4.0 Rates and Charges

4.1 Nonrecurring Charges

4.1.1 Early Termination Charges

If a Customer terminates service prior to the expiration of the term of the contract (see Section 2.5) without cause, the Customer will be required to pay an early termination charge as set forth in the contract for service.

4.1.2 Third Party Vendor Charges

Customers may also be charged for certain charges incurred by McLeodUSA (at the Customer's instruction) in obtaining services from third party vendors. At the earliest opportunity, the Customer will be advised of the nature of the charges and the estimated amount of the charges.

4.1.3 Reconnection Fee

Business: \$15.75 Per line                      Residential: \$25.00 Per line

This charge applies to reconnect service after service has been suspended and is due at the time services are restored. (T)  
(T)

4.1.4 Nonsufficient Funds Charge (NSF Checks)

The NSF check charge shall be \$25.00, or the highest amount permitted by law.

This charge applies when a check has been returned by the bank for non-payment.

4.1.5 PIC/LPIC Change Charge

Initial PIC/LPIC selections will be processed at a \$5.00 charge per line, which may be waived if the Customer chooses McLeodUSA as their long distance provider. A non-recurring \$5.00 charge shall be applicable to all subsequent PIC/LPIC changes. If a PIC/LPIC change is initiated by an IXC on behalf of the Customer, and the Customer denies having made a change, and the IXC is unable to produce documentation of the change with a letter of agency signed by the Customer; then the Customer will be reassigned to its previously selected PIC/LPIC and the charge will be assessed to the IXC.

(N)

Business	\$20.00 / per order
Residential	\$20.00 / per order

4.1.10 Account Service Fee

Residential: \$2.99 per account Business: \$4.99 per account

The monthly Account Service Fee is assessed on accounts each month when the "total current charges" are below \$10.00 for the month.

4.1.11 Access Recovery Surcharge:

The Access Recovery Surcharge (ARS) is not a fixed monthly recurring charge. Rather, the ARS is a percentage of the customer bill based on the total amount spent on services, less any taxes, surcharges or other non-qualifying fees. This fee is used to offset increased McLeodUSA expenses caused by a regulatory change. Specifically, the charge will recover the costs related to recent increases in our costs of gaining access to incumbent networks and decreases to the access rates we can collect from long distance carriers. This fee is not a tax or charge imposed by a government entity. The ARS is calculated by application of a percentage to each customer's total monthly recurring charges for all services (MRC). The ARS percentage to be applied will be determined by the customer's total MRCs on its monthly invoice, based on the schedule outlined below.

Customer Account Monthly Recurring ARS

<u>MRC Revenue Tier</u>	<u>Charge %</u>
\$0.00 to \$100.00	10.00%
\$100.01 to \$200.00	9.00%
\$200.01 to \$400.00	8.00%
\$400.01 to \$800.00	5.00%
\$800.01 to \$1,500.00	4.00%

4.0 Rates and Charges (cont'd)

4.3 Rate Tables (cont'd)

4.3.4 Rate Table 4: Long Distance Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls billed using the Overage Rate minutes will be billed in 6 second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service.

(N)  
|  
(N)

The long distance service minutes included in the Preferred Advantage® Long Distance Packages apply to domestic intrastate calls, and to domestic interstate and to international calls as specified by McLeodUSA pursuant to federal regulation. Long Distance Packages exclude toll free, calling card, conference calling, and international usage. Customers not subscribing to a long distance package shall pay the overage rate per minute for all calls. Customers using more than the number of minutes in their selected long distance package for that particular location shall be charged a per minute overage rate for each minute of long distance usage in excess of the total minutes in the selected long distance package. For example, if a Business Customer has selected a 1,000 anytime LD minute package at Location A, and that Customer uses 1,005 minutes of long distance services in July at Location A, then the Customer's August invoice will reflect an additional usage sensitive charge for the 5 minutes of overage long distance usage billed at the overage rate/minute set forth below. Customers may increase or decrease the size of their long distance package once a month without a non-recurring charge after having service for a minimum of ninety days. Any changes will become effective with the following billing cycle.

(N)  
(N)

Preferred Advantage® Inter/Intrastate Plan Plus provides switched outbound 1+ long distance services for Business Customers.

(T)

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

(N)

Preferred Advantage® Flat Rate Long Distance provides switched outbound 1+ long distance at one per minute rate for calls placed at any time of day. Residential customers may choose between a usage rate service without a monthly fee or a reduced usage rate service with a monthly fee.

Preferred Advantage® Long Distance Plus provides switched outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage. A "LDPromo Shortfall Charge" equal to the difference between actual usage and \$50.00 will be assessed monthly, if applicable.

(T)

This service is available to business customers that do not purchase a bundled package of local and long distance service from McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. These rates are based on an expected ratio of at least 80% of Customer's long distance minutes in a given month terminating to an RBOC end-user and no more than 20% of the LD minutes terminating to non-RBOC end users. If more than 20% of Customer's total long distance call minutes in a month terminate to non-RBOC end users, then an additional charge of \$0.025/minute will be added for those long distance minutes in excess of the permitted 20% non-RBOC termination.

This is a switched outbound 1+ long distance service for business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling usage, calling card usage and international long distance usage. For every month in which Customer's actual long distance and toll free usage charges, including conference calling, calling card and international long distance, is less than \$50.00, Customer will be assessed a "LD Promo Shortfall Charge" equal to the difference between actual usage and \$50.00.

Long Distance rates for Preferred Advantage® Switched Long Distance service require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 70% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has th right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 70% of the time to a LEC providing local service in an RBOC exchange. (N)

This is a switched outbound 1+ long distance service for business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling usage, calling card usage and international long distance usage. For every month in which Customer's actual long distance and toll free usage charges, including conference calling, calling card and international long distance, is less than \$50.00, Customer will be assessed a "LD Promo Shortfall Charge" equal to the difference between actual usage and \$50.00.

The Preferred Advantage® Long Distance Plus per minute usage rate is based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause. Long Distance calls to another McLeodUSA local exchange customer shall be considered an RBOC termination for purposes of this provision.

4.3.5.A. Rate Table 5.1.2 Business Preferred Advantage<sup>SM</sup> Inter/Intra State Switched Toll Free Service

This is a switched Toll Free service that is available to business customers that do not purchase a bundled package of Preferred Advantage<sup>SM</sup> local and long distance voice service for a physical location. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. **These rates are based on an expected ratio of at least 80% of Customer's long distance in-bound minutes in a given month originating from an RBOC end-user and no more than 20% of the LD minutes originating from non-RBOC end-users. If more than 20% of Customer's total long distance call minutes in a month originate from non-RBOC end users, then an additional charge of \$0.025/minute will be added for those long distance minutes in excess of the permitted 20% non-RBOC origination.** This toll free service is not available for any locations outside of the continental United States. All incoming toll free calls will be rounded and billed in 6-second increments. Toll Free features include: listing of Customer's toll free number in the national Toll Free directory service; message referral that provides a disconnect or referral message on the toll free number; ability to restrict areas of service; geographical routing that permits multiple destinations of Toll Free based on NPA of the caller; time routing that permits customer to set multiple destination numbers based on time specifications; percent allocation routing that permits routing of calls to multiple destinations based on a percentage distribution; and route advance overflow that allow for a secondary target termination for overflow.

4.3.5 Rate Table 5: Preferred Advantage<sup>K</sup> 800 Service (cont'd)

4.3.5.A. Rate Table 5.1.3 Preferred Advantage<sup>®</sup> Toll Free Plus

This is a switched outbound 1+ long distance service for business customers (a) with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling usage, calling card usage and international long distance usage; and (b) subscribing to Preferred Advantage<sup>®</sup> Long Distance Plus. For every month in which Customer's actual long distance and toll free usage charges, including conference calling, calling card and international long distance, is less than \$50.00, Customer will be assessed a "LD Promo Shortfall Charge" equal to the difference between actual usage and \$50.00.

Long Distance rates for Preferred Advantage<sup>®</sup> Switched Toll Free services require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 70% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has the right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 70% of the time to a LEC providing local service in an RBOC exchange.

(N)

This is a switched outbound 1+ long distance service for business customers (a) with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling usage, calling card usage and international long distance usage; and (b) subscribing to Preferred Advantage<sup>®</sup> Long Distance Plus. For every month in which Customer's actual long distance and toll free usage charges, including conference calling, calling card and international long distance, is less than \$50.00, Customer will be assessed a "LD Promo Shortfall Charge" equal to the difference between actual usage and \$50.00.

The Preferred Advantage<sup>®</sup> Toll Free Plus per minute usage rate is based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause. Long distance calls to or from another McLeodUSA local exchange customer shall be considered an RBOC termination or origination for purposes of this provision.

Customers without Local Service: \$0.1018 per minute

Customers with Local Service: \$0.0624 per minute

4.3.7 Rate Table 7: Local T1/PRI ISDN

4.3.7.A Rate Table 7.1: Dedicated Local Preferred T1 Service -

4.3.7.A.1 Rate Table 7.1.1: On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for **LD and Toll Free Plan w/ Local Access** long distance (T) rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

4.3.7 Rate Table 7: Local T1/PRI ISDN

Service Commission

4.3.7.1 Local T1- St. Louis and Springfield

Business Trunks (T1) terminate into a customer-provided PBX or hybrid system, via a customer-provided DT1 or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

Transport costs are factored into the trunk rate, per band.

A. Rates

Non-Recurring Charges: \$50.000 per order plus \$50.00 per trunk

Monthly Recurring Charges:

		16 Trunks	20 Trunks	24 Trunks
Band 1	Month to month	\$900.00	\$1050.00	\$1150.00

Subsequent additions 12 Trunks  
 Band 1 Month to month \$800.00

B. DID Charges

Trunk Group Setup \$55.00 per trunk group (nonrecurring)  
 DID Station Install \$2.50 per telephone number (nonrecurring)  
 DID Trunk Capability \$80.00 per month  
 DID Stations \$0.20 per 10 number block per month

C. Primary Rate ISDN

This service is provided where available, upon approval by the Company. Rates are in addition to all other rates.

PRI Installation \$500.00 (nonrecurring)  
 Primary Rate Interface ISDN \$350.00 per month

D. Federal Access Charges

In addition to trunk rates, two federal CALC charges will apply to each T1 used to deliver local service.

4.3.7.2 DID Services

The Company concurs in the rules and regulations, including all footnotes thereto, applying to and governing DID Services as set forth in the Southwestern Bell Telephone Company tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for DID Services of Southwestern Bell Telephone Company. Rates for these services are set out in the following pages of this concurrence.

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

*Applicability*

This tariff applies to the Telephone Company's resale of telecommunications services within Southwestern Bell Telephone Company exchanges which are located within the Telephone Company's authorized territories within the State of Missouri.

4.0 Rates and Charges (cont'd)4.3 Rate Tables (cont'd)4.3.7 Rate Table 7: Local T1/PRI ISDN (cont'd)4.3.7.B Rate Table 7.2: Dedicated Local PRI Service4.3.7.B.1 Rate Table 7.2.1: On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24<sup>th</sup> trunk on the digital T1 facility. The customer shall be eligible for **LD and Toll Free Plan w/ Local Access** long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service. (T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

4.3.7.B.1 Rate Table 7.2.1: On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24<sup>th</sup> trunk on the digital T1 facility. The customer shall be eligible for "Preferred Advantage **K** Inter/IntraLATA Long Distance with Local" long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service. (T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer. (T)

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available (N)

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available. (N)

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

4.3.7.B.1 Rate Table 7.2.1: On-Switch Service (cont'd)

- Installation charges listed as Service Description "Non-Recurring" apply for each new PRI service configuration. If the customer were to change physical locations and need new service at the new location, these installation charges would also apply.
- DID chip-out charge applies when a DID number is requested to be removed from a sequential DID station number block. In this instance, a Change Order charge would also apply. If it were a non-sequential DID station number, only a Change Order charge would apply.
- Service Order charge applies for each new T1 and PRI facility installation.
- Change Order charge applies for each change request submitted after installation of the service.
- Channel Activation charge applies when current trunk configuration is being changed, either an increase or decrease. A Change Order charge would also apply with each channel activation charge.
- Calling Party Name & Number allows the customer to receive this information from their caller, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This miscellaneous service is offered where technically available.
- Call Transfer with Release allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This miscellaneous service is offered where technically available.
- Conversion of service charge from PRI to T1 applies when the facility type is changed to T1. The charge is equivalent to the Installation Non-Recurring charge.
- Other state and federal taxes and regulatory surcharges are applicable and are to be billed separately.

Service Commission

The Company concurs in the rules and regulations, including all footnotes thereto, applying to and governing ISDN telephone services in the authorized territories within the state of Missouri as set forth in the Southwestern Bell Telephone Company tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for ISDN Services of Southwestern Bell Telephone Company. Rates for these services are set out in the following pages of this concurrence.

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

*Applicability*

This tariff applies to the Telephone Company's resale of telecommunications services within Southwestern Bell Telephone Company exchanges which are located within the Telephone Company's authorized territories within the State of Missouri.

A. Rates (cont'd)

FOOTNOTES:

- (1) Rates and charges stated are in addition to those specified for DID, DOD, FX, FSO and TIE services in other tariffs of the Company and in Section 1 of the referenced tariff and applied as stated in Paragraphs 2.12.8 and 2.12.9 of the referenced tariff.
- (2) This charge applies only when an additional SI is ordered and installed with an initial SI per customer, per request, per due date.
- (3) Integrated Services Digital CSV/CSD Transport Options are not applicable with TIE service
- (4) Only the Integrated Services Digital CSV/ CSD Transport options which are "SmartTrunk<sup>sm</sup> Service Compatible" can be associated with SmartTrunk<sup>sm</sup> Service.
- (5) Rates applicable for those FSO/FX service terminations associated with SmartTrunk<sup>sm</sup> Service configuration described in Paragraph 2.2.7 of the referenced tariff.
- (6) This charge applies only when an additional Universal Termination of the same call type is ordered and installed with the initial Universal Termination per customer, per request, per due date.
- (7) This charge applies only to modifications subsequent to the installation of the initial service.
- (8) Until such time as the Company acquires the recording capability to measure and bill on a per occurrence basis, this feature will be billed on a flat rate basis.
- (9) Reference is made to the number of SIs supported by the Backup D-Channel. Rates and charges are applied per group of five SIs, or fraction thereof.
- (10) Service and Equipment charges to install, move or change service apply on a per channel basis.
- (11) Loop Protection Feature will be provided where fiber optic facilities are available. Special Construction Charges may apply when fiber optic facilities are not available or unusual expenditures are involved in making them available to provide this feature.

##### 4.3.7 Rate Table 7: Local T1/PRI ISDN

##### 4.3.7.E Rate Table 7.5: Preferred Advantage<sup>SM</sup> Integrated Access Trunk

##### 4.3.7.E.1 Product Description

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for **LD and Toll Free Plan w/ Local Access** pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service. (T)

For this product, no separate charges apply for and End User Common Line (EUCL) charge, Local Number Portability (LNP), Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.

4.3.7.E.1 Product Description (cont'd)

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels (13 additional channels if the facility is a PRI facility) can be added to a single base package. No more than 1 trunk group can be associated with a PRI facility, and no more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year and taking into consideration the number of channels maintained by Customer. **Customers may agree to additional pricing for inside wiring work.** Term and volume discounts may also be applied.

4.3.7.E.1 Product Description (cont'd)

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels (13 additional channels if the facility is a PRI facility) can be added to a single base package. No more than 1 trunk group can be associated with a PRI facility, and no more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year (T) and taking into consideration the number of channels maintained by Customer. Term and volume discounts may also be applied.

4.3.7.C.3 Early Termination Charges

(N)

If a customer disconnects an Integrated Access service base package before the end date of the contract term, an Early Termination charge will apply as follows:

- 100% of the Monthly Recurring Charges for the specific base package, times the number of months remaining on the current contract term.
- If a customer moves the location of their circuit within a LATA and the Local Loop can be served by the same Incumbent Local Exchange Carrier, then no Early Term Liability will apply. This is contingent upon the customer adding an equal or greater service with McLeodUSA at the new location for the remainder of the Agreement term. If not, an Early Termination fee will apply.
- If a customer moves the location of their circuit and the new location cannot be served by the same Incumbent Local Exchange Carrier, an Early Termination Fee may apply if McLeodUSA is charged an Early Termination Fee by the Local Exchange Carrier or other third party provider.
- If installation fees were waived for the initial sale and the customer disconnects before the end date of the contract term, the installation fees will be included in the Early Termination Fee.

The McLeodUSA Preferred Advantage Integrated Access (IA) Line solution is a full service communications product combining local voice and data over a single On-Switch T1 dedicated facility. The customer is eligible for **LD and Toll Free Plan w/ Local Access** pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of data access, usable for High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least one (1) year to purchase the service. Neither DID nor PRI signaling are available. (T)

For this product, no separate charges apply for and End User Common Line (EUCL) charge, Local Number Portability (LNP), Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.

4.3.7.F.3 Early Termination Charges

(N)

If a customer disconnects an Integrated Access service base package before the end date of the contract term, an Early Termination charge will apply as follows:

- 100% of the Monthly Recurring Charges for the specific base package, times the number of months remaining on the current contract term.
- If a customer moves the location of their circuit within a LATA and the Local Loop can be served by the same Incumbent Local Exchange Carrier, then no Early Term Liability will apply. This is contingent upon the customer adding an equal or greater service with McLeodUSA at the new location for the remainder of the Agreement term. If not, an Early Termination fee will apply.
- If a customer moves the location of their circuit and the new location cannot be served by the same Incumbent Local Exchange Carrier, an Early Termination Fee may apply if McLeodUSA is charged an Early Termination Fee by the Local Exchange Carrier or other third party provider.
- If installation fees were waived for the initial sale and the customer disconnects before the end date of the contract term, the installation fees will be included in the Early Termination Fee.

4.0 Rates and Charges (cont'd)4.4 Rate Promotions (cont'd)4.4.1 Local Line with DyIA "One Call Close" Promotion

(N)

**Eligibility:** All new McLeodUSA business customers that sign up for the DyIA Line Solution base package for locations purchasing DyIA using the "One Call Close" process will be eligible for a waiver for one (1) One Line Preferred® Package. Existing McLeodUSA customers and renewals are not eligible for the waiver. To qualify for the One Line Preferred Package waiver, the DyIA must be sold using the "one call close" process and paperwork. The One Line Preferred Package must be part of the customer's initial purchase to receive the promotion. If the customer does not request that the analog line be included prior to installation of DyIA, the promotion does not apply and the standard Preferred Advantage non-recurring charges ("NRC") and monthly recurring charges ("MRC") pricing for any analog lines would apply. No Term or Volume discount, NRC waiver, vendor credit, contract assistance, or any other discount or promotion of any type may apply to the sale of the DyIA or any other service sold to the customer during the "one call close" sale process. If the customer requires two (2) or more analog phone lines or some service arrangement other than the One Line Preferred package, the "one call close" process may not be used and the MRC waiver no longer applies. Customer signature must be received on or before September 30, 2006 to be eligible for the "One Call Close" promotion.

The promotional period shall begin with the effective date of this tariff and end on September 30, 2006.

**Promotion:** This DyIA "One Call Close" Promotion includes one (1) Preferred Advantage - One Line Preferred Package with the DyIA Line Solution base package for locations purchasing DyIA using the "one call close" process. The MRC for the One Line Preferred Package offered with the DyIA Line Solution will be waived for the duration of the customer contract for the DyIA. The NRC for the One Line Preferred Package offered with the DyIA Line solution will also be waived. Once the DyIA customer contract expires, the One Line Preferred Package will be charged the MRC for that product at the time the contract expires.

There are no features included in the One Line Preferred Package, nor will any be included, in the "one call close" process. If any features are added to the One Line Preferred Package, the Preferred Advantage MRC pricing for these features will apply. Any feature changes or activity are subject to standard Preferred Advantage NRC and MRC pricing associated with the features.

## 4.4.1 Premium Package Promotion

**Eligibility:** Any new business customer that enters into a 24 month or greater Master Service Agreement with McLeodUSA that includes the purchase of at least two (2) Premium Preferred Advantage® Local Line Packages at a single customer location during the promotional period, or any existing business customer that adds at least two (2) Premium Preferred Advantage® Local Line Packages at a single customer location during the promotional period is eligible to participate in the Premium Package Promotion. The promotional period shall begin with the effective date of this tariff and end on March 31, 2005. The new Master Service Agreement or an existing business customer's order to add a minimum of two (2) Premium Preferred Advantage® Local Line packages must be executed or submitted during the promotional period. (T)

**Promotion:** Eligible customers will receive a recurring monthly promotional discount off of the non-promotional price set forth in this tariff on all Premium Preferred Advantage® Local Line Packages purchased or ordered during the promotional period for the duration of the Customer's service agreement. The promotional discount will be tied to a particular Customer phone line/number. The promotional discount will be voided if (1) Customer subsequently disconnects a particular phone line receiving the promotional discount, or (2) Customer has less than two Premium Preferred Advantage® line packages in service at a given location. The promotional discount cannot be transferred to another telephone line or location.

4.4.2 Preferred Advantage<sup>SM</sup> Dedicated Local Service Promotion

Preferred Advantage<sup>SM</sup> Dedicated Local Service provides for a communications (N) path of a specified number of channels (up to 24) with either T1 or PRI signaling. This service is offered to Business customers where appropriate facilities are available, and pricing varies depending on McLeodUSA switching facilities as set forth below. Term and volume discounts may be available based on contract commitments. A \$50.00 non-recurring Change Order charge will apply, per order, for each change request submitted after installation of the service. Non recurring charges may be waived in the cases of contracts for 3 years or more for customers served by McLeodUSA's switching facilities. The monthly recurring charges offered during the promotion shall continue throughout the term of the contracts that are signed during the promotional period.

The promotional period shall begin with the effective date of this tariff and end on December 31, 2003.

4.4.2 PRIme Offering Promotion (POP)

**Eligibility:** The PRIme Offering Promotion is available for new and existing retail customers signing a term agreement of at least twenty-four (24) months for Preferred Advantage Dedicated Local Preferred T1 or PRI services. Existing retail Preferred Advantage Dedicated Local Preferred Local T1 or PRI customers who are currently under term agreement will be required to extend their term a minimum of two years in order to qualify for the promotional pricing. Promotional pricing may be used in conjunction with standard McLeodUSA Term and Volume Discounts.

The promotional period shall begin with the effective date of this tariff and end on March 31, 2007. (T)  
 (T)

**Promotion:** This promotion reduces the monthly recurring price for eligible customers subscribing to McLeodUSA Preferred Advantage Dedicated Local Preferred T1 or PRI services. The promotional pricing applies to 12, 16, 20 or 24 channel T1 or PRI configurations. The PRIme Offering Promotion is available in select Central Offices, depending on network capacity. When capacities are exhausted in a Central Office, the promotion will no longer be available in the impacted Central Office. The standard Preferred Advantage monthly and nonrecurring pricing will apply for all optional features, feature changes and order activity.

4.0 Rates and Charges (cont'd)4.4 Rate Promotions4.4.3 PRIme TIme Promotion

**Eligibility:** The PRIme TIme Promotion is available for new and existing retail customers signing a term agreement of at least twenty-four (24) months for Preferred Advantage Dedicated Local T1 or PRI services. Existing retail Preferred Advantage Dedicated Local T1 or PRI customers who are currently under term agreement will be required to extend their term a minimum of two years in order to qualify for the promotional pricing. Promotional pricing may be used in conjunction with standard McLeodUSA Term and Volume Discounts.

The promotional period shall begin with the effective date of this tariff and end on March 31, 2008. (T)  
(T)

**Promotion:** This promotion reduces the monthly recurring price for eligible customers subscribing to McLeodUSA Preferred Advantage Dedicated Local T1 or PRI services. The promotional pricing applies to 12, 16, 20 or 24 channel T1 or PRI configurations. The PRIme TIme Promotion is available in select Central Offices, depending on network capacity. When capacities are exhausted in a Central Office, the promotion will no longer be available in the impacted Central Office. The standard Preferred Advantage monthly and nonrecurring pricing will apply for all optional features, feature changes and order activity.

PRIme TIme Promotional Pricing is \$500.00 and available in the following Central Offices.

4.4.2 New Preferred Advantage® Dedicated Long Distance Plus Promotion

(D)(N)

**Eligibility:** All new McLeodUSA Preferred Advantage® Business Customers locations purchasing a DAL are eligible to receive the promotional rates. Customer will be subject to an additional port charge of \$500 for each DAL T1 circuit that falls below 50,000 minute of usage per month. This shortfall will be calculated as an overall average of the customer total inbound and outbound Long Distance minutes in relation to the total number of DAL T1 circuits. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Existing McLeodUSA customer are eligible for the new promotional Long Distance plans if: (a) they renew their Preferred Advantage contract for 24 months, or (b) purchase additional Preferred Advantage services from McLeodUSA, including any of the following: 1) Upgraded Preferred Advantage Local package; 2) Additional Preferred Advantage Local Lines; 3) Additional of two (2) or more Preferred Advantage Optional Line Features; or 4) Additional of any other McLeodUSA Preferred Advantage Local, Long Distance, Data, Internet, or Wireless product.

The promotional period shall begin with the effective date of this tariff and end on September 30, 2005. Current Term & Volume Discounts apply (Tier 1-5).

**Promotion:** Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer will be subject to an additional port charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or originating carrier. Account Codes are available to provide customers auditing functionality for all long distance calls.

4.4.2 The Great Switched Long Distance Rate Promotion Service Commission

The Inbound Intrastate **Switched** Long Distance Rate For Customers with Preferred Advantage<sup>SM</sup> Local and Toll Free Service at a location is \$0.0624 per minute. (M)(T)

The Inbound Intrastate **Switched** Long Distance Rate For Customers with Preferred Advantage<sup>SM</sup> Toll Free Service only at a location is \$0.1018 per minute. (T)(M)

Other Terms: Existing Business Customers' Great Long Distance Promotional Rates become effective on the first day of the billing cycle in the month they sign a new PA MSA. The Great Long Distance Promotional Rates are based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause.

##### 4.4.3 Preferred Bundle Promotion- Business

(N)

**Eligibility:** Business Customers must purchase the Simple Preferred® Select Package, Value Preferred® Select Package or the Premium Preferred® Package with Preferred Advantage Long Distance to be eligible for the Preferred Bundle Promotion. This promotion is available to a new customer or an existing customer that adds services to meet the eligibility requirements. The promotional period shall begin with the effective date of this tariff and end on January 1, 2005. Those ANIs that are currently receiving the Premium Preferred Package Promotion are not eligible for this promotion; however, an account can receive both promotions on separate ANIs.

**Promotion:** Eligible business Customers will receive one of the following monthly recurring credits per eligible ANI for twelve (12) consecutive months from the date the first eligible services are implemented; (a) Customers purchasing the Simple Preferred® Select Package, Value Preferred® Select Package or the Premium Preferred® Package with Preferred Advantage Long Distance will receive a \$3.00 monthly recurring credit; (b) Customers adding Dial-Up Internet along with the services outlined in (a) will receive a \$5.00 monthly recurring credit; (c) Customers adding DSL (ADSL, SDSL, or IDSL) or Wireless\* with the services outlined in (a) will receive a \$7.00 monthly recurring credit; or (d) Customers adding Wireless\* and Dial-Up Internet or DSL with the services outlined in (a) will receive a \$10.00 monthly recurring credit. If customers terminate any of the eligible services the promotion credit will cease. Customers currently receiving a monthly recurring credit for a promotion may add additional services and increase their monthly recurring credit not to extend beyond the remainder of the original twelve consecutive month period which began with the customer's original promotion.

\*Wireless is available in the CO's where the Preferred Bundle Promotion is offered and only in those areas where McLeodUSA offers Wireless services.

4.4.7 New Preferred Advantage® Dedicated Toll Free Plus Promotion

(D)(N)

**Eligibility:** All new McLeodUSA Preferred Advantage Business Customers locations purchasing a DAL are eligible to receive the promotional rates. Customer will be subject to an additional port charge of \$500 for each DAL T1 circuit that falls below 50,000 minute of usage per month. This shortfall will be calculated as an overall average of the customer total inbound and outbound Long Distance minutes in relation to the total number of DAL T1 circuits. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Existing McLeodUSA customer are eligible for the new promotional Long Distance plans if: (a) they renew their Preferred Advantage contract for 24 months, or (b) purchase additional Preferred Advantage services from McLeodUSA, including any of the following: 1) Upgraded Preferred Advantage Local package; 2) Additional Preferred Advantage Local Lines; 3) Additional of two (2) or more Preferred Advantage Optional Line Features; or 4) Additional of any other McLeodUSA Preferred Advantage Local, Long Distance, Data, Internet, or Wireless product.

The promotional period shall begin with the effective date of this tariff and end on September 30, 2005.

**Promotion:** Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customers' call. Calls are billed in 6-second increments, with a 6-second minimum. Customer will be subject to an additional port charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. This toll free service is not available for any locations outside of the continental United States. Tailored Call Coverage and Route Overflow are available features.
