**TARIFF FOR RATES**

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 8 and 9 would be 8.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file. For example, the 3rd revised page 8 cancels the 2nd revised page 8.
- C. **Paragraph Numbering Sequences** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a).1.
  - 2.1.1.A.1.(a).1.(i)
  - 2.1.1.A.1.(a).1.(i).1.
- D. **Check Sheets** - When a tariff filing is made, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file.

**1+:** InterLATA calling within the North American Numbering Plan may be completed by dialing 1 plus the area code plus the telephone number of the called party. IntraLATA calling may be completed by dialing an authorization code, then 1 plus the area code plus the telephone number.

**0+:** An operator assisted call where the calling party dials "0" plus a seven digit or 10 digit phone number. This dialing pattern is used mostly for collect, credit card, person-to-person and third party billed calls. The caller states the type of call after dialing is done and an operator comes on line.

**0-:** An operator assisted call where the calling party dials "0" (for operator) and does nothing more until an operator comes on line. The caller then states the nature of the call and the phone number or party he wants to reach.

**Additional Period:** The billing increment charged after the minimum period on a call.

**Authorized User:** A person, firm, corporation or any other entity authorized by the Customer to use or communicate over such services or facilities as may be provided by this tariff.

The Available Usage Balance is depleted as services provided by the Company are utilized by the Customer.

**Base Rate:** The standard rate for a telecommunications service from which time-of-day discounts, volume discounts and specialized pricing arrangements are figured.

**Business Customer:** A customer whose use of service is primarily or substantially of a professional, business, institutional, occupational or commercial nature.

**2.24. Calculation of Distance**

Usage charges for all mileage sensitive services are based on the airline distance between the rate centers for the central office locations associated with the originating and terminating points of the call. The distance between the originating and terminating points is calculated by using the vertical "V" and horizontal "H" coordinates in the following manner:

- Step 1 -** Obtain the "V" and "H" coordinates of the origination and the destination points.
- Step 2 -** Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.
- Step 3 -** Square each of the differences obtained in Step 2.
- Step 4 -** Add the square of the "V" difference to the square of the "H" difference obtained in Step 3.
- Step 5 -** Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 -** Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction results. This is the V&H mileage distance between the originating and terminating points of the call. The formula is as follows:

$$\text{Mileage} = \sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

The value of the telecommunications service will be indicated visibly on the card prior to purchase. The usage charges will be depleted in accordance with the rates listed herein. The retail price will include both the telecommunications value and the card value.
