SCHEDULE OF SERVICE CHARGES

(1) A Contribution in Aid of Construction (CIAC) charge shall be assessed to each Customer requesting a new sewer service connection in the area previously served by Maplewood Service Company.

Residential CIAC Charge:

Single Family Housing Unit- \$300.00 per unit served.

Multi-Family Housing Unit and Mobile Homes within Mobile Home Parks- \$240.00 per unit served.

Commercial CIAC Charge:

The CIAC charge shall be as enumerated for the uses listed below. If a facility is constructed which is not enumerated in the uses listed below, the charge shall be one (1.00) dollar per gallon, times the daily design waste discharge.

CIAC CHARGE*

- Boarding houses, person.....\$ 50
- Boarding schools, student.....\$100
- Country clubs, member.....\$ 30
- Day Schools, student.....\$ 20
- Grocery store, 100 sq. ft. of area....\$100
- Hospitals, bed.....\$200

SCHEDULE OF SERVICE CHARGES (continued)

- Hotels, room..... \$ 75
- Laundromats, machine..... \$250
- Motels, room..... \$ 75
- Nursing homes, resident..... \$ 90
- Restaurants - paper service..... \$800
- Restaurants - full service, seat..... \$ 40
- Swimming pools, per 15 sq. ft. of pool area..... \$ 10
- Service station..... \$500
- Taverns, bars, and cocktail lounges seating capacity..... \$ 5

* Garbage grinders \$1,500 additional

The CIAC charge shall be based upon the ultimate waste discharge design capacity of a Customer's facility. If modifications are made or additional facilities are constructed beyond the original ultimate design, an additional charge shall be due based upon the amount of the increase in discharge capacity. In no event shall any CIAC charge be less than \$300.00

- (2) An inspection fee of \$75.00 per service connection will be charged to each Customer making application for connection to the Company's sewer.
- (3) The Customer will be charged the actual cost of disconnection or reconnection of their service line to the Company's sewer. This cost may not exceed the maximum amount of \$400.00 for either disconnection or reconnection. The maximum cost for both activities may not exceed \$800.00.

Rule 1 DEFINITIONS

- (a) "ALTERNATIVE COLLECTION" is any wastewater collection other than conventional eight (8) inch diameter or larger gravity piping with manholes located at changes in direction, pipe size, and grade. Examples of alternative collection include but are not limited to septic tank effluent pump (STEP) without pretreatment (i.e., septic tanks), pressurized piping utilizing grinder pumps and vacuum sewers.
- (b) + An "APPLICANT" is a person, group of people, firm, corporation, governmental body, or other entity which has applied for sewer service from the Company through a sewer service connection or a sewer extension to one or more existing or proposed residential, commercial or industrial building occupied by or to be occupied by the requesting Party(ies). Two or more such entities may make one application for a sewer extension and be considered one APPLICANT.
- (c) An "APPLICATION FOR SERVICE" is a written request by a potential customer requesting sewer service. The application form will be prepared by and available from the Company.
- (d) * "APPURTENANCES" are valves, pumps, fittings, pipes, hoses, plumbing or metering devices connected to sewers, basins, tanks, storage vessels, treatment units and discharge or delivery structures, or used for transferring products of wastes.
- (e) * "AUTHORIZED REPRESENTATIVE" any designated and duly authorized person or persons appointed by the Company to perform the assigned functions.
- (f) "BASE WATER USAGE" shall be the Customer's water consumption corresponding to the Company's billing periods for the months of January, February and March.

- (r) A "DISCONNECTION CLEANOUT" or "ELDER VALVE" is a device consisting of a special tee and plunger, owned by the Company on the customer's service sewer, used to physically stop any flow through the service sewer. It may be used if it is known that any sewer service lateral may be disconnected in the event raw sewage may back up into the residence. It may also be used by the company if a property owned or a customer has a past due or delinquent account for services rendered by the Company. In addition, it may also be used by the Company if the owner or customer simply wishes temporary discontinuance by reason of the Owner/Customer vacating the building or unit served.
- (s) "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal house hold activities.
- (t) + A sewer system "EXTENSION" may refer to continuation of piping, expansion or an addition to the existing Company owned system, including manholes, cleanouts, appurtenances, lift stations, reconstruction of existing sewers including treatment facility or the construction of an entirely new wastewater collection system and or an entirely new wastewater treatment facility.
- (u) A "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.
- (v) "GRINDER PUMP STATION SYSTEM" is the pumps, related equipment, tanks, piping and appurtenances, which grinds and pumps sewage waste from an individual unit under pressure to collection lines. The system also contains level controls for interim storage of liquid waste and intermittent pump operation as a function of liquid level with appropriate malfunction alarms, control and valves to assure compatible operation with similar units.

REC'D DEC 03 2002

Rule 1 DEFINITIONS (continued)

- (n) A "DISCONNECTION CLEANOUT" or "ELDER VALVE" is a device consisting of a special tee and a plunger, owned by the Company on the Customer Service Sewer, used to physically stop any flow through the service sewer. It may be used if it is known that any sewer service lateral may be disconnected in the event raw sewage may back up into the residence. It may also be used by the Company if a property owned or a customer has a past due or delinquent account for serviced rendered by the Company. In addition, it may also be used by the Company if the owner or customer simply wishes temporary discontinuance by reason of the Owner/Customer vacating the building or unit served.
- (o) "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal house hold activities.
- (p) A sewer system "EXTENSION" may refer to continuation of piping or an addition to the existing Company owned system, reconstruction, or the construction of an entirely new wastewater collection/treatment system.
- (q) A "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.
- (r) "GRINDER PUMP STATION SYSTEM" is the pumps, related equipment, tankage, piping and appurtenances, which grinds and pumps sewage waste from an individual unit under pressure to collection lines. The system also contains level controls for interim storage of liquid waste and intermittent pump operation as a function of liquid level with appropriate malfunction alarms, controls and valves to assure compatible operation with similar units.
- (s) The term "INDUSTRIAL CUSTOMER" is a single entity utilizing any building, portion of a building, or combination of buildings in the same compound and whose primary use is for the manufacture, fabrication, and/or assembly of any product.

Rule 2 GENERAL

- (a) Every Customer, upon signing an application for service or accepting service rendered by the Company, shall be considered to have expressed consent to be bound by these rates, Rules and Regulations.
- (b) The Company's Rules and Regulations governing rendering of service are set forth in these numbered sheets. The rates applicable to appropriate class of service are set forth in rate schedules and constitute a part of these Rules and Regulations.
- (c) The Company reserves the right, subject to the authority of the Public Service Commission, to prescribe additional rates, Rules or Regulations or to alter existing rates, rules or regulations as it may deem necessary or proper.
- (d) At the effective date of these Rules and Regulations, all new facilities, construction contracts, and written agreements shall conform to these Rules and Regulations in accordance with the statutes of the State of Missouri and authority of the Public Service Commission. Preexisting facilities which do not conform with these rules may remain, if said facilities do not cause any service problems and reconstruction is impractical in the Company's judgement.

Rule 4 APPLICATIONS FOR SEWER SERVICE

(a) A written application for service, signed by the Customer and accompanied by the appropriate fees and other information required by these Rules and Regulations, must be received from each Customer before service is provided to any premises. Said applications must state the name of the owner of said premises and, in the case of a commercial or industrial Customer, must also state the quantity and contents of effluent to be discharged from said premises into Company's sewer system. Every Customer, upon signing an application for any service rendered by the Company or upon taking of service, shall be considered to have expressed consent to the Company's rates, Rules and Regulations. The Company shall have the right to refuse service for failure to comply with the Rules and Regulations herein, or if the Customer owes a past due bill not in dispute for sewer service at any location within the Company's area. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract specifying a reasonable period of time for the Company to provide the service. The Company shall notify the owner of property served and what the Company's billing rules are.

(b) A commercial or industrial Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached or otherwise

Rule 4 APPLICATIONS FOR SEWER SERVICE (continued)

- (f) New service connections shall be authorized when the service inspection fee is paid to the Company based on the Schedule of Service Charges.
- (g) When a service is to be connected the plumber employed by the Customer may obtain the connecting accessories either directly from the Company, or other supplier contingent on the accessories meeting the requirements of Rule 5. The plumber shall advise the Company a minimum of forty-eight (48) hours in advance of when he expects to have service installed so a representative of the Company can inspect the installation.
- (h) When sewer charges are based on water usage, the Company reserves the right to refuse sewer service to any applicant unless said applicant agrees to install a water meter accessible to the Company, so that there will be a basis for sewer charges.
- (i) For any commercial or industrial Customers whose sewer service charge is determined on the basis of water use, who uses in excess of 8,000 gallons of water per month, and can show to the satisfaction of the Company that a portion of the water as measured by the water meter or meters does not and cannot enter the sanitary sewerage system, the Company may determine in such manner and by such method as it may deem practicable the percentage of metered water entering the

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

- (a) The Customer will provide the service sewer at his expense and risk. As a condition of service, inside requirements of all governmental units having jurisdiction and the Company's Rules and Regulations must be met at the time of connection to the system. The Company may deny service or may discontinue service where footing drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.
- (b) A separate and independent Customer service sewer shall be required for every building, except in very unique circumstances where one building stands at the rear of another building on an interior lot where no private service sewer is available and cannot be constructed to the rear building through an adjoining alley, courtyard, driveway or easement; in that situation, with the Company's written consent the Customer's service sewer from the front building may be extended to the rear building. The sewer charge may be modified depending on the use and sewage contribution of the rear building.
- (c) Existing service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of this Rule.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER
(continued)

- (d) The Customer's service sewer shall be one of the following: cast iron soil pipe, ASTM specification or equal; PVC, ASTM specification or equal; or other suitable material approved by the Company. Joints shall be tight and waterproof. Any part of the Customer's service sewer that is located within ten (10) feet of a water service pipe shall be constructed of piping suitable for water main service. Similar piping may be required where the Customer service sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's service sewer shall be of cast iron soil pipe, but non-metallic material may be accepted if laid on a suitable bed or cradle as approved by the said Company.
- (e) The size and slope of the Customer's gravity service sewer shall be subject to the approval of the Company, but in no event shall the diameter of a gravity service sewer be less than four (4) inches. The slope of such four (4) inch pipe shall not be less than one-eighth (1/8) inch per foot.
- (f) Whenever possible the Customer's service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER
(continued)

The depth shall be sufficient to afford protection from frost. The Customer's service sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipes and fittings.

(g) In all buildings in which any building drain is too low to permit adequate gravity flow to the collecting sewer, sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used. Pumps and pressure piping as discussed in Rule 11 may be required. The cost for the installation of such equipment and the subsequent maintenance, operation and replacement shall be the responsibility of the Customer.

(h) All excavations required for the installation of a Customer's service sewer shall be open trench work unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published engineering specifications of the manufacturer of the materials used, these Rules, and all applicable local plumbing codes. No backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER (continued)

- (i) The connection of the Customer's service sewer into the collecting sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's collecting sewer is vitrified clay pipe of 12" diameter or less and there is no properly located "Y" branch at a suitable location, a "Y" branch shall be provided and installed by the Customer at a location specified by the Company. If the Company's collecting sewer is greater than 12" in diameter, Or is PVC or ABS truss pipe of any size, a neat hole may be cut at a location Specified by the Company, and a saddle provided and installed by the Customer to which the Customer's service sewer will be connected. The Invert of the Customer's service sewer at the point of connection shall be at The centerline or higher elevation than the Company's collecting sewer.
- (j) A Disconnection Cleanout or Elder Valve shall be installed by the Customer on all new Customer Service Sewers, or on existing Customer Service Sewer if a replacement or repair near the property line is necessary. A Disconnection Elder Valve shall be installed by the Company on Customer Service Sewer, if no such valve exists and if the Customer must be disconnected for any reason. This device is to be installed on the Company's side of the building property line on the specified entity's easement as prescribed by this regulation. For all residential construction the service line and Disconnect Cleanout housing shall be of 4" PVC SDR-35 or Schedule 40 pipe. The Disconnect Cleanout housing as manufactured by Elder Valve, Inc. must be the expense of the Owner/Customer and can be obtained from the Company at their then current charge per valve.

Rule 9 BILLS FOR SERVICE (continued)

- (k) The landlord or leaser shall be considered the Customer receiving sewer service for all rented or leased multi-family dwellings. The sewer service billing for each unit within the multi-family dwelling will be sent to the landlord or leaser who is then responsible for payment.
- (l) If a Customer is a tenant residing in a single family dwelling, the Company will require the owner of the property to be ultimately responsible for payment of bills for service, provided the Company has made reasonable and timely efforts to collect bills due from the Customer. All notices of delinquent bills or disconnection shall also be sent to the owner of the property.
- (m) In the event of an undercharge due to errors in bill calculation, estimation or taxation, an adjustment shall be made for the entire period that the undercharge can be shown to have existed not to exceed twelve (12) monthly billing periods. The customer may request to pay for this undercharge over a period of time not to exceed the number of months for which an adjustment was made. When there is evidence of tampering or diversion found, the Company will calculate the billing adjustment for the entire period during which the condition existed. *
- (n) As the result of the settlement in case SR-2008-0267 the Company shall not back-bill customers that are newly identified, i.e. customers that were on Aqua Missouri's system but were not receiving bills, at any time up to and including the conclusion date of the physical audit that will take place in the fourth quarter of 2008. *

RULE 9 BILLS FOR SERVICE (continued)

- (o) For customers whose bills are base on water usage, and where it is not feasible to obtain *
regular meter readings or when conditions beyond the control of the Company, such as *
weather conditions, emergencies, work stoppages, and the inability to gain access to the *
meter prevent obtaining an actual meter reading, an estimated reading will be used to *
compute an estimated bill for customer’s service. *
- (p) For customers whose bills are based on water usage, and when the Company is unable to *
obtain access to the customer’s premises for the purpose of reading the meter, or where the *
customer makes reading the meter unnecessarily difficult, an estimated reading will be used *
to compute an estimated bill for customer’s service. If the Company is unable to obtain an *
actual meter reading for these reasons, it will undertake reasonable alternatives to obtain a *
customer reading of the meter such as mailing or leaving postpaid, pre-addressed postcards *
upon which the customer may note the reading unless the customer requests otherwise. *
- (q) For customers whose bills are based on water usage, and when it is necessary to estimate the *
usage for a customer, the Company shall base its estimate on the usage of the average of up *
to two years of information for the same premise. In cases where no prior usage information *
is available or the prior usage is estimated, the Company will base its estimate upon the average *
usage of similar customers. *
- (r) Estimated bills shall not be rendered as a customer’s initial or final bill for service unless *
conditions beyond the control of the Company prevent an actual reading. *
- (s) If the Company underestimates a customer’s usage, the customer shall be given the *
opportunity, if requested, to make payments in installments. *

Rule 10 SPECIAL CONTRACT FOR EXCESS CAPACITY

(a) In the event that the Customer to be served proposes to discharge into Company's system an abnormally high volume or strength of waste as to require an enlargement of Company's existing sewage treatment plant, and/or the construction or reconstruction of sewer lines, service shall be provided to such Customer under the terms and conditions of mutually satisfactory contract, in form approved by the Missouri Public Service Commission, pursuant to which the cost of such improvements will be financed in such a manner as to be fair and reasonable to both parties and so as not to constitute a burden upon the Company or the existing Customers of the Company.

(b) In the event the Customer's waste discharge to the Company's collecting sewer is of higher organic strength than 400 mg/l BOD, a surcharge may be applied. This surcharge will be determined on a case by case basis and will be directly equivalent to the cost of treating the excess strength waste. Such strength will be determined by a 24-hour composite sampling of the Customer's waste, on a quarterly basis.

ALTERNATIVE COLLECTION SYSTEM

(a) General

Any applicable rate schedules as incorporated in these Rules and Regulations and rules not applying specifically to gravity sewers are hereby incorporated by reference and shall be applicable to Customers served by alternative collection systems.

(b) Pressure Collection Piping

These Rules apply specifically to those Customers served by pressure collection piping. Such collection piping may be associated with either a STEP, Grinder Pump System, or other pump system. It also applies to those Customers where the extent of pressure piping may be limited solely to the Customer's service sewer. After the effective date of this Rule, no new individual grinder pump units will be installed except those to be connected to a system, approved by the company, designed specifically for grinder pumps.

- (1) All components utilized in a pressurized system must be either purchased from the Company or meet the specifications approved by the Company which shall be on file at the Company's office.

Rule 12 Extension of Collecting Sewers, Expansion of Treatment Capacity, and Acquisition of Existing Sewer System

A. This Rule shall govern the extension of collecting sewers as requested by the Applicant(s) where there are no collecting sewers in existing streets and/or roadways, in areas of new development, expansions of existing developed area, expansion of treatment capacity in certain situations, and acquisitions of existing sewer systems.

B. For purposes of this rule, the following definitions shall apply:

(1) CIAC = Contribution in-aid-of Construction, when either plant assets or cash or both are contributed to the company by applicants for service or by developers.

(2) TpCIAC = Treatment plant facility Contribution-in-aid-of Construction, a one time charge for the customer's share of treatment facility capital investment. This amount is subject to change from time to time as approved by the Public Service Commission. The TpCIAC is as follows
\$5,000 per single family residence or duplex unit
\$4,000 per apartment unit or mobile home in a mobile home park

\$715 per 1,000 gallons per month actual average water use with discharge into the sewer for commercial customers, \$5,000 minimum. The TpCIAC will be estimated initially with a review and true-up after one year of actual water usage.

+ (3) TempCIAC = Temporary CIAC, an amount of capital that developers and certain individual customers fund for construction of a specific new treatment facility or expansion of an existing facility. This amount represents the Company's investment for customers before those customers are actually connected. The amount is the total cost of a new or expanded Treatment Facility, divided by the total equivalent customer units to be served by the Treatment Facility or expanded portion of an existing Treatment Facility, times the equivalent customer units not served, less any TpCIAC paid by the Applicant(s), and is subject to a refund for each customer that actually connects.

Rule 12 EXTENSION OF COLLECTING SEWERS AND
ACQUISITION OF EXISTING SEWER SYSTEM

(a) This Rule shall govern the extension of collecting sewers as requested by the Applicant(s) in areas where there are no collecting sewers in the streets and/or roadways. The Company will extend its collecting sewers along streets, roadways or Company owned or public utility easement(s) within its certified area to serve new Customers under the following terms and conditions:

(1) Upon receipt of written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required (excluding income tax), including manholes, cleanouts, lift stations, reconstruction of existing sewers (if necessary), and the direct costs associated with supervision, engineering, permits, easements and bookkeeping.

(2) An Applicant(s) shall enter into a contract (see Exhibit A) with the Company for the installation of said extension and shall tender to the Company a contribution in-aid-of construction equal to the amount determined in (a)1, plus the appropriate inspection or connection fee(s).

Rule 12 Extension of Collecting Sewers, Expansion of Treatment Capacity, and Acquisition of Existing Sewer System (cont.)

C. The Company will extend its collecting sewers along streets, roadways or Company-owned or public utility easement(s), within its certificated area, to serve new Customers under the following terms and conditions. If an existing treatment facility is not available for new customers, or if the Applicant is a developer where there is no treatment facility or inadequate treatment capacity, then Rule 12D could also apply:

(1) Upon receipt of written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required including manholes, cleanouts, lift stations, reconstruction of existing sewers (if necessary), and the direct costs associated with supervision, engineering, permits, easements and bookkeeping.

(2) The pipe used in making extensions shall be of a type and size which will be adequate for the area to be served as determined according to sound engineering principles. If the area is to be served by conventional gravity piping, an 8-inch minimum diameter shall be required. Such determination as to size and type of pipe shall be left solely to the judgment of the Company. If the Company desires a pipe size, lift station, or treatment facility larger than required by sound engineering principles to provide service to the lots abutting said extension area, the additional cost due to the larger size shall be borne by the Company.

(3) The Applicant(s) shall enter into a contract (see Exhibit A) with the Company for the installation of said extension and shall tender to the Company CIAC equal to the amount determined in C(1), plus the applicable inspection and/or connection fee(s) and any applicable TpCIAC charge for each lot proposed by Applicant(s) to be served.

(4) If, as a result of reasonable unforeseen circumstances, the actual cost of the extension exceeds the estimated cost of the extension, the Applicant(s) shall pay the added cost.

ACQUISITION OF EXISTING SEWER SYSTEMS
(continued)

(3) If, as a result of reasonable unforeseen circumstances, the actual cost of the extension exceeds the estimated cost of the extension, the Applicant(s) shall pay the added cost.

(4) The cost to an Applicant or Applicants connecting to a sewer that was contributed by other Applicants shall be as follows:

(i) For single-family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing collecting sewers where service may be obtained shall be excluded.

(ii) For single-family residential Applicants that are applying for service in areas that are unplatted in subdivision lots, the Applicants' cost shall be equal to the total cost of the extension divided by the total length of the extension in feet times 100 feet.

+ (5) At the option of Applicant(s), and with the approval of the Company, Applicant(s) may enter into a contract with the Company (see Exhibit A) which provides that the Applicant(s) may undertake engineering planning and/or construction of said collecting sewers along with manholes, cleanouts and lift stations, to meet the requirements of all governmental agencies and the Company's Rules and Regulations, including the Company's Technical Specifications. The Applicant(s) shall tender to the Company the applicable inspection and/or connection fee(s) and the applicable TpCIAC charge for each lot proposed by Applicant(s) to be served. In addition,

(i) The Applicant(s) shall contribute said sewer collection system to the Company with a detailed accounting of the actual cost of construction.

(ii) The Company, or its representative, shall have the right to inspect and test the sewer extension prior to connecting it to the Company's existing collecting sewers, acceptance of ownership by the Company, and occupancy of customer premises connected to the extension.

(iii) Connection of the extension to Company's existing collecting sewers shall be made only by a duly authorized representative of the Company.

+ (iv) The Company shall have the right to refuse ownership and responsibility for the sewers until the applicant has met the contractual obligation as outlined in Exhibit A.

(6) The cost to an Applicant or Applicants directly connecting service sewers to a sewer that was contributed by other Applicants, in addition to applicable inspection and connection fees and TpCIAC charge, shall be as follows:

(i) For single-family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing collecting sewers where service may be obtained shall be excluded. This provision does not apply to lots for which a developer, as an applicant, constructed the extension.

Rule 12 Extension of Collecting Sewers, Expansion of Treatment Capacity, and Acquisition of Existing Sewer System (cont.)

(8) Extensions made under this rule shall be and remain the property of the Company in consideration of its perpetual upkeep and maintenance.

(9) The Company reserves the right to connect future extensions to collecting sewers or trunk sewers constructed under the provisions of these rules, and the attaching of customers to such further extensions shall not entitle applicant(s) contracting for the original extension to additional refund.

(10) After the effective date of this rule, new pressure sewer collection systems will not be constructed, unless if it is not reasonably possible, in the opinion of the Company, to service an area or premise by gravity or with a common lift station. Extensions may be made on existing pressure sewer collection systems. All new gravity sewer pipelines shall be not less than 8 inches in diameter, and shall include manholes at changes in grade or direction.

D. This rule shall govern the design and construction by the Company of new sewage treatment plant facilities, expansion of existing treatment plant facilities, and reconstruction of treatment plant facilities to serve new customers:

(1) The Company will provide adequate treatment plant capacity for all new customers in consideration of payment of TpCIAC and TempCIAC as required. The Company will not construct, own or operate systems designed as on-site treatment system for individual premises.

(2) For any Applicant(s) requesting sewer service whose property or properties were not or are no longer associated with any active new development, and in a location where it is not feasible to connect to any existing treatment facility controlled by the Company, then the Company shall design and construct an adequate treatment facility in consideration of payment of applicable TpCIAC and other applicable fees by the Applicant(s), subject to availability of a suitable location for a treatment facility. Collecting sewers, and the proposed treatment facility, shall be in locations that are suitable for future area growth. The Company will not construct a new treatment facility of less than 10,000 gallons per day capacity. If the treatment facility is of a larger size than that reasonably required to serve the Applicant(s), then the Applicants shall be required to pay TempCIAC based on the unused capacity of the treatment facility on a per lot or per equivalent customer basis.

(3) If the Applicant is a developer applying for an extension into a new subdivision or previously unsewered subdivision plat where treatment capacity is not available, then the developer shall enter into a contract (see Exhibit A) with the Company, and the fees applying to each lot of the developer's subdivision or plat to be served by the extension shall be due to the Company. The Applicant shall be required to tender to the Company, in addition to the TpCIAC and other above noted fees, TempCIAC for each lot proposed to be served by the extension, which is subject to refund as customers in the new subdivision or plat actually connect and begin taking service. If the extension is to serve a new development, and connection to an existing treatment facility is not practical or feasible, then the Applicant may also be required to provide a location, on a permanent basis as necessary, free of liens and encumbrances, for a new treatment facility that is adequate to serve the subdivision and surrounding area.

(4) If the Applicant is a developer where Rule D(3), above, applies, and if a new treatment facility, expansion of an existing treatment facility, or a replacement treatment facility will be necessary to serve the customers proposed to be connected, and if mutually agreeable between the Company and the Applicant, then the contract may provide for the Applicant to construct the treatment facility in lieu of payment of the TpCIAC and TempCIAC amounts. Refunds of TempCIAC as provided for within these rules shall be made as if the TempCIAC amount was paid for by the Applicant for work done by the Company. The Applicant shall contribute the treatment facility to the Company with a certified detailed accounting of the actual cost of construction. The Applicant shall also tender to the Company the applicable inspection fees and other applicable appropriate charges, if any, required for the construction of the treatment facility.

(5) If a per-lot cost is not applicable to commercial development, then TpCIAC shall be determined on a case-by-case basis based on equivalent water usage and strength of sewage discharge of single family residential customers. The commercial customer may be required as determined by the Company in its sole discretion to install a monitoring manhole and metering device so actual usage and strength of sewage discharge can be determined by the Company over a period of two years. If the actual usage or strength of sewage discharge deviates by 10% or more, then the TpCIAC will be adjusted. If the resulting determination of TpCIAC is less than the original TpCIAC collected, then a refund will be made to the customer, and if the resulting determination of TpCIAC is greater than the original TpCIAC collected, then the customer shall pay the additional cost.

Rule 12 Extension of Collecting Sewers, Expansion of Treatment Capacity, and Acquisition of Existing Sewer System (cont.)

E. This Rule shall govern the acquisition of existing sewer systems that serve prospective Customers within the Company's certificated service area.

(1) Developer or Owner shall negotiate and enter into a contract for the transfer of ownership of the existing sewer system with the Company. The contract shall adequately describe the sewer system to be acquired including capacity and operational considerations, and may include a description of improvements that may be necessary, the original cost of the facility and its depreciated value, and any investment of funds by the Company, as necessary, for the proposed transaction.

(2) The Developer or Owner shall be required to bring the collection system into compliance with the Company's minimum standards. The cost of any required upgrading shall be at the Developer's or Owner's expense so as not to result in additional costs being borne by the Company's existing Customers.

(3) If the acquisition includes an existing treatment facility capable of providing service to the existing customers to be acquired while meeting existing discharge permit requirements, then the Company will assume ownership of the existing facility. Future new customers will be required to pay applicable CIAC and connection charges except those that may be specifically exempt by the terms of the negotiated contract.

(4) If an existing treatment facility cannot meet regulatory treatment requirements, then the Company may, at its option, enter into a contract with the developer, owner, or lot owners, providing for construction by the Company of a replacement treatment facility, or trunk sewers to connect to another treatment facility, in consideration of payment of a calculated TpCIAC charge for each existing customer, collecting sewer extension charges, special surcharges, and Company investment.

AGREEMENT between Aqua Missouri, Inc., P. O. Box 7017, Jefferson City, Missouri 65102, a Missouri Corporation, hereinafter called the “**Company**” and hereinafter called the “**Applicant(s)**”.

WHEREAS, the Applicant(s) has requested the Company to perform the items marked below: (Mark **all** that apply to the project)

- Extend sewer mains for the expressed purpose of providing sewer service to the Applicant(s).
- Expansion or construction of new development treatment plant capacity to service the Applicant(s)

The items marked above are to be constructed in accordance with the Company’s Technical Specifications and sound Engineering Principles and will generally be constructed as depicted on the attached plan or plat, referred to as **Exhibit No. 1** attached hereto, and made a part of this Agreement. The above marked items hereinafter will be called the “**The Project**”; and

WHEREAS, the Company is willing to perform “The Project” upon the terms and conditions hereinafter set forth; and

WHEREAS, the Applicant(s) agrees to bear all costs associated with “The Project” which may include CIAC, TpCIAC, TempCIAC and all applicable fees as outlined in these rules.

WHEREAS, the Applicant(s) agrees to the following: (Mark the box that applies to “The Project”)

- The work will be performed on “The Project” by the Company or its duly authorized representatives per Section A of this Agreement.

EXTENSION AGREEMENT - Individual(s)

AGREEMENT between Capital Utilities, Inc., P.O. Box 7017, 312 Lafayette Street; Jefferson City, Missouri 65102, a Missouri corporation, hereinafter called the "Company" and _____

hereinafter called the "Applicant(s)".

WHEREAS, the Applicant(s) has requested the Company to extend its system for the expressed purpose of providing sewer service. This extension is to be constructed in accordance with the Company's Technical Specifications and will generally be routed as depicted on the attached plan or plat, referred to as Exhibit No. 1 attached hereto, and made a part of this Agreement; and

WHEREAS, the Company is willing to make such an extension upon the terms and conditions hereinafter set forth; and

WHEREAS, the Applicant(s) is willing and desires to assist in the installation of such extension and desires to bear the cost thereof.

NOW, THEREFORE, in consideration of the premises and the mutual covenants and agreements herein contained, THE PARTIES HERETO AGREE AS FOLLOWS:

1. Applicant(s) hereby applies to the Company for the said extension of its system, and the Company agrees to construct the said extension upon the terms and conditions hereinafter set forth.

Rules and Regulations
Governing Rendering of Service

The Applicant(s) will undertake engineering, planning and/or construction of "The Project". All items must comply with Rule 12 C (5) (i), (ii), (iii), and (iv) of the Company's Rules and Regulations and any and all other rules that apply. The Company will not perform the construction of "The Project". This selection only applies if approved by the Company per Rule 12 C (5). Per Section B of this Agreement.

NOW, THEREFORE, in consideration of the promises and the mutual covenants and agreements herein contained, THE PARTIES THERETO AGREE AS FOLLOWS:

A. This section applies when the Company will construct "The Project" and Applicant(s) will deposit the cost.

1. Applicant(s) hereby applies to the Company for "The Project" and the Company agrees to construct "The Project" upon the terms and conditions hereinafter set forth.
2. Upon execution hereof, the Applicant(s) shall deposit Contributions in Aid of Construction ("CIAC") with the Company in the sum of _____ DOLLARS (\$ _____).

Such deposit shall be adjusted based upon the determination of the actual cost of "The Project" by the Company of facilities installed including cost of all labor and materials required including manholes, cleanouts, lift stations, reconstruction of existing sewers (if necessary), appurtenances and the direct costs associated with supervision, engineering, inspection, permits, easements and bookkeeping. If it is necessary to adjust the amount of such deposit, in accordance with the terms of this paragraph, a supplemental memorandum will be prepared setting forth the actual costs and shall be attached hereto and made a part hereof.

In addition to the CIAC, the Applicant(s) will pay at the time this agreement is executed a charge for Treatment Plant Facility Contribution in Aid of Construction ("TpCIAC"), for all lots owned or controlled by the Applicant(s) whether occupied or not, as calculated below:

2. Upon execution hereof, the Applicant(s) shall deposit with the Company the sum of _____

DOLLARS (\$ _____). Such deposit shall be adjusted based upon the determination of the actual cost by Company of facilities installed including sewer pipe and appurtenances, connection fees, engineering, accounting, and legal expenses plus the cost of obtaining any necessary easements or permits from governmental agencies. If it is necessary to adjust the amount of such deposit, in accordance with the terms of this paragraph, a supplemental memorandum will be prepared setting forth the actual costs and shall be attached hereto and made a part hereof.

3. The Company will use its best efforts to commence and carry to completion as soon as possible the installation of said extension, having in mind, however, delays which may be occasioned by weather, acts of God, strikes, or other matters not within its control.

4. It is further mutually understood and agreed that the collecting sewer(s) and appurtenances within the limits of the street, avenues, roads or easement areas, whether or not attached to or serving customers but constructed as part of the extension shall be and remain the property of the Company, its successors. By the terms of this Agreement the Company may further extend or connect collecting sewers in or to other lands, streets, or easements without incurring any liability to Applicant(s) whatsoever.

5. Applicant(s) will, upon the request of the Company, grant to it an exclusive and irrevocable easement, at no cost to Company, for the

Description

Residential or duplex unit =	_____	units x \$5,000/unit =	\$ _____
Apartment or mobile home unit =	_____	units x \$4,000/unit =	\$ _____
Commercial units * =	_____	usage in 1,000gal x 715/1000gal=	\$ _____
Total TpCIAC =			\$ _____

* Commercial TpCIAC shall be initially calculated based on usage and strength projections provided by the Applicant(s). After two (2) year of actual usage is determined the TpCIAC shall be adjusted using actual average monthly consumption. If the actual usage or strength of sewage discharge deviates by 10% or more, then the TpCIAC will be adjusted. If the calculation determines that the actual TpCIAC is less than the TpCIAC paid then a refund will be made to the Applicant(s). If the calculation determines that the actual TpCIAC is greater than the TpCIAC paid then an additional payment for TpCIAC will be required from the Applicant(s).

In addition to the CIAC and TpCIAC, the Applicant(s) may be required to pay, at the time this agreement is executed a charge for Temporary CIAC ("TempCIAC") as required by Rule 12 of the Company's tariff. The requirement of a TempCIAC charge will be determined on a case by case basis according to Rule 12.

If required by Rule 12, the Temp CIAC will be calculated as:

TempCIAC = Total cost of a new or expanded Treatment Facility divided by the total equivalent customer units to be served by the Treatment Facility times equivalent customer units not served less any TpCIAC paid per above calculation.

TempCIAC = Total cost ÷ total units x units not served - TpCIAC paid

= \$ _____ ÷ _____ x _____ - _____

= \$ _____

Minimum size Treatment Facility shall be 10,000 gallons per day. Total equivalent customer units to be served shall equal the Treatment Plant capacity divided by 370 gallons per day.

The TempCIAC is subject to refund to the original Applicant(s) as future customers connect during the first ten (10) years after the extension and/or treatment facility is completed. The per lot TempCIAC charge shall be refunded within 90 days of a new customer connecting to a sewer served by the treatment plant and taking service.

- 3. The Company will use its best efforts to commence and carry to completion as soon as possible "The Project", having in mind, however, delays which may be occasioned by weather, acts of God, strikes, or other matters not within its control.
- 4. It is further mutually understood and agreed that the collection sewer(s) and appurtenances within the limits of the street, avenues, roads or easement areas, whether or not attached to or serving customers but constructed as part of the extension shall be and remain the property of the Company and its successors. By the terms of this Agreement the Company may further extend or connect collecting sewers in or to other lands, streets, or easements without incurring any liability to Applicant(s) whatsoever.
- 5. Applicant(s) will, upon the request of the Company, grant to it an exclusive and irrevocable easement, at no cost to Company, for the installation, maintenance, operation, repair and replacement of "The Project" and appurtenances within the limits of any existing or proposed street, roadway, or easement area, together with right of ingress and egress thereto, in form satisfactory to the Company and duly executed and acknowledge in proper form for record. The Company shall also have the right to request additional easement area over property owned by the Applicant(s) for the purpose of future extension of system to provide service to adjacent property. It is further agreed that no individual service connections will be made to "The Project" until all regulatory operating permits have been issued and received by the Company for "The Project".

sewers installed by it pursuant to the terms of this Agreement in or to other lands, streets, easements without incurring any liability to Applicant(s) whatsoever. MISSOURI Public Service Commission

- 6. Developer will, upon the request of the Company, grant to it an exclusive and irrevocable easement, at no cost to Company, for the installation, maintenance, operation, repair and replacement of said extension and appurtenances within the limits of any existing or proposed street, roadway, or easement area, together with right of ingress and egress thereto, in form satisfactory to the Company and duly executed and acknowledge in proper form for record. The Company shall also have the right to additional easement area over property owned by the Developer for the purpose of future extension of system to provide service to adjacent property.

- 7. It is further understood and agreed by and between the parties hereto that the Company's agreement to construct the said extension is subject to the Company obtaining all necessary consents, orders, permits, easements, and approvals of public officers or public bodies having jurisdiction over or lawful interest in any of the subject matters herein. In the event that the Company, after prompt application and deligent effort, is unable to obtain any necessary consent, order, permit, easement, or approval as aforesaid, or in the event that the Company is enjoined or prevented by lawful action of any such public officer or official body from constructing the said extension, the Company shall have no obligation to the

Developer to proceed with the installation such time as the aforesaid lawful action shall be resolved.

B. It is agreed by Developer that he will not build at any time hereafter on, in or over the said easement any structure, the construction or presence of which will endanger or render ineffective or difficult the access to collecting sewers or appurtenances of the Company, or lay other pipes or conduits within two (2) feet, measured horizontally or ten (10) feet for water main, measured horizontally, from the said collecting sewers except pipes crossing same at right angles in which latter case a minimum distance of eighteen (18) inches shall be maintained between the pipes. No excavation or blasting shall be carried on which in any way endangers the said collecting sewers. Provided, however, that should the Developer wish to do so, he may at his own expense provide a new location acceptable to the Company for the said collecting sewers and the Company will then move said collecting sewers and appurtenances to said new location, and the whole cost of such moving and altering and any expenses incident thereto, shall be borne by the Developer. It is further understood and agreed that in case of any damage by Developer or caused by neglect of Developer to the collecting sewers or their appurtenances, connection therewith, these facilities will be repaired and brought to proper grade by the Company or Company's contractor at Developer's expense.

9. It is further mutually understood and agreed by and between the parties hereto that this Agreement is subject to all the requirements of

Rules and Regulations
Governing Rendering of Service

MISSOURI
Public Service Commission

the Company's Rules and Regulations Governing Rendering of Sewer Service currently on file with the Missouri Public Service Commission be they expressed herein or not. It is specifically noted that the Company's definition of a sewer system "extension" may refer to either continuation of piping from existing Company owned collecting sewer or the construction of an entirely new wastewater collection/treatment system.

10. The Company reserves the right to withdraw this proposal at any time before it has been accepted by the Developer. In the event it is not accepted and the payment for the sewer system extension is not in the possession of the Company within sixty (60) days from the date this Agreement is transmitted to the Developer, this proposal will be null and void.

IN WITNESS WHEREOF, the parties hereto have agreed to the above conditions as indicated by their signatures affixed below on this _____ day of _____,
