AT&T COMMUNICATIONS OF THE SOUTHWEST, INC.
PRIVATE LINE SERVICES TARIFF

Section 2
1st Revised Sheet 34
Replacing Original Sheet 34

SECTION 2 - GENERAL REGULATIONS

2.5 RESPONSIBILITIES OF THE CUSTOMER (Continued)

2.5.1 GENERAL (Continued)

A. PLACEMENT OF ORDERS, PAYMENT OF BILLS AND COMPLIANCE WITH REGULATIONS (Continued)

1. INFORMATION THE CUSTOMER MUST PROVIDE (Continued)

- The AT&T Central Office, if any, to which the local channel service is to be routed (when the Customer elects to specify routing or when the local channel service consists solely of an access coordination function(s)),
- The location of Local Exchange Company bridges (when a multipoint local channel service is ordered),
- Exemption certification when the Special Access Surcharge set forth in Section 2.6.6.B following does not apply, and
- Information regarding Customer Equipment as specified in Part 68.106 of the FCC Rules and Regulations - (Notification to telephone company).

B. AGENCY AGREEMENT

AT&T will accept orders from an agent appointed by the Customer. An agency appointment must be sent to AT&T in writing. If directed by the Customer, the bill for the local channel service will be sent to the agent. The bill will be issued in the name of the Customer, in care of the agent.

The Customer retains responsibility for compliance with tariff regulations and any act or omission of the agent, regardless of any limitations the Customer may place on the agent's authority. (CT)

When the Customer elects to order solely the access coordination function from AT&T, the Customer must give AT&T written authorization to act on its behalf and is responsible for the access charges incurred.

2.5.1 GENERAL (Continued)

C. FLOOR SPACE, CONDUIT AND ELECTRICAL POWER AT A CUSTOMER'S PREMISES

The Customer must provide the equipment space, supporting structure, conduit and electrical power required to terminate a local channel service at a Customer's premises without charge to AT&T. The space, structure, conduit and power must be made available in sufficient time to permit the installation of the local channel service to be completed prior to its due date. Selection of ac or dc power will be a matter of mutual agreement between the Customer and AT&T.

D. ACCESS TO CUSTOMER'S PREMISES

The Customer is responsible for arranging Customer premises access at any reasonable time so that installation/maintenance personnel may install, repair, maintain, inspect or remove a local channel service. Customer premises access must be made available at a time mutually agreeable to the Customer and AT&T.

E. LOCATIONS INVOLVING HIGH VOLTAGE POWER

When a Customer orders a local channel service installed at a Customer's premises where high voltage power is present, the Customer shall:

1. Install, maintain and pay for special facilities and protective apparatus required by federal, state or local regulations.
2. Pay for required protective apparatus recommended for the location by AT&T.

F. AVAILABILITY FOR MAINTENANCE, TESTING OR MODIFICATIONS

The Customer must make a local channel service available for maintenance, testing, or implementation of changes it has ordered, at any reasonable, mutually agreeable time. Occasionally an impairment may only be evident at certain times (e.g., a certain hour of the day). In such cases, the local channel service must be made available for testing during the same time periods if the trouble condition is to be corrected.

G. DAMAGE TO A LOCAL CHANNEL SERVICE

The Customer must pay AT&T for replacement or repair of a local channel service when damage results from:

- The negligence or willful act of the Customer or others authorized by the Customer,
- Improper use of the local channel service, or
- Any use of equipment or systems provided by the Customer or others authorized by the Customer.

After receipt of payment for the damage, AT&T will cooperate with the Customer in its claim against any third party causing the damage.

H. LOSS

The Customer must pay for any losses resulting from theft or disappearance of any local channel service equipment installed at a Customer's premises.

SECTION 2 - GENERAL REGULATIONS

2.6 PAYMENTS AND CHARGES

2.6.1 GENERAL

The charge for a local channel service may be a recurring and/or a nonrecurring charge.

2.6.2 APPLICATION OF CHARGES

The charges billed are based on the rates that are in effect in this tariff during the period that the local channel service is furnished. If the rates for a period covered by a bill change after the bill has been rendered, the bill will be adjusted to reflect the new charges (see Fractional Charges and Credits, Section 2.6.9. following).

A. RATE SCHEDULES

The rate schedules in this tariff are listed by LATA numbers. When (CT) rates are listed by LATA, up to two rate schedules may be shown for a LATA (see Note 1). The rate schedules will be designated as Rate Schedule 1 and Rate Schedule 2. Rate Schedule 1 will be identified as being applicable to a given LEC (e.g., "SWBT" signifies Southwestern Bell). Rate Schedule 2 will be applicable to all other LECs in the LATA and would be so identified (e.g., "other than SWBT"). When rates are listed in this manner, the rate schedule to be used:

- for a given Local Channel, Bridged Channel or Inter-Bridge Channel (including any channel options, miscellaneous functions, miscellaneous equipment, or special access surcharges associated with such channels) is determined by the LEC which serves the serving wire center of the Customer premises involved (including any terminations in LEC central offices)

SECTION 2 - GENERAL REGULATIONS

2.6 PAYMENTS AND CHARGES (Continued)

2.6.2 APPLICATION OF CHARGES (Continued)

A. RATE SCHEDULES (Continued)

Example 1: Assume that a multipoint Local Channel Service is comprised of four bridged channels all terminated at the same LEC bridge. Assume also that the serving wire centers of all Customer premises are located in territory served by Southwestern Bell. Schedule 1 rates would apply to all four bridged channels.

Example 2: Assume the same multipoint Local Channel Service described in Example 1, except that the serving wire center of one Customer premises (not the LEC central office bridge location) is in the territory of the General Telephone Company. Schedule 2 rates would apply to the one bridged channel with the Customer premises served by the General Telephone Company. Schedule 1 rates would continue to apply to the remaining three bridged channels.

If there is no Rate Schedule 2 listed for a LATA, rates will be filed on an individual case basis when demand materializes.

ECA Tariff F.C.C. No. 4 contains a list of serving wire centers and identifies the LEC which serves a given serving wire center.

Note 1 - Only one rate schedule will be shown for the LATA rates listed in Section 18 (Additional Administrative and Operational Functions). The LATA rates shown in that section apply for Additional Administrative and Operational Functions furnished anywhere within the LATA indicated.

2.6.3 PAYMENT OF CHARGES

Payment is due upon presentation of a bill for the local channel service furnished. A local channel service may be discontinued for nonpayment of a bill (see Violation of Regulations, Section 2.9 following).

SECTION 2 - GENERAL REGULATIONS

2.6 PAYMENTS AND CHARGES (Continued)

2.6.4 MINIMUM PAYMENT PERIOD AND NOTICE OF DISCONTINUANCE

A. MINIMUM PAYMENT PERIOD

The minimum payment period is the minimum period for which the Customer is required to make payment for the local channel service. The charges applicable to the minimum payment period include the recurring charge(s) plus any nonrecurring and/or special construction charge(s) that may apply.

The minimum payment period is calculated from the date that billing started after (1) the initial installation, or (2) a reinstallation after a move or change.

Minimum payment period charges apply if the Customer discontinues the local channel service before the specified minimum payment period expires. The minimum payment period for a given local channel service component is specified in the section of this tariff applicable to that local channel service.

B. NOTICE OF DISCONTINUANCE

AT&T requires notice when local channel services are to be discontinued. The required notice period and the application of charges, if any, are specified in the section applicable to the specific local channel service.

2.6 PAYMENTS AND CHARGES (Continued)

2.6.5 ADVANCE PAYMENTS AND DEPOSITS

A. ADVANCE PAYMENT

An advance payment will be required before a local channel service is provided only when a Customer has a history of late payments to AT&T or when a Customer's financial responsibility is not a matter of record. The advance payment will equal the charges for the minimum payment period. In addition, the advance payment will include an amount equal to the estimated nonrecurring charges and one month's recurring charges (if any) when special construction is involved. In addition, the advance payment will be credited on the Customer's bill(s). A deposit may apply in addition to an advance payment, see B. following.

B. DEPOSITS

To safeguard its interests, AT&T will only require a Customer which has a proven history of late payments to AT&T or whose financial responsibility is not a matter of record, to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to the sum of the charges for the minimum payment period for the local channel service.

If a Termination Charge or a Maximum Termination Liability is specified, the deposit may include an additional amount. This additional amount will not exceed the maximum charge(s) specified for the Termination Charge or Maximum Termination Liability.

An advance payment may be required in addition to a deposit, see A. preceding.

A deposit will be credited to a Customer's account, and any credit balance remaining will be refunded, when the Customer has established credit, or when the Customer has established a prompt payment record with AT&T for one year, or when the local channel service for which the deposit had been required, is discontinued.

2.6.6 TYPES OF CHARGES

There are two types of charges, recurring and nonrecurring. These charges are as follows:

A. RECURRING CHARGES

The recurring charges for a local channel service are listed in the applicable local channel service section as:

SECTION 2 - GENERAL REGULATIONS

2.6 PAYMENTS AND CHARGES (Continued)

2.6.6 TYPES OF CHARGES (Continued)

A. RECURRING CHARGES (Continued)

1. MONTHLY CHARGE

A monthly charge (including a Special Access Surcharge, if applicable) applies each month or fraction thereof that a local channel service is furnished. Monthly charges start on the day after the local channel service is installed, but not before the due date of the order unless the Customer agrees to an earlier installation. Charges accrue through and include the day that the local channel service is discontinued. Monthly charges will be billed in advance, except where prohibited by law. When the billing date and the date that the local channel service is started, changed, or discontinued do not coincide, the charges will be adjusted to reflect the fractional part of the month involved (see Fractional Charges and Credits, Section 2.6.9). For billing purposes each month is considered to have 30 days.

B. NONRECURRING CHARGES

A nonrecurring charge applies for an activity, such as an installation, a move or a change, ordered by the Customer. A nonrecurring charge applies for each activity performed. The charge may differ according to the work activity involved. Other charges, such as Termination Charges, are also classified as nonrecurring charges. In addition, other charges for specific functions (e.g., Maintenance of Service) as stated in this tariff are applied on a nonrecurring basis. Following is a description of the generic nonrecurring charges. Other nonrecurring charges are described in Sections 2.6.7, 2.6.8 and in Section 18, following.

2.6 PAYMENTS AND CHARGES (Continued)

2.6.6 TYPES OF CHARGES (Continued)

B. NONRECURRING CHARGES (Continued)

1. INSTALLATION CHARGE

An Installation Charge applies when a local channel service is furnished. Installation Charges are listed in the appropriate sections of this tariff (see also Move Charges, following; Cancellation of an Order, Section 2.6.7.B following and Change in Service Arrangement, Section 2.6.8 following).

2. MOVE CHARGE

A move charge applies when the physical location of a local channel service is changed at the Customer's request.

A move normally involves an interruption of the local channel service for the period required to complete the move. No credit allowance will be granted for that period.

When a Customer requests the installation of a duplicate local channel service to avoid interruption during a move, recurring and nonrecurring charges will apply for the duplicate local channel service. Charges will commence when the duplicate local channel service is furnished. A new minimum payment period will apply for the duplicate local channel service.

a. MOVES IN THE SAME BUILDING

When a local channel service is moved to a new location in the same building at the Customer's request, a Move Charge applies. A Move Charge is equal to one-half of the Installation Charge for the local channel service involved, including the Access Coordination Function and any channel options, miscellaneous equipment and arrangements that are associated with the service at that building.

2.6.7 CHANGE OF A DUE DATE, CANCELLATION OR OTHER CHANGES TO AN ORDER

The regulations set forth in this section for change of a due date, cancellation, or other changes to an order apply to all local channel service components.

A. CHANGE OF A DUE DATE

When an order for a local channel service component is placed, a due date will be established and confirmed with the Customer. Due dates may be delayed or advanced subject to the regulations set forth in 1. through 3. following.

1. DELAY OF A DUE DATE BY THE CUSTOMER

A Customer may delay the due date of an order involving the installation, move or rearrangement of a local channel service component when:

- B. following is not applicable and the request for the delay is received by AT&T prior to the order's due date, and
- The total delay measured from the order's initial due date does not exceed 30 cumulative calendar days.

When the due date is delayed, a Due Date Change Charge will apply (see Due Date Change Charge, Section 18.2.6).

Orders involving the discontinuance of a local channel service component may be delayed at any time prior to the due date. There will be no maximum delay period for these orders, however, the Due Date Delay Charge will apply.

2.6.7 CHANGE OF A DUE DATE, CANCELLATION OR OTHER CHANGES TO AN ORDER
(Continued)

A. CHANGE OF A DUE DATE (Continued)

1. DELAY OF A DUE DATE BY THE CUSTOMER (Continued)

a. MAXIMUM DELAY PERIOD

When the Customer has delayed an order involving the installation, move or rearrangement of a local channel service component for the maximum 30 cumulative calendar day period, the order may not be delayed again by the Customer. In such case, unless B. following applies, the Customer has the option to (1) accept billing for the local channel service component ordered, or (2) cancel the order and pay the applicable cancellation charge for the local channel service component ordered. The billing or cancellation is effective on the 30th cumulative calendar day of the delay.

If the Customer elects to accept billing, the installation will be completed as soon as reasonably practical after the Customer advises AT&T that the installation can be completed.

2. DELAY OF A DUE DATE BY AT&T

AT&T will make every reasonable effort to assure that the local channel service component ordered is furnished on the due date. However, in some cases a delay in the installation may be unavoidable. If an order is delayed beyond its due date for more than 30 cumulative calendar days and such delay is not requested or caused by the Customer, the Customer may cancel the order without cancellation charges applying.

2.6.7 CHANGE OF A DUE DATE, CANCELLATION OR OTHER CHANGES TO AN ORDER
(Continued)

A. CHANGE OF A DUE DATE (Continued)

3. ADVANCE OF A DUE DATE

A Customer's request for an advancement in the due date of an order will be accepted by AT&T when the request can be accommodated without delaying orders of other Customers. When the due date is advanced, a Due Date Change Charge will apply (see Due Date Change Charge, Section 18.2.6).

B. CANCELLATION OF AN ORDER

A critical date schedule is established by AT&T for each local channel service order placed by the Customer. AT&T uses this schedule to identify key activities in the service order process, to monitor the progress of the installation and to administer the schedule of cancellation charges. Critical date schedules may vary between service orders. The specific critical dates which have been established for a given order can be obtained from the Customer's AT&T sales negotiator.

1. CANCELLATION AFTER THE START OF INSTALLATION

The critical dates monitored by AT&T are:

- Application Date (APP): The date on which the Customer provides a firm commitment and sufficient information for AT&T to proceed with issuance of a firm order for service.
- Scheduled Issue Date (SID): The date on which the service order is entered into AT&T's service order distribution system.

Service Commission

A. CHANGE OF A DUE DATE (Continued)

3. ADVANCE OF A DUE DATE

A Customer's request for an advancement in the due date of an order will be accepted by AT&T when the request can be accommodated without delaying orders of other Customers. When the due date is advanced, a Due Date Change Charge will apply (see Due Date Change Charge, Section 18.2.6).

B. CANCELLATION OF AN ORDER

A critical date schedule is established by AT&T for each local channel service order placed by the Customer. AT&T uses this schedule to identify key activities in the service order process, to monitor the progress of the installation and to administer the schedule of cancellation charges. Critical date schedules may vary between service orders. The specific critical dates which have been established for a given order can be obtained from the Customer's AT&T sales negotiator.

CANCELLED

1. CANCELLATION AFTER THE START OF INSTALLATION

MAY 16 1992

The critical dates monitored by AT&T are:

BY 104 R. 57 50

Public Service Commission
MISSOURI

- Application Date (APP): The date on which the Customer provides a firm commitment and sufficient information for AT&T to proceed with issuance of a firm order for service.
- Scheduled Issue Date (SID): The date on which the service order is entered into AT&T's service order distribution system.

B. CANCELLATION OF AN ORDER (Continued)

1. CANCELLATION AFTER THE START OF INSTALLATION (Continued)

- Design Layout Report Date (DLRD): The date on which the Design Layout Report (DLR) or access information is received by the Company from the LEC. (CT)
- Records Issue Date (RID): The date on which all circuit design and assignment information is sent to the central office installation force.
- Wired and Office Tested Date (WOT): The date by which all intraoffice wiring is completed, all plug-ins are optioned and aligned, and frame continuity is established.
- Circuit Test and Acceptance (CTA) Date: The date on which overall testing of the service is to be completed.

Due Date (DD): The date established for completion of the service installation.

If an order for an Access Coordination Function is canceled by the Customer prior to the SID or if an order for any other local channel service is cancelled by the Customer prior to the DLRD, no charge applies. For cancellations by the Customer on or after those dates, a cancellation charge will apply to each canceled order. The amount of the cancellation charge will vary according to the category of service ordered and the date reached in the critical date schedule.

Cancellation charges applicable to the components of each category of local channel service are listed in the service-specific sections of this tariff, except for Terrestrial 45 Mbps Local Channel Services. The cancellation charges for this exception will be equal to an estimate of the net costs incurred in each installation not to exceed the charges for the minimum payment period. (AT)

2.6.7 CHANGE OF A DUE DATE, CANCELLATION OR OTHER CHANGES TO AN ORDER
(Continued)

B. CANCELLATION OF AN ORDER (Continued)

1. CANCELLATION AFTER THE START OF INSTALLATION (Continued)

If the Customer or AT&T changes the due date of an order, in accordance with Section 2.6.7.A preceding, the critical date schedule for the order will be revised for those critical dates not yet passed. Subsequent cancellation of the order by the Customer will cause a cancellation charge based on the revised schedule to be incurred.

C. CANCELLATION INVOLVING SPECIAL CONSTRUCTION

If a Customer cancels an order which involves special construction, the applicable charges for the special construction are those set forth in the Private Line Services Tariff P.S.C. Mo. No. 9. (CT)
Those charges are in addition to any charges which are applicable under this tariff for the cancellation of an order. (CT)

D. OTHER CHANGES TO AN ORDER

When a Customer changes (1) the point of local channel termination on a premises, (2) the interface, or (3) the channel options on an order before the service date, such a change is considered to be a design change. A Design Change Charge applies as specified in this schedule, (see Design Change Charge, Section 18.2.7). A change in premises is considered to be a cancellation of the order for the local channel service. If the change does not involve all locations on a local channel service but causes the remainder of the locations to be delayed more than 30 days beyond their due date, the Customer has the option of (1) accepting billing for the remaining locations or (2) cancelling those locations and paying the applicable cancellation charge.

A Customer's order for modification of a local channel service after the service date is considered to be a change in service arrangement, as specified in Section 2.6.8, following.

2.6.8 CHANGE IN SERVICE ARRANGEMENT

When a Customer requests that a local channel service be changed after the service date, charges are determined in accordance with A. and B. following.

A. WHEN CHARGES APPLY

Charges apply for the changes listed below.

1. When a change involves any of the activities identified in a. through e. following, it is considered to be the discontinuance of one local channel service and the installation of another. Installation charges will apply for all components involved (including the Access Coordination Function) and a new minimum payment period is established:
 - a. A change from one category of local channel service to another (e.g., voice grade to digital data).
 - b. A change within a category of service from one transmission speed, transmission mode (i.e., one-way or two-way), bandwidth or technical specifications package to another.
 - c. A change from a two-wire termination to a four-wire termination or vice versa.
 - d. A change from two-point to multipoint local channel service or vice versa.
 - e. A change from one access vendor to another access vendor when AT&T provides only the Access Coordination Function.
2. When a change involves moving the physical location of a local channel service (including changes caused by a Customer specifying a particular AT&T Central Office as set forth in Section 4.1.1 following), move charges apply as specified in Section 2.6.6.B.2 preceding.

2.6 PAYMENTS AND CHARGES (Continued)

2.6.9 FRACTIONAL CHARGES AND CREDITS

A. COMPUTING CHARGES OR CREDITS FOR A FRACTIONAL PART OF A MONTH

When rates are stated on a monthly basis, each month is considered to have 30 days for billing purposes. Charges or credits for a fractional part of a month are calculated by counting the number of days remaining in the billing period after the local channel service component is furnished or has been discontinued. The number of days remaining in the billing period (including the 31st day of a 31-day month, if applicable) are counted starting with the day after the date on which the local channel service component was furnished or discontinued. Divide that figure by 30 days. The resultant fraction is then multiplied by the monthly charge to arrive at the fractional monthly charge or credit.

Example: Local Channel Service furnished/discontinued on the 15th day of a 30-day month.

Monthly Charge	=	\$1,000.00
# Days Remaining in Billing Period	=	15 days
Billing Month	=	30 days
Fractional Monthly Charge/Credit	=	$\frac{\# \text{ of Days Remaining in Billing Period}}{\text{Billing Month}} \times \text{Mo Chg}$
Fractional Monthly Charge/Credit	=	$\frac{15}{30} \times \$1,000.00$
Fractional Monthly Charge/Credit	=	\$500.00

In the above example, the number of days remaining in the billing period would be 13 for a 28-day month and 16 for a 31-day month. The same process would be used for computing the fractional monthly charge or credit.

B. COMPUTING FRACTIONAL CHARGES OR CREDITS FOR A RATE CHANGE
(Continued)

1. MONTHLY RATES (Continued)

Billing for the Month in
Which the Rate Change Occurred
(for a rate decrease subtract
the fractional charges) $= \$1,000 + \$34 = \$1,034.00$

Subsequent New Monthly
Charges $= \$1,000 + \$60 = \$1,060.00$

In the above example, the number of days remaining in the
billing period would be 19 for a 30-day month and 20 for a 31-
day month. The same process would be used for computing the
fractional monthly charge or credit.

C. ROUNDING TO THE NEAREST CENT

If the computed charge(s) or credit include one-half cent or more
the fraction is rounded up to the next higher cent. Fractions of
less than one-half cent are disregarded.

2.6 PAYMENTS AND CHARGES (Continued)

REC'D OCT 02 2000

2.6.10 LATE PAYMENT CHARGE

If any portion of the Customer's payment is received by the Company after the payment due date, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, subject to billing and system availability, a Late Payment Charge shall be due to the Company, provided billing capability exists. The Late Payment Charge shall be the portion of the payment not received by the date due, multiplied by a factor. The late payment factor shall be 1.5% per month (18% annually), and will apply to all amounts in excess of \$25.00 previously billed on a Customer's bill, including arrears and Late Payment Charges, and which remain unpaid within 30 calendar days from the invoice date. The minimum Late Payment Charge is \$5.00.

Late Payment Charges do not apply to the disputed portion of unpaid balances, if resolved in favor of the Customer. The disputed portion of unpaid balances, if resolved in favor of the Company, may be subject to the Late Payment Charge as of the original due date noted on the Customer's bill. Undisputed amounts of the same bill may be subject to the Late Payment Charge if they remain unpaid by the due date noted on the Customer's bill.

Collection procedures and security deposit requirements are unaffected by the application of the Late Payment Charge.

The Late Payment Charge does not apply to final accounts.

SECTION 2 - GENERAL REGULATIONS

2.7 CREDIT ALLOWANCES FOR INTERRUPTIONS

2.7.1 GENERAL

A credit allowance will be given when a local channel service is interrupted, except as specified in Section 2.7.2 following. An interruption period begins when the Customer reports a local channel service to be interrupted and releases it for testing and repair. An interruption period ends when the local channel service is operative. If the Customer reports a local channel service to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

In addition, there are specific credit allowance regulations that only apply to a given category of local channel service. Those regulations are specified in the section of the tariff which is applicable to the specific local channel service.

2.7.2 WHEN CREDIT ALLOWANCE DOES NOT APPLY

Credit allowance does not apply for:

- A. Interruptions caused by the negligence of the Customer or others authorized by the Customer to use the Customer's local channel service,
- B. Interruptions due to the failure of power, equipment, systems or connections not provided by AT&T,
- C. Interruptions during any period in which AT&T or its agents are not afforded access to the Customer's premises where the local channel service is terminated,
- D. Interruptions during any period when the Customer or User has released a local channel service for maintenance or rearrangement purposes, or for the implementation of a Customer order,

2.7 CREDIT ALLOWANCES FOR INTERRUPTIONS (Continued)

2.7.2 WHEN CREDIT ALLOWANCE DOES NOT APPLY (Continued)

- E. Interruptions which continue because of the Customer's failure to authorize replacement of any element of special construction, as specified in the Private Line Services Tariff P.S.C. Mo. No. 9. (CT)
The period for which credit is not allowed, begins on the seventh day after the Customer receives AT&T's written notification of the need for such replacement. It ends on the day after receipt of the Customer's written authorization for such replacement,
- F. Interruptions during periods when the Customer elects not to release the local channel service for testing and/or repair,
- G. Interruptions caused by the failure of Private Line Services connected to a local channel service at an AT&T Central Office, or
- H. An interruption or group of interruptions, resulting from a common cause, for amounts less than one dollar.

2.7.3 USE OF ANOTHER MEANS OF COMMUNICATION

If the Customer elects to use another means of communications during the period of interruption, the Customer must pay the charges for the alternative service used.

2.7.4 TEMPORARY SURRENDER OF A LOCAL CHANNEL SERVICE

In certain instances, the Customer may be asked to surrender a local channel service for purposes other than maintenance, testing or activity relating to a service order. If the Customer consents, a credit will be given. One day's credit will be given for each 24 hour period or fraction thereof that the local channel service is surrendered.

2.7 CREDIT ALLOWANCES FOR INTERRUPTIONS (Continued)

2.7.5 CALCULATION OF CREDIT ALLOWANCES

The credit allowances for all local channel service components are set forth in this section.

For calculating credit allowances for monthly local channel services, every month is considered to have 30 days.

- A. (RESERVED FOR FUTURE USE)
- B. ALL OTHER LOCAL CHANNEL SERVICES

A credit allowance will be given for all local channel services that are interrupted for 30 minutes or more with the exception of Terrestrial 1.544 Mbps Local Channel Services as described in Section 2.7.5.B.2 following and Terrestrial 45 Mbps Local Channel Services as described in Section 2.7.5.B.3 following. The credit allowance is determined in the following manner:

- a. Calculate the Average Channel Value by adding the total monthly charges for the local channel service. That sum is then divided by the total number of local channels or bridged channels on the local channel service to obtain the Average Channel Value.
- b. Calculate the Average Channel Value for one full day by dividing the Average Channel Value for one month by 30 days:
 - a. divided by 30,
- c. Multiply the Average Channel Value for one day by the interruption period to be credited (see Calculation Table, Section 2.7.5.1 following) in order to determine the credit for one channel: b. x interruption period.

If more than one interruption is reported on a channel in a given month, each subsequent interruption is considered independently in calculating total credits for that channel on the following month's bill. However, the cumulative credit allowances may not exceed 100 percent, per channel, in a given month. Credit may not be carried over to subsequent months.

The Customer's recurring charges for the channel and associated rate elements in the month that the interruption occurs will be the basis for calculation of the credit allowance for that month. Discounts due to pricing plans will be applied prior to the application of credit allowances.

SERVICE ASSURANCE WARRANTY

Length of Interruption

Credit Per Interruption

1 minute up to, but not including, 1 hour	5.0%
1 hour up to, but not including, 2 hours	10.0%
2 hours up to, but not including, 3 hours	15.0%

SECTION 2 - GENERAL REGULATIONS

2.9 VIOLATION OF REGULATIONS

2.9.1 GENERAL

AT&T may take immediate action to protect its local channel services or interests when certain regulations contained in this tariff are violated. The specific regulations involved and the action which will be taken by AT&T are as specified in Sections 2.9.2 and 2.9.3 following.

2.9.2 INTERFERENCE, IMPAIRMENT OR IMPROPER USE

AT&T will take immediate action to temporarily suspend a local channel service when a Customer violation of Section 2.2 preceding results in any of the following:

- Subjects installation/maintenance personnel or the public to hazardous conditions,
- Circumvents AT&T's ability to charge for its services, or
- Results in immediate harm to the local channel service or other AT&T service.

In such cases, AT&T will make reasonable efforts to give the Customer prior notice before temporarily suspending service.

In addition, if a Customer fails to comply with Section 2.2 preceding, AT&T may, on ten (10) days' written notice by certified U.S. mail to the Customer, deny requests for additional local channel services and/or temporarily suspend the local channel service to the non-complying Customer. If AT&T does not deny or temporarily suspend the local channel service(s) involved on the date of the ten (10) days' notice, and the Customer's non-compliance continues, nothing contained herein shall preclude AT&T's right to temporarily suspend the local channel service or deny requests for additional local channel services without further notice.

SECTION 2 - GENERAL REGULATIONS

2.10 DEFINITION OF TERMS

ACCESS

The communications services, channels, assemblies and systems outside of AT&T's inter office network that connect the Customer premises to the AT&T Central Office.

ASSEMBLY

A configuration consisting of Customer premises equipment and/or a communications system which is connected to a service.

AT&T CENTRAL OFFICE

The physical point of access for a service category to the AT&T inter office network. Criteria for establishing AT&T Central Offices and a list of AT&T Central Offices with services provided are in AT&T Tariff F.C.C. No. 10.

ATTENUATION DISTORTION

The difference in the amount of power lost at certain frequencies on a local channel compared to the power lost at a frequency of 1004 Hz.

BAUD

A unit of signaling speed. It is the reciprocal of the time duration in seconds of the shortest signal element (mark or space) within a code signal. The speed in bauds is the number of signal elements per second.

BIT

The smallest unit of information in the binary system of notation.

2.10 DEFINITION OF TERMS (Continued)

INTERMODULATION DISTORTION

A measure of the non-linearity of a channel. It is measured using four tones, and evaluating the ratios (in dBs) of the transmitted composite four-tone signal power to the second-order products of the tones (R2), and the third-order products of the tones (R3).

ISOCHRONOUS

Timing that is derived from the signal carrying the data (i.e., no timing or clock lead is provided at the interface on the Customer's premises).

LOCAL ACCESS AND TRANSPORT AREA (LATA)

A geographical area established for the provision and administration of communications service. It encompasses one or more designated exchanges which are grouped to serve common social, economic and other purposes.

LOCAL CHANNEL

A private line channel that connects an AT&T Central Office to a Customer's premises, or connects two Customer's premises.

LOCAL EXCHANGE COMPANY

A company which furnishes exchange telephone service.

MULTIFREQUENCY PULSING

An inband inter office address signaling method in which ten decimal digits and five auxiliary signals are each represented by selecting two frequencies out of a group consisting of: 700, 900, 1100, 1300, 1500, and 1700 Hz.

Section 2
Original Sheet 74

SECTION 2 - GENERAL REGULATIONS

2.10 DEFINITION OF TERMS (Continued)

RECEIVED

INTERMODULATION DISTORTION

SEP 15 1991

A measure of the non-linearity of a channel. It is measured using four tones, and evaluating the ratios (in dBs) of the transmitted composite four-tone signal power to the second-order products of the tones (R2), and the third-order products of the tones (R3).

ISOCHRONOUS

Timing that is derived from the signal carrying the data (i.e. no timing or clock lead is provided at the interface on the Customer's premises).

CANCELLED

LOCAL ACCESS AND TRANSPORT AREA (LATA)

MAY 16 1992

BY 1st R.S. #74

A geographical area established for the provision of administration of communications service. It encompasses more designated exchanges which are grouped to serve common social, economic and other purposes.

LOCAL CHANNEL

A private line channel that connects an AT&T Central Office to a Customer's premises, or connects two Customer's premises.

LOCAL EXCHANGE COMPANY

A company which furnishes exchange telephone service.

MULTIFREQUENCY PULSING

An inband inter office address signaling method in which ten decimal digits and five auxiliary signals are each represented by selecting two frequencies out of a group consisting of: 700, 900, 1100, 1300, 1500, and 1700 Hz.

SECTION 2 - GENERAL REGULATIONS

2.10 DEFINITION OF TERMS (Continued)

MULTILINE TERMINATING SYSTEM

Customer premises switching equipment and key telephone type systems which are capable of terminating more than one local exchange service line, WATS access line, private line service or Customer-provided communications system.

MULTI-POINT LOCAL CHANNEL SERVICE

A service which connects three or more points on a direct electrical basis via a Local Exchange Company bridge(s).

NETWORK INTERFACE

The point of demarcation on the end user's premises at which the access supplier's responsibility for the provision of access ends.

NONRECURRING CHARGES

Nonrecurring charges are one time charges that apply for a specific work activity (i.e., installation or change to an existing service).

OFFICE CONNECTION

A private line service component which interconnects channels and other service components at an AT&T Central Office. An office connection consists of access connections and function connections and applies to all services.

OFFICE FUNCTION

A private line service component located and furnished at an AT&T Central Office to perform channel derivation, switching, conversion, transfer or conferencing functions.

2.10 DEFINITION OF TERMS (Continued)

REC'D MAY 04 1999

PERMANENT VIRTUAL CIRCUIT (PVC)

(AT)

An end-to-end connection between serving offices in a frame relay network. Each PVC has an associated CIR that defines the speed of the PVC.

(AT)

POINT OF INTERFACE

The point of demarcation between AT&T and an access supplier. This point, located at an AT&T Central Office, establishes the technical interface, the test point, and the point of division of operational responsibility.

PREMISES

A building or buildings on continuous property (except railroad right-of-way, etc.) not separated by a public thoroughfare.

PRICING CENTRAL OFFICE

The AT&T Central Office for a particular category of local channel service which is nearest to the Customer's premises (measured between the serving wire centers of the Customer's premises and the AT&T Central Office).

REGISTERED

A term which means compliance with and approval within the Registration Program.

REGISTRATION PROGRAM

Part 68 of the FCC's Rules and Regulations which permits Customer Equipment to be directly connected to WATS, LDMTS, and certain local channel services without the requirement for protective circuitry.

RINGING

An alternating or pulsating current intended to produce an audible or visible alerting signal.

SERVICE DATE

The date that billing starts for a local channel service component.

SERVICE PERIOD:

The period of time during which AT&T furnishes a local channel service. It encompasses the consecutive period from the start of service to the end of service ordered by the Customer.

SERVING WIRE CENTER

The wire center from which the Customer's premises or AT&T Central Office would normally obtain dial tone from the Local Exchange Company.

SERVING WIRE CENTER AREA

The territory encompassed by a serving wire center.

SIGNAL-TO-C-NOTCHED NOISE RATIO

The ratio in dB of a tone signal to the corresponding C-notched noise.

SINGLE SERVICE

The transmission of communications in one direction or alternately in either direction. It includes bidirectional non-simultaneous transmission of tones required solely for control purposes or quick turnaround or synchronization.

STANDARD INTERVAL INSTALLATION DUE DATE

The standard interval installation due date is established by AT&T for the Local Channel and the Access Coordination Function. AT&T uses these dates to identify key activities in the order process and to monitor the progress of the installation. These dates may vary over time.

STANDARD JACK

The means of connecting Customer Equipment to a local channel service as specified in the Registration Program.

START OF INSTALLATION

An installation of service, channels and equipment or a move, change or rearrangement, applied for by an applicant or Customer, is considered to have started when the Company incurs any expense in connection therewith, or in preparation thereof, which would not otherwise have been incurred, provided:

- The applicant or Customer has advised the Company to proceed with the installation, and
- The Company has advised the applicant or Customer that, in accordance with their order, it is commencing the installation.

TECHNICAL SPECIFICATIONS PACKAGE

A combination of the various technical specifications associated with a Voice Grade Local Channel Service. Each package is designed to satisfy specific Customer applications (e.g., voice, data, telephoto, etc).

3.1 GENERAL

REC'D MAY 04 1999

This section provides a general overview of the local channel services available in this tariff. It includes a description of each type of local channel service. More detailed description and specific rate information are located within the section of this tariff that applies to the given category of local channel service.

3.2 PRIVATE LINE LOCAL CHANNEL SERVICE CATEGORIES

There are several categories of local channel services. Each category has its own technical characteristics and specifications, and most are further subdivided into speeds or types of transmission. Following is a brief description of each local channel service category.

3.2.1 TERRESTRIAL 1.544 MBPS LOCAL CHANNEL SERVICE

Provides services for the transmission of large volumes of communications at 1.544 Mbps.

3.2.2 DIGITAL DATA LOCAL CHANNEL SERVICE

Provides services for the transmission of synchronous data at speeds of 9.6 kbps or 56.0 kbps.

3.2.3 REGIONAL FRAME RELAY SERVICE

Provides high speed, order-preserving transmission of frames between Local Area Networks (LANs) or other high speed data communications equipment for distributed computing applications.

(AT)

(AT)

3.2.4 VOICE GRADE LOCAL CHANNEL SERVICE

Provides services for the transmission of analog signals within an approximate bandwidth of 300 to 3000 Hz.
