RE: Notice of Election and Withdrawal of CenturyTel of Missouri, LLC d/b/a CenturyLink (Missouri) Tariffs Pursuant to §392.461, RSMo.

Dear Secretary:

Section 392.461 allows telecommunications companies, upon notice to the Missouri Public Service Commission ("Commission"), to elect to be exempt from the requirement that they offer retail services to residential or business end users only through tariff, and to withdraw such tariffs.

CenturyTel of Missouri, LLC d/b/a CenturyLink hereby provides notice of its election to be exempt from tariff filing requirements, and of its intent to withdraw the below-listed tariffs, effective October 1, 2014.

General and Local Exchange Tariff PSC MO. NO. 1
Long Distance Message Telecommunications Service Tariff PSC MO. NO 3
Wide Area Telecommunications Service Tariff PSC MO.NO 4
Private Line Service Tariff PSC MO.NO 5
Digital Data Transmission Service Tariff PSC MO. NO 6
Exchange Boundary Maps P.S.C. MO. NO. 7

Compliant with the requirement that electing companies publish generally available retail prices on a website, the *Local Terms of Service* containing the terms, conditions and rates for services previously provided under tariffs will be located on CenturyLink's website at www.CenturyLink.com/tariffs. Affected customers were advised at least thirty days in advance of CenturyLink's withdrawal of the above referenced tariffs and of the website at which *Local Terms of Service* are available.

The withdrawal of tariffs and establishment of *Local Terms of Service* will not result in any changes to customers' current services or rates. CenturyLink will notify customers in advance if future changes are made.

If you have any questions or need additional information, you may call me at (913) 353-7087.

Sincerely,

A handwritten signature in cursive script that reads "Robyn Crichton".

GENERAL AND LOCAL EXCHANGE TARIFFRULES AND REGULATIONS

B. Obligation and Liability of the Company

1. Availability of Facilities and Equipment

- a. The Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary pole lines, circuits, and equipment.
- b. The installation and restoration of services shall be subject to the regulations set forth in this Tariff and the Company's Facilities for Intrastate Access Tariff, concerning the Telecommunications Service Priority (TSP) System.

2. Interruptions of Service

- a. In the event of an interruption to the service not due to the negligence or willful act of the customer or customer premises equipment, an allowance will be made if the interruption continues for more than 24 hours from the time it is reported to or detected by the Company.
- b. The allowance will be limited to the prorated portion of the monthly rate or guarantee for the service or portion thereof made inoperative. No other liability shall in any case attach to the Company in consideration of such interruptions.

3. Liability

- a. In view of the possibility of errors and difficulties occurring in the transmission of messages by telephone, and the impossibility of fixing the cause thereof, the customer assumes all risks connected with the service except as follows:
 - 1) If the initial installation is defective or if service is interrupted otherwise than by the negligence or willful act of the customer or due to customer premises equipment, an allowance at the minimum rate for the telephone facilities and class of service at the time of the installation or interruption shall be made for the time such outage continues after notice and demand to the Company unless such outage is due to the inside wiring or customer provided equipment. No other liability shall in any case attach to the Company.

3. Liability (Cont'd)

- b. In the case of interruption to any interexchange service (Private Lines, WATS, etc.), allowance for message toll service used by the customer during the period of interruption, will be made at the regular message toll rates.
- c. While the Company's local exchange access line service may be used by the customer for dial-up access, the advertised speeds of the customer's modem may not be attainable with this service and are not guaranteed by the Company. The Company will assure, however, that its local exchange access lines meet the standards outlined in 4CSR 240-32.060.

4. Directory Errors and Omissions

- a. The Company's liability for damages on account of interruptions to service due to errors or omissions in directory listings will be limited to a pro rata abatement of the charge for such of the customer's service as is affected, the maximum abatement not to exceed one-half the service charges for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listing.
- b. In the cases of extra listings in the alphabetical section of the directory for which a charge is made, the Company's liability shall be limited to an amount not to exceed the established rate for such listing during the period which the error or omission continues.

5. Transmitting Messages

- a. The Company does not transmit messages but offers the use of its facilities for communications between patrons. If because of transmission difficulties the operator, in order to accommodate the customer, repeats messages she is deemed to be acting as the agent of the persons involved and no liability shall attach to the Company because of any errors made by the operator or misunderstandings that may arise between customers because of the errors.

No liability shall attach to the Company by reason of any defacement or damage to the customer's premises resulting from the existence of the Company's facilities and associated wiring on such premises, or by the installation or removal thereof, unless such defacement or damage is the result of the sole negligence of the Company.

8. Unauthorized Access and Hacking

C. Use of Service and Facilities

1. Ownership and Use of Regulated Services

- a. Coin-operated, public, semi-public or pay telephone equipment, and wiring and facilities furnished by the Company to provide transmission service on the premises of a customer are the property of the Company. The agents and employees of the Company shall have the right to enter said premises at any reasonable hours for the purpose of installing, inspecting, maintaining or repairing the equipment, instruments and lines, or for the purpose of making collections from coin boxes or upon termination of the service, for the purpose of removing such equipment, instruments and lines. Such equipment, instruments and lines are not to be used for performing any part of the work of transmitting, delivering or collecting any message where any toll or consideration has been or is to be paid any party other than the Company, without the written consent of the Company.
- b. If the installation and maintenance of service are requested at locations which are or may become hazardous or dangerous to the Company's employees or the public or property, the Company may refuse to install and maintain such service, and, if such service is furnished may require the customer to install and maintain such services and may also require the customer to indemnify and hold the Company harmless from any claims, loss or damage by reason of the installation and maintenance of such service.

No liability shall attach to the Company by reason of any defacement or damage to the customer's premises resulting from the existence of the Company's facilities and associated wiring on such premises, or by the installation or removal thereof, unless such defacement or damage is the result of the sole negligence of the Company.

C. Use of Service and Facilities

1. Ownership and Use of Regulated Services

- a. Customer telephone service, as distinguished from public and semi-public telephone service, is furnished only for use by the customer, the customer's family, employees or business associates, or persons residing in the customer's household, except as the use of the service may be extended to persons temporarily subleasing a customer's residential premises. The Company has the right to refuse to install customer transmission service or to permit such service to remain on premises of public or semi-public character when the instrument is so located that the public in general or patrons of the customer may make use of the service. At such locations, however, transmission service may be installed, provided the instrument is so located that it is not accessible for public use.

3. Use of Party Line Service

- a. Applications for party line service are accepted by the Company with the understanding that each customer will so use the service as not to interfere with an equitable proportionate use of the service by the other customers on the same line. When the duration or number of local messages sent or received by a party line customer is so great as to prevent an equitable proportionate use of the line by other customers on the line, the Company shall have the right to require the customer to contract for a higher grade of service, or to discontinue the service of the customer in question. The Company reserves the right to limit the continuous use of a party line for a local message to five minutes.

4. Tampering with Equipment

- a. The Company may refuse to furnish or may deny transmission service to any person, firm or corporation on whose premises is located any telephone equipment owned by the Company which shows any evidence of tampering, manipulation, or operation, or use of any device whatsoever, for the purpose of obtaining telephone service without payment of the charges applicable to the service rendered.
