I. LOCAL EXCHANGE SERVICE

MISSOURI  
Public Service Commission

A. GENERAL

1. This Tariff is subject to and governed by the Rules and Regulations, which parts as they now exist or as they may be revised, added to or supplemented by superseding pages or issues, are made a part of this Tariff.
2. The schedules of basic monthly exchange rates applicable within and outside the base rate areas in the various exchange areas for the service offered therein are shown in B., Rates, of this Tariff is comprised of one element:

a. Exchange Access

Serving central office line equipment and all outside plant facilities needed to connect the serving central office with the customer premises. These facilities are Telephone Company-provided and maintained and, with the installation of inside wire and outlet of a working service point, provide access to and from the telecommunications network for message toll service and for local calling by the customer.

3. The monthly exchange access rates shown in this Tariff are payable in advance and entitle the customer exchange dial telephone service through Company-owned facilities.

LOCAL EXCHANGE TARIFF

MoKan Dial, Inc.

Original Sheet No. 2.1

LOCAL EXCHANGE SERVICE (cont'd)

C. DS1 Channel Service

\*Moved Text

1. Description

DS1 Channel Service is an intraLATA digital service that provides a DS1 digital facility and channelization capability using a digital, high capacity T-1 interface. DS1 Channel is provisioned for multiple voice grade channel equivalents (DSO) where 24 voice grade channels are equal to a DS1. DS1 Channel Service provides local channels and/or interoffice channels for analog voice services, analog data service, and digital data services. The Telephone Company will provide channelization capability in the Central Office whereas channelization equipment on a customer's premises is provided by the customer. The customer may activate any number or combination of channels within a DS1 Channel Service package as long as the total number of voice grade equivalent channels activated by the customer does not exceed 24 channels.

2. Rates

The rate for DS1 Channel Service is the effective Local Exchange Access Line Service rate multiplied by the number of voice grade channels in service.

B. 900 CALL RESTRICTION

1. 900 Call Restriction is a central office service which allows customers to restrict certain types of outgoing calls from being placed over their exchange access lines. 900 call Restriction is activated when a dialed number is preceded by a 900 prefix. Restricted calls are directed to a central office announcement.
2. 900 Call Restriction is provided in conjunction with residence and business single party flat rate service. 900 Call Restriction is furnished only from central offices equipped to provide this service and where facilities permit.
3. The minimum contract period for this service is one month.
4. The following rates and charges apply in addition to the established rates and charges for the services with which the service is associated.

SERVICE CHARGES

II. SERVICE CHARGES

A. GENERAL

1. Service Charges are the nonrecurring charges associated with work performed by the Telephone Company in connection with the provision of services for a customer. The charges are intended as a means of recovering a portion of the costs of the operation required due to a customer's request.
2. Service Charges are in addition to any other scheduled rates and charges. They apply in addition to and not in lieu of installation charges, non-recurring charges, mileage charges or construction charges which are found in other section of this Tariff.
3. Service Charges for the initial establishment of residential or business service are due and payable upon application for service.

## II. SERVICE CHARGES

## B. DEFINITIONS

## 1. Service Charge

A Service Charge consists of one or more of the following nonrecurring charges for work functions required due to customers request or treatment.

## a. Service Order Charge

Applicable for the receiving, recording and processing of customer information necessary to execute a request for service.

## b. Line Connection Charge

Applicable for the performing of operations associated with the connection of an exchange access line from the serving central office to the demarcation point at the customer's premises including, but not limited to:

(1) Making, changing and testing connections in the central office.

(2) Making, changing and testing connections in distribution facilities between the central office and the demarcation point at the customer's premises, including necessary cross connections and line and station transfers.

II. SERVICE CHARGES

B. DEFINITIONS (Continued)

MISSOURI  
Public Service Commission

1. Service Charge (Continued)

c. Demarcation Point

The point of connection, provided and maintained by the Telephone Utility to which the inside station wire becomes dedicated to an individual customer's use. For an individual customer dwelling, this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

+  
|  
+

d. Reconnection (Restoration) Charge

Applicable for a reconnection (restoral) of service following a disconnect for nonpayment of such service.

II. SERVICE CHARGES

B. DEFINITIONS (Continued)

2. Exchange Access Line

Serving central office line equipment and all outside plant facilities needed to connect the serving central office with the demarcation point at the customer's premises.

3. Move

A transfer of a demarcation point from one location to another on the same premises where there is no interruption of service other than that which is incidental to the work involved. Where service is moved to other premises, it will be treated as a new installation.

4. Premises

All of the building or adjoining portions of a building occupied and used by the customer either as a place of business or residence, which are located on a continuous plot of ground not intersected by a public highway or property owned by another.

## C. APPLICATION OF SERVICE CHARGES (Continued)

## 1. General (Continued)

g. Incorporated in this Section is the assumption that the customer will allow the Company to complete the requested operations in a manner determined by the Company to be reasonable and efficient. The charges specified herein do not contemplate work being performed by Company employees at a time when overtime wages apply due to the request of the customer nor do they contemplate work begun being interrupted by the customer. If the customer requests overtime labor to be performed or interrupts work once begun, a charge in addition to the specified charges will be made equal to the additional cost involved.

## 2. Service Order Charge

- a. A Service Order Charge is applicable in addition to the appropriate Line Connection.
- b. Only one Service Order Charge is applicable for all requests, other than Foreign Exchange, for the same customer made at one time for service at one premise. When the customer specifically requests multiple completion dates which would not normally be scheduled by the Company or when the request require work on more than one premises of the customer, a Service Order Charge is applicable for each completion date and/or each premises.

IV. Custom Calling Features

Custom Calling Features are provided by the Telephone Company to enhance the utility of Local Exchange Service to the end user.

MAY 16 1997

MISSOURI  
Public Service Commission

(A) General Description

Custom Calling Features are provided in conjunction with Local Exchange Services and includes the following:

- (1) Call Forwarding - an arrangement whereby incoming calls may be transferred to another telephone number by signaling a prefix code and the telephone number of the service to which calls are to be transferred. Calls forwarded by this feature are subject to Applicable long distance message charges. These calls are also subject to transmission limitations.
- (2) Call Waiting - an arrangement whereby an end user who is using an exchange access line arranged for call waiting is alerted, by means of a tone signal, when another caller is trying to reach that line. The customer, by flashing the switchhook, is able to have alternative conversation between parties.
- (3) Cancel Call Waiting - an arrangement allowing the customer to cancel the call waiting feature on their line on a per call basis, in order to allow uninterrupted calls by dialing a code before placing the call, which cancels call waiting for the duration of that call.
- (4) Abbreviated Dialing - an arrangement which provides for the calling of a telecommunications network telephone number by dialing an abbreviated code. Two arrangements are available, either an eight-code capacity or a thirty-code capacity, but not both on the same line.

GENERAL EXCHANGE SERVICE

- (5) Three-way Calling - an arrangement which permits an existing call to be held and a second call to be established and added to the connection for conferencing. Conference calls made with this service are subject to transmission limitations and applicable toll charges.
- (6) Toll Restriction - an arrangement which permits the end user to dial local service area calls but does not permit the origination of long distance calls. In addition this arrangement denies the user access to "ZERO" (Operator) dialing.
- (7) Line Hunting - an arrangement which allows for the selection of the end user's next available line when the line associated with the called number of the end user is busy.
- (8) Number Referral - an arrangement which, upon customer request, allows for interception of a disconnected directory number, with a digital voice recording telling the intercepted party the new directory number that has replaced the disconnected number. The company will make the availability of this service known at the time of the request for disconnection.

MISSOURI  
Public Service Commission

(B) Limitations

- (1) Custom Calling Features are available only in those exchanges where the central office equipment is available to provide such services.
- (2) The acceptance of long distance collect call messages is not restricted by the use of Toll Restriction.
- (3) Custom Calling Features are only available on single party service.

## General Exchange Tariff

Missouri Public  
Service CommissionIV. [ADDED] Class Features

REC'D NOV 12 1998

## (AA) General

Custom Local Area Signaling Services (CLASS) is a set of features employing the CCS7 network when interswitch calls are made using a CLASS feature. These features are available as a station option. CLASS features are activated by dialing a special access code defined by Moka Dial, Inc.

## (BB) Description of CLASS Features

(1) Automatic Callback (ACB) \*66 (rotary phone 1166)

ACB is an arrangement whereby the customer can dial an activation code, \*66, and automatically re-originate a call on which a busy signal was received. After activation, the automatic callback process will monitor both the called and calling lines for 30 minutes and attempt to connect the call. When both lines are idle the calling party will receive a distinctive ring and when they pick up the handset, the called party's line will automatically ring.

(2) Automatic Recall (AR) \*69 (rotary phone 1169)

AR is an arrangement whereby the customer can dial an activation code, \*69, and have call set-up performed automatically to the calling party of the last incoming call without having to know the DN of that call.

This feature also allows the customer to hear the DN of the last incoming call unless it was marked private. The customer then has the choice of continuing or aborting the call. For example, if the incoming call was billable long distance, the customer may choose to abort the recall.

If the AR process reaches a busy DN, the Automatic Callback (ACB) process will be automatically initiated. The customer can deactivate the ACB process with a deactivation code of \*86 (rotary phone 1186).

## General Exchange Tariff

Missouri Public  
Service Commission(3) Caller I.D.

REC'D NOV 12 1998

Includes Calling Number Delivery (CND) and Calling Name Delivery (CNAM) where available.

(A) Calling Number Delivery (CND)

When activated CND (Caller ID) allows customers to receive the calling number on incoming calls. The calling number is displayed on customer provided premises equipment during the first long silent interval of the ringing cycle. CND does not provide the calling name.

(B) Calling Name Delivery (CNAM)

When activated Calling Name Delivery (CNAM) allows customers to receive the name associated with incoming calls. The calling name is displayed on customer provided premises equipment during the first long silent interval of the ringing cycle. CNAM does not provide the calling number.

(4) Calling Number Delivery Blocking (CNB) \*67 (rotary phone 1167)

An arrangement whereby the customer can dial an activation code, \*67, and suppress the DN so that the called party with Calling Number Delivery will not display the calling DN on their premises display equipment. The called party will receive a "private" message instead of the calling party's DN. CNB is activated on a per-call basis.

Per line blocking for the blocking of CND will be available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to MoKan Dial, Inc.:

- a) private, nonprofit, tax exempt, domestic violence intervention agencies and
- b) federal, state and local law enforcement agencies.

The CND will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code of (\*82 or 1182 rotary phone) immediately prior to placing a call.

(5) Calling Name Delivery Blocking (CNAB) \*67 (rotary phone 1167)

An arrangement whereby the customer can dial an activation code, \*67, and suppress the

## General Exchange Tariff

RECD NOV 12 1998

name associated with their DN so that the called party with Calling Name Delivery will not display the calling name on their premises display equipment.

CNAB is activated on a per-call basis. Thus a customer may prevent the delivery of their calling name to the called party by dialing an access code (\*67) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge. If the calling party activates blocking, the CNAM will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indication.

Per line blocking for the blocking of CNAB will be available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to MoKan Dial, Inc.:

- a) private, nonprofit, tax exempt, domestic violence intervention agencies and
- b) federal, state and local law enforcement agencies.

The CNAB will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code of (\*82 or 1182 rotary phone) immediately prior to placing a call.

This anonymous indication notifies the Caller ID customer that the calling party has elected to block the delivery of their name and telephone number. The blocking of caller name and number will not be provided on calls originating from Customer-Owned Pay Telephones Service.

Customers subscribing to Caller ID electing not to lease a display device from the company will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of customer provided equipment to perform satisfactorily with the network features described herein.

## General Exchange Tariff

Missouri Public  
Service Commission

REC'D NOV 12 1998

CND/CNAM information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this tariff. CND/CNAM will not be displayed if the called party is off-hook or if the called party answers during the first ring interval. CNB/CNAB will be displayed for calls from another central office if it is linked by the appropriate facilities. Caller ID is not available on operator handled calls.

If the Caller ID customer also subscribes to Anonymous Call Rejection, the calling party will be routed to a telephone company recording advising the caller that the called party will not accept calls whose CNB/CNAB data has been blocked.

(6) Anonymous Call Rejection (ACR) \*77 (1177 rotary phone)

An arrangement whereby the customer can dial an activation code, \*77, and reject calls for which the caller has intentionally blocked the calling name/number display information.

Only calls for which the information has been blocked are rejected. Rejected calls are sent to an announcement that informs the calling party why the call was rejected. ACR can be overridden by an operator in case of an emergency. The customer can deactivate ACR by dialing \*87 (1187 rotary phone).

(7) Selective Call Acceptance (SCA) \*64 (1164 rotary phone)

SCA is an arrangement which allows the customer to define a list of calling DNs that will be accepted. Thirty-two DNs can be stored on the list. Calls from DNs not on the list are rejected and routed to an announcement stating that the call is not presently being accepted by the called party. The customer can change the list of accepted DNs as desired.

(8) Selective Call Rejection (SCR) \*60 (1160 rotary phone)

SCR is an arrangement which allows the customer to define a list of calling DNs to be screened. Thirty-two DNs can be stored on the list. Calls from DNs on the list are rejected and routed to an announcement stating that the call is not presently being accepted by the called party. The customer can change the list of rejected DNs as desired.

## General Exchange Tariff

Missouri Public  
Service Commission(9) Selective Call Forwarding (SCF) \*63 (1163 rotary phone)

REC'D NOV 12 1998

SCF is an arrangement which allows the customer to define a list of calling DN's that will be forwarded to a designated remote DN. Thirty-two DN's can be stored on the list. Whenever a call is received from a DN on the SCF screening list, that call is forwarded to the designated remote DN. Calls from DN's not on the list are given standard terminating treatment.

(10) Selective Distinctive Ringing/Call Waiting (SDR) \*61 (1161 rotary phone)

SDR is an arrangement which allows the customer to define a list of calling DN's that will be indicated by a distinctive ringing pattern or a distinctive Call Waiting tone, as applicable. Thirty-two DN's can be stored on the list. Calls from DN's not on the list are given standard terminating treatment.

(11) Call Forward Busy (CFB) \*90 (1190 rotary phone)

CFB is an arrangement whereby incoming calls are routed to a pre-designated DN when the called line is busy. The pre-designated forward-to DN can be changed by the customer as desired. Remove by pressing \*91 (1191 rotary phone)

(12) Call Forward Don't Answer (CFD) \*92 (1192 rotary phone)

CFD is an arrangement whereby incoming calls are routed to a pre-designated DN when the called number is not answered after a specified number of rings. The specified number of rings (from 2 through 9) before forwarding can be set by the customer as desired. Remove by pressing \*93 (1193 rotary phone)

(13) Customer Originated Trace (COT) \*57 (1157 rotary phone)

COT allows the customer to activate an immediate trace of the last incoming call without intervention by the service provider. After a call is terminated, the customer who wishes to trace the call goes off-hook and dials the \*57 activation code. When the trace has been completed the customer receives an announcement to that effect. Information about the

## Promotion:

Beginning August 9, 2012 to October 6, 2012, the Company will waive, on a non-discriminatory basis, the recurring fees for Class and/or Custom Calling features. This retention or win-back incentive is applicable to any customer contacting the business office to disconnect their Custom and/or Class Calling Features. (T)

The Company may, from time to time, engage in special promotional service offerings designed to attract new customers or to increase existing customers' awareness of a particular tariff offering. These offerings may be limited to certain dates, times and/or locations. The Company will inform the Commission. (D)(T)  
(D)(T)  
(D)(T)

Beginning June 1, 2015 to August 29, 2015, the Company elects to offer a promotional discount to be applied against the Up to Broadband Bundles ranging from \$8.95 to \$31.95 for Residential Customers and from \$4.95 to \$49.95 for Business Customers, to any customer subscribing to a MoKan Up to Bundled Service offering. ## GENERAL EXCHANGE TARIFF

**RECEIVED**

MAR 04 1994

## V. OPTIONAL METROPOLITAN CALLING AREA (MCA) SERVICE

**MISSOURI  
Public Service Commission**

## A. Service Description

1. Metropolitan Calling Area (MCA) service is available in the Kansas City MCA.
2. The basic local calling scope for each of these exchanges is the MCA-wide calling scope as described in Sections V.C.1 and V.C.2 of this tariff.
3. In selected exchanges, MCA service is an optional service which provides the subscriber with an optional local calling area which includes the respective Metropolitan Exchange and certain customers in other exchanges where MCA service is also available, as described in Section V.C.2 following.
4. In the Kansas City MCA, exchanges [and Metropolitan Exchange Zones] are grouped into different MCA rate classifications. In the Kansas City MCA, exchanges where Optional MCA Service is available are classified as MCA-3, MCA-4 or MCA-5.

## B. Availability of Service

## 1. Kansas City MCA

The MoKan Dial, Inc. MCA-5 exchange where Optional MCA service is available is Freeman.

## 2. Service Implementation

MCA service is being implemented between August 21, 1993 and September 30, 1994. Service available in or to all MCA exchanges during this time.

## 3. Contingency

This tariff is being filed subject to MoKan Dial's appeal of the MPSC order (Case No. T0-92-306) establishing MCA. The company reserves the right to withdraw this tariff in the event MoKan Dial's appeal of the MPSC order establishing MCA results in a final judicial order reversing the MPSC.

V. OPTIONAL METROPOLITAN CALLING AREA (MCA) SERVICE-Continued

MISSOURI  
Public Service Commission

## C. Calling Scope

## 1. Service Area - Kansas City MCA

The total service area for the Kansas City MCA is comprised of the following six groups of zones and exchanges:

- a. Southwestern Bell's Kansas City Metropolitan Exchange, including the Principal Zone (Missouri and Kansas); the MCA-1 Zones of Gladstone, Independence, Parkville, Raytown, South Kansas City, Bethel (Kansas) and Melrose (Kansas); and the MCA-2 Zones of Belton, Blue Springs, East Independence, Lee's Summit, Liberty, Nashua, Tiffany Springs, Bonner Springs (Kansas), Olathe (Kansas), and Stanley (Kansas).
- b. MCA-3 includes the following: Southwestern Bell's exchanges of Farley, Smithville, Grain Valley and Greenwood; the Missouri customers in Southwestern Bell's exchange of Leavenworth; and United Telephone Company's exchanges of Platte City, Ferrelview, Kearney, Missouri City, Buckner and Lake Lotawana.
- c. MCA-4 includes the following: Southwestern Bell's exchange of Excelsior Springs; United Telephone Company's exchanges of Weston, Camden Point, Edgerton, Holt, Orrick, Oak Grove, Lone Jack, Pleasant Hill and Harrisonville; and GTE's exchanges of Trimble, Peculiar and Cleveland.
- d. MCA-5 includes the following: Southwestern Bell's exchanges of Richmond and Archie; United Telephone Company's exchanges of Dearborn, Henrietta, Wellington, Odessa, Holden, Kingsville and Strasburg; GTE's exchanges of Plattsburg, Lawson, East Lynne, Garden City and Drexel; Lathrop Telephone Company's exchange of Lathrop; and Mokan Dial, Inc.'s exchange of Freeman

C. Calling Scope-Continued

2. Optional MCA Calling Scopes-Kansas City MCA-5

The calling scope for MCA subscribers in MCA-5 exchanges includes all customers in the Metropolitan Exchange, all customers in MCA-3 and MCA-4 exchanges, and MCA subscribers in MCA-5 exchanges.

D. Regulations

1. Unless otherwise specified in these regulations, MCA is offered to all classes and grades of residence and business customers located in an MCA exchange. MCA service is also available in conjunction with Foreign Exchange Service in an MCA exchange.
2. Optional MCA Service is not offered in conjunction with Public, Semi-Public, Customer-Owned Pay Telephone, Cellular Service or any switched Feature Group A Service.
3. MCA is designed and intended for the exclusive use of the end user customers of the Telephone Company. MCA is not to be shared, resold or used in any configuration of customer-provided equipment with the intent of reselling the service. With the exception of Shared Tenant Service, as described in other tariffs of the Telephone Company, MCA is available to interexchange carriers or other telecommunications services providers for administrative trunks only.

D. Regulations-Continued

4. In situations where multiple access lines share the same working telephone number, if one such line subscribes to MCA service, then all lines must subscribe to MCA service.
5. In situations where a hunting arrangement between access lines is provided by the Telephone Company, no MCA line may be configured to hunt to a non-MCA line.
6. Unless otherwise specified, MCA is subject to the Rules and Regulations applying to all customer contracts as specified in the General Exchange Tariff of the Telephone Company. Furthermore, all Rules and Regulations governing Local Exchange Service apply to MCA Service.
7. The minimum service period for subscription to Optional MCA Service is one month.
8. Rate Application
  - a. The MCA monthly rates specified in V.E.1, below, apply on a per-line basis, except for Plexar or Centrex type services which are billed on a PBX trunk equivalent basis, as specified in the General Exchange Tariff.
  - b. The MCA monthly rates are billed one month in advance.
  - c. Optional MCA rates and charges apply in addition to all other rates and charges paid by the customer for other services of the Telephone Company.

VI. DID/DOD SERVICE - Direct Inward Dialing Service

**MISSOURI  
Public Service Commission**

A. General Regulations

1. Direct Inward Dialing (DID) Service is a service provided to customers with customer-premise located switching systems. DID Service is provided subject to the availability of facilities and subject to the availability of telephone numbers.
2. Direct Inward Dialing Service includes the central office switching equipment necessary for direct inward dialing from the exchange and long distance message telecommunications network directly to stations and attendant positions associated with customer premise located switching systems.
3. The Direct Inward Dialing Service must be provided on all lines in a trunk group arranged for inward service. Routing of calls to selected numbers within the Direct Inward Dialing number group over a separate trunk group is not contemplated.
4. The charges for the service, as provided in Part VI, Section B. following are in addition to the applicable Business Rates and connecting arrangement charges as provided in Part I. B. 1 & 2 of this tariff.
5. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.

VI. DID/DOD SERVICE - Direct Inward Dialing Service (Cont'd)

A. General Regulations (Cont'd)

6. The Telephone Company shall not be responsible to the customer or authorized user if changes in the protection criteria or in any of the facilities, operations, or procedures of the Telephone Company render any facilities provided by a customer or authorized user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
7. Direct Inward Dialing telephone numbers are normally provided on a consecutive number basis. Direct Inward Dialing numbers may be provided on a non-consecutive basis when such service provision is acceptable to the customer and the Telephone Company and is within normal limitations of the serving office. The Telephone Company retains its rights to the administration and use of telephone numbers.
8. Directory listings will be provided in accordance with the regulations of Rules and Regulations, Section 10 of this tariff. Direct Inward Dialing numbers furnished herein are not entitled to free directory listings.
9. The customer premises located switching equipment must be arranged to provide for intercepting of unused numbers transmitted to the switching equipment.
10. The rates and charges for the service contemplate the use of Standard Telephone Company equipment and serving arrangements.

LOCAL EXCHANGE SERVICE		MISSOURI
MISSOURI SCHOOL DISCOUNT PROGRAM		Public Service Commission
1.	A discount from standard monthly rates for local exchange business service may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.	
2.	Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph 3, following.	
3.	An educational institution shall be defined either as an accredited public school, or an accredited private school which is tax exempt pursuant to 26 U.S.C. § 501(c)(3). Persons operating home schools, as defined in § 167.031 RSMo, shall not be eligible for this school discount program. Private schools must be accredited by either the Missouri Chapter of the National Federation of Non-Public Schools Accrediting Association, Independent Schools Association of the Central States, North Central Association of Colleges and Schools, and/or the University of Missouri-Columbia. Public Schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.	
4.	The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.	
5.	The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.	
6.	In addition to meeting the qualification specified in Paragraph 3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.	
7.	The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.	
8.	The following local exchange services are eligible for a discount under this program: -Flat Rate, business one-party service.

PARTICIPATING IN THE FEDERAL UNIVERSAL SERVICE PROGRAM**

**MO. PUBLIC SERVICE COMMISSION**

1. Discounts on the intrastate services offered through this tariff will be available to eligible schools and libraries. A school or library will be eligible to participate in the discount program if it receives funds from the Federal Universal Service Fund.
2. The level of discount available will mirror the discount percentage level available to the school or library through the Federal Universal Service Fund program. The discount will be applied against the intrastate service rate otherwise applicable under this tariff. The discount only applies to the extent funds are available to the eligible school or library, through the Federal Universal Service Fund.

### Lifeline Service

Lifeline service, which provides a reduction in monthly local service charges, is available to qualifying low-income subscribers for single party residence service. The Company will provide lifeline service to eligible subscribers in accordance with state and federal laws, rules, and regulations, as are in effect from time to time. Lifeline will not be furnished on Foreign Exchange service.

### Missouri Disabled Program

The Missouri Disabled service or program provides a discount for voice telephony service to qualifying residential subscribers. The Company will provide Missouri Disabled service to eligible subscribers in accordance with Missouri laws, rules, and regulations, as are in effect from time to time.

LOCAL EXCHANGE ACCESS SERVICE

RECEIVED

DEC 1 1997

1. Local Exchange Access Service

MO. PUBLIC SERVICE COMMISSION

(C) Obligations of the Telephone Company (Cont'd)

(7) The Telephone Company will waive the deposit requirements to the Low-Income Telephone Assistance Program participants unless the participant has a history of late payments to the Telephone Company. A history of late payments means failure to make payment on the due date three times in any twelve-month period.

(8) The Telephone Company will offer Toll Limitation at no charge to participants of the Low-Income Telephone Assistance Program. Toll Limitation denotes both toll blocking and toll control.

Toll blocking is a service provided by the Telephone Company that prevents toll charges by blocking the use of a zero (0) or a one (1) as the first digit by the customer; by marking the customer's number in the Line Information Data Base to not allow third party billing or collect calls to be charged to this number; and by not issuing a telephone credit card.

Toll control is a service provided by the Telephone Company that allows consumers to specify a certain amount of toll usage that may be incurred on their telecommunications channel per month billing cycle. The equipment and/or ability to perform real time billing and monitoring has not been developed at this time. However, toll control will be provided by allowing the customers to dial toll free 1-800 numbers where they can use a debit or prepaid calling card to complete their calls. This will allow the customers to purchase/refresh their debit or prepaid calling card(s) for the amount of toll usage they want to use each month and/or billing cycle.

**LOCAL EXCHANGE ACCESS SERVICE**

I. Local Exchange Access Service

(I) Disabled Assistance

- (1) General – A disabled customer, or a dependent, is a customer who requests or receives residential essential local telecommunications service, as defined in section 1 (c) of this tariff, and meets the eligibility requirements set forth in this tariff.
- (2) Regulations – Disabled assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they, or a dependant, are totally and permanently disabled or blind and receiving any of the following:
  - (a) Federal Social Security Disability benefits
  - (b) Federal Supplemental Security income benefits
  - (c) Veterans Administration benefits
  - (d) State blind pension pursuant to Section 209.010 to 209.160 RSMo
  - (e) State aid to blind persons pursuant to Section 209.240 RSMo
  - (f) State supplemental payments pursuant to Section 208.030, RSMo Section 660.100.2 RSMo 2000
- (3) Support Amount – Customers eligible under the established criteria can receive a discount equal to the amount approved by the Missouri Public Service Commission from their bill for essential local telecommunications service. The amount of state lifeline support for any customer will not exceed the recurring charges for essential local telecommunications services (including the basic service rate, Touch-Tone calling charge, extended area service additive, and mileage additives, if any).

II. Missouri Universal Service Fund

- (A) Company will place on each end retail end-user customer's bill, a surcharge equal to the Missouri Universal Service Fund percentage assessment ordered by the Commission.
- (B) The surcharge will appear as a separate line item detailed as "Missouri Universal Service Fund".
- (C) The surcharge percentage will be applied to the total of each customer's charges for intrastate regulated telecommunications services that meet the definition of net jurisdictional revenues at 4 CSR 240-31.010(12).

## RULES AND REGULATIONS

1. The Telephone Company will furnish long distance service when it can secure suitable facilities and rights for construction and maintenance of necessary pole lines, wire and equipment, or suitable connections with other telephone companies.
2. Local exchange service is classified as business or residence based upon the character of usage. It is for use by the subscriber, his family, employees, associated and guests.
3. NEW SUBSCRIBER PAYMENTS: Applicants for service are required to pay one billing period rental in advance plus installation charge or service connection charge as the case may be.
4. BILLING AND PAYMENT
  - a. The subscriber shall receive a bill during each billing period. Failure to receive a bill does not relieve the subscriber of the responsibility of payment for telephone service.
  - b. All bills for local, toll or miscellaneous service are due and payable fifteen (15) + days after rendered.
  - c. Demand for payment of toll charges may be made once a bill is considered delinquent, and after written notice had been provided ten (10) days by mail or ninety-six (96) hours by hand delivery to the customer.

d. Total bills remaining unpaid twenty-two (22) days after rendition shall be considered delinquent.

(+)

5. ESTABLISHMENT AND MAINTENANCE OF CREDIT

(+)

1. Establishment of Credit

The Telephone Company is not obligated to furnish basic local telecommunication service to any individual or firm that has an unpaid and undisputed delinquent account for such service previously rendered by the Company at the same or different address until arrangements have been made to liquidate such previous indebtedness to the Company.

2. Deposits or Guarantees

a. The Company may require a deposit or guarantee as a condition of new service. The deposit may be required prior to and no more than thirty (30) calendar days after the Company actually provides service as stated in the Company's tariff.

6. DISPUTES BY RESIDENTIAL CUSTOMERS (Continued)

(+)

2. When a customer advises the Company that all or part of a charge is in dispute, the Company shall record the date, time and place the inquiry is made; investigate the matter promptly and thoroughly; and attempt to resolve the dispute in a manner satisfactory to both parties.
3. Failure of a customer to cooperate with the Company in efforts to resolve an inquiry which has the effect of placing charges in dispute shall constitute a waiver of the customer's right to continuance of service under this tariff.
4. If a customer disputes a charge, the customer shall pay an amount to the Company equal to that part of the total bill not in dispute. The parties shall consider the customer's prior usage, the nature of the dispute and any other pertinent factors in determining the amount not in dispute. The Company shall not discontinue service for nonpayment of charges in dispute while the dispute is pending.
5. If the parties are unable to determine the amount not in dispute, the customer shall pay to the Company, at the Company's option, an amount not to exceed fifty (50) percent of the charge in dispute or an amount based on usage during a like period under similar conditions which shall represent the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.

ACCESS SERVICE TARIFF CONCURRENCE

Access Services

Access services are those services which are described in the Access Services Tariff of Oregon Farmers Mutual Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Oregon Farmers Mutual Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions has been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

MAY 2 1988

Private Line Concurrence

MISSOURI

The Company concurs in the rules and regulations governing Public Service Commission intrastate intra-LATA interexchange Private Line Service as set forth in Oregon Farmers Mutual Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for private line service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Private Line Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, in whole or in part, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

DISTANCE LEARNING COMMUNICATIONS SERVICES CONCURRENCE

MO. PUBLIC SERVICE COMM.

The Company concurs in the rules and regulations governing intrastate interexchange Distance Learning Communications Service as set forth in Oregon Farmers Mutual Telephone Company's Tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Distance Learning Communications Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

PROVISION OF SERVICES

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to customers, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

CANCELLATION RIGHTS

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

## 13. RESIDENTIAL TELEPHONE UNDERGROUND SYSTEMS:

## A. DEFINITIONS

1. The following words and terms, when used shall have the meaning indicated:

Applicant -- the developer, builder, or other person, partnership, association, firm, private or public corporation, trust, estate, political subdivision, governmental agency, or other legal entity recognized by law, applying for the construction of a telephone distribution system in a subdivision.

Building -- a single structure roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety both physically and in operation for single-family residential occupancy in a subdivision.

Multiple-Occupancy Building -- a structure which stands alone, enclosed with exterior walls or which is cut off from adjoining structures by fire-walls, built for permanent use, erected, framed of component structural parts and unified in entirety, both physically and in operation for reasonably permanent occupancy as two or more single-family residences in a subdivision.

Public Service Commission

## 13. RESIDENTIAL TELEPHONE UNDERGROUND SYSTEMS: (continued)

A. DEFINITIONS (continued)

Subdivision -- a lot, tract, or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per a recorded plat thereof if such recordation is required by law.

Utility -- a "telephone corporation" as defined in Section 386.020(25) RSMo 1969.

Commission - - the Public Service Commission of the State of Missouri as defined in Section 386.020(1) RSMo 1969.

B. APPLICABILITY

1. Telephone lines constructed, installed and owned in subdivisions shall be installed underground.

Conversion of an existing overhead telephone line to underground shall not be required for those new buildings or multiple-occupancy buildings on lots which abut an existing overhead telephone line.

C. RIGHTS-OF-WAY AND EASEMENTS

1. Within the applicant's subdivision, Mo-Kan will construct, own, operate, and maintain underground telephone lines only along public streets, roads, and highways which Mo-Kan has the right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to Mo-Kan may be obtained without cost or need for condemnation.

MAR 30 1973

## C. RIGHTS-OF-WAY AND EASEMENTS (continued)

MISSOURI  
Public Service Commission

2. Rights-of-way and easements, within the subdivision, satisfactory to Mo-Kan, must be furnished by the applicant in reasonable time to meet construction and service requirements and before it shall be required to commence its installation, such rights-of-way and easements must, by applicant, at no charge to Mo-Kan, be cleared of trees, tree stumps, and other obstructions and graded to within six inches of final grade. Such clearance and grading must be maintained by the applicant during construction by Mo-Kan.

## D. INSTALLATION OF UNDERGROUND TELEPHONE LINES WITHIN SUBDIVISIONS.

1. Upon receipt of a proper application Mo-Kan, at no charge, shall install an underground telephone system with suitable materials to assure that the applicant will receive safe, adequate and reasonable telephone service for the foreseeable future.

## E. ADVANCES BY APPLICANT

1. Where, due to the manner in which a subdivision is developed, Mo-Kan is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, Mo-Kan may require a reasonable advancement for the construction from the applicant before construction is commenced, in order to guarantee performance.
2. Where the subdivision is developed in a uniform manner so that Mo-Kan may restrict the construction of its underground telephone distribution system to a section or sections in which buildings or multiple-occupancy buildings are being constructed, Mo-Kan may not require an advance.

3. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro rata basis as the permanent service connection is made to each building or multiple-occupancy building.
4. Any portion of an advance remaining unrefunded ten (10) years from the date, Mo-Kan is first ready to render service with the extension; will be retained by Mo-Kan and credited to the appropriate construction account.

F. COOPERATION BETWEEN COMPANY AND APPLICANT

1. These rules are based on the premises that all utilities and applicant will cooperate at all times in an effort to keep the cost of construction, installation, maintenance, and operation of the underground telephone system as low as possible.

G. CONSTRUCTION

1. To the extent practicable, electric cables, telephone cables, and gas pipes may be installed in the same trench, care being taken to conform to any applicable code and utility specification.
2. All construction, installation, maintenance and operation of underground telephone systems shall be in accordance with applicable code, rules, or utility specifications if such specifications comply with this rule.

## RULES AND REGULATIONS (contd.)

RECEIVED

MAY 15 1978

MISSOURI  
Public Service Commission14. TELEPHONE SOLICITATION BY USE OF AUTOMATIC DIALING  
AND ANSWERING-ANNOUNCING DEVICES.

On and after April 27, 1978, interconnection of automatic dialing and answer-announcing devices, where the intended use of such devices is for telephone solicitation, will not be furnished nor continue to be furnished by the Utility.

For the purposes outlined herein, an automatic dialing device is any automatic or manual dialing-announcing device for telephone solicitation which incorporates the following features:

1. Storage capability of numbers to be called; or
2. A random or sequential number generator that produces numbers to be called; and
3. Has the capability, working alone, or in conjunction with other equipment, of disseminating a pre-recorded message to the number called; and
4. Is calling-party or called-party controlled.

This rule shall remain in effect and be subject to such changes or modifications by the Public Service Commission of the State of Missouri as said Commission may, from time to time, direct in the exercise of its jurisdiction.

PAYPHONE SERVICE

JAN 15 1997

A. General Regulations

1. Payphone Service includes lines to which coin, coinless, card reader or a combination of coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed to the Payphone Service Provider without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

PAYPHONE SERVICE

JAN 15 1997

A. General Regulations (Cont'd)

10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
12. Off-Premise Extensions are not permitted.
13. Local messages from Payphones are charged at no higher than twenty-five (25) cents for each call. Upon implementation of the FCC rules preempting state regulations of payphone rates, this subsection will not apply.
14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

B. Responsibility of the Customer

1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the American With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

B. Responsibility of the Customer (Cont'd)

3. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls. MISSOURI PUBLIC SERVICE COMMISSION
4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.
5. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
6. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

C. Violation of Regulations

1. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.

2. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited, customer activity charges, termination charges, minimum charges, and reimbursement for loss or damage to Company facilities as may apply

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

FCC DESIGNATED N11 SERVICES

211 SERVICE FOR INFORMATION AND REFERRAL SERVICE

A. General Regulations

1. The 211 Service for Information and Referral Service (211 Service) is a locally assigned three-digit abbreviated dialing code provided to an Approved Information and Referral Service Provider for use in making available community information and referral services to the public by way of voice grade facilities. The 211 abbreviated dialing code is available to the Approved Information and Referral Service Provider as tariffed, local calling area based service (the "211 Service").
2. The 211 Service allows a Company subscriber to access an Approved Information and Referral Service Provider call center by dialing only the 211 abbreviated dialing code. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the Approved Information and Referral Service Provider shall be able to receive calls using the 211 Service as part of their local exchange services. The 211 Service is supplemental to and is not a replacement for either party's local exchange service.
3. All 211 abbreviated dialing code calls must be local in nature and must not result in any intraLATA toll, interLATA long distance or pay-per-call charges to Company subscribers. However, 211 Service calls may result in local measured service charges where Company subscribers' service plans include such charges as part of local measured service or home exchange service calling plans.
4. The 211 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator-assisted calling and 101XXXX calling. The 211 Service is otherwise available wherever local service is available.

B. Obligations of the Approved Information and Referral Service Provider

1. The Approved Information and Referral Service Provider must submit a written application for 211 Service to the Company at the local exchange level. The Approved Information and Referral Service Provider may establish 211 Service in all or part of the Company's local exchanges. There may be only one 211 Service Provider per exchange.

FCC DESIGNATED N11 SERVICES

211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd.)

B. Obligations of the Approved Information and Referral Service Provider (Cont'd.)

2. The Approved Information and Referral Service Provider's written application to establish 211 Service in a Company local exchange must include the following:
  - a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 211 abbreviated code. If the Approved Information and Referral Service Provider desires to change the telephone number into which the 211 abbreviated dialing code is translated, the Approved Information and Referral Service Provider must pay the Number Change Charge specified in VII.F.6.
  - b. A location description of the Approved Information and Referral Service Provider call center where 211 calls made from the Company local exchange will be routed.
  - c. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 211 Service.
  - d. An acknowledgment of the possibility that the Commission's assignment of the 211 abbreviated dialing code may be recalled at any time.
3. Local Calling for Company Subscribers
  - a. The Approved Information and Referral Service Provider, in cooperation with the Company, must assure that all 211 Service calls are local in nature and do not generate intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
  - b. When the Approved Information and Referral Service Provider applies for 211 Service in a Company local exchange, the Approved Information and Referral Service Provider must supply the Company with a seven- or ten-digit telephone number that terminates within the Company local exchange's local calling area. The Company will translate the 211 digits into the telephone number provided by the Approved Information and Referral Service provider.

## FCC DESIGNATED N11 SERVICES

## 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd.)

## B. Obligations of the Approved Information and Referral Service Provider (Cont'd.)

## 3. Local Calling for Company Subscribers (Cont'd.)

- c. When the Approved Information and Referral Service Provider applies for 211 Service in a Company local exchange and an Approved Information and Referral Service Provider call center is not located within the local exchange's local calling area, then the Approved Information and Referral Service Provider must establish foreign exchange service or supply the Company with a toll free telephone number so that Company subscribers' 211 Service calls do not incur toll charges.
4. The Approved Information and Referral Service Provider is liable for and will indemnify, protect, defend and hold harmless the Company against all suits, actions, claims, demands and judgments, plus any expenses and counsel fees incurred by the Company on account thereof, whether suffered, made, instituted or asserted by the Approved Information and Referral Service Provider or any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the Approved Information and Referral Service Provider or others, arising out of or resulting directly or indirectly from the 211 Service.
5. The Approved Information and Referral Service Provider must develop an appropriate method for responding to 211 calls directed to it out of confusion or in error by Company subscribers.
6. The Approved Information and Referral Service Provider must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public, and enable the Approved Information and Referral Service Provider to receive calls to the 211 Service during normal business hours.
7. The 211 Service is provided on the condition that the Approved Information and Referral Service Provider subscribes to termination facilities and lines in sufficient quantities to adequately handle calls to the 211 Service without interfering with or impairing any services offered by the Company. There will be one path available for each line to which the 211 Provider subscribes.
8. The Approved Information and Referral Service Provider must comply with all present and future state and federal rules pertaining to abbreviated dialing codes.

## FCC DESIGNATED N11 SERVICES

## 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd.)

## B. Obligations of the Approved Information and Referral Service Provider (Cont'd.)

9. The Approved Information and Referral Service Provider is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 211 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.
10. The Approved Information and Referral Service Provider shall respond promptly to any and all complaints lodged with any regulatory authority against the 211 Service. If requested by the Company, the Approved Information and Referral Service Provider will assist the Company in responding to complaints made to the Company concerning the 211 Service.
11. The Approved Information and Referral Service Provider shall not promote the 211 Service with the use of an autodialer or broadcasting of tones that dial the 211 abbreviated dialing code.
12. The 211 Service is only available to end users located in Company local exchanges. To establish 211 calling to end users in non-Company local exchanges, the Approved Information and Referral Service Provider must make appropriate arrangements with the companies serving those local exchanges, even where Company subscribers may make local calls to the non-Company local exchanges.
13. The Approved Information and Referral Service Provider must work separately with competitive local exchange carriers operating and serving customers in the Company's local exchanges to ascertain whether 211 abbreviated dialing will be available to their end users.

## C. OBLIGATIONS OF THE COMPANY

1. The Company will establish the 211 Service within ninety (90) days after receipt of the Approved Information and Referral Service Provider's completed application(s) for service or the effective date of this tariff, whichever is later.

## FCC DESIGNATED N11 SERVICES

## 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd.)

## C. OBLIGATIONS OF THE COMPANY (Cont'd.)

1. When a 211 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 211 Service call, the quality of the call or any features that may otherwise be provided with 211 Service.
2. The Company does not undertake to answer and forward 211 Service calls but furnishes the use of its facilities to enable the Approved Information and Referral Service Provider to respond to such calls at the Approved Information and Referral Service Providers established call centers.
3. The rates charged for 211 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The Approved Information and Referral Service Provider shall make such operational tests as, in the judgment of the Approved Information and Referral Service Provider, are required to determine whether the Company's facilities are functioning properly for its use. The Approved Information and Referral Service Provider shall promptly notify the Company in the event the Company's facilities are not functioning properly.

## D. LIABILITY

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 211 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the Approved Information and Referral Service Provider for the 211 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
2. The Company is not liable for losses or damages caused by the negligence of the Approved Information and Referral Service Provider.
3. The Company's entire liability to any person for interruption or failure of the 211 Service is limited to the terms set forth in this section and other sections of this Tariff.

## 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd.)

## E. Other Terms and Conditions

1. The 211 Service will not provide calling number information in real time to the Approved Information and Referral Service Provider. If this type of information is required, the Approved information and Referral Service Provider must subscribe to compatible Caller ID service as described in Section IV. of this Tariff. The Caller ID service will only provide calling number information as described in IV. of this Tariff.
2. The 211 Service is provided for the benefit of the Approved Information and Referral Service Provider. The provision of the 211 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the Approved Information and Referral Service Provider.
3. A written notice will be sent to the Approved Information and Referral Service Provider following oral notification when its 211 Service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of abbreviated dialing codes. If after notification, the Approved Information and Referral Service Provider makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the Approved Information and Referral Service Provider is unwilling to accept the modifications, or if the Approved Information and Referral Service Provider continues to cause service impairment, the Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service.
4. In an emergency situation as determined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures, up to and including termination of service.

## F. Rates and Charges

1. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the Approved Information and Referral Service Provider shall be able to receive calls using the 211 Service as part of both parties' local exchange service. The 211 Service is supplemental to and is not a replacement for either party's local exchange service.

Orange Park, FL 32073

## FCC DESIGNATED N11 SERVICES

## 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd.)

## F. Rates and Charges (Cont'd.)

2. A nonrecurring Central Office Charge applies for each Company host central office out of which 211 Service is established, as follows:
  - a. When a Company local exchange is served by more than one host central office, a Central Office Charge is applicable for each host central office in the Company local exchange.
  - b. If the Approved Information and Referral Service Provider establishes 211 Service in multiple Company local exchanges served by the same host central office, only one Central Office Charge shall apply. However, the full Central Office Charge applies whether or not the Approved Information and Referral Service Provider requests 211 Service in all the Company local exchanges served by that host central office.
3. An Exclusion Charge Applies for the establishment of 211 Service as follows:
  - a. When the Approved Information and Referral Service Provider does not simultaneously establish 211 Service in every Company local exchange served by a host central office, the Approved Information and Referral Service Provider shall pay an Exclusion Charge for each Company host central office where any subtending local exchanges are excluded.
  - b. When a Company local exchange is once excluded, but the Approved Information and Referral Service Provider later applies to establish 211 Service in the Company local exchange, an Exclusion Charge again applies for each Company host central office where any subtending local exchanges are excluded.
  - c. When the Approved Information and Referral Service Provider requests a different telephone number be translated to the 211 abbreviated dialing code in a participating central office than the telephone number translated to the 211 abbreviated dialing code in the host central office.
4. A nonrecurring Number Change Charge applies when the Approved Information and Referral Service Provider changes the telephone number into which the 211 abbreviated dialing code is translated. The Number Change Charge is applied on a per telephone number, per host central office basis.

MoKan Dial, Inc.

Original Sheet 21.8  
For Freeman, Missouri

### FCC DESIGNATED N11 SERVICES

(N)

#### 811 ONE-CALL SERVICE

##### A. Description

1. 811 Service is a three-digit abbreviated local dialing arrangement which allows local exchange end-users to reach the providers of Missouri's One Call Notification System (811 Customer). 811 Service is used by the One Call Notification System to provide notice of excavation activities to operators of underground facilities. 811 Service determines the central office service the calling party, translates the dialed digits to an 811 Customer provided designated toll free telephone number, and routes the call to that number.

##### B. Terms and Conditions

1. The Company and 811 Customer will negotiate the installation date for the 811 Service.
2. There can be only 811 Customer for each stand-alone, host, or remote central office NAP-NXX serving area.
3. The Company will route calls based upon the serving central office.
4. The 811 Customer must provide a toll-free number to the Company to ensure that toll charges are not incurred by the end-user. At all times it shall be the obligation of the 811 Customer to test and be aware of any translation errors or other mistakes in routing 811 calls to the customer provided toll free number.
5. 811 Service can only be accessed by end-users who subscribe to the Company's local exchange service. 811 Service will not complete calls dialed using 0 + 811 or 1 + 811. 811 calls are not permitted where local calling is restricted.
6. 811 Service does not include operator assisted calls, and will only be available to PBX, Centrex, and Key switching systems when those systems have been correctly programmed. The Company does not undertake to perform, nor shall it be responsible, for such programming.

### FCC DESIGNATED N11 SERVICES

#### 811 ONE-CALL SERVICE (Cont'd.)

(N)

##### B. Terms and Conditions (Cont'd.)

7. 811 Service is provided as a community service. There will be no recurring or non-recurring charges for the service.

##### C. Limitation of Liability

1. 811 Service is provisioned solely for the benefit of the 811 Customer. The provision of such service shall not be interpreted, construed, or regarded as being for the benefit of or creating any obligation toward, or any right of action on behalf of, any third person or other legal entity, including but not limited to end-users of the Company of any other providers of telecommunications service.
2. The Company will make commercially reasonable efforts to route 811 calls to the toll-free number provided by the 811 Customer, however the Company will not be responsible, or held responsible, for routing mistakes and errors, interruptions of service, or intervening Acts of God or other acts that interfere with telephone service and/or routing. The Company's obligation under this 811 Service applies solely to the transmission of the call to the toll-free number provided, and ends upon translation of an 811 call to the Customer provided toll free number.
3. The Company does not undertake to transmit messages under the terms of 811 Services.
4. The Company will have no liability for any damages arising from damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing 811 Services.
5. The Company's failure to provide or maintain service shall be excused by government orders, civil commotions, Acts of God and other circumstances beyond the Company's reasonable control.

##### C. Limitation of Liability (Cont'd.)

6. The Company shall not be liable for any act or omission of any entity, and shall not be liable for any accident, injury to person or property, including death, libel, slander, infringement of intellectual property rights, nor shall the Company be responsible for any direct, indirect, incidental, special, consequential, exemplary, or punitive damages.
7. The 811 Customer shall defend the Company at the 811 Customer's expense, indemnify, and hold the Company harmless against any and all loss, claims, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted against the company as directly or indirectly arising from the provision of 811 Service.

**GENERAL RULES AND REGULATIONS**

**FCC DESIGNATED N11 SERVICES**

**911 UNIVERSAL EMERGENCY NUMBER SERVICE**

**A) General**

- 1) Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the 911 customer may receive telephone calls dialed to the telephone number 911. 911 Service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 Trunking Service involves the provision of interoffice trunks from the Telephone company Central Office to connect with the PSAP location.
- 2) The 911 emergency number is not intended to replace the telephone service of the various Public Safety Agencies which may participate in the use of this number. The 911 customer must subscribe to additional local exchange service at the PSAP for administrative purpose, for the placing of outgoing calls and for receiving other emergency calls, including any which might be related by Company operators.
- 3) 911 Trunking Service is offered subject to availability of facilities.
- 4) The 911 Trunking Service customer may be a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local government units to whom 911 provisioning authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for police, fire or other emergency services within the telephone Central Office area arranged for 911 calling.
- 5) The company may enter into a contract or contracts with the 911 customer or with other telephone companies in order to effectuate the Company's provision of 911 Service in accordance with, pursuant to, and subject to the terms, conditions and limitations of the Tariff. Any such contract(s) shall incorporate by reference the terms, conditions and limitations of this Tariff.
- 6) The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

**GENERAL RULES AND REGULATIONS**

(N)

**FCC DESIGNATED N11 SERVICES**

**911 UNIVERSAL EMERGENCY NUMBER SERVICE (cont'd)**

**B) Conditions**

- 1) 911 Trunking Service is provided solely for the benefit of the customer operating the PSAP. The provision of 911 Trunking Service by the Company shall not be interpreted, construed or regarded, either express or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
- 2) The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
- 3) Temporary or vacation suspensions of service are not provided for any part of the 911 Trunking Service.
- 4) 911 Service information consisting of the names, addresses and telephone numbers of Subscribers whose listings are not published in directories or listed in the Directory Assistance records is treated as strictly confidential.
- 5) End Users dialing 911 forfeit the privacy afforded by nonpublished and unlisted telephone number service to the extent that the telephone number, address and name associated with the originating station location may be furnished by a PSAP. Information will be provided only for the purpose of responding to emergency calls.
- 6) The Company's entire liability to any person for interruption or failures of 911 Trunking Service shall be limited to the terms set forth in this section and other sections of this tariff.
- 7) The customer shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data base(s), and overall operation of the system. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the even the system is not functioning properly.

**GENERAL RULES AND REGULATIONS**

**FCC DESIGNATED N11 SERVICES**

**911 UNIVERSAL EMERGENCY NUMBER SERVICE (cont'd)**

**B) Conditions (cont'd)**

- 8) The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro-rata charges for the service affected during the period of time that the service was fully or partially inoperative.
- 9) Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of property, owned by the customer or others.
- 10) The customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 Trunking Service features, the equipment associated therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Trunking Service hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer, its user, agencies or municipalities, or the employees or agents or any one of them.
- 11) Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from the telephones served by Telephone Company Wire Centers served by the PSAP whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- 12) Application for 911 Trunking Service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.

**GENERAL RULES AND REGULATIONS**

(N)

**FCC DESIGNATED N11 SERVICES**

**911 UNIVERSAL EMERGENCY NUMBER SERVICE (cont'd)**

**B) Conditions (cont'd)**

- 13) The customer is required to furnish the Company its agreement to the following terms and conditions:
- a) That all 911 calls will be answered in a 24-hour day, seven-day week basis.
  - b) That customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 Service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
  - c) That the customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the 911 PSAP by calling parties.
  - d) That the customer will provide CPE with a capacity adequate to handle the number of incoming 911 lines recommended to be installed by the Company. It is the customer's responsibility to ensure its CPE is compatible with the service(s) provided by the Company.
- 14) This Service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the 911 customer contracting for 911 Trunking Services. In the event of any interruption of the service, the Company shall not be liable to any person, corporation or other entity for any loss or damage in an amount greater than an amount equal to the pro rata allowance of the tariff rate for the service or facilities provided to the 911 customer for the time such interruption continues, after notice to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the 911 customer.
- 15) The rates charged for 911 Trunking Service do not contemplate the constant monitoring or inspection of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility.

## P.S.C. MO. NO. 2

MoKan Dial, Inc.

Original Sheet 21.15  
For Freeman, Missouri

### GENERAL RULES AND REGULATIONS

#### FCC DESIGNATED N11 SERVICES

#### 911 UNIVERSAL EMERGENCY NUMBER SERVICE (cont'd)

##### B) Conditions (cont'd)

- 16) In the absence of willful misconduct or gross negligence, no liability for any death or injury to any person or for any damage to property shall attach to the Company, its employees, agents or representatives as a result of or in connection with any situation in which the Company may be requested, required, have undertaken or participated in the tracing of a 911 call.
- 17) The customer recognizes that the addresses provided to it by the Company are the same addresses that the Company maintains for its ordinary service, billing or directory records and the Company cannot unconditionally guarantee their existence or accuracy in emergency situation. Therefore, the customer recognizes that addresses should, where circumstances permit, be verified from a 911 calling party. The customer shall make the correction within a reasonable time under the circumstances. Telephone Company basic local exchange service applicants shall be required to provide an accurate E-911 master street address guide (MSAG) street address prior to the initiation of basic local exchange telecommunications service. Upon receipt of notification from the 911 customer that a Telephone Company subscriber's street address is not accurate or consistent with the MSAG, the Telephone company may suspend the subscriber's basic local service until notified by the 911 customer that the subscriber's address has been made changed and assimilated into the MSAG.

##### C) Rates

- 1) The rates and charges for 911 Trunking Service set out below are for the provision by the Company of its facilities for trunking calls for the Company's central offices to the PSAP, or between Central Offices within the State of Missouri. The customer is responsible to order connecting trunking facilities from other telephone companies when necessary to extend the trunks to a PSAP beyond the Telephone Company serving area.

	<u>Per Trunk</u>
Trunks between Central Offices	\$ 25.00*
Trunks between Central Offices and PSAP	\$ 25.00*

\*These rates apply to 911 customers who order or modify 911 trunks after the effective date of this tariff sheet. These rates do not apply to 911 customer service configurations in place prior to the effective date of this tariff sheet.

**911 UNIVERSAL EMERGENCY NUMBER SERVICE (cont'd)**

**C) Rates (cont'd)**

**2) Database Records Charges**

These charges are applicable to the work necessary for Company customer records to support E911 Service. The initial record charge is for work necessary to complete the initial upload to the E911 provider, which includes verification of records to the Master Street Address Guide ("MSAG"). Customer updates beyond the initial upload would include new requests for service in the Company's serving area, orders that change a customer's name, telephone number and/or address, and will include verification to the MSAG. A record update(s) generated due to a Company error will not be assessed a Database record charge. If an error is due to inaccurate information provide by a 911 customer, a charge will be assessed.

Initial Upload of Records, one time charge \$ 400.00\*

Database Record Charges, per record charge \$ .38\*

\* These rates apply to 911 customers who order or modify 911 service after the effective date of this tariff sheet. These rates do not apply to 911 customer service configurations in place prior to the effective date of this tariff sheet.
