LOCAL EXCHANGE SERVICES**CANCELLED**

February 19, 2006

**MISSOURI PUBLIC
SERVICE COMMISSION**4. Residential Local Exchange Service (Continued)4.2 Sprint Complete Sense (Continued)4.2.6 Sprint Complete Sense Plus with International**A. Description

Sprint Complete Sense Plus with International is available to customers whose primary Local Exchange Service line is provided under any Sprint Complete Sense bundled offerings. Customers may subscribe to up to two additional lines under this offering.

Should a customer discontinue primary Local Exchange Service, the remaining Second Line will automatically convert to a primary line with all features and functionality of such, and at the rate formerly in effect for the primary line.

Sprint Complete Sense Plus with International includes the following:

1. Local Exchange Service with unlimited local calling;
2. Presubscription to Sprint's IntraLATA, intrastate and interstate long distance services;
3. Discounted international calling.

B. Rates and Charges

Sprint Complete Sense Plus with International, per month	\$40.49*	(I)
Primary Service Connection Charge, per line	69.99	
Secondary Service Connection Charge, per line	55.00	

All direct-dialed 1+ domestic calls are charged as specified in the Company's Sprint Communications, L.P. P.S.C. Mo. Tariff No. 2 and interstate Consumer Rates and Conditions located at www.sprint.com/ratesandconditions. Long distance minutes included in a block of time for the primary line may not be shared.

International rates for all calls are charged as specified in the Company's interstate Consumer Rates and Conditions located at www.sprint.com/ratesandconditions.

* This charge is identical to, and shall not be in addition to, any monthly recurring charge applicable to companion federal service and companion state service. Charges such as (but not limited to) service connection and other nonrecurring charges, operator assistance, directory assistance, directory listings, data surcharge, blocking options, taxes, surcharges, and per use charges may be applicable in addition to this monthly recurring charge.

** Effective January 31, 2005, Sprint Complete Sense Plus with International will no longer be available for new installations.

LOCAL EXCHANGE SERVICES

5. Business Local Exchange Service

Local Exchange Service consists of furnishing switched communication in connection with one-way and/or two-way information transmission points within a Local Calling Area offered pursuant to this Tariff. Local Exchange Services provide a Customer with a connection to the public switched network which enables the Customer to:

- a. receive calls from other stations on the public switched telephone network;
- b. access the Company's Local Calling Area as set forth in this Tariff;
- c. access (at no additional charge) the Company's operator and customer service center for service related assistance; access toll-free telecommunications services such as 800, 888, 877 NPA; and access 9-1-1 service for emergency calling.

(D)

(D)

Local Exchange Service provides an individual access line with Touch Tone Calling for the transmission of one-way or two-way switched voice or data communication within a Local Calling Area. The individual access line is the connecting facility between a Customer's premises and a serving central office that provides Customer access to the switched network for placing and receiving calls. The individual access line also enables the Customer to access the service of long distance carriers.

The Company offers its services subject to availability of facilities, limitations of service offerings, and the provisions of this Tariff.

- a. receive calls from other stations on the public switched telephone network;
- b. access the Company's Local Calling Area as set forth in this Tariff;
- c. access (at no additional charge) the Company's operator and customer service center for service related assistance; access toll-free telecommunications services such as 800, 888, 877 NPA; and access 9-1-1 service for emergency calling.

Unless stated otherwise in this tariff for specific exchange services, the Company's service cannot be used to originate calls to other telephone companies' caller-paid information services (e.g., 900, 976). Calls to these numbers and other numbers used for caller-paid information services will be blocked by the Company's switch. (T)

Local Exchange Service provides an individual access line with Touch Tone Calling for the transmission of one-way or two-way switched voice or data communication within a Local Calling Area. The individual access line is the connecting facility between a Customer's premises and a serving central office that provides Customer access to the switched network for placing and receiving calls. The individual access line also enables the Customer to access the service of long distance carriers.

The Company offers its services subject to availability of facilities, limitations of service offerings, and the provisions of this Tariff.

LOCAL EXCHANGE SERVICES**Missouri Public
Service Commission****5. Business Local Exchange Service****REC'D JUL 08 2003**

Local Exchange Service consists of furnishing switched communication in connection with one-way and/or two-way information transmission points within a Local Calling Area offered pursuant to this Tariff. Local Exchange Services provide a Customer with a connection to the public switched network which enables the Customer to:

- a. receive calls from other stations on the public switched telephone network;
- b. access the Company's Local Calling Area as set forth in this Tariff;
- c. access (at no additional charge) the Company's operator and customer service center for service related assistance; access toll-free telecommunications services such as 800, 888, 877 NPA; and access 9-1-1 service for emergency calling.

The Company's service cannot be used to originate calls to other telephone companies' caller-paid information services (e.g., 900, 976). Calls to these numbers and other numbers used for caller-paid information services will be blocked by the Company's switch.

Local Exchange Service provides an individual access line with Touch Tone Calling for the transmission of one-way or two-way switched voice or data communication within a Local Calling Area. The individual access line is the connecting facility between a Customer's premises and a serving central office that provides Customer access to the switched network for placing and receiving calls. The individual access line also enables the Customer to access the service of long distance carriers.

The Company offers its services subject to availability of facilities, limitations of service offerings, and the provisions of this Tariff.

LOCAL EXCHANGE SERVICES

5. Business Local Exchange Service (Continued)

(M)

(M)

The Company may deny, for any lawful reason, the Customer's request for service, or limit or allocate the facilities available to or utilized by any service, if necessary, to manage its network in an efficient manner; meet reasonable service expectations; furnish service to existing and future customers based on forecasted customer requirements; or for any other lawful reason.

The Company may, without notice, (consistent with governing laws or regulations) block traffic to local telephone exchanges ("NXX exchanges") individual telephone stations, groups or ranges of individual telephone stations, or calls using certain customer authorization codes, whenever the Company deems it necessary to take such action to prevent (1) the unlawful use of service; (2) nonpayment for service; (3) the use of service in violation of this Agreement; or (4) network blockage or the degradation of service furnished to the Customer or other Customers.

Sprint will prorate all charges and associated usage in the initial month and last month of service based on a 30-day month. If Sprint determines that the customer's usage in any way violates the restrictions of this service, Sprint may suspend or terminate the customer's service.

LOCAL EXCHANGE SERVICESMissouri Public
Service Commission5. Business Local Exchange Service (Continued)

REC'D JUL 08 2003

The customer's phone line may not be classified as a "residential", "public" or "semi-public" line and may not be in housing associated with educational institutions. Dial-1 local and long distance service provided under Sprint Complete Sense for Business bundled services applies on a per line basis only and does not include the following: usage associated with multi-party conference calls, FONCARD calls; calls which are pay for use, including calls to 900, 976, 555 and 700 numbers; calls to Directory Assistance; and calls which involve an operator service, including busy line verification, emergency interrupt, person to person or station to station calling, and intercept call completion. Toll Free service is also not included. The customer may not use this service for connection to the internet or other data service, (including mass broadcast of facsimile transmissions), or for any other use that does not involve a person-to-person conversation or voice message. The customer may not use this service for call forwarding for toll use.

The following bundled services are for use by business customers. If it is determined that usage is not consistent with business voice applications, the customer's service may be assessed a \$100.00* monthly recurring data charge or Sprint may terminate the customer's service disconnected.

The Company may deny, for any lawful reason, the Customer's request for service, or limit or allocate the facilities available to or utilized by any service, if necessary, to manage it's network in an efficient manner; meet reasonable service expectations; furnish service to existing and future customers based on forecasted customer requirements; or for any other lawful reason.

The Company may, without notice, (consistent with governing laws or regulations) block traffic to local telephone exchanges ("NXX exchanges") individual telephone stations, groups or ranges of individual telephone stations, or calls using certain customer authorization codes, whenever the Company deems it necessary to take such action to prevent (1) the unlawful use of service; (2) nonpayment for service; (3) the use of service in violation of this Agreement; or (4) network blockage or the degradation of service furnished to the Customer or other Customers.

Sprint will prorate all charges and associated usage in the initial month and last month of service based on a 30-day month. If Sprint determines that the customer's usage in any way violates the restrictions of this service, Sprint may suspend or terminate the customer's service.

LOCAL EXCHANGE SERVICES

5. Business Local Exchange Service (Continued)**5.4 Sprint Integrated Local Services**

(D)

Sprint Integrated Local Services includes unlimited business Local Exchange Service, Touch Tone Calling Service, and certain features.

If available in the territory of the underlying incumbent local exchange carrier, Local Exchange Services may be used to originate calls to other telephone companies' caller-paid information services (e.g. 900, 976, etc.). Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company at the Customer's request. Customers who request other call blocking or screening services will be charged as specified elsewhere in this Tariff.

Sprint Integrated Local Services bundles are available for one-year, two-year and three-year commitment periods unless otherwise stated in this tariff. Customers must subscribe for a minimum one-year period. If the Customer terminates all or any portion of the services before the end of the term commitment, the Company may assess a termination liability equal to 100% of the monthly recurring charge multiplied by the number of months left in the first contract year, plus 50% of the monthly charge for each month remaining in subsequent contract years. The Company will not charge early termination liabilities if, upon giving notice of termination, the Customer orders another Sprint service with a monthly charge and term commitment equal to or greater than those services being terminated.

Commitment periods can be extended by the Customer at any time during the term of the plan. The number of months accrued in the current plan will apply toward the new plan selected. If the Customer does not specify renewal terms prior to the expiration of the service period, the existing rates in effect at the time of expiration will automatically continue. The Customer can terminate Sprint Integrated Local Services at the end of the service period with no penalty or obligation to continue the service.

When a customer orders multiple high capacity (1.544 Mbps) facilities in conjunction with an Integrated Local Service, the sum of the channels, trunks or lines ordered for all such facilities at a single location under a single account must be equal to or greater than the required minimum quantity. When a maximum number of channels, trunks or lines are stated for a service, the maximum applies per facility rather than per location.

LOCAL EXCHANGE SERVICES

5. Business Local Exchange Service (Continued)5.4 Sprint Integrated Local ServicesB. Term Discount Plan (TDP)

(N)

The Term Discount Plan (TDP) provides customers with discounted rates for Sprint Integrated Local Services.

The discount applies to the monthly recurring charge for Sprint Integrated Local Services and all optional services and features ordered from this Tariff.

At the end of the TDP service commitment period, the customer may subscribe to a new TDP at the prevailing rates. If the customer does not select a new TDP, the prevailing rates applicable for the expired TDP will continue in effect for as long as the customer chooses to continue subscribing to the services installed under the expired TDP.

Rate increases or decreases will automatically be applied to the monthly term plan rates for the remaining term of the TDP.

The customer can extend TDP commitment periods at any time during the term of the plan, up to a maximum of three years. The number of remaining months in the original term plan will apply toward the new term plan selected.

If customers under a TDP disconnect any portion of their Sprint Integrated Local Services TDP service prior to the expiration of the TDP, then a Termination Liability Charge will apply to those services that are disconnected. The Termination Liability Charge will be equal to 100% of the monthly recurring charge for each month remaining in the first contract year, plus 50% of the monthly recurring charge for each month remaining in subsequent years. The Company will not charge early termination liabilities, if, upon giving notice of termination, the customer orders another Sprint Integrated Local Services with a monthly charge and term commitment period equal to or greater than those services being terminated.

<u>Commitment Period</u>	<u>Discount</u>

LOCAL EXCHANGE SERVICES5. Business Local Exchange Service (Continued)5.3 Sprint Integrated Local Services (Continued)5.3.6 Sprint ISDN-PRI for Business[@]

(C)

A. Description

Sprint ISDN-PRI for Business includes the following:

1. A high speed end-to-end digital switched service that provides PBX and host computers access to switched services via an ISDN central office. The service can carry voice, data and video simultaneously. Traffic can be inward, outward or a combination of both. This is controlled by the Customer's CPE. Local Exchange access includes unlimited local calling.

A facility service consists of up to twenty-three "B" (Bearer) channels and one "D"(Delta) channel at a total speed of 1.544 Mbps. The D channel is used for signaling and can usually handle an additional 19 ISDN facilities containing 24 B channels. The local channel may be a DS1 with clear channel capability;

2. Features: Caller ID-Number Only, Block of 10 DID Numbers and Line Hunting.

One directory listing will be provided per D-Channel. Additional directory listings are available as specified in Section 6 of this Tariff.

B. Optional Service Components

The following Optional Service Components are also available with the Sprint ISDN-PRI for Business.

1. PRI D Channel - A D channel may be designated as a Backup D channel for another D channel that provides signaling and control for one or more ISDN PRI connections. Enables the Customer to complete calls to a busy station without continually redialing. Certain equipment restrictions may apply.

[@] Effective 11-29-05, Sprint ISDN-PRI for Business will no longer be available for new installations for customers in Rate Group 6.

5.3.6 Sprint ISDN-PRI for BusinessA. Description

Sprint ISDN-PRI for Business includes the following:

1. A high speed end-to-end digital switched service that provides PBX and host computers access to switched services via an ISDN central office. The service can carry voice, data and video simultaneously. Traffic can be inward, outward or a combination of both. This is controlled by the Customer's CPE.

A standard service consists of up to twenty-three "B" (Bearer) channels and one "D" (Delta) channel at a total speed of 1.544 Mbps. The D channel is used for signaling and can usually handle an additional 19 ISDN services containing 24 B channels. The local channel may be a DS1 with clear channel capability;

2. Feature: Caller ID-Number, Block of 10 DID Numbers and Line Hunting;
3. Presubscription to Sprint Voice SolutionsSM or Sprint Real SolutionsSM for IntraLATA toll, intrastate, interstate and international long distance calling.

One directory listing will be provided per D-Channel. Additional directory listings are available as specified in Section 6.5 of this Tariff.

B. Optional Service Components/Features

The following Service Components/Features are also available with the Sprint ISDN-PRI for Business

1. PRI D Channel - A D channel may be designated as a Backup D channel for another D channel that provides signaling and control for one or more ISDN PRI connections. Enables the customer to complete calls to a busy station without continually redialing. Certain equipment restrictions may apply.
2. PRI Call-by-Call/Integrated Service Access Feature Capability - Allows the customer to dynamically allocate the use of channels for ISDN-PRI. The customer may also choose voice or data transmission on a per call basis and may choose to subscribe to more services than channels. The Customer Premises Equipment signals the local central office as to which type of service to access for each call.
3. PRI Ring Again - Enables the customer to complete calls to a busy station without continually redialing. Certain equipment restrictions may apply.

LOCAL EXCHANGE SERVICES5. Business Local Exchange Service (Continued)5.3 Sprint Integrated Local Services (Continued)5.3.11 Digital Integrated T1 Service II @

(C)

A. Description

Digital Integrated T1 Service II includes the following:

1. Customer channelized high capacity (1.544 Mbps) facility between a Customer premises and its serving office for connection to services provided by Sprint. Digital Integrated T1 Service II allows a Customer to integrate voice and data on a single high capacity facility. Customers must order a combination of voice channels (up to a maximum of 23) for local exchange access for unlimited local calling, and Dedicated IP channels for Internet Access (up to a maximum of 23). The balance of the facility's capacity is available for data. The rates herein are for the portion of the service dedicated to voice applications. Charges for non-regulated services and options will apply.

The Customer will be responsible for the connection from the Integrated Access Device to their equipment (no connection block will be provided with this service). Customers must digitally accept all of their channels. No more than two trunk groups will be provisioned for any given circuit;

2. Features: Line Hunting, Block of 10 DID Numbers and Calling Line Identifier;
3. Dedicated IP for Internet Access*

LOCAL EXCHANGE SERVICES5. Business Local Exchange Service (Continued)5.3 Sprint Integrated Local Services (Continued)5.3.15 Sprint Integrated ISDN-PRI for Business Bundle @

(C)

A. Description

Sprint Integrated ISDN-PRI for Business Bundle includes the following:

1. A high speed end-to-end digital switched service that provides PBX and host computers access to switched services via an ISDN central office. The service can carry voice, data and video simultaneously. Traffic can be inward, outward or a combination of both. This is controlled by the Customer's CPE. Local exchange access includes unlimited local calling.

A facility consists of up to twenty-three "B" (Bearer) channels and one "D" (Delta) channel at a total speed of 1.544 Mbps. The D channel is used for signaling and can usually handle an additional 19 ISDN facilities containing 24 B channels. The local channel may be a DS1 with clear channel capability. Customers must order a combination of voice channels (up to a maximum of 23) for local exchange access for unlimited local calling, and Dedicated IP channels for Internet Access (up to a maximum of 23). The balance of the facility's capacity is available for data. The rates herein are for the portion of the service dedicated to voice applications. Charges for non-regulated services and options will apply;

2. Features: Caller ID – Number Only, Block of 10 DID Numbers and Line Hunting;
3. Dedicated IP for Internet Access.*

One directory listing will be provided per D-Channel. Additional directory listings are available as specified in Section 6 of this Tariff.

B. Optional Service Components

The following Service Components are also available with the Sprint Integrated ISDN-PRI for Business Bundle:

1. PRI D Channel - A D channel may be designated as a Backup D channel for another D channel that provides signaling and control for one or more ISDN PRI connections. Enables the Customer to complete calls to a busy station without continually redialing. Certain equipment restrictions may apply.

* Dedicated IP is not regulated by the Commission. Nonregulated charges for this service apply in addition to the regulated charges specified in this Tariff.

@ Effective 11-29-05, Sprint Integrated ISDN-PRI for Business Bundle will no longer be available for new installations.

B. Definitions (Continued)Voice Channel for Individual Line Service

A Voice Channel for Individual Line Service is a designated local exchange service voice channel within a 1.544 Mbps facility.

PRI Two-Way Channel

A PRI (Primary Rate Interface) Two-Way Channel can carry ISDN-PRI protocol voice, data and video simultaneously at 64 kbps. Traffic can be inward, outward, or a combination of both.

PRI One-Way Channel

A PRI One-Way Channel can carry ISDN-PRI protocol voice, data and video simultaneously for inward only traffic at 64 kbps. When a One-Way PRI Channel is selected, the entire 1.544 Mbps facility, consisting of 24 channels, must be utilized for inward only traffic.

Frame Relay Data Channel

A Frame Relay Data Channel carries frame relay data packets at 64Kbps within a 1.544 Mbps facility. Due to technical limitations, Frame Relay Data Channels must be provisioned in multiples of two.

C. Optional Features

The following optional features are available for use with PRI One-Way Channels and PRI Two-Way Channels, at the rates specified in Section 5.4.1E.3.(b) of this Tariff. A monthly rate applies per facility, regardless of the number of Two-Way PRI Channels with which a feature is used.

* Effective March 1, 2005, Sprint Solutions for Business (T1) Integrated Voice/Data Package will no longer be available for new facility installations.

(C)

C. Optional Features (Continued)1. PRI D Channel

A channel may be designated as a Backup D channel to provide signaling and control for one or more ISDN PRI connections. Enables the Customer to complete calls to a busy station without continually redialing. Certain equipment restrictions may apply.

2. PRI Call-by-Call/Integrated Service Access Feature Capability

Allows the Customer to dynamically allocate the use of channels for ISDN-PRI. The Customer may also choose voice or data transmission on a per call basis and may choose to subscribe to more services than channels. The Customer Premises Equipment signals the local central office as to which type of service to access for each call. This feature is available only in conjunction with Two-Way PRI Channels.

3. PRI Ring Again

Enables the Customer to complete calls to a busy station without continually redialing. Certain equipment restrictions may apply. This feature is available only in conjunction with Two-Way PRI Channels.

4. 2 B-Channel Transfer

Allows the central office switch to establish a call directly to the final destination and release the trunks going in and out of the forwarding device, when otherwise two trunks between the Central Office and the original device would be employed for the duration of a call when the call terminates at a given location and is then forwarded to another location.

5. PRI Name Display

Allows incoming name display on compatible Customer-provided equipment.

* Effective March 1, 2005, Sprint Solutions for Business (T1) Integrated Voice/Data Package will no longer be available for new facility installations.

(C)

D. Regulations

1. The Customer may select any combination of voice and data channels, up to twenty-four channels per facility, for local exchange access and unlimited local calling. Customers utilizing Sprint Solutions for Business (T1) Integrated Voice/Data Package for Frame Relay Data Channels must order channels in multiples of two, due to technical limitations, and must designate a minimum of one channel as a Voice Channel for Individual Line Service or a Voice Channel for Trunks.
2. A Minimum Monthly Charge applies per facility, regardless of the number of channels utilized by the Customer. When the sum of the individual channel charges is greater than the Minimum Monthly Charge, the individual channel charges apply in lieu of the Minimum Monthly Charge.
3. Sprint's pricing and discounts are based on term commitment, volume and bundle of services purchased. The service period for Sprint Solutions for Business (T1) Integrated Voice/Data Package is one, two, or three years. If the Customer terminates all or any portion of the services before the end of the term commitment, the Company may assess a termination liability equal to 100% of the monthly recurring charge multiplied by the number of months left in the first contract year, plus 50% of the monthly charge for each month remaining in subsequent contract years. The Company will not charge early termination liabilities if, upon giving notice of termination, the Customer orders another Sprint service with a monthly charge and term commitment equal to or greater than those services being terminated.

If the Customer does not specify renewal terms in writing 90 days prior to the expiration of the service period, the existing rates in effect at the time of expiration will automatically continue. The Customer can terminate Sprint Solutions for Business (T1) integrated Voice/Data Package at the end of the service period with no penalty or obligation to continue the service.

* Effective March 1, 2005, Sprint Solutions for Business (T1) Integrated Voice/Data Package will no longer be available for new facility installations.

(C)

D. Regulations (Continued)4. Cancellation Charges

When a Customer cancels an order, cancellation charges as set forth following will be calculated using the nonrecurring charges associated with the Sprint Solutions for Business (T1) Integrated Voice/Data Package arrangement being cancelled. The Cancellation Charge will be a percentage of all nonrecurring charges associated with the order, or that part of the order being canceled. This percentage is calculated by dividing the number of days from the date on which the Company confirms to the Customer that the requested service can be provided through the cancellation date by the number of days in the agreed upon service interval. The Cancellation Charge is then developed by multiplying the nonrecurring charges associated with installation of the canceled service by the calculated percentage.

5. Special Construction charges may apply where facilities and/or operating conditions do not permit the provision of Sprint Solutions for Business (T1) Integrated Voice/Data Package and the Customer desires the Company to provision the service.
6. One directory listing will be provided per channel, up to twenty-four listings, as requested by the Customer, at no charge. Additional directory listings are available as specified in Section 6.5 of this Tariff.
7. Customers who select the 2000 Minute Block of Time option available with this service will pay an additional charge on a per facility basis for their Sprint Solutions for Business (T1) Integrated Voice/Data Package.

* Effective March 1, 2005, Sprint Solutions for Business (T1) Integrated Voice/Data Package will no longer be available for new facility installations.
