B. Digital Loop Service/SuperTrunk® III (CT)

1. A promotional period will begin on September 9, 2003 and end on December 8, 2003 for eligible business customers who order Digital Loop service and who commit to a 36-, 48-, or 60-month service term. This promotion is available to customers who are ordering new Digital Loop circuits, and/or who are renewing existing Digital Loop service term agreements which expire during the promotional period. Business customers will receive a waiver of all associated installation charges on the Digital Transmission Loop Arrangement (DTLA), Direct Inward Dialing (DID) 100 number calling block, and DID Trunk Termination. Monthly recurring charges will be discounted as follow:

Product Name	Service Term		
	<u>36 Months</u>	<u>48 Months</u>	<u>60 Months</u>
Digital Transmission Loop Arrangement (DTLA)	\$171.00	\$162.00	\$153.00
DID 100 Number Calling Block	10.00	10.00	10.00
DID Trunk Termination	10.00	10.00	10.00

2. To be eligible for this promotion, the business customer must not currently have any past due bills for regulated service owed to the Company, except in those cases where the customer and the Company have established mutually acceptable payment arrangements for collection of past due amounts. Termination liability charges as specified in this Tariff Section will apply in the event of early termination of contract.
3. Service must be installed on or before February 15, 2004.

38.3.1. Description

SuperTrunk offers a direct T1 connection from the Company's digital switch to the customer's premises as an option of Digital Loop Service. Each SuperTrunk provides 24 exchange channels and will allow all channels to receive and generate calls. It will be available in digital offices where facilities permit and requires Touch-tone on all stations. Line side features are not available with SuperTrunk; therefore, if a customer wants vertical features (e.g., EasyOptions® Services) on their PBX outdials and combo trunks, they cannot subscribe to SuperTrunk. Direct Inward Dial (DID) numbers may or may not be assigned to these trunk groups. See the General Exchange Tariff, Miscellaneous Service Offerings, Section 13 for applicable DID rates. This service consists of three service components described herein. Service components are not offered separately or independent of one another.

38.3.2 Standard Service Components

- A. SuperTrunk Port - A direct T1 termination on the digital switch that provides 24 exchange channels. The port will provide incoming and outgoing digital connectivity to the switch network.
- B. Transport Element - A Digital Transmission Loop will connect the SuperTrunk termination to the customer's premise. Each arrangement provides two-way transmission with a maximum capacity of twenty-four Line Termination. Refer to the Application of Rates and Charges section of this tariff for regulations that apply to the Digital Transmission Loop. The Digital Transmission Loop Arrangement for SuperTrunk may be provided as a channel of an SWBT-provided DS3 service. When a DS3 service is used, the Digital Transmission Loop Arrangement charge is not applied.
- C. Switch Use - Includes the use of the public switched telephone network.

- C. If the customer terminates the SuperTrunk Service agreement prior to the expiration of the 12, 24, 36, 48 or 60 month service term, the customer shall pay a termination charge for each SuperTrunk Port and Switch Use Element disconnected. Payment of the termination charge does not release the customer from other previous amounts owed to Southwestern Bell. The termination charge shall be the lesser of:

- The difference between the total rates and charges of the original service term at the time of termination and the total rates and charges for the next lower service term (1) actually completed times the total number of completed months of the original service term, or interest charges based on approved costs of money in effect at the time of termination, or

This charge will be waived if the customer converts the arrangement to another Southwestern Bell digital service for a service term that equals or exceeds the number of months remaining on the customer's SuperTrunk service agreement. This charge will also be waived for SuperTrunk customers who move their service to another Southwestern Bell served location within Missouri if the service terms are continued at the new location. In such cases, Installation Charges and Service and Equipment Charges are applicable. See paragraph 38.2.2.E2.

- D. If additional SuperTrunk Ports are ordered at a location where the customer has an existing SuperTrunk Port term pricing agreement, the additional service(s) may be added to that agreement, so that the monthly rate and expiration date specified in the original agreement apply. As an alternative, the customer may choose the month-to-month payment option or a different term option for the service additions. Note that additions to an agreement are subject to the provisions described in paragraph 38.3.2.2.

For service term agreements which become effective on or after September 15, 2004:

- In addition to any unpaid Special Construction or Nonrecurring Charges (excluding waived charges), customer termination liability for cancellation of SuperTrunk service shall be equal to fifty percent (50%) of all recurring charges for the remaining months of the customer's service term.

For service term agreements in effect prior to September 15, 2004, the termination charge shall be the lesser of:

- The difference between the total rates and charges of the original service term at the time of termination and the total rates and charges for the next lower service term (1) actually completed times the total number of completed months of the original service term plus interest charges based on approved costs of money in effect at the time of termination, or
- The monthly payments remaining on the service term for each Digital Transmission Loop Arrangement.

This charge will be waived if the customer converts the arrangement to another Company provided digital service for a service term that equals or exceeds the number of months remaining on the customer's SuperTrunk service agreement. This charge will also be waived for SuperTrunk customers who move their service to another Company served location within Missouri if the service terms are continued at the new location. In such cases, Installation Charges and Service and Equipment Charges are applicable. See Paragraph 38.2.2.E2.

- (1) If the SuperTrunk service is terminated anytime within the first twelve (12) months of service for any service term, the monthly and installation charges for the next lower service term will be those that are applicable to the month-to-month rate.

38.3.5 Promotions

A. Digital Plus

1. Customers who purchase SuperTrunk with Local Plus between September 15, 2000 and December 31, 2000, and commit to a three or five year contract for the service combination will receive discounted SuperTrunk Port rates. The month-to-month price for the SuperTrunk Port rates will be discounted as follows:
 - a. Three year contract: 28% off the month-to-month rate
 - b. Five year contract: 32% off the month-to-month rate

This arrangement will be referred to as a Digital Plus arrangement.

2. A customer who connects a new SuperTrunk port, as a part of this arrangement is also eligible for a waiver of installation charges associated with the port and a credit payable in the third month of their contract. The credit will be equal to the number of new ports (associated with a Digital Plus arrangement) times \$225 for three-year contracts or time \$500 for five-year contracts. Existing ports are not eligible for credits. Existing ports must have been disconnected for a period of nine months before they may be re-connected and qualified as new ports for this promotion.
3. Subscribers under the Digital Plus promotion are also eligible for promotional pricing of their Local Plus Service (see Section 48, Sheet 6 for a detailed explanation).
4. If a customer discontinues a Digital Plus arrangement prior to the contract expiration, the customer is liable for a termination payment. The payment associated with SuperTrunk service is equal to the lesser of:
 - a. All credits issued and charges waived in association with a new connection plus the number of months the customer had SuperTrunk service times the difference between the tariff rate for the highest completed Term and the Digital Plus rate, or
 - b. The remaining contract obligation.
