SECTION 2 - GENERAL REGULATIONS

RECEIVED

MAR 30 1992

2.6 PAYMENTS AND CHARGES (Continued)

2.6.5 ADVANCE PAYMENTS AND DEPOSITS (Continued)

B. DEPOSITS

MISSOURI
Public Service Commission

To safeguard its interests, AT&T will only require a Customer which has a proven history of late payments to AT&T or whose financial responsibility is not a matter of record, to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to the sum of the charges for the minimum payment period for the private line service.

If a Termination Charge or a Maximum Termination Liability is specified, the deposit may include an additional amount. This additional amount will not exceed the maximum charge(s) specified for the Termination Charge or Maximum Termination Liability.

An advance payment may be required in addition to a deposit (see Advance Payment, preceding).

1. INTEREST ON A CASH DEPOSIT

The amount of the deposit may be refunded at any time at the option of the Company or it will be refunded at the termination of the service either by the Customer or the Company, less such sums as may be due the Company for service rendered. Simple interest at the rate of nine per cent per annum will be paid on deposits held thirty days or more. Payment of the interest to the Customer shall be annually if requested by the Customer, or at the time the deposit is returned or credited to the Customer's account.

SECTION 2 - GENERAL REGULATIONS

2.6 PAYMENTS AND CHARGES (Continued)

2.6.5 ADVANCE PAYMENTS AND DEPOSITS (Continued)

B. DEPOSITS (Continued)

2. RETURN OF A DEPOSIT

A deposit will be credited to a Customer's account, and any credit balance remaining will be refunded, when a Customer has established credit, or when the Customer has established a prompt payment record with AT&T for one year, or when the private line service for which the deposit had been required, is discontinued.

2.6.6 TYPES OF CHARGES

There are two types of charges, recurring and nonrecurring. These charges are as follows:

A. RECURRING CHARGES

The recurring charges for a private line service are listed in the applicable service section as:

1. MONTHLY CHARGE

A monthly charge applies each month or fraction thereof that a private line service is furnished. Monthly charges start on the day after the private line service is installed, but not before the due date of the order unless the Customer agrees to an earlier installation. Charges accrue through and include the day that the private line service is discontinued. Monthly charges will be billed in advance. When the billing date and the date that the private line service is started, changed, or discontinued do not coincide, the charges will be adjusted to reflect the fractional part of the month involved (see Fractional Charges and Credits, Section 2.6.9). For billing purposes each month is considered to have 30 days.

B. NONRECURRING CHARGES

MISSOURI

A nonrecurring charge applies for an activity, such as installation or a change, ordered by the Customer. A nonrecurring charge applies for each activity performed. The charge may differ according to the work activity involved. Other charges, such as Termination Charges, are also classified as nonrecurring charges. In addition, other charges for specific functions as stated in this tariff are applied on a nonrecurring basis. Following is a description of the generic nonrecurring charges. Other non-recurring charges are described in Sections 2.6.7, 2.6.8 and in Section 18, following.

1. INSTALLATION CHARGE

An Installation Charge applies when a private line service is furnished. Installation Charges are listed in the appropriate sections of this tariff (see also Change of an Order, Section 2.6.7.E and Change in Service Arrangement, Section 2.6.8).

2. MOVE CHARGE

A move charge applies when the physical location of the termination of an Inter Office Channel, an office connection, an office function or local channel is changed at the Customer's request. A move of any of these is considered to be the discontinuance of service at the old location and the reinstallation of the service at the new location. Installation charges apply only for the components that are moved. A new minimum payment period will be established.

When a component with a Termination Charge is moved, the Customer may elect either of the following options:

- Pay the unexpired portion of the Termination Charge. A new Termination Charge will be established at the new location, or
- Keep the component, subject to the unexpired portion of the Termination Charge, and pay the costs of moving the component. If the Customer requests a quotation of those moving costs prior to placing an order, the charges will be estimated on the basis of the costs involved.

3. TERMINATION CHARGE

A Termination Charge applies when a Customer orders the discontinuation of a private line service before the expiration of a specified period of time. Termination charges apply to specific components as set forth in the appropriate sections of this tariff. The charge has two elements, a dollar amount and a specified period of time. This period, expressed in months, is shown in brackets next to the dollar amount (e.g., \$10,000[120] in the appropriate sections of this tariff. The Termination charge is determined by multiplying the dollar amount by the ratio of the unexpired portion of the specified period of time. A description and example of the process for determining Termination Charges follows:

A. DELAY OF A DUE DATE BY THE CUSTOMER

Public Service Commission

A Customer may delay the due date of an order involving the installation, move or rearrangement of a private line service when:

- B. following is not applicable and the request for the delay is received by AT&T prior to the order's due date, and
- The total delay measured from the order's initial due date does not exceed 30 cumulative calendar days.

Orders involving the discontinuance of a private line service may be delayed at any time prior to the due date. There will be no maximum delay period for these orders.

1. MAXIMUM DELAY PERIOD

When the Customer has delayed an order for the maximum 30 cumulative calendar day period, the order may not be delayed again by the Customer. In such case, unless B. following applies, the Customer has the option to (1) accept billing for the private line service ordered, or (2) cancel the order and pay the applicable cancellation charge for the private line service ordered. The billing or cancellation is effective on the 30th cumulative calendar day of the delay.

If the Customer elects to accept billing, the installation will be completed as soon as reasonably practical after the Customer advises AT&T that the installation can be completed.

A. DELAY OF A DUE DATE BY THE CUSTOMER

A Customer may delay the due date of an order involving the installation, move or rearrangement of a private line service when:

- B. following is not applicable and the request for the delay is received by AT&T prior to the order's due date, and
- The total delay measured from the order's initial due date does not exceed 30 cumulative calendar days.

Orders involving the discontinuance of a private line service may be delayed at any time prior to the due date. There will be no maximum delay period for these orders.

B. DELAY OF A DUE DATE BY AT&T

AT&T will make every reasonable effort to assure that the private line service ordered is furnished on the due date. However, in some cases a delay in the installation may be unavoidable. If an order is delayed beyond its due date for more than 30 cumulative calendar days and such delay is not requested or caused by the Customer, the Customer may cancel the order without cancellation charges applying.

C. CANCELLATION OF AN ORDER

A critical date schedule is established by AT&T for each private line service placed by a Customer. AT&T uses this schedule to identify key activities in the service order process, to monitor the progress of the installation, and to administer the schedule of cancellation charges. Critical date schedules may vary between service orders. The specific critical dates which have been established for a given order can be obtained from the Customer's AT&T sales negotiator.

The critical dates monitored by AT&T are:

- Application Date (APP): The date on which the Customer provides a firm commitment and sufficient information to AT&T to proceed with issuance of a firm order for service.
- Scheduled Issue Date (SID): The date on which the service order is entered into AT&T's service order distribution system.
- Design Layout Report Date (DLRD): The date on which the Design Layout Report (DLR) or access interface information is received by AT&T from the LEC.

- Records Issue Date (RID): The date on which all circuit design and assignment information is sent to the central office installation force.
- Wired and Office Tested Date (WOT): The date by which all intraoffice wiring is completed, all plug-ins are optioned and aligned, and frame continuity is established.
- Circuit Test and Acceptance (CTA) Date: The date on which overall testing of the service is completed.
- Due Date (DD): The date that has been established for completion of the installation of a private line service.

If an order for a private line service is canceled by the Customer prior to the SID, no charge applies. For cancellations by the Customer on or after the SID, a cancellation charge will apply to each canceled order. The amount of the cancellation charge will vary according to the category of service ordered and the date reached in the critical date schedule.

Cancellation charges applicable to the components of each category of private line service are listed in the service-specific sections of this tariff except for ACCUNET T45 Services. For this exception, the lesser of the following charges apply if the order is canceled:

- A charge equal to an estimate of the net costs incurred in such installation, or
- The charge for the minimum payment period of the service ordered by the Customer as provided in this tariff.

(AT)

(AT)

If the Customer or the Company delays the due date of an order, in accordance with A. or B. preceding, the critical date schedule for the order will be revised for those critical dates not yet passed. Subsequent cancellation of the delayed order by the Customer will cause a cancellation charge based on the revised schedule to be incurred.

2.6.8 CHANGE IN SERVICE ARRANGEMENT

When a Customer requests that a private line service be changed after the service date, charges are determined in accordance with A. and B. following.

A. WHEN CHARGES APPLY

Charges apply for the following changes:

1. When a change involves (1) a change from one transmission speed or bandwidth to another, it is considered to be the discontinuance of one private line service and the installation of a new private line service. Installation charges apply for the new private line service and a new minimum payment period is established.
2. When a change involves a change in the office connection or in conditioning, it is considered to be the discontinuance and reinstallation of the private line service involved. Installation charges for the changed components, as appropriate, apply. A new minimum payment period is not established. Installation charges for components continued in use do not apply. A component is considered to be continued in use if (1) there is no break in billing for the recurring charge(s) for the component(s), (2) the component is not changed.
3. For all other changes to a private line service, excluding those changes identified in B. following, the installation charge for the component involved applies.

2.6 PAYMENTS AND CHARGES (Continued)

2.6.9 FRACTIONAL CHARGES AND CREDITS

A. COMPUTING CHARGES OR CREDITS FOR A FRACTIONAL PART OF A MONTH

When rates are stated on a monthly basis, each month is considered to have 30 days for billing purposes. Charges or credits for a fractional part of a month are calculated by counting the number of days remaining in the billing period after the private line service is furnished or has been discontinued. The number of days remaining in the billing period (including the 31st day of a 31-day month, if applicable) are counted starting with the day after the date on which the private line service was furnished or discontinued. Divide that figure by 30 days. The resultant fraction is then multiplied by the monthly charge to arrive at the fractional monthly charge or credit.

Example: Private line service furnished/discontinued on the 15th day of a 30-day month.

Monthly Charge	=	\$1,000.00
No. of Days Remaining in Billing Period	=	15 days
Billing Month	=	30 days
Fraction Monthly Charge/ Credit	=	$\frac{\text{No. of Days Remaining in Billing Period}}{\text{Billing Month}} \times \text{Monthly Charge}$
Fraction Monthly Charge/ Credit	=	$\frac{15}{30} \times \$1,000.00$
Fraction Monthly Charge/ Credit	=	\$500.00

Example: Rate change effective on the 12th day of the 28 day month.

Old Monthly Charge	=	\$1,000.00
No. of Days Remaining in Billing Period	=	17 days
Billing Month	=	30 days
Fractional Part of Month Billed at the New Rate	=	$\frac{17}{30}$
Rate Change	=	\$60 monthly increase
Fractional charges or Credit for the Rate Change	=	$\frac{17}{30}$ monthly increase
Billing for the Month in which the Rate Change Occurred (for a rate decrease Subtract the fractional charges)	=	$\$1,000 + \$34 = \$1,034.00$
Subsequent New Monthly Charges	=	$\$1,000 + \$60 = \$1,060.00$

In the above example, the number of days remaining in the billing period would be 19 for a 30-day month and 20 for a 31-day month. The same process would be used for computing the fractional monthly charge or credit.

2.6 PAYMENTS AND CHARGES (Continued)

REC'D OCT 02 2000

2.6.9 FRACTIONAL CHARGES AND CREDITS (Continued)

C. ROUNDING TO THE NEAREST CENT

If the computed charge(s) or credit include one-half cent or more, the fraction is rounded up to the next higher cent. Fractions of less than one-half cent are disregarded.

2.6.10 LATE PAYMENT CHARGE

(AT)

If any portion of the Customer's payment is received by the Company after the payment due date, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, subject to billing and system availability, a Late Payment Charge shall be due to the Company, provided billing capability exists. The Late Payment Charge shall be the portion of the payment not received by the date due, multiplied by a factor. The late payment factor shall be 1.5% per month (18% annually), and will apply to all amounts in excess of \$25.00 previously billed on a Customer's bill, including arrears and Late Payment Charges, and which remain unpaid within 30 calendar days from the invoice date. The minimum Late Payment Charge is \$5.00.

Late Payment Charges do not apply to the disputed portion of unpaid balances, if resolved in favor of the Customer. The disputed portion of unpaid balances, if resolved in favor of the Company, may be subject to the Late Payment Charge as of the original due date noted on the Customer's bill. Undisputed amounts of the same bill may be subject to the Late Payment Charge if they remain unpaid by the due date noted on the Customer's bill.

Collection procedures and security deposit requirements are unaffected by the application of the Late Payment Charge.

The Late Payment Charge does not apply to final accounts.

SECTION 2 - GENERAL REGULATIONS

2.7 CREDIT ALLOWANCES FOR INTERRUPTIONS

MAR 20 1992

2.7.1 GENERAL

A credit allowance will be given when a private line service is interrupted, except as specified in Section 2.7.2 following. An interruption period begins when the Customer reports a private line service to be interrupted and releases it for testing and repair. An interruption period ends when the private line service is operative. Only the interrupted portion of the private line service will receive a credit. If the Customer reports a private line service to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

In addition, there are specific credit allowance regulations that only apply to a particular private line service. Those regulations are specified in the section of the tariff which is applicable to the specific private line service.

2.7.2 WHEN CREDIT ALLOWANCE DOES NOT APPLY

Credit allowance does not apply for:

- A. Interruptions caused by the negligence of the Customer or others authorized by the Customer to use the Customer's service.
- B. Interruptions due to the failure of power, equipment, systems or connections not provided by AT&T pursuant to this tariff,
- C. Interruptions during any period when the Customer or User has released a private line service for maintenance or rearrangement purposes, or for the implementation of a Customer order,

SECTION 2 - GENERAL REGULATIONS

2.7 CREDIT ALLOWANCES FOR INTERRUPTIONS (Continued)

2.7.2 WHEN CREDIT ALLOWANCE DOES NOT APPLY (Continued)

- D. Interruptions which continue because of the Customer's failure to authorize replacement of any element of special construction. The period for which credit is not allowed, begins on the seventh day after the Customer receives AT&T's written notification of the need for such replacement. It ends on the day after receipt of the Customer's written authorization for such replacement.
- E. Interruptions during periods when the Customer elects not to release the private line for testing and/or repair,
- F. Interruptions caused by the failure of access, or
- G. An interruption or group of interruptions, resulting from a common cause, for amounts less than one dollar.

2.7.3 USE OF ANOTHER MEANS OF COMMUNICATION

If the Customer elects to use another means of communications during the period of interruption, the Customer must pay the charges for the alternative service used.

2.7.4 TEMPORARY SURRENDER OF A PRIVATE LINE SERVICE

In certain instances, the Customer may be asked to surrender a private line service for purposes other than maintenance, testing or activity relating to a service order. If the Customer consents, a credit will be given. One day's credit will be given for each 24 hour period or fraction thereof that the service is surrendered.

2.7.5 CALCULATION OF CREDIT ALLOWANCES

MISSOURI

The credit allowances for all private line services are set forth in this section.

For calculating credit allowances for monthly services, every month is considered to have 30 days.

- A. (RESERVED FOR FUTURE USE)
- B. ALL OTHER PRIVATE LINE SERVICES

A credit allowance will be given for all other private line services that are interrupted for 30 minutes or more with the exception of ACCUNET T1.5 Services as described in Section 2.7.5.B.2 following and ACCUNET T45 Services as described in (AT) Section 2.7.5.B.3 following. The credit allowance is determined in (AT) the following manner.

- a. Calculate the Average Point Value by adding the total monthly charges for the private line service. That sum is then divided by the total number of AT&T Central Offices on the service to obtain the Average Point Value.
- b. Calculate the Average Point Value for one full day by dividing the Average Point Value for one month by 30 days:
 - a. divided by 30.
- c. Multiply the Average Point Value for one day by the interruption period to be credited (see Calculation Table, B.1 following) in order to determine the credit for one point: $b. \times \text{interruption period}$.

a. INTERRUPTIONS OF 24 HOURS OR LESS

Length of Interruption

Interruption
Period
to be Credited

Less than 30 minutes	None
30 minutes up to, but not including 3 hours	1/10 day
3 hours up to, but not including 6 hours	1/5 day
6 hours up to, but not including 9 hours	2/5 day
9 hours up to, but not including 12 hours	3/5 day
12 hours up to, but not including 15 hours	4/5 day
15 hours up to 24 hours inclusive	One day

Two or more interruptions of 30 minutes or more, during any period up to but not including three hours, shall be considered as one interruption.

b. INTERRUPTIONS OVER 24 HOURS

Interruptions over 24 hours will be credited 1/5 day for each three-hour period or fraction thereof. No more than one full day's credit will be allowed for any period of 24 hours.

2. ACCUNET T1.5 SERVICES

For ACCUNET T1.5 Services' Customers, an interruption allowance in lieu of that specified in 2.7.5.B.1 above will be made for each reported interruption, in accordance with the table below. If more than one interruption is reported on a channel in a given month, each subsequent interruption is considered independently in calculating total credits for that channel on the following month's bill. However, the cumulative credit allowances may not exceed 100 percent, per channel, in a given month. Credit may not be carried over to subsequent months.

2.7 CREDIT ALLOWANCES FOR INTERRUPTIONS (Continued)

2.7.5 CALCULATION OF CREDIT ALLOWANCES (Continued)

B. ALL OTHER PRIVATE LINE SERVICES (Continued)

3. ACCUNET T45 SERVICES

(AT)

For ACCUNET T45 Services Customers, an interruption allowance in lieu of that specified in 2.7.5.B.1 preceding will be made for each reported interruption, in accordance with the table below. If more than one interruption is reported on a channel in a given month, each subsequent interruption is considered independently in calculating total credits for that channel on the following month's bill. However, the cumulative credit allowances may not exceed 100 percent, per channel, in a given month. Credit may not be carried over to subsequent months.

The Customer's recurring charges for the channel and associated rate elements in the month that the interruption occurs will be the basis for calculation of the credit allowance for that month.

SECTION 2 - GENERAL REGULATIONS

2.8 CONNECTIONS

2.8.1 GENERAL

When access is connected to private line service at the same AT&T Central Office, the connection will be made if the private line service and the access are electrically compatible. The regulations in this section and in the section(s) and tariff(s) applicable to a specific AT&T service will apply to the connection.

Coordinating agreements are necessary between AT&T and access providers to establish arrangements for common functions at AT&T Central Offices such as space, power and light. In addition, technical agreements, similar to those in place with local exchange companies, are required between AT&T and access providers to establish the specific arrangements by which the access will be connected to AT&T's services.

Connections will be made using office connections as described in Section 3.3.2. The responsibilities of AT&T and the Customer are specified following.

A. RESPONSIBILITIES OF AT&T

AT&T is not responsible to any party if a change in its Minimum Protection Criteria, operations or procedures (1) affects any access in any way, or (2) requires its modification in order to be used. However, if such changes can be reasonably expected to materially affect the operating, switching or transmission characteristics of the AT&T service, or render the access incompatible, AT&T will provide reasonable notice in writing to allow the Customer the opportunity to maintain uninterrupted service.

2.8 CONNECTIONS (Continued)

2.8.1 GENERAL (Continued)

A. RESPONSIBILITIES OF AT&T (Continued)

Unless AT&T is responsible for end-to-end service as defined in Section 2.1.1, preceding, AT&T is not responsible for changing its channels or components to maintain compatibility with access. However, if such changes are requested, AT&T will, upon receipt of a Customer order, endeavor to make the changes without interrupting service.

The testing of an AT&T service will be made from an AT&T Central Office.

In certain situations, assistance is available in matters pertaining to testing of assemblies. The services offered are set forth in this tariff (see Additional Administrative and Operational (CT) Functions, Section 18).

B. RESPONSIBILITIES OF THE CUSTOMER

When access is connected at an AT&T Central Office the Customer assumes responsibility for the connection as follows:

1. ORDERING

Unless AT&T is responsible for end-to-end service as described in Section 2.1.1 preceding, the Customer must make all arrangements concerning the access with its provider and must make arrangements with AT&T for the connection.

2. COMPATIBILITY WITH THE AT&T SERVICE

Unless AT&T is responsible for end-to-end service as defined in Section 2.1.1 preceding, the Customer is responsible for the compatibility of the access with the AT&T service. This Customer responsibility applies at the initial installation and on a continuing basis as long as the connection is made.

When a connection of access is made at an AT&T Central Office and AT&T is not responsible for end-to-end service as defined in Section 2.1.1 preceding, AT&T does not warrant that any portion of the assembly will operate properly or that transmission will be satisfactory. If, however, a trouble condition is reported, AT&T will assure that the channels and components AT&T provides are operating properly with satisfactory transmission.

3. INTERFACE INFORMATION

The Customer must specify the type of interface which is required.

4. TESTING AND MAINTENANCE

If a trouble condition occurs on an assembly, the Customer is responsible for determining if the trouble is in the connected access. AT&T will only test and maintain its service.

SECTION 2 - GENERAL REGULATIONS

2.9 VIOLATION OF REGULATIONS

2.9.1 GENERAL

AT&T may take immediate action to protect its private line services or interests when certain regulations contained in this tariff are violated. The specific regulations involved and the action which will be taken by AT&T are as specified in Sections 2.9.2 and 2.9.3 following.

2.9.2 INTERFERENCE, IMPAIRMENT OR IMPROPER USE

AT&T will take immediate action to temporarily suspend the private line service when a Customer violation of Section 2.8.3 preceding occurs which:

- Subjects AT&T or non-AT&T personnel to hazardous conditions,
- Circumvents AT&T's ability to charge for its services, or
- Results in immediate harm to the private line service or other AT&T service.

In such cases, AT&T will make reasonable efforts to give the Customer prior notice before temporarily suspending service.

In addition, if a Customer fails to comply with Section 2.8.3 preceding, AT&T may, on ten (10) day's written notice by certified U.S. mail to the Customer, deny requests for additional private line services and/or temporarily suspend the private line service to the non-complying Customer. If AT&T does not deny or temporarily suspend the private line service(s) involved on the date of the ten (10) days' notice, and the Customer's non-compliance continues, nothing contained herein shall preclude AT&T's right to deny or temporarily suspend the private line service without further notice.

The person or legal entity which orders a private line inter office service (either directly or through an agent).

CUSTOMER'S PREMISES

The premises of a Customer or User. It also includes Customer-designated non-AT&T premises.

DIRECT ELECTRICAL CONNECTION

A physical connection (i.e, not through a switch) of the electrical conductors in a communications path.

DS1 CHANNEL

An ACCUNET T1.5 Service Inter Office Channel, Local Channel from Schedule 11 of this tariff, or other access which meets the signal and format constraints described in Technical Publication-PUB 62411.

CHANNEL OPTION

MISSOURI
Public Service Commission

A private line service component added to an Inter Office Channel to change and/or augment its transmission characteristics.

COMPONENT

An element furnished under this schedule. Components are the channel(s), office connections, station connections, channel options, and office functions.

CUSTOMER

The person or legal entity which orders a private line inter office service (either directly or through an agent).

CUSTOMER'S PREMISES

The premises of a Customer or User. It also includes Customer-designated non-AT&T premises.

DIRECT ELECTRICAL CONNECTION

A physical connection (i.e, not through a switch) of the electrical conductors in a communications path.

DS1 CHANNEL

An ACCUNET T1.5 Service Inter Office Channel, Local Channel from Schedule 11 of this tariff, or other access which meets the signal and format constraints described in Technical Publication-PUB 62411.

MAR 29 1992
Missouri
Public Service Commission*

ENCODED ANALOG CONTENT

An analog signal which has been coded and multiplexed within a digital signal.

EQUIVALENT ANALOG SIGNAL POWER

The power of the analog signal at the output of a zero level decoder, obtained when a private line signal is the input to the decoder. A zero level decoder yields an analog level of 0 dBm at its output when the input is a digitally encoded milliwatt signal.

FUNCTION CONNECTION

A private line service component which connects, at an AT&T Central Office, an office function to channels and other AT&T Services, an IOC to other AT&T Services and an AT&T Service to other AT&T Services.

INTER OFFICE CHANNEL

A private line service component which connects an AT&T Central Office to another AT&T Central Office.

INTERFACE

The electrical and physical means by which a connection is made at an AT&T Central Office.

LOCAL ACCESS AND TRANSPORT AREA

A geographic area established for the provision and administration of communications service. It encompasses one or more designated exchanges which are grouped to serve common social, economic and other purposes.

LOCAL CHANNEL

A private line channel that connects an AT&T Central Office to a Customer's premises, or connects two Customer's premises.

MULTIFREQUENCY PULSING

An inband interoffice address signaling method in which ten decimal digits and five auxiliary signals are each represented by selecting two frequencies out of a group consisting of: 700, 900, 1100, 1300, 1500, and 1700 Hz.

MULTIPOINT

A private line service directly connecting three or more AT&T Central Offices.

NETWORK INTERFACE

The point of demarcation on the end user's premises at which the access supplier's responsibility for the provision of access ends.

OCTET

An eight-bit byte. A byte is a small group of data bits handled as a unit.

3.1 GENERAL

This section provides a general overview of the private line services available in this tariff. It includes a description of each service. More detailed descriptions are located within the section of this tariff that applies to a given type of service.

3.2 PRIVATE LINE SERVICE CATEGORIES

There are several categories of private line service. Each service category has its own technical characteristics and specifications, and most are further subdivided into speed or type of transmission. Following is a brief description of each service category. AT&T Central Offices for specific categories are enumerated in AT&T Tariff F.C.C. No. 10.

3.2.1 ACCUNET T1.5 SERVICE

Provides services for the transmission of large volumes of communications at 1.544 Mbps.

3.2.2 DATAPHONE DIGITAL SERVICES

(CT)

Provides services for the transmission of large volumes of communications at 1.544 Mbps.

(AT)

(AT)

3.2.3 (RESERVED FOR FUTURE USE)

3.2.4 ACCUNET SPECTRUM OF DIGITAL SERVICES

Provides services for the transmission of digitally-encoded voice band signals or simultaneous two-way transmission of data at synchronous speeds of either 56 or 64 kbps, 128 kbps, 256 kbps, 384 kbps, 512 kbps or 768 kbps.

SECTION 3 - GENERAL DESCRIPTION

SEP 22 1993

3.3 SERVICE COMPONENTS

MISSOURI
Public Service Commission

A private line service connects two or more points which may be AT&T Central Offices, Customer premises, or combinations thereof. A private line service may also consist solely of an office function.

3.3.1 INTER OFFICE CHANNEL

An IOC is a channel between two AT&T Central Offices. An IOC may be provided between LATAs or within a LATA.

3.3.2 OFFICE CONNECTIONS

Office connections provide the physical connection, at an AT&T Central Office, of access, an office function(s), an IOC and Switched Digital Service.

A. ACCESS CONNECTION

An access connection provides the physical connection, at an AT&T Central Office, of a local channel obtained from Private Line Services Tariff P.S.C. Mo. No. 11 of this tariff, or other access, to an IOC, office function, another local channel or other access. One access connection applies for each local channel or other access connected. (CT)

Examples of the types of connections are:

- a local channel to: another local channel, other access, an office function or an IOC.
- other access to: an office function or an IOC.

When access is connected to a Company service and the Customer wishes the Company to perform the functions of access design, ordering, installation, coordination, pre-service testing and service turn-up, trouble sectionalization and restoration coordination, the Access Coordination Function furnished from Private Lines Services Tariff P.S.C. Mo. No. 11 of this tariff, provides those functions. When the Access Coordination Function is ordered, the Company will design the service based upon standard engineering considerations which may not produce a minimum office configuration. (CT)

3.3.2 OFFICE CONNECTIONS (Continued)

MISSOURI

A. ACCESS CONNECTION

Public Service Commission

When access is connected to an AT&T service and the Customer wishes AT&T to perform the functions of access design, ordering, installation, coordination, pre-service testing and service turn-up, trouble sectionalization and restoration coordination, the Access Coordination Function furnished from Tariff 11 of this tariff, provides those functions. When the Access Coordination Function is ordered, AT&T will design the service based upon standard engineering considerations which may not produce a minimum price configuration.

When other access is connected to an AT&T service and the Customer wishes AT&T to perform only the function of physical connection of the other access to a service component at an AT&T Central Office, an access connection only is employed. In such cases AT&T makes or implies no warranty that the assembly will operate properly or that transmission will be satisfactory.

B. FUNCTION CONNECTION

A function connection provides the physical connection at an AT&T Central Office of an office function to an IOC or another office function.

Examples of the type of connections are:

- An office function to: an IOC
- An office function to: another office function
- An IOC to: Switched Digital Service as specified in 3.3.2 preceding.

3.3.3 CHANNEL OPTIONS

Channel options are features which can be added to an Interoffice Channel to change or to augment its transmission characteristics. Typical channel options are signaling and data conditioning.

3.3.4 OFFICE FUNCTIONS

Office functions are optional functions performed at AT&T Central Offices which enable a Customer to increase the efficiency or usefulness of its service. They include switching arrangements such as DSI Switch Port, Multiplexing (such as M-24); transfer arrangements; and alternate use arrangements. Office functions are connected with channels or other office functions by office connections.

PRIVATE LINE SERVICES TARIFF

Section 4
1st Revised Sheet 76
Replacing Original Sheet 76

SECTION 4 - INTER OFFICE CHANNEL MILEAGE MEASUREMENT

4.1 GENERAL

The rate mileage for an Inter Office Channel, except as noted herein, is the airline distance measured between two AT&T Central Offices.

To determine the rate mileage for an Inter Office Channel, first determine the appropriate AT&T Central Office as described below.

4.1.1 DETERMINING AT&T CENTRAL OFFICES

The appropriate AT&T Central Office used to price a private line service is determined by (1) the LATA(s) in which the private line service is desired, (2) the category of private line service to be provided, and (3) the designated AT&T Central Offices when certain office functions are involved.

A. DETERMINING THE AT&T CENTRAL OFFICES WITHIN A LATA

The Customer may specify a particular AT&T Central Office within a LATA (i.e., Customer specified routing). In such cases, the Interoffice Channel will be physically routed and priced to the AT&T Central Office specified by the Customer. If the Customer does not make such a specification, AT&T will determine the AT&T Central Office(s) for a LATA, using the telephone number which normally serves the Customer's premises and the type of service to be provided as follows:

1. In Section 3 of AT&T Tariff F.C.C. No. 10, look up the area code and first three digits of the telephone number and find its rate center listing.
2. In Section 4 of the AT&T Tariff F.C.C. No. 10, look up the rate center and find its LATA number.

and Original Sheet 79

SECTION 4 - INTER OFFICE CHANNEL MILEAGE MEASUREMENT

4.1 GENERAL (Continued)

4.1.2 CALCULATION OF AIRLINE MILEAGE

Airline mileage between V&H coordinates is calculated as set forth in AT&T Tariff F.C.C. No. 10. Following is an example of how mileage is calculated in accordance with those regulations.

- A. After determining the V&H coordinates of the AT&T Central Offices on a private line service as described in 4.1.1 preceding, calculate the mileage between the V&H coordinates as follows:

1. Example:

Kansas City	(KSCYMO09)	(V)	07028	(H)	04202
St. Louis	(STLSMO09)	(V)	06807	(H)	03483

2. Obtain the difference between the V coordinates. Then obtain the difference between the H coordinates. (The difference is always obtained by subtracting the smaller coordinate from the larger).

	V	H
	07028	04202
	<u>- 06807</u>	<u>- 03483</u>
Difference	221	719

3. Square each difference

$$(221)^2 = 48,841$$

$$(719)^2 = 516,961$$

4. Add the squares of the two differences.

$$48,841 + 516,961 = 565,802$$

5. Divide the sum of the squares by 10. (Round any fraction obtained to the next higher whole number.)

$$565,802 / 10 = 56,580.2$$

6. Take the square root of the result obtained in 5. The resultant is the airline miles of the IOC. (Fractional miles are rounded to the next higher whole number.)

$$\text{Square root of } 56,581 = 237.86$$

$$\text{IOC airline mileage (rounded)} = 238 \text{ miles}$$

SECTION 4 - INTER OFFICE CHANNEL MILEAGE MEASUREMENT

4.2 TWO-POINT MILEAGE MEASUREMENT

The rate mileage for the IOC on a two-point private line service is the airline distance measured between two AT&T Central Offices.

4.3 MULTIPOINT MILEAGE MEASUREMENT

The rate mileage for the IOC(s) on a private line service with three or more AT&T Central Offices is the sum of the individual airline mileages measured between each pair of AT&T Central Offices which produces the lowest total mileage charge when all of the AT&T Central Offices are connected together.

Exceptions to this method of measurement may apply in those cases when the Customer specifies the sequence in which the IOCs are connected (see Exceptions to Inter Office Channel Mileage Measurements, Section 4.4 following).

4.4 EXCEPTIONS TO INTER OFFICE CHANNEL MILEAGE MEASUREMENTS

In certain cases there are exceptions to the way IOC mileage measurements are determined. This section describes those exceptions.

4.4.1 CUSTOMER SPECIFIES THE IOC ROUTING OF A MULTIPOINT SERVICE

This exception applies to multipoint services where the AT&T Central Offices are connected together in the sequence specified by the Customer.

The total rate mileage is the combination of individual two-point airline distances measured between the AT&T Central Offices based on the sequence requested by the Customer.

The service would be physically routed in the sequence requested by the Customer and would be priced according to that routing.

SECTION 5 - ACCUNET T1.5 SERVICES

MAR 24 1992

5.1 GENERAL

An ACCUNET T1.5 Service provides for the transmission of 1.544 Mbps digital signals over terrestrial channels.

An ACCUNET T1.5 Service uses one of two types of DS1 signal formats. They are:

- A framed DS1 signal format (D4 or ESF), and
- An unframed DS1 signal format for U.S. Government Agencies only.

Customers (except U.S. Government Agencies and others furnishing service to U.S. Government Agencies) are required to select either D4 format or where available, the Extended Superframe (ESF). The D4 format is described in Technical Publication-PUB 62411 and ESF is described in Technical Publication-PUB 54016, (see Technical Publication Information, Sheet 17). U.S. Government Agencies may obtain ACCUNET T1.5 Services free from any format constraint by notifying AT&T of such an election at the time service is ordered.

Certain governmental agencies are required by law not to purchase service(s) except under arrangements that terminate if funds are not available. These agencies may discontinue the plans specified in 5.1.9 without penalty or recourse if they terminate service(s) covered under the plans because funds are not available.

5.1.1 DESCRIPTION

ACCUNET T1.5 Services are configured by furnishing office functions or by combining components to connect two AT&T Central Offices. AT&T Central Offices may be within the same LATA or may be located in different LATAs. ACCUNET T1.5 Services are furnished on a two-point basis only.
