3.18 Toll Free 8XX Service¹

Toll free 8XX Service provides the Customer with a telephone number within the toll free 8XX NPAs, enabling the Customer or User to receive incoming calls to that number which originate from any station on the public switched telecommunications network within the State of Missouri. All charges for incoming toll free 8XX calls are billed to the Customer. Toll free 8XX Service calls may be received over:

3.18.1 Company-Provided Access Services

The Customer must designate one or more channels on a digital, dedicated access facility, for use in conjunction with the Company’s toll free 8XX Service, prior to commencement of service. Service provided in this manner is Dedicated toll free 8XX; or

3.18.2 Company Provided Exchange Access Lines

Exchange Access Lines provided to the Customer by the Company can be pre-subscribed by the Customer to the Company’s Switched toll free 8XX Service.

The toll free 8XX Service arrangement is an inward calling switched service which permits a call to be completed at the Customer’s location without charge to the calling party. Access to the service is gained by an end user dialing a 10-digit telephone number (e.g., 8XX+NXX-XXXX) which will terminate at the Customer’s location. The usage is billed on a flat rated basis. Toll free 8XX Service calls are billed in six (6) second increments after an initial increment of sixty (60) seconds per call. A MATR of 30 seconds per call applies during the billing period, which if adjusted, will be billed as a nonrecurring charge. In addition, there is a nonrecurring and monthly recurring toll free 8XX Service number charge, which will be applied either on a “per toll free 8XX number” basis for shared access or on a “per routing arrangement” basis for dedicated access.
