1.4 TWO-POINT SERVICE - (Continued)

1.4.74 AT&T One Rate (CPMWM, CPMHE)

A. General

AT&T will provide the rates specified below to eligible customers. Existing AT&T residential customers who are presubscribed to AT&T as their primary interexchange carrier can enroll in this plan by completing and returning an enrollment form provided by AT&T, calling an AT&T designated 800 number or by enrolling during a marketing contact with AT&T.

This plan is offered in conjunction with, and all terms and conditions are specified within the consumer AT&T Service Guide CPM01005DD and CPM01022DD.

(CT)
|
(CT)

Eligible Calls - AT&T intrastate Dial Station calls are eligible for the rates specified below.

B. Rates and Charges

A Minimum Monthly Usage Charge applies to customers subscribing to this plan as specified in the Service Guide.

<u>Class of Service</u>	<u>Rate</u> <u>Per Minute</u>	<u>Surcharge</u>

1.6 CONNECTIONS

JUN 04 1998 (CT)

1.6.1 General

(MT)

MO. PUBLIC SERVICE COMM

When customer premises equipment is connected to MTS, it must comply with the FCC's Registration Program. If Grandfathered customer premises equipment, test equipment or communications systems are connected, the Minimum Protection Criteria specified in this Tariff must be met.

MTS is not represented as adapted for connection to other services or communications systems. It is designed, operated and maintained to provide satisfactory transmission only between a calling and a called service point(s) equipped with suitable customer premises equipment.

The Company is responsible for the quality of transmission for MTS from demarcation point to demarcation point. The Company is not responsible for the quality of transmission of the customer's side of the demarcation points at a premises.

1.6.2 Responsibilities of the Customer

When customer premises equipment or a communications system is connected to MTS, the customer assumes responsibility for the connection as follows:

A. Interference and Hazard

The operating characteristics of customer premises equipment or communications systems connected to MTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of MTS.

The Company will take immediate action to protect its services or interests if this regulation is violated.

B. Changes to MTS

The Company is not obligated to alter or modify MTS because of additions or changes to customer premises equipment or a communications system provided by the customer or others.

D. Information A Customer Must Provide

MISSOURI
Public Service Commission

Prior to reconnecting grandfathered equipment to MTS, the customer must provide the following information about the equipment to the Company:

1. Manufacturers name, model number and type
2. Ringer equivalent number and type (if known)
3. Type of standard jack (if required)
4. Service to which equipment is being connected
5. Notarized affidavit for premises wiring
6. Description of interface
7. Line or pin assignment for a multiline jack

The customer must also notify the Company when the grandfathered equipment is permanently disconnected.

1.6.3 Responsibilities of the Company

A. General

In addition to furnishing and maintaining its service components for MTS, the Company will provide technical information pertaining to MTS interface parameters as an aid to the customer in selecting the appropriate interface.

1.6.5 Connection of a Communications System or MTS Equivalent Service - (MT)
(Continued) **MO. PUBLIC SERVICE COMMISSION**

B. Minimum Protection Criteria

The connection at the MTS demarcation point must be made so that it continually complies with the specified Minimum Protection Criteria.

C. Communications System Failures

When a communications system fails and the connection to MTS is not through switching equipment, the communications system must be arranged to promptly return the MTS to an idle (on-hook) state. In addition, the customer must promptly notify the Company when the communications system fails.

D. Use of Satellite Facilities

If a communications system uses satellite facilities (directly or indirectly), and is connected to MTS, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for and deterioration in the quality of the through transmission of signals on such a connection. The Company will continue to furnish MTS using the service components that it considers to be appropriate. Credit allowance for impaired transmission resulting from such connection will not be granted.

1.6.6 Minimum Protection Criteria

MO. PUBLIC SERVICE COM. (MT)

A. General

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria applies to the direct electrical, acoustic, or inductive connections of customer premises equipment and communications systems to MTS.

B. All Connections

Customer premises equipment and communications systems which are connected to MTS on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the demarcation point meets the following limits:

a. Metallic Voltage

- (1) 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (6.4 / 12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	(23 - 40 log f) dBV	135 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

*dBV = 20 log₁₀ voltage in volts

- (2) The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms. (MT)

8 kHz to 12 kHz	- (18.4 / 20 log f) dBV*	500 ohms
12 kHz to 42 kHz	(3 - 40 log f) dBV	90 ohms
42 kHz to 266 kHz	- 62 dBV	90 ohms

*dBV = 20 log₁₀ voltage in volts

(2) The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

2. To prevent the interruption or disconnection of an MTS message, it is necessary that the signal applied at the demarcation point be limited. Specifically, the signal at the demarcation point shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the demarcation point in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

C. For Direct Electrical Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on a direct electrical basis must comply with the following:

MO. PUBLIC SERVICE COMMISSION

(CT)

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the point-of-presence not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the premises equipment or communications system to the demarcation point will be specified for each customer location. In no case shall the power exceed one milliwatt.

(MT)

D. Acoustic or Inductive Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the demarcation point located on the customer's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each customer, independent of distance from the point-of-presence, to supply signal power which at the point-of-presence approximates 12dB below one milliwatt when averaged over any three second interval, the Company, at the customer's request, will specify, for each customer location, the signal power at the demarcation point, which shall in no case exceed one milliwatt.

(MT)

1.6.7 Recording of Two-Way Telephone Conversations

(CT)

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

1.4.75 AT&T One Rate[®] Nationwide 10¢ Direct (CPMYB)

(AT)

A. General

AT&T will offer this plan to residential customers who are presubscribed to AT&T as their primary long distance carrier and are enrolled in this plan.

This plan includes AT&T direct dial station state-to-state and in-state long distance calls that are made from the customer's home, billed to the customer's main residential telephone account, and made without using an AT&T Operator or an AT&T automated call processing system. All other types of calls are rated at basic rates unless the customer is enrolled in another AT&T plan that covers these other types of calls.

This plan is offered in conjunction with the AT&T Consumer Service Guide CPM07002DD.

B. Rates and Charges

With this plan, customers pay a fixed monthly recurring charge found in the interstate Service Guide. See Consumer Service Guide CPM07002DD for interstate rates.

Intrastate long distance direct dial station calls will be rated at \$0.10 per minute, 24 hours a day, seven days a week.

C. Availability

AT&T will provide this plan where billing and technical resources are available.

1.4 TWO-POINT SERVICE - (Continued)

(MT)

1.4.75 AT&T WalMart and Sam's Club Associate Program (AT&T Joint Vendor Promotion CPMJC/JD)

Beginning November 9, 2000, residential customers who are employees of companies that have entered into an AT&T Consumer Marketing Division (CMD) joint marketing arrangement by February 29, 2000, can enroll in this plan. Such companies must employ at least 500,000 persons or bill at least \$10,000,000 in total network services, voice and/or data, a year.

This plan is an add-on to the interstate plan and is available only to customers who subscribe to the interstate service provided in the consumer AT&T Service Guide SPO01002DD.

Eligible residential customers meeting the following criteria can enroll in this plan through September 23, 2002: (1) potential AT&T customers who convert to AT&T as their primary interexchange carrier from another carrier, or existing AT&T customers presubscribed to AT&T as their primary interexchange carrier and (2) the employee's address must be the same as the customer's AT&T Main Billing Account Address. Customers will receive the benefits of this plan through September 30, 2004. After completion of this plan, customers will automatically be enrolled in the AT&T Seven Plan (One Rate 7 Cents CPMLL) as long as it is still available and unless the customer advises otherwise.

Eligible Calls - AT&T intrastate Direct Dial Station calls and AT&T intrastate customer dialed/automated CIID/891 card calls placed via 1-800-CALLATT and billed to the customer's main billed account.

Rates and Charges - With this plan, Customers will pay a Monthly Recurring Charge. AT&T will use the schedule below to rate eligible calls all day, seven days a week.

<u>Class of Service</u>	<u>Rate per Minute</u>	<u>Service Charge</u>
Dial Station		
- InterLATA	\$.15	
- IntraLATA	\$.09	
Card Calls	\$.20	None

The Monthly Recurring Charge is billed in advance and applies whether or not the customer makes any calls. This plan is available where facilities and billing capabilities permit.

Material previously found here is now found in Paragraph 1.2.

MO. PUBLIC SERVICE COMM

C. Testing and Maintenance

If a trouble report occurs on an assembly, the customer must determine whether the fault is in (1) the connected premises equipment or communications system, or (2) MTS. The Company will test and maintain only the services it provides. The testing of MTS will usually be made from a point-of-presence.

D. Information A Customer Must Provide

Prior to reconnecting grandfathered equipment to MTS, the customer must provide the following information about the equipment to the Company:

1. Manufacturers name, model number and type
2. Ringer equivalent number and type (if known)
3. Type of standard jack (if required)
4. Service to which equipment is being connected
5. Notarized affidavit for premises wiring
6. Description of interface
7. Line or pin assignment for a multiline jack

The customer must also notify the Company when the grandfathered equipment is permanently disconnected.

1.6.3 Responsibilities of the Company

A. General

In addition to furnishing and maintaining its service components for MTS, the Company will provide technical information pertaining to MTS interface parameters as an aid to the customer in selecting the appropriate interface.

B. Changes in Minimum Protection Criteria, Operations, or Procedures

MISSOURI
Public Service Commission

The Company is not responsible to any party if a change in its MTS components, Minimum Protection Criteria, operations, or procedures, which are consistent with the Registration Program, (1) affects any facilities, customer premises equipment or communications systems provided by others in any way, or (2) requires their modification in order to be used with MTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the MTS or render any customer premises equipment or communications system incompatible with MTS, the Company will make a reasonable effort to notify the customer in writing of the proposed change. A reasonable interval will be allowed before the change is implemented to enable the customer to maintain compatibility of its customer premises equipment or communications system with MTS.

1.6.4 Connection to Service Provided by a Local Exchange Carrier

MTS may be connected to services provided by a Local Exchange Carrier. The connections are subject to the regulations in this Tariff and the appropriate tariff(s) of the Local Exchange Carrier.

1.6.5 Connection of a Communications System or MTS Equivalent Service

When a communications system or MTS equivalent service is connected to the Company's MTS, the customer must make all arrangements concerning the connected systems or service with its provider. The connection does not constitute a joint undertaking between this Company and the provider of the system or service. The system or service must be operated and maintained so it will work satisfactorily with MTS. Connections to MTS will be made in accordance with the following:

A. Answer Supervision

When MTS is connected to a communications system which is also connected to switching or terminal equipment, such equipment shall provide the necessary answer supervision so that chargeable time begins upon delivery of the MTS message to the equipment and ends upon termination of the message by the calling party.

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the demarcation point located on the customer's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each customer, independent of distance from the point-of-presence, to supply signal power which at the point-of-presence approximates 12dB below one milliwatt when averaged over any three second interval, the Company, at the customer's request, will specify, for each customer location, the signal power at the demarcation point, which shall in no case exceed one milliwatt.

1.6.7 Recording of Two-Way Telephone Conversations

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

MO. PUBLIC SERVICE COMMISSION

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

(MT)

A. Direct Electrical Connection

(Filed in compliance with an Order adopted May 20, 1948, of the FCC, in Docket No. 6787.) Customer-provided voice recording equipment may be used to record two-way telephone conversations if a distinctive recorder tone is repeated at intervals of approximately fifteen seconds. This distinctive recorder tone is required when recording equipment is in use and is electrically connected with services of the Company. The distinctive recorder tone can be provided as part of: (1) the recording equipment, (2) the customer-provided registered or grandfathered protective circuitry, or (3) a grandfathered connecting arrangement.

The customer-provided voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer.

B. Recording Requirements - If a distinctive recorder tone is not used, one of the following conditions must apply:

1. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
2. All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party.

C. Exceptions to the Requirement for the Recorder Tone

The distinctive recorder tone is not required:

1. When used by an FCC licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air. (Filed in compliance with an Order of the FCC adopted December 13, 1972.)

1.4.76 AT&T Worldwide & US Callingsm (OC4YD)

(AT)

A. General

AT&T will offer this plan to residential customers who are presubscribed to AT&T as their primary long distance carrier and are enrolled in this plan.

This plan includes AT&T direct dial station state-to-state and in-state long distance calls that are made from the customer's home, billed to the customer's main residential telephone account, and made without using an AT&T Operator or an AT&T automated call processing system. All other types of calls are rated at basic rates unless the customer is enrolled in another AT&T plan that covers these other types of calls.

This plan is offered in conjunction with the AT&T Consumer Service Guide CPM07003II.

B. Rates and Charges

With this plan, customers pay a fixed monthly recurring charge found in the interstate Service Guide. See Consumer Service Guide CPM07003II for interstate rates.

Intrastate long distance direct dial station calls will be rated at \$0.20 per minute, 24 hours a day, seven days a week.

C. Availability

AT&T will provide this plan where billing and technical resources are available.

1.4.76 AT&T Preferred Group Plan for Sam's Club Members (AT&T Joint Vendor Promotion CPMJE/JF/JG/JH)

Beginning July 14, 2000, Residential Customers who are affiliated with consumer programs of companies that have entered into an AT&T Consumer Services (ACS) joint marketing arrangement by August 30, 2000, can enroll in this plan. Such companies must employ at least 100,000 persons or bill at least \$5,000,000 in total network services, voice and/or data, a year.

This plan is an add-on to the interstate plan and is available only to customers who subscribe to the interstate service provided in the consumer Service Guide SPO01003DD.

Eligible residential customers meeting the following criteria to enroll in this plan through November 1, 2001: (1) new or existing AT&T customers presubscribed to AT&T as their primary interexchange carrier, and (2) the qualifying residential customer's address is the same as that customer's AT&T Main Billing Account Address.

Eligible Calls - AT&T intrastate Direct Dial Station calls and AT&T intrastate customer dialed/automated CIID/891 card calls placed via 1-800-CALLATT and billed to the customer's main billed account.

Rates and Charges - With this plan, Customers will pay a Monthly Recurring Charge. AT&T will use the schedule below to rate eligible calls all day, seven days a week.

<u>Class of Service</u>	<u>Rate per Minute</u>	<u>Service Charge</u>

1.6.3 Responsibilities of the Company - (Continued)

(MT)
MO. PUBLIC SERVICE COMM

B. Changes in Minimum Protection Criteria, Operations, or Procedures

The Company is not responsible to any party if a change in its MTS components, Minimum Protection Criteria, operations, or procedures, which are consistent with the Registration Program, (1) affects any facilities, customer premises equipment or communications systems provided by others in any way, or (2) requires their modification in order to be used with MTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the MTS or render any customer premises equipment or communications system incompatible with MTS, the Company will make a reasonable effort to notify the customer in writing of the proposed change. A reasonable interval will be allowed before the change is implemented to enable the customer to maintain compatibility of its customer premises equipment or communications system with MTS.

1.6.4 Connection to Service Provided by a Local Exchange Carrier

MTS may be connected to services provided by a Local Exchange Carrier. The connections are subject to the regulations in this Tariff and the appropriate tariff(s) of the Local Exchange Carrier.

1.6.5 Connection of a Communications System or MTS Equivalent Service

When a communications system or MTS equivalent service is connected to the Company's MTS, the customer must make all arrangements concerning the connected systems or service with its provider. The connection does not constitute a joint undertaking between this Company and the provider of the system or service. The system or service must be operated and maintained so it will work satisfactorily with MTS. Connections to MTS will be made in accordance with the following:

A. Answer Supervision

When MTS is connected to a communications system which is also connected to switching or terminal equipment, such equipment shall provide the necessary answer supervision so that chargeable time begins upon delivery of the MTS message to the equipment and ends upon termination of the message by the calling party.

B. Minimum Protection Criteria

The connection at the MTS demarcation point must be made so that it continually complies with the specified Minimum Protection Criteria.

C. Communications System Failures

When a communications system fails and the connection to MTS is not through switching equipment, the communications system must be arranged to promptly return the MTS to an idle (on-hook) state. In addition, the customer must promptly notify the Company when the communications system fails.

D. Use of Satellite Facilities

If a communications system uses satellite facilities (directly or indirectly), and is connected to MTS, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for and deterioration in the quality of the through transmission of signals on such a connection. The Company will continue to furnish MTS using the service components that it considers to be appropriate. Credit allowance for impaired transmission resulting from such connection will not be granted.

1.6.6 Minimum Protection Criteria

JAN 23 1998 (MT)

A. General

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria applies to the direct electrical, acoustic, or inductive connections of customer premises equipment and communications systems to MTS.

MISSOURI
 Public Service Commission

B. All Connections

Customer premises equipment and communications systems which are connected to MTS on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the demarcation point meets the following limits:

a. Metallic Voltage

- (1) 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (6.4 / 12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	(23 - 40 log f) dBV	135 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

*dBV = 20 log₁₀ voltage in volts

- (2) The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms. (MT)

MESSAGE TELECOMMUNICATIONS SERVICE

NOV 26 1997

1.6 CONNECTIONS - (Continued)

1.6.7 Recording of Two-Way Telephone Conversations - (Continued) (MT)
MO. PUBLIC SERVICE COMMISSION

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

A. Direct Electrical Connection

(Filed in compliance with an Order adopted May 20, 1948, of the FCC, in Docket No. 6787.) Customer-provided voice recording equipment may be used to record two-way telephone conversations if a distinctive recorder tone is repeated at intervals of approximately fifteen seconds. This distinctive recorder tone is required when recording equipment is in use and is electrically connected with services of the Company. The distinctive recorder tone can be provided as part of: (1) the recording equipment, (2) the customer-provided registered or grandfathered protective circuitry, or (3) a grandfathered connecting arrangement.

The customer-provided voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer.

B. Recording Requirements - If a distinctive recorder tone is not used, one of the following conditions must apply:

1. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
2. All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party.

C. Exceptions to the Requirement for the Recorder Tone

The distinctive recorder tone is not required:

1. When used by an FCC licensed broadcast station customer recording of two-way telephone conversations solely for broadcast over the air. (Filed in compliance with an order of the FCC adopted December 13, 1972.)

C. Exceptions to the Requirement for the Recorder Tone - (Continued)

The distinctive recorder tone is not required: - (Continued)

2. When used by the United States Secret Service of the Department of Treasury for recording two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds. (Filed in compliance with an Order of the FCC adopted January 22, 1975.)
3. When used by a broadcast network or by a cooperative programming effort, composed exclusively of FCC broadcast licensees, to record two-way telephone conversations solely for broadcast over the air by a licensed broadcast station. (Filed in compliance with an Order of the FCC adopted December 18, 1975.)
4. When used for recording at United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to MTS. (Filed in compliance with an Order to the FCC adopted May 19, 1976.)
5. When used by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center for the recording of two-way telephone conversations. (Filed in compliance with an Order of the FCC adopted January 29, 1981.)

D. Acoustic or Inductive Connections

Customer-provided voice recording equipment may not be connected to MTS for the recording of two-way telephone conversations by means of an acoustic or inductive connection, unless its use qualifies under the regulations, "Exceptions to the Requirement for the Recorder Tone."

1.4.78 AT&T One Rate State Plan (BLKF7) (RT)

A. General

This plan is subject to all applicable terms and conditions of the Consumer AT&T Service Guide. (RT)

Consumer customers who subscribe to AT&T as their Primary Carrier for local, intraLATA toll, and long distance service may enroll in this plan. Customers of this plan who have been automatically moved to an Incumbent Local Exchange Telephone Carrier ("ILEC"), that is an AT&T Inc. subsidiary, for their Local Telephone Company shall be treated for all purposes under this plan as if they had AT&T as their Primary Carrier for Local Telephone service. (CT)

Local Telephone service for customers who were automatically moved to an AT&T Inc. subsidiary ILEC will be provided by that ILEC. (CT)

This plan provides consumer customers with unlimited direct dialed intraLATA toll and in-state long distance calling. (CT)
(CT)
(RT)
(RT)

(RT)
|
(RT)

This plan provides unlimited minutes of direct dialed intraLATA toll calls, and in-state long distance calling for residential voice service only. If it is determined that any intraLATA toll and in-state long distance usage is not consistent with consumer voice applications, such as for internet access services, commercial facsimile or auto-dialing, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict, or cancel the customer's service without prior notice. (CT)
|
(CT)

If the customer's AT&T Main Billed Account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line subscribed to this plan.

1.4 TWO-POINT SERVICE - (Continued)

1.4.78 AT&T One Rate State Plan (TLHGM/TLHGN/BLKF7) (CT)

A. General (NR)

This plan is subject to all applicable terms and conditions of the Consumer AT&T Service Guide LSB04001DD.

Consumer customers who subscribe to AT&T as their Primary Carrier for local, intraLATA toll, and long distance service may enroll in this plan. Except as set out in Rates and Charges, below, Customers of this plan who have been automatically moved to an Incumbent Local Exchange Telephone Carrier ("ILEC"), that is an AT&T Inc. subsidiary, for their Local Telephone company shall be treated for all purposes under this plan as if they had AT&T as their Primary Carrier for Local Telephone service.

Local Telephone service for customers who were automatically moved to an AT&T Inc. subsidiary ILEC will be provided by that ILEC.

This plan provides consumer customers a combination of services that include one local access line; unlimited residential voice direct dial station local calls within the customer's local calling area, intraLATA toll and in-state long distance calling; and a choice of up to 3 custom calling features, as specified below, for a monthly recurring charge.

Caller ID with Name	Call Forwarding-Variable
Call Waiting	Repeat Dial
Three Way Calling	Speed Dial 8
Call Return	

This plan provides unlimited minutes of direct dialed 1+ local, intraLATA toll calls, and in-state long distance calling for residential voice service only. If it is determined that any intraLATA toll and in-state long distance usage is not consistent with consumer voice applications, such as for internet access services, commercial facsimile or auto-dialing, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict, or cancel the customer's service without prior notice.

If the customer's AT&T Main Billed Account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line subscribed to this plan.

1.4.78 AT&T One Rate College Card (AT&T CIID/891 Calling Card CPMSD)

AT&T will provide the rates to residential Customers as specified below. To be eligible for this plan, the Customer must have or obtain a Direct Billed AT&T Calling Card not associated with an AT&T Main Billed Account. Customers must enroll in this offer no later than December 31, 2002, by completing and returning an enrollment form provided by AT&T, by calling an 800 number designated by AT&T for this plan, or by enrolling during a marketing contact with AT&T. This plan is an add-on to the interstate, and the terms and conditions that apply to this plan are described within Consumer AT&T Service Guide SPO01008DD.

Eligible Calls

AT&T intrastate Customer Dialed/Automated AT&T Calling Card calls placed via 1-800-CALLATT (or other specific numbers so designated by AT&T) and billed to the Customer's Direct Billed AT&T Calling Card not associated with an AT&T Main Billed Account are included in this plan.

Rates and Charges

Eligible Card calls will be rated, using the rate schedule specified below, all day, seven days a week. Charges for these card calls will not be discounted by any other AT&T plan or promotion unless explicitly stated otherwise. Eligible card calls will also be excluded from the determination of any discount levels a customer may qualify for when concurrently subscribed to certain other AT&T plans, unless explicitly stated otherwise. The Public Payphone Surcharge as specified in Section 1.4.6.C., 1., of this tariff applies to eligible card calls when placed from a public or semi-public payphone.

	<u>Rate Per Minute</u>	<u>Service Charge</u>	<u>Monthly Charge</u>
Eligible Customer Dialed Automated AT&T Intrastate Calling Card Calls	\$.35	None	None

The duration of a call, which involves a fractional part of a minute, will be rounded up to the next higher full minute.

Charges for calls to Directory Assistance, AT&T DIRECTory LINK Service calls, Operator Handled calls, mobile, marine or cellular services calls, and all Calling Card calls that are not placed via 1-800CALLATT (or other specific numbers so designated by AT&T) are excluded from this plan.

Material previously found here is now found in Paragraph 1.2.

1.6.6 Minimum Protection Criteria

(MT)

A. General

MO. PUBLIC SERVICE COMM

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria applies to the direct electrical, acoustic, or inductive connections of customer premises equipment and communications systems to MTS.

B. All Connections

Customer premises equipment and communications systems which are connected to MTS on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the demarcation point meets the following limits:

a. Metallic Voltage

- (1) 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (6.4 / 12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	(23 - 40 log f) dBV	135 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

*dBV = 20 log₁₀ voltage in volts

- (2) The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Longitudinal Terminating Impedance
8 kHz to 12 kHz	- (18.4 / 20 log f) dBV*	500 ohms
12 kHz to 42 kHz	(3 - 40 log f) dBV	90 ohms
42 kHz to 266 kHz	- 62 dBV	90 ohms

*dBV = 20 log₁₀ voltage in volts

- (2) The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.
2. To prevent the interruption or disconnection of an MTS message, it is necessary that the signal applied at the demarcation point be limited. Specifically, the signal at the demarcation point shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the demarcation point in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

C. For Direct Electrical Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on a direct electrical basis must comply with the following:

1.4.79 AT&T Lucent Appreciation Program (AT&T Green III Promotion A CPMAE)

Beginning July 26, 2000, residential customers who are (1) employees, contractors or agents of companies (as defined by the applicable company) or (2) employees or members of organizations (as defined by the applicable organization) and such companies or organizations have entered into an AT&T Consumer Marketing Division (CMD) joint marketing arrangement can enroll in this plan. Such companies or organizations must employ or have a membership of at least 20,000 persons or bill at least \$1,000,000 in total network services, voice and/or data, a year. This plan is in conjunction with and is described in the consumer AT&T Service Guide SP01001DD.

Residential customers must be presubscribed to AT&T as their primary interexchange carrier. If at any time during this plan, the customer selects a carrier other than AT&T, the customer will terminate their participation in this plan.

Customers will receive the benefits of this plan for the first 24 monthly billing periods after enrolling in this plan. Upon completion of this plan, customers will automatically be enrolled in AT&T One Rate 7 Cents CPMLL providing it is still available or unless the customer advises AT&T otherwise.

With this plan, customers pay a monthly charge that entitles the subscriber to the rates specified below.

Rates and Charges: AT&T intrastate direct dialed calls and AT&T CIID/891 Calling card calls are eligible for the rates specified below.

<u>Class of Service</u>	<u>Rate Per Minute</u>
- Dial Station	See Dial Station in AT&T One Rate Plus Plan
- AT&T CIID/891 Card	See CIID/891 Card in AT&T One Rate Plus Plan

Customers can no longer enroll in this plan. This plan is available where facilities and billing capabilities exist.

Material previously found here is now found in Paragraph 1.2.

JUN 04 1998

(MT)

B. All Connections - (Continued)

MO. PUBLIC SERVICE COMM

1. - (Continued)

b. Longitudinal Voltage

(1) 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Longitudinal Terminating Impedance
8 kHz to 12 kHz	- (18.4 / 20 log f) dBV*	500 ohms
12 kHz to 42 kHz	(3 - 40 log f) dBV	90 ohms
42 kHz to 266 kHz	- 62 dBV	90 ohms

*dBV = 20 log₁₀ voltage in volts

(2) The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

2. To prevent the interruption or disconnection of an MTS message, it is necessary that the signal applied at the demarcation point be limited. Specifically, the signal at the demarcation point shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the demarcation point in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

C. For Direct Electrical Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on a direct electrical basis must comply with the following:

C. For Direct Electrical Connections - (Continued)

MISSOURI

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the point-of-presence not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the premises equipment or communications system to the demarcation point will be specified for each customer location. In no case shall the power exceed one milliwatt.

Public Service Commission

D. Acoustic or Inductive Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the demarcation point located on the customer's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each customer, independent of distance from the point-of-presence, to supply signal power which at the point-of-presence approximates 12dB below one milliwatt when averaged over any three second interval, the Company, at the customer's request, will specify, for each customer location, the signal power at the demarcation point, which shall in no case exceed one milliwatt.

1.6.7 Recording of Two-Way Telephone Conversations

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

2. When used by the United States Secret Service of the Department of Treasury for recording two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds. (Filed in compliance with an Order of the FCC adopted January 22, 1975.)
3. When used by a broadcast network or by a cooperative programming effort, composed exclusively of FCC broadcast licensees, to record two-way telephone conversations solely for broadcast over the air by a licensed broadcast station. (Filed in compliance with an Order of the FCC adopted December 18, 1975.)
4. When used for recording at United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to MTS. (Filed in compliance with an Order to the FCC adopted May 19, 1976.)
5. When used by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center for the recording of two-way telephone conversations. (Filed in compliance with an Order of the FCC adopted January 29, 1981.)

D. Acoustic or Inductive Connections

Customer-provided voice recording equipment may not be connected to MTS for the recording of two-way telephone conversations by means of an acoustic or inductive connection, unless its use qualifies under the regulations, "Exceptions to the Requirement for the Recorder Tone."

1.4.80 AT&T Unlimited Local Toll Calling (USOC: BLKZH)

(CT)

A. General

(NR)

This plan offers residential customers unlimited intraLATA toll direct dialed station calling 24 hours a day, seven days a week for a monthly recurring charge.

To participate in this plan the customer must: 1) have been enrolled in Expanded Metro Service and was automatically moved to this plan by AT&T. 2) Continuously maintain AT&T as a Primary Long Distance Carrier and 3) Continuously maintain AT&T or an AT&T affiliated Incumbent Local Exchange Carrier for local exchange service.

This plan includes AT&T voice direct dialed station intraLATA toll calls that are 1) made from the home, 2) billed to the main residential telephone account and 3) made without using an AT&T operator or an AT&T automated call processing system.

AT&T will provide the benefits of this plan until one or more of the following events occur:

- 1) AT&T changes and/or discontinues this plan;
- 2) The customer continues to subscribe to AT&T as the Primary Long Distance Carrier, and AT&T is notified that the customer is no longer a subscriber to AT&T or an AT&T affiliated Incumbent Local Exchange Carrier as the Local Telephone Carrier, the customer's current intraLATA toll rates associated with the in-state long distance plan that the customer currently subscribes to will apply;
- 3) AT&T is notified that the customer is no longer a subscriber to AT&T as the Primary Long Distance Carrier. Discontinuance of this plan will be effective as of the date AT&T's records show that the customer is no longer a subscriber to AT&T as the Primary Long Distance Carrier;
- 4) The subscriber notifies AT&T that they want to withdraw from this plan.

AT&T will bill for this plan based on the following:

- 1) If the main residential telephone account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line associated with this plan. Unlimited direct dialed intraLATA toll calling will not be combined with other access lines that are associated with the main residential telephone account.

1.4.80 AT&T CITIGROUP APPRECIATION PROGRAM
(AT&T GREEN III PROMOTION B-CPMAH)

This plan is offered in conjunction with, and all terms and conditions are described and contained within the consumer AT&T Service Guide SPO01026DD.

Beginning July 26, 2000, residential customers who are: 1) employees, contractors, or agents of companies (as defined by the applicable company) or 2) employees or members of organizations (as defined by the applicable organization) and such companies or organizations have entered into an AT&T Consumer Marketing Division (CMD) joint marketing arrangement by October 18, 1999, can enroll in this plan. Such companies or organizations must employ or have a membership of at least 20,000 persons or bill at least \$1,000,000 in total network services, voice and/or data, a year.

Residential Customers must be presubscribed to AT&T as their primary interexchange carrier. If at any time during this plan, the Customer selects a carrier other than AT&T, the Customer will terminate their participation in this promotion. Customers can enroll in this plan through July 12, 2001.

Customers will receive the benefits of this plan for 999 days after enrolling in this plan. Upon completion of this plan, Customers will automatically be enrolled in AT&T One Rate 7 Cents CPMLL, providing it is still available or unless the customer advises AT&T otherwise.

With this plan, Customers must meet the Minimum Monthly Usage Charge.

Rates and Charges: AT&T intrastate direct dialed calls are eligible for the rates specified below.

<u>Class of Service</u>	<u>Rate Per Minute</u>

A. Direct Electrical Connection

JUL 05 1998

(Filed in compliance with an Order adopted May 20, 1948, by the FCC, in Docket No. 6787.) Customer-provided voice recording equipment may be used to record two-way telephone conversations if a distinctive recorder tone is repeated at intervals of approximately fifteen seconds. This distinctive recorder tone is required when recording equipment is in use and is electrically connected with services of the Company. The distinctive recorder tone can be provided as part of: (1) the recording equipment, (2) the customer-provided registered or grandfathered protective circuitry, or (3) a grandfathered connecting arrangement.

SR#79
Public Service Commission
MISSOURI

The customer-provided voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer.

B. Recording Requirements - If a distinctive recorder tone is not used, one of the following conditions must apply:

1. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
2. All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party.

C. Exceptions to the Requirement for the Recorder Tone

The distinctive recorder tone is not required:

1. When used by an FCC licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air. (Filed in compliance with an Order of the FCC adopted December 13, 1972.)

1.6.7 Recording of Two-Way Telephone Conversations - (Continued)

MO. PUBLIC SERVICE COMM

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

A. Direct Electrical Connection

(Filed in compliance with an Order adopted May 20, 1948, of the FCC, in Docket No. 6787.) Customer-provided voice recording equipment may be used to record two-way telephone conversations if a distinctive recorder tone is repeated at intervals of approximately fifteen seconds. This distinctive recorder tone is required when recording equipment is in use and is electrically connected with services of the Company. The distinctive recorder tone can be provided as part of: (1) the recording equipment, (2) the customer-provided registered or grandfathered protective circuitry, or (3) a grandfathered connecting arrangement.

The customer-provided voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer.

B. Recording Requirements - If a distinctive recorder tone is not used, one of the following conditions must apply:

1. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
2. All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party.

C. Exceptions to the Requirement for the Recorder Tone

The distinctive recorder tone is not required:

1. When used by an FCC licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air. (Filed in compliance with an Order of the FCC adopted December 13, 1972.)

1.4.82 AT&T WalMart and Sam's Club Associates
(AT&T Joint Vendor Promotion CPMBQ/BR)

Beginning April 26, 2001, residential customers who are employees of companies that have entered into an AT&T Consumer Marketing Division (CMD) joint marketing arrangement can enroll in this plan. Such companies must employ at least 500,000 persons or bill at least \$10,000,000 in total network services, voice and/or data, a year. This plan is offered in conjunction with, and the terms and conditions that apply to this promotion are described within Consumer AT&T Service Guide SPO01020DD.

Eligible residential customers meeting the following criteria can enroll in this plan through May 18, 2001: 1) potential AT&T customers who convert to AT&T as their primary interexchange carrier from another carrier or existing AT&T customers presubscribed to AT&T as their primary interexchange carrier and (2) the employee's address must be the same as the customer's AT&T Main Billing Account Address. Customers will receive the benefits of this plan through May 31, 2004. At the end of this plan, customers will automatically be enrolled in the AT&T One Rate 7 Cents CPMLL.

Eligible calls - AT&T intrastate Dial Station calls and intrastate Customer Dialed via 1-800-CALL-ATT /Automated AT&T CIID/891 Card calls billed to the customer's Main Billed Account are eligible for the rates specified below.

Rates and Charges - With this plan, customers will be assessed a basic Monthly Recurring Charge. AT&T will use the schedule below to rate eligible calls all day, seven days a week.

Class of Service	Rate per Minute	Service Charge
Dial Station		
- InterLATA	\$.15	
- IntraLATA	\$.09	
Card Calls	\$.20	None

The duration of a call that involves a fractional part of a minute will be rounded up to the next higher full minute.

Starting with bills rendered on or after December 1, 1999, customers will receive the rates on all eligible calls for full monthly billing periods upon enrollment in this plan.

1.4.84 AT&T EasyReach 800 Service (AT&T 800 Plan P 17CE1/CE2)

AT&T EasyReach 800 is a custom switched telecommunications service which permits inward 800 number calling from stations located in the State of Missouri to a station associated with a Customer's local exchange telephone number. Intrastate AT&T EasyReach 800 is an add-on to the interstate AT&T EasyReach 800 and is available only to Customers who subscribe to the interstate service. All the terms and conditions are contained within the consumer AT&T Service Guide OTH01004DD.

AT&T EasyReach 800 is available to customers who enroll in this service by completing and returning an enrollment form provided by AT&T by calling can 800 number designated by AT&T for this service, or by enrolling during a marketing contact with AT&T. AT&T EasyReach 800 service is offered under Option 1 and Option 2, as specified below.

The rates for AT&T EasyReach 800 consist of a monthly recurring charge, usage charges and nonrecurring charges that apply per AT&T EasyReach 800 routing arrangement. Each routing arrangement furnished to the customer will be arranged for either Option 1 or Option 2 only. Option 1 and Option 2 will not be combined under the same routing arrangement. The usage rates specified for Option 1 and Option 2 apply for all times of day, seven days a week, for all distances. Calls are billed on a full minute basis. All the terms and conditions are contained within the consumer AT&T Service Guide OTH01004DD.

- A. Option 1* - The monthly charge, all the terms and conditions are contained within the consumer AT&T Service Guide OTH01004DD. Usage is billed per each AT&T EasyReach 800-Option 1 routing arrangement.
- B. Option 2 - The monthly charge, All the terms and conditions are contained within the consumer AT&T Service Guide OTH01005DD. Usage is billed per each AT&T EasyReach 800-Option 2 routing arrangement.

	<u>Per Minute of Use</u>
Option 1*	\$.30

(RT)

(RT)

MESSAGE TELECOMMUNICATIONS SERVICE

1.4 TWO-POINT SERVICE - (Continued)

1.4.85 AT&T CTS 30 for 3 Free IntraLATA Minutes Promotion

(MT)

New and existing AT&T residential customers who convert to AT&T as their intraLATA carrier from another carrier can enroll in this plan by completing and returning an enrollment form provided by AT&T, by calling an AT&T designated 800 number, or by enrolling during a marketing contact with AT&T.

This offer will consist of three monthly bill credits equal to the first 30 minutes of intrastate intraLATA Dial Station calling. The bill credit will be awarded on the first complete bill cycle, but no later than the second complete bill cycle, after the Customer enrolls. Customers will receive the above bill credit on the monthly bill statement during the monthly bill period the credit was earned.

For this plan, eligible intraLATA Dial Station usage is defined as a customer's billed usage for a monthly billing period for intrastate intraLATA Dial Station Calls. Eligible intrastate intraLATA Dial Station usage includes intraLATA calling inclusive of TRS and dial-around (10-288) casual usage.

AT&T will calculate a customer's qualifying usage for the free minutes bill credit by using the first 30 minutes of intraLATA Dial Station qualifying usage during the customer's monthly bill cycle. Customer's free minutes credit will be calculated after all other discounts and credits are applied. In the event a customer has less than 30 qualifying free minutes of usage in a given monthly bill cycle period, a credit for only the qualifying minutes used will be issued to the customer and counted as the 30 free minutes credit. In the event a customer has no qualifying free minutes usage in a given monthly bill cycle period, a credit of \$0 will be issued.

A. General

AT&T residential customers who currently subscribe to or select AT&T as their primary long distance carrier and are enrolled in local service with AT&T or any of its affiliates can enroll in this plan. Customers can enroll in this plan by completing and returning a written subscription form to AT&T, call a designated AT&T 800 number or subscribe during a marketing contact with AT&T. This plan is offered in conjunction with the AT&T Consumer Service Guide BOT05001DD. Customers must continue to be subscribed to local service with AT&T or any of its affiliates to be eligible for the benefits of this plan.

B. Rates and Charges

With this plan, customers pay a fixed monthly recurring charge found in the interstate Service Guide, which entitles the customer to 100 total minutes of interstate and intrastate dial station usage. See Consumer Service Guide BOT05001DD for interstate rates.

Intrastate dial station calls over and above the monthly 100 minute allotment will be rated at \$.09 per minute.

Rates and service charges for calling card and operator-handled calls apply as specified in Section 1.4.6.

C. Availability

AT&T will provide this plan where billing and technical resources are available.

B. Rates and Charges

With this plan, customers pay a fixed monthly recurring charge found in the interstate Service Guide, which entitles the customer to 100 total minutes of interstate and intrastate dial station usage. See Consumer Service Guide BOT05001DD for interstate rates.

Intrastate dial station calls over and above the monthly 100 minute allotment will be rated at \$.09 per minute.

Rates and service charges for calling card and operator-handled calls apply as specified in Section 1.4.6.

C. Availability

AT&T will provide this plan where billing and technical resources are available.

A. General

AT&T residential customers who currently subscribe to or select AT&T as their primary long distance carrier and are enrolled in local service with AT&T or any of its affiliates can enroll in this plan. Customers can enroll in this plan by completing and returning a written subscription form to AT&T, call a designated AT&T 800 number or subscribe during a marketing contact with AT&T. This plan is offered in conjunction with the AT&T Consumer Service Guide BOT05002DD. Customers must continue to be subscribed to local service with AT&T or any of its affiliates to be eligible for the benefits of this plan.

B. Rates and Charges

With this plan, customers pay a fixed monthly recurring charge found in the interstate Service Guide, which entitles the customer to 300 total minutes of interstate and intrastate dial station usage. See Consumer Service Guide BOT05002DD for interstate rates.

Intrastate dial station calls over and above the monthly 300 minute allotment will be rated at \$.09 per minute.

Rates and service charges for calling card and operator-handled calls apply as specified Section 1.4.6.

C. Availability

AT&T will provide this plan where billing and technical resources are available.

1.4.91 AT&T One Rate State Promotion (TLHGM/TLHGN/BLKF7)

(NR)

A. General

Beginning June 21, 2007, Consumer customers who subscribe to AT&T as their Primary Carrier for local, intraLATA toll, and long distance service may enroll in this promotion through July 27, 2007. Except as set out in Rates and Charges, below, Customers of this promotion who have been automatically moved to an Incumbent Local Exchange Telephone Carrier ("ILEC"), that is an AT&T Inc. subsidiary, for their Local Telephone company shall be treated for all purposes under this promotion as if they had AT&T as their Primary Carrier for Local Telephone service.

This promotion is subject to all applicable terms and conditions of the Consumer AT&T Service Guide LSB04001DD.

Local Telephone service for customers who were automatically moved to an AT&T Inc. subsidiary ILEC will be provided by that ILEC.

This promotion provides consumer customers a combination of services that include one local access line; unlimited residential voice direct dial station local calls within the customer's local calling area, intraLATA toll and in-state long distance calling; and a choice of up to 3 custom calling features, as specified below, for a monthly recurring charge.

Caller ID with Name	Call Forwarding-Variable
Call Waiting	Repeat Dial
Three Way Calling	Speed Dial 8
Call Return	

This promotion provides unlimited minutes of direct dialed 1+ local, intraLATA toll calls, and in-state long distance calling for residential voice service only. If it is determined that any intraLATA toll and in-state long distance usage is not consistent with consumer voice applications, such as for internet access services, commercial facsimile or auto-dialing, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict, or cancel the customer's service without prior notice.

If the customer's AT&T Main Billed Account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line subscribed to this promotion.

1.4.91 AT&T One Rate State Promotion (TLHGM/TLHGN/BLKF7) - (Continued)

A. General - (Continued)

Unlimited direct dialed local, intraLATA toll, and in-state long distance calling will not be combined with other access lines that are associated with the main residential telephone account.

AT&T local customers whose AT&T Main Residential Billed Account has multiple lines, a \$.05 per minute rate will be applied to eligible direct dialed 1+ intraLATA toll and in-state long distance calls made from those lines that are not associated with this promotion. The customer's direct dialed 1+ intraLATA toll and in-state long distance usage will be billed as if the customer has a single line account, even though the customer has multiple lines, unless the customer subscribes to another pricing plan for the lines not associated with this promotion.

There will be no individual call detail on the AT&T billing statement that is associated with the unlimited portion of this offer. Call detail will be provided on multiple line accounts where a usage rate applies.

Nonpayment or partial payment of a bill may result in the removal of the toll service included in this offer. When toll service is removed, the customer will continue to be billed the Monthly Recurring charge associated with this promotion.

B. Rates and Charges

With this promotion, customers pay a fixed monthly recurring charge found in the interstate Service Guide. See Consumer Service Guide LSB04001DD for interstate rates.

In-state long distance and intraLATA toll usage from additional lines is \$0.05 per minute.

Local Telephone service for customers who were automatically moved to an AT&T Inc. subsidiary ILEC will be provided by that ILEC. The Monthly Recurring Charge for local telephone service is \$18.00, which the ILEC will bill separately.

C. Availability

This promotion is provided where billing and technical capabilities exist.

1.4.92 AT&T Unlimited Local Toll Calling Promotion (USOC: BLKZH)

A. General

Beginning June 21, 2007 Customers meeting the following criteria can enroll in this promotion through July 27, 2007: 1) are enrolled in Expanded Metro Service and are automatically moved to this promotion by AT&T. 2) Continuously maintain AT&T as a Primary Long Distance Carrier and 3) Continuously maintain AT&T or an AT&T affiliated Incumbent Local Exchange Carrier for local exchange service.

This promotion offers residential customers unlimited intraLATA toll direct dialed station calling 24 hours a day, seven days a week for a monthly recurring charge.

This promotion includes AT&T voice direct dialed station intraLATA toll calls that are 1) made from the home, 2) billed to the main residential telephone account and 3) made without using an AT&T operator or an AT&T automated call processing system.

AT&T will provide the benefits of this promotion until one or more of the following events occur:

- 1) AT&T changes and/or discontinues this promotion;
- 2) The customer continues to subscribe to AT&T as the Primary Long Distance Carrier, and AT&T is notified that the customer is no longer a subscriber to AT&T or an AT&T affiliated Incumbent Local Exchange Carrier as the Local Telephone Carrier, the customer's current intraLATA toll rates associated with the in-state long distance plan that the customer currently subscribes to will apply;
- 3) AT&T is notified that the customer is no longer a subscriber to AT&T as the Primary Long Distance Carrier. Discontinuance of this promotion will be effective as of the date AT&T's records show that the customer is no longer a subscriber to AT&T as the Primary Long Distance Carrier; 4) The subscriber notifies AT&T that they want to withdraw from this promotion.

AT&T will bill for this promotion based on the following:

- 1) If the main residential telephone account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line associated with this promotion. Unlimited direct dialed intraLATA toll calling will not be combined with other access lines that are associated with the main residential telephone account.

(NR)

1.4.92 AT&T Unlimited Local Toll Calling Promotion -(Continued)
(USOC: BLKZH)

A. General- (Continued)

2) The Monthly Recurring Charge (MRC) component of this promotion is:

- a. Billed in advance (two MRCs will be charged to the account in the first billing month, which apply to the month the customer enrolled as well as the next month.
- b. Applies whether or not any calls are made.
- c. Applies in full whether or not the billing period covers a full month.

3) This promotion provides unlimited minutes of intraLATA toll direct dial calling for residential voice service only. If it is determined that any intraLATA toll usage is not consistent with residential voice applications, such as for Internet access services, commercial facsimile or auto-dialing, resale, telemarketing, or other non-residential uses, AT&T may immediately suspend, restrict or cancel the Customer's service without prior notice.

4) There will be no individual call detail on the AT&T billing statement that is associated with the unlimited direct dialed intraLATA toll calls that are included in this promotion. For these calls, this means there will be no indication of originating or terminating points called, time of day called, nor a list of the number of minutes called.

B. Rates and Charges

A Monthly Recurring Charge of \$14.95 applies and includes unlimited calling of direct dialed station intraLATA toll calls made to residential telephone lines that are presubscribed to AT&T as the Primary Long Distance Carrier.

C Availability

This promotion is available in limited areas. It is only available to customers who were automatically placed on this promotion by AT&T by meeting the requirements described above. This promotion is subject to billing and technical availability and is available where AT&T provides and issues the bill.
