NOV - 7 1997(CT)

1.4.13 Local Exchange Company Debit Card Service for Intrastate Calls - (CT)  
(Continued)

MO. PUBLIC SERVICE COMMISSION

D. Regulations - (Continued)

3. A Customer's calls will be interrupted with an announcement when the balance is about to be depleted. Such announcement will occur one minute before the balance will be depleted, based on the terminating location of the call.
4. Calls in progress will be terminated by the Company if the balance of the LEC Debit Card is insufficient to continue the call.

E. Rates and Charges

LEC Debit Cards may be obtained in various unit denominations with a per unit value, inclusive of taxes, as indicated below, depending upon the issuing LEC:

<u>Local Exchange Company</u>	<u>Unit Value</u>	<u>Available</u>
Southwestern Bell	\$0.45	2/13/96

Calls completed while utilizing a LEC Debit Card are timed at one-minute intervals. One unit equals one minute (or fraction thereof) of calling.

F. Credit Allowances for Interruptions

A credit allowance for LEC Debit Card Service is applicable to that portion of a call that is interrupted due to poor transmission, one-way transmission, or involuntary disconnection of the call. A Customer may also be granted credit for reaching a wrong number. To receive the proper credit, the Customer must notify the LEC, prior to or at the expiration of the card, at the designated Customer Service Number printed on the LEC Debit Card and furnish the called number, the trouble experienced (e.g., cutoff, noisy circuit, reached wrong number, etc.), and the approximate time the call was placed.

1.7.6 Minimum Protection Criteria - (Continued)

MISSOURI  
Public Service Commission

C. For Direct Electrical Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on a direct electrical basis must comply with the following.

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the point-of-presence not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the premises equipment or communications system to the demarcation point will be specified for each customer location. In no case shall the power exceed one milliwatt.

D. Acoustic or Inductive Connections

In addition to the regulations in B. preceding, customer premises equipment and communications systems which are connected to MTS on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the demarcation point located on the customer's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each customer, independent of distance from the point-of-presence, to supply signal power which at the point-of-presence approximates 12dB below one milliwatt when averaged over any three second interval, the Company, at the customer's request, will specify, for each customer location, the signal power at the demarcation point, which shall in no case exceed one milliwatt.

1. Interruptions to Established Calls

When a call charged to a LEC Debit Card is interrupted due to cutoff, one-way transmission, or poor transmission conditions, the Customer will receive a credit of one minute.

2. Wrong Numbers

When a wrong number is reached, the Customer will receive a credit of one minute if the customer reports the situation to the LEC at the designated Customer Service number.

3. When Credit Allowances Do Not Apply

Credit allowances for calls utilizing LEC Debit Card Service do not apply for:

- interruptions not reported to the LEC,
- interruptions that are due to the failure of power, equipment or systems not provided by the Company, or
- interruptions caused by the failure of other services provided by this Company which are connected to LEC Debit Card Service.

1.7.7 Recording of Two-Way Telephone Conversations

MISSOURI

The FCC has adopted regulations which apply to the recording of two-way telephone conversations of MTS. These services are not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

A. Direct Electrical Connection

(Filed in compliance with an Order adopted May 20, 1948, of the FCC, in Docket No. 6787.) Customer-provided voice recording equipment may be used to record two-way telephone conversations if a distinctive recorder tone is repeated at intervals of approximately fifteen seconds. This distinctive recorder tone is required when recording equipment is in use and is electrically connected with services of the Company. The distinctive recorder tone can be provided as part of: (1) the recording equipment, (2) the customer-provided registered or grandfathered protective circuitry, or (3) a grandfathered connecting arrangement.

The customer-provided voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer.

B. Recording Requirements - If a distinctive recorder tone is not used, one of the following conditions must apply:

1. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
2. All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party.

REC'D MAR 20 2001

1.4.14 Collect Calling Discount

A. General

Customers who place an Operator Station collect call over the AT&T Network by dialing an AT&T designated access number and complete an automated collect call which is billed to a line which cannot be identified solely as a commercial line, will receive special discounted rates in lieu of the rates for collect calls in Section 1.4.6, preceding.

The regulations set forth in Section 1.4.1, preceding, relating to rate periods, also apply to these calls.

The rates for the Collect Calling Discount are listed below.

REC'D AUG 28 1998

1.4.14 Collect Calling Discount

A. General

Customers who place an Operator Station collect call or Person-to-Person collect call over the AT&T Network by dialing an AT&T designated access number and complete an automated collect call which is billed to a line which cannot be identified solely as a commercial line, will receive special discounted rates in lieu of the rates for collect calls in Section 1.4.6, preceding.

The regulations set forth in Section 1.4.1, preceding, relating to rate periods, also apply to these calls.

The rates for the Collect Calling Discount are listed below.

RECEIVED

1.7 CONNECTIONS - (Continued)

1.7.7 Recording of Two-Way Telephone Conversations - (Continued) 1995

C. Exceptions to the Requirement for the Recorder Tone MISSOURI  
Public Service Commission

The distinctive recorder tone is not required:

1. When used by an FCC licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air. (Filed in compliance with an Order of the FCC adopted December 13, 1972.)
2. When used by the United States Secret Service of the Department of Treasury for recording two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds. (Filed in compliance with an Order of the FCC adopted January 22, 1975.)
3. When used by a broadcast network or by a cooperative programming effort, composed exclusively of FCC broadcast licensees, to record two-way telephone conversations solely for broadcast over the air by a licensed broadcast station. (Filed in compliance with an Order of the FCC adopted December 18, 1975.)
4. When used for recording at United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to MTS. (Filed in compliance with an Order to the FCC adopted May 19, 1976.)
5. When used by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center for the recording of two-way telephone conversations. (Filed in compliance with an Order of the FCC adopted January 29, 1981.)

D. Acoustic or Inductive Connections

Customer-provided voice recording equipment may not be connected to MTS for the recording of two-way telephone conversations by means of an acoustic or inductive connection, unless its use qualifies under the regulations, "Exceptions to the Requirement for the Recorder Tone."

1.4.15 AT&T Long Distance Wireless Service

REC'D SEP 06 2002

A. General

AT&T Long Distance Wireless Service is an AT&T Long Distance Service, which permits outbound calling from users of cellular or Personal Communications Service (PCS) telephones in Missouri.

Rates, regulations and material in this section are for two-point service only, and apply to Dial Station, Customer-dialed 1+ calls only.

B. Availability

AT&T Long Distance Wireless Service is available to Customers who obtain either Cellular Access from cellular service providers (other than AT&T Wireless Services) on either the A-side or B-side or PCS Access from PCS providers (other than AT&T Wireless Services), and Mobile Identification Numbers. AT&T Long Distance Wireless Service is also subject to billing availability.

C. Limitations

AT&T is not responsible if communications cannot be established or maintained due to Cellular Access or PCS Access or because of adverse atmospheric or other like limitations.

D. Application of Rates

The specific factors used to determine the applicable charges for a call are indicated on the rate schedule in Section 1.4.15, E. following. The following factors are common to all AT&T Long Distance Wireless Service rate schedules:

1. Class of Service - Only Dial Station class of service calls (Customer-dialed, 1+), are available. Customer Dialed Calling Card Station, Operator Dialed Calling Card Station, Operator Station, Person-to-Person, and Real Time Rated classes of service are available for cellular calls as specified in Section 1.4.6, preceding.

Effective October 6, 2002, this service is no longer available to new subscribers. AT&T will withdraw the service as subscribers are transitioned to another carrier.

REC'D SEP 06 2002

D. Application of Rates - (Continued)

- 2. Distance Measurements - Distance is calculated as stated in Section 1.3.3, preceding.
- 3. Initial Period - The initial period is one minute or any fraction thereof. For the initial period, the rate applicable at the start of chargeable time at the calling station applies.
- 4. Additional Period - Each additional period is one minute or any fraction thereof. For each additional period, the rate applicable is that rate which is in effect at the calling station when the additional period begins.
- 5. Computing the Charge for a Call - For the initial period, the rate applicable at the start of chargeable time at the calling station applies. For additional minutes, the rate applicable is that rate which is in effect at the calling station when the additional minute(s) begin. That is, if chargeable time begins during the Peak Rate Period, the Peak rate applies to the initial period and to any additional minutes that the call continues during that rate period. If the call continues into a different rate period, the appropriate rates from that rate period apply to any additional minutes occurring in that rate period. If an additional minute is split between two rate periods, the rate period applicable at the start of the minute applies to that entire minute. For Dial Station calls, if the computed charges include a fraction of a cent, the fraction is rounded to the nearest cent.
