- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Missouri Public Service Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Missouri Public Service Commission follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

Access Line

An arrangement which connects the Subscriber's or Customer's location to the Carrier's designated point of presence or network switching center.

Authorized User

A person, firm, corporation, or other entity authorized by the Customer to be connected to the service of the Customer under the terms and regulations of this tariff.

Available Usage Balance

The amount of usage remaining on a Debit Account at any particular point in time. Each Debit Account begins with an initial usage amount which is depleted as services provided by the Company are utilized by the Customer.

Carrier or Company

Telephone Company of Central Florida, Inc. ("TCCF") unless otherwise indicated by the context.

Casual Calling

The access of TCCF's network and the use of Service through the dialing of an access code in the format of 10XXX or 101XXXX, where the three (3) digits or the four (4) digits represented by "X" are the unique Carrier Identification Code (CIC) assigned to Carrier.

Commission

Used throughout this tariff to refer to the Missouri Public Service Commission.

Customer or Subscriber

The person, firm, partnership, corporation, or other entity which orders, cancels, amends or uses the service and is responsible for payment of charges and compliance with the Company's tariff.

Customer Premises Equipment

Terminal equipment, as defined herein, which is located on the Customer's premises.

MISSOURI
Public Service Commission**Debit Account**

An account which consists of a prepaid usage balance depleted on a real time basis during each Debit Service Call.

Debit Card

A card issued by the Company which provides the Customer with a Personal Account Code and instructions for accessing the Carrier's network.

Debit Service Call

A service accessed via a Toll Free (i.e. 800/888) number or other access code dialing sequence whereby the customer or Authorized User dials all of the digits necessary to route a call. Network usage for each call is deducted from the available usage balance on a Company-issued Debit Account.

Dedicated Access

A method of reaching the Company's services whereby the Customer is connected directly to the Company's Point of Presence without utilizing services of the local switched network. The cost of these dedicated circuits is billed by the access provider directly to the end user.

End User

Any person, firm, corporation, partnership or other entity which uses the services of the Carrier under the provisions and regulations of this tariff. The End User is responsible for payment unless the charges for the services utilized are accepted and paid by another Customer.

Initial Usage Balance - The amount of usage on a Debit Account upon issuance and before any depleting call activity.

LATA

Local access and transport area. A geographic area established by the US District Court for the District of Columbia in Civil Action No. 17-49, within which a local exchange company provides communications services.

Credit allowances for interruptions of service which are not due to the Carrier's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.4 herein. It shall be the obligation of the Customer to notify carrier immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by Customer and connected to Carrier's terminal. Interruptions caused by Customer-provided or Carrier-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the customer has the option of using the long distance network via local exchange company access.

2.15 Tests, Pilots, Promotional Campaigns and Contests

Carrier may conduct special tests or pilot programs and promotions at its discretion to demonstrate the ease of use, quality of service and to promote the sale of its services. The Carrier may also waive a portion of all processing fees or installation fees for winner of contests and other occasional promotional events sponsored or endorsed by the Carrier. From time to time the Company may waive all processing fees for a Customer. TCCF will file with the Commission for approval before any Tests, Pilots, Promotional Campaigns or Contests become effective.

2.16 Miscellaneous Rates and Charges

The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others in support of statutory or regulatory programs. Example of such programs include, but are not limited to, the Universal Service Fund, the Primary Interexchange Carrier Charge, and compensation to payphone service providers for the use of their payphones to access the Company's service. The Company will submit all such rates and changes to the Missouri Public Service Commission for approval prior to implementing the change.

A reconnection fee of \$25.00 per occurrence is charged when service is re-established for Customers who have been disconnected for non-payment.

2.18 Commercial Credit Card Payment Option

Customers may choose to pay monthly bills via certain commercial credit cards accepted by the Company. Credit card billed Customers will receive monthly call detail statements, which are separate from the credit card bills. If the Customer's credit card company rejects billing, the Company will make three attempts - two by telephone and one by mail - to contact the Customer for alternative payment arrangements. If alternative payment arrangements are not made in seven days, the Customer's long distance service is discontinued.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, CONT'D **MAR 30 1998****3.2 Calculation of Distance****MO. PUBLIC SERVICE COMM**
(P)

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.

The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points. (M)

The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the industry standard "V" and "H" coordinates.

Step 1 - Obtain the "V" and "H" coordinates for the Wire Centers serving the Customer and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Wire Centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Wire Centers.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

The Company's services are not distance sensitive. The same rates apply regardless of the mileage distance from the originating and terminating locations.

3.3 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call.

3.3.1 Timing for all calls begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.

3.3.2 Chargeable time for all calls ends when one of the parties disconnects from the call.

3.3.3 Minimum call duration and call timing increments for billing purposes is specified on a per-product basis in Section 3.5 of this tariff.

3.3.4 There is no billing applied for incomplete calls.

3.8 Debit Card Service

MO. PUBLIC SERVICE COMM

The Company offers four (4) different types of debit cards. The 4 debit cards are the (N) Basic Card, the Florida Card, the Mexico Card and the Asia Card. The difference in the | cards are the rates as some cards provide better rates to a specific region of the world. (N)

Debit Card Service permits Customers to purchase a debit card to which call charges are consumed on a real-time basis. Customers access the service by dialing a Company-specified access code. All calls must be charged against a prepaid card that has a sufficient available balance. Customers will be provided with a "Usage Remaining" message each time they utilize the card. They will also receive a reminder message when the card has \$2.00 and \$5.00 of value remaining on the card. Calls in progress will be terminated if the balance on the prepaid card is insufficient to cover the charges associated with the call. The card value expires six (6) months after first use of the new card or of the replenished card, whichever is applicable.

For debiting purposes, call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute. Usage charges are computed and rounded up to the nearest penny on a per call basis.

Charges per minute are as follows:

	Per Minute Rate		(N)	(D)
	1st Minute	Add'l Minute		
Basic Debit Card Rate	\$ 0.380	\$ 0.190		
Florida Card Rate	1.110	0.110		
Mexico Card Rate	0.250	0.250		
Asia Card Rate	0.250	0.250

3.8 Debit Card Service

Debit Card Service permits Customers to purchase a debit card to which call charges are consumed on a real-time basis. Customers access the service by dialing a Company-specified access code. All calls must be charged against a prepaid card that has a sufficient available balance. Customers will be provided with a "Usage Remaining" message each time they utilize the card. They will also receive a reminder message when the card has \$2.00 and \$5.00 of value remaining on the card. Calls in progress will be terminated if the balance on the prepaid card is insufficient to cover the charges associated with the call. The card value expires six (6) months after first use of the new card or of the replenished card, whichever is applicable.

For debiting purposes, call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute. Usage charges are computed and rounded up to the nearest penny on a per call basis.

Per minute rate \$ 0.189

A \$0.25 per call surcharge applies to each call. A \$ 0.25 service charge per month applies to the debit account.

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.
