 - 1) Initial Ordering Charge - Switched Access

This charge applies on a per Access Service Request (ASR) basis, including requests to add additional lines or trunks or activate an existing trunk as a result of additional trunks or BHMCs ordered for an existing service. Additionally, this would include the activation/deactivation of a Carrier Identification Code (CIC).

A design change is any change to a pending ASR for Special Access Service which requires engineering review. Design changes include such things as the addition or deletion of supplemental features or changes in the terminating options. Design changes do not include a change of Interexchange Customer Designated Location (CDL) or end user premises when it's serving wire center changes or Special Access service type (e.g., 2-wire to 4-wire Voiceband). Should the end user or agent change the carrier of choice, a PIC change charge and the appropriate local tariff service order charges will be applicable.

Initial end user and agent selection of a PIC by ballot or appearing on an IC list will not incur a charge. A change of PIC selection prior to the end office conversion will not incur a charge. Notification of a change in a PIC may be coordinated by the end user or agent with either the IC selected or the Company.

Should an end user or agent dispute authorization of the change in PIC assignment and if the IC cannot produce a letter of agency or confirmation from the end user or agent, the IC will be billed one PIC change charge for restoring the end user's or agents prior IC assignment. If the IC produces the letter of agency or confirmation of choice within 15 days of the Company request, the end user or agent will be billed two PIC charges in lieu of charges to the IC. Charges are only applicable if a change in an end user's or agent's IC selection has actually been implemented in the switch.

The Company reserves the right to implement practices and/or procedures that require written notification and/or verification from the end user subscriber before a PIC change service order will be initiated.
