RE: Notice of Election and Withdrawal of Embarq Missouri, Inc. d/b/a CenturyLink Tariffs Pursuant to §392.461, RSMo.

Dear Secretary:

Section 392.461 allows telecommunications companies, upon notice to the Missouri Public Service Commission ("Commission"), to elect to be exempt from the requirement that they offer retail services to residential or business end users only through tariff, and to withdraw such tariffs.

Embarq Missouri, Inc. d/b/a CenturyLink hereby provides notice of its election to be exempt from tariff filing requirements, and of its intent to withdraw the below-listed tariffs, effective October 1, 2014.

General Exchange Tariff PSC MO. NO. 22
Intrastate IntraLATA Message Telecommunications Service Tariff PSC MO. NO 23
Wide Area Telecommunications Service Tariff PSC MO.NO 25
Private Line Service Tariff PSC MO.NO 24
Exchange Boundary Maps P.S.C. MO. NO. 10

Compliant with the requirement that electing companies publish generally available retail prices on a website, the *Local Terms of Service* containing the terms, conditions and rates for services previously provided under tariffs will be located on CenturyLink's website at www.CenturyLink.com/tariffs. Affected customers were advised at least thirty days in advance of CenturyLink's withdrawal of the above referenced tariffs and of the website at which *Local Terms of Service* are available.

The withdrawal of tariffs and establishment of *Local Terms of Service* will not result in any changes to customers' current services or rates. CenturyLink will notify customers in advance if future changes are made.

If you have any questions or need additional information, you may call me at (913) 353-7087.

Sincerely,

A handwritten signature in cursive script that reads "Robyn Crichton".

MESSAGE TELECOMMUNICATIONS SERVICE

1. Application of Tariff

- 1.1 This tariff applies to Intrastate/IntraLATA Message Telecommunication Service (MTS) furnished or made available by **Embarq** Missouri, Inc. d/b/a **Embarq**, hereinafter referred to as the "Company", for communication between two or more points within the same LATA within the state of Missouri. (T)
- 1.2 MTS rates ascertained as herein outlined are the effective rates applicable.
- 1.3 Any change in rates and/or regulations authorized by the legally constituted authorities acts as a modification of all contracts to that extent without further notice.

2. General Regulations

2.1 Scope

- (A) MTS is the furnishing of facilities for telecommunications between service points in different local service areas in accordance with the regulations and system of charges specified in this Tariff. Message charges specified in this Tariff are in payment for MTS furnished between the calling and called service points.
- (B) Charges specified in this Tariff do not contemplate work being performed by Company employees at a time when overtime wages apply due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. Additional charges based on cost are applicable if the customer requests that overtime labor be performed or interrupts work once begun.
- (C) The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for telecommunications.

MESSAGE TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)2.1 Scope (Continued)

- (D) The design, maintenance and operation of MTS envisions that communications will originate or terminate at a service point of the associated exchange telephone service used for MTS. Connections of customer premises equipment or communications systems or interexchange carrier (IC) provided premises equipment or communications systems may be made to MTS. However, the Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

2.2 Availability of Service

- (A) In case a shortage of service components exists at any time, either for temporary or protracted periods, the establishment of MTS shall take precedence over all others.
- (B) Service is furnished subject to the availability of the service components required. The Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.
- (C) When connections are made to customer or IC provided communications systems at a premise(s) where the customer does not originate or terminate communications, the Company may require that the exchange telephone service be furnished from a local exchange company Serving Office(s) different than the Serving Office(s) designated by the local exchange company to serve that premises.
- (D) At the option of the Company, Billed Number Screening will be furnished to control instances of fraud associated with billed to third party, station-to-station or person-to-person collect calls or in response to a customer request. Billed Number Screening denotes an arrangement whereby, at the time of call origination, calls are screened for customer preauthorized or Company directed non acceptance.

2. General Regulations (Continued)

2.3 Limitations on Duration of Connection

The Company reserves the right to limit the duration of connection when necessary because of shortage of service components caused by emergency conditions.

2.4 Liability

(A) In view of the fact that the customer has exclusive control of communications transmitted over the facilities furnished or used by the Company, and of the other uses for which service components may be furnished him by the Company, and because of unavailability of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished or used by the Company are subject to the terms, conditions and limitations specified herein.

(B) The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or failures or defects in facilities furnished by the Company occurring in the course of furnishing service and not caused by the negligence of the customer, or of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charges to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or failure or defect in facilities occurs.

2. General Regulations (Cont'd)

2.4 Liability (Cont'd)

- (C) The customer indemnifies and saves the Company harmless against claims for libel, slander or infringement of copyright arising directly or indirectly from the material transmitted over MTS facilities, against claims for infringement of patents arising from, combining with, or using in connection with, facilities used by the Company, apparatus and systems of the customer and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.
- (D) The Company will not be liable for any consequential, incidental or indirect damages for any cause of action, whether in contract or tort. Consequential, incidental and indirect damages include, but are not limited to, lost projects, lost revenues and loss of business opportunity, whether or not the Company was aware or should have been aware of the possibility of these damages.
- (E) When the facilities of other telephone companies are used in establishing connections to points not reached by the Company's facilities, the Company is not liable for any act or omission of the other company.
- (F) The Company will make reasonable efforts to cure any material failure to provide service caused solely by year 2000 defects in the Company hardware, software or systems. Due to the interdependence among telecommunications providers and the interrelationship with non-Company processes, equipment and systems, the Company is not responsible for failures caused by circumstances beyond its control, including, but not limited to, failures caused by: 1) the Customer; 2) other telecommunications companies as defined by Missouri statute; or 3) customer premises equipment. In addition, the Company does not ensure compatibility between the Company and non-Company services used by the Customer.

MESSAGE TELECOMMUNICATION SERVICE

2. General Regulations (Continued)2.6 Obligation of the Customer

The calling party shall establish his/her identity in the course of any communication as often as may be necessary. The calling party shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called location.

2.7 Suspension and Termination of Service for Cause

- (A) Upon non payment of any sum due the Company, (or its authorized agent), or upon a violation of any of the conditions governing the furnishing of service, or upon the use of any service for the purpose of performing any service in competition with the Company or its connecting carriers, the Company (or its authorized agent), may, by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of service.
- (B) Rules and Regulations applicable to the Discontinuance of Service are outlined in the Missouri Public Service Commission's Rules and Regulations and the governing local exchange carrier's General Exchange Tariff.
- (C) Written notice of service termination shall be sent or delivered to the customer at least five (5) days prior to the date of proposed discontinuance.

2.8 Payment for Service

The customer is responsible for payment of all charges for service furnished the customer, including charges for service originated or charges accepted at the customer's location in accordance with the "Billing and Payment Standards" set forth in the Missouri Public Service Commission's Rules and Regulations and the governing local exchange carrier's General Exchange Tariff.

2.9 Advance Payments

Applicants for MTS, who have no account with the Company or whose financial responsibility is not a matter of general knowledge or who are not connected in a substantial way with a firm, corporation, or other concern of established credit, may be required to make an advance payment at the time of application for service, if the standards contained in the governing local exchange carrier's General Exchange Tariff are not met.

The amount of any advance payment is credited to the customer's account and applied against any indebtedness under the terms of this Tariff.

2.10 Deposits and Guarantees of Payment

The Company may require a present customer or new applicant to post a deposit as guarantee of payment in accordance with the provisions outlined in the Missouri Public Service Commission's Rules and Regulations and the standards outlined in the governing local exchange carrier's General Exchange Tariff.

2.11 Special Construction Charges

When special construction for individual customers is necessary, special construction charges may apply as set forth in the governing local exchange carrier's General Exchange Tariff.

2. General Regulations (Continued)2.12 Special Taxes, Fees, Charges

When any legally constituted governmental body imposes a franchise, occupation, business, sales, license, excise, privilege, or similar tax of any kind on the Company, the amount thereof, shall be charged on a proportionate basis to all customers receiving service within the boundaries of the governed taxed area. This tax will be in addition to the regular charges for service, and will appear on the customer's regular bill, identified as such.

2.13 Time and Charges

Time and charges on long distance calls may be quoted upon request from the customer. Name association with time and charge details will be provided where service components permit. The Company reserves the right to determine the service component used where there are multiple service components.

2.14 Telecommunications Service Priority (TSP) System

Priority Installation, Restoration, Changes and Maintenance Services shall be provided under Section 13.3.9 of the United Telephone Company of Missouri's Access Tariff P.S.C.MO.-No. 26.

3. Method of Applying Rates-V&H

3.1 MTS rates between points within the same LATA within the state of Missouri (cities, towns, or localities) are based on the airline distance between rate centers. Each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.

3.2 Airline mileages are determined by using vertical and horizontal grid lines which have been established across the United States. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. A four digit vertical (V) and a four digit horizontal (H) coordinate are computed for each rate center from its latitude and longitude location on a map. The intersection of the horizontal grid and the distance between any two rate centers is the airline mileage, with fractional miles being rounded up to the next mile. Rates applicable to mileage bands are provided in the MTS Rate Table in this Tariff (Section 4.8).

3. Method of Applying Rates-V&H (Continued)

3.3 Rate Distance Determination

To determine the rate distance between any two rate centers proceed as follows:

- (A) Obtain the (V) and (H) coordinates for each rate center.
- (B) Obtain the difference between the (V) coordinates of the two rate centers. Obtain the difference between the (H) coordinates. NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- (C) Divide each of the differences obtained in (A) by three, rounding each quotient to the nearer integer.
- (D) Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in (C) by three and repeat step (D). Repeat this process until the sum of the squares obtained in (D) is less than 1778.
- (E) The number of successive divisions by three in steps (C) and (D) determines the value of "N". Multiply the final sum of the two squares obtained in step (D) by the multiplier specified in the following table for this value of "N" preceding:

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

- (F) Obtain square root of product in (E) and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in (E) preceding, the minimum rate mileage corresponding to the "N" value is applicable.

MESSAGE TELECOMMUNICATION SERVICE

4. Two Point Service4.1 Class of Calls

Two-Point service is categorized into four classes of calls. Charges apply according to the class of call the calling (originating) party selects.

"Station-to-Station" service refers to a call that is either a Dial Station-to-Station, Customer Dialed Calling Card Station-to-Station, or Operator Handled Station-to-Station, as outlined following. "Person-to-Person" service refers to calls classified as Person-to-Person as outlined following.

(A) Dial Station-to-Station (Direct Dial Service)

Applies when the person originating the call (from other than a coin phone) dials the desired telephone without the assistance of an operator and the call is billed to the originating (calling) number. This includes calls forwarded by call forwarding equipment. Dial Station-to-Station rates also apply when the operator:

- (1) Records the originating telephone number for areas without automatic recording equipment.
- (2) Records a special identification number for billing purposes from students residing at dorms of universities or colleges which have Centrex or DID Service, for calls placed from dormitory stations.
- (3) Reaches the called telephone number because of trouble on the network or because dial completion is not available.
- (4) Places a call for a calling party who identifies himself as being handicapped and unable to dial the call because of that handicap.
- (5) Re-establishes a direct dialed call due to a service fault that interrupts a call after the called person has been reached.

4. Two Point Service (Continued)

4.1 Class of Calls (Continued)

(B) Customer Dialed Calling Card Station-to-Station

This class of service involves no other operator services except those necessary to complete the calls described below.

These rates apply when the person originating the call (including calls originating from coin phones):

- (1) Dials 0, plus the telephone number (0+ number), plus a calling card number (where equipment is available) and completes the call without operator assistance.
- (2) Dials 0, plus the telephone number (0+ number), and operator assistance is limited to recording the calling card number for billing purposes.
- (3) Dials the operator and places a calling card call when equipment precludes either of the foregoing due to trouble on the network or because dial completion is not available.
- (4) Dials the operator to complete a calling card call and identifies himself as being handicapped and unable to dial the call due to his handicap.
- (5) Dials the operator to re-establish the call due to a service fault that interrupts the call after the called person has been reached.

(C) Operator Handled Station-to-Station

Applies when calls are completed with the assistance of an operator (except in A & B above and D following). Included are calls originating from coin telephones except for those coin calls which are categorized as Customer Dialed Calling Card Station-to-Station as described above.

MESSAGE TELECOMMUNICATION SERVICE

4. Two Point Service (Continued)

4.1 Class of Calls (Continued)

(D) Person-to-Person

Applies where the person originating the message specifies to the operator a particular party to be reached. The party may be:

- a person
- a mobile service point
- an extension, department, or office to be reached via a PBX attendant

Person-to-Person rates also apply when the originating calling party:

- cannot speak to the intended person or location but agrees to speak to someone else.
- requests an operator to make arrangements in advance with a particular party or location for the establishment of a call at a specified time.

4.2 Reversal of Charges (Collect Calls)

Charges for Operator Handled Station-to-Station and Person-to-Person telephone messages may, upon request, be reversed (i.e., charged against the called telephone, provided the charges are accepted at the called telephone).

The regularly established Operator Handled Station-to-Station and Person-to-Person rates apply to collect calls.

4. Two Point Service (Continued)4.3 Time of Day Rate Application

The time of day at the calling (originating) party rate center determines whether Day, Evening, or Night/Weekend rates apply. This rule applies whether the message is sent paid or collect.

When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the call occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.

4.4 Chargeable Timing of Calls

- (A) On Dial Station-to-Station, Customer Dialed Calling Card Station-to-Station and Operator Handled Station-to-Station calls, chargeable time begins when connection is established between the calling party and the called party.
- (B) On Person-to-Person calls, chargeable time begins when connection is established between the calling party and the particular party or service point specified on, or an agreed upon alternate.
- (C) Chargeable time ends when the calling service point "hangs up" thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the operator.
- (D) Chargeable time does not include time lost because of faults or defects in service.
- (E) When exchange telephone service used for MTS is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premise(s) to a communications system, chargeable time for all classes of messages begins when a message from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

4.5 Initial, Additional Minute Rate Periods

MTS rates are quoted in terms of initial and additional minutes.

- (A) The initial minute period is the first minute or any fraction thereof after connection is made.
- (B) Additional minutes are each minute or any fraction thereof that connection continues after the initial minute.

4.6 Time of Day Discount Rate Periods

Discounts for the Evening and Night/Weekend rate periods are expressed as a percent reduction of the Day (Full) rate period and are indicated in the Discount Table following.

- (A) Discounts apply to the charge for the initial minute occurring within each discount rate period and to all additional minutes occurring within each discount rate period. The discount is computed separately for charges in each rate period and the results are then totaled.
- (B) When a discount results in a fractional charge, the amount will be rounded to the nearest cent.
- (C) Discounts are not applicable to Service Charges listed in this Tariff.
- (D) The "Evening" discount rate applies to calls made on the holidays listed below unless a lower rate would normally apply.
 - New Year's Day (January 1)
 - Independence Day (July 4)
 - Thanksgiving
 - Labor Day
 - Christmas Day (December 25)

4.11 MTS Charges Paid for by Coin Deposits in Coin Telephones

The charge for a call paid for by coin deposit in a coin telephone is the sum, rounded to the nearest multiple of \$.05, of the appropriate initial period rate, additional period rates, service charges and other applicable charges.

5. Conference Service

5.1 General

IntraLATA MTS Conference Service is the furnishing of simultaneous connections between three or more main service points within the same LATA within the state of Missouri.

5.2 Service Conditions

- (A) Service is furnished where and to the extent service components permit.
- (B) Connections will be established on either a Person-to-Person basis or Station-to-Station basis.
- (C) Upon request, the Company will attempt to establish conference connections at a specified time.
- (D) Charges for Conference Service may be reversed provided that the total charge is billed against one called service point and that the charge is accepted by the called point.

5.3 Timing of Messages

- (A) The chargeable duration of the message is the elapsed time between the start of conversation, with all points on the conference connection and the time at which the disconnect signal is received from the originating service point.
- (B) When the originating customer requests that one or more service points be added to or disconnected from a conference call on which conversation is in progress, that call is considered terminated and a new call is considered initiated to the revised group of service points.

5.3 Timing of Messages (Continued)

(C) Chargeable time does not include time lost because of faults or defects in the service.

5.4 Rates and Charges

(A) The total charge for the conference connection is the sum of the set-up charge plus the charge for total conversation time.

(B) The set-up charge is applicable to each main service point (or PBX trunk) included in the conference call.

(C) The charge for total conversation time will consist of the total minutes of conversation, multiplied by the appropriate charge per minute, multiplied by the number of main service points.

(D) The setup charge for each main service point is as follows:

Set-Up Charge\$1.60

(E) Per-minute charges for each main service point (or PBX trunk) are as follows:

<u>Mileage Between the Two Most Distant Service Points</u>	<u>Charge Per Minute</u>
0 - 18	\$.05
19 - 60	.10
61 - 150	.15
Over 150	.20

(F) Additional charges may be applied based upon the cost of any special equipment used. Such additional charges are separate from the rates computed and outlined in this Tariff.

6. Special Reversed Charge

6.1 General

- (A) This service provides an arrangement in connection with intraLATA MTS whereby a customer offers patrons the privilege of calling him without the payment of an intraLATA long distance message charge and without having to request specific reversal of this charge.
- (B) This service is not available for party line or coin service.
- (C) The **exchanges from** which patrons may call without charge are selected by the customer, subject to the approval of the Company. The selected **exchanges must** all be within the same LATA within the state of Missouri. For each selected **exchange within** the same LATA within the state of Missouri, the Company assigns and lists in the directory a special call number.
- (D) Calls to the special number are accepted when originating at telephones located in the exchange with which the special call number is associated and from other exchanges in the numbering plan area as long as both the originating exchange and terminating exchanges are located within the same LATA within the state of Missouri. Only those long distance calls placed by calling this special number are considered as coming within the scope of the service.
- (E) The customer agrees to pay the charges for all calls completed by means of the special number.
- (F) The initial contract period for this service is one month.
- (G) A directory listing is provided without additional charge only in the exchange selected by the customer as the exchange from which patrons may call without charge.

8. Outstate Calling Area (OCA) Plan* (C)

8.1. General

A. Description

1. The Outstate Calling Area (OCA) Plan is an optional one-way Dial Station-to-Station Message Telecommunications Service (MTS) for customers in selected exchanges. For a description of the service availability, see 8.1.B below.
2. The OCA Plan offers discounted block of time calling beyond a customer's local exchange to rate centers that fall within the calling scope as defined in 8.1.C below.
3. The local exchange company providing basic local exchange service in each exchange has the option to determine whether this service will be dialed as either 1+ (NXX-XXXX) or on a seven-digit basis.

B. Service Availability

1. The exchange listing in the Schedule of Rates and Charges section in the front of this tariff identifies exchanges where OCA service is available. Customers in exchanges that are not referenced by Footnote (1) or (2) are eligible to subscribe to the OCA Plan. Customers in exchanges within the Kansas City Metropolitan Calling Area (MCA), other than MCA-5 exchanges, are not eligible to subscribe to the OCA Plan.
2. OCA service is being implemented between May 1, 1993 and September 30, 1994. Service may not be available for all OCA exchanges during this time.

C. Calling Scope

1. The calling scope for an OCA exchange includes all intrastate intraLATA toll rating points within a 23-mile radius. The 23-mile radius, from each exchange, is based on air miles and is measured from rate center to rate center, as defined in 8.3 of this tariff.
2. Customers in Kansas City MCA-5 exchanges will be able to subscribe to the OCA Plan; however, the 23-mile radius will not include any toll rating points within the MCA. Refer to the Missouri Public Service Commission (MPSC) Order, effective January 5, 1993, in Case # TO-92-306.

8. Outstate Calling Area (OCA) Plan* (Cont'd) (C)

8.1. General (Cont'd) (N)

D. Calling Options (Cont'd)

Residential and Business customers can choose from two OCA options. Rates are listed in 8.3 of this tariff and are in addition to the established charges for the service with which the OCA Plan is associated. OCA subscribers are charged the full monthly rate for the block of time selected, even if the full block of time is not used.

1. Two-hour block of time: This option allows subscribers two hours of calling per month at a flat rate. MTS rates are applicable for calls exceeding the two hours.
2. Five-hour block of time: This option allows subscribers five hours of calling per month at a flat rate. An additional per minute rate, as identified in Section III below, applies for all calls exceeding the five hour block. Time of day and holiday discounts are not applicable.

8.2 Regulations

- A. Unless otherwise specified in these regulations, OCA is offered to all classes and grades of residence and business customers located within the eligible OCA exchanges.
- B. OCA is not offered in conjunction with Cellular, Payphone Line Service or comparable service offered by other local exchange companies in their exchanges listed in the Schedule of Rates and Charges section in the front of this tariff.
- C. OCA is not to be shared or resold.
- D. OCA is available to multiline customers on a per account basis only.
- E. Time of day and holiday discounts are not applicable for calls within the block of time.
- F. Rate Application
 1. The minimum service period for subscription to OCA is one month.
 2. A customer may purchase only one block of time per month.
 3. The monthly charges for an OCA block of time will be charges on a per account basis and are billed in advance.

8. Outstate Calling Area (OCA) Plan (Cont'd)
D. Calling Options (Cont'd)

Residential and Business customers can choose from two OCA options. Rates are listed in 8.3 of this tariff and are in addition to the established charges for the service with which the OCA Plan is associated. OCA subscribers are charged the full monthly rate for the block of time selected, even if the full block of time is not used.

1. Two-hour block of time: This option allows subscribers two hours of calling per month at a flat rate. MTS rates are applicable for calls exceeding the two hours.
2. Five-hour block of time: This option allows subscribers five hours of calling per month at a flat rate. An additional per minute rate, as identified in Section III below, applies for all calls exceeding the five hour block. Time of day and holiday discounts are not applicable.

8.2 Regulations

- A. Unless otherwise specified in these regulations, OCA is offered to all classes and grades of residence and business customers located within the eligible OCA exchanges.
- B. OCA is not offered in conjunction with Cellular, Payphone Line Service or comparable service offered by other local exchange companies in their exchanges listed in the Schedule of Rates and Charges section in the front of this tariff. (CT)
- C. OCA is not to be shared or resold.
- D. OCA is available to multiline customers on a per account basis only. (CT)
- E. Time of day and holiday discounts are not applicable for calls within the block of time.
- F. Rate Application
 1. The minimum service period for subscription to OCA is one month.
 2. A customer may purchase only one block of time per month.
 3. The monthly charges for an OCA block of time will be charges on a per account basis and are billed in advance.

9. Application of Conceptual Framework

MISSOURI
Public Service Commission

9.1 General

United Telephone Company of Missouri is serving as a primary toll carrier solely pursuant to the terms of the Conceptual Framework, Missouri Intrastate, IntraLATA Primary Carrier By Toll Center Plan, filed in MO. P.S.C. Case No. TO-84-222 et al., on January 29, 1987, as modified by subsequent Commission orders in that case dated April 3, 1987, October 23, 1987 and December 11, 1987. United Telephone Company hereby agrees to undertake the obligations of provider of last resort for WATS, 800 and intraLATA toll services in accordance with the Conceptual Framework for the term of that agreement and in accordance with said Commission orders. By filing this tariff and operating under its terms, United Telephone Company does not concede that it has any obligation to so serve, absent the Conceptual Framework and said Commission orders.

Pursuant to the Commission's order referenced above, charges for services governed by the Conceptual Framework will be made at rates shown in this tariff. United Telephone Company specifically denies that by virtue of its execution of any contract with any secondary carrier or by the filing of this or any tariffs which are applicable to services governed by the Conceptual Framework and rendered in exchanges in which United Telephone Company is not the authorized local exchange provider, United Telephone Company is undertaking to provide governed services, professing to serve those exchanges (listed on Original Title Pages 5 and 6), or offering to provide governed services to these exchanges.

10. Community Optional Service (COS)

MAR 23 1993

(A) General

MISSOURI

Public Service Commission

(1) Community Optional Service (COS) is an optional plan that allows customers in a qualifying COS Petitioning Exchange to purchase intraLATA interexchange calling with customers in designated exchanges, known collectively as their COS Calling Scope, under terms, conditions and rates as found in the Company tariff(s). The COS Calling Scope consists of the COS Target Exchange to which COS Petitioning Exchange customers have qualified for COS calling, plus all other exchanges with which customers in the COS Target Exchange have Extended Area Service (EAS).

(B) Definitions

COS Calling Scope

The Community Optional Service (COS) Calling Scope consists of the Target Exchange to which Petitioning Exchange customers have qualified for COS calling, plus all other exchanges with which customers in the Target Exchange have Extended Area Service (EAS).

COS Petitioning Exchange

The exchange whose customers petition the Missouri Public Service Commission (MPSC) to have COS calling with the customers in the COS Target Exchange.

COS Target Exchange

The exchange to which customers in another exchange have petitioned for COS service.

Extended Area Service (EAS)

Mandatory Interexchange telephone service furnished at a flat rate between two or more exchange areas.

(C) Qualification Process

(1) In order to qualify, customers in one exchange, known as the COS Petitioning Exchange, must demonstrate that a community of interest exists with customers in the exchange with which they desire COS calling, known as the COS Target Exchange. Consideration of eligibility for COS calling is initiated by a petition filed with the MPSC by any or all of the following parties:

10. Community Optional Service (COS) (Cont'd)

(C) Qualification Process (Cont'd)

- (a) By 25 or more customers in the COS Petitioning Exchange;
 - (b) By the presiding official(s) of a city, town, village or county, within the COS Petitioning Exchange;
 - (c) The Office of the Public Counsel on behalf of the customers in the COS Petitioning Exchange;
 - (d) The local exchange company serving the customers in the COS Petitioning Exchange.
- (2) If the Petitioning COS Exchange has failed the calling study criteria, the exchange can reapply or repetition for the service after two (2) years.
- (3) COS will not be offered between Metropolitan Calling Area (MCA) exchanges as defined in the MPSC Order, effective January 5, 1993, in Case #TO-92-306.
- (4) Petitions requesting COS must specify the COS Target Exchange with which COS calling is requested. The COS Target Exchange may be served by another local exchange company.
- (5) Upon issuance of a MPSC Order directing a calling study, the Company will conduct a study covering a one month billing period of Message Telecommunications Service Dial Station-to-Station traffic from the COS Petitioning Exchange to the COS Target Exchange.
- (6) The MPSC has ruled that a community of interest is found to exist when the traffic studies show that both of the following criteria are met:
- (a) Customers in the COS Petitioning Exchange make an average of at least six calls per access line per month to the COS Target Exchange;
 - (b) Two-thirds of the customers in the COS Petitioning Exchange make two or more calls per month to the COS Target Exchange.

10. Community Optional Service (COS) (Cont'd)(C) Qualification Process (Cont'd)

- (7) If the above criteria have been satisfied and/or the MPSC determines that a community of interest exists, the COS Petitioning Exchange will be certified as a COS qualifying exchange and the service will be implemented on a time schedule approved by the MPSC.

(D) Conditions

- (1) COS will be offered as a two-way optional flat rate service. Two-way optional flat rate service allows customers to make unlimited calls to and receive unlimited calls from the COS Target Exchange Calling Scope for a recurring monthly flat rate.
- (2) The Calling Scope of the two-way COS route shall be to the COS Targeted Exchange plus its EAS exchanges. Any EAS additives paid by the COS Target Exchange would apply to the COS subscriber in addition to the COS monthly flat rate.
- (3) In addition, a Noncontiguous Exchange Additive Charge (NEAC) may be applicable for Metropolitan COS routes between noncontiguous exchanges, see (4) (a) below.
- (4) Qualifying exchanges and their corresponding COS Target Exchanges are specified in this Tariff. COS Target Exchanges are classified as Rural or Metropolitan by the MPSC.
- (a) The St. Louis and Kansas City exchanges (MCA-Central, MCA-1 + MCA-2) and Springfield exchanges (MCA-Central + MCA-1) have been designated to be Metropolitan. All other COS Target Exchanges have been designated Rural.
- (5) Unless otherwise specified in these conditions, COS is offered to all classes and grades of residence and business customers located in a COS qualifying exchange on a per line basis.

- (7) When a customer's telecommunications service is arranged for his or her own administrative use, versus use by his or her patrons (such customers may include, but are not limited to hotel/motels, hospitals or universities), COS may be purchased for the administrative trunks only.
- (8) COS is not to be shared or resold.
- (9) COS customers listed in the COS Petitioning Exchange Company directory will be listed in the COS Target Exchange white page directory at no extra cost.
- Subscription to COS does not entitle that customer to a free copy of the white page directory of the COS Target Exchange.
- (10) For COS routes terminating in an MCA exchange, the Calling Scope will only include the targeted MCA exchange plus EAS with that exchange.
- (11) Rate Application
- (a) The monthly rates apply on a per line basis except for Centrex, or similar type Services billed on a PABX or equivalent type service as specified in the General and Local Exchange Tariff of the local exchange company providing basic local service to the COS subscriber. The monthly rates are billed one month in advance.
- (b) COS rates and charges are in addition to all other rates and charges paid by a subscriber for all other services of the exchange company providing basic local exchange service to the COS subscriber.

- (1) Business Sense Local TollSM Service applies to all Dial Station-to-Station intraLATA long distance messages originated in the Company's exchanges.
- (2) The service will be ordered and billed on a per primary billing number (i.e., per account) basis. All applicable calls placed from lines associated with the same primary billing number will be included in the service.
- (3) Message details are included in the charges specified in 12(D)(1) following.
- (4) The service is furnished with three monthly commitment levels: no commitment, a \$50 commitment and a \$200 commitment. If the customer's in-service level falls below the commitment level, the Company will bill the customer for the entire commitment level. For example, a customer that commits to a \$200 monthly minimum, but only spends \$175 in a month, will be billed \$200 for the month.

MO. PUBLIC SERVICE COMM

The Telephone Company's 800-210 Local Toll Calling Plan is available to individual residence and business 800-210 calling card customers who originate station-to-station or operator assisted calls from their primary billing number using the 1-800-210-2273 calling card platform or receive calls to their primary billing number using the 1-800-210-2273 calling card platform. Such calls are subject to a per minute charge and calling card surcharge as set forth in 14.(D) following. No other calls using the 1-800-210-2273 platform are eligible for the 800-210 Local Toll Calling Plan.

(B) Regulations

- (1) The primary billing number is the telephone number appearing on the customer's primary telephone service and the 800-210 calling card.
- (2) The 800-210 Local Toll Calling Plan may be ordered and billed on a per primary billing number (i.e., per account) basis. All eligible calls placed from and to lines associated with the same primary number will be included in the plan.
- (3) Message details are included in the charges set forth in 14.(D) following.
- (4) The 800-210 Local Toll Calling Plan is not available to customers who subscribe to dial tone local exchange service from a local service provider other than the Telephone Company.

(C) Applicability

The 800-210 Local Toll Calling Plan applies to:

- (1) Originated station-to-station or operator assisted calls from the primary billing number using the 1-800-210-2273 calling card platform.
- (2) Calls terminated to the primary billing number using the 1-800-210-2273 calling card platform.
- (3) Surcharges as set forth in 14.(D) following will apply to calls not originated by the primary billing number. This charge is in addition to the per minute rates set forth in 14.(D) following.
