**SECTION 3 – SERVICE DESCRIPTIONS AND RATES, (CONT'D.)**

**3.13.1 XO Corporate Long Distance Plan**

XO Corporate Long Distance Plan is a long distance calling plan available to Customers who subscribe to Company’s local or long distance facilities-based service. Customer subscribes to a monthly long distance revenue commitment level. Usage for domestic interstate dedicated and switched service and intrastate dedicated and switched service contribute to the Customer’s commitment level. The commitment level subscribed to by the customer will determine the per minute rate billed to the Customer. If customer’s monthly total usage does not meet its subscribed commitment level, customer will be charged the difference between its usage and its commitment level.

Customers must subscribe to this service for a minimum of one year.

Operator Assistance and Directory Assistance services are not included in this plan, but are available to customers subject to the provisions of this tariff. Switched usage will be charged at the per minute rate described in this tariff’s Switched Long Distance Product.

The service is billed in six (6) second increments after an initial billing increment of six (6) seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additionally, fractional cents will be rounded off to the next highest cent. Unless specified otherwise in this Tariff, the duration of each call for bill purposes will be rounded off to the nearest highest increment. **3.16 Uni-Rate InterLATA Long Distance Service (ULD)**

Uni-Rate InterLATA Long Distance Service (ULD) is a communications service which is available for use by the Customer twenty-four (24) hours a day. The Customer may originate ULD from locations served by the Company and may terminate in all locations within the state but outside of the LATA from which the call is placed. ULD calls will be billed in 6-second increments with an initial billing period of 18 seconds.

The service is offered in two variations depending on the method that the Customer employs to gain access to the Company's network for use of the service:

Switched – ULD is offered in Feature Group D (FGD) exchanges whereby the Customer's local telephone lines are presubscribed by the local exchange company (LEC) to the Company's ULD service, such that "1+" interLATA calls are automatically routed to the Company's network.

Dedicated – ULD is offered to the extent that facilities are available in those cases where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.
