Mr. Morris Woodruff, Secretary
Missouri Public Service Commission
P.O. Box 360
Jefferson City, MO 65102

RE: Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty
Case No. GT-2022-0118; Tracking No. YG-2022-0194

Dear Judge Woodruff:

On December 30, 2021, Liberty submitted a Verified Infrastructure System Replacement Surcharge (“ISRS”) Application and a revised ISRS tariff. On January 3, 2022, the Commission issued its *Order and Notice* regarding these filings and directed the Staff of the Commission (“Staff”) to file a report no later than March 30, 2022. At the suggestion of Staff, Liberty is submitting this tariff filing cover letter at this time.

Liberty’s current ISRS was established in Commission Case No. GT-2021-0073, effective June 1, 2021. That filing covered ISRS costs incurred during the period April 1, 2018, through October 31, 2020. The Company continued to make ISRS eligible investments, and the Application and revised tariff filed on December 30, 2021, reflect these additional investments covering the period November 1, 2020, through October 31, 2021.

Liberty’s proposed revised ISRS tariff bears an issue date of December 30, 2021, and a proposed effective date of April 1, 2022, but the Commission has suspended that tariff until June 28, 2022.

Please do not hesitate to contact me with any questions or concerns you may have regarding this submission.

Sincerely,

Diana Carter
