No. Original Sheet No. 51 Deleted: Revised For Missouri Retail Service Area LIMITED LARGE CUSTOMER ECONOMIC DEVELOPMENT DISCOUNT RIDER Schedule PED **PURPOSE** The purpose of this Limited Large Customer Economic Development Rider (Rider) is to comply with Mo. Rev. Stat. § 393.1640 (2022). Deleted: 2018 **EXPIRATION** This Rider shall expire on December 31, 2028, unless extension is requested by the Company and approved by the Deleted: 2023 Commission. For customers with new load of at least 300 kilowatts but not more than 10 megawatts, and a load Deleted: 28 factor of at least forty-five percent, the discount shall expire no later than December 31, 2033. For those customers Deleted: 38 whose new load is projected to be more than ten megawatts, with a load factor of at least fifty-five percent, the Deleted: All discounts under this Rider shall expire no later discount shall expire no later than December 31, 2038. than December 31, 2028. This provision shall control any Contract provisions to the contrary... AVAII ABII ITY/FI IGIBII ITY Electric service under this Rider shall be limited to industrial and commercial facilities which are not accessible by Deleted: in the business of selling or providing goods and/or services directly to the general public through a physical storefront or other physical contact at the location receiving the general public for the purpose of directly selling or providing goods and/or services and shall be made available if all of the following criteria are met: service,.. 1. If an otherwise qualifying Customer is receiving any economic development or retention-related discounts as of the date it would otherwise qualify for service under this Rider, the Customer shall agree to relinquish the prior discount concurrently with the date it begins to receive Service under this Rider; otherwise, the Customer shall not be eligible to receive any service under this Rider; 2. Electric service under this Rider is not available in conjunction with service provided pursuant to any other Special Contract Service tariff agreements; 3. The Customer submits a completed Application prior to public announcement of the growth project for which service under this Rider is sought. Such Application, and an application for service if not already submitted, shall be submitted at least ninety (90) days prior to the date the Customer requests one of the discounts provided for by this Rider; 4. The Customer adds qualifying new load with average monthly demand that is reasonably projected to be at **Deleted:** incremental least three hundred (300) kilowatts but not more than ten (10) megawatts with a load factor of at least forty-Deleted: fifty five (45) percent, or adds qualifying new load that is reasonably expected to be greater than ten (10) Deleted: 55 megawatts with a load factor of at least fifty-five (55) percent within two (2) years after the date the Deleted: incremental Application is submitted. a. Qualifying new load shall be calculated as additional load net of any associated offsetting load Deleted: incremental reductions due to the termination of other accounts of the customer or an affiliate of the customer within twelve (12) months prior to the commencement of service to the new load, b. The projected annual Customer load factor shall be determined by the following relationship: Load Factor = PAE / (PCD x HRS) where: PAE = Projected Annual Energy (kWh) HRS = Hours in year (8760) PCD = Projected Customer average of the twelve (12) monthly on-peak demands (measured in any 30-minute interval during the month on all meters). Deleted: Projected Customer Peak Demand (kW) Deleted: ¶ Issued: February 21, 2023 Effective: March 23 2023 Deleted: August 27, 2018 Issued by: Darrin R. For Missouri Retail Service Area

LIMITED LARGE CUSTOMER ECONOMIC DEVELOPMENT DISCOUNT RIDER Schedule PED

AVAILABILITY/ELIGIBILITY (continued)

- 5. Prior to execution of a Contract for Service under this Rider, the Customer shall provide sufficiently detailed information and documentation to enable the Company to determine whether the incremental load is qualified for service under this Rider;
- 6. The Customer shall execute a Contract for Service under this Rider. In the case of a Customer locating a new facility in the Company's service territory or expanding an existing facility in the Company's service territory, the contract will contain a statement that the Customer would not locate new facilities in the Company's service territory or expand its existing facilities in the Company's service territory or expand its existing facilities in the Company's service territory but for receiving service under this Rider along with other incentives;
- The Customer receives economic development incentives from local, regional, state or federal government, or from an agency or program of any such government, in conjunction with the incremental load; and
- 8. The Customer is otherwise qualified for service under the Company's, MGS, MGA, LGS, LPS, LGA, or rate schedules.
- Any Schedule PED contract with an effective date prior to March 23, 2023, will be executed according to the terms of that contract.

APPLICABILITY

- 1. For facilities of a Customer contracting under this Rider due to expansion, the Company may install metering equipment necessary to measure load subject to this Rider. The Company reserves the right to make the determination of whether such load will be separately metered or Sub-metered. If the Company determines that the nature of the expansion is such that either separate metering or sub-metering is impractical or economically infeasible, the Company will determine, based on historical usage, what portion of the Customer's load in excess of the monthly baseline, if any, qualifies as incremental load eligible for this Rider.
- The Customer's load subject to service under this Rider is the qualifying incremental load. If the demand associated with the qualifying incremental load is not separately metered, the Company's determination of the incremental demand shall control.
- Customer demand existing at the time the customer begins to receive discounted rates under this section shall not constitute incremental demand.
- 4. Service under this Rider shall begin on the date when the meter associated with the qualifying incremental load is permanently set. However, if the permanent meter is set prior to occupancy and operation of the associated facility, the customer will notify Company when operation begins, and service of this Rider shall begin at such time as operation begins. If the qualifying incremental load is measured rather than metered, service under this Rider shall begin upon notification to the Company by the Customer when operation begins.

FILING REQUIREMENTS

- 1. Service under this Rider shall be evidenced by a Contract between the Customer and the Company. Within thirty (30) days of executing said Contract, the Contract shall be submitted along with documentation supporting the qualification of the Customer to meet the Availability/Eligibility terms of this tariff, and the Company's review of qualification to EFIS as a Non-Case-Related Submission.
- 2. Company shall file in File No. EO-2019-0047 under affidavit the results of all semi-annual reviews required under the Termination section of this Rider. Such filing shall include a Public and a Confidential version including copies of all Contracts executed since its last annual review filing. All documentation relied upon by the Company for its conclusion that compliance has been maintained, or that there is basis for termination of service under this Rider, shall be included.
- Company will provide to Staff annually, on or before July 15, Company's estimate of the contribution to fixed costs after applying the discounts for each contract or Agreement separately, based on actual historical usage.

Deleted: 3. Company shall annually, for each Customer taking service under this Rider, update the revenue sufficiency calculation prescribed under Incentive Provisions paragraph 4 to reflect actual historical usage, revised projections, and updated inputs to the calculation set forth in Sheet No. 32J within Schedule EDR¶
