**RE: Tariff Schedule to Adjust Renewable Energy Standard Rate Adjustment Mechanism rate of Evergy Missouri West, Inc. d/b/a Evergy Missouri West (formerly KCP&L Greater Missouri Operations Company)**

Dear Mr. Woodruff:

Pursuant to 20 CSR 4240-20.100 of the regulations of the Missouri Public Service Commission (“Commission”), Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“Evergy” or the “Company”) (formerly known as KCP&L Greater Missouri Operations Company), hereby submits a proposed rate schedule to adjust charges related to the Company’s approved Renewable Energy Standard Rate Adjustment Mechanism (“RESRAM”). The proposed rate schedule bears an issue date of September 30, 2019 and an effective date of December 1, 2019.

Retail customer revenues, as determined in general rate case, Case No. ER-2018-0146 which was approved in the Commission Order issued on December 6, 2018, is \$720,758,136; therefore, the RESRAM cost recovery is capped at an annual allowable RESRAM revenue requirement of \$7,207,581. This amount represents 1% of the electric retail customer revenues. The resulting proposed RESRAM rate applicable to customers’ bills for the period of December 1, 2019 through November 30, 2020 is \$0.00088 per kWh and was calculated as follows:

Retail Customer Revenues (ER-2018-0146)	\$720,758,136
1% limit as stated in 20 CSR 4240-20.100(6)	1%
Allowable RESRAM Revenue Requirement	\$ 7,207,581
Projected Energy (kWh)	8,154,592,602
<b>RESRAM per kWh rate</b>	<b>\$ 0.00088</b>

This proposed RESRAM rate of \$0.00088 per kWh is an increase of \$0.05 per month for customers using 1,000 kWh per month. The Allowance RESRAM Revenue Requirement has not changed from the previous filing. However, the increase in the RESRAM rate is driven by the change in the denominator used in the calculation from generator kWh (or Net System Input) to metered kWh forecasted to be billed to customers. This change is based on discussions with MPSC Staff in the previous RESRAM filing, ET-2019-0092 and was recommended for review prior to this filing and more closely aligns with the tariff. The total RESRAM expense balance at August 31, 2019 is \$31,964,539.

Evergy filed an Adoption Notice with the Commission in File No. EN-2020-0064, Tariff No. JE-2020-0046, notifying the Commission that its legal name had changed from KCP&L Greater Missouri Operations Company (GMO) to Evergy Missouri West, Inc. d/b/a Evergy Missouri West and that it was adopting all tariffs of KCP&L Greater Missouri Operations Company. The Adoption Notice tariff will become effective on October 7, 2019. Due to the proposed effective date of December 1, 2019 for this tariff, the Company has reflected the name change on all documents accompanying this filing.

Concurrently, documentation containing information required by 20 CSR 4240-20.100(6)(12) consisting of a RESRAM revenue reconciliation as well as workpapers that support the proposed rate schedule have been provided.

Please feel free to call me at (816) 556-2209 with any questions concerning this filing.

Respectfully,

Lisa A. Starkebaum  
Manager, Regulatory Affairs
