TARIFF FORMAT

JUN 1 1993

MO. PUBLIC SERVICE COMM

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PSCM. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the PSCM follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

JUN 1 1993

2.1 Undertaking of Teltrust Communications Services, Inc. **MO. PUBLIC SERVICE COMM**

Teltrust's services and facilities are furnished for communications originating at specified points within the state of Missouri under terms of this tariff.

Teltrust installs, operates, and maintains the communications services provided hereinunder in accordance with the terms and conditions set forth under this tariff. Teltrust may act as the Customer's or Subscriber's agent for ordering access connection facilities provided by other carriers or entities (such as the local exchange company), when authorized by the Customer or Subscriber, to allow connection of a Customer's or Subscriber's location to the Teltrust network. The Customer or Subscriber shall be responsible for all charges due for such service arrangement.

Operator services are provided through the terminal equipment of Customers or Subscribers serving the transient public as End Users.

The Company's services and facilities are provided on a monthly basis unless otherwise provided, and are available twenty-four hours per day, seven days per week.

2.2 Limitations

2.2.1 Service is offered subject to the availability of the necessary facilities and equipment, or both facilities and equipment, and subject to the provisions of this tariff.

2.2.2 Teltrust reserves the right to discontinue or limit service when necessitated by conditions beyond its control, or when the Customer or Subscriber is using service in violation of provisions of this tariff, or in violation of the

law.

2.10 Payment for Service

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer or to an Authorized User of the Customer by Teltrust. Teltrust will arrange to bill calls in accordance with the credit card, collect call, or calling card instruction of the caller, via the designated commercial credit card clearing center or the applicable telephone company with whom Teltrust has a billing agreement. All charges due by the Customer are payable to the Company or to any agency duly authorized to receive such payments. Terms of payment shall be according to the rules and regulations of the agency and subject to the rules of regulatory agencies, such as the Public Service Commission of Missouri. Account payment will not be considered delinquent if payment has been received within 21 days of bill rendering. Any objections to billed charges must be promptly reported to the Company or the Company's billing agent. Adjustments to Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

In the event a Customer wishes to bill the call to an account with which Teltrust does not have a billing arrangement, Teltrust's equipment will direct the call from the origination point for access to the local exchange carrier, or presubscribed interexchange carrier, in which event no Teltrust charges apply and no commission is paid to the Subscriber.

Credit allowances for interruptions of service which are not due to the Carrier's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.4 herein. It shall be the obligation of the Customer to notify Carrier immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by Customer and connected to Carrier's terminal. Interruptions caused by Customer-provided or Carrier-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via local exchange company access.

MO. PUBLIC SERVICE COMM.

Teltrust offers direct dial, operator assisted and travel service calling services to Customers for the placing of intrastate calls within the State of Missouri. Interstate service is offered in conjunction with intrastate service.

3.2 Timing of Calls

3.2.1 Billing for calls placed over Teltrust's network is based in part on the duration of the call. Timing of each call begins as specified below and ends when the called party hangs up. Calls are billed in full minute increments unless otherwise specified.

Collect Calls - Timing begins when the called party accepts the responsibility for payment.

Person to Person - Timing begins when the calling party is connected with the designated called party or an agreed upon substitute.

All Other Calls - Timing begins when the called station is answered.

3.2.2 Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one minute.

3.2.3 The Company will not bill for unanswered calls. When an End User indicates that he/she was billed for an incomplete call, Teltrust will reasonably issue credit for the call.

3.3 Calculation of Distance**MO. PUBLIC SERVICE COMM.**

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the serving wire center of the Subscriber's switch and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

3.15 Debit Card Service

MO PUBLIC SERVICE COMMISSION

Debit Card Service is available to residential and business subscribers for placing calls while away from home or business. Calls are originated by dialing the 800 access number printed on the card, followed by an authorization code. Debit card accounts maintain a balance, which is depleted on a real-time basis as calls are placed. Customers are notified of their remaining balance at the beginning of each call. Calls may originate from standard residential, business or pay telephone access lines and may terminate to any interstate or intrastate location. Calls are billed in one (1) minute increments. The minimum call duration for billing purposes is one (1) minute. Debit card service is available twenty-four (24) hours a day, seven (7) days a week. The number of available cards is subject to technical limitations. Cards are offered to customers on a first come first serve basis.

(N)

3.15.1 Exclusions

- Calls to 500, 700, 800 and 900 numbers.
- Calls requiring the quotation of time and charges.
- Air to ground and high seas services.

3.15.2 Service Availability

(N)

- a. All calls must be charged against a Debit Card that has sufficient available balance.
- b. Debit card service can only be accessed through touch-tone telephones.
- c. A customer's call will be interrupted with an announcement when the balance is about to be depleted. Such announcement will occur one or two minutes (depending upon configuration) before the balance is depleted, based on the terminating location of the call.
