**SECTION 7.0 – GRANDFATHERED SERVICES**

---

---

**7.2 TrinsicBUSINESS A La Carte Service\*\***

(S)

Trinsic Business A La Carte service is targeted at small business Customers and provides options based on the Customers calling patterns and estimated usage. Customers who subscribe to this service must designate Trinsic as the presubscribed carrier for local calling concurrent with enrollment for this service. TrinsicBusiness A La Carte provides Customers with the option of selecting Trinsic for toll services.

**A. Local Exchange Service**

There is a one-time charge per line Service Connection Fee for Local Exchange Service<sup>1</sup>.

**B. Toll Service**

**.1 Long Distance Service**

Long distance service is billed in six (6) second increments.

**2. Long Distance Calling Packs**

Customers may choose to purchase Long Distance Calling Packs which provide a set number of long distance calling minutes for a flat rate per month. Toll Free Service is not included in Long Distance Calling Packs. Minutes above the purchased Calling Pack are billed in six (6) second increments.

<sup>1</sup>Service Connection fee is waived for those customers who retain their existing telephone number when switching their service to Trinsic. The charge will apply if additional lines are transferred to Trinsic after the initial order.

*\*\*This service grandfathered effective June 26, 2003 and is available to existing Customers only.*

**7.2 TrinsicBUSINESS A La Carte Service, (Cont'd.) \*\***

(S)

**C. Toll Free Service**

Toll Free Service is available to Customers for incoming calls. Calls originate from any interstate or intrastate location over a toll free number and terminate to a Customer-provided business switched access line. TrinsicBusiness A La Carte Customers who migrate their long distance service to another carrier, but who retain Trinsic as the local service provider will keep Trinsic Toll Free Service until such time as that service is specifically identified as having migrated to another carrier. Call charges are billed to the Subscriber rather than to the originating caller. Rates are neither time-of-day sensitive nor mileage sensitive. Calls are billed in six (6) second increments. Rates are not mileage or time-of-day sensitive. A Monthly Recurring Charge applies in addition to usage rates.

**D. Business Network Rate Service**

Business Network Rate Service is available to Trinsic business Customers for outbound calling from presubscribed lines. This service allows Trinsic Business A La Carte Customers presubscribed to Trinsic for long distance service to call other Trinsic Customers without depleting the call allowance for the plan the Customer has chosen. Call may be made to other Trinsic business Customers or to Trinsic residential Customers. Calls are billed in six (6) second increments after the initial minimum period of six (6) seconds and originate and terminate on Customer-provided switched access lines. Rates are not mileage or time-of-day sensitive.

**SECTION 7.0 – GRANDFATHERED SERVICES, CONT'D.**

**7.2 TrinsicBUSINESS A La Carte Service, (Cont'd.) \*\***

(S)

**E. Calling Features**

These features are offered subject to availability of suitable facilities. TrinsicBusiness A La Carte may include the calling features listed below:

Call Forwarding - Fixed - Call Forwarding- Fixed, when activated, redirects attempted terminating calls to another Customer-specific line. The Customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding-Fixed. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding-Fixed is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Speed Calling - This feature allows a user to dial selected numbers by means of an abbreviated code. This feature is available in an 8 number capacity. The Speed Calling list can only accommodate a number consisting of 15 digits or less.

Caller ID - Allows a Customer to see a caller's telephone number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the number, date and time of each incoming call - including calls that aren't answered by the Customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the Customer to provide the necessary CPE.

Call Waiting - Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. This feature permits the Customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) Customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call. Customers must actively choose this feature on a line-by-line basis. Call Waiting is not available on lines enabled for Rotary Hunting.

**E. Calling Features, (Cont'd.)**

Three Way Calling - Permits the Customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The Customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

Hunting - Routes a call to an idle station line in a prearranged group when the called station line is busy. This feature is available at no charge but must be requested by the Customer.

Distinctive Ring: Distinctive Ringing is a feature that allows Customer to have up to two separate phone numbers assigned to one local exchange line. Each telephone number will provide a distinctive ring on an incoming call to allow for identification of the number being called. A distinctive call waiting tone is also provided for each telephone number, where facilities permit and Customers subscribe to Call Waiting. Distinctive Ring is offered subject to availability of suitable facilities.

**F. Guarantee Incentive Program**

If a Customer is not satisfied with the Trinsic Business A La Carte Service, for any reason, during the first ninety (90) days of service, Trinsic will switch the Customer back to the Customer's previous local exchange provider at no charge. The Customer will not be required to pay any installation charges incurred when switching back to their previous local service provider. This offer only applies to installation charges on existing business lines migrated back to the local service provided subscribed to before switching to Trinsic. This offer does not extend to any new service lines established with Trinsic that are switched back to the previous provider. Customers requesting a switch to the previous provider must have a zero billed balance with Trinsic. Customers will be required to complete and sign a form requesting this offer. This form may be obtained by calling Trinsic's toll free customer service telephone number.

**G. Remote Call Forwarding (RCF) Service**

Remote Call Forwarding allows all calls dialed to a telephone number equipped for RCF to be automatically forwarded to another dialable exchange or 800 service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF customer pays the applicable charges for the forwarded portion of the call. RCF Service is offered subject to availability of suitable facilities.
