LIFELINE SERVICE

A. General Regulations

Lifeline Service is a government benefit program established by the Federal Communications Commission (FCC) and Missouri Public Service Commission (Commission) and is available to qualifying low-income subscribers for certain residential telecommunications services. The terms and conditions of Lifeline service, including monthly discount amounts, are set forth in rules established by the FCC and Commission and available at the Company's office.

In addition, the terms and conditions of Lifeline service are available on the Company's website as follows: www.gtcbbroadband.net.

Disabled Service

Disabled Service is a government benefit program established by the Missouri Public Service Commission (Commission) as part of the Missouri Universal Service Fund (MoUSF). It is a residential retail service that offers a qualifying disabled customer reduced charges for certain telecommunications services. The terms and conditions of disabled service, including monthly discount amounts, are set forth in rules established by the Commission and available at the Company's office.

In addition, the terms and conditions of Disabled Service are available on the Company's website as follows: www.gtcbbroadband.net.

(T)

(T)

LIFELINE SERVICE

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single-party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.

LIFELINE SERVICE

Missouri Public

REC'D MAY 31 2002

Service Commission

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single party residence service.
2. Lifeline service is a reduction in the monthly local service charges normally paid by qualifying low-income consumers. Eligible Lifeline subscribers will receive a baseline credit equal to 100% of the Federal End User Subscriber Line Charge as (+)
specified in the Company's Interstate Access Tariff and a supplemental reduction (+)
of their residential access line rate for one party service of \$1.75. The components (+)
of the reduction to basic residential one-party rates are as follows:

State reduction in local rate: \$1.75

Federal baseline Lifeline reduction: (a) (+)

The Federal baseline lifeline reduction shall be used to waive the consumers Federal End-User Common Line charge.

3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.

- (a) Baseline amount of Federal Credit is equal to 100% of the Federal End User Subscriber Line Charge as specified in the Company's Interstate Access Tariff. (*)

LOCAL EXCHANGE SERVICE

LIFELINE SERVICE

RECEIVED

NOV 19 1997

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single party residence service.
2. Lifeline service is a reduction in the monthly local service charges normally paid by qualifying low-income consumers. Eligible Lifeline subscribers will receive a total reduction of their basic local rate for residential one party service of \$5.25. The components of the reduction to basic residential one-party rates are as follows:

State reduction in local rate: \$1.75

Federal baseline Lifeline reduction: \$3.50

The Federal baseline lifeline reduction shall be used to waive the consumers federal End-User Common Line charge.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. The rate for toll blocking will be charged on a monthly basis, as specified in Service Restrictions.

SERVICE RESTRICTIONS**

NOV 06 2000

A. Toll Access Restriction

MISSOURI
Public Service Commission

1. Toll Access Restriction provides a means of restricting access to the Long Distance message Telecommunications Network. Three options are available to the customer:
 - a. Restriction of 1+ calls only.
 - b. Restriction of 1+ calls and 0+ and 0- (operator handled) calls, except 8XX IN-WATS.
 - c. Restriction of 1+, 0+, 0- and 8XX IN-WATS where facilities allow.
2. Restriction of 1+ and/or 0+ and/or 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service. *
3. Toll Access Restriction with PIN (Personal Identification Number) is a service allowing customers to block all the outgoing toll calls unless the PIN number is entered before dialing. Outgoing toll calls as referred to in this tariff include all 1+, 0+, 0-, and international calls. This service is available to all residential and business customers. It is not available for public, non-public, or customer owned pay telephones. *
4. Customers must apply in writing for the establishment of Toll Access Restriction. *
5. The appropriate non-recurring charges will apply to establish service. *
6. The appropriate non-recurring charges will apply to each request to change the PIN (Personal Identification Number). *
7. The rate for this service will be charged to a monthly basis. *

Public Service Commission

The Company concurs in the rules and regulations governing intrastate intra-LATA interexchange Digital Link Service as set forth in Oregon Farmers Mutual Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Digital Link Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Digital Link Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Digital Link Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers *

DISTANCE LEARNING COMMUNICATIONS SERVICES

DISTANCE LEARNING COMMUNICATIONS SERVICES CONCURRENCE

The Company concurs in the rules and regulations governing intrastate interexchange Distance Learning Communications Service as set forth in Oregon Farmers Mutual Telephone Company's Tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Distance Learning Communications Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

PROVISION OF SERVICES

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to customers, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

CANCELLATION RIGHTS

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

ACCESS SERVICES TARIFF CONCURRENCE

Access Services

Access services are those services which are described in the Access Services Tariff of Mark Twain Rural Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Mark Twain Rural Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Mark Twain Rural Telephone Company. Rates for these services are set out in the following pages of this concurrence. (T)

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Mark Twain Rural Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Mark Twain Rural Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company. (T)

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

DIGITAL LINK SERVICES CONCURRENCE

14. Digital Link Services Concurrence

The Company concurs in the rules and regulations governing intrastate intra-LATA interexchange Digital Link Service as set forth in Mark Twain Rural Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Digital Link Service of Mark Twain Rural Telephone Company. Rates for these services are set out in the following pages of this concurrence. (T)

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Mark Twain Rural Telephone Company's Digital Link Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Mark Twain Rural Telephone Company's Digital Link Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company. (T)

Cancellation of Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

Payphone Service

JAN 15 1997

A. General Regulations

1. Payphone Service includes lines to which coin, coinless, card reader or coinless coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed to the Payphone Service Provider without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

MISSOURI
Public Service Commission

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

GENERAL EXCHANGE SERVICES

RECEIVED

Payphone Service (Cont'd)

JAN 15 1997

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

CUSTOM CALLING SERVICE

I. CUSTOM CALLING

Custom Calling Service consists of one or more of the following features which provide special kinds of customer-controlled communications features on individual service lines. Custom Calling Service is available only through central offices which, at the Company's option, are appropriately equipped. Operating specifics may vary by central office equipment type but can be described generally as:

A. FEATURES

Monthly Rates

1. CALL FORWARDING \$ 2.00

Permits all calls directed to a customer number to be routed on to another dialable number, predetermined and activated by the customer.

2. CALL FORWARDING - REMOTE ACCESS \$ 3.50

Permits a customer that also subscribes to the Call Forwarding feature to activate, deactivate or change the Call Forwarding feature from a remote location by dialing a Telephone Company-provided remote access number. This feature can only be activated by using a Dual Tone Multi-Frequency (DTMF) telephone which has a full set of characters, including "*" and "#". All charges incurred in accessing the remote number will be billed as appropriate.

3. REMOTE CALL FORWARDING \$ 4.00

Allows calls placed to a customer's telephone number in one central office to automatically be forwarded by Company central office equipment to another customer designated line located outside that central office's serving area. All charges incurred in accessing the customer designated line located outside that central office's serving area will be billed as appropriate.

GENERAL EXCHANGE TARIFFS~~Missouri Public
Service Commission~~

A. FEATURES

Monthly Rates

4. CALL WAITING

REC'D AUG 25 1999

\$ 3.50

Provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call. In addition, the customer can cancel the call waiting service when the customer prefers not to be interrupted when using the telephone. In that event, the calling party will receive a busy tone.

5. CALL WAITING ON CALLER ID

\$ 4.50

Customers who pay for the Caller ID feature (described elsewhere in this tariff) will not receive calling name and number delivery for incoming calls received under the standard call waiting feature. With Call Waiting on Caller ID, customers will receive calling name and number delivery for all calls and therefore can use the Caller ID feature to determine whether to take the waiting call.

6. THREE-WAY CALLING

\$ 3.50

Allows for the addition of a third number to a connection made between two numbers without the assistance of a company operator.

7. SPEED CALLING (8 NUMBER CAPACITY)

\$ 3.00

Permits customer calling to other telephone numbers through the dialing of a code rather than an entire telephone number. Capacity is 8 number dialable by speed dialing code.

8. SPEED CALLING (30 NUMBER CAPACITY)

\$ 4.00

Permits customer calling to other telephone numbers through the dialing of a code rather than an entire telephone number. Capacity is 30 numbers dialable by speed dialing code.

GENERAL EXCHANGE TARIFFS

	<u>Monthly Rates</u>
9. ALTERNATE LINE NUMBER/TEEN LINE	\$ 3.00
An additional telephone number with a coded ring is added to an existing line. This feature will allow a second party at the telephone location to identify their individual ring. This service will be offered only to like services such as business-business or resident-resident.	
10. SECOND LINE CODED RINGING	\$ 3.00
A coded ringing can be added to a second line termination. This will allow the customer to identify which line is being called.	
11. TOLL RESTRICTION WITH PIN	\$ 4.00
Toll Restriction With Pin (Personal Identification Number) is a service allowing customers to block all the outgoing toll calls unless the PIN number is entered before dialing. Outgoing toll calls as referred to in this tariff include all 1+, 0+, 0-, and international calls. This service is available to all residential and business customers. It is not available for public, non-public, or customer owned pay telephones.	
12. SIMULTANEOUS RINGING	\$ 3.00
This service provides a way for customers to configure additional numbers which will ring as well as the customer's main number, any of which can answer the call. The service always rings the customer's primary number. The customer may also configure one or more additional numbers that will ring simultaneously. For example, the customer could configure calls to their home phone number to also ring their mobile phone or configure calls to their business line to also ring at their home phone number.

GENERAL EXCHANGE TARIFFS

REC'D AUG 25 1999

		Monthly Rates
9.	ALTERNATE LINE NUMBER/TEEN LINE	\$ 3.00
An additional telephone number with a coded ring is added to an existing line. This feature will allow a second party at the telephone location to identify their individual ring. This service will be offered only to like services such as business-business or resident-resident.		
10.	SECOND LINE CODED RINGING	\$ 3.00
A coded ringing can be added to a second line termination. This will allow the customer to identify which line is being called.		
11.	TOLL RESTRICTION WITH PIN	\$ 4.00
Toll Restriction With PIN (Personal Identification Number) is a service allowing customers to block all the outgoing toll calls unless the PIN number is entered before dialing. Outgoing toll calls as referred to in this tariff include all 1+, 0+, 0-, and international calls. This service is available to all residential and business customers. It is not available for public, non-public, or customer owned pay telephones.		
B.	PACKAGE RATE	\$ 8.00
Includes call forwarding, call waiting, three-way calling, and speed calling (30 number capacity).		
C.	INSTALLATION CHARGES	
1.	PER FEATURE	\$ 5.00
2.	PACKAGE INSTALLATION	\$ 8.00
D.	APPLICATION OF INSTALLATION CHARGES	
1.	When Custom Calling features are provided in conjunction with the establishment of exchange telephone service or a change which involves a line connection service charge, the \$5.00 installation charges quoted above do not apply.	
2.	The \$5.00 charge will be applied only once, for each line arranged, even if two or more features are added.	
3.	When an existing Custom Calling feature or feature package is changed to a different feature or feature package, or when a Call Forwarding destination is changed, the \$5.00 installation charge is applicable for each line arranged.

F. SPECIAL PROMOTIONS

MO. PUBLIC SERVICE COM.

1. At various times throughout the year, the Company may propose various exchanges equipped to provide Custom Calling services to offer a special promotion in order to increase the number of features in service. Such promotion shall be subject to the approval of the Missouri Public Service Commission.
2. If a customer, not currently subscribing to any Custom Calling features, elects to subscribe to any of the various Custom Calling services available during the trial period, no monthly recurring or installation charges associated with Custom Calling shall apply for the promotional period.
3. For the period beginning December 1, 1992, through January 30, 1993, the Company will provide the following features free of charge to all subscribers: call forwarding, call waiting, cancel call waiting and speed calling (8 number capacity). If a customer subscribes to any of these custom calling features prior to January 30, 1993, the associated installation charge(s) will also be waived.

GENERAL EXCHANGE TARIFFSCUSTOM LOCAL AREA SIGNALING SERVICES (CLASS)Missouri Public
Service Commission

REC'D AUG 25 1999

I. GENERAL DESCRIPTION

Custom Local Area Signaling Services (CLASS) are a set of advanced call management features which will only be offered on one-party service and will not be activated on multi-party lines, certain FX lines, COCOT, and Payphone Services. CLASS features may be offered in conjunction with Enhanced Business Service (EBS) and consist of one or more of the following features:

*
*

A. Automatic Callback

Automatic callback permits the subscriber to place a call to the telephone number associated with the most recent incoming call whether or not the call was answered or the telephone number is known by the subscriber. If the called line is available, the call is immediately completed. If the called line is not available, a queuing process, which may last up to thirty minutes, takes place. When both lines are available, the calling subscriber is notified via a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed.

B. Automatic Recall

Automatic Recall allows the subscriber to automatically redial the last number dialed from the subscriber's telephone regardless of the completion status of the last number dialed. If the called line is available, the call will be placed immediately. If the redialed line is busy, the network will queue the request for thirty minutes and process the call when both the called and calling party lines are idle. When the call can be completed, a distinctive ring will be provided to the caller's line to alert the subscriber that the requested callback is ready. When the subscriber picks up the telephone, the call is automatically placed.

This feature cannot be activated for calls originating from a line that is forwarded.

C. Caller ID

Caller ID includes two services: Calling Name Delivery and Calling Number Delivery. Calling Name Delivery allows the subscriber, with the use of a display phone or adjunct display device, to view the name of the caller placing the incoming call before answering. Calling Number Delivery allows the subscriber, with the use

I. GENERAL DESCRIPTION

MISSOURI
Public Service Commission

Custom Local Area Signaling Services (CLASS) are a set of advanced call management features which will only be offered on one-party service and will not be activated on multi-party lines, certain FX line, and Payphone Services. CLASS features may be offered in conjunction with Enhanced Business Service (EBS) and consist of one or more of the following features: +

A. Automatic Callback

Automatic callback permits the subscriber to place a call to the telephone number associated with the most recent incoming call whether or not the call was answered or the telephone number is known by the subscriber. If the called line is available, the call is immediately completed. If the called line is not available, a queuing process, which may last up to thirty minutes, take place. When both lines are available, the calling subscriber is notified via a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed.

B. Automatic Recall

Automatic Recall allows the subscriber to automatically redial the last number dialed from the subscriber's telephone regardless of the completion status of the last number dialed. If the called line is available, the call will be placed immediately. IF the redialed line is busy, the network will queue the request for thirty minutes and process the call when both the called and calling party lines are idle. When the call can be completed, a distinctive ring will be provided to the caller's line to alert the subscriber that the requested callback is ready. When the subscriber picks up the telephone, the call is automatically placed.

This feature cannot be activated for calls originating from a line that is forwarded.

C. Calling Number Delivery

Calling Number Delivery (also know as "Caller ID") allows the subscriber, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. During the time that the incoming call is placed, the calling number is forwarded from the central office to a compatible customer provided Customer Premises.

C. Caller ID (Cont'd)

REC'D AUG 25 1999

of a display phone or adjunct display device, to view the directory number of an incoming call before answering.

During the time that the incoming call is placed, the caller's name and calling number are forwarded from the central office to a compatible customer-provided Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

The caller's name and calling telephone number are not available from calls made from most cellular phones or units and currently from interexchange carrier and other local exchange carrier calls. The caller's name and calling number are also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is not part of the CLASS network, is a multi-party line, or is blocked, the name and number will not be displayed.

Subscription to Caller ID on EBS access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line basis.

Names and telephone numbers transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the Caller ID subscriber. Caller ID customers failing to comply with any of these conditions will have their service terminated.

D. Calling Name and Number Delivery Blocking

Calling Name and Number Delivery Blocking allows the subscriber to prevent the delivery of the subscriber's name and directory number on a per call basis (per call block) or per line basis (per line block).

C. Calling Number Delivery (Cont'd)

Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

The calling telephone number is not available from calls made from most cellular phones or units and currently from interexchange carrier and other local exchange carrier calls. The calling number is also not available when income calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is not part of the CLASS network, is a multi-party line, or is blocked, the number will not be displayed.

Subscription to Calling number delivery on EBS access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line basis.

Telephone numbers transmitted via Calling Number Delivery may not be sold or given to another party without the caller's consent. Calling Number Delivery information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. Calling Number Delivery customers failing to comply with any of these conditions will have their service terminated.

D. Calling Number Delivery Blocking

Calling Number Delivery Blocking allows the subscriber to prevent the delivery of the subscriber's directory number on a per call basis (per call block) or per line basis (per line block).

Per call block will block the delivery of the subscriber's number for one call only and may be activated by dialing an activation code (*67 from a Touch-Tone telephone or 1167 from a rotary telephone) immediately prior to placing a call. The activation code will initiate per call block, which is available at no charge.

GENERAL EXCHANGE TARIFFS

REC'D AUG 25 1999

Per call block will block the delivery of the subscriber's name and number for one call only and may be activated by dialing an activation code (*67 from a Touch-Tone telephone or 1167 from a rotary telephone) immediately prior to placing a call. The activation code will initiate per call block, which is available at no charge.

If the calling party activates blocking, the caller's name and directory number will not be transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of the caller's name and telephone number.

Per line block will automatically block delivery of the subscriber's name and telephone number on all calls. Line blocking for the delivery of the caller's name and calling number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with the Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The caller's name and calling number will not be transmitted from a line equipped with this capability.

The blocking of the directory number will not be provided on calls originating from Payphone Services.

E. Customer Originated Trace

Customer Originated Trace enables the customer to initiate an automatic trace of the last incoming call received, regardless of the time lapse since that call, providing there have been no intervening outgoing calls. To initiate the trace, the customer must dial an activation code, then dial a "1". Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local telephone company business office for further action. The customer is not provided the traced number.

If the customer makes or receives another call before activating the trace, or if the Call Waiting feature (described in other sections of this tariff) is activated prior to activating the trace, the Customer Originated Trace feature will not record the correct number.

D. Calling Number Delivery Blocking (Cont'd)

JAN 15 1997

If the calling party activates blocking, the directory number will not be transmitted across the line. Instead, Calling Number Delivery customers will receive an anonymous indicator. This anonymous indicator notifies the Calling Number Delivery customer that the calling party has elected to block the delivery of the telephone number.

Per line block will automatically block delivery of the subscriber's telephone number on all calls. Line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities and their employee/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employee/volunteers, where an executive officer of the agency registers with the Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability.

The blocking of the directory number will not be provided on calls originating from Payphone Services. +

E. Customer Originated Trace

Customer Originated Trace enables the customer to initiate an automatic trace of the last incoming call received, regardless of the time lapse since that call, providing there have been no intervening outgoing calls. To initiate the trace, the customer must dial an activation code, then dial a "1". Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local telephone company business office for further action. The customer is not provided the traced number.

If the customer makes or receives another call before activating the trace, or if the Call Waiting feature (described in other sections of this tariff) is activated prior to activating the trace, the Customer Originated Trace feature will not record the correct number.

E. Customer Originated Trace (Cont'd)

MO. PUBLIC SERVICE COMM.

Customer Originated Trace will trace only those calls which are originated from a location served by the CLASS network. A separate charge applied to each successful activation of this feature.

F. Distinctive Ringing

Distinctive Ringing provides a distinctive ringing pattern to the subscribing customer for specific telephone numbers. The customer creates a screening list of telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern. Calls from telephone numbers not included on the screening list will produce a normal ring.

If the called customer subscribes to Call Waiting (described in other sections of this tariff) and the call arrives while the line is busy, the Call Waiting tone has the same distinctive patterns. For calls from a dial tone line with multi-line hunting, the distinctive signal is only produced when the main telephone number has been entered in the screening list.

G. Selective Call Acceptance

Selective call acceptance provides the customer the ability to select (a maximum of 12) customer telephone numbers from which calls are to be received. Through an interactive dialing sequence, the customer creates a screening list of telephone numbers in the CLASS Network. When a call is placed to the customer's number from a number on the screening list, the call is completed. When a call is placed to the customer's number that is not on the screening list, the calling party receives an announcement indicating that the call cannot be completed to the called party at this time.

For calls from a line within multi-line hunting, the call is completed only when the main telephone number has been entered in the screening list.

H. Selective Call Forwarding

MO. PUBLIC SERVICE COMM.

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of numbers is created by the customer and placed in the network memory via an interactive dialing sequence. This list can only be created from CLASS serving area telephone numbers. Only calls from those telephone numbers is the screening list may be forwarded to the designated telephone number.

For calls from a line within multi-line hunting the call is selectively forwarded only when the main telephone has been entered in the screening list.

I. Selective Call Rejection

Selective Call Rejection provides the customer the ability to prevent incoming calls from certain telephone numbers. Through an interactive dialing sequence, the customer creates a screening list of telephone numbers in the CLASS network. When a call is placed to the customer's number from a number on the screening list, the calling party receives an announcement indicating that the call cannot be completed to the called party at this time.

For calls from a line within multi-line hunting the call is blocked only when the main telephone number has been entered in the screening list.

II. GENERAL REGULATIONS

1. CLASS features can be provided on a stand alone basis or may be enhanced by use with Custom Calling service features as described in other sections of this tariff.
2. CLASS features are provided from specially equipped Telephone Company Central Offices and enable customers to access various features by dialing a specific code on either a rotary-dial or Touch-Tone calling basis.
3. The customer of record will be responsible for all rates and charges associated with the CLASS features as described in Rates and Charges. The customer of record will be charged for all features activated on his/her service and charged the applicable monthly subscription rate for each line on which a CLASS feature is provided.

II. GENERAL REGULATIONS (Cont'd)

MO. PUBLIC SERVICE COMM.

4. CLASS features are available to customers who have rotary or Touch-Tone service for calls within the CLASS Calling Service area. Customers with rotary service can access CLASS features by dialing "11" instead of "***".
5. A CLASS customer may employ available CLASS features only under the following conditions:
- When both the CLASS customer and the other party involved in the call are served from the same central office, even if the other party does not subscribe to a CLASS feature.
 - When both the CLASS customer and the other party involved in the call are served from different central offices which are linked by facilities that can handle the delivery of the calling number, even if the other party does not subscribe to CLASS.
6. Customer Originated Trace will be billed the activation charge shown in the Rates and Charges section only when the attempt to trace and record the calling telephone number is successful. The results of a successful trace will only be provided to legal authorities with proper authorization. The Telephone Company will not be liable for damages if, for any reason, an attempt is not successful.
7. The liability of the Telephone Company is as specified in the General Rules and Regulations section of this tariff. In addition to the provisions of the General Exchange Tariff, the calling party and customer releases and holds the Company harmless from any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a calling number delivery of a telephone number which the calling party has requested to be omitted from the telephone directory or has requested not to be disclosed to any person.

GENERAL EXCHANGE TARIFFS

MO. PUBLIC SERVICE COMM.

A. GENERAL

1. Enhanced Business Service (EBS) is a service offering enhanced features on Business One Party Local Exchange Service. The service is limited to customers with a minimum of two access lines.

B. CONDITIONS

1. Enhanced Business Services is offered as follows:
 - a. EBS is offered to customers with 2 - 75 lines.
 - b. For customers with over 75 lines, EBS will be provided by contract on an individual case basis.
2. Customer premise equipment must be compatible with the services and equipment provided by the Company.
3. The minimum charge for Enhanced Business Services shall be one month.
4. Any combination of Enhanced Business Services features listed in paragraph C. may be added to access lines with an EBS group with the following exceptions:
 - a. Call Waiting and Busy Call Forward are mutually exclusive. Both services cannot be available on the same line.
 - b. Enhanced Business Services features can only be added in accordance with the availability identified for each feature.
 - c. Abbreviated Dialing Features have the following limitations:
 1. Long Speed Calling and Short Speed Calling are mutually exclusive for a given EBS line. Only one of the two services can be subscribed to.

KEY TELEPHONE SYSTEMS

GENERAL

Self-Contained Key Telephone Systems

Self-contained key telephone systems consist of one or more telephones equipped with keys or push buttons in the base or separately mounted keys or push buttons. The keys or push buttons provide at their associated telephones one or more of the service features in C. following.

Key Telephone-Common Equipment Systems

Key telephone-common equipment systems consist of (1) one or more telephones equipped with keys or push buttons in the base or separately mounted keys or push buttons plus (2) centralized common equipment including power supply, line equipment and control equipment for service features. The keys or push buttons, through operation of the common equipment, provide at their associated telephones one or more of the service features in C. following.

Service Features

PICKUP

By key or push-button operation, a telephone may be connected to any one of several lines terminated in the same key system.

HOLD

By key or push-button operation, a call on a central office or private branch exchange line may be held while a call is originated or answered on another line at the same telephone.

INTERCOMMUNICATION

By key or push-button operation, two or more telephones in the same key system may communicate over a separate talking path (intercom line).

CUTOFF

By key operation, additional telephones, bells and/or other equipment may be disconnected from a line at any time and for any period of time; the restoral to normal is by key operation.

EXCLUSION

By key, push-button or automatic operation, subordinate telephones connected to a line are excluded during any period that a principle telephone uses the line; the restoral to normal is automatic when the principle telephone relinquishes use of the line.

By key, push-button or automatic operation, audible and/or visual signals may be provided in connection with the above service features.

REGULATIONS

Key telephone systems are regularly available only in connection with common battery (manual or dial), individual line and private branch exchange service.

NOTE: Key telephone equipment for the cutoff of a bell or extension telephone may be furnished in connection with party line service subject to bell limitations on the service.

2. Long Speed Calling and Group Speed Calling or Convenience Calling are mutually exclusive for a given EBS line. Only one of these services can be subscribed to. However, Group Speed Calling or Convenience Calling and Short Speed Calling can be subscribed to simultaneously.

C. DESCRIPTION OF SERVICE FEATURES

1. Basic Features

- a. Direct Inward Dialing - Calls to individual EBS lines may be dialed directly to the line from an outside line.
- b. Direct Outward Dialing:
 1. Less than 7 lines - Calls to outside lines may be dialed using the standard calling sequence.
 2. 7 or more lines - Calls to outside lines may be dialed by dialing 9 and the standard calling sequence.
- c. Station to Station Dialing - This Feature allows an EBS subscriber to complete a call to other lines within the same EBS group by dialing the last one to four digits of the line number. The EBS customer selects the number of digits to be dialed.

2. Add-on Features

- a. Busy Transfer - Allows calls routed to a busy station to be rerouted automatically to another station within the group.

KEY TELEPHONE SYSTEMS

REGULATIONS (Contd)

MISSOURI

Public Service Commission

Except as specifically provided, all telephones connected to a key telephone system will ordinarily be located on the same premises or in the same building. Telephones not on the same premises nor in the same building may be furnished subject to the condition that if additional equipment and facilities are required for satisfactory operation, the subscriber will be required to pay additional charges for such additional equipment and facilities based upon the costs incurred. The Telephone Company does not obligate itself to provide a telephone associated with a key telephone system at an off-premises location where impairment of the service furnished to the general public is involved.

Sufficient individual telephone bells, required for satisfactory operation of key telephone systems, are furnished without additional charge. Additional bells are furnished at the charges specified in the "Miscellaneous Service and Equipment" section of this Tariff.

The Telephone Company reserves the right to limit the number of telephones furnished in connection with a key telephone system when, in its opinion, this is necessary to prevent impairment of the service.

The power wiring, power outlets and commercial power, where required for operating a key telephone system and signaling equipment, will be furnished by the subscriber who assumes all responsibility for the safe condition of such wiring, outlets and power.

The rates quoted in III. below contemplate the use of standard equipment. Where, in the opinion of the Telephone Company, messages cannot be satisfactorily transmitted from or to any one station by using standard equipment and it is feasible to overcome the transmission difficulties by using special equipment, facilities or arrangements, or when a subscriber desires arrangements or features other than those regularly available, the service will be provided at additional and/or charges based upon the circumstances in each case.

RATES AND CHARGES

The following monthly rates are in addition to the regular monthly rates for station classes of service (main station, extension station or private branch exchange station) with which the key telephone system is associated.

C. DESCRIPTION OF SERVICE FEATURES (Continued)

- b. Call Forwarding - When activated, all incoming calls to the line are forwarded to another preselected line.
- c. Call Hold - This feature allows an EBS subscriber to place an established call on hold freeing the subscriber's line to originate another call, use call pickup, retrieve a waiting call, or return to a previously held call.
- d. Call Pickup - Allows the EBS subscriber to answer any ringing phone within the group by dialing a code.
- e. Call Transfer - Allows a subscriber to transfer a call to another line either within or outside the EBS customer group.
- f. Call Waiting - Alerts a subscriber who is using his EBS line that another call is waiting. Audible ringback is returned to the calling party instead of a busy tone. This feature also allows the subscriber to dial a code before placing a call to cancel Call Waiting for the duration of that call. Once the call has been terminated the Call Waiting feature is automatically reactivated.
- g. Directory Number Hunt - Permits incoming calls to be switched to an idle line based upon a predesignated hunting sequence.
- h. Distinctive Ringing - Provides the subscriber with different ringing patterns for calls originating inside or outside the EBS customer group. In addition a different signal is provided on Call Waiting, if the customer subscribes, for calls originating inside or outside the EBS customer group.

C. DESCRIPTION OF SERVICE FEATURES (Continued)

MO. PUBLIC SERVICE COM.

i. Don't Answer Transfer - Automatically transfers terminating calls encountering no answer to a predesignated line within the group if the call is not answered within a preselected number (two to ten) of ring cycles.

j. Intercom - Allows the subscriber to dial other lines in the EBS group by dialing the pound sign (#) and a single digit.

k. Restricted Station Options - Allows the EBS subscriber to predesignate limitations on incoming and outgoing calls to/from an EBS line. Incoming calls may be restricted to calls from the EBS group. Each EBS line may have two different levels of outgoing restrictions. Outgoing restrictions might include EBS group only, local calling only, intraLATA calling only, or interLATA calling only, for example. Limitations may apply and specific restrictions desired must be discussed with the Telephone Company. Each requested restricted is counted as a separate basic feature.

l. Three Way Conference Calling - This feature allows an EBS subscriber to form a three-way conference call with two other parties, located either within or outside the EBS group.

3. Abbreviated Dialing Features

a. Convenience Dialing - This feature allows an EBS-I group to use a Convenience Dialing List which associated each of 30 frequently called numbers (up to 15 digits each) with a two digit code. These numbers can be dialed by dialing an asterisk (*) and the two digit code.

C. DESCRIPTION OF SERVICE FEATURES (Continued)

MO. PUBLIC SERVICE COMM.

- b. Group Speed Calling - This feature allows the EBS-II customer to assign the access lines in his total group to up to 20 speed calling groups. Each user within a group can then use the Group Speed Calling List for that group which associates each of 30 frequently called numbers (up to 15 digits each) with a two digit code. The frequently called numbers can be dialed by dialing an asterisk (*) and the two digit code.
- c. Short Speed Calling - This feature allows any individual line of an EBS customer to establish a speed calling list of eight frequently used numbers (up to 15 digits each) with a single digit index code. The subscriber can then dial these frequently called numbers by dialing an access code (usually *74) and the index code.
- d. Long Speed Calling - This feature allows any individual line of an EBS customer to establish a speed calling list of thirty frequently used numbers (up to 15 digits each) with a two digit index code. The subscriber can then dial these frequently called numbers by dialing an access code (usually *74) and the index code.
- e. See paragraph B(5)c above for restrictions related to Abbreviated Dialing Features.

D. RATES

1. In addition to the EBS Station rates as specified in this section, rates for Business One-Party Local Exchange Service apply in accordance with the following table:

OPERATOR SERVICES

Intrastate IntraLata Operator Service (Cont'd)

REC'D OCT 05 1999

B. Terms and Conditions (Cont'd)

I. Cont'd

- h. Upon request, Company will transfer calls to other authorized interexchange Companies if billing can list the caller's actual origination point.
 - i. Company will refuse operator services to traffic aggregators, which block access to other Companies.
 - j. Company will assure that traffic aggregators will post and display information including: (1) that Company is the operator service provider; (2) detailed complaint procedures; and (3) instructions informing the caller on procedures to reach other authorized interexchange Companies.
3. Intrastate IntraLata 0- toll rates are based on per minute of use without regard to time of day, day of the week or distance.

C. Rates and Charges

1. Surcharges:	Fully <u>Automated</u>	Semi- <u>Automated</u>	Non- <u>Automated</u>
a. Station Sent Paid	N/A	\$ 1.25	\$ 3.30
b. Station Calling Card	\$ 0.50	\$ 0.50	\$ 0.50
c. Station Collect	\$ 1.25	\$ 1.25	\$ 1.25
d. Station Billed to Third Party	\$ 1.25	\$ 1.25	\$ 1.25
e. Person to Person	N/A	\$ 1.25	\$ 5.50

2. Intrastate IntraLata 0- Toll Rates:

- a. Initial rate, per minute \$ 0.50
- b. Additional rate, per minute \$ 0.50

900 CALL RESTRICTIONS

MO. PUBLIC SERVICE COMM.

A. Regulations

1. 900 Call Restriction is a central office service which allows customers to restrict certain types of outgoing calls from being placed over their exchange lines. 900 Call Restriction is activated when a dialed number is preceded by a 900 prefix. Restricted calls are directed to a central office announcement. A customer shall not be charged for the initial subscription to information service access blocking. After this service has been established, subsequent unblocking and/or reblocking will be subject to all applicable service connection charges.
2. 900 Call Restriction is provided in conjunction with residence and business single party flat rate services, including Enhanced Business Services (EBS). 900 Call Restriction is furnished only from central offices equipped to provide this service and where facilities permit.
3. The minimum contract period for this service is one (1) month.

B. Rates and Charges

1. Service Connection Charges as set forth elsewhere in this tariff will apply (in addition to the established rates and charges for the services with which this service is associated) to each subsequent unblocking and/or reblocking requested by the customer.

SERVICE CONNECTION CHARGES

MO. PUBLIC SERVICE COMM.

A. General

1. The term "Service Connection Charge" is used to define the non-refundable charge or charges made for the establishment of a class of telephone service or subsequent additions or changes to that service.
2. Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.
3. Service Connection Charges may be payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing customers and in the case of any service for Departments, Administrations, and Agencies of the Federal, State, County, Township, or Municipal Governments.
4. The charges specified herein do not contemplate work being performed by Company employees at a time when overtime wages apply due to the request of the customer nor do they contemplate work begun interrupted by the customer. If the customer requests overtime labor being performed or interrupts work once begun, a charge in addition to the specified charges will be made equal to the additional cost involved. Any special work performed at the request for the customer, such as concealed wiring, will be charged for on the basis of labor cost and overhead incurred.

D. CONDITIONS UNDER WHICH NO SERVICE CONNECTION CHARGES APPLY

1. "Public paystations" established for the use of the general public (not including paystations classified as semi-public, nor extension stations furnished in connection with public paystations).
2. To move or change customer's telephone service if required or initiated by the Telephone Company.
3. Disconnection of service for nonpayment of charges due.
4. Employee's Telephone Service
5. Service changed from a residence to a business classification without change in the identity of the customer, except when the original classification is known to have been erroneously established.
6. A complete or partial termination of service.
7. The "From" portion of work involved in a transfer of service from one to another premise.
8. Service reestablished after destruction of the customer's premises by Act of God or a public enemy, whether at the same or another location. Regular service connection charges apply, however, to service reestablished in the original location after termination of service or subsequent to its establishment at another location under the above circumstances.

E. Applicability of Link Up Missouri Service Connection Program

MO. PUBLIC SERVICE COMMISSION

1. The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.
 - a. Service Connection Charges, as set forth in this tariff¹, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent or \$30.00, whichever is less. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence. +
 - b. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period. *
 - c. A qualifying low-income customer may choose either a or b, or both a and b as described above.
 - d. Link Up assistance is available for a second or subsequent time only for a principal place of residence with an address different from the residence address where assistance was previously provided.
 - e. The premises at which the residence service is requested must be the applicant's principal place of residence.
 - f. There is only one telephone line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.
 - g. Link Up will not be furnished on a Foreign Exchange service.

¹These do not include other charges that may be required at the initiation of service such as security deposit, contributions in and of construction, customer advances, etc.

E. Applicability of Link Up Missouri Service Connection Program

1. The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.

- a. Service Connection Charges, as set forth in this tariff¹, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, not to exceed \$30.00. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence.

2. Eligibility Requirements

The following requirements shall be used by the company to determine the eligibility of a subscriber for Link Up Missouri assistance.

- a. Subscribers must have lived at an address where there has been no telephone service for at least three months prior to the date that assistance is requested.
- b. Eligible subscribers must not have received this assistance within the last two years.
- c. Subscribers must not be a dependent for federal income tax purposes, unless the subscriber is more than 60 years of age.
- d. Subscriber is currently receiving MEDICAID/medical assistance payments from the State of Missouri, and has provided their Department of Social Services Client Number (DCN) to the Company.

Of the eligibility requirements listed above, items a., b., and c., will be certified by the subscriber, and item d. will be State certified by the Department of Social Services.

Missouri School Discount Program

MO. PUBLIC SERVICE COMM

- A. A discount from standard monthly rates for local exchange service may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
- B. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph 3, following.
- C. An educational institution shall be defined as an accredited public or private school in the state of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federation of non-Public Schools Accrediting Association, Independent Schools Association of The Central States, North Central Association of Colleges and Schools, and/or the University of Missouri - Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
- D. The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
- E. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
- F. In addition to meeting the qualification specified in Paragraph 3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
- G. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.
- H. The following local exchange services are eligible for a discount under this program:
 - Flat Rate, business one-party service

Discounts for Schools and Libraries Participating in the Federal Universal Service Program

- A. Discounts on the intrastate services offered through this tariff will be available to eligible schools and libraries. A school or library will be eligible to participate in the discount program if it receives funds from the Federal Universal Service Fund.
- B. The level of discount available will mirror the discount percentage level available to the school or library through the Federal Universal Service Fund program. The discount will be applied against the intrastate service rate otherwise applicable under this tariff. The discount only applies to the extent funds are available to the eligible school or library, through the Federal Universal Service Fund.

GENERAL RULES AND REGULATIONS	
RECEIVED JAN 25 1971 MISSOURI	
GENERAL REGULATIONS	
A. APPLICATION	
The rules and regulations specified herein are in addition to those contained in the Local Exchange Service Tariffs, the General Exchange Service Tariffs and the Message Toll Telephone Service Tariffs. They apply to the intrastate services and facilities furnished in Missouri by the Granby Telephone Company, hereinafter referred to as the Telephone Company, or Company. Failure on the part of the subscribers to observe these rules and regulations of the Telephone Company, after due notice of such failure, automatically gives the Telephone Company the privilege to cancel the contract and discontinue the furnishing of service. In the event of a conflict between any rate, rule, regulations or provision contained in these General Rules and Regulations and any rate, rule, regulation or provision contained in the Local Exchange Service Tariffs, the General Exchange Service Tariffs or the Message Toll Telephone Service Tariffs, the rate, rule, regulation or provision contained in the specific Tariffs shall prevail. These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective dates of this Tariff.	
B. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY	
1. Availability of Facilities	
The Telephone Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary pole lines, circuits and equipment.	
2. Interruptions of Service	
If service is interrupted for more than 36 hours other than by the negligence or wilful act of the subscriber, an allowance at the minimum rate for the telephone facilities and class of service. *Indicates new rate or text +Indicates change

Spring

2. Interruptions of Service (Contd)

vice affected at the time of the interruption shall be made for the time such interruption continues, after notice and demand to the Company. No other liability shall in any case attach to the Company.

3. Directory Errors and Omissions

- a. The Telephone Company's liability for damages on account of interruptions to service due to errors or omissions in directory listings will be limited to a pro-rate abatement of the charge for such of the subscriber's service as is affected, the maximum abatement not to exceed one-half the service charges for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listing.
- b. In the cases of extra listings in the alphabetical section of the directory for which a charge is made, the Telephone Company's liability shall be limited to an amount not to exceed the established rate for such listing during the period which the error or omission continues.

4. Use of Connecting Company Lines

When suitable arrangements can be made, lines of other telephone companies may be used in establishing wire connections to points not reached by this Company's lines. In establishing connections with the lines of other companies, the Telephone Company is not responsible or liable for any action of the Connecting Company.

5. Defacement of Premises

The Telephone Company shall exercise due care in connection with all work done on subscriber's premises. No liability shall attach to the Telephone Company by reason of any defacement or damage

5. Defacement of Premises (Cont'd)

to the subscriber's premises resulting from the existence of the Telephone Company's facilities on such premises, or by the installation or removal thereof, unless such defacement or damage is the result of the sole negligence of the Telephone Company.

6. Liability of the Company

- a. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service and not caused by negligence of the customer shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in transmission occur in excess of 48 hours after notification has been made.
- b. The customer indemnifies and saves the Company harmless against the following:

Acts or omissions of other companies when their facilities are used in connection with the Company's facilities to provide service.

Any defacement or damage to the customer's premises, resulting from the existence of the Company's facilities for example, demarcation point and drop on such premises, or from the installation or removal thereof, when such defacement or damage is not the result of the negligence of the Company or its employees.

Any accident, injury or death occasioned by its equipment or facilities when such is not due to negligence of the Company.

Claims for libel, slander or infringement of copyright arising from the material transmitted or recorded over its facilities; claims for infringement of patents arising from combining with, or using in connection with, facilities of the Company, apparatus and systems of the customer; and all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.

Liability for failure to provide service.

Liability for telephone directories except as outlined above.

C. USE OF SERVICE AND FACILITIES

1. Ownership and Use of Facilities

Lines furnished by the Telephone Company on the premises of a subscriber are the property of the Telephone Company, whose agents and employees shall have the right to enter said premises at any reasonable hours for the purpose of installing, inspecting, maintaining or repairing the lines, or for the purpose of making collections from coin boxes or upon termination of the service, for the purpose of removing such lines. Such equipment, instruments and lines are not to be used for performing any part of the work of transmitting, delivering or collecting any message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

If the installation and maintenance of service are requested at locations which are or may become hazardous or dangerous to the Telephone Company's employees or to the public or to property, the Telephone Company may refuse to install and maintain such service, and, if such service is furnished, may require the subscriber to install and maintain such service and may also require the subscriber to indemnify and hold the Telephone Company harmless from any claims, loss or damage by reason of the installation and maintenance of such service.

GENERAL RULES AND REGULATIONS

MISSOURI PUBLIC
SERVICE COMMISSION

B. GENERAL REGULATIONS

REC'D NOV 30 1999

6. Liability of the Company

b. (Cont'd)

The Telephone Company will make reasonable efforts to cure any material failure to provide service caused solely by year 2000 defects in Telephone Company hardware, software or systems. Due to the interdependence among telecommunications providers and the interrelationship with non-Telephone Company processes, equipment and systems, the Telephone Company is not responsible for failures caused by circumstances beyond its control including, but not limited to, failures caused by: (1) the Customer; (2) other telecommunications companies as defined by Missouri statute; or (3) customer premises equipment. In addition, the Telephone Company does not ensure compatibility between Telephone Company and non-Telephone Company services used by the customer.

(N)

The Telephone Company will not be liable for any consequential, incidental or indirect damages for any cause of action, whether in contract or tort. Consequential, incidental and indirect damages include, but are not limited to lost projects, lost revenues and loss of business opportunity, whether or not the Telephone company was aware or should have been aware of the possibility of these damages.

(N)

C. USE OF SERVICE AND FACILITIES

(M)

1. Ownership and Use of Facilities

Lines furnished by the Telephone Company on the premises of a subscriber are the property of the Telephone Company, whose agents and employees shall have the right to enter said premises at any reasonable hours for the purpose of installing, inspecting, maintaining or repairing the lines, or for the purpose of making collections from coin boxes or upon termination of the service, for the purpose of removing such lines. Such equipment, instruments and lines are not to be used for performing any part of the work of transmitting, delivering or collecting any message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

If the installation and maintenance of service are requested at locations which are or may become hazardous or dangerous to the Telephone Company's employees or to the public or to property, the Telephone Company may refuse to install and maintain such service, and if such service is furnished, may require the subscriber to install and maintain such service and may also require the subscriber to indemnify and hold the Telephone Company harmless from any claims, loss or damage by reason of the installation and maintenance of such service.

MISSOURI
Public Service Commission

The Telephone Company shall not be required to attach its equipment or lines to wiring not owned and installed by it, nor shall equipment, apparatus, circuits, or devices not furnished by the Telephone Company be attached to or connected with facilities furnished by the Telephone Company, whether physically, by induction or otherwise, unless provided for elsewhere in the tariffs. In case any such unauthorized attachment or connection is made, the Telephone Company shall have the right to disconnect the same or to suspend the service during the continuance of said attachment or connection or to terminate the service.

3. Use of Subscriber Service

Subscriber telephone service, as distinguished from public and semi-public telephone service, is furnished only for use by the subscriber, his family, employees or business associates or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of payphone character when the service is so located that the public in general or patrons of the subscriber may make use of the service. At such locations, however, service may be installed, provided the service is so located that it is not accessible for public use.

D. ESTABLISHMENT AND FURNISHING OF SERVICE

1. Application for Service

A. Applications for service must be made on the Telephone Company's standard form of application. These applications become contracts when accepted in writing by the Telephone Company, or upon the establishment of service. Applicants for service are required to pay in advance at the time application is made, all charges accruing for the first billing period for exchange service, and the service connection charge if applicable. The terms and conditions specified in such contracts are subject to these General Rules and Regulations, the General Exchange Service Tariffs and the Local Exchange Service Tariffs for the particular exchange from which service is to be furnished. Any change in rates, rules or regulations shall act as a modification of the contract to that extent, without further notice.

B. Requests from subscribers for additional service may be made verbally, if the original contract provides for such additional service as may be ordered, and no advance payment will be required. A move from one location to another (Outside Move) within the same Exchange Area is not considered to terminate the contract and orders for such moves may be made verbally.

is not occasioned by the negligence of the subscriber. Subscribers may not rearrange, disconnect or remove any apparatus or wiring installed by the Telephone Company, except upon the written consent of the Telephone Company.

6. Unusual Installation Costs

Where special conditions or special requirements of the subscriber involve unusual construction or installation costs, the subscriber may be required to pay a reasonable proportion of such costs.

7. Furnishing Party Line Service

- a. Four-party service within the established local Base Rate Area when offered is furnished at any location where there is a vacancy on an existing line or when there is no vacancy a new line will be opened up when there is, in the opinion of the Telephone Company, an opportunity to connect additional subscribers in nearby locations to that line within a reasonable time.
- b. Four-party service beyond the established local Base Rate area, when offered, will be furnished only when, in the opinion of the Telephone Company there is sufficient demand for such service to assure a reasonable fill of the lines and where such demand is concentrated within a reasonable area.
- c. Two-party service is also furnished at certain exchanges and in those exchanges the same Rules and Regulations apply as set out for four-party service.

GENERAL REGULATIONS (Contd.)

E. TELEPHONE DIRECTORIES

JAN 25 1971

1. Distribution

The Telephone Company will furnish to its subscribers, without charge, only such directories as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.

2. Ownership and Use

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. Subscribers must not deface or mutilate directories. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories destroyed, defaced, or mutilated while in possession of the subscriber. no binder, holder, or auxiliary cover, except such as may be provided by or with the consent of the Telephone Company, shall be used on or in connection with any directory furnished by The Telephone Company.

F. CONNECTION WITH CUSTOMER-OWNED VOICE RECORDING EQUIPMENT

Customer-owned voice recording equipment for the recording of telephone conversations may be used in connection with the facilities of the Telephone Company subject to the following conditions:

1. Connection with Telephone Company Facilities

- a. Connection of customer-owned voice recording equipment with the facilities of the Telephone Company shall be made only through recorder connector equipment which contains a device automatically producing a distinctive recorder tone conforming to standards prescribed by the Federal Communications Commission, except in the following:

GENERAL REGULATIONS (Cont'd)

F. CONNECTION WITH CUSTOMER-OWNED VOICE RECORDING EQUIPMENT (Cont'd)

- (1) In the case of a private line service which has no connection with the exchange or toll system of the Telephone Company recorder connector equipment which does not contain the automatic tone device may be used at the option of the customer.
- (2) In the case of a municipal fire department which has central office lines used exclusively for the receipt of fire calls and attended at all times for such purpose, recorder connector equipment without the automatic tone device may be furnished for use with such lines provided that the Fire Department certifies that these conditions will be observed.
- b. Permanent connection shall be made only through recorder connector equipment furnished, installed, and maintained by the Telephone Company.
- c. Temporary connection for a period not to exceed thirty days may be made for trial or demonstration purposes through portable recorder connector equipment furnished by a recorder manufacturer or his agent, provided such equipment is obtained from and is maintained by the Telephone Company and is connected with the Telephone line through jacks installed on the line by the Telephone Company for that purpose.
- d. The customer-owned voice recording equipment shall be so arranged that at the will of the user it can be physically connected to and disconnected from the facilities on the Telephone Company or switched on and off.

GENERAL REGULATIONS (Contd)

F. CONNECTION WITH CUSTOMER-OWNED VOICE RECORDING EQUIPMENT--(Contd)

2. Responsibility of the Telephone Company

Telephone service furnished by the Telephone Company is not represented as adapted to the recording of the telephone conversations by means of voice recording equipment. The use of customer-owned voice recording equipment in connection with the facilities of the Telephone Company is permitted with the condition that the liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission or failures or defects in the recorder connector equipment occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer or of the Telephone Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omission, interruptions, delays, or error or defects in transmission, or failures or defects in the recorder connector equipment occurs.

3. Obligation of the Customer

- a. The operating characteristics of the customer-owned voice recording equipment shall be such as not to interfere with any of the services offered by the Telephone Company. Upon notice from the Telephone Company that the equipment of the customer is causing or is likely to cause hazard or interference, the customer shall make such changes as may be necessary to remove or prevent such hazard or interference.
- b. The Customer indemnifies and saves the Telephone Company harmless against claim for libel, slander or infringement of copy-right arising from the improper use of material transmitted over its facilities and recorded; against claims for infringement of patents arising from combining with, or using in connection with, facilities of the telephone company, apparatus or systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the telephone company.

APPLICATION OF BUSINESS AND RESIDENCE RATES JAN 25 1971

A. BUSINESS RATES APPLY AT THE FOLLOWING LOCATIONS:

1. In offices, stores, factories, and all other places of a strictly business nature.
2. In boarding houses, except as noted under B-2, offices of hotels, halls, and offices of apartment buildings, quarters occupied by clubs, or lodges, public, private, or parochial schools or colleges, hospitals, libraries, churches and other similar institutions.
3. At residence locations when the subscriber has no regular business telephone and the use of the service either by himself, members of his household, or his guests, or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising matter, such as on vehicles, etc., or when such business use is not such as commonly arises and passes over to residence telephone during the intervals when, in compliance with the law or established custom, business places are ordinarily closed.
4. Where the place of business and the residence of a subscriber are on the same premises and no telephone installed in the place of business, the business rate shall be charged for the telephone installed in the residence.
5. At residence locations, when an extension station or extension bell is located in a shop, office, or other place of business.
6. In college fraternity and sorority houses.
7. At any location where the listing of service at that location indicates a business, trade or profession, except as specified under B-3 below.

ESTABLISHMENT AND MAINTENANCE OF CREDIT

A. ESTABLISHMENT AND FURNISHING OF SERVICE - RESIDENTIAL

1. Deposits and Guarantees of Payment for Residential Customers

- a. The Company may require a deposit or guarantee prior to providing new service or as a condition of continued service. The Company may require a deposit or guarantee as a condition of continued service if:
 1. The customer has delinquent charges in two (2) out of the last twelve (12) billing periods; or
 2. The customer has had service disconnected for nonpayment of a delinquent charge or failed to post a required deposit or guarantee.
- b. In lieu of a deposit, Company may accept a written guarantee. The guarantee shall not exceed the amount of a cash deposit that the Company could request under this section.
- c. No deposit, guarantee, additional deposit nor additional guarantee will be required by the Company because of race, sex, creed, national origin, marital status, age, number of dependents, source of income, disability or geographical area of residence.
- d. Terms of Deposits:
 1. Deposits shall not exceed the estimated charges for two (2) months' service based on the average bill during the preceding twelve (12) months, or, in the case of new applicants for service, the average monthly bill for new subscribers within a customer class.
 2. The deposit shall bear simple interest at a rate which is equal to three percent (3%) per annum. The interest shall be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer.

GENERAL RULES AND REGULATIONS

ESTABLISHMENT AND MAINTENANCE OF CREDIT

JAN 25 1971

A. ESTABLISHMENT OF CREDIT

1. The Telephone Company is not obligated to furnish service to any individual or firm that owes for service previously rendered at the same or a different address, until arrangements have been made to liquidate such previous indebtedness to the Company. In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:
- a. By furnishing references acceptable to the Telephone Company.
 - b. By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
 - c. By means of a cash deposit.

CANCELLED

JUL 9 - 1978

B. AMOUNT OF DEPOSITS

BY 151-RS 14

The amount of the deposit required for the purpose of ~~prepaying~~ ^{prepaying} exchange a subscriber's credit shall not exceed his estimated bill for exchange service and toll charges for one normal billing period plus thirty days. The Telephone Company may require the subscriber to increase the amount of the deposit at any time, if in its opinion, the charges billed against the subscriber are found to warrant such an increase.

C. DEPOSIT NOT TO AFFECT REGULAR COLLECTION PRACTICES

The fact that a deposit has been made shall in no way relieve the applicant or subscriber from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation, nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the discontinuance of service for non-payment of any sums due the Telephone Company for service rendered. The Telephone Company may discontinue service to any subscriber failing to pay current bills without regard to the fact that such subscriber has made a deposit with the Company to secure payment of such bills or has furnished with the Company a guarantee in writing of such bills.

ESTABLISHMENT AND MAINTENANCE OF CREDIT

MISSOURI
Public Service Commission

A. ESTABLISHMENT AND FURNISHING OF SERVICE - RESIDENTIAL

1. Deposits (Contd)

g. The fact that a deposit has been made shall in no way relieve the customer from his responsibility to pay undisputed charges prior to their becoming delinquent nor constitute a waiver or modification of the provisions set forth in this Tariff providing for the temporary suspension of service or the termination of the service for nonpayment of undisputed, delinquent charges.

h. Upon termination of the service, the amount of the deposit with accrued interest, shall be applied in payment of any unpaid charges for exchange or long distance service and the balance, if any, shall be returned to the customer within twenty-one days of the rendition of the final bill.

i. Upon satisfactory payment of all undisputed charges during the last twelve billing periods, the deposit will, with accrued interest, be promptly refunded or credited against charges stated on subsequent bills. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute. The Company may withhold refund of a deposit pending the resolution of a dispute with respect to charges secured by such deposit.

j. Each customer posting a deposit will receive a receipt in writing at that time or within ten days.

k. The Company will provide means whereby a person entitled to a refund of a deposit is not deprived of the refund even though he may be unable to produce the receipt for the deposit provided he can produce identification to ensure that he is the person entitled to the refund.

l. The Company will permit a customer, concurrent with the beginning of service, to post a deposit in two equal monthly installments or as otherwise agreed upon.

2. Billing and Payment

- a. The Company will during the first billing period in which a customer receives service provide the customer with an itemized account of charges for service for which he has contracted. The Company will render a separate bill for concurrent residence service unless otherwise requested by the customer.
- b. The Company will after the initial bill for new service render a bill during each billing period for monthly recurring charges in advance and toll charges in arrears. Special billing arrangements may be established for service provided to governmental agencies.
- c. The Company will render bills on a cyclical basis whereby the customer receives his bill on or about the same day of each month. Billing cycles may be altered by sending an insert or other written notice explaining the alteration not less than 30 days prior to the effective date of the alteration. This notification is not required when a customer requests a number change or when the customer disconnects and reconnects service or transfers service from one premises to another, which may affect the customer's billing cycle.

GENERAL RULES AND REGULATIONS

Missouri Public
Service Commission

REC'D DEC 21 2000

ESTABLISHMENT AND MAINTENANCE OF CREDIT

A. ESTABLISHMENT AND FURNISHING OF SERVICE - RESIDENTIAL (Cont'd)

3. Disputes by Residential Customers (Cont'd)

- d. If a customer disputes a charge, the customer shall pay an amount to the Company equal to that part of the total bill not in dispute. The parties shall consider the customer's prior usage, the nature of the dispute and any other pertinent factors in determining the amount not in dispute. The Company shall not discontinue service for nonpayment of charges in dispute while the dispute is pending.
- e. If the parties are unable to determine the amount not in dispute, the customer shall pay to the Company, at the Company's option, an amount not to exceed fifty (50) percent of the charge in dispute or an amount based on usage during a like period under similar conditions which shall represent the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.
- f. Failure of the customer to pay to the Company the amount not in dispute within four (4) working days from the date the dispute is registered or by the delinquent date of the disputed bill, whichever is later, shall constitute a waiver of the customer's right to continuance of service and the Company may then proceed to discontinue service as provided in this tariff.
- g. If the dispute is ultimately resolved in favor of the customer in whole or in part, the Company must promptly repay any excess moneys paid by the customer.
- h. If the dispute cannot be resolved to the satisfaction of the customer, the Company shall notify the customer of its right to make an informal complaint to the Commission, and of the address and telephone number where the customer may file an informal complaint with the Commission.
- i. After resolution of the customer complaint, the Company may treat a second complaint based on the same facts as already determined.

If, in the judgment of the Telephone Company, ~~un~~ of financial loss exists, service may be suspended after forty-eight hours' written notice has been furnished to the customer.

f. Any balance of the amount deposited and credited to the customer's account is returned to the customer ~~at the~~ termination of the contract, or it may be returned at any time previous thereto at the option of the Telephone Company when it is deemed that the customer has established satisfactory credit.

g. Upon termination of the service, the amount of the deposit with accrued interest, shall be applied in payment of any unpaid charges for exchange or long distance service and the balance, if any, shall be returned to the customer within twenty-one days of the rendition of the final bill.

h. Each customer posting a deposit will receive a receipt in writing at that time or within ten days.

i. The Company will provide means whereby a person entitled to a refund of a deposit is not deprived of the refund even though he may be unable to produce the receipt for the deposit provided he can produce identification to ensure that he is the person entitled to the refund.

j. A restoral of service charge will be charged when service has been discontinued for failure to establish credit as authorized above.

ESTABLISHMENT AND MAINTENANCE OF CREDIT MISSOURI Public Service Commission

B. ESTABLISHMENT AND FURNISHING OF SERVICE - BUSINESS (Contd)

2. Billing and Payment

- a. The Company will during the first billing period in which a customer receives service provide the customer with an itemized account of charges service for which he has contracted. The Company will render a separate bill for concurrent business service unless otherwise requested by the customer.
- b. The Company will after the initial bill for new service render a bill during each billing period for monthly recurring charges in advance and toll charges in arrears. Special billing arrangements may be established for service provided to governmental agencies.
- c. The Company will render bills on a cyclical basis whereby the customer receives his bill on or about the same day of each month. Billing cycles may be altered by sending an insert or other written notice explaining the alteration not less than 30 days prior to the effective date of the alteration. This notification is not required when a customer requests a number change or when the customer disconnects and reconnects service or transfers service from one premises to another, which may affect the customer's billing cycle.
- d. The customer is responsible for all charges in conjunction with the service furnished him including collect toll messages which have been accepted at the customer's telephone.
- e. Bills are due as specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments.

DEC 1 1987

INITIAL CONTRACT PERIODS AND TERMINATION OF SERVICE

MISSOURI
Public Service Commission

A. INITIAL CONTRACT PERIODS

1. Unless otherwise specified herein or elsewhere in the Telephone Company's Tariffs, the initial (or minimum) contract period is one month from the date service is established and the minimum charge is the established rate for one month.
2. The length of contract period for directory listings, and for joint user service, where the listings actually appear in the directory, is the directory period. The directory period is from the day on which the directory is first distributed to the subscribers to the day the succeeding directory is first distributed to subscribers.
3. The initial contract period for Private Branch Exchange systems shall be as specified in the General Exchange Service Tariffs under the sub-heading "Private Branch Exchange Service".
4. The Telephone Company may require a contract period longer than one month at the same location in connection with special (non-standard) types or arrangements of facilities or for unusual construction, necessary to meet special demands, and involving extra costs.

B. TERMINATION OF SERVICE

1. Service may be terminated prior to the expiration of the initial contract period upon notice being given to the Telephone Company, and upon payment of the termination charges given below, in addition to all charges due for service which has been furnished.
 - a. In case of service for which the initial contract period is one month, the charges due for the balance of the initial month.
 - b. In the case of directory listings and joint-user service where the listing has appeared in the directory, the charges due to the end of the directory period, except that in the following cases charges will be continued only to the date of terminations of the extra listing or joint-user service, subject, however, to a minimum charge of one month.

Subsequent to the completion of an order to terminate the service, it may at the option of the Telephone Company be re-established only on the basis of a new application.
5. In the event of a failure by the subscriber or those responsible to pay any regular bill on or before the twenty-first (21st) on the month in which rendered, the Telephone Company may assess an eighty-seven cent (.87) late payment charge. In the event that a partial payment is made on the current bill, the late payment charge is added to the balance.

GENERAL RULES AND REGULATIONS

Missouri Public
Service Commission

REC'D DEC 21 2000

A. DISCONTINUANCE OF SERVICE

1. Service may be discontinued for any of the following reasons:
 - a. Non-payment of an undisputed delinquent charge for basic local telecommunications service.
 - b. Failure to post a required deposit or guarantee.
 - c. Unauthorized use of the Company's service in a manner which creates an unsafe condition or creates the possibility of damage or destruction to its facilities.
 - d. Failure to comply with the terms of a settlement agreement.
 - e. Refusal after reasonable notice to permit inspection, maintenance or replacement of Company's equipment.
 - f. Material misrepresentation of identity in obtaining Company's service.
2. A written notice shall be sent by first class mail ten (10) days prior to the date of the proposed discontinuance of service.
3. Service may be discontinued during normal business hours on or after the date specified in the notice of discontinuance. Basic local telecommunications service will not be discontinued on a day when the offices of the Company are not open to facilitate reconnection of basic local telecommunications service or on a day immediately preceding such day.
4. The Company will make reasonable efforts to contact the customer via telephone at least twenty-four (24) hours preceding a discontinuance of basic local telecommunications service. The Company will advise the customer of the proposed discontinuance and what action must be taken to avoid it.
5. Discontinuance of service will be postponed for a time not in excess of twenty-one (21) days if the telephone is necessary to obtain emergency medical assistance for a person who is a member of the household where the telephone service is provided and where such person is under the care of a physician. Any person who alleges such emergency shall, if requested, provide the Company with verifiable written evidence of such necessity.

DEC 1 1987

CONSTRUCTION, INSTALLATION AND MAINTENANCE CHARGES

MISSOURI

Public Service Commission

A. GENERAL

1. Construction charges will not apply to the customer's service installation which includes the aerial drop which extends from the last pole to the building in which the telephone is located.

B. SPECIAL TYPE OF CONSTRUCTION

When underground service connections are desired by customers as initial installation in places where aerial drop wires would ordinarily be used to reach the customer's premises, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

1. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition the customer shall pay the cost of the underground cable - including the cost of installing - less the estimated cost to the Telephone Company of installing such aerial facilities as would be (or are) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Telephone Company.
2. The duct or ducts required in the underground conduit by the Telephone Company to furnish service shall be reserved for its exclusive use.

CONSTRUCTION, INSTALLATION AND MAINTENANCE CHARGES

A. GENERAL

1. Construction charges will not apply to the customer's station installation which includes the aerial drop which extends from the last pole to the building in which the telephone is located.
2. Exposed wiring is the standard method of wiring in all buildings where no conduit or other means of concealment is provided. When concealed wiring is desired in buildings where no means of concealment is provided, the applicant may be charged the difference between the installation costs of the concealed wiring and the costs of the standard exposed wiring. However, if suitable interior conduit, grooving moulding, wainscoting, or other similar means of concealment are provided, either by the building owner or by the applicant, the wiring is installed therein by the Telephone Company without additional charge.

B. SPECIAL TYPE OF CONSTRUCTION

When underground service connections are desired by customers as initial installation in places where aerial drop wires would ordinarily be used to reach the customer's premises, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

1. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition the customer shall pay the cost of the underground cable - including the cost of installing - less the estimated cost to the Telephone Company of installing such aerial facilities as would be (or are) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Telephone Company.
2. The duct or ducts required in the underground conduit by the Telephone Company to furnish service shall be reserved for its exclusive use.

3. Where conductors are laid in a trench, the trench shall be constructed and backfilled by or at the expense of the customer. In addition, the customer shall pay the cost of the conductors - including the cost of installing such aerial facilities as would be (or is) required to furnish the same service.
4. Cable or wire installed in conduit will be maintained and replaced at the expense of the Telephone Company where the conduit has been inspected in place by the Telephone Company and approved, but repairs or replacements of cable or wire in conduit not so inspected and approved, or repairs or replacements of cable or wire in conduit or trench made necessary by damages caused by the customer or his representatives will be made only at the customer's expense.
5. Where facilities are changed from aerial to underground, in addition to the above the customer is charged the cost of dismantling and removing the aerial facilities.

C. POLES ON PRIVATE PROPERTY

1. Poles on Private Property to be used in serving an individual subscriber will be furnished by the Telephone Company at a charge to the subscriber of \$15.00 for each such pole, except that the Telephone Company will furnish as many as two poles without charge to the subscriber provided the poles thus furnished are used to carry main line circuits. Ownership and maintenance of such poles is vested in the Telephone Company.
2. Poles on private property to be used as a part of the standard distributing plan serving subscribers in general are furnished maintained, and owned by the Telephone Company subject to such construction charge as may be applicable.
3. Circuits on poles on private property are furnished, owned and maintained by the Telephone Company.

D. Line Extensions (Outside Base Rate Area)

1. Rural Lines will be extended in accordance with the provisions specified in the General Exchange Service Section under Rural Lines Service of this Tariff.

E. MAIN LINE EXTENSIONS FOR RURAL SERVICE

When it is necessary for the telephone company to extend its rural plant in order to provide telephone service to a new subscriber or subscribers, the telephone company may require the prospective subscriber or subscribers, each to make an advance payment of the local exchange rent for the class of service requested by the prospective subscriber, on the following basis:

<u>Length of new line extension</u>	<u>No. of Months</u>
a. Up to $\frac{1}{4}$ mile	3
b. Over $\frac{1}{4}$ and up to $\frac{1}{2}$ mile	6
c. Over $\frac{1}{2}$ and up to 1 mile	18
d. Excess over 1 mile	18 plus one additional month for each 1/10 or fraction thereof in excess of 1 mile.

The advance payment as required above is in addition to the regular service connection charge, if applicable. No portion of the advance payment will be refunded if telephone service is terminated.

Advance payments will be credited to the subscriber's account in the amount of the monthly local exchange rate, as service is rendered monthly, until the total advance payment has been refunded.

Where recircuiting is necessary in connection with a rural line extension, the telephone company will bear the expenses of this recircuiting when telephone company facilities only are involved.

GENERAL RULES AND REGULATIONS

MISSOURI

Public Service Commission

CONSTRUCTION, INSTALLATION AND MAINTENANCE

- 1.1 INSTALLATION OF TELEPHONE LINES WITHIN SUBDIVISION (1).
TELEPHONE LINES CONSTRUCTED, INSTALLED AND OWNED BY UTILITIES
IN SUBDIVISIONS SHALL BE INSTALLED UNDERGROUND.

- 1.1.1 The following definitions are used in this section of the
tariff:

APPLICANT: The developer, builder, or other person, partnership, association, firm, private or public corporation, trust, estate, political subdivision, governmental agency, or other legal entity recognized by law, applying for the construction of a telephone distribution system in a subdivision.

BUILDING: A single structure roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety both physically and in operation for single-family residential occupancy in a subdivision (Definition excludes mobile home).

SUBDIVISION: A lot, tract, or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per a recorded plot thereof if such recordation is required by law.

- 1.1.2 The Telephone Company upon receipt of the applicant's proper application will install an underground telephone system with suitable materials to assure that the applicant will receive reasonably safe and adequate telephone service. The provision of the underground telephone system will be provided at no charge except where a charge is permitted under Paragraphs 1.1.4 and 1.1.6 of this section of the Tariff. Temporary service is provided under Paragraph 1.1.5 of this section of the Tariff.

(1) This section is filed pursuant to and as required by the Commission General Order #55, ordered in Case 17519, effective January 23, 1973.

GENERAL RULES AND REGULATIONS		APR 2 1973
CONSTRUCTION, INSTALLATION AND MAINTENANCE CHARGES (Cont'd)		Missouri Public Service Commission
1.1.3 RIGHTS-OF-WAY AND EASEMENTS A. Within the applicant's subdivision, the Telephone Company will construct, own, operate, and maintain underground telephone lines only along public streets, roads, and highways which the Telephone Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Telephone Company may be obtained without cost or need for condemnation by the Telephone Company. B. Rights-of-way and easements, within the subdivision, satisfactory to the Telephone Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Telephone Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps, and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Telephone Company. Such clearance and grading must be maintained by the applicant during construction by the Telephone Company. 1.1.4 ADVANCE PAYMENTS A. Where, due to the manner in which a subdivision is developed, the Telephone Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Telephone Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced. If in the judgment of the Telephone Company an advance is required under the above described conditions, the Telephone Company has the right to refuse installation of the underground system until the required advance is paid to the Telephone Company. B. If an advance is required under these rules, then the advance, without interest, shall be returned to the

CHANNEL (See Circuit)

CIRCUIT

The term applied to a channel used or the transmission of electrical energy in the furnishing of telephone service.

CONNECTING COMPANY

A corporation, Association, partnership or individual owning or operating one or more exchanges and with whom traffic is interchanged.

CONTRACT

The term "Contract" refers to the service agreement between a customer and the Telephone Company under which service and facilities are furnished in accordance with the provisions of the Tariffs applicable.

CUSTOMER (See Subscriber)

DEMARCATIION POINT

The point of connection, provided and maintained by the telephone company, at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

EXCHANGE

A basic unit for the administration of communication service in a specified area, called the exchange area, which usually embraces a city, town, or village and its environs. It usually consists of one or more central offices together with the associated plan used in furnishing communication service and general public within that area.

GENERAL RULES AND REGULATIONS

DEFINITIONS (Cont'd)

PREMISES

The term "same premises" (except in connection with inside moves) shall be interpreted to mean:

- (1) All portions of the same building occupied by the same customer.
- (2) All of the buildings occupied by the same customer, provided that all of the buildings are located on the same plot of ground and are not intersected by a public thoroughfare.

NOTE: A public thoroughfare is considered to mean a vehicular thoroughfare which is governmentally owned.

PRIVATE BRANCH EXCHANGE

A "Private Branch Exchange", or Private Branch Exchange System, is an arrangement of equipment consisting of a switchboard with an operating telephone situated on a customer's premises, stations connected with the switchboard, and connected by trunks with a central office, providing for intercommunication between those stations, and for communication with the general exchange system of the Telephone Company and for toll service.

QUALIFYING LOW-INCOME SUBSCRIBER

A qualifying low-income subscriber is a subscriber who participates in one of the following programs: Medicaid; food stamps; supplemental security income; federal public housing assistance; or Low-Income Home Energy Assistance Program.

(D)

(D)

GENERAL EXCHANGE TARIFF

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

1. Universal Emergency Number Service (911)

1.1 General

- A. Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. 911 Service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 Trunking Service involves the provision of interoffice trunks from the Telephone Company Central Office to connect with the PSAP location.
- B. The 911 emergency number is not intended to replace the telephone service of the various Public Safety Agencies which may participate in the use of this number. The 911 customer must subscribe to additional local exchange service at the PSAP for administrative purpose, for the placing of outgoing calls and for receiving other emergency calls, including any which might be related by Company operators.
- C. 911 Trunking Service is offered subject to availability of facilities.
- D. The 911 Trunking Service customer may be a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for police, fire or other emergency services within the telephone Central Office area arranged for 911 calling.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

1. Universal Emergency Number Service (911) (Cont'd)**1.1 General (Cont'd)**

- E. The Company may enter into a contract or contracts with the 911 customer or with other telephone companies in order to effectuate the Company's provision of 911 Service in accordance with, pursuant to, and subject to the terms, conditions and limitations of the Tariff. Any such contract(s) shall incorporate by reference the terms, conditions and limitations of this Tariff.
- F. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

1.2 Conditions

- A. 911 Trunking Service is provided solely for the benefit of the customer operating the PSAP. The provision of 911 Trunking Service by the Company shall not be interpreted, construed or regarded, either express or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
- B. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
- C. Temporary or vacation suspensions of service are not provided for any part of the 911 Trunking Service.
- D. 911 Service information consisting of the names, addresses and telephone numbers of Subscribers whose listings are not published in directories or listed in the Directory Assistance records is treated as strictly confidential.
- E. End Users dialing 911 forfeit the privacy afforded by nonpublished and unlisted telephone number service to the extent that the telephone number, address and name associated with the originating station location may be furnished by a PSAP. Information will be provided only for the purpose of responding to emergency calls.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

1. Universal Emergency Number Service (911) (Cont'd)**1.2 Conditions (Cont'd)**

- F. The Company's entire liability to any person for interruption or failures of 911 Trunking Service shall be limited to the terms set forth in this section and other sections of this tariff.
- G. The customer shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data base(s), and overall operation of the system. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.
- H. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro-rata charges for the service affected during the period of time that the service was fully or partially inoperative.
- I. Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.
- J. The customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 Trunking Service features, the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Trunking Service hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer, its user, agencies or municipalities, or the employees or agents or any one of them.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

1. Universal Emergency Number Service (911) (Cont'd)**1.2 Conditions (Cont'd)**

- K. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by Telephone Company Wire Centers served by the PSAP whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- L. Application for 911 Trunking Service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.
- M. The customer is required to furnish the Company its agreement to the following terms and conditions:
1. That all 911 calls will be answered in a 24-hour day, seven-day week basis.
 2. That that customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 Service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
 3. That the customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the 911 PSAP by calling parties.
 4. That the customer will provide CPE with a capacity adequate to handle the number of incoming 911 lines recommended to be installed by the Company. It is the customer's responsibility to ensure its CPE is compatible with the service(s) provided by the Company.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

1. Universal Emergency Number Service (911) (Cont'd)**1.2 Conditions (Cont'd)**

- N. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the 911 customer contracting for 911 Trunking Services. In the event of any interruption of the service, the Company shall not be liable to any person, corporation or other entity for any loss or damage in an amount greater than an amount equal to the pro rata allowance of the tariff rate for the service or facilities provided to the 911 customer for the time such interruption continues, after notice to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the 911 customer.
- O. The rates charged for 911 Trunking Service do not contemplate the constant monitoring or inspection of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The 911 customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall notify the Company in the event the system is not functioning properly.
- P. In the absence of willful misconduct or gross negligence, no liability for any death or injury to any person or for any damage to property shall attach to the Company, its employees, agents or representatives as a result of or in connection with any situation in which the Company may be requested, required, have undertaken or participated in the tracing of a 911 call.
- Q. The customer recognizes that the addresses provided to it by the Company are the same addresses that the Company maintains for its ordinary service, billing or directory records and the Company cannot unconditionally guarantee their existence or accuracy in emergency situations. Therefore, the customer recognizes that addresses should, where circumstances permit, be verified from a 911 calling party. The customer shall make the correction within a reasonable time under the circumstances.

GENERAL EXCHANGE TARIFF**THREE-DIGIT DIALING SERVICE (811)**

1. Three-Digit Dialing Service (811)

1.1 General Regulations

- A. The 811 Service is a locally assigned three digit abbreviated dialing code provided to a state One Call System ("SOCS") for use in providing advance notice of excavation activities to underground facility operators by way of voice grade facilities. Federal Communications Commission ("FCC") Docket 92-105 mandates that incumbent local exchange carriers in each local calling area make the 811 abbreviated dialing code available to a SOCS as a tarified, local calling area based service (the "811 Service").
- B. The 811 Service allows a Company subscriber to access a SOCS call center by dialing only the 811 abbreviated dialing code. Subject to other terms and conditions of this tariff, Company subscribers shall be able to make, and the SOCS shall be able to receive, calls using the 811 Service as part of their local exchange service.
- C. All 811 Service calls shall be local in nature and shall not result in any expanded area calling, intraLATA toll or interLATA long distance or pay-per-call charges to Company subscribers.
- D. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. The 811 Service is otherwise available wherever local service is available.
- E. 811 Service is available from the Company within the Company's service area only. To provide access to 811 to end users in another company's service area or to a Competitive Local Exchange Carrier ("CLEC") end user within the local calling area, the SOCS must make appropriate arrangements with the other company or CLEC serving that territory. The SOCS should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.

THREE-DIGIT DIALING SERVICE (811)

1. Three-Digit Dialing Service (811) (cont'd)

1.2 Obligations of the SOCS

- A. The SOCS may, but is not required to, submit a written application for 811 service to the Company which will include:
 - (1) The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 811 abbreviated code.
 - (2) For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 811 Service.
 - (3) Complete contact information.
- B. If requested by the Company, the 811 provider shall assist the Company in responding to complaints made to the Company concerning 811 Service.
- C. Local Calling for Company Subscribers
 - (1) The SOCS, in cooperation with the Company, will assure that all 811 Service calls are local and do not generate Extended Area Service ("EAS"), Metropolitan Calling Area ("MCA") service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
 - (2) The SOCS must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by SOCS.
 - (3) The SOCS is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.

THREE-DIGIT DIALING SERVICE (811)

1. Three-Digit Dialing Service (811) (cont'd)**1.3 Obligations of the Company**

- A. The Company shall provision the 811 Service in accordance with FCC directives and the terms of this tariff.
- B. When an 811 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 811 Service call, the quality of the call or any features that may otherwise be provided with 811 Service.
- C. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable SOCS to respond to such calls at SOCS established call centers.
- D. The rates charged for 811 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The SOCS is responsible for making such operational tests as, in the judgment of the SOCS, are required to determine whether the Company's facilities are functioning properly for its use. The SOCS is responsible for promptly notifying the Company in the event the Company's facilities are not functioning properly.

1.4 Liability

- A. The Company's entire liability to any person for interruption or failure of the 811 Service shall be limited to the terms set forth in this section and other sections of this Tariff.
- B. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the SOCS for the 811 Service and local exchange service for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
- C. The Company is not liable for any losses or damages caused by the negligence of the SOCS.

THREE-DIGIT DIALING SERVICE (811)

1. Three-Digit Dialing Service (811) (cont'd)

1.4 Liability (cont'd)

- D. The Company shall not be liable to the SOCS for any damages the SOCS may incur that result from any changes, modifications or rulings made by the FCC.
- E. The Company will make every effort to route 811 calls to the SOCS call center, however, the Company will not be held responsible for routing mistakes or errors.
- F. The 811 Service is provided solely for the benefit of the SOCS. The provision of the 811 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity.
