APR 14 1982

MISSOURI

Public Service Commission

RULE 1. Definitions

- A. The "Company" is Central Jefferson County Utilities, Inc., acting through its officers, managers, or other duly authorized employees or agents.
- B. The "Customer" is any person, firm, corporation or governmental body which has contracted with the Company for sewer service or is receiving sewer service from the Company, or whose facilities are connected for utilizing such service.
- C. A "Collecting Sewer" is a pipeline which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage wastes to a central point for disposal.
- D. A "Customer's Service Sewer" is a pipe with appurtenances installed, owned, and maintained by the Customer, used to conduct sewage from the Customer's premises to the collecting sewer.
- E. A "Service Connection" is the point at which the Customer's service sewer is connected to the collecting sewer.
- F. The "Date of Connection" shall be the date of the permit for installation and connection issued by the Company. In the event no permit is issued and a connection is made, the date of connection shall be the date of commencement of construction upon the property.
- G. "Domestic Sewage" is sewage, excluding storm and surface water, resulting from normal household activities.
- H. "Non-Domestic Sewage" is all sewage other than domestic sewage, including, but not limited to, commercial or industrial wastes.

APR 14 1982

- I. "Foundation Drain" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.
- J. "PH" is the relative degree of acidity or alkalinity of water as indicated by the hydrogen ion concentration. PH is indicated on a scale reading from 1-14, with 7 being neutral, below 7 acid, and above 7 alkaline; more technically defined as the logarithm of the reciprocal of the hydrogen ion concentration.
- K. "B.O.D." (denotes Biochemical Oxygen Demand) is the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory conditions expressed in milligrams per liter.
- L. "Suspended Solids" is the concentration of insoluble materials suspended or dispersed in waste expressed in milligrams per liter on a dry weight basis as determined by standard procedures.

Sewer Service

Rules and Regulations Governing
Rendering of Service

RECEIVED

APR 14 1982

RULE 2. Applications for Sewer Service

- A. A written application for sewer service, accompanied by the appropriate fees and other information required by these rules and regulations, will be tendered to the Company before sewer service is provided to any premises. Said application must state the name of the owner of said premises and, in the case of a commercial customer, must also state the quantity and strength of effluent to be discharged from said premises into Company's sewer system. Every customer, upon signing an application for any service rendered by the Company or upon taking of sewer service, shall be considered to have expressed consent to the Company's rates, rules and regulations. The Company shall have the right to reject any application for failure to comply with the rules and regulations herein. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for such reasonable period of time as is specified by the Company at the time of the making of such contract.
- B. The customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company's lines and give the location of any buildings to which service is requested. The Company will then advise the form and the character of the waste collection facilities available.
- C. The Company reserves the right to refuse sewer service to any applicant, unless said applicant agrees to install a water meter accessible to the Company, in order that there will be a basis for sewer charges.

RULE 3. Bills and Payment for Service (Cont'd)

J. All bills for service shall bear a due date. Bills unpaid after twenty-one (21) days (or sixteen (16) days, if billed quarterly) from the date of rendition will be delinquent. The Company shall have the right to assess a late payment charge of Five Dollars (\$5.00) on each delinquent bill. In addition, the Company shall have the right, to discontinue all service to such delinquent customers as provided by these rules and shall not be required to restore or connect any new service for such delinquent customers until the unpaid account due the Company under these rules and regulations has been paid in full or arrangements satisfactory to the Company have been made to pay said account.

K. If payment is not made within thirty (30) days after said payment shall become due and payable, the Company may file a notice of delinquency with the recorder of deeds of the applicable county of Missouri, stating the names of the parties holding legal title to the premises on which the payment is delinquent, the address of said persons, the legal description of the property, and the amount due at the date of filing. The delinquent owners shall pay the accrued charges, including any disconnect costs, all costs of filing, recording, reasonable attorney's fees, and costs of releasing the lien. Upon filing of the notice of delinquency by the Company, the amount due and costs thereon shall become a first lien upon said property. In addition to placing a lien upon the property as above set out by reason of nonpayment of charges for sanitary sewer service as provided, the Company may discontinue service, pursuant to these rules.

RULE 8. Inside Piping and Customer Service Sewer (Cont'd)

Specifications of the Manufacturer of the materials used and all applicable local plumbing codes, except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.

- I. The connection of the Customer's service sewer into the collecting sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's collecting sewer is twelve inches (12") in diameter or less and there is no properly located "Y" branch in the Company's collecting sewer at the location specified by the Company, a "Y" branch must be installed. Where the Company's collecting sewer is greater than twelve inches (12") in diameter, and no properly located "Y" branch is available, a neat hole may be cut in the Company's sewer to receive a saddle to which the customer's service will be connected. The invert of the customer's service sewer at the point of connection shall be at the centerline or higher elevation than the invert of the Company's collecting sewer. A smooth neat joint shall be made, and the connection made secure and water tight by encasement in concrete.
- J. It is understood that all facilities above described are to be constructed and maintained by the customer subject to the approval of any authorized inspector, and in accordance with the rules and regulations of the Company in force at that time.

RULE 10. Extension of Collecting Sewers

APR 14 1982

A. This rule shall govern the extension of collecting sewers by the Company in areas where there are no collecting sewers in the streets and right-of-ways or easements available to the Company. The Company will extend its easements available to the Company within its certificated area to serve new customers under the following terms and conditions:

Missouri
Public Service Commission

- (1) Upon receipt of written application(s) as required by these rules, the Company will provide applicant(s), or whoever is proposing to pay for the cost of extensions, with an estimate of the cost of the proposed extension. Said estimate shall include all labor and materials required, reconstruction of existing collecting sewers, if necessary, supervision, engineering, permits, insurance, tool expense, accounting, legal, and related expenses, and all other costs incident to the installation of said extension.
- (2) Applicant(s), or whoever is proposing to pay for said extension, shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution-in-aid-of construction equal to the amount determined in Section A(1) above. Applicant(s) shall have the option of installing the extension pursuant to the provisions of Section B of this Rule.
- (3) Refunds of cost of extension shall be made to applicant(s) as follows:

- (a) Should the actual cost of extension be less than the estimated cost, the Company shall refund the difference as soon as the actual costs have been ascertained.
- (b) Company shall divide the actual cost of the extension by the number of lots abutting said extension to obtain the per lot extension cost. When counting lots, corner lots which abut an existing main shall be excluded. As additional customers are directly attached to the extension, these additional customers shall pay to applicant the per lot construction cost for the lot being connected.
- (c) Each refund shall be paid directly to initial applicant(s) or their assigns based upon the percentage of the actual extension cost contributed by each applicant.
- (4) Extensions made under this rule shall be and remain the property of the Company in consideration of its perpetual upkeep and maintenance.
- (5) The Company reserves the right to connect future extensions to this collecting sewer and the attaching of customers to such further extensions shall not entitle applicant(s) contracting for the original extension to additional refund.

- (6) The pipe used in making extensions under this rule shall be of a type and size which shall be reasonably adequate to supply the area to be served. Such determination as to size and type of pipe shall be left solely to the judgment of the Company. If the Company desires to make the extensions in pipe larger than reasonably required to provide service to lots abutting said extension, the additional cost due to larger size shall be borne by the Company.

B. This rule shall govern the extension of collecting sewers to prospective customers in areas where no collecting sewers exist where applicant(s) or someone in their behalf elects to construct said extension. The Company will connect said extensions to its existing collecting sewers and provide service to applicant(s) under the following terms and conditions:

- (1) Applicant(s) shall construct said collecting sewers extension to meet the requirements of all governmental agencies and the Company's rules and regulations.
- (2) Same as Section A(6) above.
- (3) The Company, or its representative, shall have the right to inspect and test the extension prior to connecting it to the Company's collecting sewers.
- (4) Connection of the extension to existing Company collecting sewers shall be made only by representatives of the Company.

RULE 11. Special Contract for Excessive Capacity

APR 14 1982

In the event that the customer to be served proposed to discharge into Company's system an abnormally high volume or strength of waste as to require an enlargement of Company's existing sewage treatment plant or the construction of a temporary sewage treatment plant, and/or the construction or reconstruction of sewer lines, service shall be provided to such customer under the terms and conditions of a mutually satisfactory contract, in form approved by the Missouri Public Service Commission, pursuant to which the cost of such improvements will be financed in such a manner, and so supported by sewer service charges as to be fair and reasonable to both parties, and so as not to constitute a burden upon the Company which would be discriminatory against existing customers of the Company.

RULES AND REGULATIONS FOR CUSTOMERS SERVED BY
THE PRESSURIZED COLLECTION SYSTEM

RECEIVED

SEP 27 1988

Rule 1. Rates schedules as incorporated in these rules and regulations, and rules not applying specifically to **Missouri Public Service Commission** are hereby incorporated by reference and shall be applicable to pressure sewer Customers.

Rule 2. Definitions.

(a) "Grinder Pump Unit" A self contained device which grinds the solids in the sewage to a specified size and pumps the waste water under pressure to collecting sewers. The device contains level controls for interim storage of liquid waste and intermittent pump operation as a function of liquid level with appropriate malfunction alarms and check valves, to insure cooperative operation with similar units.

(b) "Repairable Parts" One motor, one pump, one liquid level control, one check valve, and one alarm system.

Rule 3. All components utilized in a pump unit must be either purchased from the Company or meet its specifications which shall be on file at the Company's office.

Rule 4. The Customer must furnish at his own expense, one grinder pump unit of suitable capacity which must either be furnished through or be approved by the Company prior to installation on the Customer's premises. Installation costs of the pump unit, electrical service and service sewers between the dwelling and the pump unit and the Company's collecting sewers shall be the responsibility of the Customer. Electricity costs for pump operation shall be the responsibility of the Customer.

RULES AND REGULATIONS FOR CUSTOMERS SERVED BY
THE PRESSURIZED COLLECTION SYSTEM

SEP 27 1988

MISSOURI Public Service Commission

Rule 5. The Company will locate the point to which the service connection will be made and the Customer shall furnish materials for connection from the pump unit to the Company's collecting sewers, which shall be located in a public street or easement. All taps are to be inspected and approved by the Company. Application accompanied by a \$35 (thirty five) dollar inspection fee, must be filed in writing 48 hours in advance, stating the street, Lot and Section, name of applicant, name of property owner and time at which tap is to be made, and the Company shall not be required to supply sewer service until each such tap has been inspected and approved by it. The Customer shall be liable to the Company for any damages to the Company's collecting sewers resulting from such work. One connection shall not service more than one property without written consent of the Company.

Rule 6. The gravity service sewer from the building to the pump unit, the tank, and the pressure service sewer from the pump unit to the collection sewer shall be owned and maintained by the Customer.

Rule 7. The Company shall perform regular preventive maintenance calls on each pump in service. Preventive maintenance shall consist of lifting out the pump, checking for excessive wear on cutter elements and integrity of the power/sensor cards. The level controls shall be checked for excessive grease buildup. All controls, valves and alarms shall be checked for proper operation. A log shall be maintained on each station.

Rule 8. For every 100 pump units in service, the Company shall have on hand two pumps, two repair kits, two motors, 5 liquid level control units, adequate supply of check valves and pressure valves.

Rule 9. The Company shall be responsible for maintenance of the repairable parts, and shall perform emergency repairs on said parts. At the Company's option, an emergency service call may constitute a preventive maintenance call if a reasonable amount of time has elapsed since the last preventive maintenance call, and if all other maintenance checks are performed.
