DIRECTORY LISTINGS

MISSOURI  
Public Service Commission

7.1 General Regulations

- 7.1.1 The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by the dominant exchange service provider in the customer's exchange areas of the Station number which is designated as the Customer's main billing number. Directory listings of additional Company Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for a monthly recurring charge per listing.
- 7.1.2 The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. Where more than one line is required to properly list the Customer, no additional charge is made.
- 7.1.3 The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
- 7.1.4 Each listing must be designated Government or Business to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential section. The Company, upon notification to the customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
- 7.1.5 In order for listings to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule.

9. Toll Service

9.1 Description

Toll service is furnished for telephone communication between telephones in different local calling areas within the state in accordance with the regulations and schedules of charges specified in this tariff. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff. Services include outbound (switched and dedicated access), inbound (switched and dedicated access), and travel card services. Toll service is an optional service available to customers obtaining dial-tone from the company.

Outbound toll service offers customers an outbound, "1+" dialed long distance service for calls originating and terminating in the State of Missouri, and is available using either switched access or dedicated origination.

Inbound toll service offers customers an inbound toll service for calls originating and terminating in the State of Missouri, and is available using either switched access or dedicated access termination. This service enables the caller to contact the inbound toll service customer without the caller incurring toll charges. Calls are placed by dialing a toll free "800 or 888 number."

Travel Card service is a service which allows the customer to place calls from lines other than the customer's presubscribed location and charge the call to the presubscribed location. The customer may place calls from any touch tone Telephone in the U.S. by dialing a toll free "800 or 888 number" and entering a personal identification code, followed by the desired telephone number. Travel Card calls are billed at the Company's rates and appear on the customer's monthly long distance bill.

9.2 Timing of Messages

9.2.1 Outbound and inbound toll service calls are timed in 6 (six) second increments with an 18 (eighteen) second minimum. Travel Card service calls are timed in 1 (one) minute increments.

9.2.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

9.2.3 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agree alternate. (1)

9.2.4 Call timing ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

9.2.5 Calls originating in one time period as defined under 9.3 and terminating in another will be billed the rates in effect at the beginning of six second increments.

13.4.3 Termination Liability

MISSOURI  
Public Service Commission

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the Customer.

13.4.3.1 The termination period is the estimated service life of the facilities provided.

13.4.3.2 The amount of the maximum termination liability is equal to the estimated amounts for:

1. Cost installed of the facilities provided including estimated costs for arrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. Cost installed includes the cost of:
  - a) equipment and materials provided or used,
  - b) engineering, labor and supervision,
  - c) transportation, and
  - d) rights of way;
2. license preparation, processing, and related fees;
3. tariff preparation, processing, and related fees;
4. cost of removal and restoration, where appropriate; and
5. any other identifiable costs related to the specially constructed or rearranged facilities.

13.4.3.3 The applicable liability method for calculating the unpaid balance of a term obligation is obtained by multiplying the sum of the amounts determined as set forth above by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined pursuant to the above paragraphs shall be adjusted to reflect the redetermined estimate net salvage, including any reuse of the facilities provided. This product is adjusted to reflect applicable taxes.

13.16.20 Loyal Customer Growth Promotion (Cont.)

Under no circumstances is a Customer who has agreed to purchase local exchange service in Missouri ("Missouri Local Service"), either as a stand-alone product or along with long distance or other services from WorldCom, committed to purchase Missouri Local Service for more than a one-year period. Any term for Missouri Local Service automatically ends at the end of one year. So that WorldCom can take the necessary steps to terminate and/or transition the Customer's Missouri Local Service in an orderly manner, Customer must notify WorldCom at least 60 days prior to the end of the one-year term that Customer does not intend to purchase Missouri Local Service from WorldCom after the end of the one-year term. If Customer continues to use WorldCom-provided Missouri Local Service after the end of the one-year term, and Customer has not given WorldCom the required notice that it does not intend to purchase Missouri Local Service from WorldCom after the end of its one-year term, Customer will be deemed to have committed to a new one-year term for Missouri Local Service. If Customer has entered into a multi-year term commitment for WorldCom services other than Missouri Local Service, and as part of that commitment, has agreed to an annual billing commitment based in part on Customer's one-year commitment for Missouri Local Service, then for any part of that multi-year term that Customer does not purchase Missouri Local Service, the Customer's annual billing commitment will be reduced proportionately, based on the amount billed for Missouri Local Service compared to the amount billed of other services under the Agreement up to the time of termination.

Definitions: For the purposes of this promotion, the following definitions apply:

Baseline Quarter: The months of June, July and August 2002. -

First Credit Quarter: The months of September, October and November of 2002.

Second Credit Quarter: The months of December 2002, January 2003 and February 2003.
