#### **O.guaranteed - FramePlus**

FramePlus frame relay service is a public, fast-packet data network offering. Customers access FramePlus at Qwest's closest Points of Presence (POPs). Within the POP, Qwest designs and installs Network Node connections on the FramePlus network. A Network Node is comprised of a Port Connection and Permanent Virtual Circuits (PVCs) that define the connections between customers' ports. Qwest dynamically allocates capacity across these logically assigned PVCs, supporting multiple customer data networks.

FramePlus supports a variety of simultaneous data applications over a single integrated facility. It is optimal for applications requiring transmission between multiple locations that need high speed connectivity with low latency or delay.

An "Operator Surcharge" applies when the caller: (1) enters nothing, defaults to an operator and requests the operator to complete the call; or, (2) has the ability to complete the dialed digits of their call, but chooses to dial the appropriate operator code only (e.g., 0-, 00, 10432), and requests the operator to complete the call. This surcharge will be in lieu of the existing per call surcharge. In addition, this surcharge will apply to all month-to-month customers as well as new term customers who subscribe to Q.guaranteed. Customers who are currently on term plans will not incur this surcharge until their contracts renew.

### SECTION 3 - DESCRIPTION OF SERVICE AND RATES

### 3.60 <u>Q.biz</u>

Q.biz will no longer be available to new customers as of November 30, 2007. Current Q.biz, customers can continue to receive services under their existing contract and make any changes as agreed to by customer and Qwest. (N)

### General Description

 $\overline{Q}$ .biz is a service line consisting of switched outbound, switched inbound and card services. The services have flat rates which are based on term and minimum usage commitments. Q.biz is intended for the small business segment billing a total of \$50 to \$2,500 in telecommunications services monthly. This service works well with both single locations and multiple location businesses.

### Billing/Rounding

Intrastate rates are quoted in full minutes. Call rounding is thirty (30) second initial and one (1) second incremental. Call duration is calculated on a per call basis rounding up to the full increment. Call rating is on a bulk basis (all call duration totaled and then rated). Total is rounded to the nearest full cent.

### Rates

The per minute usage rates are as follows:

Monthly	Term
\$0.115	\$0.100

### WorldCard

The WorldCard is billed in initial thirty (30) seconds and in one (1) second additional increments. The WorldCard rates are as follows:

All time periods	\$0.30
Surcharge, per call	0.00

### Terms and Agreements

Q.biz is available in month to month, twelve (12) and twenty-four (24) month term plans. There is a minimum monthly usage commitment of \$25 for customers receiving service under both the monthly and term plans. If the customer's invoiced usage charges are less than the required minimum monthly usage commitment, the customer will be billed and required to pay a short fall charge equal to the difference between the monthly commitment and the actual amount billed. This short fall charge will be applied beginning with the customer's first full month's invoice.

### **Renewals**

Upon expiration of the initial term and subsequent renewal term(s), the Customer's Agreement will automatically renew for a like period, unless either party notifies the other in writing of its intention not to renew 30 days before the end of the agreed term. The automatic renewal will be for the same length and at the current tariffed rates in effect at the time of such renewal associated with the term and volume of the original Agreement.

### Early Termination Charges

- 1. Qwest will allow a customer to terminate its term Agreement prior to its expiration date provided the Customer is converting to another Qwest product with equal or greater term and volume commitment levels.
- 2. If a Customer terminates their service without cause prior to the expiration date of their term Agreement, the Customer will be billed and required to pay the minimum monthly usage charge for the remainder of the term Agreement.

### Legislative, Regulatory or Judicial Activity

Notwithstanding any statement to the contrary contained in this Tariff, in the event that any regulatory agency, legislative body or court of competent jurisdiction promulgates regulations or modifies existing ones including, without limitation, regulations regarding payphone compensation, access charges and/or universal service ("Regulatory Activity"), Qwest reserves the right, at any time and without notice to: (i) pass through to the Customer all, or a portion of, any charges or surcharges directly or indirectly related to such Regulatory Activity; or, (ii) modify the rates, including any rate guarantees, and/or terms and conditions contained in this Tariff to reflect the impact of such Regulatory Activity.

The following enhancements are available:

- Time of Day Routing: Customer can accept incoming calls on alternate numbers based on a. time-of-day.
- Day of Week Routing: Customer can accept incoming calls on alternate numbers based on b. day of week.
- Holiday Routing: Customer can accept incoming calls on alternate numbers based on holiday. c.
- d. Direct Terminal Overflow: Customer can forward incoming calls to predesignated local number if busy; (DAL customers only).
- Tailored Call Coverage: Customer can block predefined areas from 800 origination. Calls e. may be blocked by area code, area code/exchange, LATA, state, or 10 digit ANI.
- **Dialed Number Identification**: Customer can identify dialed number; (DAL customers only). f.
- Percent Allocation Routing: Routes calls placed on an 800 number up to 8 different g. terminating locations based on whole number percentages that add up to 100%.
- Alternate Call Routing: Customer can Activate Alternate Routing Plan. h.
- Real Time ANI: Allows dedicated access customers to receive the ANI of the calling party if i. the call originates from an equal access end office.
- Project\_Account Codes: Allows the customer to track usage of its 800 number back to j. specified user codes and/or to limit use of its 800 number to only those dialing authorized codes. Requires that additional digits be dialed after the regular 10-digit 800 number is dialed. Two types are available: verified and non-verified. With both types of codes, calls cannot be completed without entry of the specified codes. In addition, with verified codes, calls are not completed until codes are verified for accuracy. As an option, Call Detail can be sorted by either verified or non-verified codes.

General Description (Continued)

- k. <u>Geographical Routing</u>: Allows the customer to arrange for calls to a single 800 service telephone number placed from different groups of originating locations to terminate to different locations. Originating locations may be identified using the NPA or by NPA/NXX.
- 1. <u>800 Directory Publication:</u> Allows customers to publish their 800 number(s) in AT&T's 800 directory.
- m. <u>Menu Routing:</u> Plays prerecorded messages in a menu like fashion referring callers to other numbers, explaining service conditions, or other information that a Customer desires to provide to their callers. The call may either terminate after the message announcement, or proceed to a set of interactive voice responses that give additional menu options. These menu options may terminate to a final destination or prompts can be linked to another set of menu options. Qwest supports two types of Menu Routing:
  - 1. <u>Basic Menu Routing Plans</u>: Basic Menu Routing will allow one voice announcement message to be followed by a menu of options. Customers may select up to four (4) menu options. These menu options will terminate to a ring-to number based on the menu option selected using the keypad on the telephone.
  - 2. <u>Advanced Menu Routing Plans</u>: Any plan that does not meet the Basic Menu Routing requirements as described above, will be considered an Advanced Menu Routing Plan. The limitations for Advanced Menu Routing are as follows: (1) no more than nine (9) Menu Options per set or grouping; and, (2) no more than four (4) menu levels.

#### 3.72 **Owest Prepaid Card and PIN**

# RECT) APR 3 0 1999

#### General Description

Qwest Prepaid card, herein referred to as Card or Pin interchangeably, allows Customers to prepay for cards or Personal Identification Numbers  $(PINs)^1$  for domestic long distance calling either on a per unit or per minute basis. To use the card, callers must dial an access number. When the call is acknowledged, the caller then enters the PIN. At this point, the caller is notified of the amount of units remaining on the card. The caller then enters the telephone number to be called.

#### **Billing Increments**

The Qwest Prepaid card is debited as follows:

Option A	60/6
Option B	60/6
Option C	60/60

#### <u>Rates</u>

Qwest Prepaid cards are available in various unit or dollar denominations.<sup>2</sup> There is a minimum of 10 units per card per order.

Option A	1  unit = 1  minute = \$0.50
Option B	\$0.50 per minute
Option C	\$0.50 per minute

1 "Cards" when used in connection with Qwest Prepaid Card, shall also be interpreted to include PINs.

2 For all dollar-denominated cards, the number of units on the card will be determined by dividing the dollar value appearing on the card by the per unit rate and rounding up to the next whole unit.

- Recharging: Qwest may permit customers to add units to unexpired cards by charging the cost Α. of additional units to a commercial credit card accepted by Qwest. These transactions are available only through Qwest-provided telephone numbers. Such additional units will be charged at the prevailing per-unit rate on the date of recharging.
- Card Customizing: The physical appearance of cards may be designed by mutual agreement of Β. Qwest and the customer or the customer may order preprinted cards from Qwest. Card customizing and associated charges are determined on an individual case basis.
- Card Delivery and Printing: Card delivery and printing charges are determined on an С. individual case basis.
- D. Taxes: The Qwest Prepaid card per unit charge is inclusive of federal, state and local taxes imposed on the provision of telecommunications service, but exclusive of the federal excise Tax and the general retail sales, use and similar taxes that may be imposed on the sales of the Qwest Prepaid card at the time and point-of-sale. Qwest shall only be liable for the payment of federal, state and local telecommunications service taxes at the time an Qwest Prepaid call is made on the net amount received by Qwest for each Qwest Prepaid card unit.
- E. Directory Assistance: A charge of four (4) units per call for Option A; or, two (2) minutes per call for Option B and Option C, will apply for each call requesting Directory Assistance for numbers in the U.S. (including Puerto Rico and the U.S. Virgin Islands).
- F. Payphone Use Charge: A charge of two (2) units per call for Option A; or, two (2) minutes per call for Option B and Option C, will apply to calls that originate from any payphone used to access Qwest services. This charge, which is in addition to standard tariffed usage charges and any applicable surcharges associated with Owest service, applies for the use of the instrument used to access Qwest service and is unrelated to the Qwest service accessed from the payphone. Customers will be charged the payphone use charge for each call which is placed from payphones with the exception of: (i) calls placed by inserting coins during the progress of the call; (ii) calls using Telecommunications Relay service; or, (iii) calls originated by customers who are certified as hearing and/or speech impaired.
