Rule 1 DEFINITIONS

MISSOURI
Public Service Commission

- (a) The "COMPANY" is the Osage Water Co. Inc. acting through its officers, managers, or other duly authorized employees or agents.
- (b) The "CUSTOMER" is any person, firm, corporation or governmental body which has contracted with the Company for water service or is receiving service from Company, or whose facilities are connected for utilizing such service.
- (c) The word "UNIT" shall be used herein to define the standard user or property served and shall pertain to any building whether residential or commercial owned or leased. Mobile homes or rental units are considered as separate units for each single family or firm occupying same as a residence or place of business.
- (d) A "MAIN" is a pipeline which is owned and maintained by the Company, located on public property or private easements, and used to transport water throughout the Company's service area.
- (e) A "CUSTOMER'S WATER SERVICE LINE" is a pipe with appurtenances installed, owned and maintained by the customer, used to conduct water to the customer's unit from the property line or outdoor meter setting, including the connection to the meter setting. If the property line is in a street, then the said customer's water service line shall be deemed to begin at the edge of the street abutting the customer's property.
- (f) A "SERVICE CONNECTION" is the pipeline connecting the main to the customer's water service line at the property line, or outdoor meter setting including all necessary appurtenances.

Rule 1 DEFINITIONS (Continued)

This service connection will be installed, owned, and maintained by the Company. If the property line is in a street, the said service connection shall be deemed to end at the edge of the street abutting the customer's property.

- (g) The "DATE OF CONNECTION" shall be the date of the permit for installation and connection issued by the Company. In the event no permit is taken and a connection is made, the date of connection may be the date of commencement of construction of the building upon the property.
- (h) The "METER SETTING" includes the meter box, meter yoke, lid, and appurtenances, all of which shall be owned and maintained by the Company.
- (i) The "METER" is a device used to measure and record the quantity of water that flows through; and is installed in the meter setting.
- (j) "DEVELOPER" means any person, firm, corporation, partnership or other entity that, directly or indirectly, holds title to, or sells or leases, or offers to sell or lease, or advertises for sale or lease, any lots in a subdivision.
- (k) "SUBDIVISION" means any land in this state which is divided or proposed to be divided into two or more lots or other divisions of land, whether contiguous or not, or uniform in size or not, for the purpose of sale or lease, and includes resubdivision thereof.

Rule 2 GENERAL

- (a) Every water customer, upon signing an application for any water service rendered by the Company, or upon taking of water service, shall be considered to have expressed consent to be bound by these rates, rules and regulations.
- (b) The Company's rules and regulations governing rendering of service are set forth in these numbered sheets. The rates applicable to appropriate water service or rate determination areas are set forth in rate schedules and constitute a part of these rules and regulations.
- (c) The Company reserves the right, subject to authority of the Public Service Commission of Missouri, to prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may from time to time deem necessary and proper.
- (d) After the effective date of these rules and regulations, all new facilities, construction contracts, and written agreements shall conform to these rules and regulations in accordance with the statutes of the State of Missouri and of the Public Service Commission of Missouri. Pre-existing facilities that do not comply with applicable rules and regulations may remain, provided that their existence does not constitute a service problem or improper use, and reconstruction is not practical.

MISSOURI

Public Service Commission

(a) A written application for service, signed by the customer, stating the type of service required and accompanied by any other pertinent information, will be required from each customer before service is provided to any unit. Every customer, upon signing an application for any service rendered by the Company, or upon taking of service, shall be considered to have expressed consent to the Company's rates, rules and regulations.

(b) If service is requested at a point not already served by a main of adequate capacity, a main of adequate size shall be extended as may be necessary according to the Company's rule for extension of water mains.

(c) When, in order to provide the service requested, a main extension or other unusual construction or equipment expense is required, the Company shall require a written contract. Said contract may include, but not be limited to the obligations upon the Company and the Applicant, and shall specify a reasonable period of time necessary to provide such service.

Rule 5 INSIDE PIPING AND CUSTOMER WATER SERVICE LINES **Public Service Commission**

- (a) The Company will provide the Customer water service at the outdoor meter, or at the property line. Separate units shall be served through separate service lines.
- (b) The Service Connection from the water main to the Customer's property line, the meter installation and setting shall be constructed, owned and maintained by the Company. Service line construction and maintenance from the property line or meter setting, including the connection to the meter setting, to the building shall be the responsibility of the Customer, and is subject to inspection by the Company. Customers shall be responsible for the cost of repairing any damage to the Company's lines, meters, and meter installations caused by the Customer, his agent, or tenant.
- (c) Existing water service lines may be used in connecting with new buildings only when they are found by examination and testing not to constitute a hazard to the health and safety of any Customer or the Company's facilities.
- (d) The Customer's water service lines shall be brought to the unit at a depth of not less than 36 inches and have a minimum inside diameter of 3/4 of an inch upon entering the building. The service line shall be valved. This valve must be kept in good repair in order to shut off the water supply and drain the inside plumbing, if necessary.

- (e) The Customer's water service lines and inside piping shall be of material conforming to recognized standards for potable water service and shall have a pressure rating of at least 160 psi working pressure.
- (f) The Company will not install a service connection to a vacant lot.
- (g) Any change in the location of an existing service connection requested by the Customer shall be made at his expense.
- (h) The Company shall have the right to enter the Customer's premises for purposes of inspection to ensure compliance to these rules and regulations. The Company shall identify themselves and make these inspections only at reasonable hours.
- (i) Neither Customer's water service lines nor the Service Connection may be extended along public streets or roadways or through property of others in connecting with the Company's mains, except where the service connection is in the water main easement in order to be connected to the main. The service connection and service line must be laid in a straight line and at right angles to the main and the face of the structure or as nearly so as possible. Any deviation from this because of physical obstruction will be at the discretion of the Company.

 Public Service Commissioner

Rule 6 IMPROPER OR EXCESSIVE USE

- (a) No Customer shall be wasteful of the water supplied to his premises by his willful action or inaction. It shall be the responsibility and duty of each Customer to maintain all piping and fixtures at his unit in a good and efficient state of repair at all times.
- (b) No Customer shall make or cause to be made a cross connection between the potable water supply and any source of chemical or bacterial contamination or any other water supply. The Company shall deny or discontinue service where Customer's Water Service Line or inside piping may, in the opinion of the Company, cause a cross-connection with non-potable water or otherwise jeopardize the health and safety of other Customers or the Company's facilities.
- (c) No Customer shall make or cause to be made a connection to a device that will result in excessive water demand or excessive shock, such as water-hammer, to the Company's mains.
- (d) No Customer shall tamper with, remove, or willfully damage a water meter or attempt to operate the shutoff cock on the meter yoke, or allow any such action.
- (e) No Customer shall attempt to take unmetered water from the Company mains either by an unauthorized tap or direct connection to service connection nor by connection to a fire hydrant.

RULES GOVERNING RENDERING OF
WATER SERVICE

RECEIVED

MAR 10 1998

RULE 7 DISCONTINUANCE OF WATER SERVICE BY COMPANY

MO. PUBLIC SERVICE COMM

(a) The Company may discontinue water service for any of the following reasons:

1. Nonpayment of a delinquent account not in dispute.
2. Failure to post a security deposit or guarantee acceptable to the utility.
3. Unauthorized interference, diversion or use of the utility service situated or delivered on or about the customer's premises.
4. Failure to comply with the terms and conditions of a settlement agreement.
5. Refusal to grant access at reasonable times to equipment installed upon the premises of the customer for the purpose of inspection, meter reading, maintenance, or replacement.
6. Violation of any of these rules and regulations on file with and approved by the Commission, or for any conditions which adversely affects the safety of the customer or other persons, or the integrity of the utility's delivery system.
7. Non payment of a sewer bill issued by the Company, or * by sewer utility requesting discontinuance of water service by an aproved agreement between the Company and such sewer utility. When water service is discontinued for this reason, any service charges for turn on/off or disconnection/reconnection within these rules shall not apply, and notice ot the customer shall be provided by rules applicable to the customer's sewer service in lieu of notification required by these rules.

(b) The Company may discontinue service after notice by first class mail is sent to the customer at least ten (10) days + prior to the date of the proposed discontinuance. If written notice is hand deliverd to the customer, it shall be done at least ninety-six(96) hours prior to discontinuance. Service of notice by mail is complete upon mailing.

Rule 7 DISCONTINUANCE OF WATER SERVICE BY COMPANY (continued)

- (c) The Company shall make reasonable effort to communicate with the customer regarding the reason(s) for discontinuance of service, and the resolution. If discontinuance of service would affect an occupant who is not the company's customer, or is not responsible for payment of the bill, then the Company shall make reasonable effort to inform such occupant(s) of the matter.
- (d) The Company shall postpone the discontinuance if personnel will not be available to restore service the same day, or if personnel will not be available to restore service the following day. The Company also shall postpone discontinuance if a medical emergency exists on the premises, however the postponement may be limited to 21 days, and the Company may require proof of a medical emergency.
- (e) Discontinuance of service will be made during reasonable hours. Company personnel shall identify themselves and announce the intentions to disconnect service, or leave a conspicuous notice of the disconnect.
- (f) The provisions of paragraphs (c) and (e) above may be waived if safety of Company personnel while at the premises is a consideration.
- (g) Discontinuance of service to a unit for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from the customer.
- (h) In case the Company discontinues its service for any violation of these Rules and Regulations, then any monies due the Company shall become immediately due and payable.

MISSOURI
Public Service Commission

- (a) The charges for water service shall be at the rates specified in the rate schedules on file with the Missouri Public Service Commission. Service charges for turn-off of service are set forth in the Schedule of Service Charges.
- (b) A Customer who has made application for water service to a unit shall be responsible for payment for all water service provided to him at said unit until the Customer notified the Company to discontinue service.
- (c) Each customer is responsible for furnishing the Company with his correct address. Failure to receive bills will not be considered an excuse for non-payment nor reason to permit an extension of the date when the account would be considered delinquent. Bills and notices relating to the Company or its business will be mailed or delivered to the mailing address entered in the Customer's application unless the Company is notified in writing by the Customer of a change of address.
- (d) Payments shall be made at the office of the Company or at such other places conveniently located as may be designated by the Company or by ordinary mail. However, payment must be received by the close of business on the date due.
- (e) The Company will not be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.

Public Service Commission

Rule 10 BILLS FOR SERVICE (continued)

(f) A separate bill shall be rendered for each Customer with itemization of all water service charges.

(g) The Company shall have the right to render bills monthly. Bills shall be due and payable to it no later than twenty-one (21) calendar days from the date of rendition, unless such due date falls on a Sunday, a legal holiday, or other day when the office is closed, in which case the due date shall be extended to the next business day. All bills for service shall state the due date. Bills unpaid after the stated due date will be delinquent and the Company shall have the right to discontinue service in accordance with Rule 7. The Company shall not be required to restore or connect any new service for such delinquent Customers until the unpaid account due the Company under these Rules and Regulations has been paid in full or arrangements satisfactory to the Company have been made to pay said account.

(h) When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be the monthly minimum plus an amount based on the water used at the commodity (water usage) rate or one-half (1/2) of the flat rate if applicable.

(i)

Where water is to be supplied to several users in tenements, apartments or stores under one roof, from one connection with supply controlled by one stop cock, the Company will supply service only to the owner or agent of said property.

Rule 11 METERS AND METER INSTALLATIONS

- (a) All permanent service connections shall be metered. The Company's installed meter shall be the standard for measuring water used to determine the bill.
- (b) All meters and meter installations shall be furnished, installed, maintained and removed by the Company and shall remain its property.
- (c) The Company shall have the right to determine on the basis of the Customer's flow requirements the type and size of meter to be installed and location of same. If flow requirements increase or decrease subsequent to installation and a larger or smaller meter is requested by the Customer, the cost of installing such meter shall be paid by the Customer.
- (d) Service to any one Customer shall be furnished through a single metering installation. Where a building is occupied by more than one tenant, the building shall be served by one meter. The Customer may rearrange piping at his own expense so as to separate the units and meter his tenants as he chooses, then divide the bill accordingly.
- (e) The meters and meter installations furnished by the Company shall remain its property, and the owners of premises wherein they are located shall be held responsible for their safekeeping. For failure to protect same against damage, the Company may refuse to supply water until the Company is paid for such damage. The amount of the charge shall be the cost of the necessary replacement parts and the labor cost necessary to make the repair.

enters the building. The Company may, at its discretion, require the Customer to install a remote reading devise at an approved location, for the purpose of reading the meter. It is the responsibility of the Customre and/or the owner of the premises to provide a location for the water meter which, in the event of water discharge as a result of leakage from the meter or couplings, will not result in damge. The Water Company's liability for damages to any and all property caused by such leakage shall in no event exceed the price of water service to the affected premises for one average billing period in the preceding year. Where damages is not caused by the negligence of Company personnel at the premises, this limitation will not apply. If a customer refuses to provide an accessible location for a meter as determined by the Company, the Company will notify the Secretary of the Public Servie Commission before ultimately refusing service or proceeding to discontinue service.

(k) Un-metered water service may be provided by the Company to * existing structures in service areas or subdivisions where an existing distribution system is in place when the Company commences to provide service. Such un-metered water service shall be billed by the Company in accordance with Rate Schedule W-2.

(l) Where un-metered service is provided, a meter shall be * installed by the Company under the following circumstances:

(i) Within ninety (90) days of a request for meter installation by the Customer, where the request is accompanied by payment of the anticipated cost of said meter installation, less two hundred fifty dollars (\$250.00).

(ii) When the Company is performing maintenance or repair to the distribution system in the vicinity of the Customer's service connection.

(iii) When the Customer's account is delinquent and the Company is disconnecting service pursuant to this Tariff.

(iv) No later than ten (10) years after the Company commences service to the Customer.

Rule 13 BILL ADJUSTMENTS BASED ON METER TESTS

(a) Whenever any test by the Company of a meter while in service or upon its removal from service shall show such meter to have an average error of more than five percent (5%) on the test streams prescribed by the Commission, the Company shall adjust the Customer's bills by the amount of the actual average error of the meter and not the difference between the allowable error and the error as found. The period of adjustment on account of the under-registration or over-registration shall be determined as follows:

- (1) Where the period of error can be shown, the adjustment shall be made for such period.
- (2) Where the period of error cannot be shown, the error found shall be considered to have existed for three (3) months preceding the test.

(b) If the meter is found on any such test to under-register, the Company may render a bill to the Customer concerned for the estimated consumption not covered by bills previously rendered during the period of inaccuracy as above outlined. Such action shall be taken only when the Company was not at fault for allowing the inaccurate meter to remain in service.

(c) If the meter is found faster than allowable, the Company shall refund to the Customer concerned any overcharge caused thereby during the period of inaccuracy as above defined. Said refund may, at the Company's option, be in the form of a credit to the Customer's bill.

Rule 14 EXTENSION OF WATER MAINS

(A) This rule shall govern the extension of mains by the Company in areas where there are no water mains in the streets and/or roadways. The Company will extend its mains along streets or roads within its certified area to serve new customers under the following terms and conditions:

(1) Upon receipt of a written application for a main extension, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required, including valves, fire hydrants, booster stations, storage facilities, reconstruction of existing mains (if necessary), and the direct costs associated with supervision, engineering, permits, and bookkeeping. Applicable income tax cost will be added to this estimate calculated at the maximum rate.

(2) Applicants shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution in-aid-of construction equal to the amount determined in A-1, plus the appropriate customer connection fee. The contract may allow the customer to contract with an independent contractor for the installation and supply of material, except that mains of 12" or greater diameter must be installed by the Company and the reconstruction of existing facilities must be done by the Company.

Rule 14 EXTENSION OF WATER MAINS (continued) Public Service Commission

(3) The cost to an Applicant or Applicants connecting to a main extension contributed by other Applicants shall be as follows:

(a) For single-family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension (including income taxes) by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing mains shall be excluded.

(b) For single-family residential Applicants that are applying for service in areas that are unplatted in subdivision lots, the Applicants' cost shall be equal to the total cost of the main extension divided by the total length of the main extension in feet times 100 feet.

(c) For industrial, commercial, or multifamily residential Applicants, the cost will be equal to the amount calculated for a single-family residence in Paragraphs 3a or 3b above multiplied times the flow factors of the Applicants' meter. The flow factors of the various sizes of meters are as follows:

(4) Refunds of contributions shall be made to Applicant(s) as follows:

(a) Should the actual cost of the extension be less than the estimated cost, the Company shall refund the difference as soon as the actual cost has been ascertained.

(b) After the Company has closed its books for the year in which a contribution was made, it will determine its actual income tax cost associated with each extension and refund any excess income tax costs collected from each Applicant.

(c) During the first ten years after the main extension is completed, the Company will refund to the Applicants who paid for the extension moneys collected from Applicants in accordance with paragraph 3 above. The refund shall be paid within a reasonable time after the money is collected.

Rule 14 EXTENSION OF WATER MAINS (continued)

- (d) The sum of all refunds to any Applicant shall not exceed the total contribution, adjusted for taxes associated with the extension, which the Applicant has paid.
- (5) Extensions made under this rule shall be and remain the property of the Company.
- (6) The Company reserves the right to further extend the main and to connect mains on intersecting streets and easements and customers connected to such further extensions shall not entitle the applicant(s) paying for the original extension to a refund for the connection of such customers.
- (7) Extensions made under this rule shall be of company approved pipe sized to meet water service requirements. If the Company chooses to size the extension larger in order to meet the Company's overall system requirements, the additional cost caused by the large size of pipe shall be borne by the Company.
- (8) No interest will be paid by the Company of payments for the extension made by the Applicant(s).
- (9) If extensions are required on private roads, streets, through private property, or on private property adjacent to public right-of-way, a proper deed of easement must be furnished to the Company without cost to the Company, before the extension will be made.
