SERVICE CONNECTION CHARGES

(T)

A. General

The term "Service Connection Charges" is used to define the non-refundable charges made for the establishment of a class of telephone service or subsequent additions, moves, or changes to that service.

Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.

Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing subscribers or for Departments, Administrations, and Agencies of the Federal, State, County, Township, or Municipal Governments.

B. Multi Element Charge Plan

Elements Covered:

1. SERVICE ORDER CHARGE
Covers all work associated with creation and processing of service order, including initial interview with subscriber, work done as to application for service and other permanent records, typing service orders, distribution of service order copies and completion of all other records originating from service orders.
2. CENTRAL OFFICE ACCESS CHARGE
