TARIFF FORMAT

Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially and from time to time new pages may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Page Nos. 3 and 4 would be numbered 3.1.

Explanation of Symbols - When changes are made in any tariff leaf, a revised page will be issued canceling the tariff page affected. Changes will be identified on the revised page(s) through the use of the following symbols:

- (C) - to signify changed regulation.
- (D) - to signify discontinued rate, regulation, or text.
- (I) - to signify increased rates.
- (M) - to signify material relocated from one page to another without change.
- (N) - to signify new rate, regulation, or text.
- (R) - to signify reduced rate.
- (S) - to signify reissued material.
- (T) - to signify a change in text, but no change in rate or regulation.
- (Z) - to signify a correction.

In addition to symbols for changes, each changed provision in the tariff shall contain a vertical line in the right hand margin of the page which clearly shows the exact number of lines being changed.

"0" - Dial zero and wait for the Operator.

Answer Supervision - also known as "Hard Answer Supervision." An electrical signal fed back up the line by the local telephone company at the distant end of a long distance call to indicate positively that the call has been answered by the called telephone. Activates the billing equipment to start timing calls completed over FGB or FGD access trunks at the distant end. Some LECs do not support this type of answer supervision. See "Soft Answer Supervision."

Authorization Code - A number, usually seven or fourteen digits, entered using a tone telephone to identify the caller as a Customer of the long distance service. Used primarily to verify the caller as a Customer and to bill calls.

Authorized User - The term "Authorized User" denotes a person, firm, or corporation, who is authorized by the customer/subscriber to utilize the services of the customer/subscriber.

Band - Refers to mileage or other distance measurement ranges over which various rates are charged.

Calling Card - A billing convenience whereby the Customer may originate calls from any tone telephone. The Customer dials an 800 number and an authorization code followed by the terminating telephone number. In cases of LEC billing, the terms and conditions of the local telephone company will apply to payment arrangements.

Carrier - The underlying carrier that provides switches, lines, networks, operator assistance, and directory assistance as specified in this Tariff.

Collect Call - Denotes a billing arrangement by which the charge for a message may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third party number.

Customer/Subscriber - The person firm, corporation or other entity which orders service, either for its own use, as a resale carrier, or as a non-profit manager of a sharing group, and which is responsible for the payment of charges and for compliance with USRC Tariff regulations. The term also describes the person, firm, partnership, corporation, or other entity who designates the Carrier as its primary interexchange carrier (PIC) for LDMTS. Thus, the Customer/Subscriber has a pre-existing business arrangement with the Carrier. A Customer is responsible for the payment of all charges for service used and for compliance with USRC Tariff regulations. For billing purposes, a Customer is considered to be an account. For 800 services, the Customer is the person, firm, corporation or other entity that selects or is directed to select USRC as the Responsible Organization (RespOrg) for an 800 number. For purposes of SMS RespOrg Changes, the Customer is the person, firm, corporation or other entity that submits the change request.

Customer-Dialed Calling Card Station - That service in which the charges for the message are billed to an authorized calling card. These messages are completed without operator assistance unless it is necessary for an operator to record the card number. Calling card rates apply when calls are originated as specified below:

* **Customer Dialed/Automated** - The Customer dials the telephone number desired and completes the call without the assistance of an operator and the call is billed to a calling card or

* **Customer Dialed and Operator Assisted** - The Customer dials the telephone number desired and operator assistance is limited to recording the calling card number for billing purposes, or

Customer Dialed and Operator Must Assist - The Customer dials an operator or the desired telephone number, the local exchange operator services equipment capability precludes the Customer from completing the call without the assistance of an operator of the underlying carrier, and the call is billed to the Customer's calling card.

Day - From 8:00 a.m. up to, but not including, 5:00 p.m. local time Monday through Friday.

1.1 Definitions of Terms (Continued)

Dedicated Access Line (DAL)- A private line directly connecting the subscriber with USRC's switching facilities.

Dedicated Access Services - The term shall be used herein to describe services that require Customers to be "directly connected" to USRC's switching facilities as opposed to originating at certain Feature Group facilities.

DNS: Distributed Network Services - AT&T product that allows resellers to purchase large volumes of services and receive discounts on all direct-dial domestic and international calls.

800 Service - Inward WATS service. Users dial a special interstate or intrastate "800" or "888" number and are connected to the customer's telephone at the Customer's expense. The "888" service will provide expanded 800 toll-free offerings. Hereinafter, "800" service is used to refer to "800" or "888" service.

Equal Access - The ability to choose a long distance company to be the primary carrier for One Plus long distance calls.

Evening - From 5:00 p.m. up to, but not including, 11:00 p.m. local time Sunday through Friday.

Interexchange Carrier (IXC) - A long distance company that carries calls between LATAs or telephone exchanges within LATAs, where permitted.

InterLATA - Calls or circuits between different Local Access and Transport Areas.

Interstate - Calls or circuits between different states, or originating in one state and terminating in another state, (i.e., 48 contiguous United States, Alaska, Hawaii, District of Columbia, Puerto Rico, and the U.S. Virgin Islands).

IntraLATA - Calls or circuits totally within the same Local Access and Transport Area.

1.1 Definitions of Terms (Continued)

Local Access and Transport Area (LATA) - LATAs represent the area within which local telephone companies may provide telephone service. IntraLATA calls can be either local or long distance.

Local Exchange Carrier (LEC) - A local telephone company, either one of the Bell Operating Companies or one of the 1400+ independent local telephone companies.

Location - The term "location" describes a physical premise to or from which USRC provides services. In instances where a Customer obtains services from USRC at multiple locations, each of these locations will be designated as "Associated" locations.

Long Distance Message Telecommunications Service (MTS) - Regular telephone service comprised of Direct Distance Dial and Operator-Assisted calls. Basic long distance service.

Night/Weekend - From 11:00 p.m. up to, but not including, 8:00 a.m. local time Sunday through Friday, all day Saturday and Sunday from 8:00 a.m. up to, but not including, 5:00 p.m. local time.

Off-Hook - Occurs when telephone receiver is lifted from resting place, engaging, answering or otherwise activating circuit.

One Plus Services - a form of long distance service which is available in exchanges that have been converted to Equal Access (FGD) in which customers who have established accounts with USRC place their long distance calls by dialing the area code plus the phone number, or by dialing 1 plus the area code and phone number, or by dialing 10288 (or any other USRC carrier identification code) plus the area code and phone number of the intended party.

Operator Dialed Surcharge: A charge applied to Operator Station and Person-to-Person rated calls when the customer has the capability of dialing all the digits necessary to complete a call, but elects to dial the underlying carrier operator and requests that the operator dial the called station. The surcharge applies in addition to any applicable service charges.

The surcharge does not apply to:

- * Calls where a customer cannot otherwise complete the call, due to defective equipment or trouble on the Underlying Carrier's facilities.
- * Calls in which an Underlying Carrier operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap.
- * Calls for which an Underlying Carrier does not have the technical capability to impose the surcharge, such as certain coin sent paid, hotel/motel sent paid, and time and charges calls.
- * Calling Card calls.

Originating Location - The point from which the call was originated.

Pay Telephone - A telephone instrument equipped with a device that allows a charge to be made for each call.

Person-to-Person: That service where the person originating the message specifies to the Underlying Carrier's operator, a particular person, service point, department, or office to be reached through a PBX attendant.

- * When, after the service point or PBX called has been reached and while the connection remains established, the person originating the message requests or agrees to talk to any person other than the person specified, or to any other service point, department or office to be reached through a PBX attendant, the classification of the message remains Person-to-Person.
- * When the person originating the message wishes arrangements made in advance with a particular party of service point for the establishment of a connection at a specified time (appointment call) the message is classified as Person-to-Person.
- * The Company does not undertake, in connection with person to person service, to bring to a service point a called person who cannot be reached at a service point connected to the telecommunications network.

Point of Presence (POP) - The physical place within a LATA where the Carrier or the Carrier's underlying carrier interfaces with the telecommunications network of the local exchange company. The point at which the local exchange company terminates customers/subscribers circuits for long distance dial-up or leased line communications.

Premises - The term "Premises" describes a house building or houses and/or buildings on contiguous property (except railroad and pipeline rights-of-way, etc.)

Primary Interexchange Carrier (PIC) - The long distance company that a user, whose local exchange has converted to Equal Access, has pre-selected to be his/her long distance carrier.

Private Branch Exchange (PBX) - A private telephone system (switch) used by medium and large companies. Connected to the public telephone network and performs a variety of in-house routing and switching. User usually dials "9" to get outside the system of the local lines.

Rate Center - A geographic point from which the vertical and horizontal coordinates are used in calculation of airline mileage for the purposes of rating a call.

Real-Time-Rated - Real-Time-Rated rates apply to calls for which the Underlying Carrier furnishes time and/or charges.

Responsible Organization (RespOrg) - The entity responsible for managing and administering an 800 subscriber's records in the 800 Service Management System (SMS/800). The SMS/800 recognizes one RespOrg for each 800 number.

SDN: Software Defined Network - AT&T product that provides customized communications services for businesses and residences by using predetermined uniform dialing plans.

Service Management System (SMS) - The main administrative system of 800 data base information. The system maintains 800 number Customer service records and downloads service calls to service control points. This system is used by RespOrgs to assign and reserve 800 numbers.

Soft Answer Supervision - Call billing method which begins charging after a specified period of time. Only used in areas (LECs) which do not offer Hard Answer Supervision.

Special Promotional Offering - Special discounts or modifications of its regular service offerings which USRC may, from time to time, offer to its customers for a particular service. Such offerings may be limited to certain dates, times and locations.

Public Service Commission

Station-to-Station - That service where the person originating the message dials the phone number desired or gives to the Underlying Carrier's operator the telephone number of the desired service point, PBX or PBX service point, which is reached directly rather than through a PBX attendant, or gives only the name and address under which the number of the desired service point or PBX is listed and does not specify a particular person to be reached, nor a particular service point, department, or office to be reached through a PBX attendant.

Four classes of station-to-station services are offered as follows:

1. "Dial Station" rates apply when the person originating the message from a station other than a public or semi-public coin telephone dials the telephone number desired and the message is completed without the assistance of an operator, and the message is not billed to a number other than the originating telephone number except: when an operator records the originating telephone number where no automatic recording equipment is available; when an operator reaches the called telephone number where facilities are not available for dial completion; when an operator places a message for a calling party who identifies himself as being handicapped and unable to dial the message because of his handicap; and when an operator re-establishes a message when has been interrupted after the called number has been reached; then the Dial Station Rate shall apply.
2. "Customer Dialed Calling Card Station" rates apply when the person originating the message:
 - a. Dials the telephone number desired and completes the message without the assistance of an underlying carrier operator and the message billed to a Calling Card, or
 - b. Dials the telephone number desired and operator assistance is limited to recording the Calling Card number for billing purposes, or
 - c. Dials the operator and places the Calling Card station message when equipment capability precludes any of the foregoing.

3. "Operator Dialed Calling Card Station" rates apply when the customer dials the appropriate operator code (e.g., 00, or 10288,0) and requests that the operator complete the call by dialing the called telephone number and the calling card number to be used for billing purposes.
4. "Operator Station" rates apply when calls are completed with the assistance of an underlying carrier operator, except as specified for the Dial Station, Customer Dialed Calling Card Station, Operator Dialed Calling Card Station, Person-to-Person, and Real-Time-Rated classes of service. Operator Station rates apply to calls which are billed to a different telephone number (e.g., collect, billed to a third number) or a calling card.

Switching Equipment- equipment which establishes releases connections on a per call basis between stations, communication systems, and telecommunications systems.

Tandems - Those master LEC Central Offices (COs) which are designated as pooling or collection points for interLATA calls from their respective sub-tending or subordinate COs. Once collected, these interLATA calls are delivered to each of the subscribing IXCs through various types of Feature Group circuits (e.g., Feature Group "D") for call termination.

Telecommunications Network - the LDMTS and WATS network provided by the company.

Terminal Equipment - any telecommunications or communication equipment, other than a multi line terminating system, that connects to a LDMTS at a customer's premises.

Terminating Location - The terminating point of a call.

Terminal Offices - A switching center. Hereinafter referred to as a Central Office.

Underlying Carrier - The interexchange carrier(s) that provide(s) switches, network facilities, directory assistance and operator services.

2.13.1 Intentional Abuse of Service

USRC has the right to refuse telephone service to any premises and at any time to discontinue telephone service, if it finds it necessary to do so to protect itself against intentional abuse. Intentional abuse of service includes, without limiting the generality of the foregoing, the use of service or facilities of Carrier to transmit a message or to locate a person or otherwise to give or obtain information, without payment of a message toll charge of an exchange service charge.

Another form of such abuse is an intentional uninterrupted connection of one exchange station to another station, excluding those connections charged on an elapsed time basis, which permits the use of the facilities in a manner similar to private line service. It also includes intentional receiver off-hook conditions.

2.13.2 Disconnection of Service for Cause

- (A) Upon non-payment of any sum due Carrier or upon violation of any of the conditions governing the furnishing of service as provided in this tariff, Carrier may by notice in writing mailed to the Customer, without incurring any liability, temporarily discontinue the furnishing of service to the Customer. Telephone services may be discontinued seven (7) days after mailing notice of intention to discontinue service, and a service order charge will be made by Carrier for restoration of such Authorization Code and/or line. If Carrier elects to discontinue service, the Customer shall be responsible for all charges through the date of termination.
- (B) If any Customer-provided equipment is used with facilities provided by Carrier in violation of any law or any of the provisions in this tariff, Carrier will take such action as is necessary for the protection of its facilities or the service of its other Customers and other persons provided with telephone services. The Customer shall discontinue such use of the equipment or correct the violation immediately upon actual or constructive knowledge of a violation and shall confirm in writing to Carrier within five (5) calendar days that such use has ceased or that the violation has been corrected. Failure of the Customer to discontinue such use or correct the violation and to give the required written confirmation to Carrier within the time stated above shall result in interruption of the service of the Customer creating the violation.

3.1.1 Introduction

The Carrier endeavors to provide high quality service. Service is available twenty-four (24) hours per day, seven (7) days a week, subject to routine maintenance and outages beyond the control of the Carrier. Carrier's switching equipment is designed and engineered to provide high quality transmission of voice and data with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of the connections provided by the local telephone companies and other interexchange carriers.

3.1.2 Timing of Calls

- (A) Long distance usage charges are based on the actual conversation time transpiring on USRC's network. No charge will generally apply to uncompleted calls, which include "ring busy" and "ring no answer calls," and such uncompleted calls will not be knowingly charged to the Customer and, if charged in error, will be refundable to the Customer.

In the event that the Customer fails to hang up when receiving a busy signal or "ring no answer call" for an excessive period of time, however, the Customer may be charged as if the call were completed. USRC will determine that a call has been established by signal, where available, from the local telephone company or underlying carrier.

- (B) Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one (1) minute for a connected call.
- (C) Unless otherwise specified in this tariff, usage is measured and rounded to the higher full minute for billing purposes.
- (D) When answer supervision is unavailable and USRC has received a reasonable claim from the Customer for a refund of USRC's charges for an uncompleted call, USRC will reimburse the Customer for the charges that USRC has billed for that call.

3.1.5 Special Promotions

The Carrier may from time to time engage in special promotional service offerings which may be limited to certain dates, times and/or locations. These promotions are designed to attract new customers and/or increase customer awareness of particular service offerings. Customers must subscribe to specific promotions within the given time period as stated in the promotional offer. Any ANI disconnected and then reconnected from USRC's service for purposes of subscribing to the special promotion may not be eligible. After the initial subscription to a promotion, if no outbound usage is generated by an ANI within the specified time period as stated in the promotional offering, the customer may not receive benefits from the promotion. The promotions may contain special terms and conditions, including but not limited to, usage rates and charges. Such special terms and conditions will be in lieu of those terms, conditions, rates and charges outlined in Sections 3 and 4 of this Tariff. OCT 8 1 1996

A. Usage Rates**MISSOURI
Public Service Commission**

Charges for conference calls are the sum of leg usage rates, bridge port usage rates and operator set-up, as specified. The charge for conversion time will consist of the total minutes of conversion multiplied by the conference leg usage rate plus the bridge port usage rate.

The Conference Leg Usage Rate is defined as the charge for usage between a bridge port and a station. The Bridge Port Usage Rate is defined as the charge for bridge port usage.

B. Chargeable Time

Chargeable time starts when the requested participants are connected and ends on an individual (bridge/station) connection when that station hangs up. Chargeable time for station/port additions to a conference call in progress starts when parties are connected by an operator.
