3.11 Mileage

OCT 22 1986

Mileage used in this tariff is calculated by using the following method:

MISSOURI
Public Service Commission

To determine the rate distance between any two rate centers:

(1) Obtain the "V" and "H" coordinates for each rate center.

(2) Calculate the difference between the "V" coordinates of the two rate centers; also the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

(3) Divide each of the differences obtained in (2) by three. Round each quotient to the nearer integer.

(4) Square each resulting quotient and add the two squares.

Formula:
$$\left(\frac{V_1 - V_2}{3} \right)^2 + \left(\frac{H_1 - H_2}{3} \right)^2$$

(5) If the sum of the squares in (4) is greater than 1777, divide the quotients obtained in (3) by three, round to the nearest integer and repeat step (4). Repeat this process until the sum of the squares obtained in (4) is less than 1778.

(6) The number of successive divisions by three in steps (3) and (4) determines the value of "N". Multiply the final sum of the two squares (1778) by the "Multiplier" specified in the following table:

Public Service Commission**4. DESCRIPTION OF SERVICE**

Carrier provides direct dial interexchange service which is available for subscribers' use twenty-four (24) hours a day, seven (7) days a week. Access is obtained by either direct access through FG D or dial up access by dialing a seven (7) digit access number or an 800 inward WATS number. If the seven (7) digit access number is dialed, Carrier's switch will produce a dial tone. The subscriber then enters his authorization number and then his destination number. Then the call is completed.

If a subscriber is assigned to Carrier by the local exchange carrier then the subscriber either dials 1 + area code and number or a four (4) digit access code and the number. The call is then completed.

If a subscriber uses the Carrier calling card service, he dials an 800 inward WATS number. A Carrier operator answers his call and places the call for him. Between the hours of 11:00 p.m. and 7:00 a.m. the subscriber completes his calling card call himself.

A subscriber may place a person to person call through the Carrier's network by dialing a seven (7) digit access number and then dialing 0. The Carrier operator will complete his call.

5. RATES
