Re: Tariff Schedule to Adjust FAC Rate of Kansas City Power & Light Company

Dear Mr. Woodruff:

Pursuant to 4 C.S.R. 240-20.090(8) of the regulations of the Missouri Public Service Commission (“Commission”), Kansas City Power & Light Company (“KCP&L” or the “Company”) hereby submits proposed rate schedules to adjust charges related to the Company’s approved Fuel Adjustment Clause (“FAC”). The proposed rate schedules bear an issue date of January 31, 2019, and an effective date of April 1, 2019.

FAC net includable costs for the seventh accumulation period, or six-month period covering July through December 2018, exceeded the base energy costs included in base rates by approximately \$9 million for KCP&L. In addition, the true-up filing for the fourth accumulation period, or six-month accumulation period covering January through June 2017, is being made in conjunction with this tariff filing and reflects an over-collection of approximately \$511,952.

In accordance with the FAC for KCP&L approved by the Commission, the proposed rate schedules are designed to recover from customers 95 percent of those net cost increases. The proposed residential FAC charge will be \$0.00409 per kWh. Based on usage of 1,000 kWh per month, the customer will see a monthly charge of \$4.09. This represents a decrease of approximately \$1.46 to a KCP&L residential customer’s bill below the prior FAC.

Through a filing made concurrently herewith in Case No. EO-2019-0047, KCP&L provided notice of its election, effective January 1, 2019, to make the plant in service accounting (“PISA”) deferrals permitted under section 393.1400 RSMo. Due to the rate cap provisions of section 393.1655 RSMo., KCP&L performed the calculations to determine if this semi-annual FAC filing exceeded the 3% cap on the Average Overall Rate or the 2% cap on the Class Average

Overall Rate for the Large Power customer class. As shown in the KCP&L PISA Calculation that is provided as support with this filing, there is no PISA impact resulting from this FAC filing.

Direct Testimony and supporting schedules of Lisa Starkebaum are submitted concurrently herewith along with schedules containing the information required by 4 C.S.R. 240-20.090(8), including all work papers that support the proposed rate schedules.

Copies of the proposed FAC-related rate schedules and all supporting materials described in this letter will be served electronically, this date, on the Commission's General Counsel, the Office of Public Counsel, and each party to Case No. ER-2018-0145.

Please provide a copy of all correspondence, notices, orders, and other communications that relate to this filing to the following as well as undersigned counsel:
