with blocked numbers are routed to an announcement in the central office. Anonymous Call Rejection is automatically available, in the deactivate state, to residence subscribers of Caller ID with Name and to business subscribers where technically feasible.

Subscription to Caller ID with Name on Centrex access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line basis.

Caller ID With Name customers who do not wish to receive calls with blocked numbers can activate Anonymous Call Rejection by pressing \*77 (1177 on rotary phones). The code to deactivate is \*87 (1187 on rotary phones). While the feature is activated, incoming calls with blocked numbers are routed to an announcement in the central office. Anonymous Call Rejection is automatically available, in the deactive state, to residence subscribers of Caller ID With Name and to business subscribers where technically feasible.

Subscription to Caller ID With Name on Centrex access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line basis.

I. GENERAL DESCRIPTION (Cont'd)

SEP 12 1996

C. Caller ID Blocking (Cont'd)

MISSOURI  
Public Service Commission

(MT)

Per line block will automatically block delivery of the subscriber's telephone number on all calls. Line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/ volunteers, where an executive officer of the agency registers with the Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability.

The blocking of the directory number will not be provided on calls originating from Public, Semi-Public and Customer-Owned Pay Telephone Services.

Wherever per-line blocking is provided, per call unblocking is available at no charge to enable delivery of the calling party number. By dialing the activation code 82 or 1182 from a rotary phone, the next attempted call will deliver the calling party number.

D. Call Trace

Call Trace enables the customer to initiate automatic trace of the last incoming call received, regardless of the time lapse since that call, providing there have been no intervening outgoing calls. To initiate the trace, the customer must dial an activation code, then dial a "1". Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local telephone company business office for further action. The customer is not provided the traced number.

If the customer makes or receives another call before activating the trace, or if the Call Waiting feature (described in other sections of this tariff) is activated prior to activating the trace, Call Trace feature will not record the correct number.

Call Trace will trace only those calls which are originated from a location served by the ExpressTouch® network. A separate charge applies to each successful activation of this feature.

(T)

I. GENERAL DESCRIPTION (Cont'd)

C. Caller ID With Name (Cont'd)

Telephone name and numbers transmitted via Caller ID With Name may not be sold or given to another party without the caller's consent. Caller ID With Name information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the name and number delivery services subscriber. Caller ID With Name customers failing to comply with any of these conditions will have their service terminated.

Caller ID Blocking

Caller ID blocking allows the subscriber to prevent the delivery of the subscriber's directory name and/or number on a per call basis (per call block) or per line basis (per line block).

Per call block will block the delivery of the subscriber's name and/or number for one call only and may be activated by dialing an activation code (\*67 from a Touch-Tone telephone or 1167 from a rotary telephone) immediately prior to placing a call. The activation code will initiate per call blocking, which is available at no charge.

If the calling party activates blocking, the directory name and/or number will not be transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of the telephone name and/or number.

Per line block will automatically block delivery of the subscriber's telephone name and/or number on all calls. Line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with the Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling name and/or number will not be transmitted from a line equipped with this capability.

F. Repeat Dialing

**MISSOURI  
Public Service Commission**

(CT)

Repeat Dialing allows the subscriber to automatically redial the last number dialed from the subscriber's telephone regardless of the completion status of the last number dialed. If the called line is available, the call will be placed immediately. If the redialed line is busy, the network will queue the request for thirty minutes and process the call when both the called and calling party lines are idle. When the call can be completed, a distinctive ring will be provided to the caller's line to alert the subscriber that the requested callback is ready. When the subscriber picks up the telephone, the call is automatically placed.

Repeat Dialing is available on a flat monthly rate or on a usage sensitive basis. Under the usage sensitive option, the customer will be billed each time a call is completed through the use of this feature. The provision of this service on a usage sensitive basis is subject to technical limitations and is provided where facilities are available. Customers may request removal of this feature at no additional charge.

This feature cannot be activated for calls originating from a line that is forwarded.

I. GENERAL DESCRIPTION (Cont'd)

JUN 27 1996

C. Caller ID Blocking (Cont'd)

Wherever per-line blocking is provided, per call blocking is available at no charge to enable delivery of the calling party number. By dialing the activation code, \*82 or 1182 from a rotary phone, the next attempted call will deliver the calling party number.

D. Call Trace

(CT)

Call Trace enables the customer to initiate an automatic trace of the last incoming call received, regardless of the time lapse since that call, providing there have been no intervening outgoing calls. To initiate the trace, the customer must dial an activation code, then dial a "1". Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local telephone company business office for further action. The customer is not provided the traced number.

If the customer makes or receives another call before activating the trace, or if the Call Waiting feature (described in other sections of this tariff) is activated prior to activating the trace, Call Trace feature will not record the correct number.

Call Trace will trace only those calls which are originated from a location served by the ExpressTouch® network. A separate charge applies to each successful activation of this feature.

E. Repeat Dialing

(CT)

Repeat Dialing allows the subscriber to automatically redial the last number dialed from the subscriber's telephone regardless of the completion status of the last number dialed. If the called line is available, the call will be placed immediately. If the redialed line is busy, the network will queue the request for thirty minutes and process the call when both the called and calling party lines are idle. When the call can be completed, a distinctive ring will be provided to the caller's line to alert the subscriber that the requested callback is ready. When the subscriber picks up the telephone, the call is automatically placed.

This feature cannot be activated for calls originating from a line that is forwarded.

I. GENERAL DESCRIPTION (Cont'd)

I. Selective Call Forward

Selective Call Forward allows the customer to transfer selected calls to another telephone number. A screening list of numbers is created by the customer and placed in the network memory via an interactive dialing sequence. This list can only be created from **ExpressTouch** Service serving area telephone numbers. Only calls from those telephone numbers in the screening list may be forwarded to the designated telephone number.

(T)

For calls from a line within multi-line hunting the call is selectively forwarded only when the main telephone has been entered in the screening list.

Calls may be forwarded to a number within the subscriber's home exchange, EAS exchanges, or Expanded Local Calling Area or to a long distance message telecommunications point subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. The customer subscribing to this service is responsible for applicable usage charges or toll charges. Due to transmission limitations, it is recommended that calls be transferred only within the customer's local calling area. This feature is available where facilities permit on an individual feature basis or any combination thereof.

J. Selective Call Rejection

Selective Call Rejection provides the customer the ability to prevent incoming calls from certain telephone numbers. Through an interactive dialing sequence, the customer creates a screening list of telephone numbers in the **ExpressTouch** network. When a call is placed to the customer's number from a number on the screening list, the calling party receives an announcement indicating that the call cannot be completed to the called party at this time.

(T)

For calls from a line within multi-line hunting the call is blocked only when the main telephone number has been entered in the screening list.

K. Selective Call Ring

Selective Call Ring provides a distinctive ringing pattern to the subscribing customer for specific telephone numbers. The customer creates a screening list of telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern. Calls from telephone numbers not included on the screening list will produce a normal ring.

(T)

If the called customer subscribes to Call Waiting (described in other sections of this tariff) and the call arrives while the line is busy, the Call Waiting tone has the same distinctive patterns. For calls from a dial tone line with multi-line hunting, the distinctive signal is only produced when the main telephone number has been entered in the screening list.

K. Selective Call Acceptance

(T)

Selective Call Acceptance - an arrangement that allows a subscriber to selectively accept only calls arriving from a list of up to 31 previously identified directory numbers.

A call will only be accepted when it is received from a telephone number that matches one of up to 31 numbers on the Selective Call Acceptance list. Calls from telephone numbers that do not match one of the 31 numbers on the Selective Call Acceptance list will be routed to an announcement stating that the called party does not wish to receive the call. If the incoming call is from a telephone number in a multi-line hunt group, this feature will not work unless the number is the main telephone number in the group, or each terminal has a unique telephone number associated with it within the group.

The Selective Call Acceptance list is a list created by the Selective Call Acceptance subscriber, through an interactive dialing sequence, and can be altered at the subscriber's discretion.

This feature can be activated or deactivated at the subscriber's discretion.

(T)

II. GENERAL REGULATIONS

- 1. **ExpressTouch** features can be provided on a stand alone basis or may be enhanced by use with Custom Calling Service features as described in other sections of this tariff. (T)
- 2. **ExpressTouch** features are provided from specially equipped Telephone Company Central Offices and enable customers to access various features by dialing a specific code on either a rotary-dial or Touch-Tone calling basis. (T)
- 3. The customer of record will be responsible for all rates and charges associated with **ExpressTouch** as described in Rates and Charges. The customer of record will be charged for all features activated on his/her service and charged the applicable monthly subscription rate for each line on which an **ExpressTouch** feature is provided. (T)
- 4. **ExpressTouch** features are available to customers who have rotary or Touch-Tone service for calls within the **ExpressTouch** Calling Service area. Customers with rotary service can access **ExpressTouch** features by dialing "11" instead of "\*". (T)
- 5. An **ExpressTouch** customer may employ available **ExpressTouch** features only under the following conditions: (T)
  - When both the **ExpressTouch** customer and the other party involved in the call are served from the same central office, even if the other party does not subscribe to an ExpressTouch feature. (T)
  - When both the **ExpressTouch** customer and the other party involved in the call are served from different central offices which are linked by facilities that can handle the delivery of the calling number, even if the other party does not subscribe to **ExpressTouch**. (T)

EXPRESSTOUCH®

II. GENERAL REGULATIONS

1. ExpressTouch® features can be provided on a stand alone basis or may be enhanced by use with Custom Calling Service features as described in other sections of this tariff.
2. ExpressTouch® features are provided from specially equipped Telephone Company Central Offices and enable customers to access various features by dialing a specific code on either a rotary-dial or Touch-Tone calling basis.
3. The customer of record will be responsible for all rates and charges associated with ExpressTouch® as described in Rates and Charges. The customer of record will be charged for all features activated on his/her service and charged the applicable monthly subscription rate for each line on which an ExpressTouch® feature is provided.
4. ExpressTouch® features are available to customers who have rotary or Touch-Tone service for calls within the ExpressTouch® Calling Service area. Customers with rotary service can access ExpressTouch® features by dialing "11" instead of "\*".
5. An ExpressTouch® customer may employ available ExpressTouch® features only under the following conditions:
  - When both the ExpressTouch® customer and the other party involved in the call are served from the same central office, even if the other party does not subscribe to an ExpressTouch® feature.
  - When both the ExpressTouch® customer and the other party involved in the call are served from different central offices which are linked by facilities that can handle the delivery of the calling number, even if the other party does not subscribe to ExpressTouch®.

I. GENERAL DESCRIPTION (Cont'd)

DEC 01 1993

H. Selective Call Ring (Cont'd)

MISSOURI  
Public Service Commission

If the called customer subscribes to Call Waiting (described in other sections of this tariff) and the call arrives while the line is busy, the Call Waiting tone has the same distinctive patterns. For calls from a dial tone line with multi-line hunting, the distinctive signal is only produced when the main telephone number has been entered in the screening list.

II. GENERAL REGULATIONS

1. ExpressTouch® features can be provided on a stand alone basis or may be enhanced by use with Custom Calling Service features as described in other sections of this tariff.

2. ExpressTouch® features are provided from specially equipped Telephone Company Central Offices and enable customers to access various features by dialing a specific code on either a rotary-dial or Touch-Tone calling basis.

3. The customer of record will be responsible for all rates and charges associated with ExpressTouch® as described in Rates and Charges. The customer of record will be charged for all features on his/her service and charged the applicable monthly subscription rate for each line on which an ExpressTouch® feature is provided.

EXPRESSTOUCH

II. GENERAL REGULATIONS (Cont'd)

6. Call Trace will be billed the activation charge shown in the Rates and Charges section only when the attempt to trace and record the calling telephone number is successful. The results of a successful trace will only be provided to legal authorities with proper authorization. The Telephone Company will not be liable for damages if, for any reason, an attempt is not successful.

7. The liability of the Telephone Company is as specified in the General Regulation section of this tariff. In addition to the provisions of the General Exchange Tariff, the calling party and customer relieves the Company against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a Caller ID customer of a telephone number which the calling party has requested to be omitted from the telephone directory or has requested not to be disclosed to any person.

8. ExpressTouch features will only be offered with one-party service, compatible PBX equipment and Centrex service. ExpressTouch features cannot be activated **for certain** FX lines, Payphone Line Services, ISDN-BRI and ISDN-PRI. (D)

Caller ID is the only feature currently available on PBX equipment.

Selective Call Forward, Selective Call Rejection and Selective Call Ring are not available on Centrex lines or Centrex Service II access lines.

9. ExpressTouch features will only be offered in exchanges which meet the necessary technical specifications. In addition, the Company reserves the right to offer ExpressTouch only where technologically feasible.

10. To ensure customer satisfaction with usage sensitive features, the Company will provide the following credit(s) upon the customer's requests: (1) a one time credit for all usage sensitive charges in a single billing period; (2) a second credit for the difference between the individual service's flat monthly rate and the actual usage sensitive charges for that single billing period. In both instances the Company will recommend the flat monthly rate in lieu of the usage sensitive options.

NETWORK SERVICES

I. GENERAL DESCRIPTION

A. PRIVACY ID

1. Privacy ID provides Caller ID subscribers with the ability to identify unavailable, unknown, blocked and private numbers. Privacy ID intercepts all unidentified calls before the subscriber's telephone rings then asks the caller to state their name or company. Once the calling party has responded, the service rings the subscriber and announces the calling party's information. The subscriber has the option to accept the call, reject the call, play an announcement to the calling party or forward the call to voicemail.
2. The Privacy ID subscriber may provide calling parties with a Caller's Access Code. Use of this access code allows the calling party to bypass Privacy ID.
3. Privacy ID is provided subject to availability of facilities.
4. Privacy ID is not offered in conjunction with Integrated Services Digital Network (ISDN), Centrex Services, Payphone Service Provider and PBX Trunks.
5. When the Call Trace and Return Call features are activated on calls intercepted by Privacy ID, the telephone number captured is that of the Service Node, which performs Privacy ID, not the telephone number of the calling party.
6. Caller ID Service is required in order to subscribe to Privacy ID.
7. Service connection charges do not apply when Privacy ID is installed.

	<u>Monthly Rate</u>		
	<u>Residence</u>	<u>Business</u>	
Privacy ID (SAE Code FPI1FLC)	<b>\$5.50</b>	<b>\$6.88</b>	( 1 )

8. Privacy ID is available as an add-on to Personal II Solution and Special Plan - Metro Bundle and Standard Home Phone II for a monthly rate of \$4.00.

NETWORK SERVICES

I. GENERAL DESCRIPTION

A. SPRINT PRIVACY ID<sup>SM</sup>

1. Sprint Privacy ID<sup>SM</sup> provides Caller ID subscribers with the ability to identify unavailable, unknown, blocked and private numbers. Sprint Privacy ID<sup>SM</sup> intercepts all unidentified calls before the subscriber's telephone rings then asks the caller to state their name or company. Once the calling party has responded, the service rings the subscriber and announces the calling party's information. The subscriber has the option to accept the call, reject the call, play an announcement to the calling party or forward the call to voicemail.
2. The Sprint Privacy ID<sup>SM</sup> subscriber may provide calling parties with a **Caller's Access Code**. Use of **this access code** allows the calling party to bypass Sprint Privacy ID<sup>SM</sup>. (M)  
(M)
3. Sprint Privacy ID<sup>SM</sup> is provided subject to availability of facilities.
4. Sprint Privacy ID<sup>SM</sup> is not offered in conjunction with Integrated Services Digital Network (ISDN), Centrex Services, Payphone Service Provider and PBX Trunks.
5. When the Call Trace and Return Call features are activated on calls intercepted by Sprint Privacy ID<sup>SM</sup>, the telephone number captured is that of the Service Node, which performs Sprint Privacy ID<sup>SM</sup>, not the telephone number of the calling party.
6. Caller ID Service is required in order to subscribe to Sprint Privacy ID<sup>SM</sup>.
7. Service connection charges do not apply when Sprint Privacy ID<sup>SM</sup> is installed.

	S&E CODE	Monthly Rate	
		Residential	Business
Sprint Privacy ID <sup>SM</sup>	(FPI1FLC)	\$4.95	\$5.95

8. Sprint Privacy ID<sup>SM</sup> is available as an add-on to Sprint Personal II Solution for a monthly rate of \$4.00.

I. GENERAL DESCRIPTION

B. TALKING CALL WAITING

1. Talking Call Waiting allows customers to know who is calling while they are on the telephone with another party. Talking Call Waiting enhances **the Enhanced Call Waiting feature** by allowing the customer to hear the name associated with the directory listing of the calling number after hearing the call waiting tone while the customer is on the line, unless the message is suppressed, either via per-call or per-line blocking or unless the calling and called parties are not connected via SS7 facilities, or the number is not passed by the calling party Telecommunication Provider, or the calling party's number is not associated with a name in the LIDB database. Any and all available names will be voiced to the subscriber. If the name is not available, the terms "private" or "unavailable" will be voiced in the appropriate situation. The term "private" is voiced if the caller has suppressed the delivery of name and number using per-line or per-call blocking. The term "unavailable" is voiced if the calling and called parties are not connected via SS7 facilities, or the number is not passed by the calling party Telecommunication Provider, or the calling party's number is not associated with a name in the LIDB database. Talking Call Waiting Service subscribers will hear both a call waiting tone plus the name of the calling party, if available, on an incoming call. The customer then presses the switch hook or flash button to place the current call on hold and talk to the call waiting party. (T)  
(T)
2. Talking Call Waiting is provided subject to availability of facilities.
3. Talking Call Waiting is available on a monthly subscription basis. This service requires no additional adjunct or telephone display equipment.
4. Talking Call Waiting is available to single-line business and residence customers.
5. Talking Call Waiting is not offered in conjunction with Centrex Services, Direct Inward Dialing (DID) Service, PBX Trunks, Integrated Services Digital Network (ISDN) or Payphone Service Provider.
6. A call waiting feature, including but not limited to **Enhanced Call Waiting** or any package containing the **Enhanced Call Waiting** feature, is required in order to subscribe to Talking Call Waiting. (T)  
(T)
7. Service connection charges do not apply when Talking Call Waiting is installed.

NETWORK SERVICES PACKAGING

I. GENERAL

Network Services Packages are offerings that combine certain **ExpressTouch** and Custom Calling Service options into packages at rates that provide a monthly savings over the rates that would apply if the services were purchased individually. (T)

II. REGULATIONS

A. The **ExpressTouch** and Custom Calling Services included in the packaged services are also offered on an individual basis as shown in this section of the tariff. All descriptions and regulations for the **ExpressTouch** and Custom Calling Services are applicable to these packages. (T)

B. No substitutions will be permitted to the services available in each package. Should a customer no longer want a certain service contained in a subscribed-to package, the customer may choose another package which includes the services desired or select the individual services as provided for in the **ExpressTouch** and Custom Calling Services section of this tariff. (T)

C. Certain Network Services Packages are available to residential customers only.

NETWORK SERVICES PACKAGING

I. GENERAL

Network Services Packages are offerings that combine certain ExpressTouch® and Custom Calling Service options into packages at rates that provide a monthly savings over the rates that would apply if the services were purchased individually.

II. REGULATIONS

A. The ExpressTouch® and Custom Calling Services included in the packaged services are also offered on an individual basis as shown in this section of the tariff. All descriptions and regulations for the ExpressTouch® and Custom Calling Services are applicable to these packages.

B. No substitutions will be permitted to the services available in each package. Should a customer no longer want a certain service contained in a subscribed-to package, the customer may choose another package which includes the services desired or select the individual services as provided for in the ExpressTouch® and Custom Calling Services section of this tariff.

C. Certain Network Services Packages are available to residential customers only. (AT)

CENTREX SERVICES\* (C)

\* **Effective January 30, 2008, Centrex Service is not available to new customers.** (C)

I. GENERAL

A. Centrex Service is an optional communications system arrangement offering central office based features similar to those found in intelligent customer premise equipment to business customers with a minimum of two and a maximum of 200 access lines at a single location. Centrex is offered only in those exchanges with central offices equipped to provide this service. In addition, some features may not be available in all central offices.

B. Centrex Basic Service

Centrex Basic Service consists of an access line, Touch-Tone capability and the features listed below:

- |                                |                                    |
|--------------------------------|------------------------------------|
| Automatic Line                 | Executive Busy Override            |
| Automatic Route Selection      | Executive Busy Override-Exempt     |
| Call Back Queuing              | Expensive Route Warning Tone       |
| Call Forwarding                | Group Intercom                     |
| Call Hold Hunt Groups          | Meet-Me Conference                 |
| Call Park Last Number Redial   | Message Waiting                    |
| Call Pickup Loudspeaker        | Network Class of Service           |
| and Radio Paging Access        | Off Hook Queuing                   |
| Call Waiting/Make Set Busy     | Permanent Hold                     |
| Call Waiting Exempt            | Ring Again                         |
| Call Waiting Originating       | In Speed Calling                   |
| Code Call Access               | Station Controlled Conference      |
| Dial Call Waiting              | Three-Way Conference/Call Transfer |
| Dictation Access & Control     | w/ Consultation Hold               |
| Direct Inward Dialing          | Uniform Call Distribution          |
| Direct Outward Dialing         |                                    |
| Directed Call Pickup Barge-In  |                                    |
| Directed Call Pickup Non-Barge |                                    |
| Distinctive Ringing            |                                    |

Centrex Basic Service supports all of these features; however, all features cannot be assigned to all lines. For example, when a line is assigned call busy status, it cannot be assigned call waiting. Additionally each line can support a maximum of 20 features.

II. RULES AND REGULATIONS

- A. The minimum service period for ABC Service is one (1) month except when the provision of the service requires the construction of additional facilities and/or equipment. The customer will be required to pay all or a portion of the construction and installation charges and/or contract for service beyond the minimum service period in an arrangement agreeable to both the Telephone Company and the customer.
- B. A Rate Stability Plan is a payment option that allows the customer to pay a fixed monthly rate, which is not subject to Company initiated rate changes, for ABC Service over a fixed period. This plan covers the ABC line or trunk rate, Meridian Services rate, and the Additional Numbers rate. The plan does not cover Extended Area Services rates, Service Connection Charges or any other rates or charges not set forth in IV. below. Customers subscribing to this plan will sign a termination agreement for their service. Lines may be added to the existing contract, but the customer is subject to the terms of the agreement if a request is made to take lines out of service.

CENTREX SERVICES

II. RULES AND REGULATIONS (Cont'd)

C. Three-Way Calling, Call Forwarding and the Centrex Meridian Service are furnished subject to transmission limitation. The Telephone company does not guarantee satisfactory transmission on such arrangements. If the customer requests additional equipment to improve transmission, and facilities permit, additional charges based upon the costs incurred may apply.

D. Centrex Service lines may be designated as either Public Access lines or Intercommunication Only lines. Public Access lines allow outgoing, local access to the exchange network. Intercom Only lines allow calls to only those within the customer group. Through the use of a virtual facilities software, Intercom Only lines can share access to the exchange network with the Public Access lines. The number of lines to the exchange network at any time is limited by the number of Public Access lines ordered.

E. Centrex Service is intended for customers utilizing single line telephone sets. Use of PBX or Key Systems in conjunction with Centrex Service will be allowed only to provide connection between lines served by the existing system and other lines of the customer. The Direct Inward Dialing Feature is provided to trunk lines at the rates found in Section 18 of this tariff.

F. **Reserved for Future Use** (T)

G. One directory listing will be furnished for each Public Access line ordered. Additional directory listings will be furnished in accordance with the regulations set forth in Section 9 of this tariff.

H. The assignment of telephone numbers for the Centrex Service lines shall be in accordance with Section 25 of this tariff.

I. Telephone Company central offices with Centrex switching arrangements, providing access to WATS, Tie Lines, Foreign Exchange Lines, etc., are considered to be customer premises for the purposes of this section of the tariff.

II. RULES AND REGULATIONS (Cont'd)

**MISSOURI  
Public Service Commission**

- C. Three-Way Calling, Call Forwarding and the ABC Meridian Service are furnished subject to transmission limitation. The Telephone company does not guarantee satisfactory transmission on such arrangements. If the customer requests additional equipment to improve transmission, and facilities permit, additional charges based upon the costs incurred may apply.
- D. ABC Service lines may be designated as either Public Access lines or Intercommunication Only lines. Public Access lines allow access to the exchange network. Intercom Only lines allow calls to only those within the customer group. Through the use of a virtual facilities software package, Intercom Only lines can share access to the exchange network with the Public Access lines. The number of lines to the exchange network at any time is limited by the number of Public Access lines ordered.
- E. ABC Service is intended for customers utilizing single telephone sets. Use of PBX or Key Systems in conjunction with ABC Service will be allowed only to provide connection between lines served by the existing system and other lines of the customer. The Direct Inward Dialing Feature is provided to trunk lines at the rates found in Section 18 of this tariff.
- F. ABC Service is normally available for stations within the base rate area of an exchange only; exceptions may be made at the telephone company's discretion if facilities are available.
- G. One directory listing will be furnished for each Public Access line ordered. Additional directory listings will be furnished in accordance with the regulations set forth in Section 9 of this tariff.
- H. The assignment of telephone numbers for the ABC Service lines shall be in accordance with Section 25 of this tariff.
- I. Telephone Company central offices with ABC switching arrangements, providing access to WATS, Tie Lines, Foreign Exchange Lines, etc., are considered to be customer premises for the purposes of this section of the tariff.
- J. Extended Area Service (EAS) rates found in Section 16 of this tariff will be in addition to the ABC Service rates for all Public-Access lines in those exchanges offering EAS.

CENTREX SERVICES (CT)

II. RULES AND REGULATIONS (Cont'd)

K. End User Common Line Charges will apply to all lines as prescribed by United Telephone's Interstate Access Service Tariff (FCC No. 5).

L. Service Order Charge and a Central Office Line Charge per Centrex line will apply when changing service (adding or deleting lines or changing software). These charges can be found in Section 30 of this tariff. (CT)

III. DEFINITIONS

Automatic Line - This feature provides an automatic connection between a calling station, by going off hook, and a predetermined terminating number.

Automatic Route Selection - Automatic Route Selection (ARS) allows an outgoing toll call to be automatically completed by the least cost route available. The selection of routes is determined by the customer. If the primary route is busy, the ARS feature automatically tries alternative routes as prioritized.

Call Back Queuing - Call Back Queuing allows a station user encountering an all trunks busy condition to activate the Call Back Queuing feature and hang up. When a circuit becomes idle, the system will recall the user, and when they answer, automatically place the call. Call Back Queuing only affects outgoing local trunks on an originating basis.

Call Forwarding - Call Forwarding allows an Centrex station user to have incoming calls to his station automatically forwarded to a predetermined telephone number. Four (4) types of Call Forwarding are available: Call Forward Universally, which re-routes incoming calls to another telephone number; Call Forward Intragroup, which reroutes incoming calls to only those stations within the same customer group Call Forward Busy, which directs incoming calls to a busy station to be forwarded to a designated station or attendant; and Call Forward Don't Answer, which routes incoming calls to another designated station or attendant if the called station does not answer within a specified time. Call Forward Universal and Call Forward Intragroup are user programmable; Call Forward Busy is not. (CT)

CENTREX SERVICES

III. DEFINITIONS (Cont'd)

Call Forwarding-Remote Activation - This Call Forwarding-Remote Activation feature permits the Call Forward Universal subscribers who are traveling, the ability to activate, change, or deactivate their Call Forward service from anywhere in the town, state or country. (NT)

Call Hold - Call Hold is an optional feature available to an Centrex station user with a single line set. It allows the user to hold one call for any length of time provided neither party hangs up. The user may also place other calls while a call is on hold.

Call Park - The Call Park feature allows a station to park one call against its own directory number. The parked call can be retrieved from any station within the same customer group. Once a call is parked against a directory number, the user is free to make or receive calls on that directory number.

Call Pickup - Call Pickup allows a station user to answer incoming calls to another station within a present pickup group by dialing a feature activation code.

Call Waiting - This feature allows a station user, already talking on the phone, to be informed by a tone that another call is waiting to reach the station.

Call Waiting Exempt - The Call Waiting Exempt feature prevents call waiting tones from being imposed on a station. This feature is programmed via Service Order.

Call Waiting Originating - Call Waiting Originating (CWD) allows an originating line to impose a call waiting tone automatically on a busy called line.

Code Call Access - This service allows stations to gain access to customer-provided code call equipment by dialing an access code and a called party code.

Dial Call Waiting - Dial Call Waiting (DCW) permits a station user to impose a call waiting tone on a busy station that normally does not have call waiting. DCW is similar to CWD except that DCW is applied at the discretion of the station user and CWD is applied automatically.

CENTREX SERVICES (CT)

III. DEFINITIONS (Cont'd)

Dictation Access and Control - This feature provides access to customer-provided dictation recording equipment by dialing an access code. It also provides dictation equipment control functions, such as playback and correct, by transmitting Dual Tone Multi-Frequency (DTMF) signals over the voice path to the dictation recording equipment.

Direct Inward Dialing - This service allows for incoming calls from the exchange network to reach a specific station. The calling party dials the seven-digit directory number to reach the station. (CT)

Direct Outward Dialing - With this service, an Centrex station user can place external calls to the exchange network by dialing the access code (usually the digit 9), receiving an optional second dial tone, then dialing the external number.

Directed Call Pickup Barge-In - This feature is like Directed Call Pickup Non-Barge-In except Directed Call Pickup Barge-In will create a three-way call if the ringing station has been answered before completion of the pickup dialing sequence. (CT)

Directed Call Pickup Non-Barge-In - This feature permits an Centrex station user to answer a call which is ringing on a selected station within the same customer group and served by the same central office. (CT)

Distinctive Ringing - Distinctive ringing gives the Centrex Station user the ability to determine whether the call is from a station within the customer group or from the exchange network by the cadence of the ringing of the phone.

Executive Busy Override - This feature allows a station user to gain access to a busy station by flashing the switchhook during busy tone and dialing a feature activation code.

Executive Busy Override-Exempt - This feature blocks the Executive Busy Override feature if another user attempts to barge-in on an existing call.

CENTREX SERVICES

(CT)

III. DEFINITIONS (Cont'd)

Expensive Route Warning Tone - Expensive Route Warning Tone (ERWT) is an optional feature used in conjunction with ARS that can provide an Centrex calling party a warning tone to indicate the selection of an expensive toll route.

Group Intercom - This feature allows a station abbreviated dialing to other station members within the same intercom group.

Hunt Groups - Line or station hunting provides a means of searching a number of lines to find an idle one.

Last Number Redial - Last Number Redial allows a station user to redial his last called number by depressing one or two keys rather than the entire number.

Loudspeaker and Radio Paging Access - This feature permits Centrex station users to dial an access code to connect loudspeaker paging equipment. Access is subject to the originating station's Network Class of Service (NCOS). (CT)

Make Set Busy (MSB) - A Centrex 500/2500 station user can have the option of making the line busy to incoming calls while still completing outgoing calls. Calls attempting to terminate on a line with MSB activated can hear a busy signal or be routed to a recording. (CT)

Meet-Me Conference - A station user may set up a conference call for a special time of day with the Meet-Me Conference feature. The assigned Meet-Me Conference directory number for the conference is dialed at the designated time. Each conferee is automatically added to the conference when the Meet-Me conference number is dialed. As conferees are added, all conferees, excluding the new arrival, will receive a tone to indicate that a party has been added.

Meridian Auto Answer Back - This feature, when implemented on a Meridian set, allows any incoming call to the Primary Directory Number of the set to be automatically answered after four seconds. Conversation takes place through a hands-free unit.

## III. DEFINITIONS (Cont'd)

Meridian Automatic Dial - This feature allows a Meridian station user to call a frequently dialed number by depressing the assigned key. The user is permitted to program and change the number.

Meridian Automatic Line - This feature is a directory number feature that may be assigned to individual directory number appearances on a Meridian set, including the primary directory number. When an off hook condition is reported from the directory number appearance, to which Automatic line has been assigned, a connection is automatically established to a predetermined location.

Meridian Call Back Queuing - With this feature, a Meridian user encountering an all trunks busy condition has the option of being notified when a trunk becomes idle. The user is automatically connected to the called number. Meridian Call Back Queuing only affects outgoing local trunks on an originating basis.

Meridian Call Forwarding - This feature is functionally identical to Call Forwarding.

Meridian Call Park - This feature functions identically as stated under the Call Park with the following exception: The Business Set Call Park is a set feature that can be activated by either a key or an access code.

Meridian Call Pickup - Functionally the same as Call Pickup.

Meridian Call Waiting - An upcoming call encountering a busy Meridian line receives audible ringing while the called station user receives call waiting notification. The called station user can choose to acknowledge the new caller and place the existing party on hold, to alternate between the callers, or to abandon one of the calls.

Meridian Directed Call Pickup Non-Barge-In - Functionally the same as Directed Call Pickup Non-Barge-In.

Meridian Group Intercom - The feature allows a Meridian user to call a member of a predesignated group using abbreviated dialing.

Meridian Intercom - This feature allows a Meridian user to call a member of a predesignated group using abbreviated dialing.

(CT)

III. DEFINITIONS (Cont'd)

Mini-Console - An optional feature that enables answering positioning functionality on a Meridian Business Set. It gives the user the ability to monitor the status of Directory Numbers (DN) through the use of lamp status (Busy Lamp Field), direct dialing to a monitored DN (Direct Station Selection), and the ability to transfer a call to a busy line (Camp On). A Multiple Appearance Directory Number charge per monitored appearance is also applicable.

(AT)

(AT)

Multiple Appearance Directory Number - A directory number that is assigned to more than one Meridian set or single line set is called a Multiple Appearance Directory Number (MADN). The telephone sets that are assigned this number are known as a MADN group. MADN groups can be comprised of 2 to 32 stations and configured in either single call arrangements or multiple call arrangements.

Multiple Directory Number - An optional feature that allows a single Centrex line to have telephone numbers associated to the primary directory number while allowing only one call path.

(AT)

Music On Hold - Central Office Based Music - Similar to Music on Hold - Software Interface, except the music source is provided by equipment located in the central office, rather than the subscriber.

Music on Hold - Software Interface - An optional feature that provides for music to be played to a caller while he/she is placed on hold. The music source is provided by the subscriber, and requires an additional Centrex line to carry the music to the central office.

(AT)

Network Class of Service - The Network Class of Service (NCOS) feature in the Centrex system defines the specific features and calling patterns available to individual stations and attendants within a customer group. Access code restrictions can be set up to restrict stations and attendants from trunk types such as local, toll, DID and WATS. Also the ability to use certain features like Network Speed Call, Call Back Queuing and Off Hook Queuing are assigned by NCOS.

Off Hook Queuing - Off Hook Queuing enables a call that cannot be completed because no outgoing trunk is available to wait off hook in queue for an idle trunk. Once a trunk is available, the call progresses normally.

(CT)

Permanent Hold - The Permanent Hold option allows a Centrex station user to put an active call on hold and return the handset to the cradle.

III. DEFINITIONS (Cont'd)

Multiple Appearance Directory Number - A directory number that is assigned to more than one Meridian set or single line set is called a Multiple Appearance Directory Number (MADN). The telephone sets that are assigned this number are known as a MADN group. MADN groups can be comprised of 2 to 32 stations and configured in either single call arrangements or multiple call arrangements.

Network Class of Service - The Network Class of Service (NCOS) feature in the ABC system defines the specific features and calling patterns available to individual stations and attendants within a customer group. Access code restrictions can be set up to restrict stations and attendants from trunk types such as local, toll, DID and WATS. Also the ability to use certain features like Network Speed Call, Call Back Queuing and Off Hook Queuing are assigned by NCOS.

Off Hook Queuing - Off Hook Queuing enables a call that cannot be completed because no outgoing trunk is available to wait off hook in queue for an idle trunk. Once a trunk is available, the call progresses normally.

Permanent Hold - The Permanent Hold option allows an ABC station user to put an active call on hold and return the handset to the cradle.

Ring Again - A station user encountering a busy directory number can choose to be notified when the busy station becomes idle and automatically re-access that same number using the Ring Again feature. Both stations must be in the same customer group and be served by the same central office.

Speed Calling - Speed Calling allows a user to place calls to a list of frequently called numbers by dialing a speed call activation code instead of dialing the complete number. The speed call numbers are programmed by the individual users at their stations. A speed dial number may be a directory number, authorization code, account code, access code or feature access code. Speed Call Lists of 30 to 70 numbers can be shared. Ten (10) number Speed Call Lists are private and cannot be shared.

CENTREX SERVICES

III. DEFINITIONS (Cont'd)

Station Controlled Conference - This feature allows a 500/2500 Centrex station user to establish a conference call consisting of six parties.

Three-Way Conference/Call Transfer/Consultation Hold - This feature allows a Centrex station user to call a third party to conference him in, notify him of a call being transferred or consult with him while the other party is on hold.

Uniform Call Distribution - The Uniform Call Distribution (UCD) feature allows for an even distribution of incoming calls to a listed directory number answered by a group of 500/2500 stations. This group of stations is called a UCD group. Each station has its own directory number and is assigned the UCD feature.

IV. RATES

A. Centrex Basic Service Intercommunication Lines

Effective January 30, 2008 Month to Month rates are not available to new customers. They apply only to lines in service prior to January 30, 2008. Existing customers may retain their current lines at the same location at these rates until such service is discontinued by the customer.

	<u>Month To Month</u>		
2-10 lines, each	<b>\$29.00</b>	1FCYM01	(1)
11-20 lines, each	<b>\$26.00</b>	1FCYM1A	
21-50 lines, each	<b>\$23.50</b>	1FCYM04	
51-100 lines, each	<b>\$20.50</b>	1FCYM07	
101-200 lines, each	<b>\$19.00</b>	1FCYM10	(1)

The following 36 and 60 Month rates are not available to new customers, and apply only to customers existing prior to January 30, 2008. Customers under contract prior to January 30, 2008 may add lines under their existing contract. Upon contract expiration, existing customers must migrate to Centrex Service II as specified in Section 49 of this tariff or choose another service option. Customers may migrate to Centrex Service II at any time without incurring any Nonrecurring Charges or Service Connection Charges.

III. DEFINITIONS (Cont'd)

**MISSOURI  
Public Service Commission**

Station Controlled Conference - This feature allows a 500/2500 ABC station user to establish a conference call consisting of six parties.

Three-Way Conference/Call Transfer/Consultation Hold - This feature allows an ABC station user to call a third party to conference him in, notify him of a call being transferred or consult with him while the other party is on hold.

Uniform Call Distribution - The Uniform Call Distribution (UCD) feature allows for an even distribution of incoming calls to a listed directory number answered by a group of 500/2500 stations. This group of stations is called a UCD group. Each station has its own directory number and is assigned the UCD feature.

CENTREX SERVICES

IV. RATES (Cont'd)

- E. For each Multiple Appearance Directory Number, terminating on one key on a Meridian Services instrument, an Additional Number rate of \$0.75 shall be applied. Each Multiple Appearance Directory Number must appear as a primary intercom line on one Centrex station.
- F. If the addition (or deletion) of lines for an existing Centrex customer places the customer into a different rate level, all lines will be priced based on the total number of lines serving that customer. Customers with more than 200 lines will be charged rates that are developed on an individual case basis as provided for in part IV, Section 44 of this tariff.
- G. Subscribers under a Rate Stability Plan, whose Centrex lines increase in number, may receive a lower rate as specified by the tiered rate structure found in IV.A. above. If the number of Centrex lines decreases, the contract is subject to termination and the subscriber is subject to the conditions of termination as specified in the termination contract.
- H. Meridian Business sets can support private business lines which shall be offered at the current Business One-Party rate specified in Section 16 of this tariff.
- I. Music on Hold rates are applicable as follows:

<u>Line Size</u>	<u>w/Source</u>	<u>Interface Only*</u>	
2-20 Lines	<b>\$26.00</b>	<b>\$22.20</b>	( 1 )
21-50 Lines	<b>\$35.20</b>	<b>\$26.00</b>	
51-100 Lines	<b>\$49.65</b>	<b>\$32.60</b>	
101-200 Lines	<b>\$58.81</b>	<b>\$45.70</b>	( 1 )
200+ Lines	ICB	ICB	

\* An additional Centrex line is necessary for this service, at the rate prescribed in IV.A above.

- J. For each Multiple Directory Number terminating on one key on a Meridian services instrument, an Additional Number rate of **\$.89** shall be applied. In addition, rates for number block assignments in increments of 10 are applicable, and can be found in the Direct Inward Dialing section of this tariff. ( 1 )

IV. RATES (Cont'd)

MO. PUBLIC SERVICE COMM.

E. For each Multiple Appearance Directory Number, terminating on one key on a Meridian Services instrument, an Additional Number rate of \$0.75 shall be applied. Each Multiple Appearance Directory Number must appear as a primary intercom line on one Centrex station.

(CT)

F. If the addition (or deletion) of lines for an existing Centrex customer places the customer into a different rate level, all lines will be priced based on the total number of lines serving that customer. Customers with more than 200 lines will be charged rates that are developed on an individual case basis as provided for in part IV, Section 44 of this tariff.

(CT)

G. Subscribers under a Rate Stability Plan, whose Centrex lines increase in number, may receive a lower rate as specified by the tiered rate structure found in IV.A. above. If the number of Centrex lines decreases, the contract is subject to termination and the subscriber is subject to the conditions of termination as specified in the termination contract.

(CT)

(CT)

H. Meridian Business sets can support private business lines which shall be offered at the current Business One-Party rate specified in Section 16 of this tariff.

I. Music on Hold rates are applicable as follows:

(CT)

<u>Line Size</u>	<u>w/Source</u>	<u>Interface Only*</u>
2-20 Lines	\$20.00	\$17.00
21-50 Lines	\$27.00	\$20.00
51-100 Lines	\$38.00	\$25.00
101-200 Lines	\$45.00	\$35.00
200+ Lines	ICB	ICB

CENTREX SERVICES

V. DISCONTINUED SERVICE-1 (Cont'd)

- F. The Record Order Charge, specified in Section 30, is applicable per occasion when customers have additions or changes of Centrex Optional Features, plus \$0.81 per line affected for software change charges. These charges are not applicable on new installations or when line additions are made where other service connection charges are applicable.

VI. DISCONTINUED SERVICE-2

- A. The following services are not available to new customers. They apply only to customers existing within the Ferrelview exchange area prior to July 1, 1993, and any future additions for those customers.

I. GENERAL REGULATIONS

- A. The Centrex Service described herein applies to customers within the Ferrelview exchange area and served by the same digital switching central office. This service offering is made available to customers with a minimum of 20 and a maximum of 200 Centrex access lines. Centrex customers adding additional lines which will total more than 200 lines will be handled on an individual case basis.
- B. The Rate Stability Plan is a payment option that allows the customer to pay a fixed monthly rate for Centrex Service over a period of 36 months. This plan covers the Centrex access line, the Special Services Additive and Centrex "Plus" features.
- C. Miscellaneous Service Offerings and Private Line Services found in other sections of the tariff are excluded from the Rate Stability Plan. Services and equipment not covered by the Rate Stability Plan are subject to Commission approved rate changes. Centrex customers who elect not to subscribe to this plan will pay the current Centrex access line rates and Centrex services and are subject to Commission approved rate changes.

CENTREX SERVICES

V. DISCONTINUED SERVICE-1 (Cont'd)

- F. The Record Order Charge, specified in Section 30, is applicable per occasion when customers have additions or changes of Centrex Optional Features, plus **\$0.81** per line affected for software change charges. These charges are not applicable on new installations or when line additions are made where other service connection charges are applicable. (1)

VI. DISCONTINUED SERVICE-2

- A. The following services are not available to new customers. They apply only to customers existing within the Ferrelview exchange area prior to July 1, 1993, and any future additions for those customers.

I. GENERAL REGULATIONS

- A. The Centrex Service described herein applies to customers within the Ferrelview exchange area and served by the same digital switching central office. This service offering is made available to customers with a minimum of 20 and a maximum of 200 Centrex access lines. Centrex customers adding additional lines which will total more than 200 lines will be handled on an individual case basis.
- B. The Rate Stability Plan is a payment option that allows the customer to pay a fixed monthly rate for Centrex Service over a period of 36 months. This plan covers the Centrex access line, the Special Services Additive and Centrex "Plus" features. The plan does not cover charges for Extended Area Service. Customers subscribing to this plan will sign a termination agreement for their service.
- C. Miscellaneous Service Offerings and Private Line Services found in other sections of the tariff are excluded from the Rate Stability Plan. Services and equipment not covered by the Rate Stability Plan are subject to Commission approved rate changes. Centrex customers who elect not to subscribe to this plan will pay the current Centrex access line rates and Centrex services and are subject to Commission approved rate changes.

ADVANCED BUSINESS CONNECTION (ABC) SERVICE

SEP 17 1992

MISSOURI  
Public Service Commission

V. DISCONTINUED SERVICE (Cont'd)

F. The Record Order Charge, specified in Section 30, is applicable per occasion when customers have additions or changes of ABC Optional Features, plus \$0.75 per line affected for software change charges. These charges are not applicable on new installations or when line additions are made where other service connection charges are applicable.

VI. SPECIAL SERVICE ARRANGEMENTS

A. Special Service Arrangements are for those customers with a minimum of 201 ABC access lines. Special Service Arrangements consist of standard equipment and/or services offered under Section 44 of this tariff, Advanced Business Connection (ABC) Service.

B. Computation of Rates

Rates for special service arrangements are equivalent to the estimated costs of furnishing the special service arrangements, plus a contribution to Company overheads.

Estimated cost consists of an estimate of the total cost to the telephone company in providing the service including:

1. Total Investment. Included in this total are cost of equipment, materials, and installation. Added to the equipment and material cost is sales tax and supply expense. Estimated labor hours are applied toward the appropriate labor rates. Should installation be contracted out, allocations would be added to the contractor's rate to recover relevant expenses.
2. Depreciation on the estimated installed cost (total investment) of any facilities used to provide the ABC service based on the anticipated useful service life of the facilities.

I. GENERAL REGULATIONS (Cont'd) (MT)

D. Customers subscribing to the Rate Stability Plan are subject to the terms of the termination agreement. A copy of the executed termination agreement will be furnished to the Missouri Public Service Commission upon their request.

E. Centrex customers who are covered by a Rate Stability Plan who no longer qualify as Centrex customers will be subject to a termination charge as specified in the termination agreement for the remaining life of the contract.

F. Centrex customers who are not under the Rate Stability Plan and who reduce their number of centrex access lines in service, by two or more below the minimum qualifying them for Centrex Service for a period of four consecutive months, will be changed to the business one-party or trunk rates for their respective exchange rate group shown in the Local Exchange Service section of this tariff.

G. End User Common Line Charges will be billed to the Centrex Services as set forth in the Access Services Tariff.

VI. SPECIAL SERVICE ARRANGEMENTS (Cont'd)

**MISSOURI  
Public Service Commission**

B. Computation of Rates (Cont'd)

- 3. An amount for return on investment (calculated as the cost of money) computed on the estimated installed cost of the facilities involved in providing the ABC service.
- 4. Income taxes associated with return on investment.
- 5. Cost of maintenance.
- 6. Other taxes. This would include Ad Valorem (property) tax.
- 7. Any other directly attributable miscellaneous or unusual items or expenses associated with the particular installation.
- 8. A minimum level of contribution to company overheads at or above 5 1/2%.

C. In the computation of rates for any special service arrangement contract, one of the following rate treatments shall be applied with or without a minimum period termination agreement, in accordance with the judgement of the telephone company based on the circumstances involved.

- 1. A monthly recurring rate with or without an installation charge.
- 2. A monthly recurring rate only.

D. Review of Rates and Conditions. The telephone company will, upon developing a contract for the customer's acceptance, submit to the Missouri Public Service Commission Staff (Staff) for review:

- 1. A copy of the contract containing terms, conditions and charges.
- 2. The name and location of the customer.

II. DESCRIPTION OF SERVICES

(MT)

A. The Centrex Service referenced in I.A. of this section consists of the following packages:

1. Centrex Access Line\*

- a. Intercommunication/Four Digit Dialing--provides for four digit dialing of calls between centrex lines without an attendant's assistance.
- b. Message Hold and Transfer--permits the holding and transferring of incoming calls to other centrex lines.
- c. Consultation Hold--permits holding of an incoming or outgoing call during a call to another station (second party) and retrieving the first party after consultation with second party.
- d. Three and Five Party Conference--allows a station user to set up conference calls between other station users and outside calls.
- e. Touch-Tone provides tone type address signaling on each centrex access line.

II. DESCRIPTION OF SERVICES (Cont'd)

(MT)

B. Centrex "Plus" Features Descriptions (Cont'd)

- 3. Call Forward, Busy--routes an incoming call for a busy station to a predesignated second station number.
- 4. Call Forward, No Answer--routes an incoming call to a predesignated second station when the called station does not answer after a specific number of rings.
- 5. Call Park--allows a call to be transferred to an extension and holds it there.
- 6. Call Pickup--allows a call to be answered at any station within the same call pickup group.
- 7. Call Waiting--informs a station user already engaged in a phone call that a second call is waiting.
- 8. Distributed Line Hunting--routes a call made to a pilot number to the station within the group that has been idle the longest.
- 9. Meet-Me-Conference--provides a conference bridge and directory number for up to six conferees to hold a conference.
- 10. Ring again--allows the attendant to park calls against a directory number in the attendant customers group.
- 11. Speed Call, Station--allows a station user to place calls to a previously designated list of frequently dialed numbers. The Speed Call feature is available in a short list of numbers (10) or three separate long lists of 30, 50 or 70 numbers.
- 12. Speed Call, Group--allows stations within the group to place calls to a previously designated list of frequently dialed numbers. This feature has one line designated as the controller, and only the controller can add to, change or delete numbers from the list. This feature is available in three separate long lists of 30, 50 or 70 numbers.

\* Centrex access line is restricted to access from or to centrex station lines only.

CENTREX SERVICE

VII. SPECIAL SERVICE ARRANGEMENTS

(MT)

A. Special Service Arrangements are for those customers with a minimum of 201 Centrex access lines. Special Service Arrangements consist of standard equipment and/or services offered under Section 44 of this tariff, Centrex Service.

B. Computation of Rates

Rates for special service arrangements are equivalent to the estimated costs of furnishing the special service arrangements, plus a contribution to Company overheads.

Estimated cost consists of an estimate of the total cost to the telephone company in providing the service including:

1. Total Investment. Included in this total are cost of equipment, materials, and installation. Added to the equipment and material cost is sales tax and supply expense. Estimated labor hours are applied toward the appropriate labor rates. Should installation be contracted out, allocations would be added to the contractor's rate to recover relevant expenses.
2. Depreciation on the estimated installed cost (total investment) of any facilities used to provide the Centrex service based on the anticipated useful service life of the facilities.
3. An amount for return on investment (calculated as the cost of money) computed on the estimated installed cost of the facilities involved in providing the Centrex service.
4. Income taxes associated with return on investment.
5. Cost of maintenance.
6. Other taxes. This would include Ad Valorem (property) tax.
7. Any other directly attributable miscellaneous or unusual items or expenses associated with the particular installation.
8. A minimum level of contribution to company overheads at or above 5 1/2%.

CENTREX SERVICE

JUL 15 1993

VII. SPECIAL SERVICE ARRANGEMENTS (Cont'd)

MO. PUBLIC SERVICE COMM. (MT)

C. In the computation of rates for any special service arrangement contract, one of the following rate treatments shall be applied with or without a minimum period termination agreement, in accordance with the judgement of the telephone company based on the circumstances involved.

- 1. A monthly recurring rate with or without an installation charge.
- 2. A monthly recurring rate only.

D. Review of Rates and Conditions.

The telephone company will, upon developing a contract for the customer's acceptance, submit to the Missouri Public Service Commission Staff (Staff) for review:

- 1. A copy of the contract containing terms, conditions and charges.
- 2. The name and location of the customer.
- 3. A costing summary to include (on a total and per line basis):
  - a. Total investment (Material and Installation)
  - b. Annual Capital Costs (Depreciation, Cost of Money, and Income Taxes)
  - c. Annual Operating Expenses (Maintenance, Other taxes)
- 4. A pricing summary to include, where applicable:
  - a. Total non-recurring charges
  - b. Recurring monthly rate associated with Centrex service
  - c. Total company contribution (Total price minus total cost)

E. Staff will be given fifteen (15) business days from the date delivered to Staff's office to review each customer's contract and associated detail. At the end of this timeframe, the telephone company shall be allowed to provide service to the customer based upon those terms and conditions unless notified by the end of the fifteenth (15) business day in written form by the Public Service Commission Staff.
