SECTION II - RULES AND REGULATIONS (Continued)19. Subscriber's Compliance with Regulations

19.1 Company states in all subscribing contracts and agreements that Purchaser (subscriber) and its employees, brokers, agents, assigns, and successors shall at all times comply with and conform to all federal, state, and local rules and regulations including, but not limited to, rates, posting guidelines, and alternate carrier access, which are at any time applicable to any of the telecommunications services provided by Company to Purchaser. The failure of Purchaser to comply with and observe any rule or regulation or other regulatory requirement applicable to the telecommunication services to be provided by Company to Purchaser shall constitute a default under the Agreement. In the event that the Purchaser fails to remedy such a default after receiving written notice of such default from Company or, in the event that such default cannot be reasonably corrected, does not proceed expeditiously and with due diligence to correct said default, Company may, at its option, terminate Agreement. Purchaser shall indemnify, defend, and hold Company harmless of and from any and all claims, liabilities, fines, penalties, or other costs and expenses incurred or paid Company by reason of Purchaser's failure to comply with any applicable rule, regulation, or other regulatory requirement applicable to the telecommunication services purchased by Purchaser from Company.

SECTION II RULES AND REGULATIONS (Continued)

MO. PUBLIC SERVICE COM. 1

**20. Payment and Billing**

20.1 The customer is responsible for payment of all tariffed rates and regulations in effect at the time the service is furnished. Usage charges are billed at the end of each Customer's monthly billing cycle. Any other charges are billed monthly in advance. All charges are due when the bill is rendered. Residential customers may be permitted to pay all charges through automatic debits to a pre-approved credit card account

20.2 Company reserves the right to validate worthiness of users through available credit card, calling card, called number, third party telephone number and room number verification procedures. Where a requested billing method cannot be validated, the user may be required to provide an acceptable alternate billing method or Company may refuse to place the call.

20.3 When billing functions on behalf of Company are performed by local exchange telephone companies, credit card companies or others, the payment of charge conditions and regulations of such companies apply, including any applicable interest and/or late payment charge conditions.

20.4 Customers may receive credit adjustments up to an allowable amount for contested charges by contacting the billing agency whose number is shown on the customer's bill. Adjustments exceeding these allowances, if any, will be authorized after appropriate investigation. Credit card companies will credit the contested amount(s) and notify the Company for investigation and rebilling if appropriate.

20.5 The following call types are at no charge to the customer:

Incomplete calls.

3. Calculation of Charges and Distance

- 3.1 Usage charges are based on the actual usage of Company's Network.
- 3.2 Charges for Company's service(s) are based on the distance and duration of the call, monthly usage, and the rate period (Day, Evening, Night) when the call is placed.
- 3.3 Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. For the purpose of determining airline mileage, vertical and horizontal grid lines have been established across the United States and Canada. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each local exchange company primary serving office and serving office from its latitude and longitude location by use of appropriate map-projection equations. A pair of V-H coordinates locates a primary serving office or serving office for determining airline mileage, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two primary serving offices or serving offices is the airline mileage computed as follows:

$$\text{FORMULA: } \frac{\sqrt{(V_1 - V_2)^2 + (H_1 - H_2)^2}}{10}$$
