1.4 TWO-POINT SERVICE - (Continued)

1.4.53 AT&T SIMPLIFIED PLAN* (CPMBZ)

* As of December 17, 2003 this service is no longer available to new subscribers.

A. General

Residential customers who have selected AT&T as their Primary Interexchange Carrier can enroll in this plan. This Plan is offered in conjunction with the interstate AT&T Simplified Plan specified in the AT&T Consumer Service Guide CPM03001DD available at <http://www.att.com/serviceguide/home>. All terms and conditions are contained and described within that consumer AT&T Service Guide.

Customers must enroll in this offer by completing and returning an enrollment form provided by AT&T, calling an AT&T designated 800 number, or by enrolling during a marketing contact with AT&T. Customers will receive the benefits of this plan until changed or canceled by AT&T.

B. Rates and Charges

A&T intrastate direct dialed station calls are eligible for the plan rates detailed below.

Customers will pay a minimum monthly usage charge. Eligible interlata and intralata intrastate dial station calls will be rated as follows:

Dial Station calls	Rate per Minute	
Weekday Rate	\$.29	(CR)
Weekend Rate	\$.29	(CR)

Weekday: Rate period is 12:00 a.m. Monday through 11:50 p.m.
Friday.

Weekend: Rate period is 12:00 a.m. Monday through 11:59 p.m.
Sunday.

The duration of a call, which involves a fractional part of a minute, will be rounded up to the next higher full minute. A call originating in one rate period, but ending in another rate period, will be rated based on the minutes of use associated with each rate period. If a minute is split between two rate periods, the rate period applicable at the start of the minute applies to that entire minute.

The AT&T intraLATA Overlay II Plan is an optional calling plan that is compatible with a variety of AT&T Calling plans. Specifically AT&T will offer this plan to residential customers who are enrolled in any of the following AT&T residential calling plans as specified in AT&T Service Guides: (CT)

AT&T One Rate Plan, AT&T One Rate Plus, AT&T One Rate 5 cents Sundays, Basic Schedule X, One Rate 10 cents, AT&T Value Rate Plan. (AT)
(AT)

This plan will be available to residential customers who are presubscribed to AT&T, as both their primary interLATA Carrier and their primary intraLATA Carrier.

Customers must enroll in this offer by completing and returning an enrollment form provided by AT&T, calling an AT&T designated 800 number or by enrolling during a marketing contact by AT&T.

B. Rates and Charges

Residential customers who enroll in this plan will receive the following rate for all qualified intraLATA direct dialed calls.

<u>Class</u>	<u>Price per Minute</u>
IntraLATA Dial Station Calls	\$.09

C. Availability

The AT&T intraLATA Overlay Plan may be discontinued by the customer upon written or telephone notice to AT&T. In addition, AT&T will discontinue a customer's subscription to the plan, when AT&T is notified that the customer has changed his or her primary interLATA or intraLATA carrier, or both, to a carrier other than AT&T.

This plan is available where facilities and billing capabilities permit.

A General

Customers of Consumer Telecommunications Services who have AT&T as their primary interexchange carrier can enroll in this plan by December 31, 2004. Customers can enroll in this plan by completing and returning a written subscription to AT&T, by calling an 800 number designated by AT&T for this plan or by enrolling during a marketing contact with AT&T. This plan is offered in conjunction with, and all terms and conditions are contained within, the consumer AT&T Service Guide. (CT)

B. Rates and Charges

Customers subscribed to this plan must pay a monthly recurring charge, which includes unlimited weekend minutes of direct dialed 1+state-to-state, intraLATA toll, and in-state long distance calling for residential voice service only. AT&T will rate eligible weekday direct dialed station calls at 9 cents per minute, 24 hours a day, every weekday. (CR)

If it is determined that usage is not consistent with residential voice applications, such as for Internet access services, commercial facsimile or auto-dialing, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict or cancel service without prior notice.

Rates and service charges for calling card calls and operator-handled calls apply as specified in Section 1.4.6.

If at the time of enrollment in this plan, the customer has selected AT&T as the primary carrier for intraLATA toll calls, the customer's intraLATA toll calls will be included under this plan. If for any reason the customer does not select AT&T as the intraLATA toll carrier, the monthly charge for this plan will still apply.

Customers of Consumer Telecommunications Services who have AT&T as their primary interexchange carrier can enroll in this plan by December 31, 2004. Customers can enroll in this plan by completing and returning a written subscription to AT&T, by calling an 800 number designated by AT&T for this plan or by enrolling during a marketing contact with AT&T. This plan is offered in conjunction with, and all terms and conditions are contained within, the consumer AT&T Service Guide BOT03002DD. (CT)

B. Rates and Charges

Customers subscribed to this plan must pay a monthly recurring charge, which includes unlimited weekend minutes of direct dialed 1+state-to-state, intraLATA toll, and in-state long distance calling for residential voice service only. AT&T will rate eligible weekday direct dialed station calls at 7 cents per minute, 24 hours a day, every weekday.

If it is determined that usage is not consistent with residential voice applications, such as for Internet access services, commercial facsimile or auto-dialing, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict or cancel service without prior notice.

Rates and service charges for calling card calls and operator-handled calls apply as specified in Section 1.4.6.

If at the time of enrollment in this plan, the customer has selected AT&T as the primary carrier for intraLATA toll calls, the customer's intraLATA toll calls will be included under this plan. If for any reason the customer does not select AT&T as the intraLATA toll carrier, the monthly charge for this plan will still apply.

C. Availability

AT&T will provide this plan in locations where billing and technical resources are available.

JAN 23 1998 (CT)

1.6.1 General

(MT)

When customer premises equipment is connected to MTS, it must comply with the FCC's Registration Program. If Grandfathered customer premises equipment, test equipment or communications systems are connected, the Minimum Protection Criteria specified in this Tariff must be met.

MISSOURI
Public Service Commission

MTS is not represented as adapted for connection to other services or communications systems. It is designed, operated and maintained to provide satisfactory transmission only between a calling and a called service point(s) equipped with suitable customer premises equipment.

The Company is responsible for the quality of transmission for MTS from demarcation point to demarcation point. The Company is responsible for the quality of transmission of the customer's side of the demarcation points at a premises.

CANCELLED

1.6.2 Responsibilities of the Customer

JUL 05 1998

When customer premises equipment or a communications system is connected to MTS, the customer assumes responsibility for the connection as follows:

5th RS # 72
Public Service Commission
MISSOURI

A. Interference and Hazard

The operating characteristics of customer premises equipment or communications systems connected to MTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of MTS.

The Company will take immediate action to protect its services or interests if this regulation is violated.

B. Changes to MTS

The Company is not obligated to alter or modify MTS because of additions or changes to customer premises equipment or a communications system provided by the customer or others.

C. Testing and Maintenance

If a trouble report occurs on an assembly, the customer must determine whether the fault is in (1) the connected premises equipment or communications system, or (2) MTS. The Company will test and maintain only the services it provides. The testing of MTS will usually be made from a point-of-presence.

B. Changes in Minimum Protection Criteria, Operations, or Procedures

The Company is not responsible to any party if a change in its MTS components, Minimum Protection Criteria, operations, or procedures, which are consistent with the Registration Program, (1) affects any facilities, customer premises equipment or communications systems provided by others in any way, or (2) requires their modification in order to be used with MTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the MTS or render any customer premises equipment or communications system incompatible with MTS, the Company will make a reasonable effort to notify the customer in writing of the proposed change. A reasonable interval will be allowed before the change is implemented to enable the customer to maintain compatibility of its customer premises equipment or communications system with MTS.

1.6.4 Connection to Service Provided by a Local Exchange Carrier

MTS may be connected to services provided by a Local Exchange Carrier. The connections are subject to the regulations in this Tariff and the appropriate tariff(s) of the Local Exchange Carrier.

1.6.5 Connection of a Communications System or MTS Equivalent Service

When a communications system or MTS equivalent service is connected to the Company's MTS, the customer must make all arrangements concerning the connected systems or service with its provider. The connection does not constitute a joint undertaking between this Company and the provider of the system or service. The system or service must be operated and maintained so it will work satisfactorily with MTS. Connections to MTS will be made in accordance with the following:

A. Answer Supervision

When MTS is connected to a communications system which is also connected to switching or terminal equipment, such equipment shall provide the necessary answer supervision so that chargeable time begins upon delivery of the MTS message to the equipment and ends upon termination of the message by the calling party.

1.6.6 Minimum Protection Criteria

(MT)

MO. PUBLIC SERVICE COMMISSION

A. General

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria applies to the direct electrical, acoustic, or inductive connections of customer premises equipment and communications systems to MTS.

B. All Connections

Customer premises equipment and communications systems which are connected to MTS on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the demarcation point meets the following limits:

a. Metallic Voltage

- (1) 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (6.4 / 12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	(23 - 40 log f) dBV	135 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

*dBV = 20 log₁₀ voltage in volts

- (2) The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms. (MT)

(2) The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

2. To prevent the interruption or disconnection of an MTS message, it is necessary that the signal applied at the demarcation point be limited. Specifically, the signal at the demarcation point shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the demarcation point in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.
