C. Eligible Services

Essential local telecommunications service is defined as two (2) way switched voice residential service within a local calling scope as determined by the Missouri P.S.C., comprised of the following services and their recurring charges:

- 1) Single line residential service, including touch-tone dialing and any applicable mileage or zone charges.
- 2) Access to local emergency services, including, but not limited to, 911 service established by local authorities.
- 3) Access to basic local operator services.
- 4) Access to basic local directory assistance.
- 5) Standard intercept service.
- 6) Equal access to long distance toll service providers consistent with rules and regulations of the Federal Communications Commission.
- 7) One (1) standard white pages directory listing.
- 8) Toll restriction for qualifying customers.

D. Support Amount

Customers eligible under the established criteria can receive a discount from their bill for essential local telecommunications service equal to the amounts approved by the Missouri P.S.C. and the Federal Communications Commission. The amount of combined federal and state discounts for any customer will not exceed the sum of the federal Subscriber Line Charge (SLC) and the recurring charges for essential local telecommunications services. The monthly discount will be the same for eligible customers solely subscribing to voice telephony service and for eligible customers subscribing to a bundle of services.

3.10 Payphone Exchange Service3.10.1 General Regulations

- A. Payphone exchange service includes lines to which coin, coinless, card reader or a combination of coin/card reader telephones may be attached.
- B. Payphone exchange service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the network interface device at the demarcation point. These facilities are Company provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
- C. In the case of one-way service, intercept treatment will be provided.
- D. A maximum of one customer-provided instrument may be connected to any payphone exchange service access line.
- E. The general rules and regulations found in other sections of this tariff are applicable to the provision of payphone exchange service.
- F. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.

- G. A network interface device (NID) will be installed at a location mutually agreed upon by the payphone exchange service provider and the Company. The NID is a Company-provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the customer.
- H. One directory will be distributed to the payphone exchange service provider without charge for each payphone business exchange line.
- I. Installation charges and the appropriate NID material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.
- J. Installation charges and the appropriate NID material charge apply when a premise visit is made for the sole purpose of installing a customer requested NID.
- K. Off-premise extensions are not permitted.
- L. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end-user fraud, of whatever nature, occurring at or in association with the customer's equipment shall be governed by provisions of this tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
- M. The multi-line business subscriber line charge, found in the interstate access tariff, is applicable to all payphone exchange service access lines.

3.10.2 Responsibility of the Customer

- A. The customer, for the purposes of this section, is defined as the payphone exchange service provider.
- B. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the American With Disabilities Act of 1990.
- C. The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.
- D. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any directory assistance calls.

- E. The customer shall be responsible for obtaining a certificate of service authority (CSA) to provide payphone exchange service and for providing proof of said authority prior to installation of service.
- F. Customers who elect not to subscribe to selective class of call screening will be fully responsible for all calls billed to customer's exchange access line. The Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. The customer will hold the Company harmless from and against any liability or loss resulting from all calls billed to customer's payphone exchange access line.
- G. Any federal, state, or local taxes imposed on the payphone exchange service telephone or calls made from that phone are the responsibility of the customer.
- H. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

3.10.3 Violation of Regulations

- A. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.
- B. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited to, customer activity charges, term minimum charges, and reimbursement for loss or damage to Company facilities as may apply.

3.10.4 Optional Features and Functions

- A. Optional features and functions are additives to the operation of a flat rate access line that provide for coin line service, which may include: coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. Coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the payphone exchange service provider.
- B. Coin line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Company per the technology available from the Company's facilities. It shall be the responsibility of the payphone exchange service phone owner to assure technical and operational compatibility with the coin line features offered by the Company.

- C. Answer supervision provides signaling on the line notifying the line that the called party has answered.
- D. Coin collection and return provides an electrical signal indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party.
- E. Special number assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technically feasible to provide.
- F. Selective class of call screening will be provided where such facilities are available, at the customer's option. Selective class of call screening treatment enables the customer to restrict outgoing operator-handled calls placed over the Company's network from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
- G. Validation may be performed through originating-line screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either selective class of call screening or OLS.
- H. A "local message" from payphone exchange service provided by a given exchange is a completed local call originating at such service location and terminating at any service location which may be called without incurring a long distance toll charge.
- I. Installation charges as specified elsewhere in this tariff apply in addition to other charges specified in this section.
- J. Where custom calling services are desired, those charges as specified elsewhere in this tariff are applicable.
- K. Rates and charges contemplate normal business exchange access line service installation.

4.1 SERVICE TARIFF CONCURRENCES

4.1.1 Access Services

Access services are those services which are described in the Access Services Tariff of Oregon Farmers Mutual Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Oregon Farmers Mutual Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

(+) |

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions has been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

4.4 900 Service Access Restriction4.41 General

900 service access restriction is furnished to customers upon request to prevent access to the 900 network. A call will be diverted to a company-provided intercept announcement when customers dial a 900 number from a restricted line.

900 service access restriction enables customers to prohibit dialing of calls to 1+900. Calls which are placed using alternate dialing patterns cannot be restricted. The customer indemnifies and saves harmless the Company from any and all claims, losses or damages caused by restriction of 900 service access.

4.5 Universal Emergency Number Service (911)4.51 General

A. Universal Emergency Number Service, also referred to as 911 service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. 911 service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 trunking service involves the provision of interoffice trunks from the Company's central office to connect with the PSAP location.
