MISSOURI ENERGY EFFICIENT NATURAL GAS EQUIPMENT AND BUILDING SHELL MEASURE REBATE PROGRAMS

APPLICATION

The Missouri Energy Efficient Natural Gas Equipment and Building Shell Measure Rebate Programs (Program) is designed to encourage more effective utilization of natural gas by encouraging cost effective energy efficiency improvements through the replacement of less efficient natural gas equipment with high efficient ENERGY STAR® Qualified natural gas equipment and other high efficiency equipment and building shell measures.

Rebates are being offered on a limited basis for a portion of the cost of high efficiency equipment and building shell measures purchased by Participants. Company's participation in such financial incentives is in accordance with the Stipulation and Agreement approved by the Missouri Public Service Commission (Commission) in Case No. GR-2010-0363.

DEFINITIONS

* Administrator - Company will administer the Program through a contractor experienced in energy efficiency rebate programs.

AFUE - Annual Fuel Utilization Efficiency: Energy efficiency rating measure determined, under specific testing conditions, by dividing the energy output by the energy input. It is a measure of the heat actually delivered by a furnace to the structure compared to the heat potential in amount of fuel supplied to the furnace. For example, a furnace that has a 92% AFUE rating converts 92% of the fuel supplied as heat to the structure - the other 8% is lost as exhaust. This information is available on every furnace sold in the United States.

ENERGY STAR $^{\underline{\otimes}}$ - A voluntary labeling program designed to identify and promote energy efficient products to reduce energy expenses and greenhouse gas emissions. ENERGY STAR[®] is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy.

Participant - A customer who is being served under either the Company's Residential or General Service natural gas rate class, is located in Missouri, and elects to either purchase or agrees to receive energy efficient gas saving equipment as described in the Measures. For purposes of receiving rebates under this Program, a Participant is defined as a person, firm, organization, association, corporation, landlord, contractor or other entity that implements Measure(s), submits Rebate Form and documentation.

Retailer - Any retailer which has agreed to sell ENERGY STAR[®] Qualifying or other high efficient natural gas equipment, or provider of energy efficiency services, associated with the Measures.

MISSOURI SERVICE AREA

MISSOURI ENERGY EFFICIENT NATURAL GAS EQUIPMENT AND BUILDING SHELL MEASURE REBATE PROGRAMS (cont'd)

DEFINITIONS (cont'd)

Qualified Auditor - A nationally recognized contractor trained in natural gas equipment utilization systems and commercial and/or residential structures as an integrated whole building system. Residential training, certification, and accreditation are provided by the Building Performance Institute (BPI) and Residential Energy Services Network's (RESNET[®]). Commercial training and certification are provided by nationallyrespected energy auditor certification organizations. Approved Energy Auditors are found by calling the Company at 1-800-552-7583 or on the internet at http://ded.mo.gov/asp/energy/auditors.htm or http://www.bpi.org/tools_locator.aspx?associateTypeID=CTR.

EEAG - Energy Efficiency Advisory Group: Includes representatives from the Company, the Commission Staff, Office of the Public Counsel (OPC), and the Department of Natural Resources (DNR) - Division of Energy. The EEAG will function as an advisory group for these programs.

ACH - Air Changes per Hour: ACH represents how many times per hour the air volume inside the living space is naturally replaced by outside air due to air leaks. ACH measurements vary according to the "air-tightness" of the building shell.

AVAILABILITY

The Program is voluntary. A Participant may receive rebates, for the quantities listed for each measure, each calendar year. Rebates must be redeemed through the Administrator. High Efficiency and ENERGY STAR® Equipment availability may vary by each Participating Retailer throughout the Company's territory.

Residential rebates apply only to Residential customers purchasing high energy efficient natural gas equipment and building shell measures as listed in Residential Measures.

General Service rebates apply only to General Service customers purchasing high efficiency equipment and building shell measures as listed in General Service Measures.

*REBATES

Each Participant will receive a rebate check from the Administrator within eight (8) to ten (10) weeks after the completed Rebate Form is submitted with proper documentation. Rebate Forms, applications and protocols are available on the Company's Website AmerenMissouri.com/naturalgas or by calling 800.210.8131. For program issues, call Ameren Missouri at 314-342-1111 or 800-552-7583.

MISSOURI ENERGY EFFICIENT NATURAL GAS EQUIPMENT AND BUILDING SHELL MEASURE REBATE PROGRAMS (cont'd)

General Service Measures (cont'd)

12) Equipment: Pre-Rinse Spray Valve Program - installation of either a self installed or direct installed pre-rinse spray valve. Rated: 0.64 GPM. Rebate: Up to two (2) free pre-rinse spray valves that are either direct installed or mailed to the customer at the discretion of the Company. 13) Equipment: Natural Gas Large Vat Fryer - purchase and installation of one (1) natural gas large vat fryer.

Rated: 50% = Heavy Load Cooking Energy Efficiency. Rebate: Nine hundred dollars (\$900).

PROGRAM FUNDS

Funding for these measures is set forth in the Stipulation and Agreement in Case No. GR-2010-0363.

*PROGRAM TERM

The Program will conclude on December 31, 2016. All installations of measures must occur no later than December 31, 2016 to qualify for a rebate. All rebate forms for this Program must be submitted and post-marked not later than January 31, 2017.

This tariff will provide for uninterrupted availability of these energy efficiency programs through December 31, 2016. The Company may file with the Commission proposed revised tariff sheets concerning the Energy Efficiency program if Company believes circumstances warrant changes.
