BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

In the Matter of the Cancellation of the)
Certificate of Authority and Tariffs for) Case No. TD-2000-475
Hebron Communications Corporation)

ORDER CANCELING CERTIFICATE

On February 2, 2000, Hebron Communications Corporation (HCC) filed its application for cancellation of certificate and tariff, asking the Missouri Public Service Commission (Commission) to cancel its certificate of authority and tariff. The Commission granted HCC a certificate of service authority to provide intrastate interexchange telecommunications services in case number TA-98-198 on December 30, 1997.

HCC stated in its application that it has ceased all telecommunications services within the State of Missouri and that it has no customers in the state of Missouri.

Section 392.410(5) RSMo 1999 states, in part: ". . . Any certificate of service authority may be altered or modified by the commission after notice and hearing, upon its own motion or upon application of the person or company affected. . . ." The requirement for a hearing is met when the opportunity for hearing has been provided and no proper party has requested the opportunity to present evidence. State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission, 776 S.W.2d 494, 496 (Mo. App. 1989). Since no one

has requested a hearing in this case, the Commission may grant the relief requested based on the verified application.

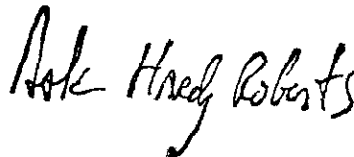

The Commission has reviewed the application and the official file and finds that the Certificate of Service Authority granted to HCC in case number TA-98-198 shall be canceled.

IT IS THEREFORE ORDERED:

1. That the certificate of authority and tariffs granted in case number TA-98-198 to Hebron Communications Corporation shall be canceled on February 22, 2000, unless otherwise ordered by the Missouri Public Service Commission.

2. That this case may be closed on February 23, 2000.

A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new Pages are occasionally added to the tariff. When a new Page is added between Pages already in effect, a decimal is added. For example, a new Page added between Pages 14 and 15 would be 14.1.

B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current Page version on file with the PSCM. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the PSCM follows in its tariff approval process, the most current Page number on file with the Commission is not always the tariff page in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.

SECTION 2 - RULES AND REGULATIONS

NOV 10 1997

2.1 Undertaking of Hebron Communications Corporation

MISSOURI

Hebron's services and facilities are furnished for communications originating at specified points within the state of Missouri under terms of this tariff.

Hebron installs, operates, and maintains the communications services provided hereinunder in accordance with the terms and conditions set forth under this tariff. Hebron may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities (such as the local exchange company), when authorized by the Customer, to allow connection of a Customer's location to the Hebron network. The Customer shall be responsible for all charges due for such service arrangement.

The Company's services and facilities are provided on a monthly basis unless otherwise stated, and are available twenty-four (24) hours per day, seven (7) days per week.

2.2 Limitations

- 2.2.1 Service is offered subject to the availability of the necessary facilities and equipment, or both facilities and equipment, and subject to the provisions of this tariff.
- 2.2.2 Hebron reserves the right to discontinue or limit service when necessitated by conditions beyond its control, or when the Customer is using service in violation of provisions of this tariff, or in violation of the law.

2.10 Payment for Service

MISSOURI

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer or to an Authorized User of the Customer by Hebron. Hebron will arrange to bill calls in accordance with the credit card, collect call, or calling card instruction of the caller, via the designated commercial credit card clearing center or the applicable telephone company with whom Hebron has a billing agreement. Direct dialed calls will be billed to the Customer's originating line account. All charges due by the Customer are payable to the Company or to any agency duly authorized to receive such payments. Terms of payment shall be according to the rules and regulations of the agency and subject to the rules of regulatory agencies, such as the Public Service Commission of Missouri. When payment is made through another entity, the billing conditions of that entity apply. Account payment will not be considered delinquent if payment has been received within thirty (30) days of the invoice date. Any objections to billed charges must be promptly reported to the Company or the Company's billing agent. Adjustments to Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

3.2 Calculation of Distance

MISSOURI
Public Service Commission

Usage charges for mileage sensitive services vary based on the type of service subscribed to by the Customer. For services utilizing switched access, mileage measurements for rate schedules are based on the distance in airline miles between rate centers associated with the originating and terminating stations. For services utilizing dedicated access, mileage measurements for rate schedules are based on the distance in airline miles between the Hebron network access point associated with the station utilizing Dedicated Access Origination/Termination and the rate center associated with the called/calling station.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center or network access point serving the Customer's location and the called/calling station.
- Step 2: Obtain the difference between the "V" coordinates. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating locations of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.3 Timing of Calls

MISSOURI
Public Service Commission

- 3.3.1 Timing for all calls begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2 Chargeable time for a call ends upon disconnection by either party.
- 3.3.3 The minimum call duration and initial period for billing purposes is one minute.
- 3.3.4 Unless otherwise specified in this tariff, for billing purposes usage is measured and rounded to the next higher full minute.
- 3.3.5 No charges apply for incomplete calls.
