WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

(CP) 2.19 Maintenance and Repairs

The Telephone Company undertakes to maintain and repair the service components which it furnishes to customers. The customer shall be responsible for damages to service components of the Telephone Company caused by the negligence or willful act of the customer. The customer may not rearrange, disconnect, remove or attempt to repair or permit others to rearrange, disconnect, remove or attempt to repair any service components installed by the Telephone Company except upon the written consent of the Telephone Company.

A nonrecurring Maintenance Service Charge of \$25.00 will apply for each repair visit to a customer's premises or the premises of any other customer where the service difficulty or trouble results from the use of customer premises equipment or service components.

2.20 Access to Customers' Premises

(CP) The agents and employees of the Telephone Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the service components of the Telephone Company or upon termination of the service for the purpose of removing such service components.

(CP) 2.21 Allowance for Interruptions

- A. Credit is allowed for interruption of the access line of 24 consecutive hours or more after being reported out of order. Interruption to the access line, not due to the negligence of the customer, is credited at one-thirtieth of the monthly charge for the access line for each 24 hours or major fraction thereof of interruption. The refund may be accomplished by a credit on a subsequent bill for WATS Service.
- B. Long Distance Telecommunications Service furnished at the customer's request when his Wide Area Telecommunications Service is interrupted is charged for at the Long Distance Telecommunications rates contained in the Long Distance Message Telecommunications Service Tariff.

2.22 Special Construction

- A. Rates and charges for special construction will be provided as set forth in Section 14 of the Access Services Tariff.
- B. Special construction is that construction undertaken:
 - 1. Where service components are not presently available, and there is no other requirement for the service components so constructed.
 - 2. Of a type other than that which the Telephone Company would normally utilize in the furnishing of its services.
 - 3. Over a route other than that which the Telephone Company would normally utilize in the furnishing of its services.
 - 4. In a quantity greater than that which the Telephone Company would normally construct to serve the customer's needs.
 - 5. On a temporary basis until permanent service components are available.
 - 6. Involving abnormal costs.
 - 7. In advance of the normal construction on an expedited basis.
- C. A request for charges for special construction will be subject to a special Quotation Charge for the direct administrative and engineering costs associated with the preparation of that particular quotation. The amount of such charges will be credited to the account of the customer when an order for that particular special construction is received within 90 days of the quotation. The customer will authorize, through a designated representative, the request for a quotation before the Telephone Company undertakes any work involved in developing such quotations.

(AT) 2.23 Billing Information

When WATS or a WATS-like service is provided by an Interexchange Customer, the Interexchange Customer is required to provide sufficient billing information so that the Telephone Company can bill the end user for intraLATA usage as provided for in this tariff. If sufficient billing information is not provided by the Interexchange Customer, the Interexchange Customer will be liable for the revenue associated with the intraLATA usage.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.24 Common Line 800 Service Regulations

(CT) Common Line 800 Service provides 800 Service utilizing the 800 Data Base of the Telephone Company. The 800 Service calls will be terminated over exchange telephone service facilities provided by the Telephone Company. Termination to Remote Call Forwarding Service is also permitted. Common Line 800 Service is not available for use with cellular telephone service, mobile telephone service, or pay telephone service.

Area of Service defines the geographic locations within the state from which the customer wants to accept calls for a given 800 number.

If the customer wants an Area of Service which is larger than a single LATA, the customer must subscribe to exchange telephone service in each LATA in the Area of Service or arrange for an Interexchange Carrier to provide transport of the interLATA calls.

Only one 800 number will be assigned to terminate calls on any given exchange telephone service facility.

Customers of Common Line 800 Service may receive call detail information or summary usage information. Call detail information will be provided only in areas where facilities permit.

In the event that the customer's exchange telephone service goes out of service (for reasons other than negligence or a willful act of the customer), at the customer's request, the Telephone Company will change, at no charge, the customer's Common Line 800 account record to permit termination of the 800 service calls to an alternate facility.

Rates for Common Line 800 Service and its optional features can be found in Section 5 of this tariff.

The business subscriber to Common Line 800 Service will receive at no additional charge one Primary Listing and one Foreign Listing for each 800 number.

The Primary Listing must be in the subscriber's local directory, and the Foreign Listing must be in a directory in the subscriber's area of service. Additional Foreign Listings may be provided at the rates and charges as found in the Company's General Exchange Tariff.

MISSOURI

2.24 Common Line 800 Service Regulations

MO. PUBLIC SERVICE COMM.

Common Line 800 Service provides 800 Service utilizing the 800 Data Base of the Telephone Company. The 800 Service calls will be terminated over exchange telephone service facilities provided by the Telephone Company. Termination to Remote Call Forwarding Service is also permitted. Common Line 800 Service is not available for use with cellular telephone service, mobile telephone service, or public coin service.

If the customer wants Common Line 800 Service in more than a single LATA, the customer must subscribe to Variable Call Destination Service and subscribe to exchange telephone service in each LATA. Variable Call Destination Service provides the customer with one 800 number for use within more than one LATA, and provides for termination of the calls to exchange telephone service located in the same LATA from which the call originated.

Common Line 800 Service calls may not be terminated to WATS access lines.

Only one 800 number will be assigned to terminate calls on any given exchange telephone service facility.

Customers of Common Line 800 Service may receive call detail information or summary usage information. Call detail information will be provided only in areas where facilities permit.

In the event that the customer's exchange telephone service goes out of service (for reasons other than negligence or a willful act of the customer), at the customer's request, the Telephone Company will change, at no charge, the customer's Common Line 800 account record to permit termination of the 800 service calls to an alternate facility.

Rates for Common Line 800 Service and its optional features can be found in Section 5 of this tariff.

(CP)

The subscriber to Common Line 800 Service will receive at no additional charge one Primary Listing and one Foreign Listing for each 800 number. The Primary Listing must be in the subscriber's local directory, and the Foreign Listing must be in a directory in the subscriber's area of service. Additional Foreign Listings may be provided at the rates and charges as found in the Company's General Exchange Tariff.

The residence subscriber to Common Line 800 Service will not receive a listing with their 800 number. Listings may be purchased at the rates and charges found in the Company's General Exchange Tariff.

2.24.1 Call Handling and Destination Features

Call Handling and Destination Features are features that are available for use with Common Line 800 Service that utilizes the 800 Data Base of the Telephone Company. The customer may subscribe to one or more of the features. These features include the following services:

- A. Originating Location Service - This feature will permit the customer to select territories from which they wish to receive calls based on the originating location of the call. All customers will receive this feature.
- B. Time of Day Service - This feature will permit the customer to have the terminating location of the 800 call vary based on the time of day the call is placed. (USOC: 8HFTD)
- C. Day of Week Service - This feature will permit the customer to have the terminating location of the 800 call vary based on the day of the week the call is placed. (USOC: 8HFDW)
- D. Traffic Allocation Service - This feature will permit the customer to have the 800 calls routed to multiple terminations based on a percentage of all 800 calls. (USOC: 8HFTA)
- E. Specific Day Routing Service - This feature will permit the customer to arrange the service so that the terminating location of the call is varied based on a specific day of the year. For example, calls placed on Christmas Day could be routed to a number different than the number that receives the calls the other 364 days of the year. (USOC: 8HFSD)
- F. Multiple Carrier Service - This feature will permit the customer to have multiple carriers for the interLATA 800 Service calls. Carrier selection will be based on Originating Location Service. (8HFMC)

2.24.2 Emergency Update Service

(RT)

Emergency Update Service provides the customer with a secondary call routing plan to be used in the event that the customer's primary call routing plan cannot be used. The intent of this service is to provide for call handling in the event of an unusual situation other than out of service exchange service as described in Paragraph 2.24. The Change Charge for Common Line 800 Service will apply to establish or subsequently change Emergency Update Service. The specific rate is dependent on the number of terminations involved in the Emergency Update Service plan. Once the service plan is established, there is no charge to activate the service, nor to change back to the primary call routing plan. (USOC: 8HFEU)

2.24.3 Unique Ring Signaling

A unique ringing signal is available as an option to Common Line 800 Service. A unique ringing signal will allow the customer to distinguish if the incoming call was placed by dialing the customer's 800 number or the customer's local exchange telephone number.

A unique ringing signal is available only where facilities permit.

This feature is not available for use on PBX trunks, or on local exchange facilities arranged for multi-line hunting.

There is no additional monthly charge for this feature. There is no additional nonrecurring charge if this feature is ordered on the initial installation of Common Line 800 Service. The change charges found in the Rates section of this Tariff apply when this feature is added subsequent to the initial installation of Common Line 800 Service.

For 60 days from the initial effective date of the tariff for this feature, existing Common Line 800 Service customers may add this feature without incurring the change charge. In addition, for 60 days following the availability of the feature in areas where facilities are not currently available, existing Common Line 800 Service customers may add the feature without incurring a change charge.

If the customer has the Common Line 800 Service configured for multiple terminations, unique ringing will be provided on only one termination. The termination with unique ringing must be in the Telephone Company's service area.

2.24.4.1 Common Line 800 5 Hour Plan Promotion

- A. For a period of 90 days, beginning on December 2, 1998 and ending on March 1, 1999, qualified business customers newly subscribing to a Common Line 800 5 Hour Plan will receive the following benefits:
- B. For a twelve (12) month subscription, new business customers will receive a one-time credit of \$60.00 (equal to 12 months of the monthly service charge of \$5.00). The credit will be applied to the customer's bill in the ninth month of service. Customers will remain responsible for all other costs associated with the selected plan.
- C. To qualify for the credit, a customer must agree to a 12 month subscription to the Common Line 800 5 Hour Plan. To remain qualified, a customer must maintain their subscription for 12 consecutive months. Each Billed Telephone Number will be treated individually. Customers with multiple locations/BTN may participate in this offer.
- D. Customers who have received a one-time credit of \$60.00, but disconnect their Common Line 800 5 Hour Plan prior to the completion of the 12 month term, will be billed an early termination fee of \$60.00 to offset the credit. In addition, customers shall be subject to pay any other charges, payments or disconnection/termination fees required by the tariffs.
- E. The original time frames and agreed upon products and/or services are required when the products and/or services governed under this promotion are moved or if the number changes.
- F. All terms and conditions continue to apply when the service governed under this promotion is superseded, the bill name changes, and the service remains on Southwestern Bell Telephone Company's network as a retail product.
- G. Customers may not participate in other Usage product promotions unless otherwise specified in this tariff or other applicable Southwestern Bell Telephone Company agreements.
- H. All other Common Line 800 options are available at the rates provided in the tariff. All other terms and conditions remain unchanged.

2. GENERAL REGULATIONS-(Continued)

2.24 Common Line 800 Service Regulations-(Continued)

2.24.4 Promotions-(Continued)

2.24.4.1.1 Common Line 800 5 Hour Plan Promotion

(AT)

- A. For a period of 74 days, beginning on March 2, 1999 and ending on May 14, 1999, qualified business customers newly subscribing to a Common Line 800 5 Hour Plan will receive the following benefits:
- B. For a twelve (12) consecutive month subscription to the Common Line 800 5 Hour Plan, new business customers will receive a one-time credit of \$60 (equal to 12 months of the monthly service charge of \$5.00). The credit will be applied to the customers' bill in the ninth full bill round of service. Customers will remain responsible for all other costs associated with the selected plan.
- C. To qualify for the credit, a customer must agree to a 12 month subscription to the Common Line 800 5 Hour Plan. To remain qualified, a customer must maintain their subscription for 12 consecutive months. Each Billed Telephone Number will be treated individually. Customers with multiple locations/BTN may participate in this offer.
- D. Customers who receive the credit, but disconnect their service prior to the end of the agreed upon commitment period will be subject to an early termination fee equal to the amount of credit received to offset the credit. Customers will still be responsible for all other costs associated with the selected plan.
- E. The original time frames and agreed upon products and/or services are required when the products and/or services governed under this promotion are moved or if the number changes.
- F. All terms and conditions continue to apply when the service governed under this promotion is superseded, the bill name changes, and the service remains on Southwestern Bell Telephone Company's network as a retail product.
- G. Customers may not participate in other Usage product promotions unless otherwise specified in this tariff or other applicable Southwestern Bell Telephone Company agreements.
- H. All other Common Line 800 options are available at the rates provided in the tariff. All other terms and conditions remain unchanged.

WIDE AREA TELECOMMUNICATIONS SERVICE

3. CONNECTIONS OF CUSTOMER PREMISES EQUIPMENT AND COMMUNICATIONS SYSTEMS

Customer premises equipment and communications systems may be connected at the customer's premises to Wide Area Telecommunications Service (WATS) furnished by the Telephone Company when such connections are made in accordance with the provisions of the Connections of Terminal Equipment and Communications Systems Section of the General Exchange Tariff.

4. CONNECTIONS OF OTHER COMMON CARRIER-PROVIDED COMMUNICATIONS SYSTEMS

5. RATES

5.1 General

Each WATS access line will be arranged, at the option of the customer, for either Outward or 800 Service, but not both.

Rates for the 800 Service access line in Paragraph 5.4, A.1., and the Outward WATS access line in Paragraph 5.4, B.1., following, are for the IntraLATA portion only.

Service Charge(s) will apply for jacks and premises charges as found in the Service Connection Charges section of the General Exchange Tariff.

The Telephone Company may, during certain promotional periods, waive in full or in part the Service and Equipment charge and/or monthly rates as provided for in Section 17 of the General Exchange Tariff.

(CT) 5.1.1 For service requests taken from October 1, 1994, through October 31, 1994, the Service Establishment Charge for one to two terminations for Common Line 800 Service will be reduced to \$15.00, and the monthly rate will be waived until November 30, 1994. Customers will be required to pay for all usage incurred on their accounts.

5.2 Rate Periods

Rates applicable are based on the time of day, day of week as follows:

A. Business Day Period

8 a.m. to 5 p.m. Monday through Friday. The Business Day Period for holidays (New Year's Day, Independence Day, Thanksgiving Day, Labor Day, Christmas Day) is charged at Evening Period Rates.

WIDE AREA TELECOMMUNICATIONS SERVICE

OCT 23 1987

3. CONNECTIONS OF CUSTOMER PREMISES EQUIPMENT AND COMMUNICATIONS SYSTEMS

MISSOURI

Customer premises equipment and communications systems may be connected from the customer's premises to Wide Area Telecommunications Service (WATS) furnished by the Telephone Company when such connections are made in accordance with the provisions of the Connections of Terminal Equipment and Communications Systems Section of the General Exchange Tariff.

4. CONNECTIONS OF OTHER COMMON CARRIER-PROVIDED COMMUNICATIONS SYSTEMS

5. RATES

5.1 General

Each WATS access line will be arranged, at the option of the customer, for either Outward or 800 Service, but not both.

Rates for the 800 Service access line in Paragraph 5.4, A.1., and the Outward WATS access line in Paragraph 5.4, B.1., following, are for the IntraLATA portion only.

Service Charge(s) will apply for jacks and premises charges as found in the Service Connection Charges section of the General Exchange Tariff.

5.2 Rate Periods

Rates applicable are based on the time of day, day of week as follows:

A. Business Day Period

8 a.m. to 5 p.m. Monday through Friday. The Business Day Period for holidays (New Year's Day, Independence Day, Thanksgiving Day, Labor Day, Christmas Day) is charged at Evening Period Rates.

WIDE AREA TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.19 Access to Customers' Premises

The agents and employees of the Telephone Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the instruments and lines of the Telephone Company or upon termination of the service, for the purpose of removing such instruments and lines.

1.2.20 Allowance for Interruptions

(RT)

(CT) A. If the customer has not used the minimum period during the monthly contract period, credit is allowed for interruption of the access line of 24 consecutive hours or more. Interruption to the access line, not due to the negligence of the customer are credited at one-thirtieth of the monthly charge for the access line for each 24 hours or major fraction thereof of interruption.

(CT) B. Long distance telecommunications service furnished at the customer's request when his wide area telecommunications service is interrupted is charged for at the long distance telecommunications rates contained in the Long Distance Message Telecommunications Service Tariff.

1.2.21 Continuity of Service

A. In case of connection or restoration of a wide area telephone service access line for a customer at a location where wide area telephone service has been disconnected or suspended by him less than two weeks previous, charges for the service so established will commence one day following the effective disconnect or suspend date of the prior service.

5. RATES-(Continued)

(C) 5.4 Rates - Inward WATS (800 Service) or Outward WATS-(Continued)

C. Method of Applying Monthly IntraLATA Usage Rate

1. Rates for 800 Service in Paragraph 5.4, A.2., preceding, will apply to intraLATA usage only. Rates for interLATA 800 Service will be at the rates of the interexchange customer.

If sufficient data is not available to determine the customer's intraLATA usage, 47 percent of the total intrastate 800 Service usage will be considered to be intraLATA usage, and 53 percent will be considered to be interLATA usage.

2. Rates for Outward WATS Service in Paragraph 5.4, B.2., preceding, will apply to intraLATA usage only. Rates for interLATA Outward WATS usage will be at the rates as found in the tariffs of the interexchange customer.

5.5 Method of Determining Monthly Charges for Usage

For all WATS access lines on which usage is recorded by the Telephone Company by time-of-day rate periods, the usage charge is determined, separately for Outward WATS and 800 Service, using steps A. through E., following:

- A. Determine the total number of completed calls for each rate period for each service arrangement.
- B. Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service arrangement by 60. (one call = one minute.)
- C. Determine the total actual hours used for each rate period for each service arrangement.
- D. Determine the total chargeable hours for each rate period for each service arrangement. This is the greater of B. or C., above, rounded to the nearest tenth (one decimal place).
- E. Determine the total usage charge for all rate periods in each service arrangement by applying the rates shown in the rate table in Paragraph 5.4 for Outward WATS or 800 Service.

5.5 Method of Determining Monthly Charges

MISSOURI

For all WATS access lines on which usage is recorded by the Telephone Company by time-of-day rate periods, the usage charge is determined using steps A. through I., following:

- A. Determine the total number of completed calls for each rate period for each service group.
- B. Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service group by 60. (one call = one minute.)
- C. Determine the total actual hours used for each rate period for each service group.
- D. Determine the total chargeable hours for each rate period for each service group. This is the greater of B. or C., above, rounded to the nearest tenth (one decimal place).
- E. Determine the number of access lines within each service group in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days. The result is rounded to the nearest hundredth (two decimal places). The same number of access lines is used for each rate period.
- F. Determine the average usage for each rate period for each access line in each service group by dividing the chargeable hours for each period in D., above, by the number of access lines in E., above.
- G. Determine the usage charge per rate period for each access line by applying the rates shown in the rate table in Section 5.4 for Outward WATS or 800 Service.
- H. Determine the total usage charge for each rate period for each service group by multiplying the usage charge per rate period in G., above, by the number of access lines in E., above.
- I. Determine the total usage charge for each rate period in each service group by adding the results of H., above.

DEC 17 1976
Missouri
Public Service Commission

1.2.21 Continuity of Service-(Continued)

B. After the minimum contract period, wide area telephone service may be suspended for a period of not less than two weeks and not more than two months. The suspension rates will not be applicable for a subsequent suspension until the suspended service has been restored to the full rates for one month.

(CT) C. Service will be suspended at the rates set forth in Paragraph 1.3.4 following.

1.2.22 Special Taxes, Fees and Charges

A. There shall be added to the customer's bill or charge as a part of the rate for service, a surcharge, equal to the pro rata share of any franchise, occupation, business, license, excise, privilege, or other similar tax, fee or charge (hereafter called "tax") now or hereafter imposed upon the Telephone Company by any taxing body or authority, whether by statute, ordinance, law or otherwise, and whether presently due or to hereafter become due.

B. On and after the effective date thereof, any subsequent increase, decrease, imposition or determination of liability for such taxes, fees or charges, as described above, shall be applied in the manner provided below, to the customer's bill or charge on each individual billing date.

C. When such tax or taxes are imposed in terms of a flat sum payment of money, the surcharge applicable to each customer's bill or charge, as the pro rata share of such taxes described above, shall be determined by relating the flat sum payment to the total local exchange revenues within the jurisdiction of the taxing body; the fraction so described shall be converted to a percentage; the local exchange rate shall be increased by that percentage, and applied to the customer's bill or charge, so that the amount added, when accumulated from all bills or charges, in the geographic jurisdiction of the taxing body, will equal the amount of the flat sum payment.

WIDE AREA TELECOMMUNICATIONS SERVICE

5. RATES-(Continued)

5.6 Timing of Calls

- A. Chargeable time begins when connection is established between a service point associated with the WATS access line and the calling or called service point and ends when the calling service point "hangs up," thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- B. When a connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period.
- C. The rate charged is determined by the day and time (standard or daylight savings) at the WATS access line location.
- D. When 800 Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time begins when the 800 Service call terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the 800 Service so that chargeable time may begin.

5.7 Access Line Extension (WEC)

Extensions of individual WATS access lines are provided at locations within the intraLATA territory of the WATS state as provided for in the Extension Service Section of the General Exchange Tariff. The mileage rates and measurements are the same as for extension service on flat rate business service as provided in Section 2 of the Private Line Service Tariff.

5.8 Installation/Nonrecurring Charges

(AT) The charges for changing the 800 data base record for intraLATA 800 Service terminating to a
 | WATS Access Line are the same charges that are shown as the change charges for Common Line
 (AT) 800 Service in this Tariff.

- A. Discontinuance of WATS at one premise and its installation at another premise, all within the same exchange, is considered as an outside move and is subject to regular Installation/Nonrecurring Charges.

5. RATES-(Continued)

5.6 Timing of Calls

- A. Chargeable time begins when connection is established between a station associated with the WATS access line and the calling or called station and ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- B. When a connection is established in one rate period and ends in another, the rate in effect at the time the connection is established applies.
- C. The rate charged is determined by the day and time (standard or daylight savings) at the WATS access line location.
- D. When 800 Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time begins when the 800 Service call terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the 800 Service so that chargeable time may begin.

5.7 Access Line Extension (WEC)

The extension rates of individual WATS access lines are provided at locations within the WATS state as provided for in Section 10 of the General Exchange Tariff. The mileage rates and measurements are the same as for an extension service on flat rate business service as provided in Section 2 of the Private Line Service Tariff.

5.8 Installation/Nonrecurring Charges

- (CR) A. A charge of \$106.00 applies for the installation of each Outward WATS access line. A charge of \$121.00 applies for the installation of each 800 Service line.
- B. Nonrecurring charges, including Services Charges, associated with items of equipment and services used in connection with Outward WATS or 800 Service are found in the appropriate sections of the General Exchange Tariff.

1.3.1 Class of Service and Monthly Rates

BY RS 13
PUBLIC SERVICE COMMISSION

Each WATS access line will be arranged, at the option of the customer, for a class of service as specified below. The initial period for each class of service provides for a monthly total accumulated hours of use and includes a monthly total of accumulated completed calls based on an average of one minute per call. The additional period for all classes of service is one hour including up to 60 completed calls.

(AT) A. WATS 173(1)

1. WATS 173 outward service (WF7) or inward service (800 Service) (WAT) permits calling within the State of Missouri over an access line for a period of 173 hours or any fraction thereof including up to 10,380 calls at a monthly rate of \$1,351.00. The rate for each additional period is \$6.10
2. WATS 173 rates will not be applied as the maximum rate for WATS 10 or 50 service.

(1) This is not CPE. See Preface Sheet of this Tariff section.

(AT) B. WATS 10(1)

WATS 10 outward service (WM7) or inward service (800 Service) (WAC) permits calling within the State of Missouri over an access line for a period of ten hours or any fraction thereof including up to 600 completed calls at a monthly rate of \$282.50. The rate for each additional period is \$25.00.

(AT) C. WATS 50(1)

WATS 50 outward service (WML) or inward service (800 Service) (WK5) permits calling within the State of Missouri over an access line for a period of fifty hours or any fraction thereof including up to 3000 completed calls at a monthly rate of \$924.50. The rate for each additional period is \$17.50.

1.3.2 Method of Determining Monthly Charges

A. The initial period for the selected class of service provides for the use of WATS for a monthly total of hours of use and number of completed calls as specified in 1.3.1. Service furnished beyond the initial period will be charged for at the additional period rate based on the greater of the following:

- a. Actual total time of monthly usage, or
- b. Total number of completed calls multiplied by one minute.

B. Service furnished beyond the initial period is measured in tenths of an hour or major fraction thereof. The charge per tenth of an hour is one-tenth of the additional period rate.

C. Where a customer subscribes to more than one access line, furnished for service at the same premises, arranged for the same direction, class of service and service area, the total initial period for such access lines will be the product of the applicable initial period (hours of use and completed calls) multiplied by the number of such access lines. The additional period will be the accumulated use (time and completed calls) of such access lines in excess of that product.

C. WATS 50

WATS 50 outward (WML) or inward (WAL) service permits calling within the State of Missouri over an access line for a period of fifty hours or any fraction thereof including up to 3000 completed calls at a monthly rate of \$732.25. The rate for each additional period is \$14.25.

(CP)
(CR)
(CR)

(AT) 1.3.2 Method of Determining Monthly Charges

A. The initial period for the selected class of service provides for the use of WATS for a monthly total of hours of use and number of completed calls as specified in 1.3.1. Service furnished beyond the initial period will be charged for at the additional period rate based on the greater of the following:

- a. Actual total time of monthly usage, or
b. Total number of completed calls multiplied by one minute.

(CT) B. Service furnished beyond the initial period is measured in tenths of an hour or major fraction thereof. The charge per tenth of an hour is one-tenth of the additional period rate.

(CT) C. Where a customer subscribes to more than one access line, furnished for service at the same premises, arranged for the same direction, class of service and service area, the total initial period for such access lines will be the product of the applicable initial period (hours of use and completed calls) multiplied by the number of such access lines. The additional period will be the accumulated use (time and completed calls) of such access lines in excess of that product.

RESERVED

WIDE AREA TELECOMMUNICATIONS SERVICE

FEB 28 1975

1.3 RATES

1.3.1 Class of Service - (Continued)

(AT)B. WATS 10 - (Continued)

- (CT) 2. Where a customer subscribes to more than one WATS 10 access line, on the same premise, the initial period will be the product of ten hours multiplied by the number of access lines; the additional period, in such case, will be the sum of the accumulated measured times of such lines in excess of that product, computed in hourly periods and tenths of an hour or major fraction thereof. This computation is made separately for outward and inward service.
- 3. Chargeable time begins when connection is established between the WATS access line and the called or calling station, and ends when such connection is terminated.
