

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)

(N)

4.2 Description of Services (Continued)**Missouri Public
Service Commission****4.2.35 Enterprise Connections Service (Continued)****REC'D JUL 01 2002****F. Early Termination Charges**

If Customer terminates the contract prior to fulfillment of the term selected, an Early Termination Charge (ETC) of 40% of Customer's annual commitment will be billed to Customer for the number of years remaining under Customer-selected commitment.

Customer will not be liable for termination charges for a specified service if a new service of the same type and of equal or greater value is ordered, and the order is received by Carrier during the same calendar year in which the original service is discontinued by Customer, provided the expiration date of the contract plan for the new service is on or after the expiration date of the terminated plan.

G. Local Access Facilities

Customer may arrange for local access facilities on its own, or may elect to have Carrier coordinate access arrangements. Access facilities arranged by Carrier will be billed to Customer at rates found by referring to Carrier's Federal Rate Schedule 3. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer.

H. Contract Liability Extension

If one of the first two conditions and the second and third provision exist, Carrier and Customer may agree to transition Customer to the next lower annual commitment level:

1. If after the ninth month in a one-year contract, Customer is not on schedule to reach their commitment level at the end of the 12 months; or, if after the 11th month in a two or three-year term contract, Customer is not on schedule to reach their commitment level at the end of the first year.
2. Customer must meet at least 75% of the original annual commitment level.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)

(N)

4.2 Description of Services (Continued)**Missouri Public
Service Commission****4.2.35 Enterprise Connections Service (Continued)****REC'D JUL 01 2002****H. Contract Liability Extension (Continued)**

3. Customer must have an original annual commitment level no less than \$12,000.

Upon agreement by both Carrier and Customer, Customer's rates will be re-negotiated based on the new adjusted annual commitment level either before the 12th month anniversary date in a one-year contract or within 45 days after the 12th month anniversary date in a two or three-year term contract. This commitment term and volume will not be renegotiated more than once in any consecutive 18-month period. In conjunction with this re-negotiation, Customer will be assessed five percent on the actual long distance usage billed for the subject year. For example, if Customer's original annual commitment was \$48,000 for a two-year term and Customer's actual long distance usage for the first 12 months is \$38,000, then Customer has the option to adjust the commitment level to \$36,000 for a new two-year term. However, Customer will be billed five percent of the \$38,000, which is \$1,900.

If Customer does not re-negotiate the commitment level, the original contract term remains in-place and the minimum annual revenue commitment stated in E., based on the original contract term, will be assessed.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)**4.2 Description of Services (Continued)****4.2.36 Simple Connections Service**

Effective April 22, 2013, this service is no longer available to new customers. Existing customers will be grandfathered until the expiration of the applicable service term of their contract. During grandfathering, the terms and conditions of such contracts will continue to apply. Customer may make moves, adds, and changes to the service during grandfathering. (C)

A. General

Business Customers who generate \$0 - \$5,999 per year in long distance charges can enroll in this service. Service is available for switched voice service only and offers fixed rates for both inbound and 1+ dialed outbound domestic calls. Calls that utilize Carrier's dial-around method are not eligible for Simple Connections. All calling card calls will be rated on a fixed rate per-minute usage basis. This service is an add-on to Carrier's interstate offering found in Federal Rate Schedule 3 and posted to Carrier's website at www.verizon.com/tariffs. (C)

Toll free features are the same as defined in Carrier's Enterprise Connections Service offering and located in Carrier's Federal Rate Schedule 3.

Customer must select a month-to-month, one, two or three-year term plan, and must commit to a minimum revenue amount of up to \$5,999 per year. Eligible commitment revenue consists of Customer's total 1+ domestic usage, international outbound usage, ITFS usage, domestic inbound usage, calling card usage and surcharges, and Monthly Recurring Charges (MRCs). VIN E800 and data usage is excluded.

Rates are found in Section 5.37.

B. Conditions/Restrictions

New business Customers and existing business Customers who have met all current contract requirements are eligible for this service. Service must be stand alone voice service. It cannot be combined with data services. Customers using this service will be eligible to participate in the PIC Fee Credit Promotion. No other promotions apply for this service.

Service provided over Wide Area Telephone Service (WATS) lines, payphones, residential lines, and lines with handicap discounts are not eligible for this plan.

Usage charges for Operator Assisted calls will be counted toward Customer's minimum annual commitment. Operator service charges (0-, 0+, Bill to Third Number, Collect calls and Directory Assistance calls) will not be discounted, but are included in Customer's commitment level.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)**4.2 Description of Services (Continued)****4.2.36 Simple Connections Service (Continued)****B. Conditions/Restrictions (Continued)**

When a term commitment expires, Customer will have 30 days to select another Carrier service plan. If Customer fails to notify Carrier within this time frame, Carrier will place Customer on pricing that corresponds to a one year term and a \$6,000.00 annual commitment level under the Enterprise Connections Service. The new rates will be effective on the first of the month following a 30-day grace period. (C)

Customer can only choose month-to-month rates one time during their enrollment in Simple Connections and then upgrade to a term plan in a one-year period. (C)

C. Rating of Calls

Calls will be sub-minute rated based on an initial period of 18 seconds, with the additional periods being billed in six-second increments thereafter.

D. Minimum Revenue Commitment

If Customer does not achieve the minimum annual commitment level selected, they will be assessed the incremental difference annually. For example, if Customer commits to \$3,000 annually and the actual long distance usage is \$2,000, Customer will be billed for the \$1,000 shortfall. In addition, the current rates will be re-negotiated based on the new adjusted commitment level. There will be no shortfall penalty imposed for Customers that sign up for the \$0 - \$2,999 level.

E. Early Termination Charges

If Customer terminates the contract prior to fulfillment of the term selected, an Early Termination Charge (ETC) of 40% of Customer's annual commitment will be billed to Customer for the number of years remaining under the customer-selected commitment.

Customer will not be liable for termination charges for a specified service if a new service of the same type and of greater value is ordered, and the order is received by Carrier during the same calendar year in which the original service is discontinued by Customer, provided the expiration date of the contract plan for the new service is on or after the expiration date of the terminated plan.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)**4.2 Description of Services (Continued)****4.2.37 Frame Relay IV Service**

THIS SERVICE IS NO LONGER AVAILABLE TO NEW CUSTOMERS. EXISTING CUSTOMERS WILL BE GRANDFATHERED UNTIL TERMINATED BY EITHER CARRIER OR CUSTOMER, FOLLOWING EXPIRATION OF ANY SERVICE TERM. DURING GRANDFATHERING, CUSTOMERS MAY NOT MAKE ANY MOVES, ADDS, CHANGES, OR RENEWALS UNLESS THEIR AGREEMENT EXPRESSLY PERMITS IT. FOR CUSTOMERS ON MONTH-TO-MONTH TERMS, CARRIER MAY TERMINATE THE SERVICE WITH SIX MONTHS WRITTEN NOTICE. CUSTOMER MAY TERMINATE AT ANY TIME.

(C)

A. General Description

Frame Relay IV Service is a high-performance, cost effective data offering for connectivity of multiple Local Area Networks (LANs) or Systems Network Architecture (SNA) locations. Frame Relay IV Service uses shared facilities and statistical multiplexing to transport data communications. Frame Relay IV Service delivers bandwidth-on-demand internetworking connections, providing port speeds to DS-3 with PVCs up to 22 Mbps. The service is ideal for intensive, bursty data transmission applications.

Dedicated access facilities provide access to the Frame Relay network through ports. Connectivity to the Frame Relay network is provided through Permanent Virtual Circuits (PVCs) that provide logical software connections for communications between ports on the network. Multiple PVCs can be defined on any given port providing a single access line the capability to transmit data to multiple destinations.

Frame Relay IV Service is offered to domestic locations where facilities are available, where operating conditions permit and where technically feasible. The service is available for use 24 hours a day, seven days a week. Service applications for locations exceeding 500 miles from existing domestic carrier facilities shall be addressed and priced on an Individual Case Basis (ICB).

B. Rate Elements

The complete service is provided through six service elements:

- Local Access Facility
- National Frame Relay UNI Port
- National Frame Relay NNI - NNI PVC
(NNI refers to a Network-to-Network Interface)
- National Frame Relay NNI - UNI PVC
(UNI refers to a User-to-Network Interface)
- National Frame Relay UNI - UNI PVC
- National Frame Relay NNI Port

1. Local Access Facility

Customers may access the Frame Relay network through 56 Kbps (DS-0), 1.536 Mbps (DS-1), or 44.736 Mbps (DS-3) digital facilities.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)

(N)

4.2 Description of Services (Continued)**4.2.37 Frame Relay IV Service (Continued)****B. Rate Elements (Continued)****2. National Frame Relay UNI Port**

The UNI Frame Relay port provides the physical connection between the local access facility and the Frame Relay network. The port also provides the logical termination of the PVCs assigned to the port. The port speed provides the maximum (burst) speed for which Customer is capable of sending or receiving information through an individual port. Customers select a speed for each Frame Relay port, ranging from 56 Kbps to 45 Mbps. The sum of the individual PVC speeds cannot exceed three times the port speed (Oversubscription or Booking Factor: 300%). However, the port speed must be large enough to accommodate the cumulative demand for egress bandwidth of all PVCs connected to the port during any one-second-time interval.

3. National Frame Relay NNI Port

The NNI Frame Relay port provides the physical connection between a local Frame Relay network or existing customer LAN/WAN and the long distance network. Multiple PVCs can be assigned to an NNI Port. Speeds for each Frame Relay NNI port range from 56 Kbps to DS-1

4. National PVC

All three types of PVCs provide a logical dedicated communications path (circuit) between two interface ports. The type of interface at each end of the PVC defines the type of PVC (NNI-NNI, NNI-UNI, and UNI-UNI). PVCs use packet switching technology to automatically route around network related failures. PVCs are predefined for each pair of end point devices so a virtual network path (circuit) is always available without call set-up delay. This results in faster access to the network, better response time for end user applications, and a high degree of network security.

5. Committed Information Rate (CIR)

A CIR is assigned to each PVC. The CIR defines the average minimum data transmission rate the network will allocate to the PVC under normal operating conditions. The data transmission rate for a PVC can exceed the CIR when excess capacity is available on the port and on the network. When excess capacity exists, a burst in the data rate above the average transmission rate, CIR, may be achieved up to the port capacity. Data sent across a virtual connection in excess of the PVC's CIR will be marked by the network as Discard Eligible (DE); the ingress switch will set the DE bit in the Frame Relay header. In event of network congestion, packets marked Discard Eligible will only be delivered if the instantaneous demand for the output on the transmission channel is equal to or less than the capacity of the queue for that channel.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)

(N)

4.2 Description of Services (Continued)**4.2.37 Frame Relay IV Service (Continued)****C. Features****1. Service Standards**Service Level Objectives

Carrier's network is designed, provisioned, and managed to achieve the following service levels:

<u>Measurement</u>	<u>National Frame Relay IV Service</u>
Network Availability	99.95%
Mean Time to Repair (MTTR)	4 hours
Delay: Round-Trip/One Way	170 ms/85 ms

D. Additional Terms and Conditions of Service

Frame Relay IV Service is provided where facilities and operating conditions permit and where technically feasible. The Minimum Service Period for Frame Relay IV Service is one year.

Customer must give Carrier 30 days prior written notice to terminate Frame Relay IV Service.

Existing Customers will continue to pay the rates that were in effect at the time Customer signed the original contract. These rates will remain in effect until the contract expires, unless Customer upgrades the service. To qualify as an upgrade of service, one of the following conditions must apply:

- ?? Customer must add a new port or PVC to existing network.
- ?? Customer must upgrade the port speed on an existing network.
- ?? Customer must increase the CIR on an existing port or PVC.

In addition to meeting one of the conditions above, Customer must also renew their existing contract at tariff rates and current contract terms for a term equal to or greater than the remaining months on their original contract, (e.g., if the Customer has 13 months remaining on their contract, Customer must sign another contract equal to two years or greater).

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)**4.2 Description of Services (Continued)****4.2.37 Frame Relay IV Service (Continued)**

(N)

E. Service Level Agreements

1. Operational Service Level Agreements (SLAs). Operational SLAs are available for ATM Services where the Customer purchases at least five (5) PVCs.

- a. On-Time Provisioning.

On-Time Provisioning Measurement. Carrier agrees to complete installation of the PVC no later than the Firm Order Commitment (FOC) due date issued by Carrier plus twenty-four (24) hours. Carrier will issue a FOC date upon completion of its review of available required facilities and components. Completion of design and ordering related forms and documents (including but not limited to network design, configuration, and data gathering forms) must occur prior to providing the FOC date. This SLA shall not apply to orders where an expedited interval has been requested or for disconnection orders.

On Time Provisioning Service Response Credits (SRCs). If Carrier fails to install a PVC within twenty-four (24) hours after the FOC date because of Carrier's sole fault, Carrier will provide an SRC equal to fifty percent (50%) of the associated Monthly Recurring Charge (MRC) for the month in which the due date is missed for the PVC. SRCs shall not be available if Carrier determines after the FOC date is issued that sufficient facilities are not available to provision the order, where special construction of facilities is required, or when the FOC date is missed because the local access service is not available. SRCs will not be available for missed FOC dates if the Customer provides inaccurate information on the order, revises the order or is not ready to accept the Service on the FOC date.

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)**4.2 Description of Services (Continued)****4.2.37 Frame Relay IV Service (Continued)**

(N)

E. Service Level Agreements (Continued)**1. Operational Service Level Agreements (SLAs) (Continued)****b. Mean Time to Repair (MTTR)**

MTTR Measurement. Under the MTTR SLA, Carrier will measure the average Time to Repair (TTR) for Customer-reported interruptions in the Service with respect to PVCs provided herein ("Interruption"). Interruption means a condition that renders a PVC unavailable for use by Customer due to a fault caused by Carrier in the ATM network. To be measured under this SLA, Customer must report any Interruption to a Carrier-designated entity for the opening of a trouble ticket. The TTR is measured from the date and time a trouble ticket is opened by Carrier and the date and time when such ticket is closed by Carrier. In measuring the TTR, any stop clock time associated with the trouble shall be subtracted from such measurement. For purposes of this measurement stop clock time refers to a) periods when Customer testing is occurring; b) periods when Carrier is awaiting Customer authorization to commence work on a PVC; c) periods following a repair of a PVC when the ticket is held open by Customer to ensure the trouble is resolved; and d) any time period during which any of the occurrences listed in Section 4.2.32.1.E.3 (SLA Exclusions) existed. The SLA shall not apply to cases of trouble where no trouble was found or repeated cases of trouble for the same Interruption. It also does not apply to an Interruption related to the provisioning of a new PVC. The MTTR SLA shall be measured on a calendar month basis and shall be calculated by adding the TTR for all Interruptions and dividing that sum by the total number of trouble tickets opened for Interruptions for that Customer during that month.

(N)

Issued: January 21, 2005

Effective: February 21, 2005

SECTION 4 - APPLICATION OF RATES AND CHARGES (Continued)**4.2 Description of Services (Continued)****4.2.37 Frame Relay IV Service (Continued)**

(N)

E. Service Level Agreements (Continued)**1. Operational Service Level Agreements (SLAs) (Continued)****b. Mean Time to Repair (MTTR) (Continued)**

MTTR SRCs. If the average MTTR for Interruptions for a calendar month exceeds four (4) hours but is less than eight (8) hours, Carrier shall provide a credit of fifty percent (50%) of the MRC for any individual PVC that is unavailable for use for more than four (4) consecutive hours during such calendar month. If the average MTTR for Interruptions for a calendar month exceeds eight (8) hours, Carrier shall provide a credit of fifty percent (50%) of the MRC for any individual PVC that is unavailable for use for more than four (4) but less than eight (8) consecutive hours, and a credit of one hundred percent (100%) of the MRC for any individual PVC that is unavailable for use for more than eight (8) consecutive hours.

c. Network Availability

Network Availability Measurement. Network Availability refers to the percentage of time during a calendar month that the Service is available for use by Customer. The Carrier threshold for Network Availability is 99.90%. Network Availability is calculated based upon the total number of minutes in a calendar month that Customer was actually in service divided by the total number of minutes in the month (1,440 minutes multiplied by the number of days in month multiplied by the number of PVCs, less the number of minutes that the PVCs were interrupted during month, divided by the number of available minutes for the month, i.e. 1,440 minutes multiplied by the number of days in month multiplied by the number of PVCs). Carrier will not round up the calculation to reach the 99.90% threshold. The Network Availability SLA is only available for outages reported by Customer by opening a trouble ticket with Carrier. An interruption for PVCs shall be computed, and be subject to the same restrictions and exclusions, as set forth in Section 4.2.37.E.1.b pertaining to Interruptions for MTTR.

(N)

Issued: January 21, 2005

(N)

E. Service Level Agreements (Continued)**1. Operational Service Level Agreements (SLAs) (Continued)****c. Network Availability**

Network Availability SRCs. If overall Network Availability is less than the threshold of 99.90% for a calendar month, Carrier will provide a credit equal to ten percent (10%) of the associated MRC for any individual PVC that did not meet such threshold during such calendar month.

2. Customer Consent: To the extent necessary to measure Carrier's performance under the SLAs set forth herein, Customer consents to Carrier obtaining on Customer's behalf its trouble history with local carriers that provide the portion of the network covered by the SLAs.

3. SLA Exclusions: SLAs do not apply to the extent that any of the following reasons prevented or delayed Carrier's performance in meeting such SLAs:

a. The acts of Customer or other party authorized by Customer to use the Service, including but not limited to Customer's negligence, Customer's refusal to grant Carrier reasonable access to its premises for testing/repair, Customer's refusal to release the Service for testing and/or repair, Customer's maintenance activities or its rearrangement of the Service or where Customer has exceeded the purchased PVC bandwidth;

b. Service trouble caused by Customer's CPE or facilities on its side of the demarcation point or any power, equipment, service or systems not provided by Carrier;

c. Services that have been in service for less than a month (except for the SLA for On-Time Provisioning);

d. Scheduled maintenance and downtimes;

e. Unavailability of network monitoring or management equipment or reporting; or

f. Any other reason outside the control of Carrier.

(N)

E. Service Level Agreements (Continued)**4. Limitation on SRCs.:**

Limitation on SRCs. The combined total of any SRCs applied to a Customer's ATM Service contracted herein or in other Carrier agreements may not exceed the following:

- a. For any calendar month, the total SRCs applied to an affected PVC may not exceed one hundred percent (100%) of the MRC billed to the Customer for such PVC for that month.
- b. For any calendar year, the total SRCs shall not exceed ten percent (10%) of the total annual revenue of the prior calendar year billed to the Customer for qualifying PVCs, or \$200,000 per Customer per ATM Service, whichever is less. For any calendar year in which the Customer had less than twelve (12) full months of revenue for qualifying PVCs in the prior calendar year, the SRCs may not exceed \$20,000 per Customer per ATM Service.
- c. To receive an SRC, Customer must request such SRC in writing within thirty (30) calendar days of the end of the SRC monitoring period. The request must include a list of all impacted PVC identification numbers and the type of SRC requested for each PVC.

Donald R. Fowler, Director - Tariffs
Verizon Select Services Inc.
600 Hidden Ridge, 2nd Floor
Irving, TX 75038

SECTION 5 - RATES AND CHARGES - (Continued)**5.4 Voice Intelligent Network - Enhanced Toll Free Service (Continued)****5.4.1 Enhanced Routing (Continued)**

Once an Enhanced Routing feature is installed in a routing plan, it may be used in another plan without installation charge if it is reused unchanged. Any changes required to a feature in any routing plan will incur a change charge.

Command Routing is available to any Enhanced Routing toll free number with more than one Enhanced Routing Plan. Routing plans must be loaded in Carrier's network before they can be activated by Command Routing. Any Enhanced Routing toll free number may have up to 99 routing plans.

5.4.2 Interactive Toll Free**A. Surcharge Features**Per Call

\$.16

The features are:

Base Surcharge

Call Referral
Busy/Ring-No-Answer Treatment
Database Routing
Back to Menu
Caller Transfer
Menu/Message Replay

Security Codes
Validated Caller-Entered Codes

(D)

(D)

(D)

Any of the features listed above can be selected and are included in:

Initial NRCMRC

\$750.00

\$100.00

Change charge for adding and deleting features - \$225.00 per feature

SECTION 5 - RATES AND CHARGES (Continued)**5.30 Frame Relay Service**

This service is no longer available to new Customers.

A. Local Access Facilities

Carrier will setup access arrangements on behalf of Customer when full service Frame Relay Service is purchased.

Access facilities arranged by Carrier will be billed to Customer at the rates of the underlying (T) carrier. Any special construction or non-standard charges assessed by the company (T) supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer.

B. Port

Charges include a non-recurring charge and a monthly recurring charge, based on the speed of the port connection (i.e., 56 Kbps to 1.544 Mbps). Charges apply per port for each frame relay access facility to the network supporting Frame Relay Service. Each port can accommodate multiple PVCs. A port added to the network after initial installation will be considered a new element and the nonrecurring and monthly charges will both apply.

<u>Speed (Kbps)</u>	<u>NRC</u>	<u>MRC</u>
56/64	\$300.00	\$ 162.75
128	300.00	339.50

This charge is for changing the configuration of a PVC and applies each time a PVC is reconfigured.

	<u>NRC</u>
Per PVC	\$25.00

E. Discount Plans (T)

Carrier offers discounts based on the term of Customer's commitment to Carrier's service. Customers may subscribe to Frame Relay Service for term plans for one, two or three years. Discounts are calculated using, and apply to, Port and PVC monthly recurring charges only. Discounts do not apply to Local Access Facilities, or nonrecurring charges. (C)

For any term plan, the rates and term plan discounts will be fixed for the term at the discounts listed in Rates, Section 5.30.F.1., applicable when Customer subscribes to the service. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the one year term plan rates and discounts, unless 30 days prior to the end of the term written notice is given to Carrier that Customer does not want an extension, or (b) Customer subscribes to another term plan and the rates of the new term apply.

If additional sites are added to Customer's Frame Relay Service after the initial subscription to a term plan, such sites will be incorporated in to Customer's term plan and will have the same termination date as Customer's original term plan.

1. Term Plan

5.31 Digital Private Line II Service (Continued)

B. Local Access Facilities Charges

Service Commission

- Access Coordination Fee (ACF) - Amount assessed per access circuit when Customer appoints Carrier as the single point of contact for their access. The ACF permits Carrier to recoup costs of designing and testing a circuit, generating and issuing Access Service Requests (ASRs), coordinating any other activity required to ensure timely installation. Additionally, the ACF assures Customer that Carrier will provide ongoing maintenance and trouble resolution for the life of the access arrangement. (N)
- Central Office Connection Fee (COC) - Designed to recover Carrier's investment in the digital cross-connect equipment necessary to provide service, to recover costs associated with the management and maintenance of equipment and Carrier's testing, wiring, and cross-connecting of the circuit. COC fee is assessed per access circuit.
- Entrance Facility Charge (EFC) - An access circuit that carries traffic from the Serving Wire Center (SWC) to Carrier's POP. Carrier does not own these facilities, but rather leases facilities from an access provider. Carrier charges EFC to recover costs when utilizing these facilities for a Customer Provided Access (CPA) service with an access provider. This charge is included in the full service circuit price. (N)
- Local Access Facilities - Carrier will setup access arrangements on behalf of Customer when full-service Digital Private Line II Service is purchased. Access facilities arranged by Carrier will be billed to Customer at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer. (T)

Carrier must also set up access arrangements on behalf of Customer as requested for services purchased. Any charges associated with provisioning of the access service, including but not limited to, local access charges, coordination charges, access service order charges, or any other charges associated with gaining access from Customer premise to the POP will be considered "Access Charges". This includes any NRCs incurred in association with obtaining access regardless of contract term. Any such charges as described above will be passed through to Customer in accordance with this Tariff.

Material omitted from this sheet now appears on Sheet 44.10.1.

SECTION 5 - RATES AND CHARGES (Continued)**5.33 One WAN Service - Rate Elements**

THIS SERVICE IS NO LONGER AVAILABLE TO NEW CUSTOMERS. EXISTING CUSTOMERS WILL BE GRANDFATHERED UNTIL TERMINATED BY EITHER CARRIER OR CUSTOMER, FOLLOWING EXPIRATION OF ANY SERVICE TERM. DURING GRANDFATHERING, CUSTOMERS MAY NOT MAKE ANY MOVES, ADDS, CHANGES, OR RENEWALS UNLESS THEIR AGREEMENT EXPRESSLY PERMITS IT. FOR CUSTOMERS ON MONTH-TO-MONTH TERMS, CARRIER MAY TERMINATE THE SERVICE WITH SIX MONTHS WRITTEN NOTICE. CUSTOMER MAY TERMINATE AT ANY TIME. (C)

One WAN Service includes the following rate elements. The pricing elements for Options 1 and 2 outlined in this Tariff are mutually exclusive. Customer must price their entire network via Option 1, Option 2 or a combination of Options 3 and 4.

A. Option 1**1. Access**

For UNI Ports, Carrier will set up access arrangements on behalf of Customer for the One WAN Service purchased. Any charges associated with the provisioning of the access circuits, including but not limited to, local access charges, coordination charges, access service order charges, or any other charge associated with gaining access from Customer premise to the POP will be considered "Access Charges". This includes any (NRC) incurred in association with obtaining access regardless of contract term. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer. Any such access charge as described above will be billed directly to Customer.

2. UNI Port

UNI Port charges are subject to the speed of the port selected. A NRC and a MRC, based on the speed of the port connection, apply per port for each access circuit connection to the network supporting this service. Each port can accommodate multiple PVCs.

<u>Rate Element</u>	<u>NRC</u> (\$/port)	<u>MRC</u> (\$/port)
DS-3	\$ 3,000	\$ 5,000
OC-3c	4,000 (R)	14,000
OC-12c	5,000 (R)	42,000
OC-48c	10,000	80,000

NRCs are waived for contract terms of one year or more.

3. Permanent Virtual Connections

The PVCC and PVPC monthly charges are subject to the class of service parameters and the transmission speed selected. The transmission speed selected for CBR, VBR-rt and UBR is defined by PCR. The transmission speed selected for VBR-nrt is SCR.

SECTION 5 - RATES AND CHARGES (Continued)**5.33 One WAN Service - Rate Elements (Continued)****A. Option 1 (Continued)****5. Contract Period**

The minimum period for One WAN Service is one year. Service contracts can be one, two, three, or five-year contracts.

6. Expedite Fees

Carrier will charge Customer an expedite fee on a per order basis as outlined below.

<u>Port Speed</u>	<u>Expedite Fee</u>
DS-3	\$1,500
OC-3c	2,000
OC-12c	3,000
OC-48c	10,000

(N)

The expedite fee for the order will reflect the highest port speed on the order.

B. Option 2**1. Local Access**

Carrier will setup access arrangements on behalf of Customer when full service One WAN Service is purchased. Access facilities arranged by Carrier will be billed to Customer at the rates of the underlying carrier, (excluding any discounts and promotions run by carrier). Carrier will add a discount of 31% on DS-1 access only for monthly recurring charges. This discount will apply for each DS-1 access required. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer. Furthermore, if NxDS-1 access is required, Carrier will supply the necessary equipment at a charge to be determined on a case by case basis and subject to Customer's specific network configuration.

<u>Rate Element</u>	<u>NRC</u>	<u>MRC</u>
DS-1	waived	31% discount off underlying carrier rates
NxDS-1	waived	31% discount off underlying carrier rates
DS-3	Up to \$4,000 credit	ICB
OC-3	Up to \$6,000 credit	ICB

SECTION 5 - RATES AND CHARGES (Continued)
5.33 One WAN Service - Rate Elements (Continued)**B. Option 2 (Continued)****3. Permanent Virtual Connections**

The PVCC and PVPC monthly charges are subject to the selected class of service parameters and the transmission speed selected. The transmission speed selected for CBR is defined by PCR. The transmission speed selected for VBR-nrt is SCR. The monthly flat rate charge for UBR class of service parameters is the maximum charge regardless of the speed of transmission.

The transmission speed charges as outlined in the Price Matrix are \$/Mbps or \$/Kbps for these classes of service: CBR and VBR-nrt. UBR is a fixed flat rate regardless of the speed utilized. UBR price is a monthly flat rate and subject to the lower of the originating or terminating port. The transmission speeds are subject to the port speed. non-recurring charges for PVCs will be waived for two years or more contracts.

2 year	11%	13%	15%	17%	20%
3 year	21%	23%	25%	28%	30%

6. Contract Period

The minimum period for One WAN Service is one year. Service contracts can be one, two, or three years.

7. Expedite Fees

Carrier will charge Customer an expedite fee of \$1,500 on a per order basis. Expedites may only be accepted for DS-3 and below on One WAN orders.

SECTION 5 - RATES AND CHARGES (Continued)

(N)

5.33 One WAN Service - Rate Elements (Continued)**C. Option 3****1. Access**

For UNI ports, Carrier will set up access arrangements on behalf of Customer for the One WAN Service purchased. Any charges associated with the provisioning of the access circuits, including but not limited to, local access charges, coordination charges, access service order charges, or any other charge associated with gaining access from Customer premise to the POP will be considered "Access Charges". This includes any NRC incurred in association with obtaining access regardless of contract term. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer. Any such access charge as described above will be billed directly to Customer.

2. UNI Ports

UNI Port charges are subject to the speed of the port selected. A NRC and a MRC, based on the speed of the port connection, apply per port for each access circuit connection to the network supporting this service. Each port can accommodate multiple PVCs.

<u>Rate Element</u>	<u>NRC</u> (\$/port)	<u>MRC</u> (\$/port)

SECTION 5 - RATES AND CHARGES (Continued)**5.34 Frame Relay II Service**

This service is no longer available to new Customers.

(C)

Unless otherwise noted, the following rates and charges will remain in effect for the full term of Customer's contract.

5.34.1 Local Access Facilities

Carrier will setup access arrangements on behalf of Customer when full service Frame Relay Service is purchased.

Access facilities arranged by Carrier will be billed to Customer at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer. (C)

5.34.2 Port

Charges include a non-recurring charge and a monthly recurring charge based on the speed of the port connection (i.e., 56 Kbps to 1.544 Mbps). Charges apply per port for each frame relay access facility to the network supporting Frame Relay Service. Each port can accommodate multiple Permanent Virtual Circuits (PVCs). A port added to the network after initial installation will be considered a new element and the nonrecurring and monthly charges will both apply.

<u>Speed (Kbps)</u>	<u>Non-Recurring Charge</u>	<u>Monthly Recurring Charge</u>
56/64	\$300.00	\$ 162.75
128	300.00	339.50

960	25.00	1,705.50
1,024	25.00	1,830.00

- B. If Customer chooses to purchase a management PVC which will be utilized as part of a network service, the management PVC must originate at Customer's premises and terminate at the associated Carrier Center. For management PVC rate, please refer to zero CIR monthly recurring charge and nonrecurring charge in Section 5.34.3 A.

SECTION 5 - RATES AND CHARGES (Continued)**5.34 Frame Relay Service II (Continued)****5.34.4 Additional Charges**

(T)

A. PVC Reconfiguration

This charge is for changing the configuration of a PVC and applies each time a PVC is reconfigured.

	<u>NRC</u>
Per PVC	\$25.00

5.34.5 Discount Plans

(T)

Carrier offers discounts based on the term of Customer's commitment to Carrier's service. Customers may subscribe to Frame Relay Service for term plans for one, two or three years. Discounts apply to and are calculated using monthly recurring charges for ports, UNI PVCs, NNI PVCs, management PVCs, and NNI connection rates. Discounts do not apply to local access facilities, or nonrecurring charges.

(C)

For any term plan, the rates and term plan discounts will be fixed for the term at the discounts listed in Rates and Charges Section, applicable when Customer subscribes to the service. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the one year term plan rates and discounts, unless 30 days prior to the end of the term written notice is given to Carrier that Customer does not want an extension, or Customer subscribes to another term plan and the rates of the new term apply.

If additional sites are added to Customer's Frame Relay Service after the initial subscription to a term plan, such sites will be incorporated in to Customer's term plan and will have the same termination date as Customer's original term plan.

A. Term Plan

<u>Min. Monthly Revenue</u>	<u>Term</u>		
<u>Commitment</u>	<u>1 Year</u>	<u>2 Years</u>	<u>3 Years</u>
\$1,000	4.0%	6.0%	9.0%
2,000	6.0%	8.0%	12.0%
5,000	7.0%	10.0%	15.0%
10,000	8.0%	11.0%	19.0%
18,000	10.0%	16.0%	21.0%
25,000	12.0%	19.0%	22.0%
50,000	13.0%	20.0%	23.0%

SECTION 5 - RATES AND CHARGES (Continued)**5.34 Frame Relay Service II (Continued)****5.34.6 Network-to-Network Interface (NNI) Rates**

(T)

For a NNI PVC, the charges include a nonrecurring charge and monthly recurring charge for both a PVC and a NNI connection, based on the CIR selected.

A. NNI PVC Rates

<u>PVC/CIR</u>	<u>NRC</u>	<u>MRC</u>
16	\$25.00	\$ 33.00
32	25.00	46.50
64	25.00	87.00
128	25.00	177.00
192	25.00	268.50
256	25.00	378.00
384	25.00	610.50
512	25.00	837.00

B. NNI Connection Rates

For each NNI PVC, there is also a NNI connection rate which includes a nonrecurring charge and monthly recurring charge per location, bases on the NNI PVC CIR selected.

<u>PVC/CIR</u>	<u>NRC</u>	<u>MRC</u>
16	\$25.00	\$ 95.00
32	25.00	95.00
64	25.00	95.00
128	25.00	187.50
192	25.00	280.00
256	25.00	370.00
384	25.00	555.00
512	25.00	742.50

5.34.7 Other Discounts

(T)

NRC Waiver

For new Customers ordering Frame Relay Service II, or for Customers who commit to a two or more year term, Carrier may waive nonrecurring charges for the ports, UNI PVCs, NNI PVCs, management PVCs, NNI and/or standard local access facilities (C) elements. If Customer terminates a term agreement within two years after installation of service, Customer will be assessed the full amount of the credit for waived charges as well as any early termination charges per the Tariff for the applicable service.

SECTION 5 - RATES AND CHARGES (Continued)**5.35 Frame Relay III Service**

This service is no longer available to new Customers.

(C)

Unless otherwise noted, the following rates and charges will remain in effect for the full term of Customer's contract.

A. Local Access Facilities

Carrier will setup access arrangements on behalf of Customer when full service Frame Relay III Service is purchased.

Access facilities arranged by Carrier will be billed to Customer at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer.
