Jefferson City, MO 65102-0360

Re: Notice of Election and Withdrawal of Southwestern Bell Telephone Company d/b/a/ AT&T Missouri Tariffs Pursuant to §392.461, RSMo, enacted by House Bill No. 338

Dear Secretary of the Commission:

Section 392.461 allows telecommunications companies, upon notice to the Missouri Public Service Commission (“Commission”), to elect to be exempt from the requirement that they offer retail services to residential or business end users only through tariff, and to withdraw such tariffs. However, the law requires electing companies to publish generally available retail prices on a website.

Southwestern Bell Telephone Company, d/b/a/ AT&T Missouri (“the Company”) hereby gives the Commission notice of its election to be exempt from tariff filing requirements, and of its intent to withdraw, the below-listed tariff.

- **Long Distance Message Telecommunications Service P.S.C. Mo. - No. 26**

This Notice of Election and Withdrawal shall become effective May 1, 2014. The Company will make available its rates, charges, terms and conditions for the above-referenced retail telecommunications services on its website at www.att.com/servicepublications.

Please refer any questions on this matter to me on 573-638-0261.

Very truly yours,

/s/ Timothy Judge

I certify that a copy of the foregoing, including attachments, is being sent via e-mail to the Office of Public Counsel at opcservice@ded.mo.gov this 1st day of April 2014.

SCHEDULE OF RATES AND SPECIFIC REGULATIONS

Applying to its authorized intraLATA territories within the State of Missouri except as stated herein.

Southwestern Bell Telephone Company is serving as a primary toll carrier solely pursuant to the terms of the Conceptual Framework, Missouri Intrastate, IntraLATA Primary Carrier By Toll Center Plan, filed in Mo. P.S.C. Case No. TO-84-222 et al., on January 29, 1987, as modified by subsequent Commission orders in that case dated April 3, 1987, October 23, 1987 and December 11, 1987. Southwestern Bell Telephone Company hereby agrees to undertake the obligations of provider of last resort for intraLATA toll services in accordance with the Conceptual Framework, for the term of that agreement, and in accordance with said Commission orders. By filing this tariff and operating under its terms, Southwestern Bell Telephone Company does not concede that it has any obligation to so serve, absent the Conceptual Framework and said Commission orders.

Pursuant to the Commission's orders referenced above, charges for services governed by the Conceptual Framework will be made at rates shown in this tariff. Southwestern Bell Telephone Company specifically denies that, by virtue of its execution of any contract with any secondary carrier or by the filing of this or any tariffs which are applicable to services governed by the Conceptual Framework and rendered in exchanges in which Southwestern Bell Telephone Company is not the authorized local exchange provider, Southwestern Bell Telephone Company is undertaking to provide intraLATA toll services, professing to serve those exchanges listed below, or offering to provide intraLATA toll services to those exchanges.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE TARIFF

Southwestern Bell Telephone
Company d/b/a AT&T Missouri

5th Revised Sheet 1
Replacing 4th Revised Sheet 1

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.1 APPLICATION OF TARIFF

1.1.1 This Tariff applies to Long Distance Message Telecommunications Service furnished or made available by the Telephone Company over service components located wholly within or partly within the Local Access and Transport Areas (LATAs) of the State of Missouri between two or more points within LATAs of the State of Missouri and where the respective rate centers of such points are also located in said State.

1.1.2 Long distance rates ascertained as herein outlined are the effective rates applicable.

1.1.3 Any change in rates or regulations authorized by the legally constituted authorities acts as a modification of all contracts to that extent without further notice.

1.2 GENERAL REGULATIONS

1.2.1 Scope

- A. Long Distance Message Telecommunications Service (LDMTS) is the furnishing of those service components required for telecommunications between service points in different local service areas in accordance with the regulations and system of charges specified in this Tariff. The message charges specified in this Tariff are in payment for Long Distance Message Telecommunications Services furnished between the calling and called service points.
- B. The charges specified in this Tariff do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.
- C. The Telephone Company does not undertake to transmit messages but furnishes the use of its services to its customers for telecommunications.
- D. The design, maintenance and operation of Long Distance Message Telecommunications Service envisions that communications will originate or terminate at a service point of the associated exchange telephone service used for LDMTS. Connections of customer premises equipment or communications systems or interexchange customer-provided premises equipment or communications systems may be made to LDMTS. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

1.2 GENERAL REGULATIONS

1.2.1 Scope

- A. Long Distance Message Telecommunications Service (LDMTS) is the furnishing of those service components required for telecommunications between service points in different local service areas in accordance with the regulations and system of charges specified in this Tariff. The message charges specified in this Tariff are in payment for Long Distance Message Telecommunications Services furnished between the calling and called service points. Long Distance Message Telecommunications Service usage and Operator Services charges associated with all Station-to-Station, Calling Card and Person-to-Person services are competitively classified.
- B. The charges specified in this Tariff do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.
- C. The Telephone Company does not undertake to transmit messages but furnishes the use of its services to its customers for telecommunications.

1.1 APPLICATION OF TARIFF

1.1.1 This Tariff applies to Long Distance Message Telecommunications Service furnished or made available by the Telephone Company over service components located wholly within or partly within the Local Access and Transport Areas (LATAs) of the State of Missouri between two or more points within LATAs of the State of Missouri and where the respective rate centers of such points are also located in said State.

1.1.2 Long distance rates ascertained as herein outlined are the effective rates applicable.

1.1.3 Any change in rates or regulations authorized by the legally constituted authorities acts as a modification of all contracts in effect without further notice.

CANCELLED

1.2 GENERAL REGULATIONS

1.2.1 Scope

MAR 29 2002
By *4HRS 1*
Public Service Commission
MISSOURI

A. Long Distance Message Telecommunications Service (LDMTS) furnishing of those service components required for telecommunications between service points in different local service areas in accordance with the regulations and system of charges specified in this Tariff. The message charges specified in this Tariff are in payment for Long Distance Message Telecommunications Services furnished between the calling and called service points. Long Distance Message Telecommunications Service usage and Operator Services charges associated with all Station-to-Station, Calling Card and Person-to-Person services were classified as transitionally competitive effective January 10, 1993.

(AT)
|
(AT)

B. The charges specified in this Tariff do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.

C. The Telephone Company does not undertake to transmit messages but furnishes the use of its services to its customers for telecommunications.

D. The design, maintenance and operation of Long Distance Message Telecommunications Service envisions that communications will originate or terminate at a service point of the associated exchange telephone service used for LDMTS. Connections of customer premises equipment or communications systems or interexchange customer-provided premises equipment or communications systems may be made to LDMTS. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.1 Scope-(Continued)

- (CT) E. The rules and regulations as applied to billing and collection practices for services provided to residence customers are found in the Rules and Regulations Applying to All Customers' Contracts and the Suspension of Service Sections of the Missouri General Exchange Tariff.

1.2.2 Availability of Services

- A. In case a shortage of service components exists at any time, either for temporary or protracted periods, the establishment of Long Distance Message Telecommunications Service shall take precedence over all others.
- B. Service is furnished subject to the availability of the service components required. The Telephone Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.
- (CT) C. When connections are made to customer- or interexchange customer-provided communications systems at a premises where the customer does not originate or terminate communications, the Telephone Company may require that the exchange telephone service be furnished from a Telephone Company Serving Office(s) different than the Serving Office(s) designated by the Telephone Company to serve that premises.
- D. At the option of the Telephone Company, Billed Number Screening will be furnished to control instances of fraud associated with billed to third party, station-to-station or person-to-person collect calls or in response to a customer request.

1.2.3 Limitations on Duration of Connections

The Company reserves the right to limit the duration of connection when necessary because of a shortage of service components caused by emergency conditions.

1.2.4 Liability

- A. In view of the fact that the customer has exclusive control of his communications over the services furnished him by the Telephone Company, and of the other uses for which services may be furnished him by the Telephone Company, and because of unavailability of services incident to the services and to the use of such services of the Telephone Company, the services furnished by the Company are subject to the terms, conditions and limitations specified in B., C. and D., following.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.13 Definitions-(Continued)

Bill to Third Number

The term "Bill to Third Number" denotes a billing arrangement by which a call may be charged to an authorized service point as determined by the Telephone Company other than the service point originating the call or the service point where the call is terminated.

Billed Number Screening

The term "Billed Number Screening" denotes an arrangement whereby at time of call origination, bill to third number, service point-to-service point or person-to-person collect calls are screened for customer-preauthorized or Company-directed nonacceptance. Screening is based on the "billed to" number.

Call Forwarding

Call Forwarding denotes that feature whereby a call placed to a customer's telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company serving office equipment on a Long Distance Message Telecommunications Service basis only to a service point designated by said customer in another exchange within the same LATA. Provision of Call Forwarding is subject to the availability of service components.

Calling Card

The term "Calling Card" denotes a billing arrangement by which a call may be charged to an authorized telecommunications company calling card number.

Collect Call

The term "Collect Call" denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third party number. In the case of a telephone which is identified as Payphone Exchange Access Service, the charges must be billed to a calling card or third number, or the call may be reoriginated from the called service point.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED

1.2 GENERAL REGULATIONS--(Continued)

APR 1 1993

1.2.13 Definitions--(Continued)

Bill to Third Party

MISSOURI PUBLIC SERVICE COMMISSION

The term "Bill to Third Party" denotes a billing arrangement by which a call may be charged to an authorized service point as determined by the Telephone Company other than the service point originating the call or the service point where the call is terminated.

Billed Number Screening

The term "Billed Number Screening" denotes an arrangement whereby at time of call origination, bill to third party, service point-to-service point or person-to-person collect calls are screened for customer-pre-authorized or Company-directed nonacceptance.

Call Forwarding

Call Forwarding denotes that feature whereby a call placed to a customer's telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company serving office equipment on a Long Distance Message Telecommunications Service basis only to a service point designated by said customer in another exchange within the same LATA. Provision of Call Forwarding is subject to the availability of service components.

CANCELLED

Calling Card

The term "Calling Card" denotes a billing arrangement which may be charged to an authorized telecommunications company number.

DEC 7 1995 BY [Signature] #7 PUBLIC SERVICE COMMISSION MISSOURI

Collect Call

The term "Collect Call" denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third party number. In the case of a public or semi-public coin telephone, the charges must be billed to a calling card or third-party number, or the call may be reoriginated from the called service point.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.13 Definitions-(Continued)

(MT)

Conference Service

Long Distance Message Telecommunications Conference Service is that of furnishing connections between three to six (more where practicable by special arrangement) main service points or private branch exchanges or combinations thereof on one connection at the same time.

(MT)

Customer

The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the regulations of the Telephone Company.

Data Switching

When used in connection with composite data service, denotes the switching of data (nonvoice) messages by the interchange, controlling and routing of data messages via communications service components, wherein the information content of the message remains unaltered.

Exchange Access Arrangement

(EAA) A telephone service component which permits access to and from the customer's premises and the telephone exchange network point. A telephone exchange network point is also known as a serving office.

(AT)

Extended Area Service (EAS)

A mandatory arrangement whereby customers in one exchange can call customers in contiguous exchanges.

(AT)

Initial and Additional Period

The initial period denotes the interval of time allowed at the rate specified for a connection between given points.

The additional period denotes the unit of time used for measuring and charging for time in excess of the initial period.

(MT)

Issued: April 1, 1993

Effective: May 1, 1993

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

M. Network Control Signaling

(CT) The transmission of signals used in the public service communications system which perform functions such as supervision (control status, and charging signals), address signaling (e.g., dialing), calling and called number identification, audible tone signals, (call progress signals indicating re-order or busy conditions, alerting, coin denominations, coin collect and coin return tones) to control the operation of switching machines in the telecommunications system.

N. Network Control Signaling Unit

(CT) The terminal equipment furnished, installed and maintained by the Telephone Company for the provision of network control signaling.

O. Person-to-Person (See Two-Point Service)

P. Service Point

(CT) When used in connection with customer-provided channels or systems, denotes the point on the customer's premises where channels provided by or furnished to the customer are terminated in switching equipment used, in the normal mode of operation, for communications with stations or customer-provided terminal equipment located on the premises.

(AT) Q. Single Ended Terminal Device

A terminal device which terminates only one line at a given time (e.g., headset).

R. Station

(CT) The network control signaling unit, DATA PHONE (R) data set or other equipment provided by the Telephone Company at customer's premises which enables the customer to establish the communications connections and to effect communications through such connections.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.13 Definitions-(Continued)

Network Control Signaling Unit

The equipment furnished, installed and maintained by the Telephone Company for the provision of network control signaling.

Patron

When used in connection with composite data service, denotes a subscriber to the data switching services of a Composite Data Service Vendor.

Person-to-Person (See Two-Point Service)

(AT)

Sent-Paid

|

(AT)

The term "Sent-Paid" denotes a billing arrangement whereby a call is charged to the service point originating the call.

Service Point

When used in connection with customer-provided communications channels or systems, denotes the point on the customer's premises where channels provided by or furnished to the customer are terminated in switching equipment used, in the normal mode of operation, for communications with service points or customer premises equipment located on the premises.

Service Terminating Arrangement

The term "Service Terminating Arrangement" denotes Telephone Company-provided equipment which terminates exchange telephone service, used for Long Distance Message Telecommunications Service (LDMTS), at a customer's premises. The "Service Terminating Arrangement" provides a clearly delineated interface which facilitates the design, isolation and testing of LDMTS. Where a protective connecting arrangement is required, the "Service Terminating Arrangement" is provided as a part of the protective connecting arrangement.

Public Service Commission

Issued: JUL 6 1973

Effective: AUG 6 1973

BY R. R. SHOCKLEY, Vice President, Missouri-Illinois Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

Long Distance Message Telecommunications Service Tariff Original Sheet 11.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.13 Definitions-(Continued)

S. Two-Point Service-(Continued)

1. Person-to-Person-(Continued)

d. The Telephone Company does not undertake in connection with person-to-person service to bring to a telephone a called person who cannot be reached at a telephone connected to the Bell System. However, at the request of the calling party, the Telephone Company, when possible, will arrange on behalf of the calling party, for messenger service; that is, a messenger or other means to notify the called party of the call. The Telephone Company shall be reimbursed by the calling party for the amount expended for such messenger service, such charges being subject to prior authorization by the calling party to the extent that they can be determined in advance. Such charges for messenger service are in addition to the Tariff charges for the message.

2. Station-to-Station

a. The term "Station-to-Station" denotes that service where the person originating the call

- dials the telephone number desired, or
- gives to the Telephone Company operator the telephone number of the desired station, Miscellaneous Common Carrier connecting circuit, PBX, or PBX station which is reached directly rather than through a PBX attendant, or gives only the name and address under which the number of the desired station, Miscellaneous Common Carrier connecting circuit or PBX is listed, and does not specify a particular person to be reached, nor a particular mobile station to be reached through a Miscellaneous Common Carrier attendant, or a particular station department or office to be reached through a PBX attendant.

Long Distance Message
Telecommunications Service Tariff
Original Sheet 12

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.14 Special Taxes, Fees and Charges

- A. There shall be added to the customer's bill or charge as a part of the rate for service, a surcharge, equal to the pro rata share of any franchise, occupation, business, license, excise, privilege, or other similar tax, fee or charge (hereafter called "tax") now or hereafter imposed upon the Telephone Company by any taxing body or authority, whether by statute, ordinance, law or otherwise, and whether presently due or to hereafter become due.
- B. On and after the effective date thereof, any subsequent increase, decrease, imposition or determination of liability for such taxes, fees or charges, as described above, shall be applied in the manner provided below, to the customer's bill or charge on each individual billing date.
- C. When such tax or taxes are imposed in terms of a flat sum payment of money, the surcharge applicable to each customer's bill or charge, as the pro rata share of such taxes described above, shall be determined by relating the flat sum payment to the total local exchange revenues within the jurisdiction of the taxing body; the fraction so described shall be converted to a percentage; the local exchange rate shall be increased by that percentage, and applied to the customer's bill or charge, so that the amount added, when accumulated from all customers residing in the geographic jurisdiction of the body, will equal the amount of the flat sum payment.
- D. When such tax or taxes are imposed in terms of a percentage of revenues or gross receipts, the surcharge applicable to each customer's bill or charge as the pro rata share of such taxes described above shall be determined by dividing the tax expressed as a percentage by 100% minus the tax expressed as a percentage and multiplying the decimal thus obtained by the customer's charges to which such tax applies.

$$\left(\frac{\text{Tax\%}}{100\% - \text{Tax\%}} \right) \times \text{Taxable Charges}$$

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.14 Special Taxes, Fees and Charges-(Continued)

- E. The Tariff charge constituting the amount of the surcharge provided for herein shall be stated separately on each customer's bill.
- F. Where more than one tax, fee or charge is imposed by a taxing body or authority, the total of such surcharge applicable to a customer may be billed to the customer as a single amount.

1.2.15 Time and charges on long distance calls may be quoted upon request from the customer. Name association with time and charge details will be provided where service components permit. The Telephone Company reserves the right to determine the service component used where there are multiple service components.

1.2.16 Long Distance Availability Limits

- A. SWBT reserves the right to limit and/or restrict inter/intraLATA toll calling on SWBT residential customer accounts deemed to be unsatisfactory credit risks for reasons including, but not limited to:
 - 1. Poor credit history with SWBT
 - 2. No prior credit history available to SWBT with respect to previous telecommunications service within the last two (2) years (e.g., "new connects")
 - 3. Current delinquent toll balance
- B. SWBT will establish toll limits on customer accounts in a non-discriminatory manner based on the customer's credit history with SWBT. Customers determined to be "at risk" will be assigned toll calling limits. A customer's credit classification will be determined in accordance with SWBT internal rules and regulations and Section 17, Rule and Regulations Applying To All Customers' Contracts, of the General Exchange Tariff. On existing accounts, SWBT shall notify existing customers of their toll limit at least ten (10) days in advance of the date the toll limit is to be placed on the customer's account.

Customers will receive a printed notice on their bill every month stating their toll limit amount. The limit will be placed on all working telephone numbers on the customer's account.

1.3 METHOD OF APPLYING RATES

(CP)

1.3.1 Long Distance Message Telecommunications Service rates between points (cities, towns, or localities) within the same LATA are based on the air line distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.

1.3.2 For the purpose of determining air line mileages vertical and horizontal grid lines have been established across the United States and Canada. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map projection for determining air line mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the air line mileage computed as explained in 1.3.3, following.

1.2 GENERAL REGULATIONS-(Continued)

1.2.16 Long Distance Availability Limits – (Continued)

- C. SWBT will monitor the toll activity on “at risk” customer accounts 24 hours per day, 7 days per week via mechanized systems. When a customer’s cumulative toll usage exceeds his designated limit, all further toll calling will be restricted. Calls attempted from restricted lines will be routed to a central office announcement system which will inform the caller that long distance calls from that line are restricted. The restriction will be placed on all working telephone numbers on the customer’s account.

- D. A customer whose toll usage is restricted due to provisions of this subsection will not be able to dial or complete inter/intraLATA toll calls, which also include the following:
 - 1. Calls preceded by a “1” or “0” (other than 800 or 888)
 - 2. Accept collect or billed to third number calls that create toll charges on working telephone numbers
 - 3. Calling Card Calls

- E. A customer whose toll usage is restricted due to provisions of this subsection will be able to dial the following:
 - 1. Any local calls (current local calling scope, including ten-digit local dialing)
 - 2. Emergency 9-1-1
 - 3. SWBT Business Office
 - 4. SWBT Repair
 - 5. 800 Service calls and Common Line 800 Service calls
 - 6. 0- Access to Directory Assistance and Local Operator Assistance

- F. SWBT may restrict toll usage pursuant to this subsection, until such time as sufficient payment is received. Restricted customers may be required to make a payment before service is restored. Rules and regulations for handling such payments will be in accordance with the current guidelines in Sections 17, Rules and Regulations Applying to All Customer’s Contracts, of the General Exchange Tariff. Customers may contact SWBT customer service 24 hours per day, 7 days per week to inquire about their long distance availability limit, restriction status or to arrange for payment.

- G. Toll limits will remain on an “at risk” customer account until such time as:
 - 1. The customer maintains on-time payment status on their account for a period of twelve (12) consecutive months, and

The restriction will be placed on all working telephone numbers on the customer’s account.
- D. A customer whose toll usage is restricted due to provisions of this subsection will not be able to dial or complete inter/intraLATA toll calls, which also include the following:
 - 1. Calls preceded by a “1” or “0” (other than 800 or 888)
 - 2. Accept collect or billed to third number calls that create toll charges on working telephone numbers
 - 3. SWBT Calling Card Calls
- E. A customer whose toll usage is restricted due to provisions of this subsection will be able to dial the following:
 - 1. Any local calls (current local calling scope, including ten-digit local dialing)
 - 2. Emergency 9-1-1
 - 3. SWBT Business Office
 - 4. SWBT Repair
 - 5. 800 Service calls and Common Line 800 Service calls
 - 6. 0- Access to Directory Assistance and Local Operator Assistance
- F. SWBT may restrict toll usage pursuant to this subsection, until such time as sufficient payment is received. Restricted customers may be required to make a payment before service is restored. Rules and regulations for handling such payments will be in accordance with the current guidelines in Sections 17, Rules and Regulations Applying to All Customer’s Contracts, of the General Exchange Tariff. Customers may contact SWBT customer service 24 hours per day, 7 days per week to inquire about their long distance availability limit, restriction status or to arrange for payment.
- G. Toll limits will remain on an “at risk” customer account until such time as:
 - 1. The customer maintains on-time payment status on their account for a period of twelve (12) consecutive months, and

Replacing Original Sheet 14

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.3 METHOD OF APPLYING RATES-(Continued)

1.3.3 Determination of Airline Mileages

(MT)

(RT) A. Long Distance Message Telecommunications Service

To determine the rate distance between any two rate centers proceed as follows:

1. Obtain the (V) and (H) coordinates for each rate center.
2. Obtain the difference between the (V) coordinates of the two rate centers. Obtain the difference between the (H) coordinates. NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
3. Divide each of the differences obtained in 2. by three, rounding each quotient to the nearer integer.
4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in 3. by three and repeat step 4. Repeat this process until the sum of the squares obtained in 4. is less than 1778.
5. The number of successive divisions by three in steps 3. and 4. determines the value of "N". Multiply the final sum of the two squares obtained in step 4. by the multiplier specified in the following table for this value of "N" preceding:

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in 5. and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in 5. preceding, the minimum rate mileage corresponding to the "N" value is applicable.

Issued: December 29, 1993

Effective: January 1, 1984

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED
APR 26 1973
MISSOURI
Public Service Commission

1.3 METHOD OF APPLYING RATES-(Continued)

1.3.3 Determination of Airline Mileages-(Continued)

Example:

The message rate distance is required between Kansas City, Missouri and St. Louis, Missouri.

		V	H
(A)	Kansas City	7027	4203
	St. Louis	6807	3482
(B)	Difference	<u>220</u>	<u>721</u>
(C-1)	Dividing each difference by three and rounding to nearer integer = 73 AND 240		
(D-1)	Squaring integers and adding, 73 X 73 = 5329		
			240 X 240 = 57600
	Sum of squared integers		<u>62929</u>
	Sum of squared integers is greater than 1777, so divide integers in (C-1) by three and repeat (D-1)		
(C-2)	Dividing integers in (C-1) by three and rounding = 24 AND 80		
(D-2)	Squaring integers and adding, 24 X 24 = 576		
			80 X 80 = 6400
	Sum of integers		<u>6976</u>
	Sum of squared integers is greater than 1777, so divide integers in (C-2) by three and repeat (D-2)		
(C-3)	Dividing integers in (C-2) by three and rounding = 8 AND 27		
	Squaring integers and adding, 8 X 8 = 64		
			27 X 27 = 729
	Sum of squared integers		<u>793</u>

This sum of squared integers is less than 1778 and was obtained after successive divisions by three; therefore, **CANCELLED**

(E) Multiply final sum of squared integers 793 by factor 72.9 (corresponding to "N" = 3) x72.9 = 57,809.7

(F) Square root of 57,809.7 = 240 and a fraction, which rounded up to 241 miles (fractional miles being considered full miles). The 241 miles is larger than the minimum of 121 rate miles applicable when "N" = 3, so the message rate mileage is 241 miles.

1.4 TWO-POINT SERVICE-(Continued)

1.4.2 Station-to-Station Service

MO. PUBLIC SERVICE COM.

A. The term "Station-to-Station" denotes that service where the person originating the call:

- dials the telephone number desired or
- gives to the Telephone Company operator the telephone number of the desired service point, Mobile Telephone Service connecting circuit, PBX or PBX service point which is reached directly, rather than through a PBX attendant, or gives only the name and address under which the number of the desired service point, Mobile Telephone Service connecting circuit, or PBX is listed, and does not specify a particular person to be reached, nor a particular mobile service point to be reached through a Mobile Telephone Service attendant, nor a particular service point, department or office to be reached through a PBX attendant.

B. Station-to-Station services are offered as follows:

1. Dial Station-to-Station

(CT)

"Dial Station-to-Station" is that Station-to-Station service where the person originating the call from other than a pay telephone dials the telephone number desired and the call is completed without the assistance of a Telephone Company operator, and the call is not billed to a number other than the originating telephone number. The dial station-to-station rate also applies in the following situations: 1) when an operator records the originating telephone number where no automatic recording equipment is available; 2) when an operator records a special identification number, issued by the Telephone Company for its billing purposes to students who reside at dormitories of colleges or universities equipped for Dormitory Centrex or PBX Service or equipped with a customer-provided PBX equipped with Direct Inward Dial (DID) and Identified Outward Dial (IOD) Service, for a call placed from a Dormitory Centrex or PBX service point; 3) when a call is forwarded by call forwarding equipment; 4) when an operator reaches the called telephone number where service components are not available for dial completion; 5) when an operator places a Sent-Paid call for a calling party who identifies himself as being disabled and unable to dial the call because of his handicap; 6) when an operator re-establishes a call which has been interrupted due to a problem on the network after the called number has been reached; and 7) when an operator places a call for the calling party who declares that he has attempted to complete the call but has been unable to do so due to technical difficulties.

1.4.2 Station-to-Station Service-(Continued)

B. Station-to-Station services are offered as follows:-(Continued)

2. Operator Station-to-Station

Station-to Station calls may be dialed direct, or completed with the assistance of a Telephone Company operator. If the customer utilizes an operator, there are three levels of Operator Assistance service. They are:

- a. Non-Automated: Non-automated service is where the person originating the call dials zero or a special access number (e.g., an 800/888 number), and the operator dials the number and collects billing information for completion of the call. Non-automated service includes service that is not fully automated or semi-automated. When an operator re-establishes a non-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.
- b. Semi-Automated: Semi-automated service is where the person originating the call dials zero or a special access number (e.g., an 800/888 number), (or 1+ calls from pay telephones), then dials the desired telephone number, and the operator collects billing information for completion of the call. When an operator re-establishes a semi-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.
- c. Fully Automated: Fully automated service applies to calling card calls where the person originating the call dials zero, then dials the desired telephone number, and then dials the calling card number and the call is completed without the assistance of an operator. This service also includes the situations described under "Dial Station-to-Station" in 1.4.2 B. 1. above.

1.4.2 Station-to-Station Service-(Continued)

DEC 7 1981

- (CT) B. Three classes of Station-to-Station services are offered as follows:-(Continued)

MISSOURI Public Service Commission

"Dial Credit Card Station-to-Station" is that Station-to-Station service where the person originating the call, including from a public or semi-public telephone, dials zero, then the telephone number desired and the call is completed either with or without the assistance of a Telephone Company operator and is billed, where automatic billing equipment is available, to a Telephone Company credit card or Special Billing Number, except: when an operator records the Telephone Company credit card or Special Billing Number where no automatic recording equipment is available; when a Telephone Company operator reaches the called telephone number and records the Telephone Company credit card or Special Billing Number where facilities are not available for dial completion; when a Telephone Company operator places a credit card or Special Billing Number call for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap; and when a Telephone Company operator re-establishes a dial credit card or dial Special Billing Number call which has been interrupted after the called number has been reached. This class of service involves no other operator services except those necessary to complete the above described call.

"Operator Station-to-Station" is that Station-to-Station service other than Dial Station-to-Station and Dial Credit Card Station-to-Station. Operator Station-to-Station includes Station-to-Station service originating at a public or semi-public coin telephone, except for those public or semi-public telephone calls that are Dial Credit Card Station-to-Station as described above.

1.4.3 Person-to-Person Service

- A. Person-to-Person service is that service where the person originating the call specifies to the Telephone Company operator a particular person to be reached, a particular mobile station to be reached through a Miscellaneous Common Carrier attendant or a particular station, department or office to be reached through a private branch exchange attendant.

1.4.3 Person-to-Person Service

A. Person-to-Person service is that service where the person originating the call specifies to the Telephone Company operator a particular person to be reached, a particular mobile station to be reached through a Miscellaneous Common Carrier attendant, or a particular station, department or office to be reached through a private branch exchange attendant.

B. When, after the telephone, Miscellaneous Common Carrier mobile radio system, or private branch exchange system called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person or mobile unit to be reached through a Miscellaneous Common Carrier attendant, or to any other station, department or office to be reached through a private branch exchange attendant, the classification of the call remains Person-to-Person.

C. When the person originating the call wishes arrangements made in advance with a particular party on station for the establishment of a connection at a specified time (appointment call), the call is classified as Person-to-Person.

FILED
JUN 1 1973
Public Service Commission

D. The Telephone Company does not undertake in connection with Person-to-Person service to bring to a telephone a called person who cannot be reached at a telephone in the Bell System. However, at the request of the calling party, the Telephone Company, when possible, will arrange on behalf of the calling party, for messenger service; that is a messenger or other means to notify the called party of the call. The Telephone Company shall be reimbursed

1.4.3 Person-to-Person Service

- A. Person-to-Person Service is that service where the person originating the call specifies to the Telephone Company operator a particular person to be reached, a particular mobile service point to be reached through a Mobile Telephone Service attendant, or a particular service point, department or office to be reached through a private branch exchange attendant.
- B. There are two levels of Person-to-Person service. They are:
- 1) Non-Automated: Non-automated service is where the person originating the call dials zero, or a special access number (e.g., an 800/888 number), and the operator dials the number and collects necessary information for completion of the call. Non-automated service includes service that is not semi-automated. When an operator re-establishes a non-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.
 - 2) Semi-Automated: Semi-automated service is where the person originating the call dials zero, or a special access number (e.g., an 800/888 number), then dials the desired telephone number, and the operator collects necessary information for completion of the call. When an operator re-establishes a semi-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply. Semi-automated service also includes the situation when an operator places a call for a party who identifies himself as being disabled and unable to dial the call because of his disability.

1.4.3 Person-to-Person Service

A. Person-to-Person Service is that service where the person originating the call specifies to the Telephone Company operator a particular person to be reached, a particular mobile service point to be reached through a Mobile Telephone Service attendant, or a particular service point, department or office to be reached through a private branch exchange attendant.

B. There are two levels of Person-to-Person service. They are:

(AT) 1) Non-Automated: Non-automated service is where the person originating the call dials zero, or a special access number (e.g., an 800/888 number), and the operator dials the number and collects necessary information for completion of the call. Non-automated service includes service that is not semi-automated. When an operator re-establishes a non-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.

(AT) 2) Semi-Automated: Semi-automated service is where the person originating the call dials zero, or a special access number (e.g., an 800/888 number), then dials the desired telephone number, and the operator collects necessary information for completion of the call. When an operator re-establishes a semi-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply. Semi-automated service also includes the situation when an operator places a call for a party who identifies himself as being disabled and unable to dial the call because of his disability.

1.4 TWO-POINT SERVICE-(Continued)

1.4.2 Station-to-Station Service-(Continued)

MISSOURI Public Service Commission

(CT) B. Six classes of Station-to-Station services are offered as follows:- (Continued)

4. Fully-Automated Station-to-Station

"Fully-Automated Station-to-Station" is that station-to-station service, other than Fully-Automated Calling Card Station-to-Station, where the person originating the call, dials zero, then the telephone number desired, then service selection codes and/or billing information as instructed by automated billing equipment, and the call is completed without the assistance of a Telephone Company operator. The Fully-Automated Station-to-Station rate also applies in the following situations: when a Telephone Company operator reaches the called number and records the billing information where service components are not available for dial completion; when a Telephone Company operator records the billing information when automated billing equipment is not available; when a Telephone Company operator places a call which is neither Sent-Paid nor billed to a calling card for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap. This class of service involves no operator services except those necessary to complete the above described calls. When a Telephone Company operator re-establishes a fully-automated station-to-station call which has been interrupted due to a problem on the network after the called number has been reached no additional operator service charge shall apply.

5. Semi-Automated Station-to-Station

"Semi-Automated Station-to-Station" is that station-to-station service, other than Semi-Automated Calling Card Station-to-Station, where the person originating the call, dials zero, then the telephone number desired, and the call is completed with the assistance of a Telephone Company operator. Semi-Automated Station-to-Station includes that station-to-station service where the person originating the call does not dial the zero prior to dialing the number desired from a public or semi-public telephone or from a telephone where the call is routed directly to a Telephone Company operator, and the call is not billed to a telecommunications company calling card. When a Telephone Company operator re-establishes a semi-automated station-to-station call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.

JUN 4 1975 Case # 17, 898

Public Service Commission

Issued: May 30, 1975

Effective: June 4, 1975

BY R. R. SHOCKLEY, Vice President-Missouri Southwestern Bell Telephone Company St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

Long Distance Message Telecommunications Service Tariff Original Sheet 19.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED
APR 26 1973
MISSOURI
Public Service Commission

1.4 TWO-POINT SERVICE-(Continued)

1.4.3 Person-to-Person Service-(Continued)

D. (Continued)

by the calling party for the amount expended for such messenger service, such charges being subject to prior authorization by the calling party to the extent that they can be determined in advance. Such charges for messenger service are in addition to the tariff charges for the message.

1.4.4 Reversal of Charges (Collect Calls)

Charges (including messenger charges) for all classes of telephone calls, except calls to which Dial Station-to-Station rates apply, may, upon request, be reversed, that is, charged against the called telephone, provided the charges are acceptable at the called telephone.

The regularly established Operation Station-to-Station and Person-to-Person rates (including messenger charges, if any) apply.

CANCELLED

JUN 4 1975

1.4.5 Time of Day

The time when connection is established in 1.4.6 following, determined in accordance with Missouri time-standard or daylight saving - legally or commonly in use at the location of the rate center of the calling station, determines whether Day, Evening, Night, Weekend or All Days-All Hours rates apply. This rule applies whether the call is sent paid or collect.

BY 1st R. S. 19
PUBLIC SERVICE COMMISSION

In cases where a message begins in one rate period and ends in another, the rate in effect at the time the connection is established applies.

FILED
JUN 1 1973
Public Service Commission

1.4.6 Initial and Additional Periods

A. Message toll rates are quoted in terms of initial and additional periods.

1. The initial period is the interval of time allowed at the rate quoted for a Long Distance connection between given points. Initial period rates are shown in 1.4.8A and 1.4.8B following.

Issued: MAY 1 1973

Effective: JUN 1 1973

BY R. R. SHOCKLEY, Vice President, Missouri-Illinois Southwestern Bell Telephone Company St. Louis, Missouri

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

1.4.6 Rates

Service Commission

A. Usage - All Classes of Service

- (CT) 1. Initial Period rates indicated in the Rate Tables in 1.4.7, following, are for connections of one minute or any fraction thereof.
- (CT) 2. All additional minute rates indicated in the Rate Tables in 1.4.7, following, are for each additional minute or any fraction thereof that the connection continues beyond the initial period.
- 3. When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.
- (RT) 4. Evening, night and weekend reduced rates are applied to message connection established during the periods indicated in 1.4.1, preceding.
- (RT) 5. When application of the rates indicated in the Rate Tables in 1.4.7, following, results in a fractional charge, the amount will be rounded to the nearest cent.

B. Operator Service Charges

- (RT) 1. The rates in following, will apply on Station-to-Station and Person-to-Person service in addition to the rates specified in 1.4.6.A., preceding. Only one service charge per call will apply.

1.4.6 Rates

**MISSOURI
Public Service Commission**

A. Usage - All Classes of Service

1. Initial Period rates indicated in the Rate Table in 1.4.8, following, are for connections of one minute or any fraction thereof.
2. All additional minute rates indicated in the Rate Table in 1.4.8, following, are for each additional minute or any fraction thereof that the connection continues beyond the initial period.
3. When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.
4. Discounts for the evening, night and weekend reduced rate periods indicated in the Table in 1.4.1, preceding, are expressed as a percent reduction of the charge calculated at the rates indicated in the table in 1.4.8 and are applied to message connection established during the periods indicated in 1.4.1, preceding.
5. Discounts apply to the charge for the initial minute occurring within the discount rate period and to all additional minutes occurring within each discount rate period. The discount is computed separately for charges in each rate period and the results are then totaled. When application of the discount results in a fractional charge, the amount will be rounded to the nearest cent.

B. Operator Service Charges

1. The rates in following, will apply on Station-to-Station and Person-to-Person service in addition to the rates specified in 1.4.6, A., preceding, and in 1.12.3. Discounts, as specified in 1.4.1, A., do not apply to operator service charges. Only one service charge per call will apply.

1.4 TWO-POINT SERVICE-(Continued)

1.4.6 Initial and Additional Periods-(Continued)

A. Message toll rates are quoted in terms of initial and additional periods.-(Continued)

1. (Continued)

All initial period rates are for telephone connections of three minutes or any fraction thereof, except as indicated in the rate tables in 1.4.8 following for Night Dial Station-to-Station calls.

- 2. The additional period is the unit of time used for measuring and charging for time in excess of the initial period. Additional period rates are shown in 1.4.8A and 1.4.8B following.

All additional period rates are for each additional minute or any fraction thereof that the telephone connection continues beyond the initial period.

B. Timing of Messages

- 1. On Dial Station-to-Station or Operator Station-to-Station calls, chargeable time begins when connection is established between the calling telephone and the called telephone, Miscellaneous Common Carrier mobile telephone system or private branch exchange system.
- 2. On Person-to-Person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
- 3. Chargeable time ends when the connection is terminated at any point.
- 4. Chargeable time does not include time lost because of faults or defects in service.

1.4 TWO-POINT SERVICE-(Continued)

1.4.6 Rates-(Continued)

B. Service Charges-(Continued)

- (MT) 3. Operator Station-to-Station - For operator station-to-station calls or calls to a Special Billing number, a charge of \$1.05 per call applies.
- 4. Person-to-Person - For person-to-person calls, a charge of \$2.40 per call applies.

C. Timing of Messages

- (CT) 1. On Dial Station-to-Station, Dial Calling Card Station-to-Station or Operator Station-to-Station calls, chargeable time begins when connection is established between the calling telephone and the called telephone, mobile telephone system or other customer premises equipment.
- (CT) 2. On Person-to-Person messages, chargeable time begins when connection is established between the calling person and the particular person or service point specified or an agreed-upon alternate.
- (CT) 3. Chargeable time ends when the calling service point "hangs up" thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
- 4. Chargeable time does not include time lost because of faults or defects in service.
- 5. When exchange telephone service used for Long Distance Message Telecommunications Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communication's system, chargeable time for all classes of calls begins when a call from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

B. Service Charges-(Continued)

4. Person-to-Person - For person-to-person calls, a charge of \$2.40 per call applies.

C. Timing of Messages

(CT)

1. On Dial Station-to-Station, Dial Credit Card Station-to-Station or Operator Station-to-Station calls, chargeable time begins when connection is established between the calling telephone and the called telephone, Miscellaneous Common Carrier mobile telephone system or private branch exchange system.
2. On Person-to-Person messages, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
3. Chargeable time ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
4. Chargeable time does not include time lost because of faults or defects in service.
5. When exchange telephone service used for Long Distance Message Telecommunications Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communication's system, chargeable time for all classes of calls begins when a call from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection to the exchange telephone service so that chargeable time may be avoided.

1.4.9 Message Telecommunications Service Promotional Offerings

- A. During a period beginning June 11, 1999 and ending February 29, 2000, Southwestern Bell Telephone Company will offer the following promotional benefits to business customers:
1. \$5.00 & Fifteen Promotion: Customers who enroll in this promotion will be charged a monthly recurring fee of \$5.00 per month, for which the customer will receive 30 minutes of intraLATA toll calling, with each additional minute thereafter rated at \$.15 per minute. Customers will continue to receive the benefits of this promotion for twelve (12) consecutive months from the date of enrollment, as long as Southwestern Bell Telephone Company is the selected carrier.
 2. \$9.60 & Twelve Promotion: Customers who enroll in this promotion will be charged a monthly recurring fee of \$9.60 per month, for which the customer will receive 80 minutes of intraLATA toll calling, with each additional minute thereafter rated at \$.12 per minute.
 3. \$15.00 & Dime Promotion: Customers who enroll in this promotion will be charged a monthly recurring fee of \$15.00 per month, for which the customer will receive 150 minutes of intraLATA toll calling, with each additional minute thereafter rated at \$.10 per minute.
 4. To qualify for benefits under the \$9.60 & Twelve and \$15.00 & Dime promotions, a customer must agree to and maintain a twelve (12) consecutive month subscription to the selected promotion. Customers will continue to receive the benefits for twelve (12) consecutive months from the date of enrollment, as long as Southwestern Bell Telephone Company is the selected carrier.
 5. If a customer enrolled in the \$9.60 & Twelve or the \$15 & Dime promotion changes service from this discounted rate prior to the expiration of the 12 month subscription period, the customer shall pay a termination charge equal to the difference between the total rates and charges actually paid for the completed months of the service term at the time of termination and the total rates and charges the customer would have paid had the customer been a non-discounted Message Telecommunications Service customer during the same period.
 6. Customers may select only one plan per Billed Telephone Number. All terms and conditions, including but not limited to the 12 month subscription, will continue to apply if the service is moved, the billed telephone number changes, or the bill name changes, as long as Southwestern Bell Telephone Company is the intraLATA carrier.
 7. Customers may not simultaneously participate in other Message Telecommunications Service promotions unless otherwise specified in this tariff or other applicable Southwestern Bell Telephone Company agreements.
 8. All other services are available at the rates provided in the tariff. All other terms and conditions remain unchanged.

- a. This promotion is available to customers wishing to establish Southwestern Bell as their intraLATA toll provider and must agree to a twelve (12) month term with Southwestern Bell Telephone Company.
- b. This offer may not be combined with any other Optional Calling Plan on the same line.
- c. Upon expiration of the 12-month term the customer will have the opportunity to select another optional calling plan or the rates will revert to the "standard" intraLATA toll rate schedule.
- d. If the customer terminates the plan prior to expiration of the 12-month term, the customer will be billed a lump sum termination charge of \$25.00.
- e. The first minute is billed in an increment of eighteen (18) seconds and additional minutes are billed in increments of six (6) seconds or fraction thereof.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.5 CONFERENCE SERVICE

1.5.1 Definition

- (CP) Long Distance Message Telecommunications IntraLATA Conference Service is the furnishing of simultaneous connection between three or more Exchange Access Arrangements within the same LATA. Local Conference Service is furnished in accordance with the Conference Telephone Service - Local Section of the General Exchange Tariff.

1.5.2 Conditions Under Which Service is Furnished

- (CT) A. Service is furnished where and to the extent that service components permit.
- B. The connections will be established on either a person-to-person or station-to-station basis.
- C. The Telephone Company will, upon request, attempt to establish the connections at a specified time.
- D. Charges for Conference Service may be reversed provided that the total charge is billed against one called Exchange Access Arrangement and that the charge is accepted by the designated Exchange Access Arrangement.

1.5.3 Timing of Messages

- A. The chargeable duration of the message is the elapsed time between the start of conversation, with all points on the conference connection and the time at which the disconnect signal is received from the originating Exchange Access Arrangement, except as provided in 1.5.3, B., following.
- B. When the originating customer requests that one or more Exchange Access Arrangements be added to or disconnected from a conference call on which conversation is in progress, that call is considered terminated and a new call is considered initiated to the revised group of Exchange Access Arrangements.
- C. Chargeable time does not include time lost because of faults or defects in the service.

Issued: December 29, 1983

Effective: January 1, 1984

No supplement to this tariff will be issued except for the purpose of canceling this tariff.
