

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

Missouri Public
Service Commission

5.17 FRAME RELAY SERVICE (FRS) (Cont'd)

5.17.3 Rate Elements (Cont'd)

REC'D MAR 02 2000

F. Disaster Recovery PVC

A Frame Relay Initial Service Establishment nonrecurring charge applies to establish Fault Tolerant Service. The speed must be equal to or greater than the highest speed of the designated primary connection (e.g., if the interruption occurs on a 1.544 Mbps, the backup must be 1.544 Mbps or greater). A Subsequent Service Establishment nonrecurring charge applies to added primary site(s) to a previously established Fault Tolerant backup. In addition, the Fault Tolerant Service monthly rate for a 56/64 kbps, 1.544 Mbps or 44.736 Mbps with 0 PVCs applies. A customer must also purchase access to the Frame Relay (e.g., an Access Link). When a customer request is received to activate the Fault Tolerant Service to reroute the customer's primary PVCs to the backup, an Activation nonrecurring charge also applies.

Section 7 - BUSINESS NETWORK SWITCHED SERVICES **Missouri Public Service Commission**

7.1 GENERAL

REC'D MAR 02 2000

Business Network Switched Service provide a business customer with a connection to the Company's switching network which enables the customer to:

- a. receive calls from other stations on the public switched telephone network;
- b. access the Company's local calling service;
- c. access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 800 NPA; and access 911 service for emergency calling; and
- d. access the service of providers of interexchange service or intraLATA toll service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive toll-free service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (101XXXX). At the time of initial subscription, the customer shall designate a Primary Interexchange Carrier (PIC) for intra-LATA and inter-LATA toll service. If the customer does not select an intra-LATA PIC, and does not request blocking of intra-LATA toll calls, the Company shall be deemed to have been designated as the customer's intra-LATA PIC. The customer has the option of choosing another carrier for toll service.

Business Network Switched Service is provided via one or more channels terminated at the customer's premises. Each Business Network Switched Service channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

Connection charges as described in Section 3 apply to all service on a one-time basis unless waived pursuant to this Tariff.

Trunk lines connect the central office with a customer-premises PBX system or other customer-provided equipment and systems that select and seize a vacant line for incoming and outgoing calls at its premises. Trunk lines do not terminate directly on a phone set. They terminate in either the attendant position, or in the PBX common equipment. The customer's system can be programmed to eliminate the need to go through the attendant by routing calls directly to or from individual numbers.

Dial-type PBXs may terminate inward, outward, or two-way trunk lines. Manual PBXs terminate only two-way trunk lines.

Trunks can be configured for three types of service, based on the direction that calls are transported between the central office and customer-premises:

Inward-only service provides for one-way calling from the central office switch to the customer-premises equipment. Depending on how the customer programs its system to route calls, an inward call can terminate at either the dialed number (called DID, for Direct Inward Dialing) or at the attendant position (called non-DID). Outgoing calls cannot be made over a trunk with inward-only service .

7.2.3 PBX Trunk Service

REC'D MAR 02 2000

a. General

PBX trunks are provided for connection of customer-provided PBX terminal equipment. Trunks can be delivered at a DS0 level or at the DS1 level.

DID service allows callers to reach the called party without going through a PBX attendant. DOD service allows end users to dial outside of a PBX system without going through the PBX attendant to get access to an outside line. Digital trunks cannot be two-way trunks, but must be ordered as with either Direct Inward Dialing (DID) or Direct Outward Dialing (DOD).

For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

Each DS0 level Trunk has the following characteristics:

Terminal Interface: 2-wire or 4-wire, as required for the provision of service

Signaling Type: Loop, Ground, E&M I, II, III

Pulse Type: Dual Tone Multi-Frequency (DTMF) or Dial Pulse (DP)

Directionality: In-Coming Only (DID), Out-Going Only (DOD), or Two-Way

Outward-only service provides for one-way calling from the customer-premises equipment to the central office switch. Depending on how the customer programs its system to route calls, a vacant outgoing line can be accessed either directly from the calling line (called DOD, for Direct Outward Dialing, typically invoked by dialing "9"), or from the attendant position (called non-DOD). Incoming calls cannot be received over a trunk with outward-only service.

[N]

Combination service provides for two-way calling between the central office switch and customer-premises equipment. Depending on how the customer programs its system to route calls, inward calls can be either DID or non-DID, and outward calls can be either DOD or non-DOD. Since most combination trunks provide for DID and DOD calling, and they are often referred to as DIOD (Direct Inward/Outward Dialing) trunks.

[N]

For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

[M]

Each DS0 level Trunk has the following characteristics:

Terminal Interface: 2-wire or 4-wire, as required for the provision of service

Signaling Type: Loop, Ground, E&M I, II, III

Pulse Type: Dual Tone Multi-Frequency (DTMF) or Dial Pulse (DP)

7.2.3 PBX Trunk Service (Cont'd)

b. Measured Rate PBX Trunks

Missouri Public
Service Commission

REC'D MAR 02 2000

(1) Description

Measured Rate DS0 PBX Trunks provide the customer with a single voice grade telephonic communications channel which can be used to place or receive one call at a time. Local calls on two-way trunks and DOD trunks are billed on a measured rate basis. DID trunks are arranged for one-way inward calling only.

(2) Recurring and Nonrecurring Charges

In addition to the nonrecurring charges listed below, service order charges apply as described in Section 3 of this tariff. Charges for each Measured Rate PBX Trunk include a monthly recurring Base Service Charge and usage charges for completed calls originated from the customer's lines based on the duration of calls during the billing period. Local calling areas are as specified in Section 11.

- e. Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI)
Basic Rate Interface (ISDN-BRI)

(1) Description

ISDN is a single integrated digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice data and image services via channelized transport facilities over a set of standard multipurpose user-network interfaces. PRI governs the connectivity between switching equipment (network or customer) and customer equipment and allows voice and data services, simultaneously while supporting circuit-switched and packet-switched connections.

The ISDN-PRI feature supports a 64 kb/s D-channel path between customer digital PBX equipment and the protocol handler in a PSU of the 5ESS(R) switch. This path is made up of a dedicated time slot between channel 24 on a digital facility interface (DFI) and the assigned protocol handler. This feature also provides the administration software for up to 23 B-channels associated with a D-channel in the same T1 facility (1.544 Mb/s for domestic). This interface supports both ISDN PBXs and host computers.

(i) Features

Call-by-Call Service - Provides the ability for the Dedicated B-channel(s) to be configured to access multiple tariffed services on a per-call basis. The customer premises equipment signals the local central office as to the type of services to access for each call.

7.2.4 Centrex-type Service

Missouri Public
Service Commission

REC'D MAR 02 2000

a. Description

Centrex-type Service is a multi-station system offered to the business customer with 4 or more lines or trunks. It consists of digital switching equipment in the Company's switches connected to station lines on the customer's premises. Company's Centrex-type service is comparable to Centrex service provided by Southwestern Bell. Centrex-type Service enables the customer to originate and receive local calls within its system at no additional charge. Local measured usage charges apply to all other local calls. Local calling areas are as specified in Section 11.

Centrex-type Service is offered on a contracted basis with four terms: 24, 36, 60 and 84 months. Thirty days prior to the expiration of the contract term, the subscriber may cancel service or renew for a new term commitment. If the subscriber does not cancel or renew the service, service will continue on a month to month basis at the monthly rate associated with the twenty-four month term plan.

Each Centrex-type Station Line has the following characteristics:

Terminal Interface: 2-Wire or 4-Wire as required for the provision of service

Signaling Type: Loop Start

Pulse Type: Dual Tone Multi-Frequency (DTMF)

Directionality: Two-Way, In-Only or Out-Only

Service Commission [M] [T]

In addition to the nonrecurring charges listed in Section 12 of this tariff, service order charges apply as described in Section 3 of this tariff. In certain circumstances, service to customers may require the use of a link (and, or) number portability arrangements provided by the Incumbent Local Exchange Carrier.

[M]

e. Digital Centrex-Type Service

[T]

Digital Centrex-type is a telephone service provided through the public switched telephone network (PSTN) via ISDN basic rate interface (BRI) lines. BRI provides a capability of up to three digital channels, two bearer (B) channels and 64 Kbps, and one data (D) channel at 16 Kbps. BRI is also commonly known as 2B+D. The B channels are capable of carrying voice, data, image, or video transmissions. The D Channel is used for out-of-band signaling or data transmission. Digital Centrex-type Service is provided via the central office (CO) of the local Telephone Company. An Individualized dialing plan (IDP) is offered with digital Centrex-type service that incurs a common equipment charge. An IDP allows for four-digit dialing between Centrex-type stations defined within the same IDP group.

Default features are provided through Digital Centrex-type service to the customer such as transfer and 3-way conference calling. Enhanced features are also available for an additional charge. These features are charged on a per feature basis. Digital Centrex-type service provides telephone system capabilities through the CO, eliminating the need for customer premise switching equipment.

7.2.5 Term Liability/Termination Charges

REC'D MAR 02 2000

If Customer terminates Service(s) prior to the fulfillment of the term, then a termination liability will be due to Adelphia Business Solutions from Customer. The termination liability shall include any previously waived charges for the cancelled Service(s) plus the greater of the following:

- a. the difference between the term period and the actual number of months the Service(s) has been in effect at the time of termination multiplied by the monthly rate for such Service(s); or
- b. the termination liability charges associated with such assumed or purchased contract.

7.2.6 Integrated Services Digital Network – Basic Rate Interface (ISDN-BRI)

Integrated Services Digital Network (ISDN) is an international standard for dial-up digital transmission over a public telephone network. Its stated purpose is to deliver more bandwidth to the end user than analog by moving the signaling out of band and delivering a host of new services to users. The BRI, also known as 2B+D, consists of two bearer and one data channel. Each bearer channel represents a 64kbps channel and each data channel represents a 16 kbps signaling and control data stream. The B channels carry voice, data, image or videos. The D channel corrects any errors that may occur in the transmission, and makes it possible to carry on a conversation and work on the internet at the same time on the same line. Personal modems and fax machines use ISDN-BRI lines. This service is delivered over a T1 circuit and requires a T1 board.

8.5 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

REC'D MAR 02 2000

8.5.1 General

Universal Emergency Telephone Number Service (911 Service) is an arrangement of Company central office and trunking facilities whereby any telephone user who dials the number 911 will reach the emergency report center for the telephone from which the number is dialed or will be routed to local incumbent's operator if all lines to an emergency report center are busy. If no emergency report center customer exists for a central office entity, a telephone user who dials the number 911 will be routed to local incumbent's operator. The telephone user who dials the 911 number will not be charged for the call.

8.5 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

8.5.2 Regulations

REC'D MAR 02 2000

- a. This service is furnished to municipalities and other governmental agencies only for the purpose of voice reporting of emergencies by the public. For this service, the municipality or government agency(s) designated by the customer as responsible for the control and staffing of the emergency report center is referred to as the "Agency".
- b. When 911 service replaces an existing emergency number, intercept service shall be the responsibility of the Agency. However, if the Agency is unable to provide this service, the local incumbent's operator will intercept and forward requests for emergency aid for a period of at least one year
- c. 911 service is furnished for incoming calls only.

8.5 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

REC'D MAR 02 2000

8.5.3 Conditions of Furnishing Service

This service is offered solely as an aid in handling assistance calls in connection with fire, police, medical, and other emergencies. The Company is not responsible, in the absence of gross negligence or willful misconduct, for any losses, claims, demands, suits, or any liability, whether suffered, made, instituted, or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, and for any loss, damage, or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of such facilities. By dialing 911, the customer agrees to release, indemnify, defend, and hold harmless the Company from any and all loss or claims, whatsoever, whether suffered, made, instituted, or asserted by the destruction of any property, whether owned by the customer or others. Notwithstanding any provision to the contrary, in no event shall the Company be liable for any special, incidental, consequential, exemplary, or punitive damages of any nature whatsoever.

The Company is not responsible for any infringement or invasion of the right of privacy of any person or persons, caused, or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of the 911 service features and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing the 911 service.

8.6 ENHANCED UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

8.6.1 General

Enhanced Universal Emergency Telephone Number Service (E911 Service) is a Call Delivery Network whereby any telephone user who dials the number 911 will reach a designated Public Safety Answering Point (PSAP). E911 Service is offered in the Company's serving area subject to the availability of stored program control central office facilities, Enhanced 911 software, and ANI equipment. The telephone user who dials the 911 number will not be charged for the call.

8.6.2 Regulations

- a. In addition to the following, the regulations in Sections 8.5.2 apply.
- b. This tariff does not provide for the inspection or constant monitoring of facilities to discover errors, defects, or malfunctions in the service, nor does the company undertake such responsibility. The Agency shall make such operational tests as in their judgment are required to determine whether the system is functioning properly for its use. The Agency shall promptly notify the Company in the event the system is not functioning properly.
- c. E911 information, consisting of the names, addresses, and telephone numbers of all telephone customers, is confidential. Adelpia Business Solutions is obligated to supply the E-911 service provider in Adelpia service area with accurate information necessary to update the E-911 database at the time Adelpia submits customer orders to the local exchange telecommunications company whose service is being resold pursuant to this tariff.

8.6 ENHANCED UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE (Cont'd)

8.6.2 Regulations (Cont'd)

- d. The E911 calling party, by dialing 911, waives the privacy afforded by non-listed and non-published service to the extent that the telephone number ("ANI") and address ("ALI") associated with the originating station location are furnished to the PSAP, on a call by call basis, after an E911 call has been received.
- e. Service boundaries of the Company and political subdivision boundaries may not coincide. In the event that the Agency does not subscribe to Selective Routing, it must make arrangements to handle all 911 calls that originate from telephones served by Central offices in the local service areas (i.e., exchange) whether or not the calling telephone is situated on property within the geographical boundaries of the Agency's public safety jurisdiction.
- f. At the time Adelphia provides basic local service to a customer by means of Adelphia's own cable pair, or over any other exclusively owned facility, Adelphia will be obligated to make the necessary equipment or facility additions in the E-911 service provider's equipment in order to accurately and properly update the database for E-911.
- g. Adelphia will be obligated to provide facilities to route calls from the end users to the proper Public Safety Answering Point. Adelphia recognizes the authority of the E-911 customers to establish service specifications and grant final approval or denial of service configurations offered by Adelphia.
- h. Adelphia will collect 911 surcharges and remit all surcharges revenue to the appropriate governmental entity pursuant to RSMO 190.310.

Section 9 - SPECIAL ARRANGEMENTS

9.1 SPECIAL CONSTRUCTION

REC'D MAR 02 2000

Special Construction is that construction undertaken: (1) where facilities are not presently available, and there is no other requirement for the facilities so constructed; (2) of a type other than that which the Company would normally utilize in the furnishing of its services; (3) over a route other than that which the Company would normally utilize in the furnishing of its services; (4) in a quantity greater than that which the Company would normally construct; (5) on an expedited basis; (6) on a temporary basis until permanent facilities are available; (7) in advance of its normal construction.

9.1.1 Basis for Charges

Basis for Charges where the Company furnishes a facility for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company (including return) and may include:

- a. nonrecurring charges;
- b. recurring charges;
- c. termination liabilities; or
- d. combinations of a., b., and c.

9.1.2 Basis for Cost Computation

The costs referred to in Section 9.1.1 preceding may include one or more of the following items to the extent they are applicable:

- a. Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - (1) equipment and materials provided or used;
 - (2) engineering, labor, and supervision;
 - (3) transportation; and
 - (4) rights of way and/or any required easements.
- b. Cost of maintenance.
- c. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.

- e. License preparation, processing, and related fees.
- f. Tariff preparation, processing and related fees.
- g. Any other identifiable costs related to the facilities provided; or
- h. An amount for return and contingencies.

9.1.3 Termination Liability

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of a customer.

- a. If a customer chooses to pay the special construction cost over a 12 month period, a termination liability charge will apply if the customer disconnects service before the 12 month period ends. Termination Liability charge is equal to the non-recoverable costs associated with specially constructed facilities and is the maximum amount which could be applied as a termination charge if all specially constructed facilities were discontinued before the Termination Liability expires. The liability period is 12 months in terms of an effective and expiration date.
- b. The amount of the maximum termination liability is equal to the estimated amounts (including return) for:

9.2 NON-ROUTINE INSTALLATION AND/OR MAINTENANCE

REC'D MAR 02 2000

At the customer's request, installation and/or maintenance may be performed outside the Company's regular business hours, or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

9.3 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS

Rates for Dedicated Access, Private Lines and Centrex-type services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the services and will be made available to customers in a non-discriminatory manner. Terms of specific ICB contracts will be made available to the Missouri Public Service Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.

9.4 MUTUAL COMPENSATION

Mutual compensation arrangements address the transport and termination of Local Traffic between local exchange providers serving the same local calling area. Such payments compensate a local exchange provider for the costs of terminating local calls placed by one provider's customer to a recipient served by a different local provider. All Switched Exchange Access Service and all Toll Traffic shall continue to be governed by the terms and conditions of the applicable federal and state tariffs.

a. Indented Listings

An indented listing is indented under a standard listing or under a caption, and may not include more than a designation, address, and telephone number. A caption consists of a name, and may include a designation, but not a telephone number. An address may be included only if all of the services listed under the caption are located at the same address. When the same designation is appropriate for two or more indented listings, it may be shown as a sub-caption. Indented listings are permissible when a Customer is entitled to two or more listings of the same name with different addresses or different telephone numbers.

b. Duplicate Listings

Any listing may be duplicated in a different directory (where offered) or under a separate geographical heading in the same directory. Such listing may be duplicated in indented form.

c. Reference Listing

A Customer with a listing in a different geographic heading may have an indented listing in reference form ("See . . .") in lieu of a duplicate listing.

d. Cross Reference Listing

A Customer may have a related listing in the same alphabetic group listing when required for identification of the listed party and not designated for advertising purposes.

Section 10 - DIRECTORY (Cont'd)

10.1 ALPHABETICAL DIRECTORY (Cont'd)

Missouri Public
Service Commission

10.1.3 Types of Listings (Cont'd)

REC'D MAR 02 2000

e. Alternate Telephone Number Listings

Any listed party who has made arrangements for receiving calls at a different telephone number during an absence or at night may have the alternate numbers listed in the directory. Such listings may be furnished as an indented listing or as a sub-caption.

f. Semi-Private Listing

At the request of the Customer, the telephone number is omitted from the Company's alphabetical directory and designated as a "non listed" telephone number and the telephone number is included in the Directory Assistance records available to the general public. In addition, the telephone number is displayed for 911 and E911 emergency service and provided when a law enforcement agency requests it in writing.

Section 10 - DIRECTORY (Cont'd)

10.1 ALPHABETICAL DIRECTORY (Cont'd)

Missouri Public
Service Commission

10.1.4 Non-Published Service

REC'D MAR 02 2000

a. General

The telephone numbers of non-published service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public. However, where a government agency subscribes to Universal Emergency Telephone Number Service (911) or Enhanced Universal Emergency Telephone Service (E911), the telephone number, name, and address of a Customer with non-published service will be displayed when the Customer dials 911 and is connected to a Public Safety Answering Point (PSAP) for dispatch of emergency service. In addition, the Company will provide a Customer's non-published number when a law enforcement agency requests it in writing.

b. Regulations

1. Except as otherwise provided in this paragraph, incoming calls to non-published service will be completed only when the calling party places the call by number. In claims of emergencies involving life and death, the operator will call the non-published number and request permission to make an immediate connection to the calling party. If the connection is refused, the calling party will be advised.
2. The acceptance by the Company of the Customer's request to refrain from publishing his or her telephone number in the Directory does not create any relationship or obligation, direct or indirect, to any person other than the Customer.

10.3 DIRECTORY INFORMATION REQUESTS

REC'D MAR 02 2000

Requests for directory information are provided by dialing Directory Assistance. (See Section 5.7.) Information will not be issued by the Company outside of normal directory assistance procedures unless the request is made by an emergency agency. Except in the case of a life threatening emergency, where company will immediately respond, directory information will only be provided to law enforcement agencies after a formal request is presented to the Company in writing. The requesting agency must agree to pay for the costs incurred by the Company in providing the information, and must certify that the information will be used only for the purpose of providing its services to the community.

10.4 LIABILITY OF THE COMPANY FOR ERRORS

10.4.1 General

In the absence of gross negligence or willful misconduct, and except for the allowances stated elsewhere in this Tariff, no liability for any damage of any nature whatsoever arising from errors in directory listings or errors in listings obtainable from the Directory Assistance operator, including errors in reporting thereof, shall attach to the Company. A listing is considered in error only when it shows the Customer on the wrong street, or in the wrong community. The Customer must notify the Company of an error.

10.4.2 Allowance for Errors

An allowance for errors in published directory listings or for errors in listings obtainable from the Directory Assistance operator shall be given as follows:

10.4 LIABILITY OF THE COMPANY FOR ERRORS (Cont'd)

Missouri Public
Service Commission

10.4.2 Allowance for Errors (Cont'd)

REC'D MAR 02 2000

a. Free Listings

For Free or non-charge published directory listings, credit shall be given at the rate of two times the monthly rate for an additional or charge listing affected, for each month of the life of the directory or the charge period during which the error occurs. The Company may issue the credit in a lump sum if it chooses to do so.

b. Charge Listings

For each additional or charge published directory listing, credit shall be given at the monthly tariff rate for each individual line affected, for each month of the life of the directory or the charge period during which the error occurs.

c. Operator Records

For free or charge listings obtainable from records used by the Directory Assistance operator, upon notification to the Company of the error in such records by the Customer, the Company shall be allowed a period of three business days to make the correction. If the correction is not made in that time for reasons within the control of the Company, credit shall be given at the rate of two-thirtieths (2/30) of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected.

The total amount of any credit shall not exceed, on a monthly basis, the total of the charges for each listing plus the basis monthly rate for the line(s) in question. No allowance will be provided for errors caused by other carriers or operator service providers.

Section 11 - SERVICE AREAS & RATES

11.1 Description

Local Telephone Service offers business customers the ability to connect to the Company's switching network.

11.2 General Regulations

Missouri Public
Service Commission

11.2.1 Service Areas: The Company offers service in this area:

REC'D MAR 02 2000

Kansas City Metropolitan Exchange

11.2.2 Local Calling Areas: Local calling is available from the Company's Kansas City Metropolitan exchange to all Southwest Bell exchanges listed below:

Kansas City Principal: The local calling area includes the geographic area encompassed within the Kansas City Metropolitan Exchanges (Principal Zone, MCA-1, MCA-2, MCA-3, MCA-4 and MCA-5) as defined in the Southwestern Bell Telephone Company Local Exchange tariff.

11.2.3 Availability: Services are provided subject to technological availability and compatibility with customer facilities. Services, rates, and contract conditions might not be available in all areas. If our facilities are not available in your area we may provide services by reselling.
