**TARIFF FORMAT**

- A. Sheet Numbering — Sheet numbers appear in the upper-right corner of the sheet. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between Sheets Nos. 7 and 8 would be Sheet No. 7.01.
- B. Sheet Revision Numbers — Revision numbers also appear in the upper-right corner of the sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 2nd revised Sheet No. 7 cancels the 1st revised Sheet No. 7. Because of various suspension periods, deferrals, etc. the Commission follows in their Tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect.
- C. Paragraph Numbering Sequence - There are eight levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
