Demarcation Point

The point of connection, provided and maintained by the telephone company at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling this point of connection will generally be the modular jack into the customer side of the Network Interface Device (NID). The drop and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

Exchange

A geographical area for the administration of telecommunications services established and described by the tariff of a telecommunications company providing basic local telecommunications service.

Exchange Area

The territory served by an Exchange.

Local Channel

That portion of a channel which connects a station to the interexchange channel; it also applies to a channel connecting two or more stations within an exchange area.

Local Exchange Service

Telephone service furnished between subscribers' stations located within the same local service area.

Local Message

A communication between subscribers' stations within the same local service area.

GENERAL RULES AND REGULATIONS

Missouri Public
Service Commission

3. General Rules and Regulations (Cont'd)

REC'D SEP 21 1999

3.3 Obligation and Liability of Company

A. Availability of Facilities

The Company's obligation to furnish telephone service is dependent upon its ability to secure suitable facilities and to provide such service without unreasonable expense.

B. Interruption of Service

An allowance will be made upon notice and demand to the Company for interruption of service not due to subscriber negligence if the interruption continues for more than twenty four hours from the time it is reported to or detected by the Company. The allowance will be the prorated portion of the monthly rate for the service made inoperative.

C. Directory Errors and Omissions

The Company endeavors to correctly list customers, their telephone numbers and other information in the local telephone directory. No liability for damages arising from errors in or omissions of directory listings or listings obtained from Directory Assistance shall attach to the Company, nor will the Telephone Company be a party to controversies arising between subscribers or others as a result of listings published in its directories. In the case of additional or extra listings for which a charge is made, the Company's liability shall be limited to the monthly rate for each such listing for the charge period during which the error or omission continues.

D. Transmitting Messages

The Company does not undertake to transmit messages, but rather offers the use of its facilities, where available, for communication between parties subject to the conditions specified in these tariffs.

If, because of transmission difficulties, the operator, in order to accommodate the customer, repeats messages, she is deemed to be acting as the agent of the persons involved, and no liability shall attach to the Company because of any errors made by the operator or misunderstandings that may arise between customers because of the errors.

E. Defacement of Premises

The Company will make a reasonable effort to leave the customer's property in the same condition as it was found in prior to any Company work. The Company will repair or replace any defacement or damage of property due to installation, existence, or removal of Company property when the damage is the result of negligence of the Company.

F. Maintenance and Repairs

The Company shall bear the expense of all repair and maintenance of its facilities, except where damage or destruction of its facilities are due to the acts or omissions of the subscriber. The subscriber may not rearrange, remove, or disconnect any Company facilities without consent of the Company.

G. Adjustment of Charges

In case of overbilling, a refund will be made by the Company for the amount of excess charges or for an estimate of the overbilling amount.

In case of underbilling, the company reserves the right to backbill for the deficiency charges up to a period of three years.

H. Liability of Company

I. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service and not caused by negligence of the customer shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in transmission occur in excess of 36 hours after notification has been made.

B. Deposits and Guarantees of Payment - Business Service

1. If it is deemed necessary by the Company to safeguard its interests, applicants for service or present customers may be required to make a deposit of an amount not to exceed the sum of two (2) months' monthly recurring charges for services subscribed to plus two (2) months' estimated long distance charges. If the customer's service is terminated for any reason the deposit will be applied to reduce the amount of any unpaid charges for exchange or long distance service.

The interest rate on a deposit held thirty (30) days or more shall be established on October 1 of each year for the period of October 1 that year to September 30 of the following year. The interest rate is a straight nine (9)%. The interest shall be credited monthly upon the account of the customer until service ends or refund is made complete. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer.

2. An applicant for service, or present customer, may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not more than the requested deposit from a present customer acceptable to the Company. The guaranty contract shall be on a form provided by the Company which shall include the Company's right to transfer charges to the limit of the guaranty, from a defaulted bill of the customer, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend guarantor's service.
3. The fact that a deposit has been made, or a guaranty provided, shall in no way relieve the customer from complying with the Company's regulations as to the prompt payment of bills, nor constitute a waiver or modification of the regular practices of the Company providing for the temporary suspension of service or the termination of the service contract for non-payment of bills.

A. Minimum Contract Periods (Cont'd)

Service will not be installed for a period of less than one month unless the subscriber pays, in addition to one month's rental, the cost of installation and removal of the necessary facilities.

B. Termination of Service - Subscriber's Request

Service may be terminated prior to the expiration of the minimum contract period upon notice being given to the Company, and upon payment of any applicable termination charges, in addition to any applicable charges due for service which has been furnished.

In the case of service for which the minimum contract period is one month, termination will require that charges due for the balance of the minimum period be paid.

For special equipment, the charges will be based on the individual circumstances in each case as agreed upon at the time of installation.

Contracts for periods longer than one month covering services which installation required line extensions may be terminated upon payment of all charges that would accrue to the end of the contract period. Alternatively, the contract may be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original subscriber upon agreement by the new applicant to assume the responsibilities of the contract.

Service may be terminated after the expiration of the initial contract period, upon the Company being notified, and upon payment of all charges due to the date of termination of the service.

D. Procedures for Discontinuance of Service (Cont'd)

2. Service may be discontinued during normal business hours on or after the date specified in the notice of discontinuance. Service shall not be discontinued on a day when the offices of the Company are not open to facilitate reconnection of service, or on a day immediately preceding such day. Service shall not be discontinued for a non-payment of a delinquent charge until five (5) days after a charge has become delinquent.
3. At least twenty-four (24) hours preceding a discontinuance of service the Company shall make an effort to contact the subscriber and advise them of the discontinuance and what action must be taken to avoid it.
4. Discontinuance of service shall be postponed for a time not in excess of twenty-one (21) days if the telephone is necessary to obtain emergency medical assistance for a person who is a member of the household where the telephone service is provided and where such person is under the care of a physician. Any person who alleges such emergency shall, if requested, provide the Company with reasonable evidence of such necessity.
5. Notwithstanding any other provisions of this tariff, service to a customer may be discontinued at any time after written notice has been sent, certified mail, to such customer at the last known address and at the address where the service is to be discontinued. This rule applies in the following situations:
 - a. The customer incurs charges not covered by a deposit or guarantee and evidences an intent not to pay such charges when due.
 - b. The customer damages or evidences an intent to damage the Company's facilities.
 - c. The notice required by paragraph 3.9(D)5 shall state how a customer has evidenced an intent not to pay charges when due or evidences an intent to damage the Company's facilities.
6. A late payment charge of \$1.30 will be added on delinquent accounts, to cover costs accrued in processing, and serving notice of disconnect, as approved in Commission Telephone Authority Order No. 734.

D. Disputes by Residential Customers (Cont'd)

- 4. If a customer disputes a charge, the customer shall pay an amount to the Company equal to that part of the total bill not in dispute. The parties shall consider the customer's prior usage, the nature of the dispute and any other pertinent factors in determining the amount not in dispute. The Company shall not discontinue service for nonpayment of charges in dispute while the dispute is pending.
- 5. If the parties are unable to determine the amount not in dispute, the customer shall pay to the Company, at the Company's option, an amount not to exceed fifty (50) percent of the charge in dispute or an amount based on usage during a like period under similar conditions which shall represent the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.
- 6. Failure of the customer to pay to the Company the amount not in dispute within four (4) working days from the date the dispute is registered or by the delinquent date of the disputed bill, whichever is later, shall constitute a waiver of the customer's right to continuance of service and the Company may then proceed to discontinue service as provided in this tariff.

3.10 Charges for Damages

In situations where impairment or interruption of service is caused by tampering with Company wiring or equipment, the customer instigating such tampering or the person causing the damage will be billed the full cost of labor and materials required to reestablish normal service.

3.11 Connection of Automatic Dialing-Announcing Devices

An automatic dialing-announcing device is any automatic equipment used for solicitation which incorporates the following features:

- A. Storage capability of numbers to be called; or a random or sequential number generator that produces numbers to be called.
- B. Has the capability, working alone or in conjunction with other equipment, of disseminating a prerecorded message to the number called.

Automatic dialing-announcing devices used for solicitation purposes where calls initiated by the device cannot be terminated at will by the called party and dial tone restored to the called party promptly upon termination of the call by the called party may not be connected to the telephone network.

Any prerecorded message issued by an automated dialing-announcing device shall be preceded by an announcement which states the name and address of the calling party, the purpose of the message, and that the message is coming from automated equipment.

LOCAL EXCHANGE SERVICE

Missouri Public
Service Commission

REC'D SEP 21 1999

4. Local Exchange Service

4.1 Description

A. Local Exchange Service

1. Local exchange service provides for unlimited calling within the boundaries of a Northeast Missouri exchange as they are shown on the maps in Section 4.8, unlimited calling to other exchanges to which there is Extended Area Service as listed in Section 4.1 B below, and for connection to the toll network. This service is subject to all terms and conditions as outlined in this tariff. Local exchange service rates are listed in Section 4.6.
2. Local exchange service can be activated by equipment generating multi-tone (touch) signals to the switching equipment.

4.2 Terms and Conditions

A. Business Rates Apply:

1. To any location where activities are of a business, trade, or professional nature.
2. To any location where the listing of service at that location indicates a business, trade, or profession.
3. Where only one network access line is provided at a location which is both a residence and a business.
4. To schools, hospitals, libraries, churches, lodges, and other similar institutions.
5. To any number where public advertising provides evidence that the number is used for business purposes.

B. Residence Rates Apply:

1. In private residence where business listings are not provided and telephone service is not used for the conduct of business.
2. In the place of residence of a clergyman, physician, or other medical practitioner provided the subscriber does not maintain an office in the residence.

4.2 Terms and Conditions (Cont'd)

C. PBX Trunks

PBX trunks are not provided on a one-way basis. Therefore, in only, out-only, or two-way trunks must be used in combinations which provide for two-way service for the PBX system.

Where PBX trunks are provided outside the base rate area, a monthly increment equal to the increment for individual line business service will apply.

PBX trunks are provisioned as either Ground Start or Loop Start.

D. Taxes, Fees, and Charges

When any city, county or taxing authority imposes a franchise, occupation, business sales, license, excise, privilege, or similar tax of any kind on this Company, the amounts therein so far as practical, shall be charged on a pro-rata basis to all customers so affected receiving exchange service within the boundaries of that taxing entity. This tax charge, in all cases, will be in addition to the regular charges for local service and shall be set out as a separate item on the customer's bill.

Where a tax levied on a percentage of gross receipts, that percentage will be applied to each customer's bill so affected and the amount so computed will be added as a separate item to the customer's bill. Where a tax is levied other than on a percentage of gross receipts, Where a pro rata share of the total tax shall be added as a separate item to be paid each customer's bill. All such taxes collected by the Company shall to the city, county, or taxing authority in accordance with the promulgated regulations pertaining to each tax.

4.3 Suspension of Service

Suspension of service is available upon advance notice. Local exchange service will be placed on a zero rate basis for a period of not less than one calendar month, which corresponds to the billing period, and not more than six (6) months. This service applies where a subscriber closes his residence or place of business for the above time and to schools if applied for during vacation. 4.4 Multi-Line Hunt Service

A. Description

Multi-Line Hunt Service is available for Business and Residence Local Exchange Service where more than one line is in service. This service provides hunting over two or more lines in a designated hunt line group when the pilot number line is busy. Hunting is performed only when a pilot number of the hunt group has been dialed/keyed. Sequential or circular hunting for an idle number is performed in the same order each time.

B. Application of Rate

The Multi-Line Hunt Service rate outlined in 4.7(B) below is applicable to each line in the Multi-Line Hunt Service group in addition to the Local Exchange Service rate.

4.5 Concession

Full-time employees of the Company will be provided with local exchange service, interstate end user common line service, and all custom calling, and CLASS features where available, without charge as excess capacity allows. Service Charges will not apply on services provided to full-time employees. All toll charges will apply at 100% of the tariffed rate.

4.9 Lifeline Service

A. General

Lifeline Service is a government benefit program established by the Federal Communications Commission (FCC) and Missouri Public Service Commission (Commission) and is available to qualifying low-income subscribers for certain residential telecommunications services. The terms and conditions of Lifeline service, including monthly discount amounts, are set forth in rules established by the FCC and Commission and available at the Company's office.

(N)

In addition, the terms and conditions of Lifeline service are available on the Company's website as follows: <https://www.nemr.net/voice/lifeline-service/>.

Disabled Service

Disabled Service is a government benefit program established by the Missouri Public Service Commission (Commission) as part of the Missouri Universal Service Fund (MoUSF). It is a residential retail service that offers a qualifying disabled customer reduced charges for certain telecommunications services. The terms and conditions of disabled service, including monthly discount amounts, are set forth in rules established by the Commission and available at the Company's office.

In addition, the terms and conditions of Disabled Service are available on the Company's website as follows: <https://www.nemr.net/voice/lifeline-service/>.

4.9 Lifeline Service

A. General

1. Lifeline Service is available to qualifying low-income subscribers for single party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline Service will not be furnished on a Foreign Exchange service.
4. Lifeline Service shall not be disconnected for non-payment of toll charges providing the Lifeline customer subscribes to Toll Blocking Service.
5. Toll Blocking Service provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll Blocking for the purposes of Lifeline Service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "Toll Blocking Service" the company will not charge a service deposit.
 - b. The rate for toll blocking will be charged on a monthly basis as specified in Service Restrictions.

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

LOCAL EXCHANGE SERVICE

4. Local Exchange Service (Cont'd)

4.10 Payphone Service (Cont'd)

(M)

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

5. Service Charges

REC'D SEP 21 1999

5.1 General

A. Service Charges are nonrecurring charges shown in this Section and apply when the following activities are performed at the request of a customer:

1. Service Connections - New installations or subsequent additions of telephone service and/or a move of an existing service to a different premise.
2. Inside Moves - Transfer of telephone service equipment from one location to another location within the same building or that portion of the same building occupied by the same customer, where there is no interruption of the service other than is incident to the work involved.
3. Changes - Rearrangement of equipment and/or wiring which does not involve changes in location of the equipment or wiring. Also includes directory listing changes and other modifications or rearrangements that do not involve equipment or wiring.
4. Restoral Charge - Applicable for work associated with reconnecting service which has been temporarily disconnected for nonpayment.

B. Service Charges apply in addition to all other dates and charges.

C. The charges specified herein do not contemplate work being performed by Company employees at time when overtime wages apply. If the customer requests that overtime labor be performed, a charge in addition to the specified chargers will be made equal to the additional cost involved.

D. Payment of Service Charges

1. Payment of Service Charges for the establishment of service may be required prior to the establishment of service.
2. Residence Service Charges may be billed in equal amounts over periods not exceeding four (4) months. Only one such arrangement at any one time will be provided.

5.2 Application of Service Charges

A. Service Ordering Charge

1. The Service Ordering Charge is classified as either Initial or Subsequent. The charges are applicable for work done in receiving, recording, and processing information necessary to execute each customer request for connections of service (Initial Order Charge applies), to each order for a move, change, addition to existing service or records change (Subsequent Order Charge applies).
2. A service order will usually be issued for all work or service ordered to be performed or provided at the same time on the same account and for the same premises. Service Ordering Charges apply separately where business and residence service are located on the same premises.

B. Line Connection Charge

1. The charge for work associated with provision of service from the central office including, but not limited to, central office connection, cable cross connections and/or outside plant connections up to and including the protector and/or the point of demarcation.
2. This charge does not apply when service is assumed by a customer prior to discontinuance by another customer and there is no change of telephone number.
3. This charge applies to each change in telephone number made at the request of the customer.

5.3 Service Connections - Link Up Missouri¹

A. Applicability of Link Up Missouri Service Connection Program

1. The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to and designed to promote subscribership to the telephone network among low income residential households.

- (a) Service Connection Charges, as set forth in this tariff, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, or \$30.00, whichever is less². These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence.
- (b) The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period.
- (c) A qualifying low-income customer may choose with 1 or 2, or both 1 and 2 as described above.
- (d) Link Up assistance is available for a second or subsequent time only for a principal place of residence with an address different from the residence address where assistance was previously provided.
- (e) The premises at which the residence service is requested must be the applicant's principal place of residence.

¹ The rates for service connections are not subject to the jurisdiction of the Missouri Public Service Commission.

² The discount established herein does not apply to other charges that may be required at the initiation of service such as security deposit, contributions in aid of construction, customer advances, etc.

6.2 CLASS Service

Custom Local Area Signaling Services (CLASS): Provide end-user services that allow the customer more control over incoming and outgoing calls based on Signaling System 7 (SS7) Hardware and Software. Services are offered where technically feasible and may be available on both an intra- or inter-exchange basis.

CLASS Services may be provided on individual lines, private branch trunks and key business lines, but will not be provided in conjunction with payphone service.

A. Standard Class Features that require Monthly Recurring Charges:

- 1. Caller ID: allows the called party to view the number and name calling through customer premises equipment designed to receive and thus display calling party's name and number. Special customer equipment is required for this feature.

The calling telephone name and number is only available in those areas where appropriate signaling network connections exist to forward the calling party's name and number. This may exclude calls made from most cellular phones or units, calls made through interexchange carriers, and calls originated from other local exchange carriers. The calling number is also not available when incoming calls have been handled by an operator or charged to credit cards. Name and number delivery for calls originating from a PBX will display the main PBX number only. If the caller's number is a multi-party line, or is blocked, the number will not be displayed.

Telephone names and numbers transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the name and number delivery services subscriber. Caller ID customers failing to comply with any of these conditions will have their service terminated.

Monthly Rate

Caller ID service can be ordered by subscribers and includes name and number identification, along with some of the enhancing optional features.

The call will be traced automatically, and the telephone number that originated the call and the time the call was made will be recorded either in the Company office or in the office or in the offices of a law enforcement agency. Information recorded will be released by the Company only to an authorized representative of a law enforcement agency and, in no event, other than as provided by applicable state and federal law. Customer-Originated Trace will be made available to all customers where technically feasible. Charge for the service will be made on a per call basis when the customer uses the activation code. | \$1.50 |
| Customers using customer originating trace will also be billed a usage sensitive charge for the results of each trace. | \$7.50 |
| 3. Selective Distinctive Ringing: allows the customer to define a list of special Directory Numbers. Any time the customer receives a from one of these special numbers, a Distinctive Ring will be applied. Calls received from Directory Numbers not on the list or which cannot be identified will produce a standard ring. If the customer subscribes to Call Waiting feature, a distinctive tone pattern will be applied to that feature if the call is also from the special list. | \$1.50 |
| 4. Selective Call Acceptance: allows the subscriber to define a list of calling Directory names and or numbers that will be accepted. Any calling names and numbers not on that list will be routed to announcements and rejected. The calling party not on the acceptance list will receive an announcement statement that the call is not presently being accepted by the calling party. 5. Selective Call Forwarding: will allow the subscriber to have certain terminating calls forwarded to a designated remote station. The activity will occur whenever a call is received from a Directory Number which has been indicated on a list of numbers referred to as the Selective Call Forwarding screen list. Calls from Directory Numbers which cannot be identified or have not been indicated on the list will be given standard terminating treatment.	\$1.50
6. Selective Call Rejection: allows the subscriber to define a list of Directory Numbers which, upon placing a call to the subscribers line, will be routed to an announcement and rejected. All other calls will be treated normally. The calling party on the rejection list will receive an announcement stating the call is not being accepted by the calling party.	\$1.50
7. Selective Call Waiting: informs a subscriber, when busy on another call, that a call from a telephone number on the screening list is waiting. The user preselects which calls are to receive selective call waiting service by entering and calling telephone number on the selective call waiting screening list: the user may then engage in other calls and be alerted by a burst of Distinctive Call Waiting tone should a call come in from one of the specified telephone numbers.	\$1.50
8. Automatic Callback: permits a subscriber encountering a busy connection to have call setup performed automatically when the called station becomes idle. This feature is designed to automatically set up a call to the last telephone number called by the subscriber, regardless of whether the called telephone number was busy or idle, answered or unanswered. If the call cannot be completed immediately because of a busy line, the call is queued and call completion is attempted when both lines are idle. As part of the completion attempt, the calling subscriber is given special ringing and when the called subscriber answers, the calling subscriber is given regular ring.	\$1.50

(c) Station to Station Dialing - This feature allows an EBS subscriber to complete a call to other lines within the same EBS group by dialing the last one to four digits of the line number. The EBS customer selects the number of digits to be dialed.

b. Add-on Features

(1) Busy Transfer - Allows calls routed to a busy station to be rerouted automatically to another station within the group.

(2) Call Forwarding - When activated, all incoming calls to the line are forwarded to another preselected line.

(3) Call Hold - This feature allows an EBS subscriber to place an established call on hold freeing the subscriber's line to originate another call, use call pickup, retrieve a waiting call, or return to a previously held call.

(4) Call Pickup - Allows the EBS subscriber to answer any ringing phone within the group by dialing a code.

(5) Call Transfer - Allows a subscriber to transfer a call to another line either within or outside the EBS customer group.

(6) Call Waiting - Alerts a subscriber who is using his EBS line that another call is waiting. Audible ring back is returned to the calling party instead of a busy tone. This feature also allows the subscriber to dial a code before placing a call to cancel Call Waiting feature is automatically reactivated.

(7) Directory Number Hunt - Permits incoming calls to be switched to an idle based upon a predesignated hunting sequence.

- (8) Distinctive Ringing - Provides the subscriber with different ringing patterns for calls originating inside or outside the EBS customer group. In addition, a different signal provided on Call Waiting, if the customer subscribes, for calls originating inside or outside the EBS customer group.
- (9) Don't Answer Transfer - Automatically transfers terminating calls encountering no answer to a presdesignated line with the group if the call is not answered within a preselected number (two to ten) of ring cycles.
- (10) Intercom - Allows the subscriber to dial other lines in the EBS group by dialing the pound sign (#) and a single digit.
- (11) Restricted Station Options - Allows the EBS subscriber to predesignate limitations on incoming and outgoing calls to/from an EBS line. Incoming calls may be restricted to calls from the EBS group. Each EBS line may have two different levels of outgoing restrictions. Outgoing restrictions might include EBS group only, local calling only, intraLATA calling only, or interLATA calling only, for example. Limitations may apply and specific restrictions desired must be discussed with the Telephone Company. Each requested restricted is counted a separate basic feature.
- (12) Three-Way Conference Calling - This feature allows an EBS subscriber to form a three-way conference call with two other parties, located either within or outside the EBS Group.

c. Abbreviated Dialing Features

- (1) Convenience Dialing - This feature allows an EBS-I group to use a Convenience Dialing List which associated each of 30 frequently called numbers (up to 15 digits each) with a two digit code. These numbers can be dialed by dialing an asterisk (*) and the two digit code.

- a. In addition to the EBS Station rates as specified in this section, rates for Business One-Party Local Exchange Service apply in accordance with the following table:

Equivalent Business Lines	Number of EBS Stations	
	From	To
2	2	6
3	7	12
4	13	19
5	20	27
6	28	36
7	37	46
8	47	60
9	61	75

The business one party rate (which includes touch calling dialing) is applied to the Equivalent Business Lines and the EBS rate is applied to each EBS station.

Example: When the business rate is \$7.50 per line, and a customer wants three (3) business lines the total line charge is \$22.50. If that customer has eight (8) EBS stations at the rate of \$2.00 each, the total EBS station cost would be \$16.00, thus making the total billing \$38.50, plus appropriate taxes and federal end user charges.

- b. Installation and move and change charges are applicable as set forth in this tariff.

6.3 Conference Bridge Service

REC'D SEP 21 1999

A. Description of Service

This service allows the end-user to reserve a conference bridge located in the Company's central office for convening a dial-in conference call for up to twenty-eight parties. The customer will call the Company's business office to reserve the conference bridge for a specified day and time and will be given a phone number for the conference parties to call at the appointed time.

Up to twenty-eight parties may dial into the conference bridge at the appointed time. Local or toll charges from the calling location to the conference bridge number will be applied.

B. Limitations

Only one conference bridge is available so only one party can reserve the bridge at a given day and time.

C. Rates

1) Reservation of conference bridge

The Service Ordering Charge subsequently specified in Section 5.2.A.1 will apply for reserving the conference bridge.

2) Use of the conference bridge will be charged on an hourly basis with the following charge applying for each full hour or fraction of an hour that the bridge is in use.

Charge per hour or fraction \$4.00

6.4 Directory Listings

A. Published Listings

A primary listing, which may include the name, address and telephone number of the individual, organization, firm or corporation subscribing to Local Exchange Service will be furnished at no charge.

1. Listings will be limited to such information as is necessary for proper identification.
2. The length of a listing may be limited by the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.
3. The Company may refuse to insert any listing which in its judgment does not facilitate the use of the directory.
4. Only one number will be listed in the telephone company directory at no charge for each Multi-Line Hunt group. Unless otherwise directed by the customer and agreed to by the company, the pilot number in the hunt group will be the number listed.
5. The life of a listing is the directory period, which is one year. Listings are automatically renewed each directory period in the absence of a change order. Changes in listings may be made only before the beginning of the directory period.

B. Non-Published Listings

Non-Published service is the omission of a customer's listing from both the telephone directory and directory assistance records. Non-published service is available upon the customer's request and is subject to the applicable rate in 6.4.D following.

6.5 Off-Premise Extension Service

REC'D SEP 21 1999

A. Conditions

1. Off-premise extension circuits are provided to allow the customer the option of extending his telephone service from the normal location to a second location within the same wire center using the company's cable distribution facilities. Off-premises extension circuits are furnished subject to the availability of circuits and provided when no unusual expense is involved.
2. This arrangement is permitted only when all stations within the arrangement are subscribed to by individuals and/or firms associated with one another.
3. Distances for determination of rates shall be based on route miles between the Central Office or the PBX location where the extension is connected and the location of the off-premise extension.
4. Ringing for incoming calls may be arranged so that all bells will ring at the same time, or individual call numbers may be assigned to each station, allowing distinctive ringing to signify that another station has actually been dialed.

LCDE is furnished on facilities up to 32,000 feet from the central office or utilizing digital carrier where available, and where additional construction is not needed.

- B. Speed of data on LCDE can obtain a maximum of 128 KBPS, however, because of the different configurations or facilities that may be necessary for provision, the company does not guarantee any specific speed.
- C. The customer must have appropriate inside wiring and customer premises equipment to support LCDE.
- D. It is the customer's responsibility to make any appropriate changes and to maintain their premises inside wiring to accommodate the LCDE Service requirements outlined herein.
- E. Customer provided equipment must conform with Part 68 of the Federal Communications Commission's Rules and Regulations for connections of customer premises equipment.
- F. LCDE Service is available to both business and residential customers. In order to subscribe to LCDE service, residential and business customers must also subscribe to the appropriate local exchange service as described in Section 4 of this tariff.

6.7 Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI)

A. General

1. Integrated Services Digital Network (ISDN) – Primary Rate Interface (PRI) is a central office based service arrangement that is an alternative for individual access services, such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), 800/888 Services, Wide Area Telecommunications Services, and local business trunks.
2. ISDN-PRI is provisioned on a 1.544 megabit per second (Mbps) facility and uses the ISDN architecture of 23 “B” channels and one “D” channel to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.
3. ISDN-PRI provides the capability to transport customer information in the form of circuit-switched voice or data up to 64 Kbps over any “B” channel.
4. ISDN-PRI and other local services are offered on an end user basis only. Use of such services for transmitting interexchange traffic that does not either originate and terminate at the customer premises is prohibited.

6.7 Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont'd)

B. Regulations

1. ISDN-PRI service is only available from serving central offices equipped with the necessary facilities to provide ISDN-PRI service. Feature availability and service capabilities are dependent on the facilities and the digital technology providing the service.
2. Customer Provided Equipment (CPE) must be NI-2 compliant (meet the National Standard for PRI). Any CPE that requires custom switch features not supported in the NI-2 specification may be supported as an exception.
3. This Tariff provides for PRI switching capabilities only and additional services must be subscribed to under separate sections of this Tariff. Each ISDN-PRI facility is provided with one telephone number. Additional numbers may be purchased at the rates specified elsewhere in this tariff.

1. Caller ID Number is a standard feature.
2. Call-by-Call Service Selection provides an option to the dedicated channel configuration by allowing channels to be configured to access multiple services on a per call basis. With this feature, separate facilities are not required for individual services, such as DID, DOD, WATS, 800/888 services, and local switched access lines.
3. Clear Channel Capability allows the customer to transport 64 Kbps over the PRI channels with no constraint on the quantity or sequence of bits using the “Bipolar with Eight Zero Substitution” method of providing bit sequence independence.
4. Fractional DS1 ISDN-Originating allows the customer to set up N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.
5. Fractional DS1 ISDN-Terminating allows the customer to receive N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.

7.1 Special Construction

REC'D SEP 21 1999

When a special type of construction is desired by a customer, an additional charge is made. This charge is equal to the difference between the estimated cost of the special type of construction and the average cost of standard construction.

Title to all facilities constructed and paid for wholly or in part by the subscriber is vested in the Company.

7.2 Temporary Service

Where plant construction is required to provide exchange, extension line, etc., service, temporary in character, the Company may require the applicant to pay charges based upon the costs involved or to contract for service beyond the initial period or both.

7.3 Installations of Telephone Lines Within Subdivision, Telephone Lines Constructed, Installed and Owned by Utilities in Subdivisions Shall be Installed Underground

A. The following definitions are used in this section of the tariff:

APPLICANT: The developer, builder, or other person, partnership, association, firm, private or public corporation, trust, estate, political subdivision, governmental agency, or other legal entity recognized by law, applying for the construction of a telephone distribution system in a subdivision.

BUILDING: A single structure roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety both physically and in operation for single-family residential occupancy in a subdivision (Definition excludes mobile home).

SUBDIVISION: A lot, tract, or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per a recorded plot thereof if such recordation is required by law.

B. The Company upon receipt of the applicant's proper application will install an underground telephone system with suitable materials to assure that the applicant will receive reasonably safe and adequate telephone service. The provision of the underground telephone system will be provided at no charge except where a charge is permitted under Paragraphs (D) and (F) of this section of the Tariff. Temporary service is provided under Paragraph (E) of this section of the Tariff.

C. Rights-of-way and Easements

1. Within the applicant's subdivision, the Company will construct, own, operate, and maintain underground telephone lines only along public streets, roads, and highways which the Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Company may be obtained without cost or need for condemnation by the Company.
2. Rights-of-way and easements, within the subdivision, satisfactory to the Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Company. 1. Where, due to the manner in which a subdivision is developed, the Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced. If in the judgment of the Company an advance is required under the above described conditions, the Company has the right to refuse installation of the underground system until the required advance is paid to the Company.
2. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro-rata basis as the permanent service connection is made to each building or multiple-occupancy buildings.
3. Any portion of an advance remaining unrefunded ten years from the date the Company is first ready to render service with the extension will be retained by the Company and credited to the appropriate construction account.

E. Temporary Facilities

1. Temporary facilities may be installed to provide service when necessary, for a maximum period of one year.
2. Where it is necessary to place temporary facilities in advance of the permanent underground telephone system in order to provide telephone service, the Company may require the applicant to pay the estimated non-recoverable costs of the temporary facilities. 8.2 976 Service Access Restrictions (Cont'd)

A. General (Cont'd)

- 2. This restriction service enables the customer to prohibit the dialing of calls to 1+NPA-976-XXXX. Calls which are placed using any alternative dialing pattern cannot be restricted.
- 3. 976 Service Access Restriction is available only where technically feasible.

B. Rate Applications

- 1. Service Charges as outlined in Section 5 will be applied to Business customers for establishing this service. Service Charges will not be applied to Residence customers.
- 2. No monthly rate will apply for this service.

8.3 700 Service Access Restriction

A. General

- 1. 700 Service Access Restriction is a central office service furnished to customers, upon request, which allows for access restrictions to be placed on the customer's local exchange telephone service line so that calls to telephone numbers preceded by the 700 NPA will not be completed. When a 700 NPA telephone number is dialed, the call will be diverted to a Company-provided intercept announcement.
- 2. This restriction service enables the customer to prohibit the dialing of calls to 1+700-XXX-XXXX. Calls which are placed using any alternative dialing pattern cannot be restricted.
- 3. 700 Service Access Restriction is available only where technically feasible.

8.4 Toll Access Restriction

A. Toll Access Restriction

Toll Access Restriction provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll Access Restriction restricts 1+, 0+,0-, 8XX IN-WATS and 900 calls.

B. Restriction of 0+ and 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service.

C. Customers must apply in writing for the establishment of Toll Access Restriction.

8.5 Billed Number Screening

- A. Billed Number Screening allows the customer to identify to the Telephone Company that they will not accept any Third-Number Billed and/or Collect calls for billing to their telephone number. The Company places information regarding this screening restriction into a data base that is accessible to interexchange carriers prior to such calls being completed that will refuse to validate the completion of such a call to the indicated number.
- B. Billed Number Screening can be ordered to screen third-number billed call, collect calls, or both.
- C. The Company makes no guarantee and assumes no liability for the accuracy of Billed Number Screening Service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Billed Number Screening Service.

9.1 Operator Verification/Interruption Service

A. Description

1. Customers may obtain assistance in determining if a called line is in use (herein called verification) or in interrupting a conversation in progress due to an urgent or emergency situation (herein called interrupt) by calling the "0" operator.
2. Verification and interrupt service is furnished where and to the extent that facilities permit.
3. The customer shall indemnify and hold the Company harmless against all claims that may arise from either party to the interrupted call or any person.

B. Regulations

1. Verification:

A charge applies each time the operator verifies a called line and hears voice communication.

2. Interrupt:

A charge applies each time an operator interrupts a conversation that is in progress on the called line.

3. If an operator both verifies the condition of the line and interrupts conversation on the same request, the interrupt charge only applies.

4. The charge for interrupt applies whenever the operator interrupts the conversation even though one or the other parties interrupted refuses to terminate the conversation in progress.

5. Charges may not be billed on a collect basis or reversal of charge basis.

6. The charges for verify/interrupt service are in addition to any applicable rates and charges associated with local or Long Distance Message Telecommunications Service.

7. The verify charge will not apply if the number verified is not in use and the operator completes the call.

INTRAEXCHANGE PRIVATE LINE SERVICES

Missouri Public
Service Commission

FILED OCT 21 1999

10. Intraexchange Private Line Services

10.1 General Description

Intraexchange Private Line Services involve the provision of dedicated non-switched facilities of various types between two separate customer locations within the same exchange. The facilities are offered for the use of the customer to provide a communication path or paths between the two locations. Provision of the service is based on the availability of facilities between the two requested locations.

10.2 Conditions

- A. Private Line Service is furnished for the exclusive use of a customer and the customer's authorized users between specified points in the same Local Exchange Service Area.
- B. Private Line Service cannot access nor be accessed by message services provided to the general public.
- C. Private Line Service is furnished for duplex operation on a full-time basis (24 hours a day, seven days per week).
- D. There are two types of facility configurations over which Private Line Service is provided, two-point and multipoint.

a. Two Point

A two-point configuration is a circuit which is provided to connect two customer locations.

b. Multipoint Service

A multipoint configuration is a circuit that is provided to connect three or more customer locations through a Telephone Company hub wire center. Multipoint Private Line Service is provided in the following manner:

- (1) Special Access Lines from the customer location to the serving wire center.
- (2) Supplemental Features - Bridging equipment charges for each bridging location.

10.3 Rate Structure

REC'D SEP 21 1999

A. Element Descriptions

1. General

There are two basic rate elements which may apply to Intraexchange Private Line Service:

- Special Access Line
- Supplemental Features

2. Special Access Line

A Special Access Line provides the transmission facilities to a customer location or the facilities between a customer location and the serving wire center.

One Special Access Line charge applies per customer location at which the facility is terminated. This charge applies even if the facilities to the customer location do not transit a service wire center. This charge also applies even if the customer location and the serving wire center are collocated in a Telephone Company building.

3. Supplemental Features

a. Private Line Service Bridging

Provides for a multi-junction unit (MJU) arrangement to bridge facilities. This function is provided on a per port basis.

FOREIGN EXCHANGE SERVICE

11. Foreign Exchange Service

A. General Regulations

Missouri Public
Service Commission

REC'D SEP 21 1999

1. Foreign exchange service is exchange service furnished to a subscriber from a central office of an exchange other than the one that normally serves the area in which the subscriber is located.
2. For the purpose of this section of the tariff, the term, "Foreign Exchange", shall mean the exchange from which the foreign exchange service dial tone is furnished. The term "Normal Exchange", shall mean the exchange normally serving the area in which the subscriber's premise is located.
3. Foreign exchange service does not come within the Company's general undertaking, nor does the Company obligate itself to furnish such service generally. At the Company's option, where facilities of such a character are available as will permit satisfactory telephone transmission, and where the service is warranted by the circumstances involved, it will furnish the service.
4. Foreign exchange service will be furnished to exchanges within the same LATA as the normal exchange.
5. Foreign exchange service may be provided only in connection with private branch exchange trunk lines, and individual line business or residence service. The service will be furnished only at one location or premises for each channel or circuit.
6. Where the normal exchange is operated by this Company, foreign exchange service is furnished only on the condition that the applicant is a subscriber to individual line business or residence service, or private branch exchange service, in the normal exchange, and at the same location where such service is proposed to be installed. Under this condition, when a foreign exchange service subscriber discontinues normal exchange service, the normal exchange shall immediately notify such foreign exchange subscriber and foreign exchange business office, that the foreign exchange service may be discontinued ten (10) days thereafter.

Missouri Public
Service Commission

REC'D SEP 21 1999

- 7. Where the foreign exchange is operated by another telephone company, foreign exchange service will be provided only when satisfactory arrangements can be negotiated with such company to furnish a portion of the necessary facilities.
- 8. Foreign exchange service will be furnished at the rates outlined hereafter, provided the necessary facilities and equipment are available. Where the facilities and/or equipment are not available, and extraordinary facility costs, equipment costs, special operating expenses, and/or other special considerations are incurred in making such service available, the subscriber may be required to pay an additional charge to cover all or a portion of such unusual expenses, or be required to contract for service beyond the initial period, or both.
- 9. No off-premise extensions will be furnished in connection with foreign exchange service.
- 10. The use of the service is limited to the subscriber and his employees for business purposes, and in the case of residence service, to the members of his immediate household. Foreign exchange service calls will be further limited to calls within the local calling area (including any EAS locations) of all customers in the foreign exchange. If any subscriber to this service is found to be transferring or transmitting messages for parties other than authorized above, in the normal exchange area, or subscribing to any optional calling area plan in the foreign exchange, and/or making toll calls through the foreign exchange, such subscriber and foreign exchange business office shall be notified that the practice must be discontinued or the foreign exchange service may be terminated ten (10) days after the date of such notice.

These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Oregon Farmers Mutual Telephone Company except for those items listed in 12.E as exceptions and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

D. **Provision of Services**

The Company, to the extent that such services are or can be made available with reasonable effort and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein except for those items listed in 12.E as exceptions and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

17. Distance Learning Communications Services Concurrence

REC'D SEP 21 1999

The Company concurs in the rules and regulations governing intrastate interexchange Distance Learning Communications Service as set forth in Oregon Farmers Mutual Telephone Company's Tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Distance Learning Communications Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision Of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to customers, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

MISSOURI SCHOOL DISCOUNT PROGRAM

Missouri Public
Service Commission

REC'D SEP 21 1999

18. Missouri School Discount Program

- A. A discount from standard monthly rates for local exchange business service may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
- B. Upon the customer's request, a discount of fifty percent (50%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph 3, following.
- C. An educational institution shall be defined either as an accredited public school, or an accredited private school which is tax exempt pursuant to 26 U.S.C. § 501(c)(3). Persons operating home schools, as defined in § 167.031 RSMo, shall not be eligible for this school discount program. Private schools must be accredited by either the Missouri Chapter of the National Federation of Non-Public Schools Accrediting Association, Independent Schools Association of the Central State, North Central Association of Colleges and Schools, and/or the University of Missouri-Columbia. Public Schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
- D. The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
- E. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
- F. In addition to meeting the qualification specified in Paragraph 3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
- G. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.
- H. The following local exchange services are eligible for a discount under this program:
 - Flat Rate, business one-party service.

**DISCOUNTS FOR SCHOOLS AND LIBRARIES
PARTICIPATING IN THE FEDERAL UNIVERSAL SERVICE PROGRAM**

1. Discounts on the intrastate services offered through this tariff will be available to eligible schools and libraries. A school or library will be eligible to participate in the discount program if it receives funds from the Federal Universal Service Fund.
2. The level of discount available will mirror the discount percentage level available to the school or library through the Federal Universal Service Fund program. The discount will be applied against the intrastate service rate otherwise applicable under this tariff. The discount only applies to the extent funds are available to the eligible school or library, through the Federal Universal Service Fund.
