TARIFF FORMAT

FEB 17 1995

Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially and from time to time new leafs may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Page No.s 3 and 4 would be numbered 3.1.

Explanation of Symbols - When changes are made in any tariff leaf, a revised leaf will be issued canceling the tariff leaf affected. Changes will be identified on the revised leaf(s) through the use of the following symbols:

- (C) - to signify changed regulation.
- (D) - to signify discontinued rate, regulation, or text.
- (I) - to signify increased rates.
- (M) - to signify material relocated from one leaf to another without change.
- (N) - to signify new rate, regulation, or text.
- (R) - to signify reduced rate.
- (S) - to signify reissued material.
- (T) - to signify a change in text, but no change in rate or regulation.
- (Z) - to signify a correction.

In addition to symbols for changes, each changed provision in the tariff shall contain a vertical line in the right hand margin of the leaf which clearly shows the exact number of lines being changed.

1.1 Definitions of Terms

MO. PUBLIC SERVICE COMM.

**Access Line** - One of several types of circuits used to carry long distance calls all or part way between customer premises and long distance company switches. When calls are originated or received over customers' regular local lines or over customers' special WATS Access Lines, long distance companies buy Feature Group access lines to carry calls between their switch or POP and the local telephone company switch. Customers may originate or receive calls over special dedicated access lines directly from the customer premises to the long distance company's POP.

**Accounting Code** - A number, usually two, three or four-digits, entered when dialing a telephone call that tells a long distance company to allocate and subtotal the call to a particular subaccount. Calls are listed and summarized by account code on Customers' monthly bill.

**Answer Supervision** - An electrical signal fed back up the line by the local telephone company at the distant end of a long distance call to indicate positively that the call has been answered by the called telephone. Activates the billing equipment to start timing calls completed over FGB or FGD access trunks at the distant end.

**Authorization Code** - A number, usually ten or fourteen digits, entered using a tone telephone to identify the caller as a customer of the long distance service. Used primarily to verify the caller as a customer and to bill calls.

**Calling Card** - A billing convenience whereby the Customer may originate calls from any tone telephone. The Customer dials an 800 number and an authorization code followed by the terminating telephone number. In cases of LEC billing, the terms and conditions of the local telephone company will apply to payment arrangements.

**Carrier** - VarTec Telecom, Inc. unless otherwise clearly indicated by the context.

**Commission** - Missouri Public Service Commission.

**Customer** - The person, firm, corporation or other entity which initiates a call on Carrier's network, or accepts billing for the call on Carrier's network, subject to the terms and conditions of Carrier's tariff regulations.

**Day** - From 8:00 a.m. up to, but not including, 5:00 p.m. local time Monday through Friday.

**2.1.2 Limitations (Continued)**

(D) All facilities provided under this tariff are directly controlled by VTI and the Customer may not transfer or assign the use of service or facilities without the express written consent of Carrier. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.

(E) Prior written permission from Carrier is required before any assignment or transfer. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service.

(F) For any telephone number which accesses VTI's service on a per call basis via the Company's Carrier Access Code ("CAC") for 1+ calling and is subscribed to a service listed in this tariff for which the customer is required to be entered into the VTI billing database prior to use, VTI reserves the right to remove the telephone number from the billing database in the event that a period of ninety (90) consecutive days passes during which the telephone number does not access VTI's service via a CAC(s). In the event that a customer is removed from the VTI billing database, upon next use of VTI's service, the customer's VTI service will be the current default service (i.e., the service listed in this tariff that does not require the customer to be entered into the VTI billing database prior to use). The customer will be billed automatically for this use according to the terms of the current default service.

**2.2 Use of Service**

Service provided under this tariff may be used for any lawful purpose for which the service is technically suited. VTI reserves the right to discontinue service, limit service, or to impose requirements on Customers as required to meet changing regulatory rules and standards of the Missouri Public Service Commission.

VTI has the right to refuse telephone service to any premises and at any time to discontinue telephone service, if it finds it necessary to do so to protect itself against intentional abuse. Intentional abuse of service includes, without limiting the generality of the foregoing, the use of service or facilities of Carrier to transmit a message or to locate a person or otherwise to give or obtain information, without payment of a message toll charge of an exchange service charge.

Another form of such abuse is an intentional uninterrupted connection of one exchange station to another station, excluding those connections charged on an elapsed time basis, which permits the use of the facilities in a manner similar to private line service. It also includes intentional receiver off-hook conditions.

The Carrier endeavors to provide high quality service. Service is available twenty-four (24) hours per day, seven (7) days a week, subject to routine maintenance and outages beyond the control of the Carrier. Carrier's switching equipment is designed and engineered to provide high quality transmission of voice and data with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of the connections provided by the local telephone companies and other interexchange carriers.

**3.1.2 Timing of Calls**

- (A) Long distance usage charges are based on the actual conversation time transpiring on VTI's network. No charge will generally apply to uncompleted calls, which include "ring busy" and "ring no answer calls," and such uncompleted calls will not be knowingly charged to the Customer and, if charged in error, will be refundable to the Customer.

3.1.2 Timing of Calls (Continued)

MO. PUBLIC SERVICE COMM.

In the event that the Customer fails to hang up when receiving a busy signal or "ring no answer call" for an excessive period of time, however, the Customer may be charged as if the call were completed. VTI will determine that a call has been established by signal, where available, from the local telephone company or underlying carrier.

- (B) Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one (1) minute for a connected call.
- (C) Unless otherwise specified in this tariff, usage is measured and rounded to the higher full minute for billing purposes.
- (D) When answer supervision is unavailable and VTI has received a reasonable claim from the Customer for a refund of VTI's charges for an uncompleted call, VTI will reimburse the Customer for the charges that VTI has billed for that call.

3.1.4 Calculation of Distance **MO. PUBLIC SERVICE COMM.**

- (A) Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.
- (B) The Rate Centers of a call are determined by the area codes and exchanges of the origination and destination points.
- (C) The distance between the Rate Center of the Subscriber's equipment and that of the destination point is calculated by using the vertical "V" and horizontal "H" coordinates found in AT&T FCC Tariff No. 10, in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the Rate Centers of the origination point and the destination point.

**3.1.5 Special Promotions**

The Carrier may from time to time engage in special promotional service offerings which may be limited to certain dates, times and/or locations. These promotions are designed to attract new customers and/or increase customer awareness of particular service offerings. Customers must subscribe to specific promotions within the given time period as stated in the promotional offer. Any ANI disconnected and then reconnected from VarTec's service for purposes of subscribing to the special promotion may not be eligible. After the initial subscription to a promotion, if no outbound usage is generated by an ANI within the specified time period as stated in the promotional offering, the customer may not receive benefits from the promotion. The promotions may contain special terms and conditions, including but not limited to, usage rates and charges. Such special terms and conditions will be in lieu of those terms, conditions, rates and charges outlined in Sections 3 and 4 of this Tariff. VarTec will notify the Commission of special promotional offerings in accordance with the rules and regulations established by the Commission.

**3.1.6 Travel Card Availability**

The VTI Travel Card products identified throughout this tariff are only available to existing Customers who subscribed to a Travel Card product prior to July 1, 2004. Customers with active Travel Card accounts as of July 1, 2004 will continue to receive Travel Card service as set forth in this tariff.

3.3 Conference Calling Service

Conference Calling Service allows a VTI Customer to hold conversations and/or meetings with two (2) to twenty-three (23) other involved parties within Missouri. Customers of this service are able to establish simultaneous telephone contact with multiple callers by each of the involved parties dialing an 800 number predetermined by VTI, receiving a prompting tone, then entering an authorization code also predetermined by VTI, from any non-rotary dialed telephone within Missouri. Once the authorization code is entered, the calling party is connected to the conference call. The Customer must schedule the conference call at least twenty-four (24) hours in advance with VTI. In order to receive the Conference Calling Service and associated rates, the Customer must be entered into the VTI billing database prior to utilizing the service. Rates and charges for the Conference Calling Service are set forth in section 4.3 following. Calls are rated based on time of day and call duration of each and every involved party that participates in the conference call.

**3.34 Operator Services**

VTI's Operator Services are intended for use by residential customers for calling within the State of Missouri from their home telephones. Customers may access Operator Services from their home telephones by dialing 00 to access a live or automated operator if they have selected VTI as the primary interLATA interexchange carrier for the calling station, or Customers may dial 10-1X-XXX + 00 to access a live or automated operator when VTI is not the presubscribed interexchange carrier for the calling station.

Calls are rated based on operator type (i.e., live or automated), call duration and time of day. Per call surcharges based on calling and billing options also apply.

Chargeable time begins when a network connection is established between the calling station and the called station. Chargeable time ends when either party disconnects the call thereby releasing the network connection.

Chargeable time for collect calls and Person-to-Person calls differs from the definition above and is applied as follows:

For collect calls, chargeable time begins when the called party accepts responsibility for payment of the charges associated with the call. For Person-to-Person calls, chargeable time begins when a network connection is established between the calling party and the requested party.

Rates and charges for VTI's Operator Services are set forth in Section 4.34 following.
