#### **DEFINITIONS**

JAN 1 5 1997

DEMARCATION POINT - The point of connection provided and maintained by the telephone provided and maintained by the telephone provided company, at which the station wiring becomes dedicated to an individual customer Service Company individual customer dwelling, this point of connection will generally be the modular jack incorporated service into the customer side of the Network interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

DIRECTORY LISTING - A publication in the Company's alphabetical directory of information relative to a customer's name or other identification and telephone number.

DISCONNECT NOTICE - The written notice sent to a customer following billing, notifying him that his service will be discontinued if charges are not satisfied by the date specified on the notice.

DROP WIRE - That portion of a circuit between the pole line or cable distributing box and the building in which the station or switchboard is located.

DUE NOTICES - See "Disconnect Notices".

ENTRANCE FACILITIES - Facilities extending from the point of entrance on private property to the premises on which service is furnished.

EXCHANGE - A geographical area established for the administration of telephone service in a specified area, called the "Exchange Area", which usually embraces a city, town or village, and its environs. It may contain one or more central offices together with the associated plant, equipment, and facilities used in furnishing communication service within that area.

EXCHANGE AREA - The territory served by an exchange.

EXCHANGE LINE - Any circuit connecting an exchange station with a central office.

EXCHANGE SERVICE - The furnishing of facilities for the telephone communication within an exchange area, in accordance with the regulations and charges specified in the Local and General Exchange Tariffs. Exchange facilities are used to establish and maintain connection between an exchange station and the other telephone plant and facilities in connection with long distance calls or extended area service calls.

MISSOUR, Public Service Commission

- C. Switchboards: Switchboards are classified as follows: (Continued)
  - 1. Cord Switchboard: (Continued)
    - a. Multiple Cord Switchboard: A cord switchboard arranged so that each line may have two or more appearances or jack terminations.
    - b. Nonmultiple Cord Switchboard: A cord switchboard arranged so that each line has only one appearance or jack termination.
  - 2. Cordless Switchboard (Key Switchboard): A switchboard on which all lines terminate on keys which may be used to interconnect stations and stations and trunk lines.
  - 3. Dial Switchboard: A switchboard on which interconnection of stations and stations and trunk lines is established by means of dialing.
- D. Battery Power: Power furnished for talking and for operating lamp or visual signals and relays.
- E. Ringing Current: Current furnished by means of a circuit from a central office or some other source of supply, to enable signaling within a P.B.X. system.

PRIVATE BRANCH EXCHANGE TELEPHONE - Any telephone station connected with a private branch exchange system.

PRIVATE BRANCH EXCHANGE TRUNKS - See "Private Branch Exchange System".

PRIVATE LINE - A circuit provided to furnish communication between two or more instrumentalities directly connected to it. Such instrumentalities do not have access to the general exchange and interexchange networks.

RESIDENCE SERVICE - Telephone service furnished to customers when the actual or obvious use is for domestic purposes.

I

i.

i

TELETYPEWRITER - A teletypewriter consists of apparatus designed for the sending and receiving, or receiving only, of typewritten messages transmitted electrically.

MO. PUBLIC SERVICE COMM

TERMINATION CHARGE - A charge applied under certain conditions when a contract for service is terminated by the customer before the expiration of the minimum contract period.

TERMINAL EQUIPMENT ACCESSORIES - Devices, apparatus and their associated wiring, provided by a customer, which do not constitute a communications system and which, when connected to the telecommunications system of the Company, are connected either electrically, acoustically or inductively.

TIE LINE - A circuit connecting two private branch exchange systems for the purpose of interconnection between the stations connected with such systems.

TIE LINE MILEAGE - The measurement on which the rates for tie lines connecting customer's switchboard is based.

TOLL BLOCKING - Toll blocking is a service provided by carriers that lets customers elect not to allow the completion of outgoing toll calls to the Long Distance Message Telecommunications Network, this would include 1+, 0+ and/or 0- operator handled calls.

TOLL CENTER - A telephone switching center at which the operations (manual or dial) function (message timing, switching and recording) (manual or dial) function (message timing, switching and recording) takes place in connection with the provision of toll message service.

TOLL LINE - A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such messages are applicable.

TOLL MESSAGE - A message between stations in different exchange areas and furnished under the provisions of the applicable toll Tariff.

- A APPOINTMENT CALL TOLL MESSAGE A toll message in which the user stipulates a desire for communication with a specified person or persons at a specified time only.
- B. MESSENGER SERVICE TOLL MESSAGE A toll message on which at the request of the calling party, the Company arranges for a messenger to notify a person at the called address to go to a telephone.
- C. PERSON-TO-PERSON TOLL MESSAGE A toll message in which the user stipulates a desire for communications with a specified person or extension station at a specified location of the second station of the second station
- D. STATION-TO-STATION TOLL MESSAGE A toll message in which the user stipulates a desire for communication only with a specified telephone or switchboard.
